1.2.3 Thirdly, if Rahu and Saturn happen to coincide in transit and if Rahu conjoined with Saturn starts aspecting a luminary in the chart, it acts as an excellent medium through which Saturn also operates on the luminary no matter if it has conventional aspects or not. Incidentally readers may consult the ephemris and note that the Saturn-Rahu conjunction usually takes place every 12 years. They may also see if during that conjunction one of their luminaries in the chart was attacked in transit either by Rahu or Saturn or both. The time definitely could have proved extremely disquieting for them.

1.2.4 Fourthly, when an evil lord is posited in the 2nd or 8th house and Rahu's transit impact falls on that evil lord, it is very likely to impair the health of the native. Such adverse effects will rise *pari passu* with the degree of affliction sustained by that evil lord in the 8th house or habitation of the evil lord with either Rahu or Saturn or both therein etc.

Case 1: Born on 6-2-1947 at 4.20 p.m. at Calcutta. Dasa balance: Ketu - 4d. 7m. 7y. *Rasi:* Cancer - Ascendant and Saturn (R); Leo - Moon; Scorpio - Jupiter and Ketu; Sagittarius - Venus; Capricorn - Sun and Mars; Aquarius - Mercury; and Taurus — Rahu.

The native's 3rd and 12th lord Mercury is located in the 8th house. In February 1989 when transit Rahu was on his radical Mercury in the 8th house and received sextile aspects of tansit Saturn from Sagittarius, the native became critically ill. This confirms our presumption that transit Saturn's conjunction or aspect on transit Rahu and *vice versa* invariably maximises Rahu's transit impact on the affected house and planets posited therein.

1.2.5 Lastly, in a theory of Rahu's transit, its transit contact with the radical Rahu in a birth chart should merit special consideration because Rahu is basically a catalyst and so when it conjoins or applies its aspects on the radical Rahu in a horoscope, results expected of that radical Rahu due to its strategic placement stand the highest chance of materialisation. Some examples have been given below to elucidate the viewpoint.

(i) If Rahu is in the 12th house in a horoscope associated with either the 3rd, 4th, 7th or 12th lord, prospects for foreign journey strongly promised in the chart are fulfilled under appropriate Dasa through Rahu's transit contact with the 12th house because the terminal house in Astrology stands for, among other things, foreign travels and Rahu represents alien elements.

Case 2: Born on 17-9-1913. Dasa balance: Mercury: 0d. 1m. 7y. *Rasi:* Aries - Ascendant; Taurus - Saturn; Cancer - Venus; Virgo - Sun; Mercury and Ketu; Sagittarius - Jupiter; Pisces - Rahu and Moon; and Gemini - Mars.

The 12th house is occupied by Rahu with the 4th lord Moon. Venus as the 2nd and 7th lord is posited in the 4th house Cancer trinally connected with the Moon through Rahu. Towards the end of 1961 when Rahu in transit moved from Leo to Cancer, conjoined Venus and applied aspects both on the 12th house and the radical Rahu, the native set sail for the U.S.A. The Dasa-Bhukti at that time was of Moon-Venus whose implications in the context of foreign journey are too obvious to warrant further analysis.

(ii) Rahu in the 7th house aspected by or conjoined with Rahu in transit often leads to marriage. Such marriages may be civil or unconventional depending upon the 7th house Rahu's relationship with other planets in the chart. In a period of 18 years, Rahu can establish transit contact with itself for 7.5 years. So from these 7.5 years, those periods may be identified which also coincide with Jupiter's transit contact with radical Venus or Rahu's transit contact with the radical Venus and Rahu or Rahu's transit contact with the 2nd and 7th lord. In this way astrologers often narrow down the range of enquiry. Keeping Dasa at the background, they often successfully convert an interval estimate into a point estimate and so predict exact year and month of marriage.

Case 3: Born on 17-7-1964. *Rasi:* Sagittarius - Ascendant and Ketu; Aquarius - Saturn (R); Aries - Jupiter; Taurus - Mars and Venus; Gemini - Rahu; Cancer - Sun and Mercury; and Libra - Moon.

The lady to whom the horoscope belongs married on 30-6-1988 during Saturn-Saturn. Saturn is her 2nd lord. At that time Rahu was passing through Aquarius where Saturn is posited and applied aspects on self in the 7th. Transit Jupiter

The Reunification of India and Pakistan — An Astrological Study

N. K. ACHARYA

INDIA obtained independence from colonial rule at Delhi (28-38 N, 77-12 E) at 24.00 IST (sidereal time: 21-05-32) on 14/15th August 1947. Pakistan did the same at 23.59 LMT at Karachi (24.01 N/67.04 E) corresponding to 20-23-42 ST, on 14th August, 1947. With the Ayanamsa of 23.07.49 for 15-8-1947, the cuspal and planetary positions, for both the countries, are as under:

House Cusps

India: I - 37.00.027; II 62-43-35;
III - 84-56-34;
X - 290-47-11; XI - 320-49-21;
XII - 357-52-15.

Pakistan: I - 23-07-11; II - 51-29-50;
III - 75-48-22;
X - 280-28-40; XI - 309-07-27;
XII - 344-19-06.

In both the charts the position of Mars versus Rahu is significant. While in Chart 1, the Ascendant separates Rahu from others, in Chart 2 of Pakistan, Rahu separates the Ascendant from all the others. Rahu, the key planet for both, is in Sun's star, lord of 5th in both. In the Saptamsa chart, the Sun is placed in the 5th for India, aspecting the 11th. The Sun in the 8th aspects the 2nd, in the case of Pakistan. And Mars, another key planets is in Rahu's star. So Rahu-Sun-Mars nexus is present in both the charts. Presently the axis is along 9/3 for both.

Natal Rahu aspects the 10th, the 12th, the 2nd, the 4th and the 6th for India. Rahu and Saturn are separating along 9/10. Shortly transit Rahu will be aspecting natal Rahu. On the day of exact aspect, skirmished along the border are not ruled out.

Planetary Positions

The sign lords, star lords and sub-lords are all the same. In the case of sub-sub-lords, the position is also the same, excepting for Moon and

*Sub means further sub-division of a star-zone, in the ratio of years allotted to each planet according to Vimshottari Dasa. Each sub-star-zone begins with the planet whose star is being divided. For example, Aswini ruled by Ketu extending from 00-00 Aries to 13-20 Aries is divided into 120 parts, allotting these 120 parts in nine groups beginning with Ketu's 7 parts, and ending with Mercury 17.

Badhakas and Marakas

For Pakistan, Badhaka lord Saturn is in the 4th, the 6th from the 11th, aspecting 6th, 10th and the 12th. Maraka lord Venus is conjoined with Saturn and aspecting the 10th. Mars, the Lagna lord, is in the 2nd, aspecting the 5th, the 8th and the 9th. Mars is the 8th lord as well. Mars is in the star of Rahu (placed in the 1st), sub of Rahu and sub-sub of Saturn. Sub of the 8th house is Venus, lord of the 2nd and the 7th. No planet is in Venus' star. In Shashtamsa chart, Lagna is Leo, occupied by none. Its lord Sun is in the 8th. The Lagna is opposed by Venus and Saturn. The chart is spoiled. End of Ayu (longevity) is foreseen during Venus-Saturn.

For India, the Badhaka lord is Jupiter, placed in the 6th, in the 11th from the 9th, aspecting the 11th, the 12th and the 2nd. Maraka lords are Mercury and Mars. Mercury is in the 3rd with 3rd lord aspecting the 9th. Mercury is lord of the 6th as well. Mars is in the 2nd aspecting the 5th, the 8th and the 9th. Mars is in the 9th from the 7th. Mercury is in the 3rd (placed in the 2nd from the 2nd). Sub of 8th house is Venus, lord of Lagna. None in Venus' star. In Shashtamsa chart, the Lagna is Scorpio, occupied by a debilitated Rahu. It is aspected by Mars as Lagna lord. Jupiter does not aspect this Lagna or the 8th house. Mercury (as lord of the 2nd and the 6th in natal chart) is in the 2nd, ruled by Jupiter aspecting the 8th ruled by himself. Saturn aspects the 6th, the 10th and the 1st. Venus aspects the 10th. This chart is fortified. Gain of Ayus (longevity) and surrender of enemy (disease) during Venus-Saturn are indicated. Matters relating to the 2nd, 3rd, 5th, 9th and 11th houses are poised for gain.

Twelfth House (Separation)

Pakistan

The sub of 12th is Rahu. Rahu is in Venus-Sun-Saturn-Jupiter. Mars alone is in Rahu's star. Mars as lord of the 1st and the 8th indicates both birth and death. Rahu indicates:

(a) *as Venus:* gain (2nd), turmoil and opposition (7th) and loss of life (7th is 12th to 8th); (b) as *Sun:* birth, attempts etc. (5th); (c) *as Saturn:* the government (10) and final gain, desired (11); (d) as *Jupiter:* destiny (9th).

Therefore, unified India, prior to 15-8-1947, brought about by different rulers had to be divided during Saturn period (Dasa at the time of partition). Mercury-Venus saw further disememberment *i.e.*, birth of Bangladesh.

India

The sub of 12th is Jupiter. Jupiter as lord of the 8th, the 9th and the 12th is in Venus-Jupiter-Ketu-Venus. Jupiter is in his own star.

Jupiter for India represents (a) *as Venus:* truncated body, gain to enemy (Venus is in Mercury's star, as lord of 2nd, 3rd and 6th), Lagna not approached by Rahu, from 12th, a half-entity. Venus is the star lord of Rahu; (b) *as Jupiter:* death (8), suffering (8), surrender (8), separation (12), destiny (7), loss (12); (c) *as Ketu:* opposition, turmoil (7); (d) *as Venus:* Division (1).

The separation or division was pre-destined, resulting in turmoil, suffering, agony, loss and opposition.

As Lagna lords of both the countries are natural enemies, the persisting confrontation and mutual distrust continues. Badhaka lords add to misery from time to time.

During Venus-Saturn-Saturn Baluchistan may opt for merger with Afghanistan. Nepal opting for a confederation with India is not ruled out. As I do not have the chart of Nepal, I am unable to comment upon the details. However, a major portion of Bangladesh may rejoin India, leaving behind a smaller country around Dacca (Chittagong). Bhutan will merge with India. Sri Lanka will not.

The combination of retrograde Saturn and retrograde Jupiter in Aries in December 2000 will see an uncontrollable uprising in Pakistan leading to merger with India seven months after.—61.91.

culled from cheap newspaper forecasts?

If you can answer these questions honestly armed with facts, one would be willing to concede scientific temper precedes your statement and not, official status divorced from scientific inquiry, which seems to be the fashion current today in some segments of the scientific community.

Perverse Logic, Stupid Conclusions

And there is this don K. S. Sastry from a Hyderabadi University who says, commenting on Astrology, "For one, the Sun and Moon are regarded as planets by them when we actually know that the Sun is a star while the Moon is a satellite...." Shades of our local don, eh? But very logical and I agree with him because just the other day I read in the papers that Mr. P. V. Narasimha Rao and other VIPs flew to Bonn. That was a big lie because I am sure everyone knows PVN did not fly. In the first place he has no wings and in the second, he was most of the time comfortably seated in his plush seat during the journey. What cheek these newspapers have to tell us not only he but his entire team flew along with him! When, we actually know that it was the plane that flew and PVN was stationary all the time.

Further down, this brilliant don says if you go to different astrologers, they give you different predictions for the same horoscopes while the omniscient astronomers, parrot-like, repeat the same characteristics or properties of any star. The difference should be obvious if you can appreciate the fact Astrology deals with the extremely complex thing called life made up of living beings, human emotions and passions unlike astronomy which deals with inanimate physical bodies.

Oversimplification cannot provide answers Mr. Don and can even lead to ridiculous consequences. Are you suggesting, by your own line of argument, that since cancers are everywhere the same, they need the same treatment and drugs and therefore all cancer patients must be given identical prescriptions and courses of treatment? In such an event, why would we need expensive nursing homes, treatment and individual attendance on cancer patients? You can easily dispense with all this fuss by publishing the line of treatment and the drugs to be administered in cheap paperbacks and make them available to all cancer patients to follow and cure their cancers. That is the logical result of perverse arguments. ***Tackling astrological charts from the marts of life is not as simple as teaching theoretical astronomy in cosy classrooms.*** To even distinguish the wide gap between these two needs some degree of intelligence at least.

on 30th June 1988 was on her radical Venus in Taurus. Incidentally it may be noted that Rahu from Aquarius also covered the native's Rasi through its aspect.

(iii) Rahu either in the 2nd or 6th or 10th house in a horoscope generally gives good results with regard to service, profession and general success in life provided such Rahu is strongly placed and preferably friendly to the Ascendant lord. For example, Taurus is rising and Rahu is in the 6th house, Libra, or 10th house, Aquarius. If the Moon's ascending node so posited in a horoscope happens to be connected by transit Rahu, it may create sudden opportunities for promotion or elevation of status in life. The entire period of 1.5 years may prove quite rewarding to the native, of course, with varying intensity - depending upon the interaction of other transit planets on the radical Rahu. Furthermore, the transit rule has been observed to be particularly operative for the Ascendants Taurus, Gemini, Virgo, Libra, Capricorn and Aquarius whose lords are extremely friendly to Rahu.

Case 4: Born on 9-2-1933. *Rasi:* Capricorn - Ascendant, Sun, Venus and Saturn; Aquarius - Rahu and Mercury; Cancer - Moon; and Leo - Mars (R), Jupiter (R) and Ketu.

The owner of the horoscope always gets a favourable direction in life whenever Rahu in motion establishes contact with the natal Rahu in his 2nd house. For instance, his joining as a Class One officer in a state government in 1958 coincided with Rahu's transit through Libra — the meridian of his chart wherefrom it trinally aspected the 2nd house radical Rahu. In 1964 middle, transit Rahu from Gemini aspected his radical Rahu and he got a significant lift. Readers may kindly note that Jupiter at that time also aspected the native's Sun in the Ascendant. Recently, Rahu from Capricorn again energised the native's radical Rahu by the 12th aspect. Exalted Jupiter passing through Cancer aspecting his radical Sun also gave him a big leap forward.

1.3 This paper has tried to identify certain areas where fruitful research in Astrology on the transit of Rahu can be made. Empirical findings based on cross-section data when fitted into the simple classical framework will definitely enhance the usefulness of the simple model as presented in para 1.1 of the paper in answering specific questions with which astrologers are often troubled by their admirers.—41.91.

Evolution of Horary Astrology

K. K. PATHAK

ACCORDING to Dr. B.V. Raman, "Horary Astrology is the most important branch of the three divisions of the astrological science, the other two being Jataka and Prashna. It takes as the basis for predicting the future, the horoscope set for the moment a query is put. Horary has a further advantage over the Prashna in the sense that the time of query is known accurately. In fact, the time at which a query is put is the time of birth of the intention or desire in the mind of querent and hence, of great significance. The question, however, must be seriously put if the answer is earnestly desired and if correct results are to be obtained. Any question posed light-heartedly or with mischievous intention should be dismissed by the astrologer. Horary Astrology is the art of perceiving relation between the thought as it arises in the mind and the pattern of the heavens at the moment. This gives a clue for forecasting an event. Hence Horary Astrology is the most practical and useful branch of knowledge."

2. To quote Mr. V. S. Sastri "It is admitted on all hands that this branch (Horary) is as important as any other. There are some who scoff at this branch, for, they say that the predictions are largely based on chance. But they forget the fact that their own birth is but the effect of some strange chance."

3. Although Horary Astrology is the most important branch of Astrology or just an auxiliary to Predictive Astrology may be an interesting point for debate, it, however, cannot be denied that Horary Astrology has more practical utility than some other branches. For professional astrologers, perfect knowledge of Horary Astrology and Mundanal Astrology is felt more important. Since Astrology has been a means of livelihood in all parts of the world like medicine it follows that Horary Astrology must have been in evolution for thousands of years in India as in the case of other important branches of Astrology. Some Western scholars have had an erroneous view that Hindu Horary Astrology is fully borrowed from Greek or Babylonian sources. These Western scholars have not cared to study meticulously pre-Varaha-mihira works on Horary Astrology. Also they have failed to make distinction between Horary and Tajaka Sastra. We have had Hindu sources of Horary Astrology as far back as 3000 B.C. Although the Jain system of Hindu Astrology appears to be on evolution on par with Hindu system ever since 3000 B.C. itself, we have definite proof of a growing Jain system of Astrology since about 1000 B.C. Parasara is said to be the best authority for the Hindu. Garga is equally claimed by the Hindus and the Jains. Both Parasara and Garga lived in 3000 B.C.

4. Horary Astrology in India is based on three main principles:

(i) Prasna Kala System : It is based on time of question. Prasna Kundali is cast in the same way as Janma Kundali in east.

(ii) Swara Siddhanta: It is based on incoming and outgoing of breath of astrologer and querent.

(iii) Prasnakshara System: It is based on alphabets used by querent. It is said to be based on some secret rules of human psychology.

5. While Horary based on Swara Siddhanta and Prasnakshara Siddhanta is undisputedly Indian in origin Horary based on Prasna Kundali appears to have been improved upon through the aid of Greek and Babylonian sources though it has been able to preserve its basic Indian character.

6. Parasara: Seeds of Horary Astrology appear to have been sown in a systematic manner for the first time in *Brihat Parasara Hora Sastra*. This book has a full chapter on Horary Astrology containing 78 *slokas*. Longevity, death, diseases and lost horoscopy can be ascertained through rules discussed by Parasara.

7. Anga-Vijja: It is a Jain Horary work. Predictions are made here on observance of behaviour of the questioner. The author of this book is not yet known but this book appears to have been authored in the 3rd or the 2nd century B.C.

8. Kalkacharya: He lived in the 1st century B.C. He was a Jain scholar. He made contributions to Nimitta and Samhita. He visited Iran and Iraq and improved Hindu Ramal Sastra and Jain Horary system.

9. Lallacharya: He was born in Saka Samvat 421. He has also discussed about Horary rules in his work *Shishya-Dhi-Vriddhi.*

10. Varahamihira: Whether Varahamihira belonged to 152 B.C. or 505 A.D., it is now admitted on all counts that he had authored a full book on Horary Astrology, which is known as *Daivagna-Vallaba.* Basically, this book appears to be an expansion of Parasari rules of Horary Astrology. But Jain Prasnakshara system also finds some place in this work. Also, it appears from Sloka 17, Chapter 2 of this work that Varahamihira has given due weight to Bhavas or houses as followed by the Yavanas (Greeks and Babylonians).

Yata yata bhaveshu yata vastu kathitam yavanadibhih,

Tat karya sangya makhyastam tatah prasna vicharna

It has 15 chapters. It deals with matters of travel, enemies, foreign sojourn, return to homeland, victory or defeat, death and diseases, gain or loss of wealth, all kinds of worries, rainfall, kinds of marriage, pregnancy, delivery, dreams etc.

11. Prithuyasas: He was the son of Varahamihira. He also authored a book on Horary Astrology, which is known as *Shatpanchasika.* This book is smaller than *Daivagna-Vallabha.* It deals with the same matters though quite briefly. An important aspect of this work is that it takes into account not only Prasna Lagna but also Prasna Nakshatra, Chandra Lagna and Chandra Nakshatra.

12. Arhachchudamanisaara: It was authored by a Jain astrologer Bhadra Bahu in the 4th or 5th century A.D. It is an ancient Jain Horary work. It follows Prasnakshara methodology.

13. Chandronmilan: This Jain work was also authored in South India in the 5th or 6th century A.D. It is also based on Prasnakshara system. Its author appears to be unknown. This Horary work got immensely popular is South India and it gave rise to Kerala Horary. *Kerala Prasna Sangraha, Kerala Prasna Ratna* and *Kerala Prasna Tatwa Sangraha* are in the footsteps of *Chandronmilan.*

14. Bhattotpala: He belonged to Saka Sam... 888. He was a great commentator on works of Varahamihira, Prithuyasas and Brahma Gupta. He authored a book on Horary Astrology, which is known as *Prasna-Gnanam.* It covers 700 Sloka... Mr. V.S. Sastri has made a fine translation of the work. This work is a further advancement of Varahamihira and Prithuyasas. It deals with almost the same topics as dealt with by Varaha... and Prithuyasas.

15. Bhatta Vosari: He was a Jain astrologer of the 10th century A.D. His *Aaya Tilak* is a fo... work on Horary Astrology. It follows a unique method. There are eight kinds of *Aaya* known as Dhwaja, Dhooma, Simha, Gaja, Khara, Swana, Vrisha and Dhwanksha through which questions can be answered. In a way the use of animal symbols reminds us of the symbols used in Chinese Astrology. Chinese influences in Hindu Astrology are not ruled out as the Chinese regularly visited India during the Gupta period and onwards.

16. Durga Deva: In 1089 Vikrama Samvat he wrote a book on Horary Astrology known as *Rishta Samuchaya.* In this book eight different methods of answering questions have been outlined. They are : *Angul Prasna, Alakta Prasna, Gorochan Prasna, Prasnakshar Prasna, Sakuna Prasna, Akshara Prasna, Hora Prasna* and *Lagna Prasna.* Basically it is a Jain work but it has also taken some clue from Hindu system as far as Hora Prasna and Lagna Prasna are concerned.

17. Malli Sen: He belonged to Dharwar in South India. He wrote a Horary book known as *Aaya Sada Bhava* in 1043 A.D. Questions can be answered through the aid of 8 *Aayas* known as Dhwaja, Dhooma, Simha, Mandal, Vrisha, Khara, Gaja and Vyasa. This book appears to have taken clues from an earlier Jain Muni Sugriva.

18. Jain Horary appears to have been largely influenced by Dravidian views. Prasnakshara system on getting popularised after *Chandronmilan* and Kerala Horary works was followed by *Aaya Prasna Pranali.* Amongst Jain astrologers in the 8th, 9th and 10th centuries A.D. Jain Muni Sugriva is said to be the originator of *Aaya Pranali.* Ravana, Sugriva, Bali and Hanuman were all Dravidians. *Ravana Samhita* and *Hanuman Jyottsha* prevalent amongst the Hindus confirm that they were astrologers. *Hanuman Jyotisha* is a book on Horary Astrology frequently used by street astrologers to earn their livelihood. Possibly, Sugriva of Ramayana age also authored some book on Horary which the Jains might have claimed as a Jain work. Anyway, *Aaya Gya...*

IRANGANTI RANGACHARYA

ARGALA Rajayogas are constituted by the Subhargala Yogas connected with the 1st category of Argala signs (Principal Argala signs 2nd, 4th, 11th) and 3rd category of Argala signs (S.A.S. 5th, 9th) from the aspecting planet-4, aspecting planet-5 and aspecting planet-6 (Please refer to Lesson 3). The following are the four categories of Argala Rajayogas in the descending order:

(1) Poornargala
(2) Tripadargala
(3) Ardhargala
(4) Padargala

(1) Poornargala Rajayoga

This Yoga is formed when the Yogada is in a movable sign (Aries, Cancer, Libra, Capricorn). Now find out the Argala signs from the Yogada (2nd, 4th, 11th, 5th, 9th). If any three Argala signs coinciding with the movable, fixed and dual signs are occupied by the planets, the Subhargala Yoga, so formed, is called the Poornargala Rajayoga. This Yoga is effective when the corresponding Virodhargala signs lie vacant. I have not been able to get the horoscopic chart of any native with Poornargala Rajayoga. The speculative horoscope given below will help understand how Poornargala Rajayoga is formed.

Janma Lagna is Aquarius. Navamsa Lagna is Libra. Jupiter is in Leo Navamsa.

Jupiter in Cancer aspects Janma Lagna Aquarius in Rasi. In Navamsa chart, Jupiter in Leo aspects Navamsa Lagna, Libra. Hence Jupiter becomes an aspecting planet-5 (Yogada). Yogada Jupiter is in Cancer, a movable sign. From Yogada Jupiter, the 2nd sign (fixed) is occupied by Mars, Mercury and Venus, and the 4th sign (movable) is occupied by Jupiter. The 9th sign (dual) is occupied by the Moon. This Subhargala Yoga constitutes Poornargala Rajayoga connected with the Yogada in a movable sign, with the involvement of movable, fixed and dual Argala signs.

(2) Tripadargala Rajayoga

This Yoga is formed when the Yogada is in a fixed sign (Taurus, Leo, Scorpio, Aquarius). Now reckon the Argala signs from the Yogada. If any two Argala signs coinciding with (1) movable and fixed, or (2) movable and dual, or (3) fixed and dual, are occupied by the planets, the Subhargala Yoga so formed constitutes Tripadargala Rajayoga. This Yoga becomes Poornargala Rajayoga, when one more Argala sign is involved due to occupation by planets. Remember the Yoga is effective when the corresponding Virodhargala signs lie vacant. The following example clarifies Tripadargala Rajayoga.

Janma Lagna is Libra. The Moon in Leo aspects Janma Lagna Libra in Rasi chart. Janma Lagna is 13° and hence its Drekkana Lagna is Scorpio. The Moon 1° in Leo is in the 1st Drekkana Aries. Hence the Moon in Aries aspects Drekkana Lagna Scorpio in Drekkana chart. Hence the Moon becomes the Yogada (Aspecting planet-5). So from the Moon the 2nd principal Argala sign (dual) is occupied by the Sun and the 4th principal Argala (fixed) is occupied by Saturn. Hence this forms Subhargala Yoga. Since fixed and dual signs are involved in the Argala signs, Tripadargala Rajayoga forms. Since the 9th Argala sign also is occupied by Jupiter, Tripadargala Rajayoga becomes Poornargala Rajayoga.

Horary -- The Art of Precision Prediction -- II*

CHANDRAKANT S. KOTHA

Example 3:

ON 7-3-1990 a client walked in and told us that he did not have his horoscope, but he was under tension and wanted to get an answer to only one important question. The question was asked at 6-10 p.m. at Bombay (Chart 3).

Q. Whether I will have a happy married life?

			JUPIT. 7°
MERC. 12° SUN 23°	Chart 3 RASI		MOON 6° KETU 22°
VEN.9° MARS 3° RAHU 22°			ASCDT.
SAT. 28° NEP. 20° URA. 15°		PLUTO 24°	

The lord of Lagna is in the 7th house, so the question relates to married life. The 7th lord is in the 5th with Uranus and Neptune in Sagittarius. It shows problems in love-life and possibility of divorces and multiple marriages. The 5th lord is in Gemini in the 11th, again a double sign showing more than one marriage. Lord of Gemini is in the 7th and this confirms the above pattern.

Besides, the Lagna degree is in Pubba Nakshatra whose lord is Venus. Venus is in Sravana Nakshatra whose lord is the Moon. The Moon is in Cancer in Aslesha Nakshatra whose lord is Mercury, who in turn is in the 7th in Poorvabhadra Nakshatra whose lord is Jupiter. Jupiter is in the 11th house in Gemini in Punarvasu Nakshatra whose lord is Jupiter. Thus the Lagna degree is connected with the 6th which, in turn, gets connected with the 12th and the 12th gets connected with the 7th, which again gets connected with the 11th. It means that the person's married life got diseased (6th) resulting in privation (12th) and his aspirations (11th) got constrained. Why this has happened can be seen from the lord of Lagna pattern as explained earlier. Nakshatra-wise lord of Lagna is in Uttarabhadra Nakshatra whose lord is Saturn. Saturn is placed in the 5th afflicted by Neptune and Uranus who indicate peculiar experiences in love-life and divorce. Saturn is in Sravana Nakshatra whose lord is the Moon and he placed in the 8th from the 5th showing death end of love-life. Since Saturn is in Sagittarius very well known for multiple marriages, it means that the marriages are repeatedly on the rocks. The Moon again is in Aslesha Nakshatra controlled by Mercury who is in the 7th house completing the pattern.

In view of the above we told him that his horoscope chart indicated multiplicity of marriages ending in divorce and his aspirations were not likely to be fulfilled easily. Nevertheless, he would continue to get married as he could not remain unmarried for long. He then narrated the following story.

He was married in May 1983. The marriage proved disastrous. The wife was much younger than him. He was able to get a divorce in 1985. But he could not remain without marriage. He married another woman, senior to him by a few days, but good looking and very rich. However she had her own ideas of a career. She went to the Gulf for service and their relations started getting strained. Finally this marriage also broke up and in February 1990 he got a divorce from her. We advised him not to get married and suffer the same fate again. Saturn-Jupiter opposition was to repeat in Gemini-Sagittarius in 1990 and again in Cancer and Capricorn in 1991. We, therefore, advised him not to marry till Jupiter had moved into Leo in August 1991.

Example 4:

On 19-4-1991 a young man came to us. He asked us his prospects in career. The time was 1-45 p.m. at Bombay (Chart 4).

MERC. 27°-27'	SUN 5°-2'	VEN. 13°-4'	MARS 15°-04' MOON 4-42°-52' KETU 29°-02'
SAT.2°-28'	Chart 4 RASI		ASCDT. 22°-15' JUPIT. 10°-25'
URA.20°-5' RAHU 29°-02'		23°	

The Lagna lord, which is the 10th lord, is placed in the 12th, with Ketu representing Mercury. The Moon is afflicted by Mars (lord of 10

indicating employer and also the 5th lord showing pleasure/the diplomatic circle like Ambassadors etc). Ketu represents Mercury who is in the 9th house (Ketu, therefore, denotes foreigners). Jupiter the 9th lord is in Lagna severely afflicted by Saturn. The 2nd lord (representing earning) is the Sun (the Sun when he was in Pisces, which in this case represents the past as far as earning is concerned, was under the aspect of Saturn and now in Aries) who is proceeding to a square aspect with Saturn first and Pluto next and in between he would be in square with Jupiter. Mars, the 10th lord, is under affliction of Uranus, Neptune and Rahu from the 6th house, which indicates secret (Neptune) and abrupt (Uranus) trouble in employment (because Rahu deputing for Jupiter being in Sagittarius has also joined the afflicting forces). Besides, Jupiter himself is under affliction.

The above position shows that the person is trapped, because lord of the Lagna is in the 12th, and isolated and in prison. Since lords of Lagna and the 10th are placed in Gemini, a sign of communication, documentation and so on and whose lord is placed in the 9th house, which represents here foreign father figure, whose lord again is placed in Lagna and in affliction, indicates that he has been trapped because of some communication or some document signing, which he must have made to foreign father figure or in simple words to his boss. As Mars also rules the 5th house there is a possibility of pleasure ingredient also creeping in the episode. As Saturn afflicts Jupiter representing in this case both employment and boss or father figure and Saturn in turn is the lord of 7th house (representing inter-personal relations and also 8th house, indicating the end of the episode), it was evident that the communication or document signing had trapped this man, which he must have done to please his immediate boss (indicated by Mars, the lord of 10th and especially because Mars is also with lord of Lagna) and help him in getting some pleasure or so, because Mars is also lord of the 5th house. Because of this the father figure, indicated by Jupiter, became helpless and must have terminated the person's job.

We told him our above interpretation. What actually happened was that the gentleman was in employment of a foreign Consulate, as Public Relations Officer. The Consulate was of the country where liquor drinking is prohibited by religion. The Vice-Consul instructed the PRO to go to the Consulate-General and obtain his signature for a liquor permit. As per instructions the P.R.O. went to the Consulate-General who got very annoyed and warned him such attempts again in the future would lead to the P.R.O.'s services being terminated.

The matter did not get settled at that stage. After some time the Vice-Consul again called him and asked him to make enquiries in another Consulate of a country, in which also drinking liqour is prohibited by religion, whether the Vice-Consul's signature would do to get liquor. The P.R.O. was in a dilemma. He tried to plead with his boss explaining to him that his phoning the other Consulate could create serious problems for him, but his boss remained adamant. Helplessly he phoned his counterpart in the other Consulate. However, the Consulate-General of the other Consulate came to know about the enquiries made and reported the matter to the Consulate-General, who had earlier warned the P.R.O. that his services would be terminated. The result was obvious. The P.R.O. lost his job. The Vice-Consul promised him that he would try his best and get him reinstated. We advised that he should not rely on the words of his ex-boss, because he himself would eventually come under severe strain as Mars would come in opposition to Saturn. Since the lord of the earning, Sun, is in exaltation he would get good employment after Jupiter-Saturn opposition was over.--76.91.

(3) Ardhargala Rajayoga

This is the case of a Yogada in a dual sign. If any 1st category of Argala sign (2nd, 4th, 11th) is occupied by the planets, the Subhargala Yoga becomes Ardhargala Rajayoga. If one more Argala sign is involved, Ardhargala becomes Tripadargala Rajayoga. If two Argala signs are involved in Ardhargala Rajayoga, this becomes Poornargala Raja Yoga.

(4) Padargala Rajayoga

When the 5th or 9th Argala sign from the Yogada is occupied by a benefic planet or by exalted malefic, Padargala Rajayoga is formed.

N.B: Judge the Subhargala Yogas, if formed by the reverse reckoning of the Argala signs, from the aspecting planet or Yogada placed in an even sign. By this principle, Poornargala Rajayoga forms in the horoscopic chart of Pandit Nehru. The readers may refer to my articles in THE ASTROLOGICAL MAGAZINE, June-July 1990.—796.91.

TEACH yourself PALMISTRY -- 3

DR. T. S. VASAN, B.Sc., B.L. Ph.D., F.R.A.S. (LONDON)

ACCORDING to the old masters of Hindu school like Mahadeva and Prahalada, there are 5 factors for longevity. They are the fingers, hair, teeth, nails and skin. It is said that these should be soft and smooth for good longevity. A long thumb which goes above the lower phalange of the fore-finger (tharjini) and the little finger (Kanishta) above the top crease of the ring-finger (Anamica) bestow wealth, valour, longevity, intelligence and prominence in society. The fingers, which are uneven, showing extra or deficient growth, will make the possessor lack in wealth and longevity. The fingers which are good in appearance will give happy and prosperous life in general. Slender fingers will bestow intelligence and wisdom. If they are long, they bestow longevity and high individuality. The fingers which are thick and heavy can make the person monetarily weak. Small and flat fingers are not auspicious.

When the fingers are closely held if they happen to leave some space between the little and ring finger, ring and middle finger and middle and index finger, they indicate prosperity in old age, middle age and young age respectively. If the space is wide between all the fingers, it makes one poor and a destitute who lacks money and position in life.

Longevity can also be assessed on the basis of the little-finger by comparing it with the ring-finger.

A very long little-finger will bestow 100 years. If the little-finger touches the top crease of the ring-finger about 70 years is indicated. Further increase in longevity can be assessed by measuring the length of the little-finger above the top crease of the ring-finger by a barley corn. Each grain of corn represents 10 years of life. If the little finger is below the top crease of the ring-finger, the longevity should be assessed as below 70 years and reduction has to be made on the same basis. The names of the four fingers and the thumb in the Hindu system are Tharjini, Madhyama, Anamica, Kanishta and Angushta respectively. The phalanges of the 1st four fingers represent the 12 zodiacal signs of Hindu Astrology.

We know by now that the human hand is analysed on the basis of the Mounts and Lines apart from the shape, texture, colour etc. Whatever school we follow the meaning of the Mounts or Sthanas on one hand and the lines or Rekhas on the other hand have specific significance attached to them. In this connection one has to understand that major Mounts have their respective lines and fingers to interpret their relative strength and weakness.

It is very interesting to note that in the Western School each finger stands for a particular system of the body. The Jupiter finger stands for lungs (respiratory system) and the Saturn finger stands for the digestive system. The Sun finger stands for the circulatory system. The little-finger stands for the reproductive system. The thumb is the centre of all the systems or it may be connected with the central nervous system. Apart from these, the Hindu system lays stress on the signs such as temple, flag, canopy, fish etc. The Sanskrit *slokas* are replete with the significance of these signs. A very weak Sun and Fate-Line only should not be construed as signs of misfortune or ill-luck without properly identifying the other Hindu signs mentioned earlier. It requires long years of experience to identify the above signs. A good fish mark, for example, will give position, wealth, offspring, longevity, loving partner and a good career. My own experience in the line has convinced me beyond doubt that signs such as elephant, horse, crocodile, crow, serpent, human head, symbols of the Sun and Moon are present in the hands and they are not merely pictures in the book of Palmistry. These symbols will change to a very great extent the destiny patterns of individuals. Hindu Palmistry says that heavily creased lines indicate worried life with lack of peace of mind but poverty is attributed to a crude hand with ugly fingers.

In the Western system the fingers have been categorised as knotty, smooth, even, uneven, straight, stout, slender and crooked types.

The Mystery of the *I-Ching* — IV*

U. S. PULIPPANI

Interpretation

FIRST read the judgement, image and other common factors of Hexagrams. This will explain the nature of the present situation, of the subject-matter of the question asked. Then, read the general conditions of the Hexagram (Judgement etc.). Read also the moving lines with their explanations. The latter is to be given importance, since the moving line only transforms into future condition and forms the resultant Hexagram. If you get more than one moving line, give the topmost moving line main consideration to understand the transformation of the condition into the result explained by the resultant Hexagram. The final assessment should be decided by the resultant Hexagram In the new Hexagram, the answer should be judged by indications of the judgement, image and other common factors explained. *The lines should not be considered in the second Hexagram.* The answers can be located with more certainty by referring to the second part of the text of each of the Hexagrams given under separate headings. However, if the general meaning of the second Hexagram contradicts that of the first Hexagram, you should judge the result by the resultant Hexagram only and understand that the situation while questioning will change into the situation explained by the resultant Hexagram either from Fortunate to Unfortunate condition or *vice versa* as the case may be and final verdict should be given according to the nature of resultant Hexagram only.

However, if you get a locked Hexagram (one with no moving line as explained earlier) the result will have to be evolved based on the judgement, image, the meaning etc. given under the common factors in each of the Hexagrams. Here, the lines are not considered. The main judgement itself will show the future stage of situation. However, if any additional clarification is needed in case of such locked Hexagrams, you may refer to the meaning of the ruling line which may throw some additional light on the subject, either for the positive or negative condition of the situation within the framework of the general judgement given by the Hexagram itself.

Oriental scholars and sages have followed certain rituals and procedures to ask and seek the advice of the *I Ching* Wisdom. First of all *I Ching* should be treated with great reverence and seriousness. It should never be considered lightly. The *I Ching* text-book itself should be treated as a scripture and kept rolled in black silk cloth in an elevated place higher than the shoulder. A flat even table is to be used to keep the text-book, a note-book in which to note the lines and Hexagrams indicated and the coins used for tossing. The coins should be separately kept in a small box or pouch and kept with the *I Ching* text-book when not in use. Before starting the process a brief prayer is to be offered. The reader as well as the questioner should bow three times, kneeling in reverence to the Wisdom. Some perfume sticks are to be lighted to create elevating atmosphere. The questioner should face north and the reader will sit in front of him. The room itself should be secluded from other apartments and there should be no disturbance whatsoever. The environment should be peaceful and serene.

Once you have asked the *I Ching* a question and got the answer, however not satisfying you, it should be taken as such and understood that the time is not yet favourable to you. For that matter you should not ask the same question to the *I Ching* in a different form or in twisted manner until you get a favourable answer. If you do so you will get contradictory answers each time, and you will be thrown into a condition of uncertainty. The *I Ching* Wisdom itself declares under Hexagram No.4, as follows: "It is not I who seek HIM, the younth (the immature questioner) who seeks me. The first time he asks I answer. But if he asks again and again it is annoyance, there is no answer". You may now get convinced, that nowher

n the world, is any parallel Wisdom source, which ;peaks face to face in such perfect clarity.

Examples

Case 1: A businessman wanted to go to Singapore by plane and finalise a business con-ract for shipping fish in bulk to Singapore from ndia for sale. He had the best know-how regard-ng preserving and seasoning of the fish and also procurement machinery for it. I asked him to raw a Hexagram by tossing 3 coins, six times, btaining each line of the Hexagram for each hrow. He got the Hexagram No. 62. "Slight Excess" with a moving line at the bottommost first lace. The resultant Hexagram formed by chang-ng this 1st line, a YIN (broken) moving line into a ANG (solid) line, keeping all other lines as they ccurred in the same position and in the same ature, emerged into Hexagram No.55. Abundance" which is shown as under:

H + H + T	= 3 + 3 + 2 =	---- ----	---- ----
H + H + T	= 3 + 3 + 2 =	---- ----	---- ----
T + T + H	= 2 + 2 + 3 =	---- ----	---- ----
T + T + H	= 2 + 2 + 3 =	---- ----	---- ----
H + H + T	= 3 + 3 + 2 =	---- ----	---- ----
T + T + T	= 2 + 2 + 2 =	----- ----x	----------
		Present Hexagram No. 62 "Slight Excess"	Resultant Hexagram No. 55. "Abundant"

Note: The coins are given the following values. Head = 3 and Tail = 2; The side of the coin scribed with its value is taken as Tail and the her side with the figure is taken as Head and the tal value is reckoned by adding the value of the coins Head or Tail as they fall. If the total value 8 (eight) then it is a non-moving YIN line. If the tal value is 6 it is a moving YIN line. If the total lue is 9, it is a moving YANG line. If the total lue is 7, it is a non-moving YANG line. Based on e line for each throw one after the other, as they ll 6 times in all, the Hexagram is completed.

One or more moving lines may occur in a exagram. All the moving lines should be changed their opposite and the resultant Hexagram ould be formed keeping all the other non-oving lines as they are in the same position. When no moving line occurs, in a Hexagram, it called a locked Hexagram which will form the swer by itself.

For judging the answer we have to read the dgement meanings, symbol etc. etc. of the 1st xagram and also the meaning of moving lines in e 1st Hexagram, which is the first bottom line in this case. All these tell the past and present conditions or state of the question. In thise case 1st Hexagram is No. 62, which conveys the follow-ing message:

You should undertake small things and not big ones. The bird that sings does not fly high or does it come below. When you go further, with the moving line (1st bottom line in this case) it says,

The bird meets with misfortune while flying.

Text and other explanations of this Hexagram No. 62 will appear later. From the above, we have to infer and tell the client, that he has to under-take only a small project and he will neither gain on the higher side nor will he gain low. It will be only marginal. But this does not end here. There is a moving line. When a moving line appears, only that has to be given importance and other considerations explained above go to the back-ground. Here, the bottommost 1st moving line has said, that the bird meets with misfortune while flying, which is to be understood, that if our client proceeded to Singapore by flight, some-thing would happen to the flight, probably an accident and thus the client would meet with some difficulty or other. The client was advised that he should avoid going by air and better proceed by sea to be safe. Accordingly, he can-celled the flight and went by ship on a later date. Readers will be astonished to note that the origi-nal flight booked by the client landcrashed at the beginning itself, and some of the passengers got injured, some seriously. Probably, if our client had taken that flight, he would have also been injured. We can understand and appreciate how the *I Ching* Wisdom has saved the client in this case. It is a fact, that the *I Ching* Wisdom does not stop with showing the future, but also advises the course of action to be taken to achieve success in the endeavour.

But the enquiry is not complete. The bottom-most 1st moving line, a YIN (broken line), in this case has changed into its opposite, a YANG (solid line), all other lines remaining the same in their position. This will be the form of the new Hexagram, which is Hexagram No. 55, identified again by reference to the Hexagram Key Table. Hence, the judgement and other explanations of these Hexagrams will indicate the nature of culmina-tion of the situation in the future. It is to be noted that the "Condition of Fortune" of the 1st present Hexagram No. 62 *(vide* Part 2 under Hexagram No. 62) is termed as "Medium Bad Fortune". This has changed into "Medium Good Fortune" in the resultant Hexagram No. 55 under the same heading "Condition of Fortune". Hence future is definitely good.

The title of the Hexagram itself "Abundance" is encouraging". Hence if the client goes by sea, he will have gains, since "Abundance" is indicated. The judgement reads:

The king achieves Abundance without sadness.

Here the king is none other than the client. As such, it is to be judged and declared that he stands to gain much, if he goes by sea. The same was told to him. It is also to be noted that in the 2nd part of Hexagram, where specific questions are answered the following are of special interest.

Wish

Smooth realization or goal.

Travel—Propitious

Business—Newbusiness—auspicious, proceed.

These indications came true. While travelling by sea to Singapore he met a gentleman who later proved to be his best friend indeed. He helped him make contracts with higher marginal gain.

It does not stop with telling something regarding mode of culmination of the present into a future event but also advises as to how to achieve it. Here, the moving line, with the symbolic language of the bird, conveyed the meaning of flight, which he should avoid, implied by the sense of the bird undergoing some misfortune. Hence, Chinese sages say that the book itself is not to be consi-dered as a mere book, but a great sage personified in the pages of the book who takes charge of the situation and answers us with advice with responsibility and Wisdom.

The greatness and the high order of the *I Ching* Wisdom is of such importance that when Confucius on his death-bed was asked how he would like to spend the rest of life, if he was given an additional life span, the reply was "I will spend 50 years of it, in studying *I Ching* alone more seriously with devotion, so that I will rectify myself further".

The knotty fingers give an analytical type of mind with love of method, order and discipline.

The smooth fingers have quick thought-processes and at times, hasty and impulsive nature.

Even set gives method and reasoning whereas uneven set speaks of lack of method and systematic approach.

The stout fingers betray animal instincts and gluttonous eating.

The slender and thin fingers have artistic and intellectual inclinations.

The crooked fingers reveal wrong approach in facing life. The people of this type of finger are suspicious and of evasive behaviour.

To elaborate the details of the fingers and the study is to study the shape, length, space, lea ings and 3 sections of the fingers.

If the fingers taper like a cone when close held it gives receptiveness, imagination and arti tic ability.

The Length

While measuring the length of the finger v have to measure the length of the middle finger c the back side of the palm from top to lower joint c the knuckle of the middle finger. Ancient Classical Writers of Jyotisha

Ranganatha

K. R. KRISHNAMURTH

Parentage

RANGANATHA was the fourth among the five sons of Ballala Daivagnya of Devaraatha Gotra, who settled at Kasi with his wife Gojee. Ranganatha was the father of the distinguished scholar and astronomer Muniswara (1603 A.D.), author of *Siddhanta Saarvobhowma*. Krishna Daivagnya, a versatile scholar and reputed commentator was his elder brother, while Mahadeva was his youngest brother.

Our Ranganatha is not to be confused with another Ranganatha (1640 A.D.), younger brother of Kamalalakara, who at the instance of the latter wrote a notorious work named *Bhangi Vibhangi*, bringing great disrepute to the work of Muniswara called *Kshetra Bhangi*. He was the youngest son of Nrisimha (1586 A.D.) belonging to Bharadwaja Gotra.

His Time

It was during the time of Ranganatha (1573 A.D.) that Europeans landed on Indian soil in progressive numbers for establishing trade links with us. In the course of these commercial contacts, Ranganatha says in a sloka in *Yantradhikara Teeka* in Goladhyaya of *Surya Siddhanta*, in a humourous vien:

Paaradharambu Sutrani Subba Thyle
Jalani Cha
Beejani Paamsavastheshu Prayogasthe Api
Durlabhaha

relating to difficulties at Kasi experienced in getting even simple things like pulses, oil, coir etc. for common use.

Further, he tells us in his commentary on the 22nd *sloka* of *Surya Siddhanta*:

Eiyam Swayamvaha Vidya Samudranatha
Nivaasinyayhi
Strangahyhi Samyak Abyasthethi.....etc.

meaning, that these Europeans seem to possess enough knowledge of Astronomy.

His Work

Ranganatha has written a commentary on *Surya Siddhanta* called *Goodha Prakasika* (Light on Obscurity).

This was written by him in the Saka year 1525 (1603 A.D.) when he was 30 years old. So the year of his birth comes to 1573 A.D. One can find in this *teeka* obvious traces of the influence of *Siddhanta Siromani* on Ranganatha. This seems to be the only work written by him.

In the closing chapter of this work Ranganatha explains the circumstances under which he took up the commentary on *Surya Siddhanta*, besides his Vamsavarnana (family history).

At a time when 52 1/2 ghatis had passed on a Wednesday in the month of Chaitra coinciding with Sukla Chaturdasi, Ranganatha states that his wife, then in an advanced period of pregnancy developed delivery symptoms, which soon put her under the grip of severe labour pain. Agitated and distressed Ranganatha to relieve mental tension made a *sankalpa* then that he would start the commentary on *Surya Siddhanta* then and there and took up the manuscript of the work in his hands.

Immediately flashed the comforting good news that a Seemantha putra was born to him, whom he named Muniswara, later. Thus was born the future author of *Siddhanta Saarvabhowma*. The younger brother of Muniswara was named Vasudeva.

Ranganatha tells us that his father Ballala Daivagnya used to do Rudra Japa constantly by the side of the holy river Bhagirathi and adds further proudly claiming that his forefathers inclusive of his elder brothers Rama, Krishna and Govinda were known for their versatile scholarship, particularly in Astronomy and Astrology and flourished as popular Daivagnyas (Astrologers) at Kasi. Mahadeva was the younger brother of Ranganatha.

Goodha Prakasikaa of Ranganatha along with *Surya Siddhanta* has been published by the Asiatic Society. Like his father, Muniswara was a follower of Bhaskara II and his work *Siddhanta Siromani*. Muniswara's work *Siddhanta Saarvabhowma* comprises of 3000 *slokas*.

It also appears from the commentary that he taught his students with the support of instruments like the celestial globe, charts etc. which he himself constructed, duly designed. His life-span has not been established beyond doubt, and is still in dispute.--198.90.

Parasara and Prasna -- II*

S. S. GOLA

Chart 4

ONE of the students drew this chart and wanted to know the time of the return of the missing girl. According to *Prasna Tantra*, a person will return early if Jupiter is in the 4th house. The 7th lord Venus is aspecting its own house. Jupiter and Ketu are in the 4th house. It was explained that the girl might be in the process of learning Tantra as the 4th and 7th houses were aspected by Saturn who was with Rahu. Most probably she would be with her Guru. Saturn was aspecting the royal planet Sun. It was advised that they may immediately inform the police as Saturn and Rahu would not allow the native to come back on her own and so, distribute black gram fried in mustard oil and halwa to beggars. It was advised that there would be a message from the girl when the Moon transited Cancer. But she would not return because the Moon would be with Ketu aspected by Saturn. She would come back when powerful exalted Sun would be Vargottama in the horary chart and police action would be fierce. By this time Rahu would also leave Saturn and Ketu to Jupiter. The family received a message that she was with her Guru. The police brought them back on 20-4-1991. In the meanwhile the Guru had obtained a written letter from the girl that she had accompanied him with free consent.

Chart 5

A man from Calcutta came on 30-4-1991 and told the author that someone known to him had run away with a heavy amount. If we analyse the chart according to the *sloka* indicated, the Lagna lord is aspecting Lagna. The 7th lord is exalted but aspecting Lagna lord and the 7th house. The 2nd and 9th lord Venus is in the 9th house hemmed in between two malefics, Sun and Mars-Ketu. Finance ruler Jupiter though exalted is under the influence of Saturn. Saturn is aspected by 3rd and 8th lord Mars. The 7th lord Jupiter is in the 11th. The man was told that he may get 50% of the amount and to take police help because the royal planet Sun was exalted. But as the 2nd and 9th lord was hemmed between the Sun and Ketu-Mars, it was suggested to him to distribute Halwa and flour in a blind school and to take the blessings of Lord Hanuman by offerings in the temple. The culprit was not available. The negotiations with the father continued and finally police help was sought on Sunday. The father returned more than 50% amount and it was decided to close the chapter.

The following *sloka* of *Sanketa Nidhi*, Chapter VIII, indicates how to find out the question in the mind of the visitor. A similar *sloka* has been given in *Prasna Tantra* of Neelakantha.

तनु लाभपयोश्च यो बली शशभृद्यत्र ततस्तु भाव वे ।
अनयोग वृतो विचि तनं हृदि तदभावगतस्य वस्तु : ।।

According to it, we have to select the stronger of the Ascendant lord and the 11th lord. We should count the position of Moon as reckoned from the stronger planet (both houses included). If the Moon is in the 6th house from the stronger planet, it means the query relates to the 6th house. Based on Parasara and Tajaka system the query can be answered.

rd Venus (Chart 6) is well placed but it is flicted by Mars and Ketu. The 11th lord Sun is :alted and is not influenced by any planet. The un is in the 7th house and the Moon is placed in e 10th from it. I left the message with the ception that the query was regarding profes-on. The Lagna lord in the 9th suggests the volvement of the person in exports or imports. :alted Jupiter in the 10th house suggests heavy nount accrued in foreign land or profession but account of the aspect of Saturn on Jupiter the nount is held up. Moreover the business is slow comparison with the labour involved. The 10th rd Moon is with 4th lord Yogakaraka Saturn ho is aspecting the 10th house and the Lagna.

There was likelihood of heavy amount on account 11th lord being exalted in the 7th house. The h lord Mercury is debilitated in the 10th sug-sting that he had to spend a lot on his foreign nployees. The gentleman confirmed to me that rented out his first floor to a lady who subse-ently turned out to be a prostitute. The Moon with Rahu indicating the condition of the mind the querent. He wanted to know how he could t her evicted through court or force or police lp?

When the Lagna lord is combust or retrograde e fulfilment of the desire of the querent is nied. In Chart 3B Mars was retrograde forming dda Yoga and I interpreted it as the process of e return of the lady to the husband's house as ving started. Let us analyse the chart accord-g to Parasari system. The 7th lord Mars is pecting the 7th house. The 7th house is hemmed tween two strong malefics suggesting weak-ss of the 7th house. The Lagna lord is combust d the 7th lord is retrograde. The Lagna lord is ak but placed in its own house. The Sun, the al planet, is debilitated in the 6th suggesting rt or police help was not likely to be effective. rs' aspect on the 7th house will help the native t being retrograde suggests she will go back. medial measures were adopted and that the use would be vacated within a month but they would have to pay the amount to the tenant. The basis of vacation of the house is again based on the first *sloka* mentioned in this article. Venus would transit the 7th house. There would be mutual aspect of the Lagna and 7th lords and exchange of house between the two and Mars retrograde as 7th lord suggested that the tenant would vacate the house. The basis of making payment to the tenant is that the 7th lord is in the 7th from it and aspecting the 7th and 8th houses. The 8th house is the 2nd house of the tenant. As the 7th house was between malefics the tenant was feeling insecure. She accepted the money, took another house and vacated the house.

I will conclude with the following lines:

पुरुषस्य भाग्यं देवो न जानति कुतः मनुष्य ।

To sum up, the daily movement of the Moon is very effective in forecasting events. In the beginning there may be mistakes but by concerted effort a Daivagna can decipher the intention of the querent. As Varahamihira says: "An astrologer should worship deity, fast and do penance if he desires that his prediction should not go wrong."

Unfair Lampooning

Sir, - The articles "The Doctrine of Host Planets" and "Cancer Ascendant and Marital Happiness" (on which some letters appeared in the *A.M.*, July 1991) are the salient features of THE ASTROLOGICAL MAGAZINE. This magazine is a research journal for most of the readers and articles like these help us to use discretion broad-mindedly.

Messrs. N. K. Venugopal and K. Santhanam are free to differ from the authors, but they are stretching a bit too far by suggesting that "generalisation of characteristics of a particular

Ascendant and conclusions on its basis are not appreciated".

Such lampooning will demoralise the researchers who take great pains for doing the statistical analysis and then synthesis. It may retard the growth of this science and pose a serious threat to the very purpose for which this magazine was founded; instead of giving support and encouragement to it.

Earthquake Prediction

Sir, - This has reference to two letters by Mr. T. S. Subbanna and Mr. S. K. Kelkar (*A.M.*, August 1991, page 670). Agastya (*ibid* page 615) has criticised so-called astrologers. It is indeed a fact some so-called astrologers make claims about predictions which were not made by them.

Regarding Mr. Kelkar's claims that he had predicted the occurrence of the Georgian earthquake in the Marathi Magazine *Grahankit*, Diwali issue 1990, I have checked and found that he had not said so in the said magazine.

Mr. Kelkar has been saying for the last two decades that he had 'very accurately' predicted the occurrence of the destructive earthquake of Koyna in December 1967. Not only this, whenever an earthquake takes place, Mr. Kelkar issues a press statement claiming that he had predicted the occurrence of the quake. As a seismologist, I was interested in knowing about his method and checked the original references as given by him in the *Bharat Jyoti*, newspaper of 29th October 1967. I could get the original reference wherein Mr. Kelkar has said that during the months of November, December 1967 and January 1968 there would be thunderstorm, lightning, heavy storm or earthquake. There is no mention of Koyna, Maharashtra or India.

In addition, Mr. Kelkar has been claiming that he had been invited to attend the 8th World Conference on Earthquakes Engineering, July 1984 at San Franscisco and he had presented his paper at this world gathering. I attended the conference and presented my paper. The proceedings of the conference do not enlist Mr. Kelkar as a delegate nor is his paper found in the volumes. I do not question the astrological predictions of earthquakes, but if it is going to help in mitigating the seismic disaster, I am ready to accept it.

Mr. Kelkar has severely criticised research scientists in his letter. It is a fact the scientists have not found any foolproof method of earthquake prediction which is conceded by seismologists, but they do not make any wrong or false claims. As a matter of fact, genuine astrologers never make any false claims. It was mentioned in the 1989 Annual issue of THE ASTROLOGICAL MAGAZINE that California could be hit by a severe quake by September 1989, while the quake occurred in October 1989, which is a very good prediction.

I would welcome correct predictions from *A.M.* In the June issue there is a mention that north India may be hit by a quake. The time has already passed, but still we can wait and see.

Pune. **Arun Bapat.**

[Mr. Kelkar clarifies:

The xerox copy of predictions made in ***Grahankit*** *is sent herewith. The prediction contains two parts: (1) Exit of Gorbachev in 2nd half or end of 1991 dramatically; (2) The second part relates to the quakes that occurred in Armenia and Tazhistan. The third occurred at Sakhlim near Japan.*

Mr. Bapat may also refer to Diwali issue, 1990 of Taurn ***Bharat****, Belgaum. Only two sentences are given, the 1st sentence refers to the exit of Gorbachev and the other to the earthquakes in USSR.*

As a seismologist he did not find truth in the prediction of Koyna earthquake which was made by me in 1967 (Bharat ***Jyoti****, Sunday edition of Free Press, Bombay, October 29, 1967). I give a free translation of relevant parts of the article.*

Mercury the planet responsible for judging weather conditions is in full conjunction with the eclipse point. Besides, the eclipse takes place in the first decanate of Scorpio. All these taken together indicate that there will be rapid changes in weather conditions. It portends horrible thunders, lightning, heavy storms and rainfall and also earthquake. Observatories will record unusual charts of weather conditions, earthquake tremors during eclipse period. The storm will be on seashore especially round about coastal lines.

The above effects are likely to be visible immediately in the first week, prior to or after of the 2nd November or sometime in last week of December or 2nd week of January in view of the fact that the Sun and Mars are making square aspect to the eclipse point.

It is relevant to state here that the Government had 5 years earlier set up a network of seismological observatories around Koyna, anticipating a big earthquake. So the natural location could be only at Koyna and not either upto Travancore.

south or Khambete up north, in spite of both being on the Western coast-line.

Readers will appreciate that Mr. Bapat has deleted the important phrase "... the seashore especially around about coastal line."

In 1984 Ved Vigyan Mandal arranged my lecture on earthquake prediction where Mr. Bapat was present. I quoted both these references from Bharat Jyoti in which all the details and clarification were given. Someone questioned as to how earthquakes could occur at Koyna. I replied that the 4th house of the foundation chart of Maharashtra was afflicted due to Saturn due to which earthquake would take place in Maharashtra only. Koyna is not far off from the seashore. Hence the coastal lines was the proper phrase to indicate the area where the earthquake would occur.

After the lecture organised by Ved Vigyan Mandal, Mr. Bapat suggested that the 8th World Conference on Earthquake Engineering would be held at San Francisco and I should participate in it if possible. Immediately, I prepared the paper and submitted it to the Convener. Initially Mr. Joseph Penzein, Convenor of the Conference, was a little hesitant for allowing me to read my paper at the 11th hour because the last date for submission of technical papers was 15-10-1983. I pursued correspondence with him. He invited me to participate in the conference at San Fransisco at my cost. Accordingly I attended it at my own cost. This has benefited me in the form of discussion with foreign scientists assembled there. The Chairman of the Steering Committee was also happy to discuss my theory threadbare in person.

The short note explaining the theory of earthquake prediction was distributed amongst the journalists present at that time. Further a copy of my paper was given to those scientists who were interested and present at the conference.

I do not understand the propriety of such unfounded crticism from a scientist from the government office.

Mr. Bapat is working as a scientist in CWPRS, Khadakwasla and he was anticipating that Dibrugarh would be washed away in a quake which would take place in 1986. He even approached the Government to warn people in that area. Even in 1987, there was no earthquake. Mr. Bapat approached me to find out from his horoscope whether the earthquake would occur in that area. I immediately told him that his horoscope was not necessary and as per my theory it would occur in India in 1988.

I feel that precise prediction can be ensured only on the basis of astrological and astronomical principles, if approached without bias and prejudice.]

[Xerox copies of the prediction quoted by Mr. S. K. Kelkar have been received at the office.

-Editor.]

N. T. Rama Rao

Sir, - According to *Hora Sara* if the Moon-sign lord is in an angle with strength the native will own an empire. Another Rajayoga worth mentioning is the one from *Saravali* which states that the native will become a valorous king if Venus is in aspect to Jupiter.

These and other Rajayogas alone are not responsible for N. T. Rama Rao's elevation. The influence of Satwic and benign Jupiter and the Full Moon on the Lagna and its lord Venus is the most significant feature.

Presently N. T. Rama Rao is under the sub-period of Rahu in Venus Dasa.* This Bhukti runs upto 25-2-1994. Rahu is in the 11th house whose dispositor Sun is in the 8th house. Major lord Venus is aspected by Jupiter who happens to be a temporary malefic due to ownership of the 3rd and 6th houses and the Moon, the 10th lord. The Lagna and the Lagna lord are influenced by the 6th lord (the lord of the house of enemies).

Transit Jupiter will be favourable from 15-8-1991 to 11-9-1992. This is a period of a major favourable change in his life. Especially around June 1992 N. T. Rama Rao will achieve something great or will occupy a high post.

Transit Saturn in the 4th from Lagna is not a favourable position as it happens to be a trinal house from the 8th house. This is accentuated since the Lagna and the Moon sign are the same. Upto 5-3-1993 N. T. Rama Rao must be cautious against enemies and in matters of health. The period from 11-9-1992 to 5-3-1993 is difficult.

BOOKS ON REVIEW

M. P. PAN

NOTABLE HOROSCOPES by B. V. RAMAN [Motilal Banarsidass, Delhi-7. Pp. 439, Rs. 60.00 (PB), Rs. 90.00 (HB).]

DR. B. V. RAMAN, father of modern Indian Astrology, is an institution by himself. He loves his subject and works to educate his compatriots to discern the truly scientific nature of Indian Astrology in its several branches of application. The present study — now in its sixth edition — represents his research abilities at their best: In each edition he has added new insights, new data, industriously gathered by him on the subjects of his study. Here are more than 75 horoscopes, notable not merely because they concern famous personalities but equally because of notable combinations of planetary workings in the lives under examination.

The author bases himself upon the guidelines laid down by the sages of old: "The horoscope indicates our past Karma — the Prarabdha portion of the Karma being our destiny in this life and that astrological predictions are only tendencies of nature on their way towards fulfilment or manifestation and one can either augment or lessen their momentum in the particular direction desired by recourse to remedial measures". (P. xii). But he does not stay in the past; he adds the several new angles revealed by later approaches of larger knowledge and does not hesitate to enlarge his field of enquiry.

Here are politicians, statesmen, saints, philosophers, scientists and 'even maniacs' whose charts are subjected to close interpretation and the course of their careers explained. It is remarkable — as pointed out by Cyril Fagan in the *American Astrology* — that DR. RAMAN had predicted the assassination of Mahatma Gandhi ten months before the tragic event (p. 229). Analysing the horoscope of Sri Aurobindo, the author remarks: "This Yoga reveals his unusual powers of poetical genius and the stupendous activity of his intellect, all being directed in the channel of ... ing human beings into association with each ... and interpreting the soul of the nation that ... put its impress on the history of humanity ... times immemorial" (pp. 239).

There are detailed instructions on the various means of handling different types of questions — and questioners — and arriving at certainty amidst several possibilities. The omens and the art of interpreting them receive detailed treatment. The author shows deep knowledge of the medical science of diagnosing and treating the innumerable maladies that afflict the human mind and body. The categorisation of the deities that influence or work to shape the life of man is rational and of practical help.

To have translated this extensive work into English is a monumental service on the part of DR. RAMAN. He has taken care to present a readable version (not word for word) with plenty of explanatory notes relating the older concepts to the situations of the present day. Students of Predictive Astrology look forward to the second part of this great work through the eyes of our translator in reprint and which is expected to be ready by the end of this year.

EVOLUTION OF HORARY ASTROLOGY

» 858

Tilak by Bhatta Vosari and *Aaya Sada Bhava* by Malli Sen are based on Sugriva. In the 10th, 11th, 12th and 13th centuries A.D. there was Prasna Lagna system as followed in North India. *Gnana Pradeepika* is an example. Other books written on the Southern Lagna system were *Prasna Deepika*, *Prasna Pradeepa*, *Gnana Pradeepa*, *Ratna Deepak* etc. In the 14th, 15th and 16th centuries A.D., however, Jain astrologers of the South shifted towards the Lagna system of Northern India. *Jyotisha Sangraha* and *Jyotisha Ratna*, the two Jain works written in Dravidian style follow practically the northern Prasna Kundali system. Other important Jain Horary works of this period following Prasna Kundali system of North are *Bhuvana Deepika* by Padma Prabhu Suri, *Trailokya Prakash* by Hema Prabhu Suri, *Prasna Shataka* and *Prasna Chaturvimshika* by Nara Chandra. Although *Trailokya Prakash* mentions about Prasna Lagna being also popular amongst mlecchas (Mussalmans), he acknowledges its importance in Jain works also. Hema Prabha Suri has had high applauses for Prasna Lagna system of the North when he compares Lagna to Devata, lord, parents, Lakshmi, Saraswati, Navagrahas, Earth, Water, Fire, Wind, Sky and above all Paramananda God. In his views Prasna Lagna system as followed in greater detail was the best methodology for Horary also.

19. There is yet another important Jain work known as *Kewala Gyana Prasna Choodamani* supposed to have been written in the 13th century A.D. by one Sananta Bhadra. This work is based on Prasnakshara system. Also, it used Prasna Anka System, Prasna Lagna, Prasna Nakshatra, Prasna Tithi and Prasna Vara etc. Thus, it uses alphabets, numbers, Lagna, Nakshatra etc. It is definitely a very comprehensive book on Horary.

20 Prasna Tantra: It was authored by Neelakantha in 1567 A.D. He belonged to Vidarbha. It has been translated by Dr. B. V. Raman. It is based on Prasna Kundali though some rules of Tajaka are also taken into consideration.

21. Uttarakalamrita: It was authored by a Kalidasa of the South in the middle of the 17th century A.D. A full chapter is devoted to Horary. It says "In the absence of horoscope results should be divined through Lagna rising at the time of query".

22. Prasna Marga: It was authored by a Namboodiri Brahmin in 1649 A.D. It is a a very comprehensive work on Horary Astrology. Dr. B. V. Raman's translation and commentary of this huge work in two volumes have made it easier for readers to understand this book. This book appears to be a fully evolved work on Hindu Astrology.

23. Sanketa Nidhi: It was authored by Ram Dayalu in the middle of the 19th century A.D. This book contains a chapter on query. It appears to be a blending of Tajaka Sastra with Horary.

24. Practical Horary Astrology: It is authored by Gayatri Devi Raman (nee Vasudev). This book is written in lucid style and is quite easy to understand.

25. Prasna Darpan: Authored by S. P. Udhrayan some two decades ago is an equally useful book on Horary Astrology.

26. It is true that there are some more works on Horary which have not been discussed here for want of space. What I have discussed so far is ample evidence to show that Horary Astrology has been in constant evolution since the last 500 years. The Hindus, the Jains and Dravids have made notable contributions to it. It is basically Indian in origin though some Greek, Babylonian, Chinese, Iranian and Arabic influences, in the later part of its evolution, are not ruled out.

27. This article is dedicated to the sweet memory of late Sri Surya Prakash, whose erudite articles illuminated the pages of The Astrological Magazine in the nineteen fifties and early sixties.—84.5.

The native feels that he can contribute a lot ...ards literature and science and his effort for ...ing a big politician will become successful one ... Does the chart show such a future?

Chandana Das Barman. Calcutta.

Ans: The Navamsa Lagna is not given. The ...ition of Jupiter in the 7th house from Lagna ...es interest in English literature. The 5th of ...kamsa is connected with Mercury and Jupi-... Hence there need not be any doubt in your ...ribution to literature. Since Lagna Sphuta is ...given, it is not possible to say anything about ...ur being a big politician.

Q. 2. Rasi: Capricorn - Ascendant, Jupiter and ...nus; Aquarius. - Sun and Mercury; Taurus - ...urn; Gemini - Ketu; Libra - Moon; and Sagittarius ...Mars and Rahu. Born on 22-2-1973, the native ...partially deaf from childhood. (a) What is the ...rological reason for this? (b) Will the next Dasa ...Jupiter give normal hearing? (c) What remedies ...ld you suggest?

A. Ramkumar, Madras.

Ans: (a) The lord of 11th house is in the 12th ...use. (b) The 5th house is occupied by Saturn. ...The 3rd house is aspected by Mars and the ...th house is aspected by Saturn. (d) Though ...piter is not aspected by any malefic, Jupiter is ...bilitated and attains 3 *bindus* in his ...ashtakavarga. Hence Jupiter's period also is not ...ourable for normal hearing. Japam for Jupiter ...advised.

*Q. 3. Rasi: Gemini - Ascendant; Cancer - Ketu; ...ittarius - Jupiter; Capricorn - Rahu; Aquarius - Sun and Mercury; Pisces - Venus; Aries - Mars; and Taurus - Moon and Saturn. **Navamsa:** Taurus - Ascendant; Cancer - Jupiter; Leo - Mars; Libra - Ketu; Capricorn - Mercury and Venus; Aquarius - Moon; Pisces - Saturn; and Aries - Rahu. (a) Will Rahu Dasa promote educational career? (b) What career is indicated?*

Sandip, Bombay.

Ans: Rahu though in the 8th house is in Sravana asterism whose lord is the Moon, the lord of 2nd house exalted. Hence Rahu Dasa is likely to promote educational career with obstacles. Teaching profession is indicated at university level, since Atmakaraka is associated with Mercury in Navamsa and the Moon is placed in the 2nd from Karakamsa Lagna.

O

*Q. 4. **Rasi:** Capricorn - Ascendant 2-39; Aquarius - Rahu 23-44; Pisces - Jupiter 6-52; Aries - Sun 7-41, Mercury (R) 13-08 and Mars 15-15; Taurus - Venus 14-26; Leo - Ketu 23-44; Virgo - Saturn (R) 3-32; and Libra - Moon 6-14. (a) Are Mercury and Mars combust? (b) Do you confirm the presence of Adhi, Chandra Mangala, Ruchaka, Amala and Dharmakarmadhipati Yogas (from the Moon-sign)? If so, which is the strongest?*

R. S. Swaminathan, Madras.

Ans: Yes, Chandra Mangala Yoga is absent. Chandra Mangala Yoga means the conjunction of the Moon and Mars. Chandra Adhi Yoga is converted to Mishradhi Yoga due to the involvement of the malefics also *viz.*, Mars and the Sun in the 7th house from the Moon. Dharmakarmadhipa Yoga, formed by mutual aspect, is marred by the connexion of the Sun and Mars. Amala Yoga is present. Ruchaka Yoga is weakened by the association of the Sun and Mercury with Mars.

Q. 5. ***Rasi:*** *Sagittarius - Ascendant 19-05; Pisces - Rahu 1-53; Aries - Venus 26-03 and Saturn 13-09; Taurus - Mercury 0-37; Gemini - Sun 12-22; Virgo - Jupiter 4-52 and Ketu 1-53; and Scorpio - Moon 10-07 and Mars (R) 9-09. (a) What sort of career is indicated in this horoscope? (b) With 9th lord Sun in the 7th give a career in IAS?*

K. Srinivas, Hyderabad.

Ans: A Government job is indicated by the mutual aspect of the Sun and Venus in Navamsa and by Karakamsa being connected with both the Sun and Venus. The 9th lord Sun in the 7th house bestows 25% Bhagya Yoga. The chances for IAS are bleak.

O

Q. 6. Libra - Ascendant 2-6; Pisces - Rahu 13-4; Aries - Saturn 1-53; Taurus - Moon 17-32; Gemini - Mercury 17-41 and Mars 26-31; Cancer - Sun 5-2 and Venus 13-37; Leo - Jupiter 12-36; and Virgo - Ketu 19-4. The native is now passing through Ketu Bhukti of Rahu Dasa. Though he is an extremely handsome fellow, he has become very unsocial, recluse, depressed and also gynaecophobiac to a great extent. (a) What planetary conditions led the native to become so? (b) Will he ever be able to enjoy a normal and happy social and married life in future? (c) What gem can be used for protection against these adverse planetary influences?

Bishnu Shroff (M), Calcutta.

Ans: Debilitated Saturn is in the 7th house from Lagna, both in Rasi and Navamsa. The Lagna lord Venus is in the inimical sign, Cancer, conjoining inimical Sun. Chances are bleak for mental normalcy in Rahu Dasa. But the happy social married life is assured in Jupiter Dasa, surely from his 32nd year.

O

Q. 7. ***Rasi:*** *Taurus - Ascendant 6-15-25; Gemini - Moon 25-21-34; Virgo - Ketu 6-41-32 and Jupiter (R) 7-3-30; Scorpio - Mars 18-7-55; Pisces - Mercury 0-35-39, Rahu 6-41-32 and Sun 12-54-45; and Aries - Venus (R) 1-51-38 and Saturn 2-19-35. Is a Neechabhanga Rajayoga caused by lord of 10th from Lagna, Saturn in debility and Mars in own house in Kendra to Lagna? Further in Bhava, Saturn is in the 10th from the Moon. If yes, how will it influence career prospects?*

Anil Kumar Srivastava, Allahabad.

Ans: Neechabhanga Rajayoga is caused by the Sun in the 10th house from the Moon. Another Neechabhanga Rajayoga is formed by Jupiter in the 4th house from the Moon. Thus though Saturn and Mercury are debilitated, their debilitation is cancelled by the Sun and J... respectively, by being in Kendra from the M... ...Cancer - Venus: and Leo - Ketu. Mars Dasa ...ning from January 1992 onwards. What will ...the native's (female) health position?

T. M. Bhavadasan, Trithala.

Ans: Mars is the lord of 3rd and 8th houses, ...hence he is a malefic. His maleficence is ...duced by being debilitated, forming ...chabhanga Yoga too. Mars again occupies the ...s from Navamsa Lagna in his Moolatrikona ...tion. Thus for Rajayoga Mars is favourable, ...t causes in consistent health in his period.

Q. 11. Rasi: Cancer - Ascendant 26-29: Virgo - ...hu 7-01: Scorpio - Mercury 29-40. Mars 26-46. ...iter 26-23 and Venus 3-45: Sagittarius - Saturn ...24, Sun 15-19 and Moon 13-05: and Pisces - ...ahu 7-01. According to the findings pointed out on ...ge 144 of A.M. January 1991. Cancer Ascendant ...destined to lead a barren domestic life. I request ...comment on married domestic life of the native.

K. Eswarappa, Anantpur.

Ans: All the seven planets are distributed in ...signs forming 'Yuga' Yoga. This shows the ...tive is a heretic. The Lagna lord is associated ...th the 7th lord. Arudha Pada and Dara Pada ...e in mutual Kendras. The 7th from Navamsa ...gna is occupied by the Sun and Venus: *Vandhya ...ld sita ravee madanodayasthau.* Hence al...ough married life is smooth, small bickerings ...e unavoidable due to his heretic nature and ...lessness for a pretty long time.

Q. 12. Rasi: Aries - Jupiter: Cancer - Ketu: Libra ...Saturn and Moon: Sagittarius - Sun and Mercury: ...Capricorn - Rahu: and Aquarius - Mars and Venus. ...The native of the chart has lost all but one of his 4 ...brothers before he attained 10 years of age. Later ...the remaining brother died during the 32nd year of ...the native. He has also lost his father two years ...later. But the ailing mother (since 1980) is still ...surviving. The native also lost one sister in his ...childhood, but the remaining 4 sisters are leading ...married lives. The native has been a local politician ...and is a reputed councillor of the local Municipal ...body. He completed his degree in 1978, law ...education recently. Though he is running his ...36th year, he has so far not yet settled in life. ...Though he is having harmonious wedded life and ...having two sons and a daughter although he lost ...another two sons. Marriage took place in 1981. ...The main question is which is the Ascendant of the ...chart basing on the information given above. ...Whether it is Leo or Virgo, the time of birth being ...between 10 and 12 p.m. on 9-1-1953.

P. V. Ramaprasad, Nuzvid.

Ans: Concerning progeny, both Leo and Virgo Ascendants have valid points. Hence Jaimini is sought. According to an article published in June 1991, death of father is explained if Virgo is taken as Lagna. By Pitru Niryana Sula Dasa death of father happened in Aries Dasa which ends in your 36th year. Death happened in your 34th year. Aries is aspected by Mars and Venus and Aries is the Sula Dasa sign from the sign occupied by the 8th lord from the 9th house. For Leo Lagna death of father is not indicated before 36 years of your age. Hence Virgo may be preferred to Leo.

Q. 13. I am suffering because of doctor's negligence. I am affected by glucoma in both eyes due to growth of excess blood vessels. My left eye vision is also 20% now. Right eye vision is good. I have undergone two operations and I am under the care of eminent eye specialist now. Doctor says my case is one in million in my age group. Medically they say restoring the vision is difficult. Does the chart show regaining of vision in left eye? ***Rasi:*** *Leo - Ascendant: Virgo - Rahu: Sagittarius - Venus. Mars. Jupiter and Saturn: Capricorn - Sun: Aquarius - Mercury: Pisces - Ketu: and Cancer - Moon.* ***Navamsa:*** *Aries - Ascendant: Taurus - Jupiter: Cancer - Moon and Ketu: Virgo - Sun: Libra - Saturn: Scorpio - Venus: Sagittarius - Mars and Mercury: and Capricorn - Rahu.*

T. K. Ramachandra, Bangalore.

Ans: The 12th house of Lagna is occupied by the Moon, Karaka for left eye and is aspected by the Sun and Mars (for left eye). The Sun in Capricorn is aspected by the Moon. Hence restoring vision may not be probable.

○

Q. 14. ***Rasi:*** *Sun 336-45: Moon 301-56: Mars 22-45: Rahu (Mean) 247-57: Jupiter 86-40: Saturn (R) 207-37: Mercury 311-27: Ketu 67-57: Venus 296-06: and Lagna 134-20-34. Mars is a Yogakaraka and aspects Saturn (R). Jupiter also aspects Saturn (R). Hence the period of Saturn (R) i.e., after 18-9-1991. must be good one. Please confirm.*

Atnu Mukherjee, Kanpur.

Ans: Saturn and Venus have mutually exchanged places and this is not good since they are the lords of the 3rd and the 6th houses. The aspect of Mars to Saturn is not good. The only redeeming feature is Jupiter's aspect to Saturn. To what extent Jupiter can mitigate the maleficence of exalted Saturn is to be seen. Hence Saturn period gives mixed results.

Q. 15. ***Rasi:*** *Aries - Ascendant 27-02; Cancer - Moon 5-18 and Rahu 24-09: Capricorn - Saturn 14-44 and Ketu 24-04; Aquarius - Jupiter 4-28, Mercury 7-24 and Mars 9-33; and Pisces - Venus 13-11 and Sun 1-38. Does 2nd lord Venus in the 12th cause poverty or will his exaltation and aspect from 11th lord Saturn promote finances? Mercury Dasa runs upto June 1995 but so far no stability in job which I have changed 4 times since 1982.*

Barunasis Sen, Calcutta

Ans: Exalted Venus in the 12th from Lagna causes low financial position while debilitated Venus in the 12th from Lagna confers Rajayoga. In your chart, the 11th from Lagna is occupied by three planets. This is a pointer to good finances. Hence you cannot avoid going in for loans. You cannot hope for help from Mercury. Instead Ketu can do much good to you, since he is associated with Saturn, who is not connected with Jupiter either by aspect or by association.

PLANETS AND Career COUNSELLING

ANURADHA

My son passed high school exams in 1986 and the following year, he failed in the Higher Secondary exams. He has now joined classes for the Senior Higher Secondary Examinations. In between, he neither worked nor studied. I fail to understand his course of action. He was born on 27-12-1968 at 4.45 a.m. at Meerut (U.P.). What are his future prospects?

S. N. 16945

The boy's Ketu Dasa began in May 1987 and Ketu is afflicted in the 8th house, aspected by 6th lord Saturn. He is aspected by an afflicted Lagna lord and joined by 7th lord Jupiter. Ketu Dasa has to finish. This will be in mid-1994. Until then, the boy may not be able to stick to any one course of study or activity and will suffer from a vascillating mind and inability to concentrate. Thereafter, Venus Dasa begins. Venus is the 2nd and 9th lord placed in the 12th and aspected by Saturn and Jupiter. A major change for the better will take place with a change in Dasa when the boy will become more responsible and steady. He may take up a job in some private firm with good pay.

The Ascendant lord Mars is well placed in the 4th. He obtains Neechabhanga and joins the 4th lord, Moon, in the latter's own sign. Jupiter, the 9th and 12th lord, aspects the Ascendant. So does 2nd lord Venus from his Moolatrikona sign. These are all factors which show a successful business.

The 10th lord Saturn is in Leo aspected by 9th lord Jupiter. In Navamsa, Saturn occupies Virgo with the Moon. Therefore, business in books would be quite in order. Jupiter's Vargottama aspect on the 10th lord Saturn would emphasise books that deal with culture, tradition, history, indology, philosophy and similar serious subjects. However, Venus Dasa will run upto April 1994. About this time, much dissatisfaction and confusion may be caused mentally. The Sun Dasa begins thereafter and as 5th lord, he is in the 6th with exalted Mercury and Ketu. The shift in the nature of business may reach a stabilizing period after Sun Dasa begins.

I left a permanent Government job in November 1988. I have since then been in iron and steel supply business but I have not developed confidence in it. I was born on 13-3-1949 at 20-45 at 29 N, 77 E 01. What is indicated in my chart?

S. N. 17681

Born on 3-5-1976 at 3.34 p.m. (IST) at 23 N 05, 87 E 20, my son is quite intelligent but somehow not so interested in studies. He likes games but poor health comes in the way. He has many interests — craft, electronics etc., and starts with great enthusiasm which always fizzles out midway. What line will suit him?

The boy is running Rahu Dasa and Rahu is placed in the 2nd house. He is aspected by several planets including 8th lord Mars. Rahu, being a shadowy planet, his results are sometimes unsteady and the native will be unable to decide or stick to anyone purusit. However, Jupiter, the next Dasa lord, is quite well placed with 12th lord Sun and 2nd lord Venus. The 11th lord Moon is in the 10th. In Navamsa, Jupiter occupies Virgo ruled by Mercury. The boy may be encouraged to pursue commerce-related subjects since Moon in the 10th would indicate a career in a banking or similar organisation.

I want to join I.P.S. Is that shown in my chart? I was born on 3-3-1971 at 12.05 a.m. at Poonch. U.D.

The 10th lord is in the 4th with 8th and 11th lord Sun aspecting the 10th house. The Sun is in the 10th from Chandra Lagna. The Moon himself is exalted with Jupiter aspecting him from Lagna Kendra. These planetary positions indicate a career, far above average. But the absence of a martian influence, either housewise or sign-wise in relation to 10th house matters, does not seem to point to a career in the police or other armed forces. However, the position of the 7th lord Moon and 5th lord Jupiter can show an administrative job in civil services.

How is This Month for You ?

November 1991

UTPALA

MAJOR TRANSITS

The Sun transits Libra till 15th and then enters Scorpio. Mars transits Libra till 18th and then enters Scorpio. Mercury transits Scorpio till 23rd and then enters Sagittarius when he gets retrograde on 30th. Jupiter and Saturn continue their progress in Leo and Capricorn respectively. Venus transits from Leo to Virgo on 1st and moves into Libra on 29th. Rahu and Ketu continue their counter-clockwise motions in Sagittarius and Gemini respectively.

1. MESHA (Aries)

The Sun and Mars in the 7th and 8th, Venus in the 6th and the 9th and Saturn in the 10th are all unfavourable; the Sun is under check throughout and Mars from 1st to 18th and during the last two days. Mercury in the favourable 8th till 23rd transits afterwards the adverse 9th with check. Jupiter in the 5th is fully favourable. The favourable side has a slight edge over the unfavourable ones. You will have worries practically throughout but these will not relate to finance. Your relatives are likely to ignore you. You will be, however, successful in your business activities. You may undertake a pilgrimage to holy places. Krittika is better than Aswini and Bharani.

Health and Domestic: Weakness and general debility may be present practically throughout. Chronic sufferers should resort to prophylactic measures. One of your sons is likely to secure a good job in a reputed industry and he will rise very high in that organisation. Peace and harmony will elude you in the domestic field throughout the month.

Finance and Speculation: Financial affairs will be quite satisfactory. Old debts which you had practically written off will be repaid to you. You should not stand surety for anybody. Speculative transactions should be completely avoided.

Real Property, Services, Professions, etc.: Decisions on major property deals are better postponed. You may experience difficulties in the realisation of rentals due to you. Disputes with adjacent property owners are likely. This is a good period for the services, businesses and professions.

Women: Don't allow your romances to trammel you. There are strong planetary indications for such an event. This is an unpleasant month for employed girls.

Students: You will be successful in tests and interviews. Medical students are particularly favoured. With some effort you could make rapid progress in studies. Extra-curricular activities should be cut down as much as possible. Association with the opposite sex could be cut down to your advantage.

(The forecasts based on Janma Rasi are general and as such those having favourable aspects according to present Dasa and Bhukti in their horoscopes will have favourable results from the indications made above while those having adverse aspects according to current directions will experience these predictions to a lesser proportion. The predictions given below are based upon a clear interpretation of movements of transits of planets. If you do not know your Janma Rasi write to Utpala C/o THE ASTROLOGICAL MAGAZINE giving your birth details and enclosing a stamped self-addressed envelope. — Ed., A.M.)

Chandrashtama occurs from morning of 7th to evening of 9th.

2. VRISHABHA (Taurus)

General: The Sun in the favourable 6th till 15th transits afterwards the adverse 7th with check. Mars in the favourable 6th till 18th with Vedha transits thereafter the unfavourable 7th with check during the last two days. Mercury in the unfavourable 7th till 23rd with check till 18th transits afterwards the favourable 8th. Jupiter in the 4th and Saturn in the 9th are both unsatisfactory; the latter is under check throughout and the former till the last but one day. The evil influences have the upper hand. You are likely to have worries throughout. You should be particularly careful not to get entangled in criminal proceedings. In spite of the numerous obstacles you will not lose your reputation for character and integrity. Mrigasira is better than Krittika and Rohini.

Health and Domestic: You should take particular care of your health. Chronic sufferers are advised to adopt prophylactic measures to avoid an exacerbation in their ailments. Children's health may cause mild concern. You will have to exercise all your tact and patience to ensure peace and harmony in the domestic field.

Finance and Speculation: You should think twice before embarking on any new financial venture. Expenditure may increase considerably and you may incur losses in certain transactions. Speculative transactions are likely to yield good profits during the last week. You should refrain from them during the first three weeks.

Real Property, Services, Professions, etc.: Matters pertaining to real properties will not be unsatisfactory during the first half. You should exercise caution in your transactions during the second half. Services will find the month trying. Professions and businesses may have numerous obstacles to contend against.

Women: You are advised to go slow in love affairs and courtships. It is advisable for you to cut down your social life and club activities. Working girls are likely to be given memos by their superiors seeking explanation of their work in the office. You will, however, be able to satisfy them.

Students: Listlessness should be avoided. Light reading will help drive away the mild depression in you. Those pursuing technological courses are favoured. You should cut down your extra-curricular activities.

KATAKA (Cancer)

General: The Sun and Mars in e 4th and the 5th are favourable; the Sun is under k throughout and Mars also throughout except between 18th and 29th. Saturn too is none good when transiting the adverse 7th but his propensities are under check. Venus in the and 4th is fully favourable. Jupiter in the ourable 2nd yields to Vedha. Mercury in the rse 5th till 23rd with check transits afterds the favourable 6th. In a month of mixed ts the good effects will be slightly more. The rts of your enemies to get the better of you will warted. You will acquire self-confidence as month rolls by. Venus will assist you to acquire influence through women associates in high places. Jupiter is a good ally for you in the month in spite of the adverse Vedha effect on him. You should be careful in dealing with members of the opposite sex. Pushyami is better than Punarvasu and Aslesha.

Health and Domestic: Glaucoma may develop in the right eye. You should consult an experienced ophthalmic surgeon immediately. Chronic sufferers should take great care of their health. Children's progress in schools and colleges will make you happy. Domestic bliss of a high order will be vouchsafed to you.

Finance and Speculation: Financial affairs will be, more or less, satisfactory. You are likely to start a new finance company which will attract public deposits and yield good dividends in time to come. This is not a good period for speculative transactions.

Real Property, Services, Professions, etc.: This is not a satisfactory period for real property transactions. It is advisable to postpone any decision on major property deals. Litigation is likely with adjacent property owners. This is an encouraging month for the services. Businesses and professions will find the month profitable.

Women: Love affairs are likely to blossom into happy wedding. Film artistes are particularly favoured. Working girls will find the month, more or less, satisfactory.

Students: In view of your proneness to accidents and consequent physical injuries you should refrain from athletics completely. You will be successful in tests and interviews. Medical students are particularly favoured.

THULA (Libra)

General: The Sun and Mars in the 4th and the 2nd and Saturn in the 4th are unfavourable; the Sun is under check throughout and Mars also practically throughout except between 15th and 18th. Jupiter in the 11th and Venus in the 12th and the 1st are fully favourable. Mercury in the favourable till 23rd transits thereafter the adverse 3rd under check. The general results are of a mixed nature with good effects decidedly more than the unfavourable ones. The first half of the month will be very much more satisfactory than the second half. You will be successful in all your undertakings. Accrual of money from unexpected sources is likely. Contacts with old friends will increase your prestige in the business world. Visakha is better than Chitta and Visakha.

Health and Domestic: Barring minor complaints you will be in enjoyment of good health practically throughout. The period may give more relief to chronic sufferers. Children's performance in schools and colleges will make you happy. Domestic bliss of a high order will be vouchsafed to you.

Finance and Speculation: the financial postion will be entirely satisfactory. You will develop new sources of income. An unexpected financial legacy from a close relative is indicated. Speculative transactions are not recommended during the month.

Real Property, Services, Professions, etc.: All transactions on major property deals should be postponed. Yield and rentals will tend to go down but the consequence will not be serious. This is a very good period for the services. Professions and businesses will find the month quite profitable.

Women: Love affairs will blossom into happy wedding with grooms of your choice and with the blessings of parents and other elders in your family. Employed girls could look forward to promotion and transfer to places of their choice.

Students: Medical students are particularly favoured. You will be successful in tests and interviews. You will have a happy and enjoyable picnic in the company of the opposite sex during the first half.

8. VRISCHIKA (Scorpio)

General: The Sun and Mars in the 12th and the 1st and Jupiter in the 10th are all unsatisfactory; the Sun and Mars are under check throughout. Venus in the 11th and 12th and Saturn in the 3rd are both favourable; Venus yields to Vedha practically throughout till 29th and Saturn also for most part of the month except between 18th and 29th. Mercury in the unfavourable 1st till 23rd with check transits the favourable 2nd afterwards. The bad influences are more in evidence. Exhorbitant expenditure, delay in enterprises and restlessness are all likely. The efforts of your enemies to malign you will not, however, be successful. You are likely to acquire more influence and authority during the second half. Visakha is better than Anuradha and Jyeshta.

Health and Domestic: Health and vitality are likely to be affected adversely. Chronic sufferers will find the month quite trying. Children's health will cause some concern. Peace and harmony in the domestic sphere may elude you unless you

exercise tact and patience. Avoid tendentious talks with your spouse.

Finance and Speculation: This is not a satisfactory month for finance. The expenditure will increase enormously and the income may tend to shrink. Medical bills will be pretty high during the month. Speculative transactions should be avoided.

Real Property, Services, Professions, etc.: Matters pertaining to real properties are not likely to be satisfactory but you may not incur any losses due to the partial support of the lord of the 4th. It is advisable to postpone buying of property. The services will find the month difficult. Businesses and professions will have a lean month.

Women: You should be careful about your functional health. Better keep away from love affairs during this month. The planetary influences indicate extravagance leading to a financial mess. Employed girls should steer clear of politics in office.

Students: Some progress in studies is possible during the last week. You will, however, shine quite well in sports. But you should curb a tendency to spend most of your time in the sports-field.

Mars in the favourable 11th till 18th transits afterwards the adverse 12th. Mercury transits the adverse 12th and 1st with check except between 18th and 23rd. Jupiter in the 9th is fully favoured. Venus is unfavourable practically throughout till 20th when transiting the 10th unchecked; he transits the unfavourable 11th during the last two days. Saturn in the 2nd is unhelpful. A month of mixed results; fa influences prevail over evil ones. You will b successful in your undertakings. There will b accrual of money. Your prestige in social circ will be fairly high. Do not yield to erotic temp tions. Uttarashadha is better than Moola an Poorvashadha.

Health and Domestic: Barring minor compla you will be in enjoyment of good health practica throughout. Chronic sufferers will have temp rary relief. Children's performance in schools an colleges will make you happy. You may, howev have to keep your fingers crossed in so far a peace and harmony in the domestic sphere an concerned.

Finance and Speculation: The month will b satisfactory for all financial matters. You will b able to settle your past financial commitments o favourable terms. Some of the old debts which you had practically written off will be paid back t you. Speculative transactions will yield very goo dividends till 18th.

Real Property, Services, Professions, etc.: A satisfactory period for all real property matter Acquisition of property is likely during the fir half. You will make considerable improvement to landed properties. Unexpected promotions an likely for the services. This is a successful an profitable period for the professions and bu nesses.

Women: You must be on guard in your asso ciation with men — family background, gratifica tion, professional background, material stat and character should be very carefully checke by you in consultation with parents and othe elders in the family. Venus in the 10th an Jupiter in the extremely favourable 9th is in dangerous combination for you. Working gir will find the month somewhat trying.

Students: You will be successful in tests an interviews. Army commissions are likely to b offered to you during the first half. Associatio with the opposite sex could be reduced with muc advantage to you.

Chandrashtama occurs from evening of 25th to night of 27th.

10. MAKARA (Capricorn)

General: The Sun and Mars transit the favourable 10th and 11th, Mars yields to Vedha till 15th and during the last two days. Mercury in the favourable 11th till 23rd with Vedha transits afterwards the unfavourable 12th with check. Jupiter in the 8th and Saturn in Janma are both unfavourable. Venus in the favourable 9th till 8th with Vedha transits the adverse 10th during the last two days. In a month of mixed results the good influences will be more than the adverse ones. You are likely to receive favourable orders from Government on property matters. Contacts with old friends will help you in your business. Financial worries will be there but you will be assisted by your friends to rescue you from financial embarrassment. You must curb a tendency to undertake journeys without specific plan and purpose. Dhanishta is better than Uttarabhadra and Sravana.

Health and Domestic: Colic and anal troubles may worry you off and on but these will be of a mild nature. Chronic sufferers could look forward to having temporary relief. Your father's health may deteriorate and will require very careful watching. If you are keen on your domestic boat not rocking too much, considerable tact and patience on your part will be absolutely necessary.

Finance and Speculation: The Dhanakaraka's mood does not point to a satisfactory financial position; even so you will not be unduly perturbed on this score since your friends will gladly help you with finance to enable you to meet your needs. Speculative transactions may yield moderate profits.

Real Property, Services, Professions, etc.: Not a bad month for real property matters. You will make considerable improvements to your landed properties with bank loan assistance. The consequent increased revenue from land will easily wipe off the bank loan in a very short time. Services should guard against incurring the displeasure of their superiors. This is, more or less, a satisfactory period for the professions, businesses and industry.

Women: Those engaged in social work will be entrusted with greater responsibilities in recognition of their good performance in the past. The social climbers will find the period helpful. Your proclivity towards extravagance in spending should be curtailed severely. This is not a bad period for working girls.

Students: Those who are about to appear for the superior services competitive examinations held by the Central Government, especially foreign services, will answer their papers with supreme confidence and could confidently look forward to being invited for personality tests by the Selection Board. The chances of your ultimate selection are quite good in view of the powerful (although with Vedha) position of both Sun and Mars. Army commissions are also likely to be offered to a few.

11. KUMBHA (Aquarius)

General: The Sun in the unfavourable 9th till 15th with check transits thereafter the favourable 10th Mars in the unfavourable 9th till 18th with check transits afterwards the favourable 10th with Vedha. Mercury in the favourable 10th and 11th yields to Vedha from 1st. Jupiter in the 7th is fully favourable. Venus in the favourable 8th and 9th yields to Vedha. Saturn in the 12th is none too good. The favourable influences have the upper hand during the month. Your high character and integrity will be recognised by one and all. Accrual of money, increase in your influences in the social circles and general prosperity are all indicated. Do not undertake journeys, long or short, without specific plans and purpose. Satabhisha is better than Dhanishta and Poorvabhadra.

Health and Domestic: You will enjoy good health practically throughout. Chronic sufferers could look forward to having a period of temporary relief. One of your sons will land an excellent job in a reputed industry. Problems are likely to be there in the domestic field but you will be able to resolve them, albeit with some difficulty.

Finance and Speculation: This is a satisfactory

period for all financial matters. You will be able to settle your past financial commitments on favourable terms. Planetary influences will enable you to exercise judicious forethought in long term investments. Moderate profits are indicated in the speculative field.

Real Property, Services, Professions, etc.: The second half shows promise in matters pertaining to real properties. Acquisition of new property is likely during the second fortnight. The services will find the month helpful and unexpected promotions are likely. This is quite a satisfactory period for businesses and professions.

Women: Romances are likely to blossom into wedding. Your social contacts will assist you to advance your business interests. This is a very satisfactory month for working girls.

Students: Rapid progress in studies is possible. You will be successful in tests and interviews. Medical students are particularly favoured. Those interested in fine arts will find the month quite fruitful and soul-satisfying.

Chandrashtama occurs from morning of 3rd to early hours of 5th and again from noon of 30th till the end.

12. MEENA (Pisces)

General: The Sun and Mars transit the unfavourable 8th and 9th; the former is under check throughout and the latter also throughout, except between 18th and 29th. Mercury in the unfavourable 9th till 23rd with check transits afterwards the favourable 10th with Vedha. Jupiter in the 6th and Venus in the 7th are thoroughly unsatisfactory unrelieved by any check on their evil propensities. Saturn in the 11th is fully favourable. The month will be quite unfavourable from the point of view of Gochara. It is, however, likely that the planetary influences in your natal chart offer counteracting Bala to the Gochara effects. Revati is better than Poorvabhadra and Uttarabhadra.

Health and Domestic: Great care is necessary on your part in the field of health. Even the slightest symptom of illness should be attended to promptly. Chronic sufferers will have a more trying time. You may have to keep your fingers crossed witnessing the rocking domestic boat in spite of your best efforts to rescue peace and harmony for the family.

Finance and Speculation: The month will be thoroughly unsatisfactory for all financial matters. While income will shrink the expenditure will increase sharply. Economy in every direction should be your watch-word. Speculative transactions should be completely avoided.

Real Property, Services, Professions, etc.: The month cannot be said to be satisfactory in matters pertaining to real properties. You are advised to postpone decisions on all property deals, major and minor. Litigations with tenants is likely. The month will be quite irksome to the services who may have to face penal transfers. Businesses and professions should be prepared for a lean month.

Women: Love affairs should be totally avoided as these are likely to lead to frustration and severe disappointment. You should be most careful about your functional health. Employed girls should be extremely careful in dealing with their superiors.

Students: Unhappy home and financial drain will worry you. This will result in disinclination to studies. You will, however, excel in sports and games and you should curb your over-enthusiasm in the sports field and make a determined effort to spare some time for studies as well.

...amanta ...handrasekhara

Sir, - Mr. B. K. Mishra, I.A.S. ...ed, former Addl. Chief Sec...ary of Orissa and ex-Vice-...ancellor of Utkal University, ...baneswar (*A.M.*, July 1991) ...fers from my views on the date ...birth of Samanta ...ndrasekhara as given in my ...cle (*A.M.*, December 1990). ...contentions are four-fold:

(a) Some of the facts of my ...cle are not correct,

(b) The premise on the basis ...ich the horoscope has been ...t by me is wrong,

(c) The assumption that the ...e was 11-1-1836 is not ...rect,

(d) The 8th day of the dark ...ight of Pausha in Saka 1757 ...on the 13th December, 1835 ...d it cannot be the 11th Janu... 1836, as fixed by me.

It appears that Mr. Mishra ...not read my articles in Oriya ...lished in the *Utkala ...anga* (January 1986) and ...in the *Niyati* (February ...). 'Better late than never.' ...the study of Mr. Mishra is ...incomplete as he has not ...able to prepare a horoscope ...Samanta Chandrasekhara in ...formity with the proposed ...of his own conjecture. However my views on his four-fold observations are respectively as follows:

(a) Mr. Mishra could have clearly pointed out the facts which he claims are not correct. Each one of the points can be corroborated with the events of life as found in the published biography of Samanta Chandrasekhara.

(b) Mr. Mishra has failed to justify his own statement by assuming the premise to be wrong. Does he not agree with me that Samanta's Rasi was Virgo and the Nakshatra, Hasta?

(c) The date of birth (*i.e.*, the 11th January, 1836) arrived at by me on solid astronomical calculations is not an assumption but a fact of mathematics. Anybody can verify this by going through the detailed calculations given on pages 203 and 214 in *Mr. Samanta Chandrasekhara Commemoration Volume*, published by the Directorate of Culture, Government of Orissa.

(d) Since the 19th December 1835 was a New-Moon day, it was not the 13th but the 12th that was the 8th day of the black fortnight. It may be remembered that the position of the Moon will never give Hasta-Kanya in the vicinity of this date. Since the Moon was in Krittika star on the Full-Moon day *i.e.*, the 6th December 1835, it was Kartika-Pournima. So also, as the Moon was in the Mrigasira on the next Full-Moon day on the 4th January 1836, it was Margasira-Pournima. The date thereafter *i.e.*, the 11th January 1836 fell in the dark fortnight of Pausha.

I reiterate the correctness of the date of birth of Samanta Chandrasekhara as fixed by me (*i.e.*, the 11th January 1836) and feel that Mr. Mishra's surmise is only a scholarly query and not a refutation.

Political Forecasts

Sir, - The incidents that have taken place during the last six months politically and geographically (natural calamities) in our country and also in the world as predicted in the columns and editorials of *The Astrological Magazine*, especially of 1991 Annual Number and Election Special and also in her public lecture on Prajotpatti New Year's Day on 16-3-1991 by the Associate Editor, Mrs. Gayatri Devi Vasudev have proven once again that Astrology as a science cannot be overlooked.

I congratulate the Associate Editor for her accurate interpretation.

Kakinada. M. Subrahmanyam.

Sir, - Congratulations for the accuracy of the predictions in your Annual Number and also those in your Prajotpatti report. I pray the Almighty to bless all those responsible to grow from strength to strength in making the science so much more fascinating through your magazine.

Dharwad. S. Thrinadha Rao.

Science of Astrology

Sir, - Despite mean attacks on Astrology Dr. B. V. Raman has established Astrology as a positive science.

May God keep him healthy to enable him to serve the humanity.

Appreciation

Sir, - I received the duplicate copy of the July 1991 issue of the *A.M.* and an overwhelmed by your courteous and proper response to my request after the original was lost in the post office.

I thank you for your kindness and your caring attitude towards your readers, a very rare quality noticed in the present generation of publishers.

May God give you a long life to serve the people.

Forecast for February 1992

Sir, - For the longitude 79° the New Moon on 4-2-1992 falls exactly on the 4th cusp in Sayana Aquarius within the orb of conjunction with Saturn. Mercury the 8th lord is just 6° behind the lunation point. Pluto rises in Scorpio. The configuration is supposed to indicate severe seismic disturbances and accidents in mines.

The 3rd house is severely afflicted by the presence of 4 malefics and Venus, lord of 8th and Lagna according to Nirayana. All these five transit the constellation Poorvashadha ruled by Venus. Railways, road transport, communication systems, the press, information and broadcasting, relationship with neighbours are some of the portfolios covered by this house.

Strikes by and agitation among employees of these departments will cause concern. Fraud and swindling will be a source of embarrassment to the Government. This is very much evident with the presence of Mars, lord of the 2nd in the 3rd in conjunction with Neptune and Uranus. Uranus signifies extraordinary happenings in 3rd house matters. Publishing houses will adversely be affected. This month could witness a possible major accident on public transport system infolving fire, sabotage and explosion. At this time of the month neighbours will be more troublesome. This is more so as Mars lord of 7th is in the 3rd in association with Uranus, Neptune, Rahu and Venus, lord of 8th and 1st. During the whole month Jupiter lord of the 3rd and 6th (working class) will be retrograding in Pubba ruled by Venus lord of the 8th. Strikingly enough in the Map of Indian Independence the New Moon falling near the M.C. will be opposing the radical Saturn in the 3rd.

In the New Moon chart, the Moon is lord of the 10th, the Government and the Sun, lord of the 11th ruling Parliament. Their conjunction on the 4th cups in Sravana linking the ruling party and the Government is significant. This becomes more meaningful in the light of the conjunction with the 4th lord Saturn represent[illegible] rank and file. Saturn also tra[illegible] sits Sravana ruled by the Moo[illegible] the 10th lord. In all likelihood a political realignment seems to be in the offing.

ASTROLOGY AND WOMEN'S WORLD

Q. My daughter got married on 18-3-1984. She lived with her husband only for 15 days and is now divorced. Does the chart show a second marriage?

S. No. 17425

Born 10-3-1965 at 8.45 p.m. at Cuddalore

Ans: The 7th lord Mars is in the 11th house aspected by Lagna lord Venus, Yogakaraka Saturn and 11th lord Sun. Karaka Venus is influenced by 3 planets - Sun, Venus and Saturn and also the 7th lord Mars. The Dasa of Jupiter began in May 1990 and Jupiter occupies the 7th house from the Ascendant. Jupiter can therefore indicate marriage in his Bhukti which will run upto June 1992. The 7th lord Mars in Leo in Rasi and in Scorpio in Navamsa influenced by the Sun can give a groom with a medical background.

Q. My daughter lost her husband in a fatal truck accident on 23-10-1990. She was married on 26-5-1983. What factor shows this calamity in her chart and what about her career?

S. No. 12825

Born 31-7-1962 at 8.49 a.m. (IST) at Patna.

Ans: The details furnished are very sketchy but the strong affliction to the 12th house caused by Rahu, Mercury, Sun and the New Moon cannot be underestimated. Further, the 7th lord Saturn (R) is in the 12th from the 7th with Ketu which does not conduce to the stability or survival of the marital bond. Perhaps, complete horoscopic details would explain the tragedy better.

In the absence of the Dasa details etc., all that can be said is that Venus in Lagna, Jupiter in the 7th and Mars in the 10th would indicate a fairly good life.

The Yogakaraka Mars in the 10th house aspects the 10th lord Venus in Leo. Jupiter also aspects the 10th lord Venus. The girl can try a career in teaching or law for which the prospects are good especially after 1995-96.

Q. My son is not showing any inclination for marriage nor is he saying he will not marry at all. His cold attitude unnerves me in my old age and failing health.

S. No. 12027

Born 31/1-7/8-1959 at 25h.40m. at 18 N 32, 73 E 51.

Ans: The 7th lord is with Venus who is not only the Kalatrakaraka but also the Ascendant lord. Further Mars is Vargottama. This cannot deny

marriage although Saturn in the 7th from the Moon can delay it.

Mars Bhukti of Jupiter Dasa runs between April 1993 and April 1994 when marriage is indicated.

Q. My sister is working in a manufacturing company. Her husband, a Government servant, has been posted at a place more than 400 kms. from where she works. There is no hope of his being posted to the same place. My sister is worried and is trying to persuade her husband to leave the job and start a business. Ans: Mercury Bhukti of Rahu Dasa has just begun. Rahu is in the 2nd house but not afflicted in any serious sense. the sign-dispositer of Rahu is well-placed in the 10th with Digbala with Mercury and Venus flanking him. Therefore, Rahu Dasa cannot create any serious marital problems in your sister's life. Therefore, she need not worry unduly on this account. Since transit Jupiter is on Dasa lord Rahu, some kind of a solution is foreseen and the husband and wife may be able to live together.

The 10th house from the 7th house is Libra aspected by its ruler Venus and 4th and 11th lord Mars. Rahu's sign dispositer Sun is well-placed in the 5th. Therefore, the husband may embark on some trade or business with good results and which would also enable him to live with your sister.

Q. The girl though good-looking and well-employed is so far not married. Will she be like this all her life?

Ans: The 7th house is quite well-placed, only Saturn's aspect on it contributing to delay. The 7th lord is in the 9th which is again good but is aspected by 3rd and 12th lord Jupiter which also adds to delay. Mercury Bhukti of Jupiter Dasa now running will end in March 1993. Mercury, a benefic, is in the 2nd with 8th lord Sun and Yogakaraka-cum-Vargottama Venus and can bring about marriage, especially after September 1992.

Strangely enough, on 6-9-1991 in ...eeting arranged by the Chairman of ...e Apollo Hospitals, Dr. Pratap ...dy and presided over by the ...vernor of Madras, His Excellency ...thma Narain Singh, the doyen of ...rology, DR. B. V. RAMAN delivered ...alling lecture on the scientific ...lidity of Astrology and how it can ...e effectively used for predicting ...e possibility of certain diseases ...m the horoscope of a person much ...fore the actual onset of the ...sease or even its symptoms. He ...o touched on how Astrology could predict monsoon and weather much better than what the science of meteorology with all its gadgetry was able to achieve. The same day there was a letter to the Editor in one of the national dailies as to how the astrological concept of special aspects of Mars, Jupiter and Saturn which are farther away from the Sun than Mercury and Venus and outside the earth's orbit has been proved a possibility by physicists who have found that the waves (rays) from these three planets are deflected by gravitation. When such is the fact the pontifical statement on T V is hardly tenable. The truth is our scientists try to pose as being more rational than their western counterparts. One may recollect the article "Scientists and Scientific Temper" by the Associate Editor in the *A.M.* February 1986.

Shah declared at the end of the part on computers that Astrology or no Astrology, he could make a definite prediction that the same programme would appear on T V the next Sunday, same time. But lo ! it proved a little comical for on the following two Sundays (8th and 15th) this programme was not featured at all. A *fitting finale indeed !*

ASTROLOGICAL ACTIVITIES

ASTROLOGY and medicine have close links and most diseases can be diagnosed in Astrology with the help of the horoscopes,* said DR. RAMAN on Thursday, 5-9-1991. He was addressing a packed auditorium at the Narada Gana Sabha, at a function organised by the Apollo Hospitals at Madras. The audience comprised of the cream of the medical fraternity and local intelligentsia.

The Tamil Nadu Governor Mr. Bhishma Narain Singh presided.

Diseases, DR. RAMAN pointed out, were caused by the interaction of certain factors in the horoscope and they could be controlled through certain yogic and mantraic exercises. Leading scientists in the West had begun to appreciate the relevance and validity of astrological principles and methods in the treatment and diagnosis of diseases. It could be astrologically indicated when one would be afflicted by certain types of diseases based on the malefic influences of planets, he said. Even the mental and psychological structure of an individual could be analysed on the basis of the horoscope.

Astrology, DR. RAMAN said, had become popular in the West too. As part and parcel of India's heritage of science and culture, Astrology was a discipline of great consequence. However, certain die-hard 'progressives' never tired of calling it names, superstition for instance, said DR. RAMAN. Taking a dig at the pseudo-rationalists and pseudo-scientists at their gimmicks in denigrating Astrology as "superstition" DR. RAMAN challenged them to disprove Astrology.

Complimenting Dr. Pratap C. Reddy, Chairman, Apollo Group Hospitals for his initiative in sponsoring this lecture, DR. RAMAN appealed to Dr. Reddy to establish a research section in medical Astrology. This should not be difficult, said DR. RAMAN, as this institution had the advantage of collecting the birth data of patients suffering from different diseases and which was essential to make a statistical study of planetary patterns and different types of diseases.

Earlier Dr. Pratap Reddy in his welcome address said Astrology was a science of great validity and its potential had not been fully tapped.

In his presidential remarks Mr. Bhishma Narain Singh said even scientists conceded the influence of planets on terrestrial matters. The combination of the Sun and Moon in different alignments caused different types of tides. Sun-spots affected not only the terrestrial magnetism but also led to other consequential results. The phases of the Moon were known to have some definite influence on the conduct and behaviour of living beings. Due to successive foreign invasions and alien rule, the faith in Indian culture had got weakened and the ancient disciplines of Jyotisha, Ayurveda and other branches of knowledge suffered setbacks. The Governor said a horoscope could be quite often more useful than a medical diagnostic test. Horoscopes could reveal the latent tendencies to diseases and medical astrology could aid a physician.

Mr. M. Gopalakrishnan, Chairman and Managing Director, Indian Bank, made appreciative references to DR. RAMAN's dedicated services to the cause of Astrology.

A vote of thanks was proposed by Mrs. Rekha Shetty, Vice President, Apollo Hospitals Group.

*A summary of the lecture delivered extempore appears as the Editorial in this issue.

Astrologer Honoured

Astrology has been given due honour in Dhaka, Bangladesh. Recently (5th July) ten national personalities including an astrologer have been awarded the 'National Literature Award' Gold Medal for their outstanding contribution to society in the respective fields.

In a colourful function housed in the National Press Club presided over by a Justice of the Supreme Court, the awards were distributed by the Speaker of the National Assembly of Bangladesh (Jatiya Sangsad).

The recipient of this coveted honour is Professor Howlader, recognised as a pioneer of Astrology in Bangladesh. He has authored a number of books.

Mr. Howlader heads the world Astrology Society whose chief patron is DR. B. V. RAMAN.

फलानि ग्रहचारेण सूचयन्ति मनीषिणः ।
को वक्ता तारतम्यस्य तमेकम् वेधसम् विना ॥

Those who know Astrology can only indicate in a way what will take place in future. Who else, except the Creator Brahma, can say with certainty what will definitely happen?

DECEMBER 1991 No. 12

ASTROLOGY VERSUS TEST-TUBE BABIES

REPRODUCTION is a natural process. Babies come naturally. They are conceived naturally, their development is Nature's responsibility and culminates in their delivery naturally. That is what usually happens. But if we go back in time there are cases of the unusual unnatural births also. In the days of the *Mahabharata* when Gandhari, the queen of Hastinapura conceived, something abnormal was waiting to take place. The delivery date came and went like any other date. The distraught queen, unable to bear the suspense any longer, hit herself in frustration on her stomach, hoping the baby would be forced out. Instead all that happened was the floor was splattered with blood and flesh. Precisely at that moment, Sage Vedavyasa arrived. Consoling the queen, he put each of the 100 babies into a pot with some ghee and other materials (the details of which will be never known) and sealed them. Chanting appropriate *mantras* he instructed the queen to open them only after 100 days. At the end of the period, a hundred babies began howling from within these pots waiting to be mothered by Gandhari.

Thus did the first set ever of pot-babies (improvised to test-tube babies now) arrive, conceived naturally but developed outside the mother's womb. This was one step ahead of the test-tube baby of today who is still delivered by the mother after developing in the womb.

The next stage in the evolution of the baby-business was their being conceived naturally but delivered surgically. Although many other babies must have been born earlier this way, it was only Julius Caesar's name that stuck to this kind of delivery, perhaps because he was one of the first great's to be born this way.

Digitized by Arya Samaj Foundation Chennai and eGangotri

Thereafter, nothing unusual or exciting took place on this front of baby-business except in some remote cases of science - fiction such as Aldous Huxley's. Then, in 1978, Louise Brown was born an *invitro* baby in England. That is, she was conceived when her mother's egg and father's sperm were joined in a glass dish and then injected into the mother's reproductive system. It made news then; it still does !-

It is indeed an achievement, a marvel of science, a breakthrough. On the other side of the coin it has raised the hopes of millions of childless couples without due justification. This bauble of a test-tube baby leaves the couple chronically depressed and economically shattered in cases when it fails to work. And these are many.

What are the facts of this medical achievement ? And how many can avail of it ? And what are the requisites of the availing of this facility ? A leading international journal says, more than 3000 IVF (*invitro* fertilization) babies have been born so far, nearly a third of them in the U.S.A. But two factors come in the way of the common man availing it —economics and the flimsy chances of its success being a mere 10 percent. That is, if a 100 IVFs are tried, only 10 women stand chances of becoming pregnant. The process is tedious but this, many are willing to go through, only if they can get the long coveted gift of parenthood. And of course, the unscrupulous in the medical fraternity have been quick to cash in on this medical achievement.

The process is gruelling, tension-ridden. The woman must take a series of injections which are accompanied by headaches and moods. Daily blood tests and frequent ultrasound examinations necessitate the couple having to stay close to the clinic (and such clinics in our own country are very, very few) away from home. The ripened eggs are then fertilized by the husband's sperm in a dish. If cell-division occurs, they are transferred to the wife's uterus. Then, more injections low. Blood samples are regularly taken only then pregnancy confirmed. The procedure costs huge amounts in terms money, resources and hopes. Many mistakes occur.

In the U.S. women who have miscar after IVF have even gone to the courts damages. In fact, a famous psycho-thera and physician U.S. couple have already 10,000 dollars on two unsuccessful IVF tempts. Another case went through 12 tempts at IVF spending 100,000 dollars son. How many in India have this kind money when buying essentials itself is a of some kind ?

Clinics that offer IVF facilities are cho and take on a case only if the patient is be 40 years. The husband should have nor fertility.

There is no standardisation of procedure and the potential for abuse tremendous.

But after all this trouble and expense, far does the family gain to stand ? How such births contribute to society and welfare ? One cannot be too sure for eve the hands of the great Vedavyasa, the b spelt only ruin and destruction. The Kaur in their monstrous greed for a king engineered the epic battle of Kuruksh which killed nearly all the valorous king the day. Will results be any better when doctors are lesser mortals ?

The charts of such births can give a to the trends they generate. In India, the test-tube baby was born in 1986. Altho the birth brought rejoicing to its poor pare it faced ostracism from the neighborhood its 'bizarre' origins.

The Ascendant in Chart 1, degreewise hemmed in between malefics Mars and turn. The Moon who has just emerged a conjunction with the Sun is in the 8th Mercury. The 10th lord Mercury in the gives humiliation and in this case.

...e 1987 three test-tube babies arrived ...e same day in the same municipal ...all in a metropolitan city. All the births ...place on a Wednesday, between 9 and ...on. Incidentally all the three were ...ed by caesarean section.

The first birth of a boy (Chart 2) took place in Uttarabhadrapada, a constellation ruled by Saturn. Saturn the 4th lord is placed in an inimical sign Scorpio. The mother did not conceive for 9 years after marriage due to blocked fallopian tubes. Then after *invitro* fertilization and embryo-transfer she became pregnant.

Here the Moon is with Rahu, sharing the same Nakshatra of Saturn. They are aspected by Ketu-afflicted Mars. Mars is the 6th lord. The Mars-Rahu influence speaks of putting the latest technology (surgical-medical) to use in the birth of the baby. While at the technical level it is an achievement, the Moon-Mars-Rahu nexus occurring in the 5th house ruling intellect afflicts the psycho-logical personality of the baby. A split be-tween the mind (emotions coming under the Moon) and the intellect (5th house ad lord) seems inevitable as the years pass.

Regarding the second birth (Chart 3) the mother had been married for 10 years and was infertile due to an occluded fallopian tube. All the features of Chart 2 repeat here except that the Lagna is different and the Moon has moved a little ahead.

The 4th houses the Moon and Rahu. The 5th lord Mars afflicted aspects the Moon. The Moon and the 5th house are again inter-related but not in a positive way.

Chart 4 is of the girl born on the same day. The mother had the same problem as in the previous case and was issueless for 8 years.

All the planetary positions repeat, save the Ascendant and the Moon's longitude. The Moon, this time in the 3rd house, is strongly afflicted by Rahu and Mars. The 5th house from Lagna is relatively free from affliction. But as in the previous two cases, the Moon is also the 5th lord (with reference to Chandra Lagna) and attracts the affliction from the nodes and Mars.

In all these charts, the most common affliction is of the Moon. He occupies a watery, fluid sign in all the 4 charts and Mars afflicts him by his aspect. In the first chart, the Moon and Jupiter are in Shashtashtaka. In the later 3 cases, they are in Dwirdwadasa positions.

Jupiter's position is of paramount importance in evaluating progeny and, therefore, the creative force behind it. In all these cases, Jupiter occupies a cuspal degree. In Chart 1, he is in the 30th degree of Aquarius. In the remaining 3 charts, he is in the 1st degree of Aries.

Jupiter's weak position could even suggest that the births have been largely manipulated through human ingenuity (in other words by extraneous forces) than through Divine Grace. Such cases in *puranic* lore have always led to demoniac and *asuric* births. The scriptural stories are mere metaphoric allegories that constantly h[illegible] light the dangers of man's ego going o[illegible] hand and the consequences it can attr[illegible] This moral is depicted as puny man's de[illegible] niacal passions and urges interfering be[illegible] a point with the natural order of the Univ[illegible] and attracting calamitous catastrophes.

Planetary Movements

MARS entered Libra on 6th October forming a mutual square with the other malefic Saturn and before we knew what a most harrassing situation for the Indian Government had developed in the capital with the Romanian diplomat Liviu Radu being abducted by Sikh militants barely 200 metres away from his residence. For those who care, this is only the beginning of the kind of excitement the malefics can provide and the two range in to an exact science, more action and a faster tempo of excitement are anticipated. So, whether it is the Government or the Central Intelligence or the police, it is time to be extraordinarily alert and vigilant during the coming weeks.

Bravo, Narasimha Rao!

While all our prime-ministers have without exception adhered to astrologically auspicious times either to file their election nominations or to take charge of office, all of them so far have been surreptious about the muhurtams in a vain attempt to appear secular (note, *secular* as defined by our politicians, and not by the dictionary) Narasimha Rao has been the only one to be open, plain and straight forward in adhering to astrological muhurtams. On 10-10-1991 he is said to have arrived at the Collectorate's office in Kurnool in Andhra Pradesh about 15 minutes earlier but waited patiently in an ante-room for the auspicious Muhurtam to arrive. He made no fetish about it which is quite characteristic of his simple and unassuming ways; nor did he try to defend or deny that the time was astrologically fixed. But he simply adhered it to the dot at 12.15 noon. The Tithi was Sukla Triteeya, the weekday was Thursday, the zodiacal sign was Sagittarius and the Moon was in Visakha giving a *panchaka* of 6 or *chora panchakam*.

*The Ascendant Sagittarius is aspected by its ruler Jupiter from the 9th house, the Sun is in the 10th house, both plus points showing a successful outcome to the elections. The Moon suffers an affliction from the combined influence of Mars and Saturn, both predominantly strong, one being in his own sign and the other, Vargottama. While winning the elections may be no problem, the months after that will see him wearing a crown of thorns. Mars is the 12th lord and the square he forms with Saturn shows mega tensions galore in the running of the Government. The period around 21-1-1992 when Mars conjoins Rahu in the Ascendant may see an appalling outburst of violence in the country. Narasimha Rao will find quiet eluding him and his hands choked with problems. The *chora panchakam* cautions against trusting any colleagues overly who will only be waiting to jump on the *gaddi* at the slightest chance.

*Rasi: Sagittarius - Ascendant and Rahu; Capricorn - Saturn 7-55; Gemini - Ketu; Leo - Venus 9-56 and Jupiter 13-19; Virgo - Sun 23-55 and Mercury 28-31 and Libra - Mars 3-18 and the Moon 24.

A Giant Falls

October 6, 1991 was a fateful day for journalism. Ramnath Goenka, the colossus of the national print media, breathed his last following a period of ill-health. A relentless fighter, his endless battles against moral turpitude and corruption in high places mark a glorious chapter in the history of journalism the world over.

A career of championing truth and the cause of freedom began in 1934 when he took over the *Indian Express* from its previous owners, the Free-Press of India (Madras) Ltd. He developed it into the largest newspaper institution in the country over a span of almost 6 decades. Many of the editions were started at *muhurthams* fixed by Dr. B. V. Raman whom he held in great esteem and whom he used to consult in all important matters.

in Darbhanga District in Bihar, Goenka had a powerful chart* with all the planets in dignity of one kind over the other. The exalted Sun, Moolatrikona Mars and 9th lord Mercury in Aries, the fighter sign, aspect the Ascendant Libra. Yogakaraka Saturn occupies the 4th, Lagna lord Venus is exalted in the 6th with 6th lord Jupiter and the 10th lord Moon is exalted in the 8th. It was Rahu Dasa, Venus Bhukti that saw him devote himself to newspaper publishing. A nationalist to the core, he was a great admirer of the Nehru family until 1969 when his outspoken stand against the Congress split strained relations with Mrs. Gandhi. Thereafter, he became a vehement upholder of the JP movement and invited the wrath of the rulers. It was one long fight after that with the establishment and anyone else in his place would have buckled under the relentless problems the Government created for him. The strong position of Mars in the 7th made him at times brutally outspoken while the association of the Lagna lord Venus with the spiritual Jupiter led him to espouse the Dharmic cause of a clean public life.

The aspect of Mars and Saturn on the Ascendant, both natural malefics, made him a man of spartan habits; he lived mostly on fruits and vegetables, wore only khadi and was a teetotaller. Sincerely independent he even drove his own car until a few years before his death.

The end came in the last Bhukti of Mercury Dasa. Transit Saturn was on natal Saturn in Capricorn and on the day of the death, had just turned direct squaring Mars who had also entered Libra the previous day bringing down the curtains on the grand-old man of Indian journalism.

I quote below his views on the freedom of the press from which many of our journalists can draw true inspiration and guidance. Unlike many of the breed now, he was one who spoke what he thought and practised what he spoke.

People who wield power are also cowards in their own way. They can never stand up before those who are fearless. They will dare to pressurise only the weak and the corrupt. If I were to go on my knees every time the Government changes or the power equations at the Centre, then each and every power group will try to bully and intimidate me. I know all these shameless editor-owners who boast about their bravery in public and cringe before politicians in private, seeking personal favours. When these favours are not forthcoming, they attempt blackmail.

Forget all these big notions of freedom of the press. Do your own duty honestly and fearlessly. That's what I tell all my editors. Courage comes from professional integrity. It cannot be a mantle worn by a cowardly man or a stupid bastard. If you keep your head high, who can dare take you on? Which government has the integrity and the guts to attack a truly courageous editor or proprietor?

Tchah, Shame on them. Shame on those old, decrepit editors who go to Delhi and keep rubbing their hands and saying 'Hee, hee, hee, sir, sir, sir, give me this, give me that, I am your servant, use me please.

Crass Ignorance

Recently in Madras for a friend's cataract operation, I had an interesting, even if shocking, experience of the way people think and understand men and matters. A young lady doctor at the hospital told me her chart had been analysed some years back and it had been said she would get married only in 1990. Were she to get married before that, she would have to face a traumatic phase. Nothing objectionable in that. In fact, it showed how a mature handling of the chart could give full scope to free-will and effort in the proper direction. What was troubling the doctor was she was in love with an eligible retinologist under whom she was working but her parents had reservations about this marriage because of the astrological analysis. So she argued if all predictions could not come true why not ask the particular astrologer who had made the chart to tell her parents that his predictions could also go wrong and therefore, she could marry the man she was currently interested in. As a professional, her request was not only neither decent nor fair, but also highly unethical. Would she if she found medical tests showing a patient had some terminal illness be willing to tell his parents he was perfectly okay and he could marry the girl of his choice. Because, if she did not, as she herself argued against Astrology, may be the marriage would otherwise be called off. What kind of doctor she will make, God alone knows. But a worse kind of fool I have not met so far!

olitical Frustration

THE Moon and Jupiter obtain Neechabhanga Raja Yoga. Other favourable planetary ons too obtain in this chart. e native is undergoing great tal tension and frustration r 25 years in politics. When his frustration end?", asks der Kamal Kumar Kamal of ger in Bihar.

Born 12-2-1950 at 2.05 a.m. at Munger.

Rasi: Scorpio - Ascendant the Moon; Capricorn - Sun, cury, Jupiter and Venus (R); s - Rahu; Leo - Saturn (R); Virgo - Mars and Ketu. *vamsa:* Capricorn - Ascen- Aquarius - Moon and Mer- Aries - Venus; Taurus - Gemini - Mars; Cancer - iter; Virgo - Sun; and Scor- Saturn and Rahu with a ce of 5 years, 1 month and s.

The Moon in Scorpio does get effective Neechabhanga. the 2nd, 5th, 11th and ords in the 3rd can give s of a favourable nature *vis-a-vis* financial success, there are no Yogas as such to indicate political success. And the Moon Dasa, least of all, is qualified to do that. However, Saturn (R) in the 10th cannot be dismissed lightly. Rahu Dasa can be more gratifying in terms of political success, especially in Jupiter Bhukti. Until then the native would do well to train his guns on his career and stop fretting about his political ambitions.

Saturn Again and in the 10th

"Saturn's position in my son's horoscope worries me as I have been reading the 10th house Saturn brings a fall after lifting an individual sky high. If that is true, when will this phase come in his life?", asks reader Col. A. S. Herr, 56 A.P.O.

Born 22-12-1967 at 5.20 p.m. at Chandigarh.

Rasi: Gemini - Ascendant; Leo - Moon and Jupiter; Libra - Venus and Ketu; Sagittarius - Sun and Mercury; Capricorn - Mars; Pisces - Saturn; and Aries - Rahu. *Navamsa:* Scorpio - Ascendant; Aries - Mercury and Rahu; Taurus - Venus and Sun; Cancer - Mars, Moon and Jupiter; and Libra - Saturn and Ketu with a balance of 0 years, 10 months and 12 days of Ketu Dasa.

Saturn in the 10th does give spectacular success but this is more particularly so in charts with a political background when a fall has to be equally damning. In certain other charts, Saturn in the 10th is a strong Yoga for renunciation of an extraordinary nature as happens in the case of some of our great men in the past such as Swami Vivekananda. If the factors showing success are all strong, Saturn only tends to confirm such peak results. If other factors for disgrace or fall are not present, then Saturn alone in the 10th does not lead to such results.

In your son's case, Saturn is in the 10th. The 10th lord Jupiter is in the 3rd in a friendly sign with the Moon. This would give a none too eventful career in the Dasa of the Moon but as Mars Dasa takes over, a change for the better will be thrust on him. Mars is the 6th lord placed in the

8th and the closing years of his Dasa, that is, especially Moon Bhukti (2011) may be a period of great testing, trial and tribulation. But the Ascendant is quite strong and the Dasa after Mars is of Rahu. Rahu in the 11th itself is a big asset. He is also Vargottama and in Aswini whose lord Ketu is himself Vargottama. Rahu is aspected by Jupiter, benefic Venus and exalted Mars all of which add to give highly satisfactory results as Rahu Dasa starts running. Rahu should also give the results of Saturn and Saturn is in the 10th which means your son may enjoy great authority, influence and other benefits by virtue of his career position. Rahu's strong position does not show any sudden fall during his Dasa. And this will run upto his 62nd year after which Jupiter Dasa will begin. Therefore, there is no need to worry unduly about your son's Saturn in the 10th.

Stones to the Rescue

"Precious stones are generally used for removing bad effects of the planets or improving the prospects of better days. Stones are also used for healing diseases. I have found that people should wear ornaments or rings of the following gems. If born in the Sun's major period ruby, in that of the Moon's major period pearl, if in that of Venus major, diamond, in that of Mars major period coral, in that of Mercury major pearl, emerald or gomeda, in that of Jupiter major period yellow or white sapphire and in that of Rahu major period emerald or gomeda, in that of Saturn's major period sapphire blue (neelam) and in the Dasa of Ketu, agate. The following gems should be gifted if the planet is placed adversely in the basic chart of the individual or if the Dasa is of a malefic planet. If the Sun is not favourable ruby should be gifted; when the Moon is unfavourable, pearl; when Mercury, emerald; when Jupiter, pushparag; when Venus, diamond or platinum; when Saturn, sapphire blue (neelam); when Rahu, gomeda; and when Ketu, cat's eye. The following is the metal for each planet for using the gem.

The Sun - gold, copper or silver; the Moon - gold or copper; Mercury - gold or silver; Jupiter - gold or silver; Venus - platinum or silver; Saturn - iron or silver; Rahu - iron or silver; and Ketu - copper or silver;" Reader M. M. Lal Mehta of Yamuna Nagar sends in these details.

Vision Defects

Reader Suresh Kumar Belvi of Ropar District seems to have made a study of medical Astrology. He writes "The Sun rules the eyes and the 2nd house rules vision. The 2nd house represents the right eye while the left eye is represented by the 12th house. When the Sun is afflicted or occupies the 7th house identical with Cancer and aspected by Mars then it denotes flying specks which means floating spots in the eyes. These floating spots develop in the vitreous humour. Vitreous humour is transparent gell, composed of 99% water and 1% collagen. As we grow older the vitreous fluid sometimes separates into a watery and stringy part. The stringy part may float behind the lens and cause a sensation of dark spots in the vision, but this is not harmful. 6 *ratti* ruby is useful for dark spots and it should be worn on the Sun finger of the right hand.

Jupiter, lord of 9-12 houses occupies Leo in 5th house and is also retrograde. Rahu occupies 3rd house of travelling. The Moon, lord of 4th house (vehicle), occupies the 11th house in Aquarius", writes reader N.C. Trivedi of Ahmedabad.

"Lagna lord is in dual sign (Mars), Lagna in a cardinal sign and Hora Lagna is Taurus, a fixed sign. All these factors indicate a medium span of life to the native. Moreover, the 8th lord in the 12th curtails longevity. The Sun in Papakartari Yoga and Moon aspected by retrograde Jupiter and Saturn suggest medium-life. Jupiter also aspects Lagna and the Sun.

"Saturn is a Badhaka and adverse for Aries-born natives. He aspects the 4th house, its lord Moon and 8th house.

"The 3rd house of travelling is occupied by Rahu and aspected by Mars, 1st and 8th lord from the 12th house. Mercury, the 3rd lord, is debilitated and afflicted by Mars. Jupiter does not aspect the 3rd house, its lord, 8th house, its lord or Mars or Saturn to be helpful at all. The 3rd and 8th houses from the Moon are afflicted too.

"On the day of the fatal car accident, the transits too were evil. Mars and the Moon were passing over radical Saturn aspecting radical Jupiter, aspecting the 8th house (from Taurus) and transit Sun in Scorpio and casting 8th aspect on transit Mercury and Saturn in Sagittarius over radical Ketu in 9th house. Mars was retrograde aggravating its evil aspect. Venus (dispositor of Mars) was in Scorpio, the 8th house. Afflicted transit Saturn aspected radical Moon and Rahu in the 3rd house. Transit Ketu was in the 4th house. Transit Jupiter in Cancer afflicted by Ketu and himself retrograde was not helpful, retrogression being a defect for travelling time.

"In the absence of correct birth time, correct position of the Moon cannot be calculated. Hence Dasa balance at birth calculated for 5.30 IST (birthplace location is not available) gives a balance of 5 years and 10th months approximately of Rahu Dasa. Venus Bhukti in Mercury Dasa should be *Maraka* period. Mercury is lord and Karaka for journeying, debilitated and afflicted by 8th lord Mars in the 12th in company with *Maraka* retrograde Venus.

Saturn-Rahu Combine

"It may be seen that the combination of lords of 2, 6, 8, Mars (lord of 8th), exalted Venus (lord of 2nd) and debilitated Mercury (lord of 6th) struck the cruel blow on the family. Also Saturn (in conjunction with Rahu) is aspecting the 12th from the 3rd house. Saturn in the 3rd alone may not cause havoc in a family but Rahu in combination with Saturn will derive tremendous strength to cause serious blows to the native", writes T. S. Raghavan of Bangalore.

Lagna, Weak and Afflicted

The Ascendant Aries has Sun exalted in it aspected by 9th and 12th lord Jupiter. The Ascendant lord Mars who also happens to be the 8th lord (Ayusthanadhipati) is in the 12th aspected by Rahu-afflicted Saturn.

Malefic Sun in Lagna and the 8th lord Mars in the 12th joined by 3rd lord Mercury cannot conduce to long life.

ASTROLOGY VERSUS TEST-TUBE BABIES

that the only exact way of ensuring the sex of the unborn babe is through aminocentesis and selective abortion. But this is not only misleading but leaves the couple dazed and psychologically disturbed when the over-exaggerated medical promise of the child of the sex of one's preference fails. A study made in 1982 shows that out of 8000 foetuses aborted in the hospitals of a major city of India after aminocentesis, 7999 were of the female sex! In fact, a North Indian state has banned the sex-selection tests when it found that 30,000 to 50,000 female foetuses were being aborted every year.

Apart from promising babies to childless couples, medical science also claims to induce birth of the child of the sex of one's choice. The procedure involved is long and expensive but is it at least foolproof in that it keeps up its promise ?

A famous film star who already had a girl went ahead with her second pregnancy only after the doctors had assured her it would be a boy. And finally when the baby came, it was another girl who had all the doctors and medical expertise licking the mud !

All the trouble going to extraordinary lengths burning away one's physical energies and fiscal resources and putting up with tremendous emotional and psychological pressure can easily be dispensed with if recourse is had to horoscopic factors.

Rasi: Aries - Ascendant 18-57 and Sun 24-27; Gemini - Saturn 15-21 and Rahu 20-29; Leo - Jupiter 25-58; Sagittarius - Ketu 20-29; Aquarius - Moon 17-05; and Pisces - Mars 11-34, Venus 25-33 and Mercury 28-56 with a balance of 3 years, 11 months and 7 days of Rahu Dasa.

The Lagna lord, a natural malefic Mars, in the 12th house aspected by other malefics (afflicted Saturn in this case) is said to detract from long life.

Another classic combination for Madhyayu (the native died in his 45th year) occurs when the Lagna lord being weak, malefics are in the 6th, 8th or 12th, Jupiter is in a trine or quadrant and a malefic is in the Lagna. In this case the Ascendant lord Mars is afflicted by a malefic eclipsed Saturn in the 12th, *dusthanas* are not strictly occupied by malefics except for Mars in the 12th and Jupiter is in a trine in the 5th. The Sun, not a natural benefic, occupies the Ascendant in Bharani, a deadly constellation ruled by Venus.

The death was violent. The 8th lord Mars is in the 12th aspected by malefic Saturn showing an unnatural end. The 8th house itself is blank and not influenced by any planet, good or bad. At least, the death came quickly as it occurred instantaneously with the accident. The 22nd Drekkana is the 1st of Scoprio and is a Sarpa Drekkana. The 8th lord Mars is in the 2nd Drekkana of Pisces aspected by Saturn from an Ayudha Drekkana. Saturn who is afflicted by Rahu is also in an Ayudha Drekkana pointing to the violent end which took toll of the young man's life.

Determination of Profession

N THE previous articles we have described at length, the part played by different planets both in their primary and secondary capacities—in regard to occupations of individuals. In this and subsequent articles we shall take up the different professions and study their astrological significations. As we have several times hinted in these articles, the art of prediction is a tough job. Unless the astrologer blends knowledge with experience and intuition he is sure to cut a sorry figure in his attempts at successful predictions. To begin with 10th house is the pivotal point. If planet is in the 10th house then it becomes the planet. If the 10th is not occupied by any planet then the lord of the 10th becomes the key-planet. The next in importance is the lord of the rasi occupied by the lord of the 10th. Readers must specially bear in mind that our reckonings always done both from the Ascendant and the Moon. Above all, the strongest planet in the horoscope always exerts its greatest influence in all matters. Astrology does not say that a man individual will have a certain occupation or profession. It enables us to know (a) what occupation would an individual take pleasure in; (b) in what occupations would he have the best chance of earning money; and (c) and in what professions one will display one's skill, talents and powers of originality. This should be of efficient assistance to a parent who wishes to give the right type of education to his son.

We shall first take up the line of insurance and study a few typical horoscopes. This line of course includes managers, employees, bankers, accountants and actuaries. At the present time man is confused in his choice by the number and variety of occupations and the suddenness with which new demands are made by the public and new occupations spring into being. Consequently it is not possible to divide the large number of occupations into definite groups. To give an example: a physicist dabbles in mathematics, an actuary dabbles in mathematics and a statistician also is concerned with mathematics. In all these three cases some combination should be a common factor even though the occupations are evidently different.

Taking the insurance line—we have people (a) who take a liking for the mathematical side; (b) those whose forte is the procuring of new business; and (c) those whose talent lies in office organisation. Still the occupation is the same. A keen student of Astrology has to reconcile the various sets of conflicting combinations before he could make headway in the art of predictions.

We invite the attention of our esteemed readers to page 268 of May 1942 issue of THE ASTROLOGICAL MAGAZINE wherein we have observed thus:-

"Examination of a number of horoscopes reveals that Mercury connected with the Sun and well placed in the horoscope makes the native highly successful in insurance. Banking will also be suitable. He may also become a statistician, an actuary and accountant. It should be emphasised that Mercury should be free from affliction for achieving real success."

The above paragraph is applicable in *toto* to this example horoscope. Of course the nature of falling in the 10th house will have its own bearing as also the various Yogas, good, bad and indifferent, caused in reference to the 10th. The general trend of the chart determines the grade or status of the native. For instance the Sun-Mercury combination in the 10th with a number of afflictions to lord of Lagna may indicate an ordinary clerk attached to an acturial office. In these articles we shall not deal with the grade or status but with only the nature of the profession.

In Chart No. 1 lord of Lagna is exalted in the 11th. This indicates much wealth and financial prosperity. Lord of the 10th Saturn is also exalted

in the 6th. In the 10th there is a combination of Mercury (lord of 2nd and 5th) and the Sun (lord of the 4th) thus causing a Rajayoga. The 10th house has fallen in Aquarius an airy sign. The 10th is aspected by the Moon and Ketu. Thus in some way or other, the Sun, Mercury, Rahu, Saturn, Jupiter, the Moon and Ketu are connected with the 10th house. Of the several planets, the Sun, Mercury and Rahu alone may be considered as key-planets though Saturn as 10th lord may be taken to have a subordinate effect. The Moon being lord of the 3rd is not powerful. Rahu and Ketu being shadowy planets their effects become merged along with those of Saturn and the Sun. Of the remaining two key-planets, the Sun is good by ownership but bad by location because Aquarius is the sign of an enemy. Mercury, on the other hand, is lord of 2nd (wealth) and 5th (intelligence and fortune) and is in the 10th (a friendly sign). Thus Mercury (the planet of intellect and intelligence) alone may be taken as the domineering key-planet while the Sun will have a secondary influence.

The native is an actuary and statistician for several leading insurance companies in India. He is also a professor of mathematics. The Sun's disposition has given him a governmental post while the key-planet Mercury has given him a reputation in his own actuarial line.

We shall study some more horoscopes of persons in the insurance line and see if any common factor obtains in all these horoscopes, which would enable us to appreciate what would make one take to insurance line.

Lord of the 10th is Mercury (Chart 2) and he is in the 9th with the Sun, lord of the 9th. From the Moon lord of the 10th is Jupiter and he is exalted in the 5th. The monu...al works such as ...siddhanta by *Bhaskaracharya, on the mathematical part of Astrology and *Brihat Jataka* and *Parasara Hora Shastra* on the predictive part (Phalabhaga) are noteworthy and important. For determining the longitudes of the various planets or *grahaspashta* the two works of *Grahalaghava* and *Makaranda* are standard ones. Some almanac-makers prefer the former while others follow the latter. The difference between the calculations according to the two methods sometimes extends to a couple of degrees. Both of these follow the Nirayana system and not the Sayana system of the Western astrologers. A pertinent question will arise whether the Nirayana or the Sayana system should be taken. The Hindus follow the former as they believe in casting horoscopes assuming the zodiac to be a fixed one while in the West they calculate on the basis of a moveable zodiac. The phenomenon of the precession of the equinoxes makes all this difference which amounts to roughly 23 degrees by which the latter is ahead of the former. This in itself is no small matter to reckon with for planets would occupy widely different positions though their mutual aspects would of course remain the same. That is perhaps why so much stress is laid on aspects in Western Astrology both in the birth-chart and the progressed horoscope. Incidentally the best part of Western Astrology consists of its interpretation of the aspects as distinguished from the positions of the individual planets. This I am saying from experience and study of both the systems. This is a significant fact which goes to show that the Indian system is basically sound though inaccuracies may be due to other causes which will be explained hereafter. In this system true results can be obtained for aspects as well as positions of planets. The ancients were no doubt familiar with the doctrine of precession and the Sayana method is employed by them for some other purposes, though not for determining longitudes of planets. Their wisdom in doing so is not belied by actual results. According to Western system the Sun enters Aries on 23rd March while it does according to the Indian system on 13th April or thereabout. It is because of this that in the tables for personal character, etc., so commonly

found in books on Western Astrology, there are often several traits which do not tally and the convenient explanation is given that the person is a 'cusper' or born on the cusp of the house, thus taking some of the characteristics of the adjoining house.

The great Hindu Masters have laid down innumerable Yogas which is nothing but the permutation and combination of all the stars in different positions and associations. In every horoscope there are good as well as bad Yogas. The good may be modified by the evil and the evil by the good. A balance is to be struck between the various contending forces. That is the riddle for the astrologer. He must use his intellect, intelligence and common sense in arriving at the correct result even though it may be possible to find individually the results of the different Yogas in books on Astrology. Take an example. If Mars is exalted in the 10th house it would indicate the birth of a King, Governor or Commander but if Mars has the aspect of Saturn or is in *neechamsa*, the results would be considerably modified and if both the evils are present, the man may even be a beggar. Therefore it is evident that the astrologer's view should never be superficial but deep and penetrating. Take another example. The stars in a child's horoscope are apparently well placed but he dies. This may be either due to *Balarishta* for which various combinations are given in *Jyotisha Shastra* or caused by evil combinations in the horoscopes of the parents. Therefore the longevity of a child is not to be told by ordinary methods until the age of twelve; as the full effects of the planets are not manifested so early in life. Similarly in old age the planets lose their power and activity just as the body itself decays and deteriorates. The planets, so to say, grow up, mature, decay and die with the man. There may be exceptions to this but they would only prove the rule. With the march of time the planets' influences are also undergoing changes. For instance their general effects in *Satyayuga* (Golden Age) were not same as they are in Kaliyuga (Iron Age). Jupiter is not so auspicious for Brahmans in the present age as it was before. Saturn well placed in a Brahman's horoscope will bring better results than it would in the case of a low-caste man. All these things and many others, too numerous to detail, must be considered. The task of the astrologer is by no means easy.

The first and foremost condition is that the horoscope should be correctly cast, as everything depends not only on the correctness of the birth-time but also on a proper casting of the birth-chart. It is therefore advisable to synchronise the watch according to standard time for noting birth and *prasna* times. In noting the birth-time of a baby, the time of uttering the first cry should be taken. Then some learned Pandit should be asked to prepare the birth-chart from the birth data. Some ignorant men make a mistake while converting standard time into local time. Though the standard time is the same for the whole country, the local time for any particular place varies with the longitude of the place. There are some methods for rectifying the birth-time but it is better to leave them alone. The best rule is : try to note the time as accurately as possible and stick to it. Should the birth-time be in doubt it would be safer to predict results from the *Chandra Lagna* taking the Moon's sign as the rising sign. There is little risk in adopting this course, as the Moon changes its sign after about 2 1/3 days while a L... or sign appears completely a... the horizon in about two ho... time to make room for the ... rising sign. There is good a... thority for foretelling events f... the *Chandra Kundali* even if ... exact birth-time is known. ... sults would however best ... obtained by considering ... *Janma Kundali* as well as ... *Chandra Kundali*.

There are several do... which vitiate the results ... would otherwise have been ... fortunate. The most importa... of these relate to *Nakshatra*, *Yo*... and *Bhadra*. Aspects of Prasna Astrology

PROF. A. N. RAJAMANI, M.A., PH.D.

FROM times immemorial, manking has consistently hungered for knowledge about the future. The past having worked out this or that way, the present perhaps entirely happy, no wonder, the need for progination has been felt almost as *desideratum*. Doubt, when menfolk looked up towards the for guidance and counsel, whether religods and goddesses descended or not, the planets and stars showed them some pathwards enrichment of knowledge on future not necessarily stellar alone, but inclusive 's affairs on this mundane world. Ways and were struck to glean the impact of everous events on individuals' lives. A vigorstudy of astronomy, backed up by more mathematical calculations and relationamongst numbers, aided in the search and ch of mankind to know of how its members fare in the future.

According to men of wisdom nothing in this mane world is accidental. Everything is deeply ned in the cause and effect nexus. "It is nicity of soul. It is the mystique of stumg across the unknown and making it known." the philosophy surrounding human existhen, the art of prognostication is elevated metaphysical occurrence. In other words, is a deeper sense of purpose in the entire structure, and in terms of which, Astrodeives both its relevance and significance for kind.

Since the universe contains materials that are tant move, not excluding stars and plaheir combined or individual impact on endeavours and problematic situations to be reckoned and competently measured ctive predictions, either concerning naitions iduals. Such cannot or need not necesbe made covering a long period, because, nds could be established thereby. Howerge are situations, when short-term future may require analyses *pronto* to obviate sufferings for nations or individuals, or at least to undertake some safeguards to mitigate possible sufferings. The importance of the *Prasna* is thus born. By nature of accumulated knowledge of a deductive type behind it, and of the analytical skill and clarity of the astrologer standing by it, Prasna or Horary Astrology has now attained to supreme position. **Men of wisdom framed the basic rules therefor, and these stand universally applicable; because, from mere hypotheses, propositions have been, by repeated testing and emendations, turned into theories; again subjected to rigorous testing over successive periods of time, the science itself stands today for order and precision.**

There may be many methods for answering questions. They include placing flowers in sacred places and asking a child to take one of them, the different flowers themselves carrying *yes* or *no* with them for undertaking specific actions. *Thambula* or betel leaves are employed too. Hora is looked into. Numbers are elicited within and including 7, the related *grahas* or days are marked, and predictions given. The Graha Aroodha goes thus:

No.	Day	Graha	Prediction
1	Sunday	Sun	Few days for success
2	Monday	Moon	- do -
3	Tuesday	Mars	No use in any efforts
4	Wednesday	Mercury	Success is very near
5	Thursday	Jupiter	Success is so, so close on threshold
6	Friday	Venus	Success is very near
7	Saturday	Saturn	No use in any efforts

In general, Prasna is not resorted to answering questions that demand a bundle of answers. Collective solution to myriad problems is not of the Prasna type. Questions must clearly relate to a single problem in hand. For instance: 1. Loss

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

and/or profit in given business contemplated or under run; 2. Recovery of an article stolen; 3. Whether a law suit will be favourable; 4. If a person found missing will he return; 5. Will one get a job or a transfer to a desired place; 6. If a financial commitment may be undertaken; 7. Whether one could go into or out of a property; and so on.

The reason for uni-type analysis immanent in Prasna is that it is conceived for a short-term problem. It aims at sharpening the sense to prognosticate under an acute situation. What will happen, when and how? What will be the nature of the expected event? Will an affair terminate as anticipated in a good way? Who are all behind the occurrence of an event? For the person putting a question, will the expected event be advantageous or adverse? Such questions are aspects of a given problematic situation. Prasna focusses like a search-light, and brings out the details sharp and clear, with unshakable answers. For all the astrologer's concentration, bordering almost on medition, the Prasna reveals the fact, as it would and should be in the future.

Under the circumstances, the success of Prasna is not only dependent upon the knowledge on Prasna system by the astrologer concerned, but also on his own mental equipment. He must keep mental balance, uninfluenced by the status or the worth of the questioner. His analytical faculty must be strong and without fault. He must be one of pure thoughts, purer words and of purest deeds. That is why, many Prasna astrologers have their own personal deities to draw inspiration from and to willingly subject themselves to the fear of retribution, if they went perfunctorily in their divination job. In other words, their innate spiritual strength will be ably supportive of their brain work and make them shine in *Prasna Marga*.

In these days of national political tension, economic traumas and social cleavage, an individual comes invariably under their combined onslaught and impact. The trade union activities in every avocation in life, the inescapable corrupt and corrupting atmosphere, and the lack of fear of the Supreme and the Mighty, would also egg on an individual to go awry in his social and domestic life. In such conditions, the day-to-day problems are many and varied, and an individual endeavours to have some light upon each of them, so that he can organise or reorganise his life's moorings, habits and what not. Prasna can yet play thus a very forceful role in modern living.—125.91.

to the conjunction of lords of the 9th and 10th must produce similarity in results concerning those Bhavas. In this horoscope the indications become more powerful reckoned from the Moon. An outstanding similarity is that both the persons have the 12th degree on the Ascendant. In the Navamsa lord of the 10th from Lagna is Mars while lord of the 10th from the Moon is Jupiter who in his turn aspects Mercury and the Sun. Mark again the association of Mercury and the Sun.

If we put ourselves the question what about profession?, the answer is plain. As Mercury is intimately connected with the 10th we shall say that the calling would be the one having to do with Commerce, Banking and Insurance. Since the lords of the 9th and 10th both occupy the second along with Mars much wealth will be amassed through the native's occupation. The native is the Branch Secretary of a leading insurance company in Bombay and wields much influence. Mark particularly the blend of 10th and 2nd house influences.

A study of individual horoscopes from the view-point of vocational aptitude will disclose the maximum with respect to any individual. The horoscope provides you with the necessary objective and impersonal clue to your own capabilities a clue that you might seek for, in introspection for a long time in vain. (R-5-6-43)

Draw T_1 T_2 Tangent at Q.
Draw AB || to XY (Parallel)
Draw CD || to O O' (Parallel)

As viewed from the earth, planet P_1 is 60° away from the Moon. The visible part of the Moon from the earth is X-O_2-Q-Y where Q is a point on the visible part of the Moon and O_1Q making an angle of 30° at the centre 0.

Proof:

$\hat{QO_1Y} = 30°$ therefore $\hat{OQA} = 30°$

$\hat{AQT_1}1 = 60°$ and $\hat{T_1QD} = 30°$

Similarly $\hat{OQY_1} = 60°$ and $\hat{YQT_2} = 30°$

Therefore $\hat{T_2QP_1} = 30°$

The incident angle $\hat{T_2QP_1}$ = Reflection angle $\hat{T_1QD} = 30°$

Therefore, the power of P_1 is reflected at Q along QD which is parallel to O_1O_2O and reaches the earth.

If the separation between the Moon and the planet is 40°, the point of reflection will shift such that $\hat{QOY} = 20°$

If the separation is 20° only then $\hat{QO_1Y} = 10°$ *i.e.*, the point Q makes an angle at O which will be half of the angle of separation between the Moon and the planet.

The reason for the above illustration is that the reflection of the planet can comfortably take place till $\hat{QO_1Y} = 45°$ *i.e.*, in other words a planet which is separated from the Moon by 90° can get its rays reflected towards the earth on the Moon's surface.

The mathematical calculation indicates a possibility of a planet 90° away from the Moon getting reflected on the Moon's surface. But Anapha Yoga and Sunapa Yoga enunciate a possiblity of a maximum separation of 60° only *i.e.*, planets in the 2nd house or the 12th house from the Moon.

Here I would like to draw the attention of readers to the fact that Jeeva Sarma, Sruthakirti and Mantreswara were of the opinion that planets in the 4th house from the Moon give Sunapha yoga, planets in the 10th house from the Moon give Anapha Yoga and planets in the 4th and the 10th houses cause Durdhura Yoga. This theory was not generally accepted and it is not in use. But the calculations given above vouch for the possibility of the views of these veteran astrologers of the past who propounded these theories about 4 centuries back. It becomes clear, therefore that extensive research in Astrology had been conducted during their period showing their knowledge of astronomy.

Adhi Yoga

It is said that benefics in the 6th, 7th and 8th houses cause this Yoga. Until more about the interaction of terrestrial magnetic fields is understood scientifically, it would not be possible at the present juncture to explain scientifically as to how Adhi Yoga is caused.

It will be a moot point to analyse if malefics in the 6th, 7th or 8th house from the Moon would give their own results. A benefic gives a benefic result in Adhi Yoga. As the planetary working is uniform for benefics and malefics too, the malefics in 6, 7 or 8 from the Moon should give bad results. This point also may require thorough research.

Lessons in JAIMINI ASTROLOGY—5*

IRANGANTI RANGACHARYA

WE SHALL take up Jaimini's exposition of Karaka theory in this lesson.

In Jaimini, Karakas are of two kinds: 1. Variable Karakas, 2. Fixed Karakas. Variable Karakas are Atma, Amatya, Bhratru, Matru, Putra, Jnati, Dara. It means the Karakas change from horoscope to horoscope. In Parasari, Moon is the Atmakaraka for all. But in Jaimini, the Sun is the Atmakaraka in one horoscope, Moon may be the Atmakaraka in another horoscope. Hence we have to determine the Atmakaraka and other Karakas in each horoscope. These seven Karakas are, therefore, called variable Karakas.

Determination of Variable Karakas

Find out the longitudes of the seven planets — Sun, the Moon, Mars, Mercury, Jupiter, Venus and Saturn. The planet who attains the highest degrees becomes Atmakaraka. The remaining Karakas follow in the decreasing order of degrees. Hence the decreasing order of the seven Karakas is

1. Atma
2. Amatya
3. Bhratru
4. Matru
5. Putra
6. Jnati
7. Dara

Let us find out the seven Karakas in Example I.

Example I

Sun = 1s 8° - 4; Moon = 9s 3° - 7; Mars = 1s 27° - 1; Mercury = 1s 7° - 5; Jupiter = 11s 5° - 6; Venus = 2s 18° - 2; and Saturn = 7s 11° - 3. Mars attains the highest degree, 27°, in the sign. Hence Mars becomes Atmakaraka.

Atmakaraka = Mars; Amatya = Venus; Bhratru = Jupiter; Matru = Sun; Putra = Mercury; Jnati = Saturn and Dara = Moon.

There is an alternative called Ashtanamya by which appeared in the *A.M.*, November 1991.

using which the seven Karakas may be determined from the 8 planets, if necessary. This means the inclusion of Rahu for determining the seven Karakas. When is this done? We get the answer from a Vriddhakarika. When two planets among the seven attain equal number of degrees, one Karaka may be omitted. In such a case Rahu's intrusion is unavoidable. If three planets attain the same number of degrees, the relevant fixed Karaka intrudes. Only four variable Karakas are likely to be omitted. Hence Jaimini mentions four fixed Karakas to fill the gap of the four variable Karakas. There are no fixed Karakas in the place of Atma and Amatya. The fixed Karakas are Mars, Mercury, Jupiter and Venus. Rahu is not eligible to become Atmakaraka. So, the gaps cannot be filled in either by any fixed Karaka or by Rahu if Atma and Amatya Karakas attain equal number of degrees. Then, the one that has greater natural strength becomes Atmakaraka while the other become Amatya. The readers should once again remember that the variable Karakas are only seven in number and the seven variable Karakas should be determined among the seven planets or eight planets.

Example II

Example II shows the 7 variable Karakas among the 8 planets.

Rasi: Mars = 2s 27° - Atma; Rahu = 2s 6° (30°-6° = 24°) - Amatya; Venus = 2s 17° - Bhratru; Saturn = 7s 12° - Matru; Sun = 1s 6° - Putra; Mercury = 1s 6°—; Jupiter = 11s 3° - Jnati; and Moon = 9s 2° - Dara.

Here, the Sun and Mercury attain equal number of degrees. So one Karaka should be omitted. To avoid such an omission of one Karaka from among the seven, Rahu in included. Rahu attains 6° in the sign which means he has enjoyed 24° already. So in the order of degrees, Rahu comes next to Mars. Rahu comes in the place of Amatya and thus seven variable Karakas are determined among the 8 planets including Rahu. Care should be taken to see that Rahu will not occupy the place

of Atma. In case of his getting the highest degree, he can be excluded and a fixed Karaka allowed to ill the gap.

Example III: Atma and Amatya with equal number of degrees.

Rasi: Venus = 2s 27°; Mars = 1s 27°; Saturn = 7s 12°; Mercury = 1s 8°-; Sun = 1s 6°; Jupiter = 1s 3°; and the Moon = 9s 2°.

Venus and Mars attain the highest equal number of degrees. No inclusion of Rahu is necessary nor can any fixed Karaka fill the gap. Between Mars and Venus, Venus has of more natural strength than Mars. Hence Venus becomes Atmakaraka while Mars becomes Amatyakaraka.

Omission of Antyakaraka

If Âtma, Amatya and Bhratru Karakas attain equal number of degrees, no Karaka will be omitted by including Rahu. If any three Karakas other than Atmakaraka attain equal number of degrees, Dara Karaka will be dropped. If 4 Karakas attain equal number of degrees, Jnati and Dara Karakas will be omitted. If five Karakas attain equal number of degrees, Putra, Jnati and Dara Karakas will be omitted. If 6 or 7 Karakas attain equal number of degrees, Matru, Putra, Jnati and Dara Karakas will be omitted.

Example IV

Rasi Venus = 2s 27° - Atma; Mars = 2s 27° - Amatya; Saturn = 7s 27°—; Mercury = 1s 8° - Bhratru; Sun = 1s 6° - Matru; Jupiter = 11s 3° - Putra; Moon = 9s 2° - Jnati; and Rahu = 2s 28° (2°) - Dara

Here, between Mars and Venus, Venus is stronger by nature and hence Venus becomes Atmakaraka while Mars becomes Amatya Karaka. Saturn is dropped. By including Rahu all the seven variable Karakas are obtained.

Example V

Rasi: Mars = 2s 27° - Atma; Venus = 2s 16° - Amatya; Mercury = 1s 16°—; Saturn = 7s 16°—; Sun = 1s 6° - Bhratru; Jupiter = 11s 3° - Matru; Moon = 9s 2° - Putra; and Rahu = 2s 28° (2°) - Jnati.

In this example, Darakaraka is omitted. Hence Venus, the fixed Karaka for wife, should be taken into account.

Example VI

Rasi: Mars = 2s 17° - Atma; Sun = 2s 16° - Amatya; Mercury = 1s 16°; Saturn = 7s 16°—; Venus = 2s 16°—; Jupiter = 11s 3° - Bhratru; Moon = 9s 2° - Matru; and Rahu = 2s 28° (2°) - Putra.

The Sun, Mercury, Saturn and Venus obtain equal number of degrees. So, Jnati and Dara Karakas are omitted.

Omission of Agrima Karaka

If Atma-Amatya, Bhratru-Matru and Putra-Jnati Karaka pairs each attain equal number of degrees, Matru Karaka will be omitted. If Amatya, Bhratru, Matru-Putra and Jnati-Dara Karaka pairs each attain equal number of degrees, Bhratru and Putra Karakas will be omitted. If Atma-Amatya and Bhratru-Matru Karaka pairs each attain equal number of degrees, Matru Karaka will be omitted. If Matru-Putra and Jnati-Dara Karaka pairs each attain equal number of degrees, Putra Karaka will be omitted.

Example VII

Rasi: Venus = 2s 27° - Atma; Mars = 2s 27° - Amatya; Sun = 1s 16° - Bhratru; Mercury = 1s 16°—; Jupiter = 11s 6° - Putra; Saturn = 7s 6° - Moon - 9s 2° -- Jnati; and Rahu = 2s 28° (2°) - Dara.

Example VIII

Rasi: Mars = 2s 27° - Atma; Venus = 2s 16° - Amatya; Mercury = 1s 16°-; Sun = 1s 6° - Matru; Saturn = 7s 6°-; Jupiter = 11s 3° - Jnati; Moon = 9s 3°-; and Rahu = 2s 28° (2°) - Dara.

In Example VII Matrukaraka is omitted. In Example VIII Bhratru and Putra Karakas are omitted.

Correction

A.M., July 1991 page 558

The table stands corrected as follows:

Sign	Frontal Sign	Lateral Sign
Virgo	Gemini	Sagittarius, Pisces
Libra	Taurus	Aquarius, Leo

It is not a strong bond, say the wise, that is made of iron, wood or hemp. But the infatuation that longs for jewels and ornaments, children and wives, is a far greater bond. The wise say -- it pulls one downwards and though seemingly loose, is hard to get rid of. This too they cut off, and giving up sensual pleasures without any longing, they renounce the world.

The Saints of Kanhangad

TACKLING the horosocope of a saint is a tricky thing, indeed! For, stars may rule us, mere mortals; and Astrology can be applied to us, with our hopes, attach-s, and fears; for, bound by Karma, we exist, ght in the web of time and space. But, saints incarnations are extraordinary beings who essly stride this planet, unencumbered b s mundane.

Vittaldas, Rao, "Papaji", was born into a large Konkani Saraswat family of thirteen brothers and sisters. His Guru was his own father, a highly religious and good man, who gave him the *guru mantra*, "Sri Ram Jai Ram Jai Jai Ram". Married in 1908, he had an extremely chequered career though he was well educated at V.J.T. Polytechnic, Bombay, in a three-year course in textile engineering. This frequently disrupted his family life as he could not afford to keep his wife and little daughter with him. He took Sanyasa on 22-12-1922 and wandered all over India, visiting holy places with any brother Sadhu whom he chanced to meet. Anandashram was founded on 15-5-1931. He spread his Gurumantra far and wide, like Saint Ramanuja. His was the easiest and sweetest path to God, the path of devotion and love or Bhakti.

This lovable, child-like man lived a simple and serene life at Anandashram. Numerous were the troubled souls who went to him for succour — and they were never disappointed. This Mahapurusha shuffled off his mortal coil at 79 years of age, in Ketu Dasa, Rahu Bhukti, on "Nag Panchami" day. The end came after a massive heart attack. Any tyro in Astrology can vouch that this is a long-lived horoscope.

And I am sure that readers will agree, after going through the astrological points which I have put forth above, that this chart surely belonged to a highly evolved soul on the last lap of its journey, into the heart of the Infinite.

of Longevity

ONE may have all the great Yogas in the horoscope but if he does not have a good life-span, will all be a waste for he nothing. In the circumstances, it is said that instead of looking for good Yogas horoscope, better search longevity. If the basic thing is there, what is the use of all things and preparations? Life dearest possession of all, ever is the position, stature circumstance of the man. is the reason why when the horoscopes of a boy and girl are matched, the very important of longevity is looked into. malefic aspects in longevity be taken care of. Simple matching would serve no purpose. After the marriage, at for another 25-30 years, maraka Dasas should run such. This point is very important. Parents of the bride approve the boy without looking at his horoscope. Many hardships are eventually by the girl and the girl's I am sure Astrology a long way in helping such problems. A close of Kalatrabhava and longevity can help one chalk out the plan for the future of the girl. This is another aspect of longevity.

The 3rd and 8th houses are the houses of longevity and Saturn, the Ayushkaraka or life-giver. The 3rd and 8th lords assume the positions of Ayusthanadhipatis. Longevity is read with reference to the planets in the 3rd and 8th houses, the 3rd and 8th lords, Saturn, the 10th lord and the positions of Jupiter, Venus, Mercury and the Moon (Full). It is also assessed with reference to Chandra Lagna and the 8th lord from the Chandra Lagna. The strength of the 1st, 8th and 10th lords are equally important. It is said that looking into the birth chart, first we have to determine whether the individual is bestowed with short, medium or long life and thereafter calculate the Dasas that are yet to come and then look for the Yogas. Hence, the determination of longevity should be the foremost interest of the parents consulting the astrologer.

From the astrological point of view, short life means 32 years; medium span of life means 33 to 70 years; and long life is between 71 and 120 years.

In certain planetary conditions and circumstances, the influences of the planets on the child at the time of birth will be very malefic and will have disastrous effects on the longevity of the child. Some such circumstances are illustrated below for the guidance of the parents. It may be understood Balarishta or *Evil-time* or *Evil-star* at birth causes a lot of hardship to the child and one cannot say anything about such a child's longevity until the age of 12 years is crossed.

(1) At the time of birth, the Dasa of the 1st lord (Lagna lord) should not begin nor the Dasa of the 8th lord who is in the 8th house. In case life begins with these Dasas, the child's life will be definitely in doubt until these Dasas finish.

(2) When the Moon is in the 8th, Mars is in the 7th, Rahu is in the 9th, Saturn is in the Lagna or the 2nd, the Sun is in the 5th or 12th and their Dasas run at the time of birth.

(3) When the Lagna or the Lagna lord or the 8th house or the 8th lord or the Moon are between two malefic planets.

(4) When the Dasa lord at birth is between two bad planets.

(5) When the 8th lord is in the house of his enemy or a bad house and is aspected or associated with bad planets.

(6) When the Moon is in the 8th or malefic planets are situated in the 8th from the Moon and the 8th house is aspected by a malefic planet.

(7) When Ketu is in the 4th and aspected by bad planets.

(8) When the 8th lord is in the 8th in combination with the 12th

* This appeared in the *A.M.*, 1991.

lord and also associated with Rahu.

(9) When 4 bad planets are in the 8th and are not aspected by any benefic and if the Dasa of any of these malefics be running at the time of birth.

In all these cases the child should be born in the Dasa of the Maraka Yoga, in which case either the child will be dead before 12 years or she will suffer such ill-health as would dangle her between life and death. This list of Balarishta Yogas is not complete. There are many more. One must know that after having determined the Maraka planet or Dasa or period, such a planet will give Maraka (death) in the Bhukti of a benefic planet associated with it. Such a planet will not cause death in its own Bhukti. But if the 6th, 8th or 12th lords are very strong, they will cause death in their own Bhuktis.

Aayu or Longevity

Having illustrated the planetary positions which give only a short span of life to the child, I would now like to proceed to mention the conditions for a span of life between 32 and 70 years. They are:

(i) If Jupiter and Venus are either in the 1st, 4th, 7th or 10th houses from Lagna or the Moon;

(ii) If the individual is born with Gajakesari Yoga.

(iii) If the individual is born with Chandra-Mangala Yoga.

(iv) If Rahu is in the 11th house from Lagna or from the Moon.

(v) If Saturn is associated with the 8th lord.

(vi) If the 1st lord is in the 8th and 8th lord is in the 1st.

(vii) If Saturn is associated with the 8th lord.

(viii) If the Lagna lord is either in the 1st, 4th, 7th or 10th houses or exalted.

(ix) If Rahu is in the 3rd or 6th houses from Chandra.

(x) If malefics are associated with the 3rd, the 6th and the 11th houses.

(xi) If Rahu is in the 8th house and Jupiter is either in the 1st, 4th, 7th or 10th houses.

(xii) If all or most of the planets are continuously placed from Lagna *i.e.*, Malika Yoga.

(xiii) If the individual is born with Adhi Yoga.

(xiv) If three or more planets are in their own houses or in exaltation or debilitation.

(xv) If Jupiter is in Lagna in combination with the 10th lord.

(xvi) If the 1st and the 9th lords combine or aspect each other without the influence of malefic planets.

(xvii) If the 5th lord is in the 9th and 9th lord is in the 5th.

(xviii) If Saturn is in a Kendra and if either Jupiter, Venus or Mercury are in the 10th house.

(xix) If Rahu is in Aries, Taurus, Cancer, Leo, Scorpio or Capricorn with good lordship.

(xx) If malefics are in 3, 6 and 11th houses and benefics are in Kendras.

(xxi) If Jupiter is in Lagna with full strength he will eliminate all the other bad aspects and influences in the horoscope and give long life to the individual concerned.

I am not going beyond the medium span of life of 70 years. Many people do live even beyond 70 years in the present hygienic conditions which have improved the longevity reducing the impact of many pernicious diseases for which possibly we could not have got proper treatment around even 10 to 15 years back.

is easier to predict a Raja
or Dhana Yoga than a
Yoga. It requires a lot of
vation of horoscopes in
to master the clues. Any-
the formula is laid down in
preceding paras and one
find out who are the
and Marakas for vari-
Lagnas and arrive at the
sion needed. The most
and saddest part of hu-
psychology is not to assess
part of the Yoga first, for
probably everybody takes
granted that death comes
life. This is not true and
fact is also very well under-
and yet not considered. In
umstances, I find that
what I wrote above, my
too did not indicate against
oroscopes the planets that
caused death or planets
would cause death to vari-
persons whose horoscopes
jotted down in his books.
I find it a very important
this complex world, I
therefore, request my
to pay attention to this
of the horoscope and then proceed with other aspects. It would definitely pay to devote some time to palmistry and study the longevity part. The Lines of Life and Heart are of vital importance to assess and very accurately determine Maraka Yoga. The length of these lines, colour and their fineness gives an idea of the length of life and health. The book *The Study of Palmistry* by Comte de. Saint-Germain, A.B., L.D.M. (of the University of France) gives a detailed exposition of this.

Of the Line of Life and longevity, at this juncture, I would like to bring an interesting anecdote though, in reality, it is a sad one which happened in the late sixties, and in order to explain this, I would like to take you back to Suryaprakash, my Berhampore relation who later on came to Rourkela.

By the late sixties, I was also very established at Rourkela. My parents lived with us. Suryaprakash had found my father again at hand for his oracles.

Suryaprakash had a family consisting of his wife, four daughters and a son and, of course, his father and mother. His sister had 3 sons and she was around 45 years at the time and incidentally happened to be at Rourkela that summer. Everything was going on very well.

I was in the house of Suryaprakash one day for a feast. My presence had aroused a lot of curiosity. First, Suryaprakash's mother, who was around sixty-five years, showing her hand, wanted to know at what age she was going to die. I told her that she was to live for many years still. Then, Suryaprakash's father came forward; then Suryaprakash; then his daughters and nephews. Then the sister of Suryaprakash, who extended her right hand to me and asked me to tell her about her future. She was decked in a costly and beautiful silk sari and wore expensive gold jewellery.

My first reaction on seeing her hand was one of shock. The Life-Line tapered off and fizzled out.

The next day, I went to Suryaprakash and confided in him my anxiety on the health of his only sister. Not even a week had passed from that happy day when I heard the news from Suryaprakash that his sister had been admitted in I.G. Hospital as she was showing some unusual symptoms. After a detailed examination, it had transpired that she was suffering from cancer, which was in an advanced stage. In 2-3 months' time the lady breathed her last to the utter consternation and bewilderment of Suryaprakash, his old parents and other members of the family!

I thought that my father was joking with me when he wanted to know from me how long he was going to live. The fact was that he knew astrologically his last days. He wanted confirmation from me. Looking into his hand, I said 70 years and just on reaching 70, he expired. At the same time, the isalnd in the hand of my daughter at the age of 19 years was a worry for me. It stretched for a period of 4 years or so. The anxieties I had at that time and the suffering my daughter had I need not describe in black and white. William G. Benham, the great master in Palmistry, is correct by saying that electricity passes through the lines in our hands. Wherever the lines end, it is the switching off; or, wherever the lines are intercepted by other lines, it also means the termination or obstruction and islands weaken the lines. *(to be continued)*

WHY PREDICTIONS GO WRONG?

» 920

kinds, it would be well to remember that planets in Kendras or Trikonas and 11th house are strong, in 6th, 8th and 12th houses weak and in the remaining houses of medium strength. If there is any special source of strength or weakness such as exaltation or debilitation it is to be duly considered. Special importance must be attached to the Navamsa of the Lagna as well as the planets or the Navamsa Kundali. In Northern India this is generally ignored. Aspects, be it remembered, considerably modify the good or evil effects of a planet. It is said that if Jupiter, Venus and Mercury aspect the Moon or the Lagna, a king is born. Such is the effect of aspects. The effects would be reversed in the case of evil planet's aspects. It has been observed that a combination of three planets never fails to show its effects prominently. Two planets will not give full results unless well aspected and this is doubly true of a single planet. It is better to have a planet in a friendly house in Kendra, Trikona or *Labhasthana* (11th house) accompanied or well aspected by a benefic like Jupiter or Venus or even Mercury than to have an exalted planet with an evil combination or aspect even though it may be placed in a prominent house. Too much stress cannot be laid in Astrology on the value of combinations and aspects.

Results of planets depend not only on the houses and Rasis occupied by them but also on their lordship of houses. For instance if Saturn is the lord of 4th and 5th houses, its effects will not be the same as when it owns 6th and 7th houses. The Sage Parasara has laid down definite principles on the subject and a study thereof is invaluable for the purpose of determining correct results. It is not possible to deal with the subject at length within the compass of this article. To put it briefly, these are the benefic planets: Jupiter, Venus, well-associated Mercury and waning Moon (from 2nd day of bright half to 5th day of dark half). Jupiter and Venus are always benefics and the benefic nature of the other two planets depend on conditions given above. On the contrary the Sun, Moon (from 5th day of dark half to 2nd day of bright half), Saturn, Mars, Rahu and Ketu and Mercury associated with either of these are malefics. Now Parasara has laid down that the good or evil nature of the above planets is reversed by their owning certain houses. If the evil planets, such as Sun, etc., own Kendras, they become good and if the good planets such as Jupiter, etc., own Kendras, they become evil. As an illustration it may be said that if Aries is the Ascendant and Mars which is the lord thereof is placed in the 3rd house, the result will be good for brothers and sisters. Similarly if Sagittarius is the Ascendant and Jupiter which is the lord of the 1st as well as the 4th house is in 5th house, it will have evil effect for children. In this way examples can be multiplied. Be it remembered however that the lords of Trikonas always produce good irrespective or their benefic or malefic natures. It is further to be noted that 3rd, 6th, 8th and 11th are evil houses and lordship of the same produces evil results. As regards 2nd and 12th houses, They are good or evil according to the nature or association of the planet owning the same. Then again Parasara has detailed *Rajayogas* and *Rajabhangayogas* depending on the combination or *sambandha* of the lords of various houses. Kendras and Trikonas are the most important houses. Any relationship between the lords of Kendras and Trikonas brings *Rajayoga*. Thus if the 10th lord is associated with the 5th or 9th lord, it produces *Rajayoga*. On the contrary if the 10th lord is associated with 11th lord, the result is just the reverse.

If the planets, which form combination for *Rajayoga* as described above, also own the houses such as 3rd, 6th, etc., results would be modified, not negatived. Moreover if combination takes place in Kendras or Trikonas it would be more fruitful. This is natural because these houses are evil. Parasara has also dealt with *Maraka* planets, *i.e.*, those which have the power to kill and in determining prospects of life or longevity it would be wise while keeping them in mind the lords of 2nd and 7th houses are called *Marakas* as they have the power to kill. Moreover certain other planets can also become *Marakas*. The reader is referred to *Jataka Chandrika* for a study of these principles of Parasara, knowledge of which is indispensable for a student of Astrology.

The question of Dasa is also very important for on it depends a knowledge of the different periods during which the good or evil effects of planets are brought about. Of all Dasas the Vimshottari Dasa, which has the special approval of the Great Parasara, is generally recognized as the standard method for determining the periods and sub-periods of the various planets.

In conclusion, I must say that it is very difficult to become perfect in Astrology. Though it is a science yet it is not an exact science like mathematics. Even in mathematics it is not possible to become perfect, so how can it be possible to attain perfection in Astrology? By keeping the various recognized principles of Astrology in view, it is possible to get about 90% accuracy in predictions and this must be considered to be a great achievement in the science. Let not therefore an ill-informed person say that it is an untrue science. It would be simply showing one's ignorance to say so. *(R-6-43)*

Select Readings from Nadis -- V*

GEMINI

WE WILL now discuss certain readings which refer to the co-borns of the natives. The first one is that of a lady born in Leo Lagna (Chart 18). The reading runs as follows:

Moonukku moonril mannan meithathal
thunaivar virddhi kaaninun theethe yahum
kadirmahan moonrayppaarka thoninum
theethe dosham enrom solluveer andha
sangal naanadhu labha mera

	VENUS	RAHU
Chart 18		MOON MERC. MARS SUN
		ASCDT. SAT.

This means that the native will have co-borns since Jupiter is placed in Sagittarius which is the 3rd from the 3rd (*bhratrubhava*) but some will die since Saturn is aspecting the 3rd house. Hence though 5 issues will be born to the mother only one son and daughter will survive. The survival of the two co-borns to the native is attributed to Rahu being in the 11th and Venus in the 8th Bhava from the 3rd house. Here not only *bhavat bhavam* but also the luck of the placement of the owner of the 3rd house is elucidated. Venus is the owner of the 3rd house and he is placed in the 8th from the 3rd. Here, not only the 3rd house is aspected by Saturn but Venus, owner of the 3rd house is also aspected by the 10th aspect of Saturn. The Nadi states that this planetary position for the native is caused *by the bad karma of her father* in his previous birth like having intimacy with his friend's wife on account of which he got the curses of both his friend and his own wife.

Next we will take up a horoscope where the principle of aspects to the 3rd house are used to elucidate whether the native will have co-borns, and if so how many will survive and why? The discussions on these aspects by the Rishis are interesting, intriguing and also educative.

The horoscope (Chart 19) is of a male born in the 4th pada of Uttarashadha with Cancer Ascendant. Discussing the *bhratru Bhava* of this native the reading states:

Kariavan sikhiyum moonril kalanduthan iruppathale
Arthirom thunaivar dosham, andanan moonrai paarka
Viraiviniyl udhikkum enrom, vilanginum doshamahum
Kuraiadhai sollumena kooruvar. Bhujandar thamum
Pugarume aaril nirkha Poomahan naaliyl eara
Vakhaiana madhur vale vandhidum thunaivar dosham

RAHU		JUPIT.	
	Chart 19		ASCDT.
MOON			
VENUS	MERC. SUN	MARS	SAT. KETU

This means that since two malefics *viz.*, Saturn and Ketu are posited in the 3rd house, co-borns will die but since Jupiter is aspecting the 3rd, there will be co-borns but there is Dosha for the same. Further since Venus is in the 6th and Mars is in the 4th, and the dispositor of the 4th *viz.*, Venus is in the 6th, the *dosha* to the co-borns is caused by the sins of the native's mother. The reading further states:

Jhadakan thunaivar thammai sattruvom moonru vriddhi
Avaniyil yavum theedam araikirom evanukkethan
evanukku moothor illai ivanume Jyeshtanum aahum

This means that the native will be the eldest and he will have three borthers who will not be helpful to him.

Sadhiaana astamathone saniyahi moonril sera
Vidhiyonai Guruvum paarkka vilambinom vayathu theerkam

*Part IV of the article has appeared in the *A.M.*, July 1991.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

This means that since the owner of the 8th, namely, Saturn is in the 3rd there will be *dosha* for the co-borns but this native will live long because the same Saturn is aspected by Jupiter.

Thanthaiyin marana kalam saatruvom muppan eainthil
Sandhathum thula maadhathil saathinom karmamthanum
Mundhiya annaikethan muyaluvom muppan moonril
Than dhanur maadham thannil saatinom kandam thane

The reading predicts the death of the father in the 35th year of the native in the month of Thula. The mother will die earlier in the month of Thanur in the 33rd year of the native.

To help research-minded readers I am reproducing below excerpts which deal with the balance of Dasa at birth of the native.

Balakan janana kalam parithiyin dasaiyethan
Kolamai iruppu madham kooruvom iyndathagum
Salave jadhakarku sulabhamai rogammundu
Eelave thandaikethan eyambinom alaichalthane
Madhidasai kalam thannil maatru pinium kattum

In other words the native is born with a balance of just 5 months in the Sun Dasa in which the native will suffer from diseases and the father will undertake fruitless ventures. The mother will be afflicted with disease in the Dasa of the Moon.

A little digression occurs here from the main subject *viz.* the status of the co-born. I would like to dwell at this juncture on the disease from which the mother will suffer and the reason for it as elaborated in the Nadi. The Nadi predicts that the mother will suffer from a disease called *Mudakku vadam* or *vada roha i.e.* a type of arthritis. The reading states that the mother suffered from the disease in the last birth itself due to her incapacitating a cat by cruelly beating it with a stick. It adds that the mother was bed-ridden in her last years in the previous birth itself. The results of the sin will not leave her even in the present birth and she will suffer from arthritis in this birth also but the interesting point is the Nadi stating that this disease will afflict her in the Ketu Bhukti of Moon Dasa of this native.

This proves the point stated in *Karma Vipaka* that the results of certain sins will have to be suffered in seven births, certain others for three births and generally for at least one birth.

In this case where the mother of the native is to suffer from arthritis the Nadi states that the affliction will last till the end of her life. But the effect of it, namely, the physical suffering could be mitigated to some extent by a remedial measure namely, she should visit Lord Subramanya's temple in the Sacred Hill Tiruttani on every Krittika day and have *abhisheka* and *archana* performed for Lord Subramanya. Moreover, she should feed poor Yogis on that day. If she does this remedy for at least one year the suffering will be much mitigated. This also proves that remedial measures, in certain cases only, can eliminate totally the affliction, but in some other cases they can only mitigate the extent of suffering. It is obvious that this depends on the magnitude and nature of sins of the previous birth.

The Nadi further avers that no other remedies are required except those mentioned above. If she performs these, the affliction, though it will continue in the next birth also, will not trouble her much. In other words she has to undergo suffering for 3 births for the sins she has committed.

Mr. R. V. Rajagopalan in a preface to a Nadi Grantha states:

In *Vibhageswara Samhita* it is said that the sins of our previous births affect us causing diseases of the mind and the body. To mitigate these we are directed to undertake remedial measures like Archana, Japas, Homa or take medicines. In this work all these are indicated. In one case even the method of preparing the medicine is given and some *mantras* also given. Without distinction penance is prescribed for Hindus, Mohamadans, Jains and (in other Nadis for Christians also, according to their beliefs and religion). Again this Nadi prescribes different penances for different individuals committing the same sin. This sets forth the truth that punishment for a crime or sin is awarded according to the motive of the crime and circumstances that led to it.

I am giving a case (Chart 20) where the aspect of even Jupiter on the malefics, causing *dosha* to co-borns, will not mitigate it.

Mandanam Rahuvum Moondril Mangalan Parthathalae Dosham.

		ASCDT.	
	Chart 20		SAT. RAHU
KETU			MOON
MARS	JUPIT. VENUS	SUN MERC.	

This means that since Saturn and Rahu are in the 3rd and aspected by Mars there will be *dosha* for co-borns. When one Rishi states that this *dosha* will be mitigated since Jupiter aspects the 3rd house another Rishi clinches the issue by saying that it will not be so as Jupiter is owner of the 8th house and further

LEARN yourself PALMISTRY — 4

DR. T. S. VASAN, B.Sc., B.L., Ph.D., F.R.A.S. (LONDON)

Classification of Hands — Western System

THERE are 7 types of hands and these are only broad classifications and an exact type is rarely seen. The figures showing these types should be closely observed.

The Elementary Type — Fig. 1

This is the lowest type of hand without any refined qualities. It has short fingers and the hand will have a clumsy look. Very few lines are seen in the palm. The mental capacity is low and brutish nature is a marked feature. The thumb will generally be short and undeveloped. The possessor of this hand will be guided by instinct rather than reason and lives mostly on manual labour.

The Square Type — Fig. 2

The palm of this type will be square and the finger tips with their nails, also square. The persons of this type are disciplined, men of reason rather than of instinct. They are practical, materialistic and shrewd. Though they do not possess great talents, they succeed in life with their will, logic and practical approach. The square hands may have short square fingers or long square or knotty fingers or spatulate fingers or conic or psychic or mixed fingers. In these cases they acquire the qualities of the respective fingers and the square palm.

The Spatulate Type — Fig. 3

Here the tips of the fingers will resemble the spatula used by chemists. The palm will be round, soft or hard. The hard hands will be full of energy and spirit of action, and on the other hand the soft hands are restless and weak. This type of hands we can find in engineers, navigators, technicians and people with scientific bent of mind and originality.

The Philosophic Type — Fig. 4

The hand will be long and bony. The possessors of this type will have more wisdom than gold. They are quiet observationists. Examples for this are yogis, mystics and highly religious-minded people. They pay great attention to detail.

Conic or Artistic Type — Fig. 5

The hand will be tapering. The fingers are broad at the base and conic or pointed at the tip. Natives with this type of hand are impulsive and artistic. They are very receptive and quick in grasping ideas. They are extremist in their views and likes. They are selfless and sympathetic. They are swayed by music, eloquence and emotions. This type will generally be hard or elastic. The people coming under this group are actors, singers and orators.

The Psychic Type — Fig. 6

Here the fingers will be long, slender, delicate and tapering. The nails will be almond-shaped. These types of hands are of visionaries and idealists. They are quite averse to order and discipline but they are capable of becoming mediums and clairvoyants. They are religious and devotional. Mystic things attract them. In other words, they have psychic gifts. They do well in occult sciences.

The Mixed Type — Fig. 7

Here we come across mixed fingers (square, spatulate, conic, etc. People coming under this group are versatile. They have diversified interest and talents. They are adaptable to any circumstances. They may be called *Jacks of all trades.*

It is very interesting to note that the hands of all the people of the world could, according to their nationality, be grouped under these seven types. According to the world-renowned Cheiro places of the Northern portion of Russia, Siberia and places of cold latitudes such as Iceland and Lapland, the primitive elementary type of hand can be found. The people here are emotionless and the nerve centres of their body will not be highly developed. They have animal behaviour. Swedes, Danes, Germans, Dutch, English and Scotch people belong to the square type. They have love for reason, logic, authority and law. The philosophic type of

hands are more frequent amongst the orientals who are religious people. The conic or artistic type may be found among Italians, Spanish, French, Irish and Greek races. These people are highly artistic, romantic and poetic in their dispositions. The spatula type may be found among the Americans. The rest of the types are found common to all nationalities.

When an individual spreads out his hand for an analysis, the first step to be taken by a palmist would be to see the shape of the hand and decide under which type it falls. The characteristics are then interpreted carefully.

Classification of Hands — Hindu System

There are five tattwas or Panchabhuthas or 5 elements in this world. They are Agni (fire), Vayu (air), Prithwi (earth), Jala (water) and Akasha (ether).

Man is a product of these elements. In other words these five elements go into the making of *man*. During the process of building the physical body of man, one of these elements gets predominance over the others. When this happens, the characteritistics of the predominant element get more prominently marked in the personality.

While reading the hand we have to see these elements in five very important planets. They are Mars for fire, Mercury for earth, Jupiter for ether Venus for water and Saturn for air.

First of all we should observe very keenly which of the Mounts is elevated (bulging). Generally the Mounts will be either elevated or depressed (flat) or moderately elevated. This elevated Mount of a planet will indicate to us as to the type of personality the owner of the hand possesses.

In this connection have to understand by what are known as Rajasic, Sattwic and Tamasic temperaments.

The Sattwic rules Divine trend, purity, moral strength, a mind of equanimity.

The Rajasic shows passion, desire, karmic thoughts.

The Tamasic rules all that is vulgar, indolent, lethargic and wicked tendencies.

Mars: When the Mount of Mars is highly elevated a fiery personality is the outcome. The qualities are tamasic, quick tempered, highly enthusiastic, valorous, changeable in disposition and oppressor of enemies.

Mercury: When this Mount is highly pronounced the earthly qualities will prevail in the

nality. The individual will be handsome Rajasic qualities. He will be intellectual, and of independent disposition. He will a wide circle of friends. He takes interest in rldly matters. He will be materialistic and ical.

Jupiter: When this Mount is highly elevated individual will be come under Akasha-Tattwa thereal characteristics. The personality is of tswik temper and the underlying qualities kindness, discretion, wisdom and happy dis-tion.

Venus: This Mount when elevated gives the acteristics of Jala-Tattwa or watery element. e the individual will be pleasure-loving. Love ury is marked in him. The individual will be some and belongs to the Rajasic group.

Saturn: This planetary elevation gives us the nality made out of Vayu-Tattwa or airy element. The individual will be of a Tamasic nature. He will be passionate, of ordinary or even ugly looks, suffers from diseases of internal organs. The body formation will not be attractive and it will be lustreless.

The Mounts of the Sun and the Moon also fall under the Pancha-Tattwa classification. The Mount of the Sun when elevated will have the fiery or Agni Tattwa quality but more specially here the Sattwic nature will be marked in the personality. He will be creative, artistic and of a ruling disposition.

When the Mount of Luna (Moon) is elevated it will acquire Jala Tattwa qualities. The personality will be of a Rajasic nature. The mind will be imaginative and restless. There will, of course, be artistic and creative ability. A pleasure-loving nature will also be seen.

placed in a weak position. This proves that the mere aspect of Jupiter is not an antidote for *doshas* in all cases.

Regarding Chart 18 the Nadi itself has stated that the particular planetary position in the horoscope is caused by the bad Karma of her father. Obviously the Karma in the previous birth of the native should have impelled her to be born to these parents. This idea is very clearly expressed in a book on esoteric philosophy by Swami Jyotirmayananda, excerpts from which are reproduced below:

"Just as a soul chooses the parents to suit its evolutionary movement, in the same way it chooses a time, a particular conjunction of an astrological condition, for the fructification of its Karmas. No one's destiny is determined by the stars. Rather, every soul determines the time which is most propitious for its incarnation. You are born according to the Karma of your past, and therefore, you choose the most suitable period, the special conjunction of stars, for the fructification of those Karmas. However much the influence of the stars may be found authentic in human life, the fact that it is he himself who is responsible for drawing such influence should not be ignored. You create your circumstances; the conjunction of stars is nothing but a circumstance created by you. You can be studied on the basis of your circumstances, and thus, to a certian extent, your developments in life can be studied on the basis of Astrology. But to rely completely upon astrological readings, shunning all self-effort is erroneous.

That this is so, is proved by the fact that even Nadis while prescribing some remedies, state that unless the native follows the instructions and carries out the prescribed remedial measures, he will not be freed of the malefic effects of the planets in the particular periods mentioned. This also proves the fact that self-effort is absolutely necessary to mitigate the evil effects during bad Dasas and malefic transit effects of the planets. In other words even Nadis do not subscribe to a fatalistic outlook on one's future *i.e., within limits* one can improve the conditions of life indicated by planets.

In a case, where remedial measures as prescribed were not carried out in the specific period mentioned but carried out later on, the *dosha* persisted. This fact was brought out by the Nadi itself during a later consultation. This reading will be given in a later instalment.

THE SAINTS OF KANHANGAD

» 928

(8) Three planets are retrograde, three in own house, making the chart powerful.

(9) Lagna lord Mars in own house, Scorpio the 8th, 11th lord Saturn strong in the 10th Capricorn; 3rd lord Mercury in the 6th, exalted all these gave her a very long life.

(10) In Drekkana chart, so important for Sanyasis, the Moon (which is in Navamsa of Mars) is associated with Saturn, and is in a Drekkana of Mars.

(11) Venus being Atmakaraka, is in Sagittarius Navamsa aspected by Mercury — this confers Moksha according to Jaimini.

(12) The 10th from Atmakaraka Navamsa is aspected by Jupiter — this shows great determination according to Jaimini.

What are the similarities between the horoscopes of these two saints? The most striking feature is, both have dominant martian traits showing zeal, zest and fearlessness, without which one can never achieve anything, material or spiritual. Her Lagna in the 10th from his shows the "dutiful daughter" syndrome. She looked upon Papa as "Mother". Mercury in both charts is afflicted by the Nodes.

The two Suns are in 1/7 denoting spiritual affinity. Her Sun falls on his Moon; her Lagna lord and his 7th lord are 1/7. All these point to a successful (here, a spiritual) partnership.

Indeed, Anandashram can be said to be one angle of a great spiritual quadrangle; the others being — Rishikesh where Swami Sivananda, the giant Karmayogi, dwelt; Dakshineshwar, where Sri Ramakrishna, the great Kali Bhakta, lived; and Tiruvannamalai where Ramana Maharshi adored as a God, taught through silence, and love.

Indeed, this period in history saw a tidal wave of spirituality inundate our poor, suffering Motherland, which has been the home, for aeons past, of several saints, sages and incarnations. And, Papa Ramdas and Mataji contributed not a little, in their own way, in creating a divine atmosphere in and around Anandashram; and by their radiant personalities, guided many a weary pilgrim "Home" by their sincere love, help and advice.—234.90.

Notable Horoscopes

By BANGALORE VENKATA RAMAN
(6th Edition)

Pre-eminently a research treatise, this book discusses the horoscopes of seventy-seven outstanding personalities of not only recent but also ancient history. The horoscopes of kings, saints, politicians, statesmen, scientists, authors, poets, industrialists, killers as also of royal figures are discussed in detail establishing the co-relation between the main events and traits of the native and astrological factors in the chart.

The book is aimed not only at the scholar but also the layman student of Astrology.

A preliminary knowledge of predictive Astrology and its principles is needed for appreciating this volume. It is an excellent guide to understand how the fundamental principles formulated by ancient Rishis have to be modified and adapted to modern and changing social, economic and political conditions to understand the astrological personality of each chart.

Dr. Raman dissects and analyses with wonderful insight and precision the factors that go to make one a sinner, saint, philosopher, king, king-maker, scientist, business-magnate, literateur and even a maniac.

Each chart has been subjected to a thorough and scientific study by Dr. Raman. For the beginner this is a dependable text while for the research student it offers qualitative analysis of various planetary aspects and combinations, Dasas and Bhuktis and Gochara influences as leading to important events in life. Rajayogas, Daridra Yogas and others and their practical application are explained lucidly.

An excellent guide for mastering the technique of interpretation, this volume is bound to be of invaluable help to the students and practitioners of Astrology, both from the Orient and the Occident.

Some of the horoscopes discussed in these pages include those of Sri Krishna, Adi Sankara, Akbar, Alexander, Gautama Buddha, Jesus Christ, Prophet Mohamed, Augustus, Goethe, Aurangazeb, Gandhi, Ramakrishna Paramahamsa, Vivekananda, Tilak, B. Suryanarain Rao, Aurobindo Ghose, Ramana Maharshi, Sri Thyagaraja, Sri Vidyaranya, Rabindranath Tagore, Hitler, Mussolini, Abraham Lincoln, Subhas Bose, Jagadish Bose, Milton, Savarkar, Annie Besant, Barnard Shaw, Godse, Stalin, Nehru, Eisenhower, C. Muhurtha Kalpadruma Manjariyam
Samarpitha Sivapaada Padme

From this we learn that the author wrote the *Teeka* of his work, *Kalpadruma Manjari* at Kaasi, in Saka 1549 (1627 A.D.) and that he has dedicated the work at the lotus feet of Lord Siva. *Manjari* means a bunch of flowers.

He was believed to be 40 years old when he wrote this *Teeka*. As such the year of his birth would come to 1587 A.D. The name of his preceptor is known as Malugi Daivagnya. The chapters of *Muhurtha Kalpadruma* are in the form of flowers, while the closing chapter is written in a new form.

Every chapter ends with the following *sloka* :

Granthan Anekan Avalokya Samyak
Samdarbhide Vittala Deekshithena
Muhurtha Kalpadruma Naamadheya
Vichitrasamhyam Kusumam Sammaptham

This would mean that the author after consulting several works on the subject has written this work *Muhurta Kalpadruma (Kalpavriksha)* comparable to fine flowers, with new symbols.

In the chapter on New Symbols, the author has given a few new letters of alphabets for each and every Nakshatra beginning from Aswini. For Aswini the alphabets would be "chu, che, cho and laa". The *slokas* describing these letters are composed in a fine manner. These letters are intended for inclusion in the names of persons born under a particular Nakshatra. A table is furnished in certain Panchangas for this purpose, as one can find in most of the Tamil Nadu Panchangas.

In the concluding chapter of *Muhurtha Kalpadruma*, one can find the following slokas :

1. *Krishnaathri Gothre Nitharam Pavithre*
   Pavitharakarma Ajani Bhooba Sarma
   Thatsoonuna Vittala Deekshitena
   Muhurtha
   Kalpadruma Yeva Chakre
2. *Kalpadrumacheth Kimu Ratnamala*
   Chintamanim Karkarameva Manye
   Yat Yekadesa Kila Manjareeyam Saara
   Vicharam Kuru Thatwa Vedin
3. *Naanaaphalaadyow Kusumyhi Samethaha*
   Kalpadruma Kalpitha Vasthudayee
   Aakalpamakalpa Viboosthithaanam
   Grtheshu
   Nityam Vibhudadhipaanaam

The first *sloka* introduces the author. In the second *sloka*, the author observes that either *Ratnamala* of Sripathi or *Muhurtha Chintamani* of Rama Daivagnya would stand equal to his work. He adds further that his work would give all, like the *Kalpavriksha*, flowers and fruits. He concludes in the third *sloka* that his work would be a jewel in the houses of all learned people, and also serve as a sweet drink !

The late Prof. Sudhakara Dwivedi has, however, said that in spite of such superior claims of the author, when compared with ancient works *Muhurtha Kalpadruma* cannot be considered so great as to excel the works mentioned above !

Vittala Deekshitha was a contemporary of Rama Daivagnya and wrote *Muhurtha Kalpadruma Manjari* 27 years after *Muhurtha Chintamani* of the latter was written. -- 260.90

Letters to the Editor

...ook for Indian ...airs

Sir,-Since 1989 the situation ...dia is fast deteriorating. ...y Indian with a sense of ...ism is highly perturbed ...t the future of India, as ...he can only look to THE ...OGICAL MAGAZINE to get rid ...e mental torment.

So when in the September ...issue of the *A.M.*, I read the ...ncement "The next editor... *A.M.*, October 1991) will be ...Planets and Indian Affairs" ...that moment I awaited the ...d of the October issue in ...suspense.

The suspense came to an ...when I completed reading ...editorial coming from a wor... daughter of an unparallelled ...ctual of the century, DR. ...ROMAN.

It was the superb and mas... masterpiece of a discus... of the 4th house of Chart 2 ...eved my mental anxiety ...the nation.

Saturn-Jupiter opposition ...really proved disastrous to ...common man. There was a ...phenomenon on 11th ...mber 1989; Saturn-Jupi... ...e face to face in the same ...e of opposite signs; and ...changed its motion on ...same date.

A similar phenomenon re... ...itself on 17th May 1991 ...Saturn and Jupiter came ...same degree of opposite ...and Saturn went retro... ...and is still retrograde and ...it gets direct in October 1992, the period shall see a disturbing trend again.

And another critical time is possible when Ketu transits radical Sun of Chart No. 2 and Chart No. 3; both in the same sign of Gemini. May God bless the *A.M.* family for the establishment of Astrology as a science.

Mars-Saturn Aspects

Sir, - I like to draw your attention to the period from 7th October 1991 to around 22nd November 1991 when Saturn will aspect Mars from Capricorn and Mars will also aspect Saturn from Libra.

The Sun moves into Libra from 17th October and will be with Mars upto 16th November 1991. Both the Sun and Mars will be aspected by Saturn, a natural malefic. All these planetary aspects indicate major accidents (road, air etc.), accidents relating to gas and fire, natural calamities (earthquake, volcanic eruption, flood etc.), death of important persons, warlike situations, problems in Central Government, political assassination etc.

The period from 17th October to 16th November 1991 and again from 15th March to 13th April 1992 will be marked by deaths of important personalities from different fields. Mr. Jyoti Basu, Chief Minister of West Bengal, should be careful about his health and safety during the above period from 17th October to 16th November 1991.

Adverse results as given above are foreseen during the period from 9th February to 20th March 1992 when Mars will be with Saturn in Capricorn and again from 5th May 1992 to 20th June 1992 when Mars will move into Pisces and will be aspected by Saturn.

Detecting Underground Water Sources

Sir, - I have been greatly enlightened by the article "Planets and Detection of Underground Water Sources" by Mrs. Gayatri Devi Vasudev (*A.M.*, July 1991)

Applying the principles quoted from Varaha Mihira we conducted a study along with one of my associates in one of the factories at Old Madras Road in Bangalore on 4.8.91 The rising Lagna was Virgo and rising star was Uttara. The Horary chart is drawn below:

7	8 MOON	9	10 KETU
6	Prasna		11 SUN JUPIT.
5 SAT.			12 MARS VENUS MERC.
4 RAHU	3	2	1 ASCDT.

The chart indicates as per the Lagna and position of planets the area has got very little water.

3 JUPIT. SAT.	4	5 KETU	6
2	NAVAMSA		7 MERC.
ASCDT.			8 VENUS
12 MOON SUN	11 RAHU	10	9 MARS

The watery planet Moon is in Aries which is a fiery sign and in the 8th from Lagna. Similarly, another watery planet Venus is also in a fiery sign Leo along with fiery planet Mars which is also the 12th house from Lagna. The Lagna lord is in the 12th with Mars. Kshetra Sthana is a fiery sign occupied by malefic Rahu. In view of these factors, bore wells in this field will yield very poor water. A lot of caution is to be exercised in making a decision. However, based on the stars occupied by watery planets and Udayakala Nakshatra the course of water source running in the field is roughly drawn and the line almost passes between the existing Bore-wells No. 13 and proposed J.C. P. Plant No. 2 and Bore-well No. 15.

Further, the field studies indicate the presence of a big old ant-hill near Bore-well No. 13 and J.C.P 2. A big banyan tree is along the line of water course (it is a naturally grown tree) indicating some water source but not in huge quantities. The above study coincides with the points located by ground water survey personnel. Therefore, an unbiased study of astrological factors will give results to locate underground water sources.

We should profusely thank Mrs. Gayatri Devi Vasudev and we expect many such enlightening articles from her in future.

Sri Surya Prakash Memorial Number

Sir, - The September 1991 issue of the *A.M.* is indeed a special issue on Horary Astrology. The articles published cover all the aspects of Prasna and contain the opinions of experts on the subject. But nothing has been discussed on the point when the querent asks the same question after a lapse of time. Obviously there is no bar on the querent deeply thinking on the same problem after a lapse of time also. And the result of the two Prasnas may be different. It is not clear whether it is mandatory that only one question on any problem is to be asked by the querent till the matter is over. Otherwise, for the same question we may obtain separate results if asked after some interval. Kindly throw some light on this.

Howrah. K. K. Chakraborty.

II

Sir, - Please give my regards to Mrs. Gayatri Devi Vasudev for her article "Prasna and Political Prediction" and Mr. J. C. Luthra for his "Ascertaining the Nature of the Questions" (*A.M.*, September 1991). I like very much the simplicity and clear way of explaining the matter in her articles by Mrs. Vasudev. Her work *Practical Horary Astrology* which I just have bought impressed me much.

The Table given by Mr. Luthra on page 716 is very useful. I too judge in the same way but with slight change. For example, I take houses 4, 5 and 11 and Guru for education; 2, 6, 10 and 11 and Sun or/and Saturn for profession; 2, 7 and 11 and Venus for marriage.

I have found that concerned house lords and Karakas of the matter well placed and connected to 11th house add more in fulfilling the desire.

Correct Time of Birth

Sir, - In the editorial of *A.M.* May 1991, three different opinions are quoted for the time of birth of a native - (1) Adh... Time of Conception; (2) Sirod... - Time of appearance of the ... (3) Bhupatana - Time of ... tion from the mother by ... the umbilical cord.

It is suggested therein ... the given time of birth shou... studied in the light of impor... happenings in life and the ... racy decided. This does ... appear practical. Adhana ... can be known only to the ... evolved souls and can only ... one in a crore. Sirodaya ... also cannot be exactly loca... unless a close watch is kept ... it. It may be therefore ... Satyacharya rejected both ... factors. What is of practical ... is the time of Bhupatana wh... now, the majority follow.

YOUR Technical Difficulties Solved

MIHIRA

Q. 1. Rasi: Capricorn - Ascendant 14-47; Pi- Saturn 5-48; Aries - the Moon 9-6 and Venus Taurus - Rahu 0-41, Mars 18-32 and the 53; and Gemini - Jupiter 15-16 and Mer- 18-31. Currently running Sun Dasa-Jupiter from 8-7-1991. (a) Will service or business native? Basically the native is a chemical What effect do Moon and Venus have on fession, taking their direct aspect on 10th into consideration? (b) Do the Moon and in the 4th and 5th respectively show a in administrative services?

C. S. Chabra, Jorhat.

Service suits the native. Venus and the in the 4th house speak about the 4th The native will have decent building and The Moon in the 4th and Venus in the 5th Sunapha Yoga.

○

Q. 2. Son-in-law: Rasi: Gemini - Ascendant the Moon; Cancer - Ketu; Sagittarius - Saturn Mandi: Libra - the Sun; Scorpio - Mercury and Sagittarius - Mars; Capricorn - Rahu; Aries Jupiter. Present Dasa of Saturn and Mercury began on 21-6-1991.

Daughter: Rasi: Virgo - Ascendant, Mars and Scorpio - Jupiter; Sagittarius - Saturn; Cap- Moon and Mandi; Pisces - Ketu; and Leo - Sun, Mercury and Venus. Mercury Bhukti in Dasa ends on 12-2-1993. During the end Jupiter Dasa and during the Swa Bhukti of Dasa, the son-in-law lost most of his wealth still facing great difficulties. His wife also ent severe troubles and difficulties What is main cause of these happenings even though is in a good position. Is there any possi- of regaining lost wealth and a happy life in

N. S. Venkiteswaran, Vijayawada.

Ans: Although Jupiter is placed in the 11th, appraisal of his strength is not possible due to lack of other details. Jupiter is the lord of 7th and 10th houses and is aspected by the debilitated Sun, the lord of 3rd house. Thus Jupiter is deemed to have attained much maleficence. And Rahu is in the 8th of Lagna. Hence Avayoga was probable in Rahu Bhukti of Jupiter Dasa. Good Yoga may come to pass in Venus Bhukti of Saturn Dasa, Venus being the most benefic because of his lordship of 5th and 12th houses for Gemini Lagna.

○

Q. 3. I have got several Rajayogas but I am not getting any benefits of these Yogas. When will they fructify, especially wealth-causing Yogas? Rasi: Pisces - Ascendant 27-50; Taurus - Jupiter 27-04; Gemini - Venus 29-15; Cancer - Mars 22-45, Mercury 22-58 and Ketu 9-54; Leo - the Sun 6-57; Libra - Saturn 0-13; and Capricorn - the Moon 19-58 and Rahu 9-54. Jupiter Dasa, Sun Bhukti from August 1991.

Nirmal Guha Thakurta, Calcutta.

Ans: You have not mentioned what several Rajayogas you have. Jupiter being the lord of Lagna and 10th house may not put you in pecuniary difficulties. Nor will he be the giver of wealth causing yoga in his period.

○

Q. 4. Rasi: Aries - Ascendant; Cancer - the Moon and Mars; Leo - Saturn; Virgo - the Sun, Ketu and Mercury; Libra - Venus; Sagittarius - Jupiter; and Pisces - Rahu. (a) Does 12th lord in 9th indicate foreign travel or export business? (b) What is the significance of combust Saturn as lord of 10th and 11th houses on the 5th and Vargottama Jupiter's aspect on it?

Ravi Prakash, Delhi.

Ans: The chances are more for foreign travel for the following reasons: The Lagna is movable and is aspected by Venus from a movable sign. Mars is the lord of Lagna, placed in Cancer. The 12th house lord from Cancer is Mercury. And Mercury is the enemy of Mars.

O

Q. 5. Ref: A.M. (2) The owner of the sign occupied by Lagna....." What is the difference between Lagna lord and the owner of the sign occupied by Lagna?*

Addanki Hanumantha Rao, Manugur.

Q. 6. In the Gem Therapy of curative measures, some persons wear rings with all the nine gems set with ruby (Sun) in the centre. While wearing, some keep the Moon-Venus-Mercury row at the nail end while others have this set at palm end. Similar variation is also found while wearing rings with engraved pictures of some deity or saint. Please clarify the correct wearing procedure.

Sub. No. 11268.

Ans: Difference in wearing the rings with gems matters little. The part of concern is to what extent the gems are genuine and capable of yielding good results to the wearer.

Q. 7. ***Rasi:*** *Leo - Ascendant; Virgo - Jupiter; Libra - the Moon and Mandi; Scorpio - Saturn, Venus and Rahu; Sagittarius - the Sun and Mercury; Pisces - Mars; and Taurus - Ketu. (a) Will the native be in government service? (b) Will Venus, Saturn, Rahu in Scorpio give two marriages?*

P. Mohan, Nagercoil.

Ans: (a) Planetary longitudes are necessary for judgement on Government service. However, since Lagna lord is conjunct the 2nd lord in Kona and since the lords of 2nd and 5th houses are in mutual exchange, teaching profession may be probable. (b) The lord of 7th house is associated with the lord of 10th house, and a malefic Rahu too. This is Jaara Yoga. Since Venus is not in a movable sign, chances are feeble for two marriages.

In Sarvashtakavarga Lagna has 38 points and the 11th house, 37 points. The native is studying law due to finish in October 1992. Will he be an advocate in civil or criminal law; or will he be a legal officer or labour welfare officer in a company; or will he be a judicial officer, if so, when?*

P. Jyothirmayan, Palakkad.

Ans: You are likely to prosecute your law studies to Post-graduation. The best period for you in your life is from 50 to 55 years of your age for the fruition of your long-cherished desire.

○

Q. 15. ***Rasi:*** *Aquarius - Ascendant; Aries - Mercury; Taurus - Sun and Venus; Gemini - Mars; Virgo - Jupiter (Vargottama); Libra - Rahu; Aries - Ketu; Scorpio - Saturn (R); and Capricorn - the Moon. How good can the future of the boy be as regards his progeny (He has a boy and a daughter)?*

T. N. Qazi, Salem, U.S.A.

Ans: The data is not sufficient to appraise the future of your progeny. The 5th house is occupied by the malefic Mars. The lord of the 5th house is in the 3rd in association with Ketu. Mars and Mercury, the lords of 3rd and 5th houses, are in Parivartana. Putrakaraka, Jupiter, is in the 8th house, his inimical sign. In view of the above factors, much good for progeny cannot be fore-seen.

PLANETS AND Career COUNSELLING

ANURADHA

Q. My son, born 10-4-1955 at 11-31 p.m. (IST) at 11° N 77 E, wants to start a finance company. Is it the night time to start one?

S. N. 16794

Ans: The 2nd lord Saturn is well-placed in the 11th or Labhasthana. The 9th and 12th lords, the Sun and Mercury, are in the 4th aspecting the 10th while the 11th lord Venus is in the 3rd in exchange of signs with 3rd lord Saturn. Both these planets are aspected by Lagna lord Jupiter. All these factors are favourable for financial success.

The present Dasa is of Ketu who is in the 7th. The Bhukti of Jupiter can be favourable for giving financial success when the venture can be started at an astrologically auspicious time.

Q. My husband, a district officer in a State Government deportment, was transferred to another place where he reported in April 1991. But again on 30-7-1991 he was transferred to yet another district. But before he could report for duty he fell ill seriously and informed his superiors about it, joining duty on 6-9-1991. But on 7-9-1991, the Government suspended him for not obeying the transfer order immediately. My husband has given a representation to the Government but the order of suspension has not been so far revoked. He was born on 10-24-12-1948 at 2.30 a.m. (IST) at Allahabad. Please let us know when our distress will come to an end.

S. No. 15816

Ans: The Dasa is of Yogakaraka Saturn and the Bhukti is of Lagna lord Venus, mutually well-placed. As a result problems cannot be ruled out. The 10th house itself is quite well-placed except for the adverse aspect of Mars from the 3rd house. The Dasa-Bhukti lords are both functional benefics and cannot hurt in the long run. Once Jupiter moves into Virgo in the 3rd quarter of 1992, the suspension order may be revoked and the loss and suffering undergone made good.

Q. My son left for the U.S. in 1969 and has obtained a prestigious position in his career in cardiothoroic surgery. But he is not happy with his job which is not on par with his high qualifications. He was born on 7-4-1945 at 10-10 a.m. at 16 N 31, 80 E 39. Will he come back to India which is what he wants and be able to get a good job ?

S. N. 17848.

Ans. The Ascendant lord Venus is in the 12th with 2nd and 5th lord Mercury. The 10th lord Saturn is in the 10th with Rahu while the 10th itself is occupied by Mars and Jupiter (R). On top of it all, the Lagna is Vargottama. These factors explain his successful career. Currently, he is under Jupiter Dasa who as 8th and 11th lord is not a benefic. Also, 12th lord Mars in the 10th aspecting the Ascendant cannot but give a degree of dissatisfaction in career matters. During Jupiter Dasa, your son

may not be able to get a job that would leave him totally satisfied. Further as 12th lord, the aspect of Mars on Dasa lord Jupiter can hardly indicate a job back home in India. It would be better if he continued overseas as transit Saturn's influence on natal Moon may only make him regret his decision, should he make up his mind to come back to India.

Q. I am serving in a Central Government organisation and have been posted to Hyderabad since 16-1-1985. All my colleagues have been posted to their home states except me. I was born on 27-2-1941 at 6-30 a.m. (IST). Please let me know how long I should still stay away from family and friends.

S. N. 17915.

Ans. Ketu Dasa which is now running is largely respectable for your separation from your family. The 4th house rules *sukha* or domestic peace and home. Venus Dasa is due to start shortly in January 1991. Venus is a Yogakaraka both from Lagna and Chandra Lagna and is well-placed in Lagna-kendra. Once his Dasa begins, since Venus is the ruler of the 4th house, you may be able to live together with family.

Q. My son wants to study Company Secretaryship course during the next 2-3 years, and then work as a company secretary. Does his chart endorse his desire ? Born 16-10-1968 at 7-50 a.m. (IST) at 10 N 32, 76 E 16.

S. N. 12456.

Ans. The 10th lord Saturn, also Yogakaraka, is well-placed in the 11th house aspected by Jupiter (sign-dispositor), and Vargottama benefic Mercury from his exaltation sign Virgo. The 10th house is quite strong therefore. The Rahu-Ketu axis influences 10th lord Saturn but he is inherently strong and therefore is not afflicted thereby.

The boy is now running Venus Dasa (Venus is Lagna lord and a strong benefic) with Venus in a Kendra. The Bhukti is of Rahu who is in the 11th with Yogakaraka Vargottama Saturn. These planetary dispositions favour acquisition of further academic qualification. Your son can there pursue his idea with confidence as a good future.

Q. I was born on 21-11-1949 at 9-10 p.m. I have been in my present company since 1971 and have missed some promotions and have also been superseded. Will I get a job overseas or can I do business, at least ?

K.V.

Ans: The 10th house is not particularly strong. Rahu is in the 10th and the 10th lord Jupiter is in debility in the 8th. That he obtains cancellation of debility redeems the whole situation. However, the Dasa is of the Moon who is in the 6th, luckily aspected by sign-dispositor Mars. The Moon is weak due to his proximity to the Sun. Therefore, during the rest of his Dasa, that is upto 1999, it is better not to opt for any major changes. The present position, even if not satisfactory, is the best under the planetary positions.

How is THIS MONTH DECEMBER for You ?

UTPALA

MAJOR TRANSITS

The Sun transits Scorpio till 14th and then enters Sagittarius. Mars transits Scorpio till 7th and then enters Sagittarius. Retrograde Mercury in Sagittarius re-enters Scorpio on 3rd, resumes direct motion on 19th and continue his progress in Scorpio. Jupiter and Saturn continue their progress in Leo and Capricorn respectively. Venus transits Libra till 25th and then enters Scorpio. Rahu and Ketu continue their counter-clockwise motions in Sagittarius and Gemini respectively.

MESHA (Aries)

General: The Sun and Mars in 8th and the 9th and Saturn in 10th are unfavourable; the is under check till 14th and Mars till 25th. cury in the unfavourable 9th during the first few days transits afterwards the favourable 8th. ter in the 5th is fully favourable. Venus in the verse 7th till 25th transits afterwards the ourable 8th. The general results are of a mixed re with good effects having an edge over the ones. The month will be quite satisfactory and fitable for you in your business activities. You uld curb fully your tendencies towards erotic sures. You should also avoid undertaking neys without specific plan or aim. Bharani is ter than Aswini and Krittika.

Health and Domestic: Health requires careful ching. Bilious and colic troubles may worry . No serious consequence will, however, en- . This is a pretty bad month for the chronic ferers. Preventive steps against glaucoma are essary. You will derive much happiness ough your children's brilliant performance in ools and colleges. After three weeks of turbulence in the domestic field you will enjoy peace and harmony during the last week.

Finance and Speculation: This is a very satisfactory month for all financial matters. You will settle your past financial commitments on favourable terms. A new finance company is likely to be started by you. This is not a month for speculative transactions.

Real Property, Services, Professions etc.: The month cannot be said to be satisfactory for real property transactions. It is advisable to postpone decisions on major deals to a more favourable period. This is a good month for the services. The month will be profitable for businesses and professions.

Women: You are advised to go slow on romances and love affairs. New contacts will enliven social life. The social workers may be invited to shoulder greater responsibilities which they will discharge to the satisfaction of all concerned. The working girls will do well to refrain from politics in office.

Students: You will do well in competitive tests. Medical students are particularly favoured. In view of your proneness to physical injuries you should cut down your sports activities considerably.

The forecasts based on Janma Rasi are general and as such those having favourable aspects according to present Dasa and Bhukti in their horoscopes will have favourable results from the indications made above while those having adverse aspects according to current directions will experience these predictions to a lesser proportion. The predictions given below are based upon a clear interpretation of movements of transits of planets. If you do not know your Janma Rasi write to Utpala C/o THE ASTROLOGICAL MAGAZINE giving your birth details and enclosing a stamped self-addressed envelope. — Ed., A.M.)

Chandrashtama occurs from afternoon of 4th to early hours of 7th.

2. VRISHABHA (Taurus)

General: The Sun and Mars transit the adverse 7th and 8th; both of them are under check throughout. Jupiter in the 4th and Saturn in the 9th are also unfavourable but the latter is under check. So too is Venus in the unfavourable 6th and 7th. Mercury, too, is thoroughly unfavourable, transiting the adverse 7th for most days in the month from 4th to the end with, however, check. He is favourable only for four days from 1st to 4th. A thoroughly unsatisfactory month. Do not take a fatalistic attitude. Destiny is our own creation through our past actions. What you created could be modified by fresh good actions through your present free-will. Good periods will come in due course. Nothing like difficulties to kick a man into good shape and strength. Rohini is better than Krittika and Mrigasira.

Health and Domestic: Bilious and windy complaints are indicated by the adverse transits. As the planetary influences indicate an aggravation in your ailments, chronic sufferers should resort to prophylactic measures well in advance. Children's health may cause concern. Domestic peace and harmony will elude you.

Finance and Speculation: A difficult period for finances. There is likely to be a cut in your regular income and the expenses will increase considerably. Medical expenses will be high. You may also incur losses in certain enterprises. The speculative transactions will land you in a financial mess leading to insolvency proceedings against you. You should not even think of speculative deals.

Real Property, Services, Professions etc.: Damage to property and crops is likely through unforeseen causes. You may also experience difficulties in dealing with tenants, Government authorities, workers and adjacent owners. There will be deterioration in the conditions of work and re[illegible]neration for the services. Professions and bu[illegible]nesses may have to keep their fingers cro[illegible] throughout.

Women: Thoroughly bad month. Keep a[illegible] from wily men, young and old and their pre[illegible]tious talks and appearances. Absolutely no [illegible]mances or love affairs during the month. Work[illegible] girls will find the month difficult to pass throu[illegible]

Students: Monetary difficulties will worry y[illegible] throughout. The disinclination to studies shou[illegible] somehow, be overcome. Light reading may a[illegible] you in this process. Cut down all your activi[illegible] in the field of sports and athletics. Avoid conta[illegible] with the opposite sex.

Chandrashtama occurs from early hours of 7th to afternoon of 9th.

3. MITHUNA (Gemini)

General: The Sun in the favourable 6th till 14th transits thereafter the unfavourable 7th with check. Mars in the favourable 6th till 29th transits the adverse 7th during the last two days with check. Mercury [illegible] the unfavourable 7th during the first four da[illegible] with check transits afterwards the favourab[illegible] 6th. Jupiter in the 3rd and Saturn in the 8th a[illegible] thoroughly unsatisfactory. Venus in the favourab[illegible] 9th till 25th transits afterwards the adverse 6th. The evil influences have an edge over the favourab[illegible] ones during the month. Persons in public li[illegible] should be particularly careful in their utterances. A small expansion in business is likely. Mrigasira is better than Aridra and Punarvasu.

Health and Domestic: Dysentery may manifest during the second half of the month. If the symptoms are not promptly attended to by medical experts the complaint may pass from acute to chronic stage. Chronic sufferers should take extra care of their health. Domestic bliss will be vouchsafed to you for most days in the month.

Finance and Speculation: You should be extremely careful about your financial dealings to avoid loss. Pressure from creditors is likely to be severe but you will be rescued from financial embarrassment through assistance from friends. Speculative transactions will yield good profits till the month.

Real Property, Services, Professions etc.: All matters pertaining to real property will be satisfactory and profitable practically throughout. The Karaka for properties who is quite favourable counterchecks the adverse and evil posture of the Dharakaraka to a very great extent. Not a good month for the services. Any false step may even lead to termination of services. Businesses and professions will find the month satisfactory.

Women: Good month for social workers. Their good work will be appreciated and they may be invited to shoulder greater responsibilities. Employed girls may not find the month unsatisfactory.

Students: Very good period for making progress in studies. Those who have appeared before the services selection board will be successful and offered admission into the Officers' Training School of Defence Department for training as Commissioned Officers. A lucky few may be started from a higher rank right from the start.

Chandrashtama occurs from afternoon of 9th to early morning of 12th.

4. KATAKA (Cancer)

General: The Sun in the unfavourable 5th till 14th with check transits thereafter the favourable 6th with Vedha. Mars in the adverse 5th till 29th transits into favourable 6th during the last two days. Mercury in the favourable 6th during the first four days transits afterwards the unfavourable 5th with check. Jupiter in the favourable 2nd yields to Vedha. Saturn in the adverse 7th is under check throughout. Venus in the 4th and 5th is fully favourable. In a month of mixed results the favourable influences are more in evidence. Your fame and reputation will rule high. The scheme of your enemies to besmirch your high sense of honour and integrity will end in complete failure. The evil will be in the form of a tendency to undertake long journeys without any specific plan or purpose. Aslesha is better than Punarvasu and Pushyami.

Health and Domestic: Minor ailments are likely to upset you a little during the first half. The chronic sufferers could expect some temporary relief, during the second half. One of your sons is likely to secure a good job in a reputed business house. Domestic bliss of a high order will be vouchsafed to you throughout.

Finance and Speculation: Your financial affairs will be, more or less, satisfactory. You are likely to start new financial ventures which will yield good dividends in time to come. The speculative transactions should be avoided completely during the month.

Real Property, Services, Professions etc.: All matters pertaining to real property should be postponed to a more favourable period. In view of the lack-lustre attitude of the Karaka for property practically throughout you may experience difficulties in collecting rentals. This is, more or less, a satisfactory period for the services. The month will be profitable for businesses and professions.

Women: More or less a good month for the fair sex. Love affairs are likely to blossom into wedding during the second half. Social climbers will find the period quite helpful. Working girls are likely to be transferred to places of their choice.

Students: Medical students are particularly favoured. Fellowships with travel grants are likely to be offered to you by foreign universities. You will have an enojoyable and memorable picnic in the company of the opposite sex during the second half.

5. SIMHA (Leo)

General: The Sun and Mars transit the adverse 4th and 5th during the month; the former is under check till 14th and the latter throughout. Jupiter in Janma is unsatisfactory. Saturn in the 6th and Venus in the 3rd and the 4th are fully favourable. Mercury in the unfavourable 5th during the first four days transits thereafter the favourable 4th with Vedha. In a month of mixed results, the good effects will have an edge over the bad ones. You are likely to receive benefits through friends. General happiness is indicated. Poorvaphalguni is better than Makha and Uttaraphalguni.

Health and Domestic: Although you may have minor health problems such complaints will yield to ordinary medical treatment. Chronic sufferers are advised to resort to prophylactic measures to avoid any exacerbation in their ailments. Domestic bliss of a high order will be vouchsafed to you throughout.

Finance and Speculation: The severely adverse posture of Dhanakaraka will be counterbalanced to a great extent by the powerful and favourable lord of the 2nd and the financial position will not, therefore, be unsatisfactory. The routine transactions will prove quite profitable. You are advised not to stand surety. Speculative transactions should, however, be avoided completely.

Real Property, Services, Professions etc.: This is not a satisfactory month for real property matters. You should postpone all decisions, major and minor, to a more profitable period. All your labour problems will be resolved to the satisfaction of all concerned. The services may find the month somewhat difficult. Professions and businesses will not find the month unsatisfactory.

Women: The month will be satisfactory for the fair sex. You are likely to be a much sought-after person in social gatherings. Your social contacts will be of help to you in your business career. This is a satisfactory month for working girls.

Students: Good period for both studies and sports. You should utilise fully the favourable posture of Vidyakaraka by working even harder than usual. You will shine extremely well in the field of sports and the chances of your inclusion in national or state level teams are quite bright.

Chandrashtama occurs from evening of 14th to night of 16th.

6. KANYA (Virgo)

General: The Sun in the favourable 3rd till 14th transits thereafter the unfavourable 4th with check. Mars in the favourable 3rd till 29th with Vedha transits the adverse 4th during the last two days. Mercury in the favourable 4th during the first four days with Vedha transits afterwards the adverse 3rd with check. Jupiter in the 12th and Saturn in the 5th are both unfavourable; the latter is under check throughout. Venus in the 2nd and the 3rd is fully favourable. In a month of mixed results the favourable influences appear to have a slight edge over the unfavourable ones. Renewal of contact with friends and increase of reputation and influence are indicated. You are likely to undertake a long journey but the outcome is not likely to be beneficial to you. Chitra is better than Uttaraphalguni and Hasta.

Health and Domestic: The planetary transits indicate the surgical removal of cataract and the restoration of full vision. Chronic sufferers will have to take greater care than usual. You will have peace and harmony in full measure in the domestic field.

Finance and Speculation: You will experience pressure from creditors. Friends will, however, rescue you from financial embarrassment by providing timely assistance. You should not stand surety for anybody. Speculative transactions should be avoided completely.

Real Property, Services, Professions etc.: The matters pertaining to real properties will be successful and profitable. Real estate operations will pull through some very profitable deals. This is a routine month for the services. This is a profitable month for the businesses and professions.

Women: A good period for the fair sex. You will enjoy increased popularity in social life. Those engaged in social work are likely to be invited to shoulder greater responsibilities in recognition of their good performance in the past. This is a satisfactory month for working girls.

Students: You will be successful in tests and interviews with the Service Selection Board and

8. VRISCHIKA (Scorpio)

General : The Sun and Mars in the unfavourable 1st and the 2nd are under check throughout. Jupiter in the 10th is also unfavourable unrelieved by any check. Mercury in the favourable 2nd during the first four days transits afterwards the adverse 1st with check. Venus in the favourable 12th and 1st yields to Vedha during the last six days. Saturn in the favourable 3rd yields to Vedha till 25th. The result is that the evil results will be more in evidence during this month. you should develop extra will-power to counteract the evil and maintain an even tenor in all your activities without attempting any short-cut and orthodox methods for achieving success. Visakha is better than Anuradha and Jyeshta.

Health and Domestic : Health troubles in one form or another will be present throughout. Chronic patients should take care to avoid an aggravation in their ailments. Children's health will be a source of concern. The redeeming features in the month are the domestic bliss and

harmony which will be vouchsafed to you.

Finance and Speculation : This is a thoroughly unsatisfactory month for finances. Your income will shrink. The pressure from creditors will be great and sources of help may dry up. The speculative transactions should be completely avoided.

Real Property, Services, Professions etc.: The severely adverse posture of Karaka for properties is counterchecked by the lord of the 4th in favourable transit *albeit* with Vedha for most days in the month. Even so it is advisable to postpone decisions on major deals to favourable periods. Services may have to face penal transfers. This is a routine month for businesses and professions.

Women : Not a bad month for the fair sex. You will be happy in your social engagements. Social contacts will be of assistance to you in your business. You will have opportunities of money in high social circles. The period will be, more or less, satisfactory for working girls.

Students : You will shine very well in sports; but you should curb your tendency to neglect studies and spend all the time in the sports' field. You must realise that sports without the support of a good educational background will not be of use to you in practical life.

9. DHANUS (Sagittarius)

General : The Sun and Mars in the 1st and the 2nd, Mercury in the 1st and the 12th and Saturn in the 2nd are all unsatisfactory; the Sun and Mars are under check throughout and Mercury till 25th. Although four planets are unfavourable the good influences will be more during the month due to the powerful and favourable support of Jupiter in the 9th and Venus in the 11th and the 12th. Both Jupiter and Venus do not yield to Vedha. You will be successful in your undertakings. You will be performing important homams and pujas to propitiate your Ishta Deveta (your favourite God) who will be pleased with your sincerity and grant you all your wishes without affecting adversely your spirituality. Poorvashadha is better than Moola and Uttarashadha.

Health and Domestic : You may have health troubles off and on. But these will be of a minor nature and will yield quickly to ordinary medical treatment. Chronic sufferers will have to be extra careful. Your children's performance in schools and colleges will make you happy. Domestic peace and harmony will be vouchsafed to you in full measure throughout.

Finance and Speculation : This is a very satisfactory month for all financial matters. You will be able to resettle your past financial commitments on favourable terms. Some of the old debts which you have practically written off will be paid back to you in full with interest. This is not a month for speculative transactions.

Real Property, Services, Professions etc.: Agricultural crops are likely to be destroyed by pests. Litigation with adjacent owners is likely. Services will find the month extremely satisfactory. This is a profitable month for businesses and professions.

Women : Quite a good month for the fair sex. Love affairs will blossom into happy wedding with the blessings of parents and other elders in the family. Working girls are likely to be promoted and transferred to places of their choice.

Students: Medical students are particularly favoured. You will be successful in tests and interviews. You will have an enjoyable and memorable picnic in the company of the opposite sex during the second half. Those interested in fine arts will find the period soul-satisfying.

10. MAKARA (Capricorn)

General : The Sun in the favourable 11th till 14th transits afterwards the unfavourable 12th with check. Mars in the favourable 11th till 29th transits the adverse 12th during the last two days with check. Mercury in the unfavourable 12th during the first four days with check transits thereafter the favourable 11th with Vedha. Jupiter in the 9th and Saturn in Janma are both unsatisfactory and his evil propensities are not under check. Venus in the unfavourable 10th till 25th transits the favourable 11th during the last six days. The results will be of a mixed nature but no pronounced results either for good or for bad will be felt by the native. You are likely to be honoured by public institutions. You will have sound and peaceful sleep in spite of worries. The first half of the month will be definitely better than the second half. Dhanishta is better than Uttarashadha and Sravana.

Health and Domestic : Liver complaints may worry you and you should resort to medical assistance immediately. Chronic sufferers should take extra care. You are likely to receive important and happy news from the close relations of your spouse. You may not have peace and harmony in the domestic field for most part of the month.

Finance and Speculation : You will have problems in the financial field. Friends will, however, come to your rescue and save you from financial embarrassment. You should scrutinise every item of expenditure. The speculative transactions should be avoided completely.

Real Property, Services, Professions, etc. : The period will be satisfactory for all property matters. You will make considerable improvements to your rented properties. Yield and rentals will be quite good. As displeasure of superiors is indicated the services should be extra careful. Professions and businesses may not find the month unsatisfactory.

Women : You should be careful about your functional health. Society ladies will find social gatherings congenial. You will have a difficult time in balancing the domestic budget. The working girls should not indulge in politics in office.

Students : With determined effort you could make good progress in studies. Vidyakaraka is in a favourable mood for most part of the month. It is advisable to refrain from athletics as much as possible during the month.

11. KUMBHA (Aquarius)

General : The Sun and Mars transit the favourable 10th and 11th; the Sun yields to Vedha from 14th and Mars throughout except between 14th and 25th. Mercury transits the favourable 10th and 11th; he yields to Vedha throughout. Jupiter in the 7th is fully favourable. Venus in the favourable 9th till 25th with Vedha transits afterwards the adverse 10th. Saturn in the 12th is none too good but he is under check. This is quite a favourable month. The first half will be better than the second. Business and professional advancement, good speech, auspicious celebrations in the family, destruction of enemies and general prosperity are all indicated. Poorvabhadra is better than Dhanishta and Satabhisha.

Health and Domestic : You will enjoy good health throughout the month. Those suffering from chronic diseases should take advantage of the favourable planetary vibrations and endeavour to have their diseases cured. With some effort you could have peace and harmony in the domestic field during the month.

Finance and Speculation : The month will be quite favourable for money dealings. Amounts due will be realised and loans repaid. The speculative transactions will yield moderate profits throughout.

Real Property, Services, Professions etc.: All real property transactions will yield good results. Purchase of new property is likely after beginning of the third week. Yield and rentals will be at good levels. Services may be promoted unexpectedly. This is quite a good month for the professions and businesses.

Women: Love affairs will blossom into very happy wedding with the consent and blessings of parents and other elders on both sides. Social climbers will realise their ambitions. The working girls are likely to be promoted and transferred to places of their choice.

12. MEENA (Pisces)

General : The Sun in the unfavourable 9th till 4th with check transits afterwards the favourable 10th with Vedha. Mars in the adverse 9th till 29th with check transits afterwards the favourable 10th with Vedha during the last two days. Mercury in the favourable 10th with Vedha during the first five days transits afterwards the unfavourable 9th with check. Jupiter in the 6th is none to good. Venus in the favourable 8th and 9th yields to Vedha during the last 6 days. Saturn in the 11th is fully favourable. The month leans on the side of evil. Health complaints may worry you practically throughout. Poorvabhadra is better than Uttarabhadra and Revati.

Health and Domestic : Bilious and windy complaints are indicated by the, adverse transits. Chronic sufferers should resort to prophylactic measures to obviate an aggravation in their complaints. The domestic life will, however, be peaceful and harmonious practically throughout.

Finance and Speculation : The financial affairs will not be satisfactory during the month. Pressure from creditors will be severe and sources of help may dry up. Redemption from financial worries is not likely till the close of the month. This is not a month for speculative deals.

Real Property, Services, Professions, etc. : Agricultural crops may be affected adversely by pests. You will experience difficulties in the realisation of rentals due to you. Penal transfers are likely for the services. This is not quite a profitable month for businesses and professions.

Women: You should curb your tendency towards extravagance if you are keen on not having a financial mess at the close of the month. This is not a good month for social activities. Working girls should be very careful in dealing with their superiors.

Students: You will shine extremely well in the field of sports and the chances of your inclusion in the national or state level teams are quite rosy. But you should curb your tendency to curtail studies. Without an educational background sports, by itself, may not be of much financial assistance to lead a happy life.

Political Forecasts

I

Sir, - The prediction about Gorbachev, the President of USSR, (Annual Number 1991) has come true. A unique and accurate technique is adopted by the magazine in predicting the future events. This has no parallel in the annals of Astrology.

My heartfelt congratulations to the Editor.

Hyderabad. **B. G. Biderkar.**

II

Sir, - As soon as I read about the 'coup' against Gorbachev. I looked up the January 1991 issue of THE ASTROLOGICAL MAGAZINE. I found that you had clearly foreseen "(a) confusion (b) one can only hope that the great Gorbachev will survive and (c) there will also be attempts to overthrow the government by repressionist radicals".

I would like to congratulate you on the splendid prediction in this regard.

Bombay. **N. Srinivasan.**

III

Sir, - The following two forecasts published in your 1991 Annual Number have come out astonishingly true.

1. National mourning - page 8 - first sentence.

2. Yugoslovakia on the brink of Civil War - page 159, 21st and 22nd lines, right half of the page.

We only wish Astrology guides India in national unity and integrity and in placing India on to the fore-front of world affairs as it was in the times of Lord Rama and Lord Krishna.

Jabalpur. **P. K. Tiwari.**

Saturn in the 12th

Sir, - Dr. K. Vaidyanathan of Trivandrum fully endorses the views of Pulippani that 'Saturn in the 12th caused separation from wife' (*A.M.*, April 1991).

In support of his argument the native has furnished the chart of his father who had to suffer separation from his wife (native's mother) for a spell of 7 years on account of Saturn in the 12th.

Against this background it is to be remembered that the native's father had Jupiter Dasa balance of only 1 year 27 days since birth up to 2-6-1890. Then there was Saturn, Saturn upto 2-6-1909. The Dasa lord Saturn as Lagna and 2nd (family) lord is placed in the 12th (*anyadesagmanam*) along with Rahu but did not cause any separation from wife.

The Dasa of Yogakaraka and exalted Venus started from 2-6-1933. It may raise several eyebrows if it is said that this Karaka of marriage placed with 7th lord from Lagna and the Moon in his sign of exaltation really caused the separation!

Venus exchanges houses with Jupiter, lord of 3rd (12th of 4th) and 12th and is 6/8 with his dispositor. Venus has its Amsa in the 12th of the Ascendant along with Ketu.

Problems posed by his mother and profession are the cause of separation. This is explained below.

The 4th lord Mars denoting mother, also a Badhaka for the Ascendant is placed in the 7th (wife and profession) in Cancer (an emotional sign) in debilitation and aspects the 12th lord Jupiter (also Karaka for profession) placed in the 10th (profession) as also Lagna. The Karaka for Government employment Sun also aspects Jupiter. The Sun is debilitated in Amsa along with Mandi in the 10th from Lagna.

From 2-6-1939 onwards he was having Mars Bhukti in Venus Dasa. The debilitated Mars as 4th lord and Badhaka led to the separation. It continued up to 2-4-1946 when the Bhukti of 12th lord ended.

Thalayolaparambu.
N. K. Venugopal.

MY TURN

MARS AND THE CHILLI MARKET

CHAKKA SATYANARAYANA, GUNTUR

THE market trends of commodities like chillies, red gram, pulses, cotton, oils, paddy, rice, turmeric can be studied with a reference to the positions of the planets. The planetary positions play an important role in the fluctuations in athe market prices. Factors like aspects of planets, Neechabhanga Yoga, positions of Rasis, retrograssions of planets, debilitation, exaltation, combustion of planets, malefic planets, benefic planets etc., are applicable to market prices also.

If a particular planet exerts power the commodities relating to that planet show an increase of prices till such time the planetary position or Yoga exists.

If the general power of a particular planet is reduced, the prices of the commodities relating to this planet show a decrease in prices till such time the planetary position or Yoga exists.

The colour and taste of the commodities decide which planets rule them.

For example, for chillies (dry) Mars (for red in colour) and the Sun (for pungency) can be taken.

Giving away in charity (*danas*) of certain commodities are prescribed for each of the nine planets. This relationship can also be used for judging market trends :

The Sun - Wheat; Mars - Toor (red gram); Venus - Bobbarlu (in Telugu); Mercury - Green gram; Jupiter - Bengal gram ; Saturn - Gingelly seeds; Rahu - Black gram (uddu); Ketu - Horse gram; and Moon - Rice.

The following is a list of some of the commodities given in relation to their colour and taste:

The Sun - Chillies (dry) etc., Venus - coriander, essence type of commodities etc., Jupiter - turmeric, sugar etc., Rahu - groundnut, cotton seed, cigarettes, tobacco etc., and Moon - milk.

The price of dry chillies market increased abnormally *i.e.*, Rs. 1,000/- per quintal when Mars was in Cancer (16-5-1991 to 5-7-1991). Let us study how it happened. Though Mars is debilitated in Cancer, Mars was responsible for the increase in the chilli price during that period due to Neechabhanga Yoga. In Cancer, as Mars joins exalted Jupiter, Neechabhanga Yoga applies to Mars. Also Saturn who is in the 7th in Capricorn and who is in retrogression helped to bring power to the Neechabhanga Yoga of Mars.

Price of the chillies was high till 15-4-1991 until the crossing of Mars by Jupiter. Prices of toor (red gram) also went on increasing during this period as Mars also rules toor. In the period after 15-6-1991 the markets came to normal as there was no power exerted by Mars.

Since I am in the business of chillies (dry) I closely watched the day-to-day trends in the market and I was able to compare the planetary positions with the market trends.

Price trends are foreseen as follows:

Period	Commodity
9-8-1991 to 24-8-1991	For dry chillies
8-10-1991 to 20-10-1991	For dry chillies and toor (red gram)
21-10-1991 to 21-11-1991	Weak trend for dry chillies.

ASTROLOGY AND WOMEN'S WORLD

Q. Married in 1974, I have no children. Married life too lacks in harmony. Kindly guide me.

S. N. 17915

Born 2-10-1949 at 5-30 a.m. at 17 N 27, 78 E 27.

Ans: The Ascendant and 7th lords are in mutual trines which is an indication of harmony between spouses. Rahu in the 7th, Jupiter Dasa on and Jupiter aspected by 8th lord (malefic) Mars can lead to tensions. Jupiter Dasa will finish in early 1993. Thereafter Saturn Dasa begins. Saturn is the 5th lord from the Lagna and the Moon-sign lord. He aspects the 5th house and 5th lord from Chandra Lagna and this does not rule out progeny. Saturn is in the 12th from Lagna and in the 8th from the Moon. During Saturn Dasa, relatively better peace will prevail at home and with spouse and may also see you with the additional responsibility of fatherhood.

Q. 2. My younger son, working as a costing clerk stunned us all on 30-6-1991 when he came home with a very plain-looking Jewish girl, three months older than him. He says he will marry only her but after 2 years. All our pleas that the big differences in the 2 communities (she eats pork and beef while we eat only pure vegetarian food) will not let such a marriage work have fallen on deaf ears. Will he marry this girl causing pain to all of us ?

S. N. 15572

Born 8-2-1969 at 5-37 a.m. (IST)at 18 N 56, 72 E 51.

Ans: The 7th lord Moon is in the 10th with Badhaka Mars. The Kalatrakaraka Venus, though exalted, is with Rahu aspected by retrograde Jupiter who is himself afflicted by Ketu. Further, both 5th lord Venus and the 9th occupant Jupiter are both afflicted by the nodes which can show a sudden departure

from traditional mores. The fact that Jupiter Dasa is running cannot be of much help as Jupiter is retrograde and with Ketu which means that the marriage will be highly unconventional. Although this is an unhappy development *vis-a-vis* the family, since the planetary indications are quite strong, the marriage eventually will be against tradition. It is better you accept this development as God's will.

Q. My daughter had a nervous breakdown in March 1988. She has however distinguished herself in her academic studies. But I fear that 5 planets in her 12th house could show lunacy or madness, maybe at some future date. Please examine her chart.

Ans: The Moon, as you say, in the 12th does seem afflicted by debilitated Saturn. But a keen and closer look will show you Venus also there with Mercury and Jupiter aspecting the whole lot. Therefore, your fears are quite unfounded. Five planets in the 12th including the Lagna lord could indicate life overseas. Nor need you worry about her marriage because of Jupiter-Venus influences on the Moon-Mercury and the 12th house.

Q. My daughter is a diabetic since 1975. Will this affect her married life?

S. N. 12471

Born 18-4-1966 at 22h.55m. at 13° N, 77° E 35'.

Ans: The 7th lord is Mercury, placed in the 4th with the 8th lord Moon and the 2nd and

3rd lord Saturn. The Ascendant lord Jupiter occupies the 7th house which not only does not deny marriage but also ensures happiness in it. The association of the 3rd and 8th lords with 7th lord only delays the event. Further, the 6th lord who is Kalatrakaraka Venus is well-placed in the 3rd house aspected by Jupiter. Marriage may only mean improved health and happiness for your daughter.

Astrological Activities

Conference of News Agents

AN ALL INDIA News Agents Conference was held at "Sri Rajeswari" at Bangalore on 26-9-1991. It was organised by Mr. P. Adimoolam, M.A., of Thompson & Company, Sole Distributors for THE ASTROLOGICAL MAGAZINE.

Addressing the gathering, Mr. Adimoolam recalled the four decades of his associaton with the Raman institution. Paying glowing tributes to DR. B. V. RAMAN for his missionary dedication to the cause of Astrology, Mr. Adimoolam said "DR. RAMAN, Editor of THE ASTROLOGICAL MAGAZINE, is a great thinker and a world-famous philosopher and a great advocate of the Hindu religion. He is the leading star in the field of Astrology. He is a selfless person and his only ambition in life is to propagate Hindu philosophy, particularly the greatness of Astrology to the entire humanity.'

"DR. RAMAN has been a very pious man even from his childhood. He inherited from his grandfather, the late Prof. B. Suryanarain Rao, the wealth of this great science, Astrology. Even during his younger days he argued and won the admiration of great scholars not only in Mysore state but also from other parts of country and the world."

"DR. RAMAN has travelled widely in the Western countries and has met eminent scholars in the field of Astrology, discussed with them and proved the greatness of this ancient science. Astrology was looked down upon, in the past, as superstition. It is DR. RAMAN who has proved that Astrology is as much a science as physics, chemistry and maths", emphasised Mr. Adimoolam.

Mrs. Rajeswari Raman, he said, was a devoted wife and was doing good service to society through the Surya Prakash Institute of Yoga for Women for many years.

Mr. Adimoolam expressed great happiness in the fact that a business relationship had blossomed into a family relationship.

DR. RAMAN, thanking Mr. Adimoolam for the tributes, said the relationship had only led to enlarging THE ASTROLOGICAL MAGAZINE family. He reiterated Mr. Adimoolam's statement that the magazine had grown over the years and was eagerly awaited every month by the public. Smt. Rajeswari Raman, Mrs. Gayatri Devi Vasudev, Messrs. B. Niranjan Babu, B. Sachidananda Babu and Vasudev were also present on the occasion.

The morning session concluded with a luncheon party hosted by Mr. Adimoolam and attended by the agents and the staff of THE ASTROLOGICAL MAGAZINE.

BRIHAT JATAKA

Varahamihira's classic compendium of natal Astrology now available with original slokas in bold Devanangari and English translation by

PROF. B. SURYANARAIN RAO

EDITED BY **DR. B. V. RAMAN**

This monumental work by the versatile 1st century B.C. genius deals with the entire science of Astrology in a masterly way. Brihat Jataka, as the author rightly asserts, is intended as a boat for all those who, at first get dispirited at the sight of the bast ocean of astrological knowledge, but wish to cross the same. Contains the invaluable commentaries of Bhattotpala which clarify many obscure passages in the text. Copious notes by Prof. Rao in his own inimitable style facilitate easy comprehension.

Prof. B. Suryanarain Rao is hailed as Abhinava Varahamihira and his masterly notes and the lucidity with which he has explained the principles are unparallelled.

The one book that everyone should read to gain thorough knowledge of the subject.
An excellent authentic guide to both the beginner and advanced student.

फलानि ग्रहचारेण सूचयन्ति मनीषिणः ।
को वक्ता तारतम्यस्य तमेकम् वेधसम् विना ॥

Those who know Astrology can only indicate in a way what will take place in future. Who else, except the Creator Brahma, can say with certainty what will definitely happen?

WORLD TRENDS AND TENSIONS IN 1992-1993

ARISTOTLE observed that constitutional history seemed to move in circles from monarchy *via* aristocracy towards democracy and then *via* mob rule and dictatorship back again to monarchy. This observation is consistent with the astrological theory of historical and political forces, following certain astronomical cycles or patterns. There is a growing recognition on the part of modern thinkers like Spengler, Toynbee and a host of others, of the cyclic movement of human history.

According to the great Varahamihira, the Sun and the Moon are Kings, Mars is the Commander-in-Chief, Jupiter and Venus are Ministers and Saturn the servant. These allocations are only symbolical and Literal. The pattern of political thought during a particular period is generally moulded by the nature of the planet whose influences are dominant during the period concerned.

No amount of gluing of our eyes to the latest theories and no fanatical insistence on the unique relevance of the often hollow formulae of modern sociology, psychology and political science alone can give us the perspective, the large vistas and the understanding of *homo sapiens*. No more statistics, no more statutes, no more blue-printed utopias are needed to enable us to anticipate how the future course of events will be shaped. Contemplation and the calm weighing of the value of things of this world, past and present, in the light of planetary configurations can enable us to attempt a living interpretation of the past and present so that on the basis of the developments of a previous cycle the present could be projected into the future.

If therefore, the repetitive nature of historical, political and social trends in accordance with astronomical configurations is conceded, then Astrology becomes a master-key to unlock the future, and the horoscope will then be a symbol of events likely to happen. And symbols enable us to give a broader and more objective meaning to the social and historical realities.

The ancient sages have attached great importance to the positions of planets obtaining at the time of the commencement of each lunar year. Sixty lunar years, beginning from Prabhava and ending with Kshaya, constitute a cycle. Prabhava denotes the

Digitized by Arya Samaj Foundation Chennai and eGangotri

birth of a new cyclic force. Vibhava indicates its expansion, Shukla denotes its vitality, Pramoduta connotes its development, Prajotpatti signifies the various manifestations of this force.

1992 covered mostly by Angirasa, the 6th year of the cycle, commences on 3-4-1992 at 5h. 1m. (GMT) or 10h. 31m. a.m. (IST). The year ahead will be a problem child with the slow-moving Saturn still meandering in Capricorn till practically early 1993. The new year no doubt promises peace in most parts of the world but there will be a multiplication of complexities and undischargeable obligations.

As the King of the lunar year, Saturn dominates the scene. In mundane Astrology Saturn stands for democracy, tillers of the soil and factory workers. He is also a planet of obstacles, hindrances, hardships, enmity, coldness, avarice, phobia and caution. According to classical works Saturn as the ruler* of the year indicates: "Countries will be torn by many battles of unruly bands of robbers and deprived of their cattle and wealth, with a vast multitude of people crying piteously as a result of the murder of their near and dear ones, and of hunger and fell diseases. The sky will be denuded of clouds driven by the wind, trees with their branches broken down will cover the earth; the sky will not be illuminated by the rays of the luminaries, being covered with a dense mass of dust. Tanks and lakes will dry up; and rivers will be very tiny. In some parts, crops will perish for want of water; in others they grow being watered by artificial means; and (or as) the Rain God will yield but little rain." Of course a literal interpretation is not called for.

It is a noteworthy feature of this year that Saturn continues to stay in his own sign moving away from Rahu. However as from the ruling sign of India, Saturn's movements have reference to the 5th or house of thinking and reflection, India will drift into further political confusion. Saturn is also *avarodha*. Despite the fact that Communism is practically dead even in its land of birth, forces of democracy may be considerably undermined leading to some sort of dictatorship or guided democracy in some of the states newly liberated from communist rule. The political pendulum will no doubt swing towards the right. Boundaries between nations will be violated.

During the year ahead Saturn's movements will be practically confined to Capricorn. At the beginning of 1992 he will be in 23° 46' Capricorn, retrogrades on 28-5-1992 in 26° 29' in the constellation of Dhanishta and becomes direct on 16-10-1992 in 19° 49'. His period of retrogression will be for about 142 days. He enters Aquarius about the end of February 1993. Generally, Saturn's transit of Capricorn forebodes "fear, destruction of crops, destruction of Yavanas and affliction of the priestly class, rulers, Brahmins and healers".

Jupiter in 13° 48' Leo, at the commencement of the year, becomes retrograde on 2-5-1992, enters Virgo on 4-9-1992, retrogrades again on 28-1-1993 becoming direct in June 1993.

Rahu in the 13th degree of Sagittarius at the beginning of the year enters Scorpio about the end of November 1992. The theory that Aquarius rules Russia becomes confirmed as all the political developments in this country resulting in the break-up of the Soviet Union and the collapse of

...ism took place during Saturn's sojourn in ...gon and his conjunction with Rahu in the 12th ... Russia's ruling sign.

Among the important aspects to occur in 1992-... may be noted the following: Mars-Rahu ...nction in Sagittarius on 22-1-1992, Mars-Saturn ...nction in Capricorn on 6-3-1992, Mars-Rahu ...position on 8-9-1992, Mars-Saturn opposition on ...-1993 and Mars-Jupiter opposition on 4-4-1992.

Mars-Saturn and Mars-Rahu conjunctions ...aken the stability of the Indian Government. ...rs stands for the military, war, disputes, ...ndiarism, violence, strife etc. And astrologically ...hu is associated with non-Hindus, especially the ...slims. The conjunction of these two malefics in ...ittarius which happens to be the 8th from the ...ing sign at New Delhi may expose the country to ...mmunal outbreaks, intensification of terrorist ...ivities and the violent end of a political leader. It ...therefore all the more necessary that precautionary ...asures are strengthened to offset the adverse ...netary indications. A delicate situation may ...velop in the two periods mentioned above and no ...orts should be spared to handle such situations ...refully.

The important position assigned to Saturn, the planet of democracy, as lord of the new year and his closeness to Rahu till Rahu recedes into Scorpio, favour the abuse of power by the ruling classes and a strong trend to trifle with the norms of democracy. Countries and individuals ruled by Cancer and Capricorn will be much affected. The relieving factor is the aspect of Jupiter on Rahu.

In 1992, there will actually be five eclipses—three solar and two lunar, 4 invisible in India but nevertheless of significance. The eclipses of the Sun will occur on 4/5th January (annular) in 21° 35' Sagittarius; on 30th June 1992 (total) in 16° 41' Gemini and on 23-12-1992 (partial) in the beginning of Sagittarius. The eclipses of the Moon take place on 14-6-1992 (partial) in 2° 2' Sagittarius; and on 9-12-1992 (total) in 25° 52' Taurus.

The total solar eclipse (30th June) may have fateful repercussions on Indian affairs in general and also on the head of the Indian Government as the eclipse has reference to the 10th house in the Indian Prime Minister's horoscope. It will also affect the U.S. President. The adverse effect of this phenomenon may manifest in full when Mars passes through the eclipse point of the 17th degree of Gemini (September 1992). These phenomena pose a serious threat to India, not only by way of the intensification of terrorist activities in Punjab, Kashmir, Assam and even in Rajasthan, Uttar Pradesh and Tamil Nadu but also war-like activities by Pakistan.

The impact of the July 1992 eclipse will be considerable on North America, especially the California coast. An earthquake shock of severe intensity is likely near about Los Angeles. Earthquakes are also likely in Ir..., Portugal, Mexico and the eastern parts of India.

Weather conditions in the southern strip of India should be carefully watched. Whether in regard to natural calamities or political upheavals or violent agitations, the countries where the eclipse occurs and those ruled by the signs which happen to be the 12th, 8th or 10th therefrom, become particularly vulnerable.

IMPORTANT ANNOUNCEMENT

Dr. B. V. Raman, Editor, The Astrological Magazine, will deliver the annual special lecture "Astrology vs. Futurology" at the INDIAN INSTITUTE OF WORLD CULTURE on Thursday 2nd January 1992 at 6.00 p.m.

Mr. P. Chidambaram, Union Minister of State for Commerce presides.

The lecture is open to the public.

Capricorn being a solstitial sign Saturn's position therein, subject from time to time within the year to other planetary aspects can affect the climatic conditions all over the world. Depending upon their geographic positions, countries will have extremes of summer and winter. During June-July and again October-November weather will be greatly disturbed, storms striking the western and southern Indian coasts.

In the astrological language Gemini stands for trade and science as it is ruled by Mercury. Gemini also stands for U.S.A. Since Rahu and Ketu influence Gemini practically throughout the year, trade in different countries will be influenced sometimes adversely due to policies adopted by the U.S. Despite the tall talk of universal peace, the present movement of the Nodes denotes that science will again be debauched for the development and perfection of more diabolical methods of destruction in America.

Gemini is an aerial sign. While deaths by accidents, drowning, terrorist activities, outbreaks of epidemics and other unnatural causes will be considerable in different parts of the world, the death toll by aeroplane crashes is likely to be heavy. Travel by air is not advisable during the period of transit of Mars in Cancer.

INDIA

At the time of the commencement of the lunar New Year, 5°46' of Gemini rises in New Delhi. Mercury, lord of the Ascendant is *neechabhanga* and occupies the 10th in association with the Sun (lord of the 3rd), the Moon (lord of the 2nd) and Venus (lord of the 5th and 12th) and aspected by Saturn (lord of the 8th and 9th). In the Navamsa also Mercury is well placed, being exalted in the 11th from the Ascendant. The dispositor of the lord of Lagna *viz.* Jupiter is however blemished because of the aspect of Mars, lord of the 6th and 11th. And the Lagna lord is also powerfully aspected by Saturn (placed in the constellation of Dhanishta).

While there will be general stability in the country, we must be prepared for continuance of political strife. The threat of violence looms across the political horizon.

The 12th indicates secret enemies. The 12th lord Venus, though a benefic, exalted in a Kendra, the 7th, 8th and 9th houses stand afflicted. In the Navamsa the Ascendant is no doubt fortified but the destructive effects of Mars and Saturn are concentrated on the 6th and 8th houses. These dispositions suggest a difficult year ahead for India, politically and internationally.

The 2nd house is aspected by Saturn. Lord of the 2nd Moon is well placed in the 10th. In fact there is also a partial Adhi Yoga because of Jupiter's presence in the 6th from the Moon. The 2nd lord is also associated with Mercury, lord of Lagna, the Sun, lord of the 2nd and Venus, lord of the 5th (and 12th). The new climate of liberalisation will no doubt remove, to some extent, the maladies afflicting Indian economy, but it may not work quite satisfactorily because of hurdles in the shape of communal disturbances, strikes in factories and public undertakings and breakdown of law and order. The Reserve Bank may not be able to pull the economy out of the mess created by the previous Governments.

As in Navamsa the second lord is afflicted there will be a general feeling of anxiety on the part of the

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

over finance and unemployment problems. projects and labour will be affected. As Mercury and Venus, lords of the natural ruling signs U.S.A. and even China respectively, are both with the house of finance, new trade will be signed with U.S.A. and even China. Moon-Mercury-Venus combination in the 10th excellent influence denoting a large increase in monetary and trade assistance from U.S.A., ovement in the national finance and commercial rations. As however Venus happens to be the of the 12th there will be heavy expenditure, k failures and panic in the stock-exchange. By time of the June eclipse a leading banking concern break causing panic in financial circles.

The economic crisis facing the country will due to the distressing fact of confusion and efficiency in political management. The vernment may not be able to extricate itself from vicious circle of taking loans to pay off loans.

Strangely, the prices of a wide range of modities will be affected and the common man suffer much. New projects will be undertaken the private sector. Textile, jute and agro-based stries may experience positive growth rates.

The inflational spiral will generate social tensions. blic sector organisations will find their losses ting and the demand for their denationalisation gain momentum. Defence expenditure may ed the budget figure by hundreds of crores of es. Industries producing automobiles, consumer ctronics may have a bad time. While a significant ease in food-grain production can be anticipated, on, sugarcane and oil production may fall a little of our expectations. The thrust expected to be n to Indian economy will not be there and clear- policies will not be adopted by the Government. ia will however be able to demonstrate that it is pable borrower. However the levers of control economic activities will be loosened considerably.

The 3rd house ruling communications is occupied Jupiter lord of the 10th, but aspected by Mars, of the 6th (and 11th) and the 3rd lord in the 8th from the 3rd is not favoured. These dispositions benefit the workers in railways, postal services and newspaper offices. However, due to martian aspect there will not only be discontent and agitation in these departments resulting in lock-outs, strikes etc., but serious accidents are likely in all forms of locomotives including the air-lines.

Certain changes in reference to taxes will be announced. Some cases concerning the withholding of taxes from large textile and liquor interests and narcotics will hit the press headlines.

The 4th house has mixed influences focussed on it. Benefits to agiculturists are no doubt shown. But there will be frequent clashes between the landlords and the tenants.

Education will continue to be in a mess though attempts will be made to formulate a new policy keeping in view the values and cultural heritage of the country. However, mass student demonstrations and closing of educational institutions are not ruled out. Venus, the Karaka for the show world, is exalted in the 10th house. A top show-personality may have a significant role to play in the Government. TV and film artistes will receive much encouragement but whether this will ultimately work towards the good of the younger generation is questionable. Glamorising tinsel world figures and patronising them out of proportion can have a deleterious effect on young minds leading to confusion as to what counts in life: Values or glamour? The 6th and the Lagna lords are in *dwirdwadasa* positions. Epidemics pertaining to intestinal, liver and pulmonary disorders may break out in several parts of the country. We can expect changes resulting from illness in the Supreme Court.

The 7th house is subjected to mixed influences. Jupiter, the lord of the 7th (and 10th), occupying the 3rd aspects the 7th. But as the 7th lord he is subject to the powerful aspect of Mars occupying a saturnine sign and the constellation of Rahu. The involvement of the 7th lord in a *shashtashtaka* disposition with Saturn, lord of the 8th (and 9th), is not desirable. India will begin realising the futility of its non-

alignment policy and move closer to powers which are economically and militarily strong. Pakistan's proxy war against India in Punjab and Kashmir will acquire a new dimension. The militants will step up activities and an open confrontation is not ruled out. The period covered by the martian transit of Aridra and the solar eclipse of June 1992 denotes an anxious period for India. Chinese incursions into our country may become more frequent.

Pakistan may drop hints of its "willingness" to settle all disputes with India "peacefully" but this will only be a ruse to the commission of further aggression. Rahu's presence in the 7th house is not a desirable feature. Secessionist forces largely created by the wrong policies of the successive governments all these years will spare no efforts to rip the country apart.

Delhi may upgrade diplomatic relations with Israel.

The relations between India and the Soviet Union may undergo significant transformation. The break-up of USSR will have an adverse impact on India; and Russia may not be that helpful to us, either in regard to Kashmir or the supply of arms. With U.S.A. our relations may become closer, though the *shashtashtaka* positions of the signs rising at New Delhi and Washington may often create formidable difficulties.

The 10th house presents a confused picture. Lord of the 10th Jupiter occupies the 3rd while his dispositor is in the 10th. Thus there is *parivartana* between these two lords. The 10th is occupied by the lords of the 3rd, 2nd, 5th (and 12th), and Lagna lord Mercury who is *neechabhanga*. The 10th is aspected by Saturn while the 10th lord is aspected by Mars, lord of the 6th.

The coming lunar year may again witness major political changes in India. Most political parties will continue to be riddled with factional squabbles both at the national and state levels. The directional influences in the horoscope of the Prime Minister will not be quite favourable. The solar eclipse in June 1992 falls in the 10th house in his horoscope. This is ominous. He should be careful about his health and movements especially during the passage of Mars through Aridra. The Congress coterie should see that no effort is made to change the head of state. Used as it is in serving a dynastic rule, the Congress may not find it easy to reconcile itself to the prime ministership of Mr. Narasimha Rao. The 10th lord Jupiter in a *shashtashtaka* disposition with the 12th lord Venus may necessitate mid-term polls before the end of the lunar year Angirasa, though the President will spare no pains to bring together the various parties with a view to forming some sort of a national or coalition government. The Congress (I) will continue to be riven with dissension and its credibility would be questionable. However the party will continue to hold together.

The 5th house in the Congress (I) chart is considerably afflicted. The party will spare no pains and will not hesitate to adopt any measures to secure for itself the minority vote. But the passing of the Places of Worship Bill may create a Frankeinstein monster as it will be construed by the majority community that the acts of destruction of Hindu temples indulged in by the alien Muslim invaders which constitute a national disgrace are being ignored by our rulers. And the movement for the removal of this 'national disgrace' may gain momentum. The Rama Janmabhoomi issue will begin to show signs of settling, thanks to the Jupiter's aspect on the 9th.

The reservation formula—an Apartheid against merit and talent, and an eye-wash for the really backward—will not be implemented this year. The policy is fraught with danger and will result in violent outbreaks and loss of innocent lives.

The Government will not be able to handle the burning issues of Punjab, Kashmir and Assam satisfactorily. While professing secularism it will continue its opportunitistic deals with communal forces. If firm military action is not taken in the troubled areas, India's integrity may be affected. The saving grace is, the strength of the Indian Independence chart.

In Tamil Nadu, Brahmin baiting and atheistic propaganda will be carried on by a section of fanatics causing in disturbance to peace and transquillity in some areas. But the atheistic movement will die an early death. The Tamil Nadu Government will be firm in the saddle. However, the Chief Minister's health requires special care about the time of Mars-ruling opposition. The lady may continue to be aggressive but not hostile towards the Centre. The elaborate net- work of the LTTE in this state will be unearthed and their activities brought under control. Sporadic outbreaks of violence due to the agitation of the so-called Dravidian parties will be skillfully and firmly dealt with. Madhya Pradesh, Karnataka and Andhra Pradesh may see new Chief Ministers. The B.J.P. in Uttar Pradesh will become faction-ridden. Some sort of greater autonomy may be bestowed on the Bodos. In Meghalaya the power-struggle will be intensified and the Congress (I) may be the loser. Janata Dal, now in its death throes, will strangely manage to survive and will show signs of subtle regeneration. The B.J.P.'s efforts to project itself as a potential ruling party will gradually succeed. While the party's "secular" credentials will continue to be questioned by the stalwarts of Nehruvian secularism, the party will continue to grow in strength. The health of a leading B.J.P. personality may cause great anxiety. Summing up: Multiple crises bedevil the nation. But India lives. Exposures of corruption will increase and at least one notable personality may become the victim of scandalous revelation. There are likely to be major upsets in Central and State cabinets. Relations with Pakistan will continue to be strained. The fiscal policy will be remodelled. Foreign aid will flow in. Two national figures may pass away and a national calamity may occur. There will be sustained hike in prices of food articles. The cereal prices will go down a little after the khariff harvest. The Prime Minister must be careful about his health. Any aggression committed on India will boomrang on the aggressor with disastrous consequences. Fiscal policy will be remodelled. Foreign aid will flow in.

OUR NEIGHBOURS

Gemini rises at Rawalpindi. In the Navamsa, the Ascendant is Scorpio, the 10th house being afflicted, as also the 10th lord. The threat of internal troubles looms large on the horizon. The martian situation in the Navamsa suggests military activity, a war-like tone among the people and an aggressive tendency. For all practical purposes the *de facto* ruler could be the military. The relations with India will further deteriorate. Proclaiming innocence Pakistan will continue to extend "full moral and political support" to the secessionists in Punjab and Jammu and Kashmir. The "secular" policy of India comes in the way of the Kashmir minority community receiving any relief. Attempts will be intensified to whip up war hysteria and a clash of arms between India and Pakistan cannot be ruled out. India must realise the dangers inherent in its soft policy and act before things get out of hand. Since Astrology is a science of tendencies, a fatalistic interpretation is not called for. Among other developments affecting Pakistan, the present Prime Minister Shariff may be thrown out and before August something drastic may happen. An attempt may be made on the life of the President. The solar eclipse of June and martian transit of Gemini may witness far-reaching political changes forced by unexpected developments including large-scale disturbances and revolts in Sind and North-West Frontier Province and Shia-Sunni clashes. Mrs. Bhutto has a chance of again coming to power. U.S. may revise her policy towards Pakistan. Most opposition parties will practise a policy of intrigue.

Both the Lagna and the Navamsa Lagna are afflicted at Kathmandu. Nepal will have a disturbed year ahead. Communist infiltration into Khathmandu will be on a large scale. Internal rivalries and dissensions will afflict this only Hindu kingdom in the world. The King will have a tough time. In the working of the parliamentary system of Government, there will be many clashes between the monarch and the ministers. Nepal may move closer to China despite cultural and religious identity with India.

Taurus 28°, rising in Colombo with Mars powerfully placed in the 10th, signifies that continuing political deterioration may accelerate in Sri Lanka. It will take a long time to establish stability. Though the LTTE will have its back broken, it may regroup itself and continue indulging in much violence. As anticipated in our last year's Annual Premadasa's government was on the verge of collapse. But in the year ahead he may not continue in power due to unexpected developments within the country. The conflict between the Tamils and Sinhalese will continue. Relations with India will be ordinary.

Chances of peaceful conditions returning to *Afghanistan* are remote. An unexpected event involving foreign intercession may pave the way for a constructive solution for the Afghanistan reign of terror all these years.

UNITED STATES

28° 19' of Scorpio, rising at Washington with Mars, lord of the Ascendant occupying the 4th and receiving the powerful aspect of Jupiter is significant. The presence of Saturn, lord of the 3rd in the 3rd and the disposition of malefics Rahu, Saturn and Mars in the 7th, 8th and 9th from the ruling sign of U.S.A. indicate a rough year domestically—of unrest, civil rights agitations and even violent demonstrations. Lord of the 7th Venus is well placed in the 5th associated with the lords of the 10th and 9th and 8th (and 11th) while the lord of the 5th (and 2nd) and 6th (lord of Lagna also) are involved in mutual aspects. While these dispositions give an upper hand to the President in many matters affecting the domestic or foreign affairs, a major conflict is likely between the President and the Congress even on basic issues, crying for action in this year *viz.* taxation, financial matters and foreign affairs. There will be revelations of financial fraud and squandering of the country's resources. In the first quarter of the year Wall Street is likely to be volatile with emphasis on the down side. Mars conjunction Saturn is the potential for an accident in industry or military. The 8th house is aspected by Rahu and the 7th by Mars. The 7th house is aspected by Saturn, as also lord of the 10th. The President may suffer a bereavement. While U.S. may not be involved in a major war during the year ahead, Bush will continue to act in an aggressive manner so far as Iran is concerned; and he may even resort to some sudden military strike to bring Iraq to its senses. The directional influences in the President's chart—Rahu in Mercury—are not quite unfavourable. As Mars is in the 7th house an attempt on his life cannot be excluded. He is prone to an accident and ill-health involving the heart. Domestic labour problems will cause a headache.

Strong differences will develop between the Conservatives and Progressives in the Congress on important policy matters. There is no indication of the political party, now out of power, winning the next presidential elections. Subject to health problems, the chances for Bush to continue to occupy the presidential chair for another four years are bright though his popularity may slump. Relations between the United States and most foreign nations will continue to be friendly. France may strike a dissenting note in regard to the U.S. approach to European affairs. U.S. will however avoid major decisions till the next presidential elections.

The stability of home life in many American families—what with domestic quarrels and divorces—will be a casualty thanks to the situation of Mars in the 4th house. Racial tensions cannot be ruled out.

Newspapers and media will face much rough weather. Some sensational cases involving heavy weights amongst press people are not ruled out. The 5th house is not much afflicted. It will not be a surprise if more and more couples opt for natural conception and children.

The country may be rocked by some financial scandals. The East Coast will have high winds and the West Coast may experience a severe earthquake about the time of the Mars-Saturn conjunction or near about the time of the June solar eclipse.

relations with India will continue to be cordial, though because of *shashtashtaka* dispositions of the luminaries at the time of the commencement of the new year, differences over technology and trade may crop up.

Lord of the 7th Venus being associated with Mercury, the planet of diplomacy, American foreign policy may acquire a different emphasis and orientation. Ties with Islamic countries will continue to be closer but with Israel somewhat cold.

Today the capitalist order in U.S.A. depends on the manufacture and sales of arms. U.S., Japan and Germany will be ridden with rival economies.

Throughout the coming year America will be in the zenith of power and will continue to exercise tremendous influence on world affairs. Saturn's transit of Aquarius in the 1993-94 will severely affect American economy and racial relations.

The annular solar eclipse of January 1992 exposes the West Coast of U.S.A. to a natural calamity.

SOVIET UNION

The 21st degree of Taurus rises at Moscow, the Navamsa Lagna being Cancer. The lord of Lagna is well placed in the 10th. Lord of the 10th Saturn is in the 9th (12th from the 10th) in the constellation of Mars, who occupies the 10th, an inimical sign. The relieving feature is, the 10th is aspected by Jupiter. Lord of the 2nd Mercury is *neechabhanga* occupying a friendly sign but a saturnine constellation. Saturn, as lord of the ruling sign of Russia, in the 12th therefrom and Mars in the ruling sign itself are all factors for disturbances within the country. Parts of Russia may slip into anarchy and chaos. The diehards who had plotted the earlier coup may once again become active and pose a threat to Gorbachev's continuance in power. Russia faces more power struggles and toppling games. Considerable discontent will be smouldering under the surface. About the time of the solar eclipse, in the middle of the year, a major political development or upheaval may affect the future of Gorbachev. He has a difficult time ahead as some of his own trusted men may betray him. The crisis-ridden economy of the country will show signs of recovery, thanks to the situation of the 2nd and 12th houses. But in the matter of aiding Russia to build up its economy the approach of U.S. and Europe may not be unilateral.

Soviet economy will be further liberalised. The period around Mars-Rahu and Mars-Saturn conjunctions should be carefully watched as Russia faces unrest, discontent and intrigues. Severe differences may arise between Gorbachev and Yeltsin in the matter of strengthening the pluralistic policy.

Price instability and disruption in the distribution will cause unbearable hardship to the common people.

As It Strikes Me

AGASTYA

EARTHQUAKE in Upper India

According to press reports, a ghastly earthquake hit Uttara Kashi on 20th October 1991 at 2-53 a.m. More than 1000 persons died in Uttara Kashi alone not to speak of the destruction of 30000 houses and innumerable injuries to thousands of people. As usual seismologists and other allied scientists have come forward with their own theories—theories which have never enabled them to predict the occurrence of even a single earthquake anywhere in the world. Indian scientists simply reflect the views of their western counterparts, though fully aware of the fact that their ancients had dealt with the subject of forecasting earthquakes at least 2000 years before Europe had opened its eyes to knowledge.

Prof. B.G. Deshpande is reported to have said that "seismologists world over have succeeded in long-range prediction of earthquakes", but rightly confesses that "short-range prediction was not as yet possible". But we have yet to come across even a single instance of correct prediction made by the seismologists.

Our scientists are clever in explaining the event after their occurrence. According to them the Uttara Kashi earthquake was "the product of the 23 million-year old aggressive Indian plateau moving north-west *at a rate of 5 cm. per year*". This is like a cock-and-bull story. Other scientists have given other explanations which could be of only academic interest. The scientists do not agree even in regard to the epicentre of the earthquake. According to the head of the Nephrology Department in P.G.I., Chandigarh, they have warned that "earthquake afflicted residents of Uttar Pradesh have a high possibility of developing a sudden onset of kidney failure".

It is a pity that Indian seismologists are indifferent to the ancient precepts while their dependance on western theories leads them nowhere.

Astrologically several correct forecasts of earthquake occurrences have been given. In fact a couple of years ago our Editor while addressing the National Geophysical Research Institution at Hyderabad on 6th July 1981 gave a demonstration of the astrological methods and predicted that Iran would be hit by a powerful earthquake about 31st July 1987. earthquake occurred in Iran on 29th July 1981. Again in the 1989 Annual Number the earthquake in Los Angeles was correctly forecast by the Editor at least one year in advance and fair-minded scientists said that a couple of months' margin did not matter. Again in the 1990 Annual Number the prediction was an earthquake would occur about June 1991 in upper India, but it occurred in October 1991. For any dispassionate observer the relationship between planetary positions and the occurrence of earthquake becomes clear.

At the *time of the occurrence of the earthquake Jupiter and Venus were in close conjunction while the M.C. was aspected by Mars. The mutual *shashtashtaka* positions of the two major planets Saturn and Jupiter is also significant. To be frank, whether by taking the planetary positions on the previous new Moon day on 7th October one could have predicted the earthquake on the 20th, is doubtful even from an astrological point of view. But Astrology can definitely give indications for the occurrence of earthquakes within a range of couple of weeks while seismologists can only speculate unable to indicate even the year. Let our seismologists remember that astrological data support the theory of correlation of planetary configurations with natural calamities.

Unpredictable Weather

In absolute defiance of INSAT pictures and charts at the Meteorological Department, Bangalore City weather underwent a volte-face between 28th and 31st October 1991.

A mini cyclone and unabated rain for 3 days continuously, without a minute's let-up, in southern parts of Karnataka claimed 21 lives, marooned countless people, brought down thousands of houses and washed several minor irrigation tanks in the district setting a record of sorts coming as they did after the monsoons were officially declared over. But take a look at the forecasts daily over these three days. "Generally cloudy. Occasional spells of rain/showers...." for the 28th and "Generally cloudy with a few spells of rain or showers" for almost 2 days. The occasional spell turned out to be one unabated killer-downpour for 72 hours non-stop, setting off a record for Bangalore known for its temperate climate. For the weatherman and his laws based on thermodynamics, this was just one more failure in one long string of worse performances in the past. Weather is unpredictable unless you look to Astrology for the right methods.

Animal Sacrifice

It was heartening to learn that the combined efforts of the district authorities and some local groups prevented the mass killings of cattle and poultry on 30-10-1991 at a place 70 kms. from Tumkur. This annual slaughtering to "appease" Goddess Mariamma is an all-caste affair for the local people. Devotees take vows to offer chickens, sheep or pigs if their prayers are fulfilled. On the scheduled day which is said to be usually 20 days before the Gouri festival (but postponed this year), the devotees, sometimes numbering 20 to 30 thousand, converge at this place and slaughter the animals in a span of 4 to 6 hours. Anti-sacrifice crusaders who prevented this slaughter achieved something and deserve our thanks for saving the dumb animals from being killed.

Ancient *Sastras* have not sanctioned the killing of animals in the name of religion or Dharma. The media too was voluble in details of the failing of the sacrifice. But animals are animals everywhere and in any festival. Why don't these *prani-dayalus* and the 'secular' media and rationalists also pounce on mass slaughtering of sheep and of camels, brought all the way from Rajasthan to die a slow, ghastly death at the night-long inhuman ceremonies of certain other faiths all over the country. At least, in Tumkur District it was a local affair. The Government, the *prani-dayalus*, the media, rationalists and the secular intellectuals keep mum when these barbaric medieval slaughter-ceremonies are indulged in by other communities. Or is their *daya* roused only where the meek Hindu is concerned? We hold no brief for any kind of animal slaughter by any community, though!

Planets and Temperaments

The temperaments of human beings are as different as their facial and bodily formations. No two persons are alike.

Astrology says that when Saturn is in Lagna, unaspected or uncombined by benefics, the person will be ugly, with projecting teeth, rough hair, unsocial, peevish and of irritable temperament. His tendencies will be for serving selfish interests. Lazy, swindling others and ungentlemanly he will generally be prone to acts of sin. These characteristics are indicated at birth as the resultant of his Karma in previous states of existence. The previous causes have produced the present tendencies. But there is nothing, in the whole of the astrological sciences which prohibits or prevents this person or his guardians and parents from taking this child and giving it suitable training so that the evil indications are neutralised to a certain extent. The planetary positions therefore are simply the landmarks of the resultant of Karma which is to the credit of the individual and they simply show which way the wind is blowing. Therefore, in judging the temperament of a person, the Ascendant, its lord, the planet rising and the Moon, play an important part. In so far as this article is concerned, the word 'temperament' is to be understood to mean "the peculiar physical and mental character of an individual arising from the relations and proportions between the constituent parts of the body".

Though a planet placed in Lagna (Ascendant) or aspecting Lagna has its own influence to exert, yet, the influence can be fully perceptible only when the planet concerned is within 5° either way from the Bhava Madhya (mid-point) of Lagna or the 7th house. The nativity of Hitler is well marked and

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

is forcibly illustrative of the fact that the aspecting planet impresses its characters upon the person and nature. If two evil planets join the Lagna or aspect it and if no relief comes from any benefic combination affecting the Lagna, then the general structure of the horoscope becomes weakened and the subject concerned will evidently be a misunderstood man. Mercury or Budha is the planet of Buddhi or intelligence. He rules the rational and intellectual faculties. Mercury must be strong, free from affliction and connected with the Ascendant (and its lord also by implication).

Some hold that when Mercury and the Moon are in conjunction with Mars, the person will be very unsettled and unstable in disposition. My own feeling is that this confers versatility of talent when Mercury and Mars aspect each other, they produce cynicism, obstinancy and fickleness. The view is held in some quarters that the retrogression of Mercury impairs the native's abilities. That this is unsound can be proved by the large number of horoscopes I have studied. Again the combustion of Mercury is held to impair one's abilities. This is not proven in practice. For instance in the chart of a person born on 20.9.1891 at 6.41 a.m. Mercury is almost in combustion in Virgo which is also the Ascendant. The abilities of this person (who was a Dewan in a leading North Indian State) were of the highest order. When Gladstone was born (29-12-1809) Mercury was again in exact conjunction (and hence in full combustion) with the Sun. The great mental abilities of Gladstone cannot be denied and this fact induces grave doubt as to the truth of the dictum that the combustion of Mercury is harmful for the mental clarity of the native.

In the horoscope of Prof. B. Suryanarain Rao, Mercury was not only retrograde but also combust. The mental abilities of the late Professor were of the highest order and he retained them until his death in his 82nd year.

For further illustrations of the fact that Mercury in combustion or retrograde would endow one with abilities of the highest order I can cite the charts of the Earl of Baconsfield, Goethe and Lord Nelson. Another important fact to remember is that when Mercury and Saturn have the same Kranti or declination, the native will possess sound judgment. Traditional Astrology does not endorse this view. Goethe's nativity is a fine illustration of the above principle. Mars-Mercury combination is also desirable. It gives self-confidence, mechanical dexterity and of course rashness also. Many surgeons have this combination. If it lacks the aspect of a benefic such a combination is apt to produce want of tenderness. Rahu should not aspect or join Mercury-Saturn or Mercury-Mars combinations. If he does then mania, melancholia, epilepsy and alternate fits follow.

I may cite the case of an idiot born on 9th January 1858 at 12 noon. Mercury is in the 10th (with the Sun) aspected powerfully by Saturn and Mars. Neither the Lagna nor the Moon is connected with Mercury. I may also cite the following cases (birth details of which are withheld) of particular interest to readers. (a) Mercury-Mars conjunction; Moon-Saturn conjunction in the 7th: The native was idiotic from birth. (b) Mercury-Saturn conjunction aspected by Mars in conjunction with Moon and Rahu; suffered from religious mania and died in a lunatic asylum.

Harmonious aspects between Venus and Mercury confer taste, elegance, love of luxury, musical talent and amiability. If Saturn casts his glance, then the motives of the person will be questionable or the talents are liable to be perverted.

One other important fact I have been able to notice is greater the distance between the Sun and Venus, greater would be the material prosperity and love of fine arts. As readers must be aware, Venus can never be more than 48° away from the Sun. Persons born under the strong influence of Venus are favourites with the fair sex, but they are deficient in firmness and resolution. When Venus is afflicted the very good nature of the man sometimes leads him to awkward scrapes. In the case of Prof. Rao the distance between the Sun and Venus is nearly 42°. He led an aristocratic life and his taste for and patronage of arts and letters were unequalled.

One of the most important maxims to be noted by students of Astrology is that generally, and not always, Mars and Saturn in certain Kendras (angles) whilst giving advancement, invariably cause risks and dangers and reverses towards the end of life.

All the above are merely observations based upon my humble study and practice and it is for the readers to assess their

value in the light of their experience and skill.

A Friend Passes Away

A friendship of over 50 years with Dr. B. V. RAMAN came to an end on 26-10-1991 when Justice A.R. Somnath Iyer, former Chief Justice of Karnataka High Court and former acting Governor of Karnataka passed away at Bangalore. He was 78 and had been ailing for some weeks. Justice Iyer was a close friend of the Ramans and very dear to the family.

Born in Madhugiri in Tumkur District, Justice Somnath Iyer was the Advocate-General of Karnataka. He was later elevated to the Bench of Karnataka High Court and retired as Chief Justice. A brilliant lawyer, jurist and judge, most of the judgements of Justice Iyer were invariably upheld by the Supreme Court. He was noted for his fair judgements. In some cases, where matters involved were of the priestly class, he had the distinction of carrying on the proceedings in flawless Sanskrit.

Born on 30th December 1907, with ascending in Vargottama with lord Sun in the 5th in Sagittarius endowed Justice Iyer with a tall and commanding personality with handsome features. Mercury, the 2nd and 11th lord, joining Lagna lord gave him a sunny disposition. Always smiling, he had a crowd of people around him drawn by his friendly charm and witty repartee.

A versatile scholar, he was as proficient in Astrology, Sanskrit, Vedanta, western philosophies, scriptural literature, history, politics and other subjects as he was in law and jurisprudence. An eloquent speaker, he could keep his audiences spell-bound for hours. He took great interest in the work being done by DR. B. V. RAMAN and participated with keen enthusiasm in many astrological meets either as chief guest or chairman. He was the President of the Reception Committee constituted to felicitate DR. RAMAN in December 1983 for his services to the cause of Astrology. No one was more happy than Justice Iyer when this body was formed. He had the highest regard and admiration for DR. RAMAN and had always felt his work deserved much more.

The 10th lord Venus in the 6th is aspected by exalted Jupiter which brought him to the judiciary. The 10th house from the Moon is strongly placed with Jupiter exalted there and aspected by Moon-sign lord Venus. We may also note the Vipareeta Raja Yoga generated by 6th lord Saturn in the 8th, 8th lord Jupiter in the 12th, 12th lord Moon in the 3rd and 3rd lord Venus in the 6th which conferred on him the highest judicial office in the State. A philanthropist to the core, Jupiter in the 12th gave him a devotional temperament and spiritual leanings also. He has 2 sons, both well placed.

The death as anticipated took place at the fag end of the Sun Dasa. The Sun, though lord of Lagna and occupies the 5th is in conjunction with Mercury, lord of the 2nd (and 11th). And the Sun as lord of the 11th from the Moon is in the 3rd aspected by a Maraka Saturn. His death is a personal loss to the Ramans.

May his soul rest in peace.

Lord Krishna's Chart

"The late Mr. V. A. K. Ayer on page 553 of THE ASTROLOGICAL MAGAZINE July 1975 quoted the horoscope of Lord Krishna as given by Nrisimha and handed down from generation to generation.

Sreekrishno rohinibhe vrishathanu sasinoh
Sravanasya asite abhooth
Ashtamyam Madhyaratre hariga Ravi vido
Karkimeejye Mrigaare
Jookasthe Bhargaveya Januga Ravi thanaye
Chandrivare anganaasthe Rahau yajjanma pathree tamavatu."

This gives the following chart:

Rasi: Taurus - Ascendant, Moon and Saturn; Cancer - Jupiter; Leo - Sun and Mercury; Virgo - Rahu; Libra - Venus; Capricorn - Mars; and Pisces - Ketu.

"Mr. Ayer justifies the chart as follows:

'Saturn in Lagna gave Sri Krishna a dark complexion. The Moon in exaltation made him a great intellect. Jupiter in the 3rd, with its dispositor exalted, points to Balarama. It also shows the Lord's proficiency in playing the flute with divine music. The Sun and Mercury in the 4th show his two mothers. Rahu in the 5th shows his philosophical nature or his subtle intellect. Venus in the 6th points to his innumerable foes and their ultimate destruction. The two planets aspecting the 7th indicate his two principal wives. Mars in the 9th points to the harassment suffered by his father. Mars aspecting the 12th shows his birth in prison. Mars also aspecting the 4th affected his mother too. The 8th lord exalted Jupiter in the 3rd and Saturn in Lagna gave him a long life of 125 years.'

"But *Srimad Bhagavatham* Skanda 10 Ch. 3 verse 8 gives the planetary positions as

Uchasthe Susi Bhouma chandri sanayo
Lagnam Vrisho Labhago
Jeeva Simha thulalishu krama vasath pooshasano Rahava
Niganeetha Samayoshtami Budha dinam
Brahmarksha Manthra kshame
Sreekrishnabhitham ambujekshanamabho
Bhaviparam Brahmathath

meaning, the Lagna is Taurus with the Moon and Ketu, Leo has the Sun; Virgo has Mercury; Libra has Venus and Saturn; Scorpio has Rahu; Capricorn has Mars; and Pisces, Jupiter.

"Coming to *Notable Horoscopes* by our esteemed editor DR. B. V. RAMAN, the version is entirely different regarding the chart of the Lord. To the students of Astrology these differences are presenting a baffling problem. How do we solve this?

"In this context, it is interesting to note that the Lord had a life-span of 125 years. It is clear that the end came in the second round of Mars Dasa. Mars is a Maraka and 12th lord from the Lagna and the Moon. In the first round of Mars Dasa also, there were many attempts on the life of the Lord; but He survived then for the purpose of the Avathara. In the chart given by Nrisimha, the Maraka lord is aspected by the 8th lord, whose sign is symbolised by the arrow (Dhanus) and the demise of the Lord was due to the stroke of an arrow. The arrow was made up of the residue of an iron rod washed ashore from the sea. Maraka Mars and the aspecting 8th lord are in watery signs indicating the ocean. The iron rod was given birth to by a curse on Samba, the Lord's son, and this is indicated by the position of Maraka Mars in the 9th *i.e.*, the 5th from the 5th. The *Mahabharatha* war was also a play of arrows piloted by Bhagavan and the same arrow was the cause of His Swargarohana also" writes reader P. R. Sanathanan Nair of Painkulam.

(In this feature, unusual and interesting events that occur in day-to-day life will be discussed astrologically. They may be about anything — birth, marriage, accident, sport, career, art, farming, weather, animals and the list is endless — so long as it is different from the monotony of life. Readers are invited to send in details of such instances plus relevant astrological charts, dates and the Ayanamsa to: Astrological Miscellany, THE ASTROLOGICAL MAGAZINE, Bangalore 560 020).

Hopes

A reader from Warangal was in Bangalore during March 1991. The question was children. Married in 1980, he and his wife had no children and the promise of the test-tube baby offered by modern medicine was irresistible. A well-known leading gynaecologist of Bangalore made them go through all the tests, and from the wife's ovary were extracted on 8-4-1991 at 9.30 a.m. and kept for fertilisation. The fertilised eggs were transferred to the uterus on 10-4-1991 at 7.30 a.m. The pregnancy check was on 24-4-1991 and it was negative. "We lost leave, time, a lot of money and more than anything that we failed to attain what we set out to. After the treatment my wife's physical condition has gone very bad. She is suffering from body pains, weakness etc.", wails our reader.

Born on 11-1-1951 at 8.30 a.m. IST at Hanamakonda.

Rasi: Cancer - Ascendant; Leo - Moon; Virgo - Saturn; Sagittarius - Sun and Mercury; Capricorn - Venus and Mars; and Aquarius - Rahu, Moon and Jupiter. *Navamsa:* Scorpio - Ascendant; Sagittarius - Sun and Ketu; Capricorn - Jupiter; Aquarius - Moon; Pisces - Saturn; Aries - Venus; Gemini - Rahu; and Cancer - Mercury with a balance of 4 years, 1 month and 12 days of Rahu Dasa at birth.

The Ascendant Cancer of the reader is aspected by Yogakaraka Saturn who also happens to be the 9th lord and exalted in the 7th with Venus. He is strengthened by being in his own Nakshatra. Saturn aspects the 5th house and as 7th and 8th lord, he is of no help. He can destroy or delay the signification of the 5th house.

Considered from the Moon, the 5th house receives the aspect of the Sun, 5th lord Mercury and also of Jupiter. Saturn too aspects the 5th. We see the 5th lords are quite well-placed but Saturn's influence is not favourable. The fact Lagna lord Moon is in the 8th with 9th lord *cum* Karaka also there is a slightly negative factor. But the favourable positions of the 5th lords must also be taken into account. Saturn Dasa runs upto March 1993. Saturn may not help during his Dasa as he aspects the 5th house from Lagna as a malefic. But benefics too influence the 5th house factors. This would suggest the next Dasa which is of Mercury could be more positive in result. But without the wife's complete horoscopic details, it is not possible to be more specific.

The Mandal Scare

"As a graduate in Zoology my cherished ambition was to do my master's course in it. But for reasons I do not myself understand, I discontinued my M.Sc. course and registered for an M.A. in English. I suddenly gave up my studies in English and began to seriously prepare for competitive examinations mainly due to the fear that the Mandal Commission Recommendations would be implemented. I appeared for four or five competitive exams but with no success. Why did all this happen to me?" queries reader C. Rajakrishnan of Chittoor P.O. in Palakkad District.

Born 24-8-1970 at 11 p.m. IST at 10 N 42, 76 E 47.

Rasi: Aries - Ascendant and Saturn; Taurus - Moon; Leo - Mars, Sun and Ketu; Virgo - Mercury and Venus; Libra - Jupiter; Aquarius - Rahu; and Pisces - Moon. *Navamsa:* Scorpio - Ascendant; Sagittarius - Jupiter, Saturn and Rahu; Aquarius - Mercury; Aries - Mars; Gemini - Sun, Moon and Ketu; and Leo - Venus with a balance of 4 years, 0 months and 5 days of Moon Dasa.

Reader Rajakrishna joined M.Sc., in August 1990, discontinued it in September 1990 joining M.A. in October 1990. And after that, his attempts to pass competitive exams did not work. All these changes and unsuccessful attempts came about in Mercury Bhukti of Rahu Dasa. Rahu is well-placed. Mercury is also well-placed but somehow these 2 planets in their periods did not quite help our reader. Simply because they are mutually adversely placed and at the same time, transit Saturn was crossing the 8th house from the natal Moon. Saturn moved out of the 8th house almost a year ago.

The 10th lord Saturn in the Ascendant is aspected by Jupiter who also aspects the Dasa lord Rahu in Aquarius. In Navamsa, Saturn is in Sagittarius with Jupiter. And Saturn happens to be the 10th lord both from Lagna and Chandra Lagna. This influence of Jupiter on Saturn can show a career in teaching. Jupiter, in turn, is in Swati ruled by Rahu which could show proficiency in English. Therefore reader Rajakrishnan's changing over to M.A., English was not really inconsistent with his chart. He can try harder this time, forget about competitive exams and pursue his English course. Mercury's strong position in Virgo and Jupiter's influence on 10th lord Saturn do not rule out a career in journalism and writing. Jupiter, the next Dasa lord, is well-placed and will take our reader places. ✻

Outlook for the Month

DHRUVA

Ancient sages had the vision to realise that events on the Earth do not occur in isolation; they relate to celestial phenomena and planetary movements. Modern scientists, though reluctant to give credence to the ancient astrological precepts, have nevertheless produced voluminous evidence on the correlation of celestial bodies and terrestrial happenings. Establishment of such an inter-relationship existing between the celestial and earthly phenomena, makes the astrological forecasts an eminently valid and feasible exercise. Several factors like eclipses, solar and lunar ingresses, transits of planets through particular zodiacal signs and constellations, and certain planetary groupings are the signposts for anticipating the trends of terrestrial events likely to materialise. Our object in this monthly feature is to note significant planetary configurations and attempt to interpret in broad terms how their influences might manifest on the earth. It must be stressed that such influences must be viewed as likely trends, and no positivism would be in order here. It may be worthwhile to recall the broad parallelism in the events that have taken place during the successive phases of saturnine transits through the sign Capricorn in 1961-63 and currently in 1990-91. The close association of nodal axis, further aggravated by the martial movements triggered the Sino-Indian conflict in 1962 and the West Asian crisis in 1990-91. The fact that on both these occasions the events were astrologically foreseen, thereby ruling out the element of chance, affirms that Astrology as a valid predictive science, rests on a sound footing.

The month comes under the shadow of the preceding lunar eclipse of 21st December 1991, occurring in Gemini. Texts say,"High class women, kings and powerful ministers and the like, persons proficient in arts, people living on the banks of Yamuna, people of Balkh, the Viratas and the Sunhas would be affected." This is followed by an annular solar eclipse on 5th January 1992 in Sagittarius, not visible in India. It portends to destroy chief ministers, physicians, merchants, wrestlers, those wielding weapons, the people of Videha and Panchalas. Jupiter turns retrograde in Leo, Purvaphalguni on 2-1-1991, the solar eclipse takes place in Purvashada, and Venus transits Scorpio in Anuradha, thus subjected to the combined influence of Mars and Saturn. The focus of these influences will be on women and artists, inciting passions, and causing suffering and ignominy. Another significant planetary influence is the movement of explosive Mars through the fiery war-like sign of Sagittarius, in the constellation of incendiary Ketu and heading for a conjunction with the malevolent Rahu on 21st January 1992. It has the potential of folding itself in violent, aggressive and disruptive acts, provoking sudden disturbances and threatening national integrity. Further, the solar ingress into the solsticial sign of Capricorn, takes place within the hold of Saturn on one side and Mars-Rahu on the other. It presents a grim situation for the leaders and the masses. The USA, ruled by Gemini, also comes under the focus of these baneful influences. The lunar eclipse taking place just before the winter solstice and Mars-Mercury in square to Jupiter, may excite natural disasters like earthquakes in the seismic belt of western USA and hurricanes in coastal areas.

The New Moon on 5-1-92 at 4h.40m, marking the beginning of the lunar month Pushya has 19° Scorpio rising* at New Delhi, occupied by two natural benefics Venus and Mercury, but vitiated by their lordship of the 12th and the 8th. The Ascendant lord is posited in Moola, ruled by incendiary Ketu, occupant of the 8th. This does not hold promise for the stability of the Nation, which is put to further stress by the disposition of the majority of planets in the 6-12th axis in the Navamsa. It may come under

Predictions Through Jaimini's Chara Dasa—I

K. N. RAO, I.A.A.S. (RETD.)

In the highly successful All India Conference of the ICAS on September 21st and 22nd, 1991 I conducted over a session in which students of Chapter I (Bharatiya Vidya Bhavan), Delhi, presented their research in what turned out to be rather tough. A night before that astrologers from Andhra had told me that even in Andhra Pradesh, Jaimini was not used popularly. Combining Jaimini with Parasari, as done in many *sutras* of *Jataka Ratna* of Mahadeva, needs to be restated if our researches are to become in-depth, more accurate, multi-dimensional and wide enough to interpret modern complexities of life.

To popularise Jaimini Astrology should be our common aim now. Combining it with Parasari can be done very easily by well-known Jaimini experts like Messrs. Iranganti Ramacharya and P.S. Sastri, though I think that they must have been doing so for their predictions as DR. B. V. RAMAN has often done.

But combining both, fusing their principles into each other is very effective and very useful. It is what I have taught my students and that what they showed in their research studies compiled in the book released on the occasion "Advanced Techniques of Astrological Predictions".

In this series how such techniques work actually will be shown on some subjects. And it is bound to be tough though I will try my best to make it as simple as possible.

As a prefatory remark I must tell here that the students that join Astrology classes in our Bharatiya Vidya Bhavan come from high professional groups like doctors, engineers, bank officers etc., besides highly placed officers in government and semi-government offices. Their one demand can be expressed thus: In the 1991 summer the peculiar viral fever which became epidemic in Delhi was defying medical diagnosis. Was it simple viral or malaria or typhoid? In such cases where the temperature never touched normal for four or five days and the blood count went down, doctors, through elimination, could establish it as typhoid. So three questions spring from this:

(a) Is there no astrological method of such elimination?

The answer is : Through multi-pronged, statistical research it is done in Astrology.

(b) The area remaining after such elimination may be the area for focussing astrological attention, is the second question. The answer is that all experienced astrologers come to this area with ease because the Mahadasa and Antardasa shows where we must look for an answer.

(c) In spite of this why is there difference of opinion between and among astrologers is the third question. The answer is as in a medical diagnosis so too here it happens in Astrology.

Then what should be done? The answer is to introduce more sophisticated astrological tests and make a start somewhere. That is what is being taught and being done in our classes and in this series of articles.

To start with some simple principles of both Parasari and Jaimini are being taken up. The difference in Jaimini calculations worked are being explained as a preliminary introduction first.

(a) Chara Dasa for both male and female sexes is done in the same way and not from the 7th house in the case of females.

(b) No extra addition is given for exalted planets and no extra deduction for debilitated planets.

(c) In the case of Scorpio and Aquarius where there is dual ownership, a planet associated with more planets is stronger. When Mars and Ketu or Saturn and Rahu are alone, their strength is decided according to their longitude. The longitude of Rahu or Ketu has not been taken in the reverse way.

In the first instalment some marital events are being taken up as experience has shown me that the majority of astrologers are interested in marriage and marriage-related problems. We received as many as ten papers on marriage for the souvenir for our All India Conference.

Data to be prepared

The data to be prepared for this over-simplified approach is shown in the first illustration only. Here mark the following:

(a) The Darakaraka, Upapada and the Darapada (Rahu is not taken into account at all by us for any Karaka, as if calculations are done upto seconds, there is never any confusion for choosing the seven, not eight, Karakas.

(b) But mark the Rahu/Ketu axis and their aspects according to Jaimini methods on different Rasis.

(c) Mark the Lagna and the 7th houses of Lagna and Navamsa.

(d) In the Vimshottari Dasa scheme mark the Darakaraka's periods.

(e) In Jaimini scheme mark the Darapada Rasi and its lord.

Take only these five factors and proceed to analyse.

The First Illustration

The marriage took place in March 1972, in Kumbha-Dhanus. Kumbha receives the aspects of Darakaraka, Mercury and Rahu for our purposes here, though Saturn, Moon and Jupiter too aspect it. Kumbha is the 7th from Darapada and Upapada and is Navamsa Lagna. Dhanus is the 7th house of the birth horoscope.

Vimshottari Dasa

Ketu - 12-7-1947 to 14-7-1953 and Venus - 14-7-1973.

In Vimshottari it was the Dasa of Venus, a natural Darakaraka and Antardasa of Mercury, Jaimini's Darakaraka.

It is the horoscope of a couple. The marriage took place on September 29th, 1974.

In Thula-Kataka the marriage was settled before the end of 1974. Kataka is the 7th house of both birth and Navamsa Lagnas. Simha has Upapada.

In Vimshottari it was the period of Moon-Mars (Darakaraka).

	MOON 0° 10	KETU 10° 14	VENUS 27° 43

The Third Illustration

The marriage was settled in Mesha-Mesha which contains Darakaraka and in Meena (7th from Darapada) Mesha the marriage took place.

In Vimshottari Dasa it was Venus-Rahu period. Rahu qualifies to be a marriage-maker in two ways. It is associated with 7th lord and it is also aspected by the Darakaraka. Venus is the 7th lord in Navamsa.

The Tragedy

This horoscope does not promise a long married life. In June 1980 her husband died in air accident in Meena which is the 7th from Darapada and Kumbha which is the 8th house from Lagna, the 6th house from Darapada and has retrograde Mars.

In Vimshottari it was Venus-Mercury period. Venus is the 6th lord from Upapada in the 7th house and Mercury is the 6th lord from Darakaraka.

			RAHU 22° 16
	Darapada	MERC. 5°30 VENUS 24° 39	SUN 14° 22

The question put to me was if this man, an Indian in a foreign country, was married. My answer was if he was not, he was definitely in love with a foreign girl and would be forced to marry before 1990 was over. In Vimshottari he was running Jupiter Dasa, his Darakaraka and Saturn Antardasa, 7th lord for this Lagna. Then the Mars-Saturn axis along the 6th and 12th houses shows the compulsion in such a marriage.

In Jaimini, the period of Dhanus, containing Darakarakas began in 1988 and in 1990 (from 1989 actually) two sub-periods are Mithuna, the 7th from Darakaraka, Vrishabha, 7th from Darapada and Darapada is also Navamsa Lagna. So the Vrishabha sub-period is showing marriage in two ways.

The Fifth Illustration

Compare it with the third illustration. Marriage took place in May 1984 in Kumbha-Vrishabha. Here Kumbha period has been given 7 years as the longitude of Rahu is more than Saturn's. Both Kumbha

JUP.(R) 10° 39	Female: 4-10-1962 at 4.50 a.m. Sat.: 6-0-22		ASCDT. 17° MARS 2° 20 RAHU 13° 35

and Vrishabha are aspected by Darakaraka, Mars and Rahu.

In Vimshottari it was Mercury-Saturn period, Mercury being the Navamsa lord of the 7th house and Saturn of Lagna, a love affair of three years resulted in a hurried marriage.

The Tragedy

In Kumbha-Dhanus her husband died a violent death. Dhanus is well known in Jaimini Astrology for such incidents. *The point that needs stressing here is: Not taking one extra year for exalted Mercury and by not taking extra one year's deduction for Mars and Moon.* But Rahu's longitude decides the seven-year period of Kumbha and the seven month sub-periods bring us exactly to Dhanus when the tragedy took place.

In Vimshottari it was Ketu-Mars which needs no explanation.

Summary

The identity of the natives have not been disclosed. I have called it an over-simplified approach. Actually when a prediction is to be given, particularly as in the tragedy that struck in the third and the fifth illustrations, fuller details should be prepared and the event cross-checked.

Detailed work in the beginning leads to the habit of looking at an event from various angles and is more elaborate than the best of a medical diagnosis. Then when a point of saturation is reached sound predictions can be made with lesser details. Then it is like an experienced doctor's clinical diagnosis. At this stage or at any intermediate stage intuition helps in getting the right prediction. But even without intuition an astrologer should be able to focus his attention on the right spot in a horoscope. That is the advantage of learning more and more astrological techniques. Parameters for Judging Horoscopes

H.R.SHANKAR, B.A.

In Predictive Astrology, there are a number of systems and thousands of dicta to work with. When an event not foreseen from an earlier study occurs in life, there is a tendency to explain away such happenings by smugly attributing to some remote factor. As a logical explanation it cannot, of course, be faulted; but apparently it offers conviction. It appears more as a cover-up for inadequacies of techniques in usage rather than a soul-finding investigation. In effect, one is often left with a sense of being 'cheated' when all the time he was waiting for and looking forward to learn and be enlightened from an exposition of nuances of the art of prediction from such discussions. This proves most exasperating particularly for keen and enthusiastic students with a scientific background. 'Scientific temper' demands that parameters be laid down for judging horoscopes, so that technical discussions do not stray away into elusive corners and confuse the issue. Once the discussions are bound, it is argued, to specific pre-selected systems the problem would get resolved as the delineation would proceed on a scientific basis.

But squaring a circle is never a solution. What is overlooked here is that the concepts and criteria of parameter and predictive technique are as apart as square and circle have no common factor to equate them. A parameter is a "constant limiting factor"; whereas, a predictive technique is a "working tool". It is therefore neither feasible nor scientific to lay down any kind of restriction on the range and variety of tools to be used by an artisan. It is simply not done. On the other hand, a worker should have complete freedom to draw any tool with which he is adept and the one he considers as best suited for the task on hand. In fact it is even desirable that he be provided with facilities to improve, improvise and adopt the available tools in a way to obtain better efficiency and greater accuracy in workmanship. Our problem in actual practice is with the quality of "workmanship" and not with "working tools". In looking for a solution by restricting the range of working tools, the 'scientific temper' is divorced from the wisdom of common-sense and is caught in a 'Mental trap'.

Setting up of standards in the methodology of delineation of horoscope is evidently a scientific approach in the right direction. The criterion of formulating parameters is to examine and compare the quality of 'Output' *vis-a-vis* a predetermined standard. The quality of output, in turn, is entirely dependent upon the quality of 'input' and 'workmanship' that goes into it. A working tool is merely a means to an end; to assist in attaining better workmanship. Therefore any attempt at standardisation needs to start at the level of 'input'.

In the context of horoscope delineation, the birth-data and astronomical data such as planetary longitudes are the input. Workmanship is the interpretative skill of the astrologer while the output is the delineation and prediction. Astrological *sutras* and formulae are the working tools. It is obvious that mere shuffling of working tools is no real solution to our present problem. Should the 'input' of birth-data and astronomical data be erroneous then the astrological projection as 'output' would necessarily be garbage. This being the case, it is beyond one's comprehension as to how casually and unprofessionally the birth data is being regarded in the course of serious technical discussions. Instances are too many to cite any specific case wherein horoscopes are drawn for different dates and different times of birth relating to the same person and events in life are explained away nonchalantly. Is it not much more damaging to the cause of Astrology when events are astrologically inferred and justified based on totally wrong birth data? As if there is a compulsion that horoscopes are to be discussed somehow or other, there is a tendency to hastily draw charts without verifying birth data based on scanty and unreliable data — tendency which, apart from being most unscientific, is deplorable. Therefore, the very first step towards standardisation of methodology of horoscope delineation is to ensure that the birth data is vouched for; to desist from using either suspect or assumed birth data. It is understandable and can even be said to be an inherent trait that even a well-judged prediction could go wrong

at times. But if a prediction based on an entirely wrong horoscope were to turn out correct, it would be blasphemeous. It cannot be termed an astrological prediction by any means.

There is a sound reason as to why an astrologer often gets 'foxed' with suspect birth data. This is because of the prevailing practice to alter the date of birth at the time of admission to the school to bring it within the range of school admission rules. The original birth date fades to make room for the school certificate date for all civil purposes. It is therefore necessary to verify the birth data with the hospital records or with the original "Janma Patrika" that is traditionally cast when a child is born. When the birth data recorded in terms of Hindu calendar of Tithi, Maasa and Samvatsara is available, it would generally be reliable as there is little scope for errors to creep in or for 'doctoring' the data. When it comes to verification of birth time we get stumped as there is no feasible means of cross-checking except to rely on the time furnished. Astrological guidelines on rectification of birth time is the only means open, which is not only a complicated exercise but not all that reliable. However, accuracy of birth time assumes its importance only when an in-depth study is to be undertaken to go into minute details. For general purposes of obtaining an outline-projection of a life-pattern, a counter check from Chandra Lagna would suffice to keep the delineation on rail.

Even the most accurately recorded time of birth would have no astrological relevance, should the birth be by delivery under caesarean section planned in advance of setting-in of labour pains, marking the natural process of ejection from the womb. Because, there is a cosmic time-link between the conception time and the time of natural ejection of baby from the womb of the mother. Astrologically, it is the conception time that is linked with the working of Destiny forces; and our approach to this is through the birth time. In the case of caesarean section the time-link gets snapped and with that the astrological clues get smudged. Consequently, we would be chasing more often red-herrings than real clues in interpreting horoscopes of caesarean births.

Having ascertained the correct birth data, the next step is to ensure that it is accurately transcribed into astronomical data. In its essence, the birth horoscope is a recording of birth in units of cosmic time computed in terms of cycles of planetary orbit. With the advent of computers, accuracy of astronomical data is now ensured. Accordingly the correctness of horoscopic data would be directly commensurate with the accuracy of date and time of birth of which it is a converted version. In usage, the planetary longitudes are computed under different systems, namely Tropical (Sayana) and Sidereal (Nirayana) which apparently differ in values. Though they differ in their definition, both refer to the same 'cosmic time' marking birth. It is like two different thermometer scales with graduations, one in terms of Celsius units and the other in units of Fahrenheit and both defining equally accurately the freezing point and boiling point of water. As long as one is adept in reading the scale and interpreting the units, it presents no problem whatsoever, no matter which scale is used. Otherwise, it is however bound to end in considerable confusion, as in the case of a price-tag marked on metre length basis and the measuring rod used being a yardstick. Similarly in Astrology, the Sayana and Nirayana charts define the same birth in cosmic time as accurately as the other. For instance, if you work back the astronomical data you will arrive at the exact time and date of birth as described according to Civil Calendar. The system of interpretation of horoscope symbols is well laid down in each case. As long as there is no mix-up or interpolation between the two methods, there is no reason for confusion or controversy. There is a need to lay down parameters in this area to ensure that discussions are kept within the framework of the respective schools and the interpretations do not stray into areas of the other school. We should bear in mind that Hindu predictive methods are oriented to interpret births recorded under Nirayana system of planetary positions. It is therefore imperative that the work-bench need necessarily be of a Nirayana model to take the Hindu predictive tools. By corollary, tools designed for use on other models of work-bench are better avoided. Once we adhere to these simple guidelines, we could easily skirt areas of controversy and confusion.

In judging horoscopes, Janma (Natal), Prasna (Horary) and Muhurta (Election) have a common approach and methodology. Most areas are interchangeable. Yet there

very significant subtle difference between one another. Notations in each horoscope symbolise the past karma and mark those forces which are mature and scheduled to fructify during the present life. Accordingly we concerns with only those factors which are destined and irrevocable. We look for clues in a birth horoscope to know all about the potency of Sanchita Karma, namely, past karma awaiting fructification. Basing our inference on these clues we anticipate and project the results against the backdrop of Kala, Desa and Patra which give them the final form. But the birth horoscope leaves untouched the present Karma; the actions from birth till the desired moment during the present life which when extremely powerful could also transform into a working force to give corresponding results. This result being independent of the results brought about by past Karma could obstruct or augment the destined results. We look for clues to the working of present Karma forces *i.e.* of Agami Karma and ascertain its potency from the planetary position in the Prasna chart. Prasna starts where birth horoscope halts; and Prasna chart does not concern itself with the working of past Karma *i.e.* Sanchita which is accounted only in Janma or birth chart. Though it is the outcome of Karma forces that instigates or triggers man into action, there is no compulsion that he need react at all or react in any predetermined manner like an animal or a robot. Man is endowed with a unique attribute — the Will Power. He is free and capable of initiating action on his own. In his wisdom he can act in a manner that would work to his best advantage: or in his ignorance act in a way that would prove detrimental to him. This freedom is, however, limited to whatever action he initiates instead of reacting instinctively to the happenings brought about by destiny forces. The Muhurta chart offers clues to the possible alternate outcome of any activity initiated at different times. Guided by the foreknowledge of the possible outcome of an action, he can elect the most appropriate time to initiate action that would culminate in his advantage. A Muhurta chart does not concern itself with the destiny of an individual, either past or present. It concerns itself with the outcome of a possible future action yet to be initiated or considered for initiating. There is nothing specific or certainty involved. The three dimensions of Time, namely, the past, present and future have been synchronizingly brought into play through the three charts Janma, Prasna and Muhurta. The past is irrevocable and what is destined as revealed in the birth chart will fructify as scheduled within the framework of Kala, Desa and Patra. The formative present is revealed in Prasna, which takes over from where Janma has left. The Muhurta briefs on the possibilities of future actions to be initiated. In judging the horoscopes, the kind of weightage to be given to each of these categories assumes significance. Any indiscretion in this regard may prompt even a scholar to unwittingly draw absurd inferences like "Late Sri Rajiv Gandhi was married in February 1968 when Jupiter was transiting in retrogression in Makha" as an astrological factor for death: This comes from an erroneous notion that Muhurta can override Destiny; lopsided weightage given to Muhurta.

What is maddening to most ardent students is the tendency of scholars to keep shuffling from one method to the other or contradicting one dictum with another and in general lacking in consistency in their approach. For instance, it is an acknowledged astrological dictum that an exalted planet in Kendra or Kona is good placement in a chart. During the course of discussion it will be brought out that exalted position of Venus does not conduce to Raja Yoga results in his Dasa. Venus Dasa is good if placed in the 8th or the 12th house irrespective of Lagna. Similarly, for instance Jupiter, another benefic, placed in the 9th in its exaltation sign as lord of 2nd and 5th for Scorpio Ascendant is held not conducive to Raja Yoga results in its Dasa; or for the same Lagna when placed in the 5th in own house will not give a son. Such riders certainly prove a nugget in making quick judgment of horoscopes; but they happen to contradict general principles and thus cause confusion to one who is not aware of the rider. There are thousands of dicta and a number of methods in our ancient predictive literature that it is like a large storeroom stacked with all kinds of predictive tools. Just as there cannot be one single "Do-All" tool that can perform every conceivable task in a workshop, so also there is no dictum that could be equally applicable to all births under all conditions. Though we have a wide range and variety of predictive tools, what is missing is an instruction card on "when and how to use it". Take for instance the Ashtakavarga method. It is like a sophisticated multi-slide

gadget of a tool. But the manner in which it is presently in usage is like using a surgeon's instrument for sharpening a pencil. For want of proper know-how, much of our bequeathed predictive tools are discarded; for the same reason, even those that are in use are not yielding results expected of them. Under these given conditions one practical approach for tackling the problem apparently is to experiment with as many tools as one can learn to handle and record the findings with a view to establish the applicability, utility and limitation in performance of these predictive tools. Such an exercise would ultimately lead to proper classification of the tools facilitating easy selection of the appropriate tool for the task on hand. Many research scholars are experimenting in their own way and placing before other interested workers, their findings in the form of papers which are being published. This accounts for the kind of shuffling of tools and shifting from one method to the other observed in their papers. When viewed in this light, the idea born of `scientific temper' to lay down parameters limiting the discussions confined to specific methods or systems would be a retrograde step. The present need is gain of knowledge on the use of the existing predictive methods effectively and this can only be achieved through experimenting with more and more methods.

Research and experimentation could make little progress when they tend to get bogged down in controversies because of deep-rooted notions already in currency on usage of many of the dicta which are in fact distorted versions such as Sade Sathe, Kalasarpa Dosha, Kuja Dosha and the like. Similarly issues of great consequence in judging horoscopes such as the nature and strength of exaltation, debilitation and combust planets are embroiled in controversies consequent to surfeit of erudite interpretations divorced from wisdom. However, in the final analysis it emerges that all the *sutras* formulated by successive scholars over the years flow from the basic concepts of Karakatwa of Rasi, Bhava and Graha and they are explanatory notes and elaborations on the significance and implications of these basic concepts as found true to their values and environment; and of course to the extent of their own understanding. This being the case, as a first step in the research program, we may take up controversial issues and hold on to only such interpretations that dovetail with original basic ideas of Karakatwa which is bound to place us on firm ground in judging the horoscope. With sifting of "vitals" from the "trifles" the controversies presently ranging over interpretations of different *sutras* melt and resolve themselves.

All said and done, it is an undeniable fact that there is no substitute to instructive faculty in any area of knowledge, be it science or creative arts. This is all the more true when it comes to investigative disciplines where one has to come to grips with elusive probabilities. The discipline of Astrology that has to cope with vagaries of human behaviour and activities is the most elusive of all. This being the case, it would be an uphill task to attain any degree of proficiency without being endowed with that unique faculty — intuition.—116.91.

IMPORTANT ANNOUNCEMENT

It has become necessary for us to reluctantly increase the price of THE ASTROLOGICAL MAGAZINE, **effective from January 1992 issue**, because of the abnormal rise in the cost of production - news-print, printing charges, postage, etc.

It is hoped that the esteemed readers will appreciate our difficulties and continue to encourage us as hitherto.

Planets and the End of the Twentieth Century

DR. R.S.L. SRIVASTAVA, M.SC., PH.D., F.N.A.SC.

The Atomic Age in the twentieth century was ushered in by Neils Bohr when he disclosed in the year 1914 his concept of the structure of the hydrogen atom. Three decades later, Otto Haan succeeded in manufacturing a couple of atom bombs which were dropped on Hiroshima and Nagasaki of Japan in August 1945, causing enormous loss of life. Very often I have wondered why the scientists disclose to the politicians secrets of Nature which can be used for the destruction of humanity. Alfred Nobel regretted having discovered the explosive T.N.T. Yet he established a Trust for the award of Nobel Prize to the scientists for their outstanding discoveries without ensuring that these shall not be used for harming the world. **It is desirable that all awards for scientific discoveries should be abolished forthwith so that scientists do not have to rush to make their discoveries public. They must act in a responsible manner to ensure that the secrets discovered by them are used for the good of humanity and not for its destruction.**

Today, a stage has been reached when an intelligent science student of even twelfth standard can make an atombomb provided he is supplied with enough enriched bombgrade uranium. Besides the five Super-powers, which possess arsenals of nuclear weapons, it is suspected that South Africa and Israel have also joined the Nuclear club. Pakistan, Iraq and Libya are striving hard to acquire nuclear

capability. These are evil symptoms for the survival of the world. In this context, it seems that the ground for the prophecy of the French saint Nostradamus for the end of the twentieth century has already been laid. His prophecy is frightening. Thus, he forecasts* that following the two eclipses that will occur on July 28 and August 11 in 1999, there in the month of October a great translation made so that the Earth will seem to lose the weight of its motion in an abyss of endless darkness. There will be premonitory signs in the spring, and there will be extreme changes, overthrows of kingdoms and earthquakes. Though modern science has made great strides in many fields of human endeavour, the study of earthquakes, floods and volcanoes, made in the light of the gravitational and magnetic strains and stresses of the Sun, Moon and planets, is still in its infancy and as yet almost nothing is known about it. For judging the effects of planets on our environment due to their relative positions with respect to the Earth, we have to depend on the ancient science of Astrology. Accordingly, I propose to analyze the planetary configurations in the months of July, August and October, 1999 in accordance with the Nirayana system.

Planetary effects should be examined in a certain preferential order. Foremost is the path of eclipses, *viz.* the regions on the Earth traversed by this path. This point will become clear if a study of planetary positions is made with reference to Japan for early August 1945 when that country was devastated by atom bombs. The question is why Japan and not some other country? The next in order are the charts corresponding to the solar ingress and the end of the full Moon (Poornimanta). Depending on the rising signs, these charts would differ from one region to the other. Hence the effects on different regions would also be different.

Nostradamus' forecast indicates that there will be a change in the axis of the Earth following the two eclipses in July and August, 1999. This change could be man-made or due to natural causes. Nuclear bombardment can bring about such a change. Now that a nuclear war is not ruled out, it has become necessary to warn the politicians about a secret I have known for more than two decades. I hope world opinion would develop against the use of nuclear energy for any purpose whatsoever. It is known that from time to time the Earth changes the inclination of its axis. The fossil remains from Alaska show that the region had once a warm climate. This means that Alaska must have been nearer to the Earth's Equator of that period by (say) 30 degree latitude. A change in the present inclination of Earth's axis by 30 degree can bring Alaska back to its former position. This change can be made by digging two tunnels in opposite directions very near the present North and South poles respectively at right angles to the Earth's axis. Nuclear missiles of predetermined strength can then be fired simultaneously in these tunnels in opposite directions so as to generate a couple, or torque, which will tilt the present axis of the Earth by a desired degree. It is also possible to cause man-made earthquakes by underground nuclear explosions. Developed countries of the west, particularly U.S.A. have the resources and the technical knowledge to translate the above ideas into practical reality. It is therefore requirement of time that the rulers of some Asian countries, particularly the Middle East, should desist from going in for nuclear armament. They should get together and put moral pressure on nuclear powers to destroy their nuclear arsenals for ever.

The Rasi charts are given at the end. Chart I corresponds to the solar ingress on 17.7.1999 at 01-34 hrs (IST). It shows that five planets Mars, Mercury, Uranus, Neptune and Pluto are retrograde. This is not a good sign for Earth's environment. The sign of Taurus (1-39') rises in the Ascendant at Delhi, whose ruler Venus is posited in the 4th house in Leo in the constellation of Ketu. Retrograde Mars and Pluto aspect the Ascendant from the 6th and 7th houses respectively. Mars and Saturn stand in opposition to each other in the 6th and 12th houses respectively. The 5th lord Mercury, retrograde in Cancer, occupying the Navamsa of Mars, is posited in the 3rd house with the Sun and Rahu. Thus, there is a clear indication that the population in India will suffer due to an environment of war. However, I do not foresee a calamity of the order forecast by Nostradamus at this juncture since Jupiter, though weak, still aspects the Ascendant lord Venus and also the 8th house in his own sign of Sagittarius. On the other hand countries inimical to India would suffer defeat due to Mars-Saturn axis.

Chart II corresponds to *Poornimanta* on 28.7.1999 at 16:58 hrs (IST). It is on this day that a partial lunar eclipse will occur with the Moon posited in Capricorn. This sign of Sagittarius (8-9') will be rising in the Ascendant at Delhi with no Graha posited in Kendra. The Sun-Moon axis involves the 2nd and 8th houses joined by Mercury, Rahu and Uranus, Neptune, Ketu respectively. The situation shows a deterioration in relation to the solar ingress on 17.7.1999. Yet due to Jupiter's aspect on the Ascendant a major calamity is not foreseen at this stage.

We now analyze Chart III corresponding to the full solar eclipse on 11.8.1999. The mean of the eclipse will correspond to 16.45 hrs (IST). It will be visible in India, Iran, Iraq, other countries of the West, North Africa, Europe, eastern coast of the American continent. At this hour 14 of Sagittarius rises in the Ascendant at Delhi with the Sun, Moon, Mercury and Rahu occupying the 8th house in Cancer. There is no Graha in the Kendra position. The 2nd house is posited by Ketu, Uranus and Neptune, all retrograde in Capricorn and aspected by Mars in Libra in the 11th house. This configuration indicates further deterioration not only for India but the world in general. The saving feature is the situation of the Ascendant lord Jupiter in the 5th house in Aries from where he favourably aspects the Ascendant. As lord of the 4th house posited in the 5th house, Jupiter indicates expansion of Indian influence on the territories of other countries. No major calamity for India is indicated at this time. Usually, the effect of eclipses is visible after two to three months of their occurrence. We shall therefore analyze the planetary positions in the month of October 1999 with respect to solar ingress in Libra followed by *Poornimanta.*

Chart IV corresponds to solar ingress in Libra on 17.10.1999 at 22 hrs. (IST). Mars, Jupiter, Saturn, Uranus, Neptune remain retrograde. At Delhi, 10-30' of Gemini rises in the Ascendant with Uranus, Neptune, Moon and Ketu posited in the 8th house in the sign of Capricorn adversely aspected by retrograde Saturn who is in debility in the 11th house in Aries, Retrograde Mars aspects the Ascendant from the 7th house. This configuration is very inauspicious. It indicates much loss of life and property which could be caused by rise in the level of sea-water. Coastal areas in the whole of South Asia might get submerged in water.

We now take up Chart V corresponding to *Poornimanta* on 25.10.1999 at 02-38 hrs (IST). The planetary configuration shows some improvement over the previous ones starting in July 1999. Though Jupiter, Saturn and Uranus still remain retrograde, Mars and Pluto improve their positions. Leo rises in the Ascendant in Delhi occupied by Venus - Uranus and Neptune conjoin the 6th house. The Rahu-Ketu axis involves the 12th and 6th houses. The Ascendant lord Sun's debility gets cancelled. Jupiter is in conjunction with the Moon and Saturn in the 9th house. Hence the worst situation will be over in October 1999. India will still survive with victories over evil powers. The above analysis reveals that as the world approaches the end of the twentieth century, it will have to face a period of extreme trial and tribulation. Many heads will roll down in the garbage of history with no one to remember them in the twenty-first century. A few years back who could imagine that the statues of Karl Marx and Lenin wouldbe pulled down and disgraced in Russia — a country which raised the banner Marxist socialism. Incidentally, it would not be out of place to mention that in a mathematical analysis carried out by us more than two decades back and published in a research journal of the United Kingdom in 1973 under the title '*A Mathematical criterion for a stable government*' we had drawn some conclusions on the stability of a government which promised to work for the welfare of the people. Though few scholars in India would care to know about this paper, the topic got a listing for a talk by this scribe in the World Congress of Mathematicians held at Vancouver, Canada in 1978. Among the conclusions that follow from our analysis, two could be mentioned here as they have a bearing on the end of the twentieth century. From the analysis it follows that Marxism cannot succeed in a country whose resources are incompatible with the population of the country. This conclusion is now indicated by what has happened in U.S.S.R. recently. While Marxist socialism is being buried in Russia, its end does not seem to be far away in China. According to the 2nd conclusion, the path of capitalism is a path of no return. This path must terminate in a natural or man-made calamity which now appears to be approaching very fast. As regards India, nobody will even care to hear

about Marxism at the doom of the twenty-first century. India will be the torch-bearer of a brand of socialism which can be better described as 'Ram Rajya' in which classes in society still exist but there is enough enlightenment so that no man thinks of exploiting the other man on any count whatsoever. The motto is 'Earn more and give more'. The orientation for this brand of socialism is provided by 'Dharma', *viz.* a consciousness of right deeds and proper code of conduct. In a communist state, there is lack of orientation and incentive for hardwork. Consequently, when production falls short of people's basic requirements, they want a change. In a capitalist state, the motto is earn more by giving less. Thus there is exploitation of one class by the other. This leads to building of tensions in society of which the outcome is war. Thus, it will be wrong to conclude that there will be no war after communism is gone.

I shall end this write-up by analyzing briefly the planetary situations with reference to some other countries. While planetary longitudes on different dates remain the same as given in the charts at the end as per IST, the rising signs in different cities could change as shown in Table 1.

A glance at planetary positions relative to the Ascendants rising in different cities in the given table shows that the period July-August 1999 is not so unfavorable for the countries of the North and South American continents, South Africa, U.S.S.R., as for China, South Asia and Australia. Charts corresponding to the period 17-25 October, 1999 are unfavourable for Argentina, Brazil, Australia, China, India, Iran, South Africa. The path of eclipses passes over some coastal regions of the Mediterranean sea. Planetary configurations on 25-10-1999 are not auspicious for San Francisco and Moscow. We thus find that the 2nd half of October 1999 is inauspicious for almost the whole world. Coastal regions of the Mediterranean Sea, Middle East, South and West Asia are likely to be ravaged by war which will affect the whole world. There could be a rise in the level of sea-water leading to inundation of coastal areas of all the five continents. Use of nuclear bombs could lead to a rise in temperature which might melt the polar ice caps causing sizeable loss of life and property.

To sum up we notice that the prophecy of Nostradamus for the end of the twentieth century cannot be ignored though there could be a difference in the enormity of events. That there will be noticeable changes in the environment of the Earth is astrologically certain. These changes could be caused by nuclear war or by gravitational hazards leading to enormous loss of life and property. But I do not anticipate total extinction of the human race. There will be enough people left around to usher in the "Age of gold" as predicted by Nostradamus. Still steps must be initiated now to save the human species. Modern science has reached that stage when it can certainly protect human race from extinction due to natural or man-made calamity. In fact, it is not impossible to give birth to children of dead couples. Though it may not conform to our aesthetic sense, the technology of test-tube babies can be used for this purpose. The life generating male sperms and female eggs can be extracted in advance and preserved for transplantation in a donor's womb. This requires the technique of safe preservation and transplantation which is already known to medical scientists.—8.91.

On Rahu and Ketu and Their Dasas—I

BUELL D. HUGGINS

I

The lunar nodes, Rahu and Ketu, receive little attention from the Western astrologers. Some astrologers in the United States and Germany insert Rahu but omit Ketu in their charts; but most of the prominent astrologers, including the late Cyril Fagan (who became a siderealist), Alan Leo, Charles E.O. Carter, Marc Edmund Jones and others — omitted them altogether though the ephemerides always give Rahu's (the north node's) position.

Rahu and Ketu are associated with solar and lunar eclipses and for this reason alone they should make one pause to consider their significance. Hindu Astrology has always accepted them and made them virtually the equal of the luminaries and planets.

The conjunction of the Sun and Moon causes a New Moon or solar eclipse or both, if there is an eclipse, in which case Rahu will be within a few degrees of conjoining the Sun. Thus Rahu combusts the Sun and if there is an eclipse, it causes darkness.

The opposition of the Sun and Moon causes a Full Moon or a lunar eclipse or both, if there is an eclipse, in which case Ketu will be within a few degrees of conjoining the Moon. Thus Ketu combusts the Moon, but the Full Moon causes lightness whether there is an eclipse or simply a Full Moon.

Hindu Astrology has always considered Rahu and Ketu to be intrinsically malefic, Rahu more so since Rahu causes darkness during an eclipse which Ketu causes lightness. Rahu and Ketu can give benefic results only under certain conditions, as explained later. The Western notion that Rahu is a benefic like Jupiter or Venus is quite wrong.

Rahu rules over the asterisms (stars, Nakshatras) of Aridra (Gemini), Swati (Libra) and Satabhisha (Aquarius) which correspond to Mercury (intellect), Venus (pleasure), and Saturn (ambition and sorrow), respectively, and these three planets are therefore friends of Rahu. Unless there are counter-influences, Rahu in Gemini (and Virgo), Libra (and Taurus), and Aquarius (and Capricorn) should give good results in its Dasa and Bhukti and surprisingly, often without regard to the house occupied, for Rahu does not rule houses but rather gives the results of the planet whose sign it is in, or the asterism it is in, along with any planet or luminary Rahu conjoins or is aspected by.

Ketu rules over the asterisms Aswini (Aries), Makha (Leo), and Moola (Sagittarius), which correspond to Mars (courage), the Sun (soul) and Jupiter (wisdom), respecitvely, and these three planets are therefore friends of Ketu. Unless there are counter-influences, Ketu in Aries (or

Scorpio), Ketu in Leo, and Ketu in Sagittarius (and Pisces) should give good results, like Rahu above.

Rahu has the nature of Saturn and if in the 10th from Lagna makes the native ambitious. Again, like Saturn, Rahu makes the native's fearful. Ketu has the nature of Mars and makes the native bold, particularly if in the 3rd house from Lagna or Chandra Lagna.

Rahu Dasa lasts 18 years, nearly as long as Saturn's and Ketu the same as Mars or 7 years. Rahu rules one's paternal relatives, while Ketu rules over the maternal ones. Rahu or Ketu in conjunction with the Sun or Moon or Lagna of a close relative indicates a Karmic connection.

Among other things, Rahu is associated with snake-bite, lizards, cancer, falls from buildings or while mountain climbing, imprisonment, banishment, foreign travel, and suicide after considerable thought and reflection. Ketu rules over such matters as sudden accidents in cars and airplanes, interest in religion or philosophy, and sudden suicide without much reflection.

Rahu and Ketu are Chaya-grahas (shadowy planets) with little intelligence and serve as pupils or messengers, carrying out orders from the planets, luminaries, and asterisms they are involved with. For example, suppose Rahu is in Pisces in the 6th house but in the asterism of Saturn and the Lagna is Libra. If the longevity is good and the native of suitable age, Jupiter, lord of Pisces, gifted with intelligence and acting as adviser, will order Rahu to give the results of Yoga-karaka Saturn, since Jupiter is a malefic for Libra and cannot give Yoga unless in a favourable asterism.

As natural malefics, Rahu and Ketu will do better ordrinarily if in the 3rd, 6th, 10th or 11th houses—the Upacharya houses (houses of growth and increase). In the 10th, however, Rahu, like Saturn, does better because the 10th is the house of profession. Ketu lacks *sthana bala* (positional strength) in the 10th. The 6th house is a *dusthana* (trika) house as well as an Upachaya house. The *dusthana* houses (6th, 8th and 12th) are almost always bad and if Rahu in the 6th is aspected by a malefic, it will be seriously hampered in yielding the otherwise good results during the Dasa. But Rahu or Ketu in any house aspected by a malefic from any house, unless the malefic is the Lagna lord or Yogakaraka, will detract from the good results.

II - Factors to Consider

While there can be little argument over Rahu and Ketu's friendly signs, there has been so much difference of opinion regarding the exaltation, Moolatrikona and Swakshetra signs that it is probably better to disregard them. Parasara and others said Rahu is exalted in Taurus; Bhrigu and others said Gemini; and the Yavanas said Scorpio. The opposite sign is usually, but not always, regarded as the debilitation sign. Parasara may be right, though Rahu in Libra, also ruled by Venus, does well, too. Rahu in Gemini has been found to give excellent results and Rahu, as well as Ketu, in Scorpio has given surprising results. Likewise, Aquarius and Capricorn, friendly signs rarely mentioned even though their ruler, Saturn, gives Rahu's nature.

The fact is that several factors are involved and must be considered —the sign (constellation), asterism, house, whether Rahu can function as Yoga karaka or confer Raja Yoga from Lagna or Chandra Lagna through sign or asterism, the planet conjoining Rahu or Ketu, and even the presiding deity.

Since Rahu combusts the Sun one would expect dire results if Rahu is in Leo or the Sun's asterism but this is not always true. Rahu in Leo can give good results. In the asterism of Krittika and Uttarashadha, ruled by the Sun, Rahu is frequently very bad and Ketu generally does better in the Sun's asterism. In Uttaraphalguni the other asterism ruled by the Sun excellent results have been noticed.

Ketu combusts the Moon, yet Ketu in Cancer or the Moon's asterism is not necessarily bad though Rahu in the Moon's sign or asterism is usually better. The house position seems to be very important when Rahu or Ketu is in one of the "unfriendly" signs.

III - Rahu's Dasa

For examples or illustrations perhaps it is better to begin with Taurus (Rahu's exaltation sign according to Parasara).

James R. Edgar[1] Republican was elected Governor of Illinois on November 6, 1990 in Rahu Dasa Jupiter Bhukti and inaugurated on the same on January 14, 1991. He has a Gemini Lagna and an Aries Chandra Lagna. Rahu is in the 12th from Lagna and 2nd from Chandra Lagna, and in the asterism of Mars. The Bhukti lord Jupiter in Virgo aspects Rahu. Here Rahu gives the results of Venus, the sign his Rahu is in, not the asterism Mars, because for Gemini Lagna Venus as ruler

confers Raja Yoga. He did the election by a landslide, and his opponent Mr. horoscope will be given "Ketu's Dasa". The solar July 22, 1990 (his birthday) put Mr. Edgar over the much as politicians and are greatly influenced by and this eclipse hit his Sun

will be noticed that the house for Rahu in Taurus-a from Lagna and a Maraka from Chandra Lagna—was in Mr. Edgar's case. This first of several horoscopes herein showing that when or Ketu) is in a friendly sign, position matters little.

Shirley Temple[2], the child had a Scorpio Lagna and Chandra Lagna, with Rahu in the 7th from Lagna and from Chandra Lagna and in Moon's asterism. Her birth was altered by the wood movie bosses, but she the correct data in her recent biography.

Her acting career began in 1932 at age 4, without having had dramatic training, and from 1934 to 1939 she was at the top in box office appeal. By 1940 she had earned thirteen million dollars. Rahu in Taurus gave the results of Venus, lord of the 5th from Chandra Lagna (Venus gives Yoga for Gemini) and Venus is exalted in the 10th and conjunction Jupiter in Pisces.

Congressman Daniel Rostenkowski[3] of Chicago, Illinois, has a Libra Lagna, Moon in Aries and Rahu in the 8th in Taurus in the asterism of Mars.

He was first elected to Congress on November 4, 1958 in the Moon's Dasa, Saturn Bhukti. The Moon is in the asterism of Venus, ruler of Lagna, and Saturn is Yogakaraka. He continued to get re-elected, but received little national attention or recognition until he became Chairman of the powerful House Ways and Means Committee in 1981 in Venus Bhukti of his Rahu Dasa, which commenced in 1970, so that the first half of his Rahu Dasa was marked by troubles due to the aspect of Mars on Rahu. Saturn also aspects Rahu, but Saturn is Yogakaraka and not harmful, whereas Mars is lord of the 2nd and 7th (Maraka houses).

As his Rahu Dasa began he was rejected for Assistant Majority Leader ("Whip") of the House of Representatives, and two years later was refused a seat as Illinois delegate to the Democratic National Convention. In 1974 he lost control of Committee assignments, in Jupiter Bhukti, but made a comeback in Saturn Bhukti the following year. In 1978 in Mercury Bhukti he had trouble getting bills passed favourable to his Party. Thus, his Rahu Dasa, with Rahu in Taurus, has had its ups and downs though he remained in Congress.

John Chancellor[4], long-time news reporter and television anchorman on the NBC (National Broadcasting Company) "Nightly News", has a Taurus Lagna and Sagittarius Chandra Lagna. Rahu in Gemini in the asterism of Mars is in the 2nd from Lagna and 7th from Chandra Lagna. Rahu in Gemini gives the results of Mercury in the

3rd (journalism, news reporting). He reached the pinnacle of his career on August 1, 1970, when he was appointed NBC Anchorman in Rahu Dasa, the Sun Bhukti. No doubt his previous Mars Dasa was good because from his Chandra Lagna Mars as lord of the 5th gives Yoga and Rahu was in Mars' asterism also, but it was Rahu in Gemini, giving Mercury's results that made him well known nationally in Rahu's Dasa.

Arthur J. Goldberg[5] had a Cancer Lagna and Sagittarius Chandra Lagna, with Rahu in Gemini in the 12th from Lagna and 7th from Chandra Lagna — a *dusthana* and a Maraka house. Venus, a natural benefic, but a malefic both from Lagna and Chandra Lagna, conjoins Rahu. Yet it was during his Rahu Dasa (1956-1974) that he served as General Counsel (lawyer) for the United Steelworkers Union, was Secretary of Labour in President Kennedy's Cabinet, Associate Justice of the United States Supreme Court, and United States Ambassador to the United Nations. However, he was defeated for Governor of New York on November 3, 1970.

Speaking before the United Nations Security Council on May 29, 1967 (when the Arab-Israel dispute was before the Council) Ambassador Goldberg said: "The issue of war or peace lies not in our stars but in ourselves." That was 24 years ago, and "ourselves" has not settled the matter, either.

Goldberg died January 19, 1990 in Jupiter Dasa, Rahu Bhukti. Jupiter is in the 2nd, and Rahu in the 7th from the Moon came back as a Maraka to end his life after having blessed it. The transits on the day of death were most revealing. Ketu transited his Sun, Mars his Moon, and the Sun and Venus opposite his Lagna.

Col. John H. Glenn[6] has a Scorpio Lagna and Sagittarius Chandra Lagna, with Rahu in Libra in the 12th from Lagna but 11th from Chandra Lagna. His Rahu is in the asterism of Mars, lord of Lagna and Vargottama in the Navamsa chart.

On February 20, 1962 he became the first American to orbit the earth in Rahu Dasa, Mercury Bhukti. Mercury is in Gemini, retrograde in the asterism of Rahu, in association with Mars, and in the 8th from Lagna and 7th from Chandra Lagna.

Czar Ivan IV ("the Terrible") of Russia had a Capricorn Lagna and Virgo Chandra Lagna. Rahu in Libra, in the 10th from Lagna and 2nd from Chandra Lagna, gave the results of the dispositor Venus rather than Mars, the asterism Rahu was

Venus was Yogakaraka from

He inherited the throne when ber died on December 13 (NS), This was in Mars Dasa, Mars in the asterism of Venus, the karaka. Only three years old, was unable to rule and was not ned king till January 26 (NS), in Rahu Dasa, Venus Bhukti.

Debilitated Venus conjoins er and the Moon in the 8th, the quadrant system of house sion, but in the 9th if we use the al house method. Venus nction Jupiter in the 8th, using quadrant system, forms an ra Yoga, making him extremely l. He had seven marriages and concubines. He instituted the et Police. He had more than 0 people executed. His Lagna in asterism of Dhanishta also made cruel, fond of hunting and g animals and people.

In the quadrant system his Rahu in the 9th in the asterism of s. Rahu in the 9th (father) in the erism of Mars denotes enmity cruelty in connection with dren. He killed his son Ivan ing a quarrel. His Asura Yoga in 8th with the Moon, lord of the signifies cruelty toward spouse. murdered one of his wives.

His personal astrologer dicted he would die March 18 S) 1584. He had other astrologers m all over Russia and Lapland their views. Feeling better on rch 17 (people often feel better day before they die) he had his sonal astrologer flayed alive with whips and then roasted. Then died the next day, as predicted, in urn Dasa, Rahu Bhukti, both ing in the asterism of Mars, ated in the 7th, a Maraka house.

Aquarius, the third friendly sign for Rahu, is well illustrated with the horoscope of Willy Brandt[8], who had a Pisces Lagna and Leo Chandra Lagna. Rahu in Aquarius in the asterism of Jupiter, lord of Lagna, is in the 12th from Lagna and 7th from Chandra Lagna. Brandt was elected Chancellor of West Germany on October 21, 1969 in Rahu Dasa, Mercury Bhukti, and selected on November 19, 1972 in Rahu Dasa, Venus Bhukti.

Michael J. Howlett[9], Illinois politician and businessman, had Rahu in Aquarius with a Libra Lagna and Sagittarius Chandra Lagna. Both Lagna and Rahu are Vargottama, which is always good. Rahu in Aquarius in the asterism of Rahu (Satabhisha) is in the 3rd from the Moon in the natal chart, and Saturn in the 9th is in the 7th from the Moon. In the Navamsa chart, Rahu is in the 7th from the Moon, while Saturn is in the 3rd from Lagna.

Rahu in Aquarius gave the results of Yogakaraka Saturn and during his Rahu Dasa Mr. Howlett became Vice-President of a steel company and Illinois State Auditor.

The Yavanas said Rahu is exalted in Scorpio. "Nat King" Cole[10], the Negro singer, had Rahu in Scorpio in the 11th from his Capricorn Lagna and the 3rd from his Virgo Chandra Lagna. He rose to fame as a singer in night clubs during his Rahu Dasa and became wealthy from his phonograph records.

Rahu in the asterism of the Sun deserves special attention. Since

Rahu combusts the Sun we might expect dire results. Of the three asterisms — Krittika, Uttaraphalguni and Uttarashadha — Krittika and Uttarashadha are the worst in ill-effects. But in Uttaraphalguni excellent results have been observed.

Gen. John Churchill[11] suffered greatly during his Rahu Dasa, with Rahu in Krittika. He had a Pisces Lagna, Cancer Chandra Lagna, and Rahu in Aries in the 2nd from Lagna and in the 10th from the Moon (Chandra Lagna). Rahu gave the results of Mars in the 3rd (courage and military prowess) from Lagna and 2nd (Maraka) from Chandra Lagna. The Sun in the 3rd from Lagna and 11th from Chandra Lagna is in the asterism of Mars and conjoins Mars. He had Gajakesari Yoga (Jupiter in a Kendra from the Moon - good for political and recognition by the great and famous). However, Jupiter is with Ketu and in the 8th from Lagna. Thus all the good is offset by the bad, causing ups and downs. Mars, the Sun and Saturn go into their own sign in the Navamsa chart, however.

Gen. Churchill's Rahu Dasa began in 1700. At times he had royal favour and was very influential politically, only to be ousted from office or banished after a few years. Ketu Bhukti was the worst (usually the case in Rahu Dasa) and saw him losing his authority, popularity and office and forced to go abroad. His most notable victory had been at the Battle of Blenheim in August 1704 in Jupiter Bhukti, which marked the end of French domination in Eruope and America. In the Moon Bhukti he became ill from strokes, but did not die till Jupiter Dasa.

Erwin Rommel[12], who had a Capricorn Lagna and Aries Chandra Lagna with Rahu in Taurus in Krittika in the 5th from Lagna (government) and 2nd from Chandra Lagna, had a good or at least fair Rahu Dasa. In his case, Rahu gave the results of Yogakaraka Venus as well as the Sun, lord of the 5th from Chandra Lagna. During his Rahu Dasa (1918-1936) he was an army lieutenant in France, Italy and Roumania during World War I, was later an instructor in an infantry school, and then served in World War II.

Patricia Hearst[13], of the famous Hearst newspaper family, had a Leo Lagna, Virgo Chandra Lagna, and Rahu in the 6th from Lagna in Uttarashadha. Her Sun in the 7th from Lagna and 6th from Chandra Lagna is in Rahu's asterism and Rahu is in the Sun's asterism, an interesting exchange of asterisms.

She was kidnapped from her apartment on February 4, 1974 in Rahu Dasa, Saturn Bhukti, but a group of male and female thugs who called themselves the "Symbionese Liberation Army". They gained such an enormous influence over her through threats and intimation that she became a partner in their crimes. She participated in a bank robbery on April 15, 1974. She was on trial in court on January 27, 1976 and sentenced to prison in April. She then faced trial on assault, kidnapping and other charges and spent about two years in prison. Not until February 1979 did her harrowing experiences with violent criminals, resulting in trials and imprisonment, come to an end.

Judgement of a Nativity

B. SURYA PRAKASH

Just as a building on a shaky foundation can come down with the slightest tremor of the earth, so also in any nativity unless the natural strength is there, much cannot be expected out of it. By natural strength is implied the strength due to the combined positions of the Sun (denoting the soul), the Moon (denoting the mind) and Lagna and its lord (denoting the physical body). In other words, even if a nativity has good Rajayogas, if sufficient natural strength is there, then in spite of the absence of these Rajayogas the native will be able to have a fairly smooth sailing in this high sea of life; on the other hand, the chart lacks inherent or general strength then in spite of the presence of any number of Rajayogas the life will be full of ups and downs.

With this background we shall study the following horoscope* 28° of Cancer is rising with Ketu, the middle planet, in exact conjunction with the rising degree. Lord of the rising sign Moon is in the 2nd with the aspect of an inimical Saturn.

The Sun ruling finances is in 12th with a bitterly inimical Maraka Saturn (lord of 7th and 8th) and 12th lord Mercury. In Navamsa the Ascendant is occupied by a debilitated inimical Mercury along with Ketu with the aspect of a natural malefic Saturn, while lord of Lagna, Jupiter, has gone to the 6th, a *dusthana*. Again 2nd in Navamsa is occupied by the 8th lord Venus, while lord of 2nd though in 9th is with 6th lord. Coming to 10th or house of profession, in Rasi we find it being occupied by its own lord Mars. However this good disposition of the 10th lord is neutralized by the Papakartari Yoga to which the 10th house is subject in Navamsa, coupled wth the disposition of its lord in the 6th, a *dusthana*. Karmakaraka or natural indicator of profession Sun is in the 12th with the lords of the 8th and 12th—out of which one of them, Saturn, happens to be a bitter enemy. In Navamsa Karmakaraka Sun, though aspected by an exalted Moon, is rendered weak due to his situation in a secret and reptile sign Scorpio with a natural malefic Mars.

Thus from the above it is evident that except for the disposition of 10th lord Mars in his own sign in Rasi all the other factors pertaining to career, finance and marriage are weakly disposed. From this any shrewd student of this science can say without the slightest hesitation that the native cannot expect much in respect of his career, as well as finances. His domestic life will also be far from happy.

At best, due to the disposition of 10th lord in 10th itself the native can expect to hold a chief's job in a minor department but without any rank or cadre worth mentioning due to the unhappy disposition of 10th house in Navamsa. To corroborate this, as already pointed out, the 2nd or house of finance is aspected by an inimical Saturn with a weak Moon placed therein whereas 2nd lord is in 12th with afflictions from 8th and 12th lords thus indicating a poor state of finances.

But contrary to our expectations, the native—a well-built, fair looking and smiling personality—is holding an enviable executive's position in a technical field—having much to do with locomotives—thus throwing overboard all our superficial conclusions and deductions.

It has been already pointed out that the foremost factor in examining any natus is the *general strength of the horoscope*. It is the pivot on which the entire natus revolves.

Coming to the rising degree, our first factor in the estimation of the general strength of the horoscope, we find that though it is exactly conjoined by Ketu, much of the evil due to this is removed by the close aspect of Yogakaraka Mars on it. Further for Cancer people as far as the general strength of the horoscope is concerned, the presence of Ketu in the Ascendant is not as harmful as one may imagine—since to a certain extent Ketu is symbolical of Mars consistent with the dictum 'Kujavad Ketu'. Again the rising degree falls in the constellation of Mercury who owning 12th is weakly placed due

to his situation in the 12th itself. It need not be stressed here that lords of the 6th, 8th and 12th should be as weakly disposed as possible due to their situation either in 6th, 8th or 12th or in inimical or debilitated signs. And in this case this 'weak position' of Mercury empowers him to do more good. Thus the situation of the rising degree due to the weak disposition of Mercury in the constellation of the latter strengthens it much. In Navamsa, Lagna is rendered weak due to the placement of two malefics Mercury and Ketu in it with the aspect of Saturn over it. Though to a certain extent Ketu's presence in Navamsa is not so harmful as he indirectly reflects the effects of Mars (who happens to be a Yogakaraka for Navamsa Lagna) still the influence of three malefics on Navmasa Lagna is not desirable. Taken on the whole it may be stated that the rising degree is neither too strong nor too weak, but inclining towards good.

The lord of the Ascendant Moon, though in the 2nd Rasi, is in Lagna Bhava itself in a friendly sign. Though he is conjoined with Ketu (Moon is in 5th degree of Leo while Ketu is in 29th degree of Cancer—hence within 6° of an exact conjunction) is within an orb of aspect from Yogakaraka and friendly Mars, thus setting at naught most of the evil influences due to her conjoining Ketu. In Navamsa, the Moon is exalted with friendly aspects from Mars and Sun.

From the foregoing paragraphs it is evident that the rising degree both in Rasi and Navamsa is middling in strength while lord of Lagna, Moon, is fairly well dignified but again hampered due to the aspect of an inimical and malefic Saturn. On the whole, the rising sign is middling in strength.

Coming to the Sun—the 2nd important factor—he is in the 11th, a Badhakasthana with 8th and 12th lords. In Navamsa he may be said to be ordinarily disposed; for though he is in 9th with a friendly Mars and with the aspect of an exalted and friendly Moon, still he occupies Scorpio, a secret reptile sign. In other words, the Sun is weakly disposed.

Since the Moon happens to be the lord of the Ascendant also whatever arguments are applied to him as lord of Ascendant, hold good in his case as an independent indicator of the general strength of the horoscope.

Thus the Lagna (and its lord) and Moon are middling in strength, while the Sun is weakly disposed. In other words, the natus is not lacking in general strength. It can be said to be average but nevertheless sufficient enough to promote the good indications to a fairly appreciable degree. This also gives us the hint that considerable confidence can be placed in the materialisation of the Rajayoga effects. However, it should not be forgotten that the horoscope belongs to the category of *Dridhadridha*.

Next coming to professional career, we find the 10th house is occupied by its own lord Mars. (It should be noted that Mars is actually in his own house and not in Moolatrikona as he has passed the first 12 degrees of Aries.) Further the 10th house is subject to Subhakartari Yoga by being hemmed in between benefics, Jupiter and Venus.

The lord of 10th Mars is strongly placed in his own sign with directional strength; he is also subject to Subhakartari Yoga. In Navamsa he is rendered strong due to his placement in his own sign Scorpio with the influences of Karma-karaka Sun and a Yogakaraka (for Navamsa Lagna) exalted Moon.

Thus both 10th house and 10th lord are fairly well dignified. We shall now analyse the astrological implications of these.

The 10th lord Mars is in his own sign—well placed. This, taken along with the disposition of the 10th house, indicates that the native will reach a fairly dignified and commanding position. Since the 10th house and its lord are both in movable signs, the career will have to be spent at different places with constant travelling. Since Mars happens to be a Yogakaraka and as his Dasa will also be in force at the appropriate period, brightest part in the native's career will be during the Dasa of Mars.

However, it should be noted that Mars is in the constellation of Badhakadhipati Venus. This taken along with the disposition of the 10th lord in 6th (in Navamsa) and the Papakartari Yoga to which 10th in Navamsa is subject—coupled with the heavy afflictions in which Karmakaraka Sun is involved—indicates that the career will be full of frustrations, delays and disappointments in spite of the good position indicated.

Summing, up it can be stated that a detailed examination of the 10th house indicates that mainly due to the disposition of 10th house and 10th lord—in the normal course of events—the native should have

reached dizzy heights in the course of his career. But as the general strength of the horoscope is only average and this, taken along with the afflictions to which Putrakaraka Sun is subject and due to the disposition of 10th lord in the constellation of Badhakadhipati Venus, the afflictions to which 10th lord in Navamsa is subject—all these factors have pulled down the otherwise good indications of the nativity. However as the native has yet to pass through Rahu Dasa and as Rahu is also having Yogakaraka powers due to his placement in the constellation of Yogakaraka Mars and also as he has to reflect the effects of Saturn—who in turn is responsible for a Rajayoga (Vimala Yoga) due to his placement in 12th as lord of 8th (with 12th lord)—still the native has a good distance to cover in his professional career.

Coming to finances: It is seen that though superficially the house of finance seems to be affected adversely as 2nd lord Sun is in 12th with 8th and 12th lords and as 8th lord also aspects 2nd, on a closer examination it is found to be situated otherwise.

It is seen that Jupiter, the Dhanakaraka (natural indicator of finances) and a Yogakaraka is in the 8th Bhava actually, thereby powerfully aspecting 2nd from his own sign. Further lord of 2nd Sun is actually in the 11th in the constellation of Yogakaraka and a friendly Mars who in turn is well dignified. And finally, lords of 11th and 1st are in their respective Bhavas. According to classical authorities like Kalyana Varma, Parasara, Gargi etc., if lords of 2nd, 11th and 1st are either in 11th, 2nd, 1st or in their own Bhavas (not necessarily in their own Rasis) or aspects as it indicates much financial prosperity. This is applicable to this nativity. Lord of 11th is in 11th; lord of 2nd is in 11th; and lord of Lagna is in Lagna Bhava itself with the aspect of Yogakaraka, well-dignified and friendly Mars. Thus all the factors pertaining to finances are well disposed. This assures financially the native will be "well above sea". Again it will be of interest to note that the situaton of lord of 4th in her own sign and the 4th Bhava having the aspects of Mars (Grihakaraka and a Yogakaraka and lord of 9th, Jupiter coupled with the disposition of lord of 4th, Venus in the constellation of lord of Lagna) has given the native good landed property.

The disposition of the 7th house is extremely interesting. The 7th is occupied by the reptile Rahu (in exact parallel conjunction). Lord of 7th Saturn is in 11th under full malefic influences further subject to combustion. All these dispositions indicate that 7th house is one of the worst afflicted in the natus. But the facts are otherwise here also.

On a more detailed examination we find that Kalatrakaraka Venus is in her own sign in the constellation of lord of Lagna, Moon—a feminine planet. This coupled with the aspect of Jupiter on Venus in Navamsa has given the native a dignified, faithful and good looking wife (Moon aspecting 7th) though a bit temperamental (Sun-Saturn conjunction). Except for some occasional temperamental differences, the married life is quite happy. Consistent with the dictum that 'when lords of Lagna and 7th are near each other the native will be married quite early we find here lord of 7th Saturn and lord of Lagna Moon only 45 degrees apart. This made the native marry at the comparatively early age of 13.

However, the situation of Kalaktrakaraka Venus in a Badhakasthana and that of 7th lord with his bitter enemy Sun and 12th lord Mercury again in badhakasthana and this, taken along with placement of Rahu in 7th in the constellation of fiery Mars with the aspect of Moon, has got its own tale to tell.

The 5th house denoting issue may be said to be fairly well disposed as 5th lord Mars and Putrakaraka Jupiter are well dignified in their own signs. This assures considerable prosperity to children. Nevertheless, the aspects of three malefics Sun, Saturn and Mars on 5th and that of Saturn on Putrakaraka Jupiter coupled with Cancer rising very much restricts the number of issues. For keen students of this science the 5th and 7th houses of this nativity present many interesting aspects particularly from the aspect of Saturn from 11th on both 5th and Putrakaraka Jupiter.

The other important aspects that may be noted in this natus are the charming and smiling personality of the native with winning manners due to the disposition of the Moon in the Ascendant as its lord: Ruchaka Yoga caused by Mars due to his occupation of a Kendra identical with his own sign from Lagna the Malavya Yoga caused by Venus due to her placement in 10th from Moon identical with her own sign and Adhi Yoga caused by Jupiter due to his disposition in 8th from Moon.

This natus serves as a very good example to show that how superficial and hasty judgement, which is uncalled for, only leads into confusion and errors. It is also a good example to demonstrate how seemingly well-disposed 'innocent' planets can cause much damage according to their rulership and how equally afflicted and "mischievous" planets can give very good indications.—108.(FOR-8-62)

Navamsa and Transit of Planets

C. S. PATEL

Kerala scholars have contributed many valuable treatises to Hindu Astrology. Amongst them, the most outstanding and unique one is *Chandrakala Nadi* (देव केरलम्) introducing many rare concepts. One such technique is *Navamsa transit* of planets. Secrets of Navamsa transits are hidden in *Nadi granthas*.

Transit is a very important and reliable tool in timing events in the life of an individual. Navamsa transit is a transit of a heavenly body through the zodiacal arc of 3° 20' known as Navamsa or quarter (*pada*), mainly of slow-moving planets such as Saturn, Jupiter, Rahu, Ketu.

In the scribe's earlier articles transit results through the Navamsa with "Use of the 64th Navamsa in Prognostication" (*A.M.* Annual Number 1985;) and Navamsas occupied by natal planets in the "Nadi Principles Behind Saturn's Transit" (*A.M.*, Annual Number, 1988.) have been exhaustively dealt with. There are quite a few verses in *Chandra Kala Nadi* whose correct import has eluded the grasp of many research scholars till date.

In this article an attempt is made to bring to light one more such method of transit, hitherto unnoticed by scholars, from *Chandra Kala Nadi* Volume1 page 301 - verses 3018 to 3023 (same versus are again repeated in Volume II - Part I - pages 56-57 versus 465 to 470).

The constellation through which the Moon is passing at the time of birth of a native is reckoned as the first star and is called *Janmarksha*; the 10th star from that is called *Karmarksha*; and the 19th one from that is known as *Adhanarksha*. There are three series of nine asterisms each in the zodiac, totalling 27 stars. Their order is from Janma star (occupied by the Moon at birth).

Rahu Dasa at birth 10 years, 6 months and 3 days.

The circular diagram has explained many times before in previous articles. Each sign is divided into nine equal parts of 3° 13' each, known as Navamsa, which are numerically marked to represent signs occupied by them. Each asterism of 13° 20' is divided into four equal parts of 3° 20' each known as pada or quarter or charan as 1st, 2nd, 3rd or 4th quarter of a star. In short, asterism, its quarters and Navamsa sign position of a transitting or natal planet are noticed in no time from this diagram.

In the example horoscope, the Moon is 6-12-13 *i.e.*, in Swati asterism 2nd quarter (Capricorn Navamsa in sign Libra). So Swati 2nd quarter is known as Janma-taramsa. The second star from the Moon star, Visakha, is Sampat star and its 2nd quarter is known as Sampat-taramsa. The third star from Swati is Anuradha star and its 2nd quarter is known as Vipat-taramsa. Similarly, all the 2nd padas or quarters of all the remaining stars may be termed according. It will be convenient to arrange them in a tabular form as below:

The author Sri Achyuta gives much importance to transit of a planet through a quarter *pada* only in preference to the full transit through a star. Thus from the Table it will be observed that in the above circular diagram all the 9 Taurus Navamsas, all the 9 Virgo Navamsas and all the 9 Capricorn Navamsas are result-oriented. Similarly in all charts under study, quarter-Navamsa whichever it may be, occupied by the Moon at birth and its trine Navamsas are to be considered only, in all totalling 27 quarters *[padas]* charanas-Navamsas.

Change of residence due to rise in status, job, or line of activity; rise in income; success in endeavours; travel; pilgrimage; gain of land and property; monetary benefits; good fortune; alround improvement in status and living; opening of new sources of income; reward; appreciation; marriage, birth of child and the like.

Malefic result:

Dishonour, sorrow, trouble, hatred, failure in business, trade etc.; threats of intimidation; enemies and troubles through them; loss of property; misunderstanding with own people; wound; sickness; health troubles; disease; hospitalisation; wasteful expenses; fear and anxiety; frustration; loss of position and status; grief; ill-health; chronic illness; mental depression; probable death and the like. In short, adverse transit portends results such as death, loss of wealth etc., as indicated in the birth chart. One should ascertain and keep in mind the nature of events and happenings likely to occur in the life of a native.

Jupiter will bestow favourable results while Saturn will bestow unfavourable ones. Rahu will give unexpected, unusual and all of a sudden favourable results while Ketu will give exactly opposite results in the same way. However, the good or bad results will be modified by the simultaneous transits of unfavourable or favourable planets respectively. The transit of Venus and Mercury for favourable results and those of the Sun and Mars for unfavourable results through the *specified quarters of stars* will be useful *to pin-point the probable time of occurrence of events*, during the periods of transit indicated by the four slow-moving planets.

The intensity of the results will vary both on the strength or otherwise of the natal chart as well as of the transiting planets.

While predicting, the astrologer should take into consideration the native's position in life, age, sex, Dasa-Bhukti period, country of origin etc., before coming to any judgement, because all the above-listed results need not materialise at the same time and in all nativities.

Navamsa transits of major planets for the example chart during coming months:- (1) Jupiter will transit Leo, Poorvaphalguni 2nd quarters, Virgo Navamsa (from 4° 20°00' to 4° 16° 40') during retrograde motion from 23-1-1992 to 23-2-1992, Adhana series in Sadhakataramsa. (2) Jupiter will transit the above quarter (item 1) again in direct motion from 5-7-1992 to 24-7-1992. (3) Rahu will transit Sagittarius sign, Moola star, 2nd quarter Taurus Navamsa (from 8° 6° 40' to 8° 3° 20') from 26-6-1992 to 28-8-1992 Janma series in Prathyak taramsa. (4) Ketu will transit Gemini sign, Aridra star 2nd quarters, Capricorn Navamsa (from 2° 13° 20' to 2° 10° 00') from 21-2-1992 to 24-4-1992, Adhana series in Janma-taramsa.

This scribe fervently hopes that research-minded scholars will pay more attention to this old method of Navamsa transit and make further research on this count for the benefit of posterity. The science of Astrology is like a deep ocean. (*Copyrighd reserved*) 150-91 ❊

Reflections on Ramayana — IX

DR. BANGALORE SURESHWARA B.E., M.S., PH.D.

We started the discussion ...ving Sumitra's character, her ...ssible contribution to the ...velopment of the various ...ncepts in *Srimad Ramayana*, ...r commitment to her role as the ...of Dasaratha and mother of not ...y Lakshmana but also Sri Rama, ...rata and Shatrughna. The more ...e tries to understand the story of ...Rama and others in the ...ayana, it seems that one needs ...continue to develop a deep sense ...devotional humility. This ...redient is absolutely necessary ...fully comprehend not only the ...er or external meaning of the ...ry, but more importantly the ...er or the implicit messages that ...culate throughout the story of ...eternal hero Sri Rama. As we ...ve always said to transcend ...ond the written words in the ...t of the *Ramayana*, it is necessary ...have thorough commitment to ...ersorb oneself fully in the story of ...Rama. Our dialogue continues ...ly but surely with the blessings ...Sri Rama. Many readers have ...ed through the columns of THE ...ROLOGICAL MAGAZINE their ...ermost spiritual and mundane ...ings and reactions to the ...logues between the main players ...the story. Many readers have ...influenced to a great extent ...with the result that their spiritual ...experiences have positively moulded their lives. Our understanding will continue to improve only if we continue to share our ideas, regardless of whether we agree with one another on one or more items. It has always been a Vedic tradition that has extended for thousands of years to debate, discuss, and even differ on theological and other aspects of Dharma. This magnificent and ageless tradition is a powerful tool that is possibly limited to Sanatana Dharma among the many world religious thoughts and philosophies of today. It is a double-edged sharp tool that has to be used with utmost care, concern and caution. Even a small slip of this unique tool can be fatal to the spiritual and emotional aspects of individuals and the society at large. Its use must spread knowledge and truth but under no circumstances harm or hurt even a single individual. Therefore, during our discussion if we inadvertently cross the path of decency, dignity and decorum, we need to be courageous enough to acknowledge any transgressions and seek the forgiveness of Lord Rama. One transgression is one too-many and therefore, it is our responsibility to never again repeat—intentionally or unintentionally—the mistake. The strength of Vedic freedom has provided us within the indicated norm of decency and dignity enormous opportunity and permission to go beyond the basic understanding of the story of Sri Rama. Let us all use this enormous strength to continue to fathom the depths of knowledge and understanding that is reflected in a variety of wave-lengths including, and not limited to wisdom, love, attachment, envy, devotion, duty, Dharma, Adharma, desire and despair in the *Ramayana*.

An important theme in the *Ramayana* is the story of the three principal mothers—Kausalya, Kaikeyi and Sumitra. MOTHER! it is a sacred and a sacrosanct word. Sri Rama has indicated to us in clear terms that it is every individual's fundamental duty and responsibility to cherish, honour, and most importantly respect and rever one's mother. This message is etched in stone so that it exists for eternity. Sri Rama by his actions or inactions never differentiated or discriminated his attachment, affections, or responsibilities to either Kausalya, Kaikeyi or Sumitra. Many of us have understood this message of Sri Rama. But, for some this message remains just a text-book matter. It is a sad situation. **Sri Rama wants us to practise it both in spirit and substance. Our worship of Sri Rama implies that we must also imbibe and practise his actions in our day-to-day lives. We fail in our duty if our behaviour towards our mothers is anything but what we learn from Sri Rama's life.** In fact, it would not be appropriate for any individual to worship Sri Rama if that person improperly acts or behaves towards his (her) mother. **Any insensitive attitude or behaviour towards a mother is particularly despicable if the mother is aging and is in the twilight of her life.** The *Ramayana* provides us a unique opportunity

to continue to search our soul and to correct our attitudes and behaviour so that the mother may have some peace at least during her waning or remaining years on earth. **One must make a commitment to honour and respect the mother. No one should denigrate oneself to the level of an animal by abusing the soul that gave one birth and much more.** Sri Rama's behaviour towards Kaikeyi has a universal and timeless message. The only way one can understand that message is by mental and physical actions and not by mere lip-actions. **Rama has clearly demonstrated by his behaviour towards Kaikeyi that there is practically nothing that justifies ignominious behaviour towards a mother or a parent.** Our understanding of the *Ramayana* is nothing if we cannot catch this simple message of Sri Rama. However, there is still nothing to justify Kaikeyi's actions. We have already discussed Kaikeyi in the earlier parts. Before we get back to Sumitra, let each one of us answer two very basic questions. How is the behaviour towards the mother? And how is she treated? The answers will tell us whether or not one has passed the "Sri Rama Test!".

The discussion concerning Sumitra has not been by any means a comfortable one. In fact, it has been an uneasy one not because there is anything to raise one's eye-brow relative to Sumitra's personality and life, but more importantly we have been unable to delve deep enough to get details of Sumitra's silent, sincere and effective contribution to the story of Sri Rama. The available documented information or records do not provide any unusual or novel data. The mind is running somewhat uneasy at the apparent inability—if not lack of enthusiasm or energy—of reaching and understanding Mother Sumitra. Additionally the mind is filled with more and more of questions that are neither simple nor direct. Even at the risk of sounding repetitious, the disturbing and significant questions that practically challenge one's ability to understand the *Ramayana* in its entirety, particularly in regard to Sumitra's role in the greatest epic of mankind, can be summarized into a few fundamental questions. Should one consider Sumitra's role as mother of Lakshmana as a secondary role when compared to the position of Queen Sumitra of Ayodhya? Was she just a minor Queen of Dasaratha with secondary ceremonial and royal roles? Was she just satisfied with practising the highest traditional Vedic ideals of a mother and queen—silent, strong, devoted, dutiful and selfless, but yet in her own way an influential person and personality?

During the dark days at Ayodhya when Kaikeyi successfully launched a palace "coup", based on what she thought were her absolute and undeniable rights, everything appeared to be topsy-turvy. Dasaratha unable to withstand the trauma of Kaikeyi's immoral and unjust demand simply fell apart and literally collapsed. Kausalya's sorrow was like a double-edged cut—mental and physical — resulting from the coupling of Dasaratha's suffering and the imposition of unreasonable and uncivilized conditions on Sri Rama. At this hour of conflict, confusion and concern in Ayodhya, the only person in the inner sanctum of the royal palace who was in a position to do anything to prevent a complete collapse of the Dharma and royal honour was none other than Sumitra. The king, and the two senior queens were in no shape to act decisively, yet in a positive way. One can say, these three principal characters in the palace drama had their own individual agendas. The individual agendas, regardless of whether they were appropriate or acceptable, sort-of-conflicted with those of the other one or two. Sumitra was the only one who could have and did act wisely under circumstances generated by the explosive situation. Unlike others, she had one and only one item in what can be called her agenda—to protect and preserve Dharma. Nothing more! Nothing less! Dharma was under a full scale assault as a result of the manipulations of Kaikeyi. Upto that fateful moment, the long line of Kings of Ayodhya, including Dasaratha, had upheld Dharma at all costs. For the first time in many centuries (and more) of Ikshvaku rule, even if one single mis-calculated reaction resulted as a response to Kaikeyi's action, it would have once for all destroyed the perennial sanctity of Dharma at Ayodhya.

The terrible and traumatic emotions at the moment of up-heaval at Ayodhya raised a distinct but a real possibility that many of the distinguished personalities—including sages, seers and ministers at Ayodhya—may have either misunderstood, miscalculated or overlooked the impact of the successive events on Dharma. Such a scenario was possible because for many nothing was more important

the imminent safety and the of Dasaratha and Sri Rama. the trying circumstances, the welfare of the Empire at ya was neither of concern rest. Sumitra, in her own way, understood that the effect of Kaikeyi's actions easily enflame and burn A scenario that had to be at any and all costs. Life less of then or now, always but exceptional character and from the least expected Contrary to conventional the so-called least expected is not a weak personality. she is a silent worker little with fame or fortune, more interested and even lined in doing the correct or priate thing at that critical to bring back the pendulum to a reasonable level. did not, as expected of such nality, make any public or announcements relative developing situation that distinct possibility of leaving and death at Ayodhya. she was aware that had very little choice but to Kaikeyi's demands, she aware and alert to the something needed to be salvage Dharma. She knew her son Lakshmana at any could lose control of his temper and act impulsively and preserve the rights of Lakshmana's intentions always decent and able. Sumitra was apprehensive that her concern combined with enthusiasm could cloud resulting in such the results of which could be neither pleasant nor desirable, and could even be fatal in the long run. Any hasty act or action could add fuel to the existing emotional fire at Ayodhya. Sumitra was also aware of the extremely close relationship between the two brothers, Sri Rama and Lakshmana. She also knew that because of this divine relationship between the two outstanding personalities, it would not be possible for either of the brothers to be without the other. In terms of model analogy, Sri Rama and Lakshmana were near-perfect "Siamese twins", except they had two separate physical bodies. Lakshmana, in particular, would rather not exist, if he had even to be away from Sri Rama for a moment or two. Therefore, Sumitra concluded, under the circumstances at Ayodhya, it would be in the best interests of all and Ayodhya for Lakshmana to accompany Sri Rama and Sita. Sumitra was an excellent judge of people and, therefore, was least concerned at the future of the Empire at Ayodhya. She knew that, regardless of Kaikeyi's attempts to influence Bharata, he would be the perfect match to restore Dharma to its rightful place at Ayodhya. Dharma, under Bharata would be complete with glory and honour. More importantly he would also be an ideal catalyst for regrouping and strengthening the positive forces that were momentarily weakened by the Adharmic action of Kaikeyi. Needless to reiterate, that behind the smoke-screen of events at Ayodhya, the real heroine was none other than Mother Sumitra. Or Queen Sumitra? Or both?

May Lord Sri Rama's blessings be upon all! *(to be continued)* ✪

Upagrahas

L. NARAYANA RAO, M.A.

With the discovery of the trans-saturnine planets, the task of the astrologers—chiefly the occidentalists—became more difficult. They had to examine and find out what were the influences of planets—Herschel, Neptune and Pluto and more to follow. They had to lay down for the information of students as well as of the astrologically-minded persons certain set principles in delineating the character and effects of these planets on individuals and mundane affairs. It is not the aim and purpose of this article to enter into any details of these ultra-saturnine planets.

When we now turn to Hindu Astrology the learned Rishis of yore have stuck to the seven planets upto Saturn but have included the lunar nodes—Rahu and Ketu—as having some intimate connection and influence on human individuals, countries and large-scale events.

The readers will agree with me when I say that the influences of the slow-moving planets are slow and take some time before their influences take a concrete shape; their effects are not sudden and impetuous but slow and pronounced. The need for evolving methods by which events of sudden importance or ephemeral character, and of quickly developing nature could be predicted was felt. As is won't of them, the ancient learned people have not lagged behind. They have left for the sake of posterity a good amount of literature in this field. This they have achieved by means of certain auxiliaries of planets called Upagrahas. It is unique and original in conception, and shows the wonderful resourcefulness of the Hindu Sastragnas.

These auxiliaries which will be used to indicate Upagrahas are not heavenly bodies of matter like the primaries, revolving about themselves or about the Sun in definite orbits, in the sense we know of the planets of the solar system. Even the lunar nodes cannot be located in space as they are more notional than imaginary; in other words, their positions can be derived with reference to certain observed phenomena. This feature is not peculiar to lunar nodes alone but also to the nodes of the planetary orbits. Nevertheless, the positions of the nodes of the planetary orbits (other than those of lunar orbit) are not put to any use in Hindu Astrology, except in determining the defeat of planets in planetary fight or *graha yuddha* a feature unknown to the realms of Western Astrology.

The Hindu System of Upagrahas considers the following auxiliaries, nine in number, corresponding to the lords of the seven weekdays and the two lunar nodes:

Planet	Auxiliary
Sun	Kala
Moon	Dhuma
Mars	Parivesha
Mercury	Ardhaprahara
Jupiter	Yamakantaka
Venus	Vyathipata
Saturn	Mandi or Gulika
Rahu	Indradhanu
Ketu	Upaketu

(NOTE: There may be some local variations in the names of these auxiliaries, about which readers need not worry much).

The auxiliaries Gulika, Ardhaprahara, Yamakantaka and Kala form one group. While the rest Dhuma, Parivesha, Vyatheepata, Indradhanu and Upaketu belong to another. They are not of any counteracting influences but the difference lies in the method of calculation. The former group has for its basis of calculation only the weekday under reference while the latter has no reference to the weekday. The position of the Sun is next necessary for both these groups. From this, it will be clear that certain points from the Sun become critical or important positions as they are influenced by Upagrahas. While with the former group, certain points from the true sunrise or true sunset get excited by the presence of the Upagrahas, and this coupled with the week day in question; the latter group merely have their critical positions from the Sun's position alone, without taking notice of the weekday. This scheme is thus designed to give very minute details of the planetary influences by the conjunctions, oppositions or aspects of the auxiliaries.

I shall now give out briefly the method of calculation of arriving at their positions. The only data required are the day of week, the true Sun's longitude at the instant, the duration of the day or night at the locality under consideration

...ending as the instant of reference ...during day or night.

For any day of 12 hours ...ation (30 ghatikas), the following ...the moments of rising of the ...lowing planets separately for day ...and separately for night (N)—as ...bited in the columns.

	Kala		Ardha-prahara		Yama-kantaka		Mandi (or Gulika)	
	D	N	D	N	D	N	D	N
Sunday	2	14	14	26	18	2	26	10
Monday	26	10	10	22	14	26	22	6
Tuesday	22	6	6	18	10	22	18	2
Wednesday	18	2	2	14	6	18	14	26
Thursday	14	26	26	10	2	14	10	22
Friday	10	22	22	6	26	10	6	18
Saturday	6	18	18	2	22	6	2	14

These figures denote ghatikas from sunrise or sunset.)

Easy Way of Remembering

(a) *Kala*: He is considered as the son of Sun; so on Sunday in the daytime, his rising will be at 2 ghatikas.

Ardhaprahara: He is considered the son of Mercury; so on Wednesday in the daytime, his rising will be at 2 ghatikas.

Yamakantaka: He is considered the son of Jupiter; so on Thursday in the daytime, his rising will be at 18 ghatikas.

Mandi: He is considered the son of Saturn; so on Saturday in the daytime, his rising will be at 2 ghatikas.

(b) The ghatikas follow this cyclic order whether in the day or night.

(c) The rising ghatikas for the night will be the 5th, in the cyclic order, counted from the figure for the day.

Example: Day rising 2, night will be 14. Day rising 10, night will be 22 and so on.

Example: For a given date, at a given place, the local sunrise is 6-20 a.m. and local sunset 6-0 p.m.; let it be assumed it to be a Wednesday; let us work out the time of rising of the weekly planets.

Kala—on Wednesday his rising time is during day 18 ghatikas and during night 2.

Duration of day = 11h. 40m

Duration of night = 12h. 20m

Correct time of day rising from true local sunrise:

=18/30 x 11h.40m.

=7h.0m.

Add local sunrise = 6.20

Day rising = 1.20

During night:

Correct time of night rising from true local sunset:

= 2/30 x 12h.20m.

=0h.491/3m.

Add local sunset = 6.0

Night rising = 6.49 1/3

Like this, all the four auxiliaries who depend on the day and the week can be worked upon to get at their true times of rising—diurnal and nocturnal. Having got the exact moments of their rising, we have only to find out the true Nirayana longitude for that instant. The zodiacal positions thus got will show the exact location of these auxiliaries in the Rasi Kundali and Navamsa Kundalis.

In respect of the other group of the auxiliaries who do not depend on the weekdays, their positions are got as follows:

(a) Take the true longitude of the Sun at the instant: Let it be

3s 16° 37'

Add* 4s 13 0(x)

The result is Dhuma 7s 29 37

(b) The supplement of this *viz.*, 4s 0° 23' will be Vyatheepata.

(c) The opposite of this will be the position of Parivesha

= 10s 0° 23'

(d) the supplement of this will be the position of Indradhanu

= 1s 29° 37'

(e) Add 17° to the position of Indradhanu when the position of Upaketu will be obtained. It will be 2s 16° 37". This can be also got by subtracting one sign from that of the Sun.

*x is a constant figure denoting 4s13°.

With the positions thus worked out draw two charts showing the Rasi and Navamsa positions, with Rasi Lagna and Navamsa Lagna. Of all the Upagrahas, Mandi is the most familiarly known and widely used. The next mostly known is Yamakantaka. The rest are not so extensively known.

Mandi has for his own houses Kanya and Dhanus. Makara for his exaltation and Kataka as his debilitation. His friendly signs are Libra, Aquarius, Pisces and Gemini, while the inimical signs are Taurus, Aries, Leo and Scorpio.

Effects of Mandi in the Twelve Houses

First house.: Cruel, thief, mannerless, devoid of knowledge of the scriptures, lean, devoid of impressive sight and attractive eyes, not very intelligent, of limited issues, gluttonous, not happy, extremely sensual, short-lived, cowardly, not of a sociable temper, easily excitable, fond of picking up quarrels.

Second house: Tactless and careless in speech, quarrelsome, bereft of family wealth or lands, fond of living in strange and foreign places, disputing nature.

Third house: Separationist tendency, strong, infatuation, with power, angry, bent on money-making and hoarding by foul means, easily forgetting sorrow, likely to kill his brothers and sisters.

Fourth house: Devoid of friends, relations, houses or conveyances.

Fifth house: Undecisive and vacillating, with short-lived children.

Sixth house: Killer of enemies by cruel means, a practitioner of witchcraft and demon worship and allied magic arts, having a warrior-like son.

Seventh house: Qurrelsome and having many wives, chiefly of low caste and of ill-repute, doing things not generally liked by the people of the world, thoughtless actions.

Eighth house: Bad eyes, mouth, teeth and short body.

Ninth house.: One who is abandoned by elders, the respected and preceptors due to his irreligious and heterodox methods.

Tenth house: Fond of committing sinful acts only and adding to his sin thereby. One who opposes good actions and places obstacles in their fulfilment.

Eleventh house: Happy children, intelligence and personal impressiveness, purity.

Twelfth house.—Poor, spend-thrift.

Effects of Mandi with Planets

With Sun: Bad to father. *With Moon*: Bad to mother. *With Mars.*: Quarrelsome and separation from brothers and sisters. *With Mercury*: Epileptic. *With Jupiter*: Devoid of virility. *With Venus.*: Fond of women of ill-repute or one who lives through women. *With Saturn*: Difficulties, sickness and short-lived. *With Rahu*: Suffering from some deadly diseases and infection, fear of being poisoned. *With Ketu*: Fire accidents, electric shocks.

The association of Mandi with the rest of the planets is always baneful.

Yamakantaka.: Just as Mandi gives bad results, Yamakantaka gives good results as Jupiter.

Ardhrapraharna.: Gives effects like Mercury, when placed in a benefic house and benefic Navamsa. Otherwise he is bad.

The rest of the Upagrahas are generally bad. When in location in the various Bhavas or with their lords, they give generally bad effects.

The general characteristics of the rest of the Upagrahas are as follows:

Dhuma.: Gives wandering often not useful, extremely heated constitution, fire troubles, mental agitation and mortfication with disappointments.

Vyatheepata: Fear from wild animals, death due to quadrupeds.

Pariveshu: Fear from water or afraid of watery places, sickness due to water-diseases, confinement in cold and watery places.

Indradhanu: Accident due to fall from a height or fall of boulders from mountains, building collapses, wounds and sharp cuts.

Upaketu: Slips and falls, poisons, murders.

Certain Special Features of Upaketu

First house.: Likely to shorten life; *Second house*: Unpleasant countenance; *Third house*: Grabbing nature; *Fourth house*: Unhappy; *Fifth house*: Loss of children; *Sixth house*: Excited over trifles; *Seventh house*: Loss of energy in the company of bad women; *Eighth house*: Bad traits of character being exposed; *Ninth house*: An opposer of virtuous acts; *Tenth house*: Fond of foreign travel; *Eleventh house*: Gains; *Twelfth house*: Full of defects.

Kala has the effects of Sun in the various twelve houses.

Example Horoscope

The effects of these planets are felt during the periods of the planets in whose house they are situated or with whom they are associated. These generally give the effects of their parents, chiefly with special stress on the qualities described in the foregone paras. The essential dignities of these auxiliaries (except Mandi) are not known but it will not be unreasonable to take the 5th house from the corresponding ones of their parents, as their essential dignities. There is ample scope for research in this matter and I leave it to the learned readers to make further contributions in this regard.

Mandi has special uses: (a) *In determining doubtful Lagnas.*—The Lagna, if it cannot be decided, then that sign which happens to be trine to that occupied by Mandi is fixed as the Lagna.

(b) *In Horary Astrology.* Finding out diseases due to infection, food poisoning, evils of black arts, treachery and deception, pollution and death of near relatives.

(c) *Fixation of longevity.* 1. The Rasi and Amsa occupied by Mandi will give the Rasi in whose trine Saturn and the other malefics bring about the death of the native during their transits.

2. Find out Lagna *plus* Mandi *plus* Sun and after deducting circle of 12 signs, take the lord of that sign and find out where he is located. That sign or its trikona when transited by the general malefic planets will give the period of death.

3. Calculate Mandi *minus* Saturn. Find the Rasi and Navamsa positions. The time when Saturn transits these signs will be the probable end of the native.

Find the Drekkana occupied by the sum of the Dhumadi Panchagrahas. The time when Saturn and malefics transit that sign will be indicative of death.

These planets, though invisible, sometimes take their appearance in some form.

Dhuma: A smoky appearance in sky.

Vyatheepata: Meteors, falling stars.

Parivesha: Formation of halo about the luminaries.

An illustration of these principles will help (see above).

Indradhanu.—Rainbow on rainy days.

Upaketu.—Comets

All these are indicative of bad to the world and perhaps, no mundane predictions can be complete or faithful without taking into account their auxiliaries or Upagrahas.—FOR-1-55.

How Saturn's Transit of Capricorn Affects India

CHANDRAKANT S. KOTHARE

Saturn's transit in Capricorn has always been a very crucial and important period in the political, social and economic life of India. Every time Saturn entered Capricorn, it brought about results which taught us a useful lesson. How India learned it, is a matter of historical analysis. When India sensed the steps of destiny and learned the lesson correctly, it helped her emerge victorious and triumphant, but when she failed to appreciate the direction of destiny, Saturn, the great but a very stern teacher, made her learn the lesson, by severely punishing her. This paper attempts to trace the history of India in the last one and half century to prove the above premises and explore how India should learn to assess the directions of destiny correctly and derive the maximum benefit out of the opportunity that Saturn presents in the form of various situations.

Saturn-Jupiter conjunction of 1842 is a destiny builder conjunction for this country and the horoscope erected at the time of the conjunction would indicate the pattern of the destiny for two centuries from the year of the conjunction. This conjunction took place in the sign Sagittarius. Sagittarius represents religious, spiritual and cultural aspirations and unless these are fulfilled, India cannot have real peace and prosperity. The horoscope of this conjunction as cast for New Delhi is given below.

Horoscope of Jupiter-Saturn Conjunction

ASC. 29°4' PLU. 27°24' URA. 0°10'			
MARS23°38'	RASI		MOON 7°55' KETU

JUPIT. 17°4'42" SAT.			

This conjunction took place on 26.01.1842 at New Delhi--Time at 11 *A.M.* ST. (Balance of Dasa of Saturn:13 years 9 months and 17 days). It took place the 10th house of the horoscope. A cluster of planets is spread over in the 10th and 11th houses. Mars and Uranus are in the 12th though in different signs. The Moon afflicted by Rahu-Ketu axis indicates the helplessness of the people.

When Saturn came in opposition to the conjunction, the war flared up on 10-5-1857. On this day Saturn was in Gemini 18°. But the anger against the Britishers was simmering right from 1842. Indian sepoys broke out into mutiny in 1842 in Bengal, in Sindh in 1844 and then in Bihar and Punjab. But these mutinies did not have political overtones. In the meantime, however, other factors were building up political bonfires in different parts of the country. Lord Dalhousie's "Doctrine of Lapse" under which no prince was allowed to adopt an heir without the permission of the British, extinguished many princely states. At the same time the British started interfering in the internal administration of the Indian states. This inflamed the aristocratic class. Thus two elements—political and military—coalesced in the Revolt of 1857. This revolt cannot be termed a national revolt.

Jupiter is in the Nakshatra of Venus (lord of 3rd indicating document—Doctrine of Lapse and 8th house—indicating inheritance). Venus is in the Nakshatra of the Sun (lord of 6th house representing defence and working class; the Sun is in the Nakshatra ruled by the Moon (lord of 5th placed in 4th and naturally representing the mind of the people; the Moon is in the Nakshatra ruled by Saturn (representing ruling class of princely states and 12th house representing secret activities). Saturn again is in the Nakshatra ruled by Venus. Further Mercury, ruler of the 4th house is also in the Nakshatra ruled by the Moon. Thus people (4th house), army (6th house) conjoined with aristocratic class represented by Saturn (11th house) in secret alliance (12th house) collided with foreign powers (9th lord Mars is also in the Nakshatra ruled by Jupiter), who were virtual rulers of India (10th house). The revolution, however, failed because Jupiter was

placed, being in his own Jupiter in this horoscope presented two factors—religious elements as well as the British, by position and by placement respectively. Having explained the above, let us see yet another interesting factor of this horoscope explained very well by Dasas. The 1857 revolution not only finished princely rulers, it also ended the rule of East India Company and the power was assumed by the British Crown. If this was the immediate result of what started in Saturn Dasa, can be presumed that when Jupiter Dasa started (in 1940) the rule of the Crown itself would end, and precisely this was what happened. India became independent in 1947. This is explained by this map without taking into consideration the Independence horoscope. Take for instance the 1971 war. Mars was retrograde in Capricorn and Uranus was in square with Jupiter-Saturn conjunction from Virgo. Take again the assassination of Mrs. Indira Gandhi in October 1984. Mars and Jupiter were in conjunction, close to Jupiter-Saturn conjunction. Saturn was aspecting the degree of M.C. from Libra in the 8th house along with transit Jupiter and Mars as also original conjunction. Again take the Bhopal gas tragedy of December 1984. Mars had been in opposition to the Moon in the horoscope and Pluto indicating poisonous gas, was making a square aspect from Libra in the 8th house to the Moon. Take even the assassination of Rajiv Gandhi in May 1991. Mars was conjoining the Moon; Saturn was close to the Sun in Capricorn; violent aspect Uranus indicating secret plots was close to the Jupiter-Saturn conjunction with Neptune too.

hovering in the near about 22° of Sagittarius in almost close conjunction with M.C.

Let us now revert to tracing Saturn's cycle in Capricorn. Saturn entered Capricorn in 1872 December. We have seen that during the 1857 war Saturn was in Cancer in opposition to Capricorn. When power shifted to the Crown after the revolution the princely states were treated as feudatories of the British Crown. Unlike "Doctrine of Lapse" this declaration was merely the *de jure* expression of authority already functioning *de facto*. Meanwhile, spread of English education brought into being a new generation imbued with liberal ideas and willing to fight a long-drawn battle with the British Crown. The lord of 4th is Mercury representing intellectuals, who aspired to rule India armed with new education and knowledge of the French Revolution and the American War of Independence. The momentum for agitation was given by the Indigo riots of 1859 in Bengal, when Saturn was moving into Cancer. At the same time a vernacular "Fourth Estate" was slowly taking place to counter the English periodicals.

This started oppression by the British. The man responsible for an offensive brood of laws was Lord Lyton (1874-1880). The Vernacular Press Act of 1878 was promulgated. What started as an attempt to win back power by the princely states, actually turned into a national movement by the time Saturn completed one cycle. See how Capricorn Saturn was shaping destiny. People involved in the struggle of 1857 would have least imagined the shape destiny was

shaping within two decades. Offensive laws did not suppress the movement. In fact it brought about more unity and the will to fight a long drawn battle. Before Saturn completed the half-cycle, the Indian National Congress came into being in 1885 when Saturn was in Cancer. The middle class which came under the banner of the Congress comprised of (i) agriculturists, (ii) industrialists and (iii) professionals. Each class had its own interest, but then there was a growing nationalism, which bound them to adopt a common programme of action. So the aristocratic power block fanning the religious sentiments of the masses which characterised the first cycle started from 1842 went behind the scene by the time Saturn's second cycle commenced. The second cycle brought into the forefront the middle class fired by English education and profoundly influenced by the French Revolution and the American War Independence, with notions of Liberty, Equality and Fraternity becoming the key slogans.

What started in the second cycle gathered momentum in the third cycle. By 1902 when Saturn came again to Capricorn, it was Lord Curzon, who became responsible for adding another hue to the struggle by his vain, obstinate and unscrupulous approach and contemptuous treatment to the opposition. He came on the scene on 30-12-1898 when Saturn was in exact opposition to the Moon in the 1842 map. His actions aroused mass hatred for the Britishers.

Bengal's partition which took place in 1905 brought Hindus and Muslims together. The courage

with which Bengal faced its trials stirred the whole of India. It is very important to note that Saturn was in Aquarius when this rare phenomenon of Hindus and Muslims coming together to fight the common enemy took place.

The above struggle was responsible for adding another hue to the struggle of freedom. By then people realised that a constitutional struggle to get a *say* in administration, indianisation of civil services and eradication of poverty was not enough and would not make much inroads into the British pattern of rule. Thus the third cycle brought about "Swadeshi Movement" and "boycott" of foreign goods. The 1902 cycle of Saturn was thus introducing a new dimension to the struggle. The first quarter of 1902 cycle was characterised by the peaceful agitation led by Gopalkrishna Gokhale. In 1906, however, when Saturn was hovering near about Mars in the 1842 map, a radical change in the character of the national movement took place. The attack of police on the Congress Conference of 1906 inflammed the Indian mind and a crop of Revolutionaries emerged under the leadership of personalities like Ashwini Kumar Dutt, Aurobindo Ghosh, Lajpat Rai and Bal Gangadhar Tilak.

Another development which took place and which is again connected with the operation of astrological forces, brought about a complete rift between Hindus and Muslims and which became a permanent feature of Indian politics. Jupiter was transiting Gemini in opposition to the radical Jupiter-Saturn conjunction and precisely at this time Mr. Fuller, Lt. Governor of the newly set-up East Bengal executed his diabolical plan of exploiting Hindu-Muslim differences and supported Muslims and discriminated heavily against Hindus. Mr. Fuller eventually had to resign because Lord Minto did not approve such a strategy. Nevertheless the seeds sown by Mr. Fuller did the damage. Communal riots rocked Comilla and Jamalpur in 1907. It also gave birth to the Muslim League and the 1907 Congress Session ended in chaos. Hence the first quarter of the cycle introduced revolutionary trend amongst Indians and provided a dirty weapon in the hands of the British namely "divide and rule" as they constitutionally recognised communal representation. These emergencies plagued the Indian political scenario in decades to come and seem to be becoming a permanent thorn in our national life.

There was another facet of destiny which became evident before the completion of the half cycle of Saturn by 1917. All outstanding leaders were either imprisoned, deported, went into self-exile or just died. Bipin Chandra Pal and Lajpat Rai went into self-imposed exile, Aurobindo Ghosh escaped to Pondicherry and Tilak remained incarcerated in Mandalay and eventually died in 1920. Gopal Krishna Gokhale and Dadabhai Naoroji died in 1915 and 1917 respectively. This created an unprecedented void in the political scenario and gave rise to yet another phase in the political struggle. All this happened when the Moon Dasa was in progress. The Moon being the occupant of the 4th house represented an end of one phase dominated by scholar politicians.

By the time Saturn once again entered Capricorn in 1931, we were in the midst of a non-violent non-co-operation movement. Incidentally this era is marked by Rahu Dasa which ended in 1940. Further to note the factors of destiny, it may be stated that Saturn was exactly in 17° Sagittarius in conjunction with the radical Jupiter-Saturn conjunction, when the Dandi Salt March was in progress. The first quarter of this Saturn cycle developed into the non-violent movement reaching its Crescendo in 1942 in the form of the "Quit India" movement followed by the Naval Revolt.

In November 1940 Rahu Dasa ended and with it we should have dropped the Gandhian methods which had served well their purpose in that period. But we did not read the steps of destiny. Jupiter Dasa starting from November 1940 was expecting us to adopt a different strategy to suit the independence which many had smelt by that time. The Naval Revolt of 1942 clinched the issue. Britishers quickly realised that leaving India gracefully was better than being driven out. Note here a queer coincidence. What started with army discontent in Saturn Dasa of the 1842 map came to a close with the Naval Revolt of 1942. Ninety years after the 1857 revolt, India became independent on 15-8-1947.

Understanding Saturn

S.R. GUPTA

While studying a horoscope, the following factors are to be essentially considered for understanding a planet, his mood and his working:

a. His natural Karakatwas,

b. His functional duties,

c. His strength,

d. His major/sub-periods,

e. The transit of planets over his natal position.

Before I take up Saturn for discussion in the light of these factors, I wish to make some observations about the functional nature of a planet.

The theory concerning the functional nature of planets based on the ownership of a Bhava as propounded by sage Parasara and advocated by others is not wholly satisfying, as the results received through its application is contrary to what is expected. There is no reason as to why a benefic like Jupiter owning Kendras should not give good results, provided he is strong and unafflicted. The 3rd and 11th lords also do not cause miseries without getting weak or afflicted. The lords of the 2nd and the 12th are stated to remain neutral if they are under no other planetary effects. But they do not.

What I wish to stress is that no planet whether a natural benefic or a natural malefic denotes evil, or causes trouble upon owning any Bhava except the 6th, the 8th and the 12th. It is only a planet's weakness or affliction which matters and not the ownership of the Bhava.

As regards the benefic-*cum*-malefic trio - the 6th, the 8th and the 12th - I hold the opinion that since they rule both - good and bad - significations, their good significations are promoted, and the bad ones are greatly subdued, and *vice versa* if their lords are strong and unafflicted, or weak and afflicted. For instance, the 6th Bhava is stated to rule enemies, cuts, wounds, diseases, disappointments, sinful deeds, lower part of the stomach (large intestines), digestive organ, thieves and maternal relations. Service is also included according to *Uttarakalamrita*. When the 6th lord is strong and unafflicted, the native will face no enemies and diseases. His digestive organ will function properly. Service matters will be Okay. he will benefit through his maternal relations. (The 6th Bhava should also be strong and unafflicted.)

When the two are weak or afflicted, the native experiences digestive disorders, including constipation, theft and the machinations of his enemies. Concerning the 6th Bhava, DR. B.V. RAMAN also writes at pg 263 of his well-written book *How to Judge a Horoscope* (Vol.One, I to VI Houses).

"An affliction to the 6th house may result in the shape of the person suffering disease or incurring debts or enemies." (An affliction to the 6th Bhava also includes his lord.)

But the 6th, the 8th and the 12th lords do disturb the Bhavas, their lords and their significations, they are associated with, be they strong, weak, afflicted, unafflicted. My conclusion is that no planet owning any Bhava except the 6th, the 8th and the 12th is good or bad, but the influences make him so.

Much fuss is being made about the Moolatrikona sign of a planet and his affinity for the same. I strongly feel that a planet is interested in the promotion of both the Bhavas ruled by him, without any prejudice. Jupiter rules the 7th and 10th for the Gemini Ascendant. Can he ignore the 10th Bhava ? No, not the least. If strong, he blesses the native with a good wife and a respectable post. (Of course, other things like Venus have to be strong.)

Now, I come to Saturn.

No other planet is so deeply associated without Prarabdha Karma (the operative part of our destiny) as Saturn is. He is thought to be the most judicious, unrelenting and impartial dispenser of our past Karma. He looks at us from the farthest point in the zodiac, and pronounces his judgements at appropriate times. The nature of the portfolios assigned to him by the Lord justifies his unequalled importance in the native's life.

As a natural malefic planet, Saturn, when favourable functionally, is a Karaka for Ayu (longevity), justice, democratic ideals, humanitarianism, sympathy, philosophical truths, all- round prosperity, position, careful speech, sense of duty towards man and God, discipline, meditation, prudence,

asceticism, patience, self-control, economy, industry, diplomacy, truth, concentration and health.

Lucky is the person to whom Saturn is favourably disposed, for one will possess most of the above mentioned merits, which will make one's life free from tension and also purposeful.

As a natural malefic planet, Saturn when malefic functionally is a Karaka for *mrityu* (death), *daridra* (poverty), *duhkha* (misery), meanness, delay, denial, cruelty, fear-complex, dullness, depression, dogmatic nature, low standards, lingering diseases, debt, sins, theft, falsehood, humiliation, carelessness in speech, limitation, unrighteous conduct, cheating, loss of wealth or property, stupidity and disappointments.

Unlucky is the person to whom Saturn is inclined unfavourably, for one will possess most of the above-mentioned demerits, which will make one's life full of tension, suffering and losses.

Saturn governs two signs - Capricorn and Aquarius - which have different traits. When the Ascendant lord, Mercury (ruling discrimination) and the Moon (governing reactions), are placed in them they take in their traits. These traits are seen in the native's personality. Briefly speaking, Capricorn is perhaps the most selfish sign. It makes the native practical, self-centered, self-willed, industrious, vindictive, and he is devoid of sympathy. He is also stoical to the miseries of life. Being an earthy sign, its main concern is money. Aquarius is perhaps the most philosophical sign. It makes the native a deep thinker, reserved, sympathetic and also generous. Being an airy sign, its main liking is the upliftment of mankind. The native is prepared to make any kind of sacrifice. But benefic or adverse influences falling on these signs heighten or suppress their traits.

Saturn is debilitated in Aries, the Moolatrikona sign of Mars. Mars is exalted in the earthy sign (Capricorn) of Saturn. This indeed is surprising. He is exalted in Libra, the Moolathrikona sign ruled by his friend, Venus. 20° is the highest point of his exaltation and debilitation. He is combust when 15° backward or forward of the Sun. He has been allotted 19 years in Vimshottari Dasa. Pushya, Anuradha and Uttarabhadrapada are his Nakshatras.

There seems to be no justification for ignoring Saturn's combustion in the calculation of longevity, knowing that the Sun and Saturn are constitutionally opposed to each other. The Sun certainly weakens him through combustion. If the above view is to be accepted, I may add that he should suffer no combustion on becoming the Lagna lord. I also feel that the Sun, being the Karaka of the 1st Bhava (which also rules health), should not weaken him, as they both share the joint responsibility of guarding the native's general health.

Saturn retrogrades when his distance from the Sun is 251°, and becomes direct when it is 109°. He remains retrograde for 140 days. He remains stationary for 5 days before and after. I have observed that a retrograde Saturn is always painful, particularly in his sub-periods. *Saravali* also states that the period of Saturn (R) rotates the native as the pot-maker rotates his wheel, engulfing him in agony and misery.

Saturn is also privileged to be a Yogakaraka for Libra and Taurus Ascendant by owning a Kendra (quadrant) and a Trikona (trine). This honour is denied even to Jupiter, the preceptor of gods. Strong and unafflicted Saturn in such a capacity is expected to confer financial prosperity, fame, political success, honour, and joys in a greater measure. The only problem is that when a Yogakaraka is weak or afflicted, the native suffers in an equally greater measure in respect of the Bhavas concerned.

Saturn is the chief planet in producing diseases, being cold and contracting. He is also the Karaka of the 6th, the 8th and the 12th, which are also connected with short or long ailments and hospitalisation. He is opposed to the Sun, the planet of vitality and the heart. He is also not friendly to the Moon without whose blessings it is difficult to have a sound body. Its functioning is disrupted.

When an afflicted Saturn afflicts the Ascendant, its lord, the Sun, the Karaka of the 1st Bhava, the 6th and its lord, he produces cold, lingering and chronic complaints. He rules *vatha* (wind). He causes obstruction in the discharge of waste materials of the human body, paralysis, gout, asthma, nausea, belching, diseases of the spinal cord, dental decay, spleen disorder, laziness, diseases in the lower portion of the legs, weakness due to over-exertion, stomach-ache, wounds caused by the fall of trees or stones, mental worry, epilepsy, rheumatism, consumption, depression, constipation etc., etc.

To locate the nature and seat of diseases in the human body, we need to study his role *vis-a-vis* the Bhava and the planets. But one thing is certain that when the native suffers physically or mentally, his Dasa is always therein the planetary configuration causing the said suffering. We cannot also ignore even in a serious or lingering disease.

An example to locate the disease and its area : When Saturn afflicts the 6th, its lord and Jupiter the Karaka, the native is almost sure to suffer through stomach troubles, including liver disorder and diabetes.

The parts of the human body concerned are - the left ear, joints, spleen, teeth, knees, the lower portion of the legs, ribs, bones, hair, nails, and pneumo-gastric nerve. He also rules the waste materials - urine, stool and phlegm. When Saturn is weak and afflicted by the Sun, Mars, Rahu and Ketu, the native is likely to suffer through some of these parts, when they do not function properly. The clearing of the waste materials is also obstructed.

I feel that the sign and the Bhava occupied by a planet govern his potentiality, which increases or decreases by other benefic or malefic influences coming to it through combustion, retrogression, conjunction and aspect of planets. The sign and the Bhava are perhaps the major sources of his strength. In fact, the potentiality so acquired by a planet is named differently.

To be strong, Saturn should occupy a Kendra or a Trikona, his own sign, Libra, his sign of exaltation. He should not be combust, natural benefics should aspect him or be in conjunction with him, and he should be in the middle part of the sign he occupies. As regards his placement in a Kendra, I exclude the 1st Bhava where he is stated to get no Digbala at all. A strong Saturn is an asset in a horoscope, as he then causes minimum grief.

As regards Saturn's placement in the 12 Bhavas, the Bhava occupied by him makes steady progress, provided he is strong and functionally benefic; otherwise its growth is stunted, and the native suffers in respect of its significations. A malefic Saturn has been observed to withhold its benefits fully to the native, despite the reasonable strength of its lord and the Karaka concerned. If he occupies a malefic Bhava, a stream of suffering starts flowing, particularly during his sub-periods, overwhelming the native. For instance, a benefic or strong Saturn in the 2nd Bhava enables the native to increase his wealth steadily, but surely, to keep his family united, to have convincing speech, and to enjoy nourishing food. But a malefic Saturn there causes financial losses, troubles or break-up in the family, and the native takes untimely meals and his speech becomes unpleasant. It is certainly wishful thinking that Saturn in the 8th promotes longevity. Nothing of this sort happens. Some pamper him saying that the dictum that a Karaka in the Bhava concerned does not apply to him. These are mere conjectures.

A planet shows his effects in full measure during his sub-period. The function or responsibility of the Dasa lord is to support him, provided he is situated at a proper place from him (the major lord) and is in touch with him. Otherwise, he just looks on and the sub-lord does his job all alone. But it is a fact that it is the sub-lord who helps us to pin-point the areas of the problems the native is suffering from.

Saturn in his sub-periods, if in exaltation, in his own sign, in an angle, in a trine, in the 11th Bhava, or in association with benefics, is indicative of the betterment of the situation the native is in, benefits through elders, seniors, persons of rank, wealth, honour, joy, gain of land, inheritance, even marriage, the birth of a child, educational pursuits, new enterprises, gains through mines, coal, leather goods, petrol, real estate business and craft or art.

Saturn in his sub-period, if in debility, in the 6th, the 8th, the 12th or associated with their lords, in conjunction with a malefic or under a malefic aspect, is indicative of loss of trade, office, the displeasure of superiors, disgrace, ruin, quarrels, accusations, theft, delay, sickness, tension, loss of a member of the family and even his death, and sorrow. In fact, any kind of a misfortune can be expected.

Which of the above-mentioned benefits or losses accrue to the native depends upon the Bhavas Saturn is favourably or unfavourably disposed to, including the ones owned by him.

I may also clarify as to which planets are benefics or malefics for the purpose of conjunction or aspects.

i. The lords of the 6th, the 8th and the 12th, whether they are benefics or malefics,

ii. The natural malefic even if they own good Bhavas,

iii. The natural benefics owning good Bhavas.

Since no planet works in isolation, it is both essential and useful to examine both the types of relationship (natural and temporal) our planet, Saturn, is likely to form through his natural friends, Venus and Mercury and his natural enemies, the Sun, the Moon, mars and his natural neutral, Jupiter. This is perhaps the most important factor in knowing his attitude towards other planets and theirs towards him. But it is often ignored. For instance, when it is found that the Moon and Saturn have formed neutral relationship, a benefic Saturn will do no harm to him when the latter happens to aspect him, and the native will feel no troubles during the sub-period of either of the two.

Reckoning of Gochara (transit) in Hindu Astrology from the natal Moon is being gradually dropped, and the concept of terrifying 'Sadesati', which is related to the transit of Saturn through the 12th, 1st and the 2nd positions of the natal Moon, is losing ground, as the results mentioned in the astrological books (regarding this transit) do not come true.

The transit Saturn over natal planets, particularly the planets in operation, delays the results likely to be exhibited by them, sometimes beyond toleration. The view that the transiting Saturn is guided or conditioned by the natal Saturn is not convincing. An independent Saturn is to be examined but we should certainly note what state he is in, and also the Bhava transited by him. The transit of malefics, the Sun, Mars, Rahu and Ketu over the natal Saturn is decidedly a time of great suffering, if he is in operation as a sub-lord. It will be erroneous to judge transits without reference to the Dasa and Bhukti in operation.

I often heard many old persons saying -

Sani ko manaayiye, sadaa sukhi paayiye

(Worship Saturn to be ever happy.)

There is much truth in this simple saying, but the problem is how to propitiate the annoyed Saturn. It is indeed difficult to do so. If we submit to him fully, he may be propitiated. The following remedial measures have been found as giving good results if they are carried out at least for 1/3 rd of his sub-period:

a. Worship of Lord Siva,

b. Offering of salty food and grey coloured clothes to the poor and the down-trodden on Saturdays,

c. Showing sympathetic attitude to the servants, including the sweepers in the family and the office.

'Dana' also assists Nature in her rehabilitation work, which also includes feeding the hungry and giving clothes to the poor. I am sure that if Saturn is with us, we can get over all the obstacles and find our lives quite meaningful.

I shall discuss two horoscopes with reference to Saturn to illustrate my views.

Chart 1: Born 27-10-1951 at 2 a.m. (IST) at 30° 53' N, 77° 01' E. with a balance of 1year, 6 months and 10 days of the Sun Dasa at birth.

The native has been suffering since the sub-periods of Saturn began operating (25th June 1990) in the major period of Jupiter, who is placed in the 8th in his own sign. Saturn rules the 6th and the 7th Bhavas, and occupies the 2nd with the Moon, the 12th lord. Jupiter (R) aspects him from the 8th. There is no other aspect. But he is sandwiched between natural malefics, the Sun and Mars. His dispositor Mercury is in the 3rd and combust. Saturn does not enjoy directional strength. He is weak and afflicted. Hence, annoyed. The Bhavas covered by him are the 6th and 7th (by ownership), the 2nd (placement), and the 4th, the 5th, the 8th and the 11th (aspect). The 5th is not aspected, but Jupiter, its lord, is aspected. The native's wife's continued ailments, the death of his mother through a major heart attack, the heavy expenses on their treatment, the domestic disturbance, his own stomach problem, children's illness have troubled him deeply. When his wife met with an accident, though not fatal, Mars was transiting Pisces in June 1990. He aspected Saturn.

period was in operation. His passed away when Mars transiting Gemini in March Mars again troubled his wife 3rd weak of April 1991, when got a very severe toe fracture. is known for giving cuts, ds, fevers, fractures etc., etc. natal Saturn was also under the aspect of the transiting Saturn July 1990 to the 2nd half of ember 1990. Rahu also aspected natal Saturn from June 1990 to il 1991. Malefic transits over urn worsened him, and the ve was left badly shaken.

Chart 2: Born on 19-8-1965 at 15 p.m. (IST) at 28° 37' N., 04' E. with a balance of 7 years, nth and 26 days of Venus Dasa birth.

The native has been extremely worried since the sub-period of Saturn (R) started operating on 6th March 1991 in the major period of Mars. Here Saturn (R) is privileged to be a Yogakaraka, ruling the 4th and the 5th Bhavas. He occupies the 5th in his Moolathrikona sign. He aspects the 7th, the Moon, the 10th lord, and also the Sun, the 11th lord. The 2nd Bhava where Ketu is placed is also under his aspect. The Sun, the 11th lord and Jupiter, the 3rd and 6th lord aspect him from the 11th and the 9th. Finding such a Saturn (R), one is tempted to remark that he is sure to benefit the native much. Saturn (R) judged alone is certainly strong. But his mood has turned unfavourable owing to the adverse aspects of the Sun and Jupiter. Moreover, he is retrograde. The native has not received any benefit so far, except acute stomach disorders, conflict with his father, delay and tension in business matters, heavy expenses, family tension, and general unhappiness. He is worried in his marital life (though married recently), as he finds his spouse not mentally compatible with him. He had very good chance to appear in a competitive exam., but he did not avail himself of it. Saturn (R) is not fully allowed to carry on his wishes to benefit the native by his enemy, the Sun and Jupiter, who too has turned into his enemy on the basis of temporal friendship. Transit Mars remained in Cancer and Leo from the 2nd half of May 1991 upto the 3rd week of August. He aspected the natal Saturn (R), and this time has created virtual hell for him. Transit. Jupiter in Leo is expected to give him a bit of relief, saving the pregnancy, which has taken place recently. The transiting Rahu and Saturn have not bothered the natal Saturn (R), and this is indeed good.--9.91. ❊

Children and the Twelfth House

PROF. P. S. SASTRI, M.A., M.LITT., PH.D., D.LITT.

Generally predictions regarding children are made from the 5th house and its lord, from Jupiter, and from the 11th house. Other planets are involved directly or indirectly. There is also the need to take Saptamsa into consideration. There are some exceptions. *Jataka Parijata* (16.5) states that it is the 9th house in a woman's chart which indicates children. Jaimini (44.37) wants us to consider also the 7th house of a woman's chart for predicting children. Even Mercury and Ketu can be the significators of children (4.4.38). The strongest between the 9th from Lagna and the 9th from the Moon indicates children. Ketu does not appear to be favoured by the followers of Parasara.

The Moon, Neptune and the benefics related to the house of children give many children. Uranus indicates artificial prevention of conception. The Moon, Venus and Neptune are said to indicate daughters. In our experience Jupiter has given more daughters, while Venus has given more, if not an equal number of sons. Mars and Neptune associated with the 5th has given rise to still-births. Mars alone tends to give miscarriages. Rahu indicates the curse of a serpent-god or others. The Sun afflicted by Uranus in female charts shows miscarriages. The number of children depends on the Moon in a man's chart and on the Sun in a woman's chart.

Our purpose in this article is to focus the attention on the 12th house, its ruler and the planets there. These give enough indication about the children, at least about the eldest child. The 12th house indicates the pleasures of the bed. These pleasures, if they are not purely physical, must result in the birth of children. From the 5th house, the traditional house of children, the 12th is the 8th, indicating the longevity of at least the eldest child. From the 9th it is the 4th, the house of happiness.

In many charts we get indications of the native becoming a parent. But there are cases where, in spite of this, children are denied. The clue lies in the 12th house. Along with Jupiter, following Jaimini, we take Mercury and Ketu as indicators of children. As Ketu is the joint ruler of Scorpio, we have to reckon with Mars also.

First we start with some instances which show the denial of children, even if other traditional rules governing the 5th house indicate children. We are neither disputing nor rejecting the traditional rules.

The first chart[1] shows the 11th lord in the 5th well-placed. The significator of children is in the 7th in his own house aspecting the 11th. Mars' aspect on the 11th must indicate at least a miscarriage. But this gentleman had no children. As per the theory advocated here, the eldest is indicated by the 12th. The lord of this house is in the 7th with the 5th lord, and in Bhava both Sun and Saturn get into the 8th house. The aspect of Mars on them is beyond eight degrees. The native had no children. Note the debilitated Mercury (Maraka as per Jaimini) in the 7th and Ketu in the 8th. When the first child is denied, there is no question of other children following.

The second chart[2] is intriguing. The 5th lord Mercury is with debilitated Jupiter in the 12th. Ketu (indicator as per Jaimini) is in the 9th afflicted by the 12th lord from the 7th. The first and the 7th lords have exchanged signs and are afflicted by Mars. The native had no children. Traditional rules are also applicable here.

The third chart[3] is that of a lady. The 5th lord is in the 11th aspecting the 5th. The significator Jupiter as a functional malefic is placed in the 2nd with a benefic. But she had no children. The 12th lord Sun is with

in close conjunction in the 4th. aspect of Mars on the 5th lord at best account for a mis-age which did not take place. cury and Ketu, are with the ing Moon afflicted by Uranus. ception was prevented.

In the fourth chart[4] the ificator Jupiter is in the 5th spected by any. Yet she had no dren. The 12th lord is between lefics and he is badly afflicted by anus who prevents conception. anus acts like Mercury and he is the 9th, a sign owned by Mercury. e 12th has the 5th lord Saturn th Ketu and Neptune. Children en denied because of the 12th house d because of Mercury and Ketu.

In the fifth chart[5], the 5th house s Jupiter and Ketu afflicted by anus partially. Still Jupiter has to e children as the 5th lord is exalted the 7th and as the 9th lord is in the h. But look at the 12th house. The rd is in the 8th in exact square to anus. There is prevention of nception because of Ketu and ercury (12th lord) being afflicted y Uranus.

The sixth chart[6] shows mpadosha to the 5th house. But e 5th lord is well placed. After mpitiation she should have got children. Venus as the 12th lord does not receive the aspect of Jupiter. The exalted Moon in the 12th and Mercury are afflicted by Saturn who is in turn afflicted by Mars. She hasno children so far.

The seventh chart[7] shows Jupiter and Saturn aspecting the 5th. Saturn afflicts the Sun, Moon and Venus. But Jupiter ought to have given children as he is the lord of the 9th. The 9th is afflicted by Neptune, Mars and Ketu. The 12th lord is in the 12th afflicted by Mars, and he is hemmed in between malefics. There are no children.

Consider the eighth chart[8]. The 5th lord is in Lagna with its lord, a friend. The 9th is unafflicted. The 5th has Ketu. Like Jupiter, Ketu in the 5th should give children. But why was she denied children? One may argue that Saturn's aspect on the 3rd and the 9th is responsible. But this cannot deny children. It may at least destroy them and yet give surviving children as Jupiter is in the 9th from the Moon. The 12th house is aspected by both Jupiter and Saturn. Even as per the view advocated here, there should be children. But look at the 12th lord Venus. He is in close conjunction with Uranus who prevents conception.

Let us now turn to the charts where we find only one child.

The ninth chart[9] shows the 5th afflicted by Uranus, while the 9th has retrograde Mars. The 5th lord is in a male sign and the 9th lord Venus is in his own sign combust. This does not explain the facts. The 12th lord Sun is debilitated in the 2nd; but he is with Venus, Jupiter and the Moon in a sign owned by a female planet. The lady has one daughter and later she divorced her husband.

The tenth chart[10] is that of Pandit Nehru. The 5th is a male sign occupied by a male planet. He did not have a son, but only a daughter. Look at the 12th house. It has Rahu in Mercury's sign and Mercury is with Venus in Venus' house. The aspect of Saturn did not destroy the daughter as Venus owns it. Venus being in his own house with the 12th lord did not allow Uranus to prevent conception. Mercury too is an indicator of children, as per Jaimini.

The 12th house thus appears to play a very important role at least as far as the eldest child is concerned.

Now let us examine a few charts where the sex of the eldest child is known. This will enable us to generalise.

The eleventh chart[11] shows the exchange of signs by the 4th and 5th lords. They are aspected by Mars, the lord of Lagna. Jupiter and the Moon are aspected by the Sun and Mercury. These factors indicate some loss and at least one surviving child. It can be a son. But look at the 12th house. The owner is Venus and he is in his own house aspected by Jupiter. When Venus is in his own house having a relation to the house of children, he definitely gives a son. He is also in the 9th from the Moon. He is away from Rahu by more than 19 degrees and from Uranus by more than 196 degrees. Uranus was powerless to prevent conception. This native had two sons only.

The twelfth chart[12] is interesting. The 5th house is aspected by Jupiter, and its lord is in Moon's house with Rahu and Neptune. Naturally there should be both daughters and sons. As the 12th lord Jupiter, a male planet, is in the house of Mars. But the affliction of Uranus as Jupiter denied him sons. The 12th house is powerfully aspected by exalted Saturn who also aspects Venus in whose sign he is situated.

In another chart with Virgo rising Jupiter was in the 5th and Saturn in the 7th. Sun, Mercury and Venus are in the 4th in jupiter's house. The native had only two sons and no daughters. The 12th lord with Karaka Mercury in Jupiter's house explains this.

In the thirteenth[13] chart the 5th lord Sun is with Jupiter in the 11th. The 5th is aspected by retrograde Saturn. He should have sons, at least one son and some daughters. But look at the 12th house. Its lord Jupiter is with the Sun in the 11th. Same result as before. But what about the eldest child? The 12th house has debilitated Mercury, exalted Venus and Uranus. One feminine planet in exaltation with Mercury (a non-masculine planet) has given two daughters only. This is the result of exaltation. The significator of the Sun and Jupiter is Saturn afflicted by Mars. A third child is denied also by Uranus in the 12th.

In the fourteenth chart[14] the 1st (Moon) and the 5th (Mars) lords have exchanged houses. He should have a son or no child at all. The 12th is owned by Mercury, a significator of children (as per Jaimini), who is with the exalted Sun. Still a son was denied as Mercury is in the house of Mars who is in Cancer. He had four daughters only, of whom one died.

The fifteenth chart[15] shows the 5th lord Moon with Venus in the 11th. They aspect the 5th. Though it is Saturn's house, there ought to be a son. The aspect of Uranus does not fall on them. Saturn in the 8th has exchanged signs with Venus. Saturn is exalted and is directly opposed to Mars. Jupiter aspects Saturn also. He has only daughters. The 12th house explains this situation. It is Saturn's house. Mercury, an indicator of children and a non-male planet, is there. Saturn is in the house of Venus. Saturn and Mercury are both aspected by Jupiter from Mercury's house.

These examples show the importance of the 12th house at least as far as the eldest child is concerned. Further investigation will strengthen our conviction. We have selected only a few charts in support of our conclusion. The clue to this approach appears in an obscure corner in one of Mr. Cater's books —153-91.

enus Dasa, Venus Bhukti:

Venus Dasa started from 1989. Venus Bhukti is now ing which will continue upto 12.1992. Venus is a benefic, g the lord of the Ascendant and ly malefic due to the lordship the 6th house. Venus is in the 3rd e with four other planets. In Navamsa Venus is in Saturn's e along with Saturn. On the le, Venus is well placed in the oscope. Venus is placed in the kshatra of friendly Mercury.

	ASCDT. RAHU	MARS

KETU	JUPIT.	

The Ascendant along with the 10th house represents the government, the Prime Minister, cabinet, and general conditions in the country. So as soon as Venus Dasa started, quick changes took place in the Central Government at various levels. Already three Prime Ministers have come and gone in Venus Bhukti. It is mentioned in classical literature that the planet is somewhat shy to give its own results in its own Bhukti and the real results of the concerned planet are reflected in the Bhuktis or sub-periods of other planets. So in Venus Dasa, Venus Bhukti we may not experience the real benefic results of Venus. It will be better to study the Antaras (or pratyantar dasa) of various planets in Venus Bhukti.

The Jupiter Antara in Venus Bhukti ruled from 3-5-1991 to 13.10.1991. It proved to be a most significant period in India's political history. General elections to Loksabha were held, Rajiv Gandhi was assassinated, the rupee was devalued, grave economic crisis arose, gold was transported to a bank in England and a new Prime Minister took over. If we look back retrospectively to the Bhuktis and Antaras of Jupiter in the Dasas of various planets it will be observed that some of the worst events, as well as events of far reaching significance have happened in Jupiter Bhukti and Antaras. In India's Independence horoscope, Jupiter is the worst malefic, being the lord of the 8th and the 11th. Also it is the enemy of the Ascendant lord and is placed in a malefic house, the 6th in an enemy's sign. In Navamsa also, it is placed in the sign of inimical Venus.

The Year Ahead—1992

The new year 1992 starts as well as ends with a solar eclipse. The first solar eclipse takes place on 4th January and the 2nd solar eclipse takes place on the 24th December 1992. Both the eclipses occur in Sagittarius, that is the 8th house in India's horoscope. A third solar eclipse takes place in the middle of the year on 30th June in Gemini. Thus the year 1992 is hemmed in between two solar eclipses in the 8th house. This can be termed as a discouraging factor on the whole and does not promise a very bright future for the nation. Prof. Raman has rightly emphasised time and again that the eclipses have a far reaching effect on mundane affairs extending upto a period of six months. So roughly the effects of eclipses in Sagittarius will be felt in the months of January, February, March and October, November and December. These six months may prove to be a period of great trial. Since the eclipse point falls in the 8th house, the likely events happening are deaths of important national personalities, major changes in the government set-up, unrest, quarrels, famine, epidemics, increased rate of mortality, suicides, increased foreign debts, problems in stock market etc.

To take a systematic assessment of the year 1992, let us try to study the results of various Antaras in Venus Bhukti. The year broadly covers the Antaras of Saturn, Mercury and Jupiter in Venus Dasa, Venus Bhukti.

For the whole year Saturn will transit Capricorn, the 9th house in India's horoscope. Saturn is the significator of foreign countries. In the new year India may play a prominent role at the United Nations. It will put forward some new peace plans. A new treat may be signed with Pakistan or Sri Lanka.

Foreign trade will increase. The export of textiles and leather goods will receive a boost. Naval forces will be strengthened and some new submarines may be added to the navy. The number of foreign tourists will increase. The Airlines set-up will be changed. Its efficiency may show a certain improvement. The satellite programme will be expanded. The remote sensing satellite will help in weather-forecasting.

Some progress may be made towards solving the temple issue by negotiations. Saturn is a planet of spirituality and it will transit through the house of religion, so a spiritual leader may come on the forefront to guide society.

Saturn is also the lord of the 10th house and it will be moving through the 9th house, which is the 12th from the 10th. So major changes may take place at the top government level.

Relations with America will further improve. A major campaign for national integration will be started. Some top and aging politicians will retire from public life.

New governors may be appointed in some States. New areas having a rich yield of iron ore and other metals will be discovered. Changes will be made in the laws concerning passports.

Foreign investments in business will increase. A few big cement factories may be set up. The prices of cement may come down slightly. New pension rules will be announced.

New historical monuments may be discovered during the year. In many States elections to corporation bodies will take place and the corporation laws will be amended.

The incidence of diseases like paralysis and T.B. will increase. Considerable advance will be made in nuclear research. New oilfields will be found in the western sea coast. Computer technology will be introduced in many fields.

Saturn Antara

Turning to the transit position, Saturn Antara which covers the period 1st January to 23rd April 1992, that is nearly four months can be divided into three parts.

1st January to 10th February 1992

In this period Mars will be moving through Sagittarius in 8th house, over the eclipse point in India's horoscope. The aspect of Jupiter on Mars will have a controlling effect. This period may see the death of a national figure. Some strong financial measures will be announced. A severe earthquake may hit the northern part of the country. A major fire accident is foreseen in a factory or old building.

11th February to 20th March 1992

In this period there will be a conjunction of Mars and Saturn in Capricorn. This conjunction, taking place in the 9th house, may create many problems in various spheres. Serious railway and air accidents are indicated. There is also a likelihood of the collapse of an old building and a mining disaster taking place. Agricultural crops may suffer slightly. A major cyclone may hit the south eastern sea-shore. Some stringent measure may be announced by the government to check unrest in disturbed areas. Prices of grains will rise. Some fire accident in a warehouse of granary may take place. Major changes at Central Government level may also take place. Petrol prices may be revised. The employees of a steel plant may go on strike.

21st March to 23rd April 1991

In this period Mars will be in Aquarius in the 10th house opposing Jupiter. So Mars will be slightly under check due to the aspect of Jupiter. This period will be comparatively peaceful. Some differences of opinion on major issues may be there at the top level and the Lok Sabha may be witness much furore. Reshuffle of Central Cabinet and imposition of President's Rule in one or two States is expected. In this period some concessions to heavy industries may be announced. Some new legislation concerning religious institutions and places may be put forward by the government. Many changes in the tax structure are expected.

Mercury Antara

(23rd April to 23rd October 1992)

In India's horoscope Mercury is also placed in the 3rd house along with Venus. In Navamsa, Mercury is in Scorpio in the 8th. It is the lord of the 2nd and the 5th. Being the lord of the 2nd, Mercury is slightly malefic for Taurus Ascendant, since it becomes a Maraka. So Mercury period should show mixed results, depending upon the transit of malefic planets, especially Mars. Mercury Antara of six months may be broadly divided into four parts.

23rd April to 7th June 1992

In this period Mars will be moving through Pisces and Mercury will transit through Pisces, Aries

Taurus. As a result some Lok-Sabha members may offer to resign on a major issue. Sectarian quarrels may take place in one or two States. Some strong measures will be announced to check the rising prices. New schemes will be launched by the nationalised banks. New ministers are likely to be added to the Central Cabinet. The country's education department may announce new schemes, cinema industry may be benefited in this period. India will register its win in a major international sports competition. The stock market position will improve. Cultural exchanges with foreign countries will increase.

21st June to 21st July 1992

In this period Mars will be moving through Aries and Mercury through Gemini and Cancer. Also there will be a solar eclipse on 30th June in Gemini. In this period the government may try to find some new sources of revenue. The financial position may show marked changes. New bonds may be issued by the government and the exchange rates may be revised. The working of banks will show improvement and the interest rates will be changed. The export of jewellery will increase. The number of foreign tourists will increase. The postal rates will be revised. Extremist activities may increase in July. Death of an eminent person is also probable.

22nd July to 31st August 1992

In this period Mars will be in Taurus and Mercury will mostly be in Cancer. Diseases of children may increase and the death of an eminent artist is also foreseen. Some retired army officers may be appointed as ambassadors to foreign countries. Students unrest may take place in some parts of the country. A few textile mills may face some problems. One or two new drug factories may be established. Sudden changes in climate are expected in this period.

1st September to 12th October 1992

Mars will be moving through Gemini and Mercury through Leo, Virgo and Libra. Also Jupiter will be entering Virgo on 15th September. In this period new vacancies may be created in police services. Some of the public sector units may show profits. A few industries may face strikes and labour problems. Municipal corporations of some States will increase taxes. New radar system may be introduced in the armed forces. New aircrafts may be added to the Air force. Diseases of throat and ear will rise.

Ketu Antara

(from 13-10-1991 to 23-12-1991)

In India's horoscope Ketu is placed in the 7th house. As is well known, Ketu is a planet of intrigue, sectarian principles, dissimlation, bankruptcy, ascetics, assassinations, vicious tendencies, secret plots etc., During this period Mars will be moving through Gemini for most of the time, Ketu will be in Taurus and Jupiter will be in Virgo. There will be a solar eclipse in Sagittarius on 24th December. Mars will be aspecting the eclipse point in Sagittarius in the 8th house. As Jupiter will be aspecting Ketu, the malefic effects of Ketu will be somewhat under control.

Some unexpected and sudden events may happen in the political life of the country. There may be an attempt on the life of an important top personality of the country. A plot of treachery and secret intrigue may be unearthed. Suicides will increase.

Some major accidents especially concerning fire are expected in this period. Explosion in an armament factory may take place. There will be some activity on the northern borders of the country. Long pending cases before the Supreme Court may be decided in this period and severe sentences awarded. Barricades will be put up on the borders with other countries. Sectarian parties may raise some fresh issue in this period. Negotiations on vital issues may start with neighbouring countries. Hail storms in Andhra or Orissa are also probable. This is a bird's eye view of 1992 based on Dasa Bhukti System. ❊

Ancient Scriptures and Environmental Pollution

DR. D. N. PATHAK,
M.Sc., PH.D., FIC, FICS,
MEM.NAT.ACAD.SC.(I);MEM.ISCA.

Environment is the sum total of all conditions and influences that affects the development and life of organisms. The statement that over-population is the cause of all problems, namely poverty, hunger, environmental degradation, women's development etc. is really an over-simplification of the issue often made by Indian scientists. There are countries like China more populous than India yet prosperous compared to India. The development and consequent prosperity of a particular geographical area actually lies in the effective and efficient management of air, water and soil *i.e.*, environment of that region. According to Chanakya

अमन्त्रमक्षरं नास्ति
नास्ति मूल मनौषधम् ।
अयोग्यः पुरुषो नास्ति
योजकस्तत्र दुर्लभः ।

The meaning is "There is no word which is without meaning or which is without power. There is no root which does not have some medicinal property and there is no human being who is useless, who does not possess some capability. But the rarest of the rarest things is a leader, a contriver, who is able to exploit these qualities." This verse of Chanakya was appropriate many centuries ago and is true to this day and will remain true. Thus mitigation and relief from the environmental pollution lies in the efficiency of management under chaotic political conditions prevailing in our country by selfless social workers. The earth and the other planets are orbiting the Sun ceaselessly with great precision, maintaining a delicate balance among themselves. Internally also a delicate balance is maintained among the various elements composing the earth. Man's over-exploitation of environment jeopardises natural processes and if continued uncontrolled for long it may cause imbalance. To overcome this imbalance Nature at once starts repair work and readjusts herself to new and more stable situations by bringing natural disaster like flood, drought, cyclone, earthquake, volcanic eruption etc. Thus the very survival of human being on the planet earth is dependent on the harmonious relationship between man and nature. There are innumerable instances of our ancient seers caring, conserving and worshipping trees and animals. *Isa Upanishad* states:-

ईशा वास्यं इदं सर्वं ।
यात्किन्च जगत्यां जगत् ।

It means that " The whole universe together with its creatures belongs to the lord (Nature). Implicit in this thought is that no creature is superior to any other and human being should not have absolute power over nature. Let no one species encroach over the rights and privileges of the other species. One can enjoy bounties of nature by giving up greed." The interest in conservation should not be taken as a sentimental one but as the rediscovery of a truth well known to our sages. The Indian tradition teaches us that all forms of life, human, animal and planets are so closely linked that disturbance in one gives rise to imbalance in the others.

Water is a wonderful chemical with unique properties of dissolving and carrying in suspension a huge varieties of chemicals. The annual rainfall as computed from 50 years data (1901-50) from over 2800 recording stations is about 105 cm. India receives 3 trillion m^3 of water which is among the largest in the world for a country of comparable size. Surface flow of water takes place through 14 major river systems namely Brahmani, Brahmaputra, Cauvery, Ganga, Godavari, Indus, Krishna, Mahanadi, Mahi, Narmada, Periar, Sabarmati, Subarnarekha and Tapti in the country. The river Ganga together with its tributaries is the largest as also a very important river basin of India. It has been a symbol of purity but today it is grossly polluted especially in the

...शौचाचमनं सेकं निर्माल्यं मलघर्षणम् ।
...त्र संवाहनं क्रीडां प्रतिग्रहमथो रतिम् ।

...वस्त्रागमघाघातं सन्तारंच विशेषतः ।।

It means "Thirteen actions must be prohibited on arrival at the sacred waters of the Ganga, namely: defecation, ablutions, discharge of water, throwing of used floral offerings, rubbing of filth, body shampooing, frolicking, acceptance of donations, obscenity, offering of inappropriate praises or even hymns in an incorrect way, discarding of garments, beating and swimming across, in particular." If only we had heeded this advice, the situation in Ganga would have been different.

Wanton, uninhibited and imbalanced deforestation of our north-eastern mountains have led to landslides. It even threatens the very national security. A statement dated May 1, 1984 from an Ex-serviceman C.S.Rana, is indeed revealing. He says "I was in the West Bengal Rifles for over 27 years and I fought in three wars. I have now returned to my village. My enemy is no longer Pakistan and China: It is now landslides. We live in fear of landslides. I have put my gun away. My weapon is now trees to prevent landslides. We need trees to provide fuel for our cooking, fodder for our cattle, fertilizer for our lands, fruit for our children, agricultural implements for our farmers and furniture for our small homes. We need trees to give us a healthy environment so that we can survive" (*vide* Leverty, 1985). The critical importance of Himalayas was realised by our seers; for instance Kalidasa has said:

अस्त्युत्तरस्यां दिशि देवतात्मा,
हिमालयो नाम नगा धिराजा
पूर्वापरौ तोयनिधिऽवगाह्य,
स्थितः पृथिव्या इव मानदण्डः ।।

It means "There is a mountain in the North, ensouled by Divinity named Himalayas, the King of all mountains, stretching from East to West coasts, it is located on the earth as a measuring rod." Swami Vivekananda has said "The Himalaya is not a mere wall accidentally constructed by nature. It is ensouled by Divinity and is the protector of India and her civilisation." Regeneration of the Himalayan belt is therefore, a case of enlightened interdependence between the concerned nations. Environmental conservation must therefore enter in the area of foreign relations and an example of utmost importance is the Himalayas because the security of our country depends on the health of the Himalayas: Saving the Himalayas is actually saving the country.

For the first time, the United Nations is going to frame an Earth Charter spelling out for all the inhabitants of this planet the urgent need for a harmonious relationship between Man and Nature. The 'Earth Summit' is being convened in June 1992 in Brazil to find out ways to solve Environmental problems on which depends the very existence of the human race. Let us recapitulate the aphorism from *Rigveda*:

आ नो भद्राः क्रतवो यन्तु विश्वतः

"Let knowledge and noble thoughts come to us from all sides." ---148.91.

Horoscopes of Deaf, Dumb and Lame Persons

YELURIPATI KRISHNA RAO

"Life", someone said, "is a jigsaw puzzle with most of the pieces missing." It may be likened to a sea with its unfathomable depths, with its ebbing waves, unknowable whirlpools and unpredictable torrents with dangerous animals underneath. For the majority of people life appears to be a tale of woes, a bundle of disappointments and strange vicissitudes on different planes. While some are born in congenial circumstances and enjoy good health, wealth and all-round comforts, many others are born in uncongenial circumstances and grovel in poverty throughout their lives. While some are born with strong moral and saintly nature, several others are born with selfish, inhuman and devilish tendencies and become a menace to the society. While some are born with sunny disposition, brilliant and creative intellects, many others are born with unhealthy and uncouth personalities, without intellect, without any comprehensive faculties, without the faculties of speech, sight and hearing etc. as a result of having committed certain acts in their past lives.

Astrology is the only science that can reasonably explain these apparent differences, incongruities, injustices and strange vicissitudes of men. Misfortunes of men and women are various and curious in accordance with their evil thoughts and misdeeds of their past lives which are the determining factors proving the adage that man weaves his own web of destiny and reaps whatever he sows. "The doctrine of spiritual cause and effect" says Yogi Rama Charaka" is based upon the great truth that under the law each man is, practically, the master of his own destiny—his own judge, his own rewarder, his own awarder of punishment. That every thought, word or action (misuse of the faculties) has its effect upon the future life or lives of the man — not in the nature of reward or punishment, but as the inevitable result of the great law of cause and effect."

Chart 1 : (Born 10-1-1966 at 9-30 a.m at 18°7', 83° E 26' with a balance of 3 years, 1 month and 24 days of Ketu Dasa) is that of a girl born deaf and dumb. On a cursory glance the chart appears to be very fine as it is studded with certain Raja Yogas such as Sasa Yoga, Gajakesari Yoga and Dharma Karma (9th & 10th), Raja Yoga etc. The disposition of Jupiter (or Venus) in the 4th house usually indicates birth in congenial circumstances. Her father is an engineer earning a decent salary. As ill luck would have it, she was born deaf as a result of which she has become dumb.

In Astrology the 2nd house denotes face, speech and wealth; the 3rd house signifies courage, brothers and sisters, ears and the faculty of hearing etc. It will be seen that the cusp of the 3rd house is powerfully aspected by Saturn and Mars. Jupiter is the lord of the 2nd from Janma Lagna. He is posited in the last degree of Taurus. In Hindu Astrology, a planet posited in the last Navamsa of any sign is always considered to be powerless. So Jupiter as the lord of the house of speech is quite powerless being in the last degree of Taurus. Further Jupiter is posited in the 8th house from Navamsa Lagna in conjunction with Ketu, a malefic planet. Another significant point of this chart is that two malefic planets (Saturn and Rahu) are posited in the 2nd house from Navamsa Lagna destroying the house of speech. The relevant Jaimini aphorism is as follows:

Bhagye Ketow Papadrishte Stabdhavak

Ketu in the 2nd house from Karakamsa aspected by evil planets, will make the person indistinct or a slow speaker (*vide Jaimini Sutras* by Prof. B. S. Rao).

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

In actual practice the verbatim application of Jaimini Sutras does not yield satisfactory results. They yield results when the Navamsa principles are extended to Janma Lagna and Navamsa Lagna. According to Prof. B. S. Rao, Yoga may be defined as the shortest form with the largest meaning possible. Jaimini Sutras and other sutras framed by Maharshis of yore are capable of a variety of interpretations depending upon the intellectual ability of the astrologer.

The following yoga is to be found in Dr. B. V. Raman's *Three Hundred Important Combinations*.

Mooka Yoga :- This Yoga is formed when the 2nd lord is posited in the 8th house with Jupiter. Result: The person becomes dumb.

This Yoga is applicable to the Rasi chart as Jupiter (lord of the 8th house in Rasi Chart) is posited in the 8th house from Navamsa Lagna and further aspected by Saturn. The conjunction of Jupiter and Ketu has destroyed the significations of the 2nd house. (Jupiter is the lord of the 2nd house.)

In Hindu Astrology intelligence, comprehensive and creative faculties, learning, *poorva punya*, fortune, progeny etc. are judged from the 5th house and the lord of the 5th house. I have observed that the decanate lord of the 5th cusp (5th decanate counted from the sign decanate) seems to play a more dominant role than the lord of the 5th house. This is certainly not a final statement but just an observation with my humble experience in judging nativities.

In this horoscope the cusp of the 5th house (13th decanate) falls in Libra decanate (2nd decanate of Gemini) ruled by Venus who is posited in a saturnine sign (Saturn has inhibitive and restrictive influence) in rapt conjunction with Mars, a malefic planet, in the 12th house from Janma Lagna and placed between Sun and Saturn under a Papakartari Yoga. Thus we find that Venus is much afflicted and powerless due to which the significations of the 5th house have suffered considerably. In spite of being deaf and dumb she got married on 27-11-1985 in the sub-

Chart 2: born on 4-5-1974 at 4.45 a.m. (IST) at 16° N 23', 80° E 30'] is that of a girl born deaf and dumb. She was born in the 3rd degree of Aries. The lord of the 2nd from Lagna and from Navamsa Lagna is Venus. In the Navamsa chart, Venus is afflicted being in conjunction with Ketu indicating a defect in the faculty of speech. In Rasi, Venus though exalted is in degree square (90°) to Saturn destroying the significations of the 2nd house. Further, the 6th degree of Pisces (occupied by the lord of the 2nd house) is an unfortunate degree indicating loss of property, or loss of reputation, loss of a faculty or loss of a limb in rare cases.

The conjunction of Mars and Saturn in the 3rd house has caused deafness. The degree opposition between the Ascendant and Uranus is generally bad indicating strange misfortunes and incurable diseases and nervous disorders.

The cusp of the 3rd house (2° 30' Gemini) falls in Libra Navamsa ruled by Venus who is posited in an unfortunate degree of Pisces in degree square to Saturn indicating

that she was born deaf as a result of which she has become dumb.

Chart 3: (born on 2-11-1967 at 11-02 a.m at 8N 30', 78° E 08' is of a deaf and dumb boy. The striking feature of this nativity is the square aspect between Mars and Saturn (two first rate malefics) involving the Ascendant. This indicates a bodily defect and mental defects as well. It will be seen that the cusp of the 3rd house falls in Libra decanate (24° -35 Aquarius) ruled by Venus who is much afflicted by being in conjunction with Pluto, a malefic planet due to which the significations of the 3rd house (hearing) are destroyed.

He was born in Scorpio Navamsa with Ketu in Navamsa Lagna. Rahu and Ketu are very powerful malefics as they are poisonous by nature. In my

experience I have found that the disposition of Rahu or Ketu in Navamsa Lagna (in addition to the 2nd house) is usually bad indicating deficiency in character or deficiency of some faculty, sometimes it denotes bodily defects.

There is a dictum in Jaimini which says if Rahu joins the Atmakaraka in Navamsa, the person will earn his bread as a thief and dacoit (deficiency of character) *Gajavyaharinaschourascha Ketu*-is another Jaimini aphorism which means that when Ketu joins Atma Karaka in Navamsa, the person born under such a combination will trade in elephants or will become a thief or robber (*vide Jaimini Sutras* by Prof. B. S. Rao).

Most of the Jaimini principles based on Karakamsa yield results when they are extended to Navamsa Lagna.

of Scorpio in Cancer Navamsa. The lord of the 2nd house from Navamsa Lagna is the Sun, who is in rapt conjunction with Ketu indicating blindness or a defect in the faculty of speech. A significant feature of this horoscope is the disposition of Moon in the 26th degree of Aquarius which is known as the degree of *Blinding* (*Vide* Sepharial's *Degrees of the Zodiac Symbolised*).

One born in this degree will have a physical or a mental defect. Another noteworthy point is that the lord of the Navamsa occupied by the Moon (Venus) is posited in the 8th house in conjunction with Ketu. This indicates that one of the faculties will be afflicted. The disposition of Rahu in the 2nd house from Navamsa Lagna is also bad. Jupiter who is the lord of the 2nd and the 5th (in the Rasi chart) is posited in the 8th in Aquarius Navamsa. This constitutes *Mooka Yoga* making the native dumb. The presence of this yoga is also capable of making the native deaf or blind.

Sukradgounapadastho Rahuh Surya Drishto netraha - is a Jaimini aphorism which means — if the 5th house from Aroodha Lagna is occupied by Rahu and the Sun aspects him, the person will lose his sight (*Vide Jaimini Sutras* by B. S. Rao). This aphorism can be interpreted in a number of ways.

1. If Rahu and the Sun are in conjunction on the cusp of the 5th house from Janma Lagna, the sight of the native will be affected.

2. Since the luminaries (the Sun and the Moon) signify the right and left eyes, it can be stated that the conjunction of the Moon and Rahu or Moon and Ketu on the cusp of the 5th house will adversely affect the eye sight either at birth or later on in life due to accidents etc.

Since the 2nd house signifies speech, sight and eyes, it can be stated that the conjunction of Moon and Rahu (or Ketu) or Sun and Rahu (or Ketu) on the cusp of the 2nd house produces defects in speech or sight etc. depending upon the severity of affliction and other astrological factors. I have seen the horoscope of a teacher born in Gemini Ascendant (1st May 1951) in whose chart the Moon (lord of the 2nd) is in Aquarius in close conjunction with Rahu. He is a thorough liar, a cheat and is habituated to misuse the faculty of speech to such an extent that his colleagues have nick-named him "cobra". As the conjunction of the Moon and Rahu took place in the 9th house, he is quite irreligious, immoral and given to dubious ways of living, although a teacher by profession. He is a rationalist who does not believe in God, religion and Astrology.

Chart 5 : (born on 23-6-1917 at 10.08 a.m with a balance of 14 years, 0 months and 9 days of Mercury Dasa) has a striking feature in the

Astro-Acupuncture and Eczema

DR. AMAN, M.A., M.D., D.SC. (SWEDEN), PH.D.

Acupuncture

Acupuncture is the ancient art of treating diseases by pricking needles over certain specific spots over the body. The correct depth and the direction of the needle in the Acupuncture point is very important for the proper influence. This ancient art was practised mostly in China and India about six thousand years ago.

It will be interesting to note that the arrow-bed on which the grand-sire Bhishma of *Mahabharata* lay in the battlefield of Kurukshetra is an example of the anaesthetic effect of Acupuncture. In ancient times in India Acupunture was practised and known as *suchi-chikitsa*, piercing the nose, ears etc.

Even before seven thousand years ago it was noted in China that soldiers wounded by arrows sometimes recovered from illnesses which had afflicted them for many years. Through these observations, the idea evolved that by penetrating the skin at certain points many incurable diseases could be spontaneously cured. Later it was observed the size of the wound did not matter, only its exact location and depth was important. the Chinese, then began to copy the effects of the arrows by artificially puncturing the skin with needles.

At first, pointed minute wooden sticks were used, then thorns and still later, iron and bronze needles took the place of wooden needles. By 2950 B.C., it had been observed that different metals had different effects. In order to cure some diseases it was necessary to produce a stimulating effect and for others, a sedating effect. It means the energy during its circulation in its circulatory pathways goes high and low depending on the type of disease. In acute or Yang diseases the energy goes high in a respective meridian which is connected to a particular organ of the body. To counteract the imbalanced energy, a certain Acupuncture point is pierced with Acupuncture needles. The technique of bringing down the high energy is known as Sedation and elevating the low energy to normal level by piercing the Acupuncture point is called Tonification.

The Chinese discovered that the meridians on the pathways in which the energy or vital force or *prana* circulates are linked to major vital organs of the body. For example there are six meridians running up and down over the two arms, lung, pericardium and heart in which the energy flows down. Large intestines or the colon, triple warmer and small intestine are areas in which the energy goes up. From the head three meridians through stomach, bladder and gall bladder go down ending in the toes of both

feet. From different toes three meridians go through the spleen, liver and the kidney up. The Chinese discovered that the peak level of the energy continues for two hours and take 24 hours to complete one cycle in 12 meridians. For example, the commencement of the energy takes place in the lung meridian at 4 a.m. It leaves the lung meridian at 6 a.m. to enter the colon or large intestines. Indian sages also found that the body remains in full bliss during this period which is known as Brahma-Muhurta. Therefore, Pranayama and meditation are usually practised during this very auspicious hour.

The following diagram shows the energy circuit and Acupuncture point of the respective organ where the energy can be controlled for treating diseases.

Medical Horary Astro Acupuncture

The author of this paper recently discovered a new method of treating diseases with the aid of Astro-Acupuncture. The author has invented a device called Stellar-scope which shows the correct Rasi, the ruling planet, Drekkana ruler, the element of the zodiac, the peak level energy in a respective meridian in a particular Rasi and the therapeutic acu-point. In the Stellarscope Drekkana System is used to locate the exact ruling planet in its governing house.

Medical Astrology is a part of the supreme celestial sciences dealing with the zodiacal, planetary and stellar influences which affect the health, constitution, functions and habits of life. In fact medicine is a branch of Astrology. This conclusion is clear on its very face. Configurations of planets in the heavens in certain angular positions, when they are not in harmony with the energies of the individual, bring about certain disturbances in the physical and mental dispositions. To avert this evil influences of the planets the ancients discovered remedies such as certain Mantras, Yantras, prayers, wearing of specific gems, taking herbs in the form of medicine etc. The author of this paper discovered that treating diseases at a certain period using the method of Astro-Acupuncture reduces the negative influences on the human body and mind.

The ancient sages by intuition, divine guidance and observation discovered that each Rasi, planet and Nakshatra governs a specific organ of the body and the evil influences of a particular celestial body causes disease. A detailed account of Medical Astrology is beyond the scope of this paper. The readers of this magazine can find details of Medical Astrology in *Hindu Predictive Astrology* by Dr. B. V. RAMAN and the author's book, *Astro-Acupuncture and Electro Therapeutic Research* (under print).

Application of Astro-Acupuncture in Eczema

Every individual can be treated successfully no matter what the disease is if this new method is applied as soon as the person feels sick except in cases of severe emergencies such as acute apendicitis, cardio-vascular emergencies or traumatic emergencies. In such conditions along with the specific treatment, Astro-Acupuncture can also be applied by a qualified physician trained in this new method.

The topic of discussion here is with specific reference to Eczema which is a chronic skin disease caused by various external and internal factors such as contact dermatiis, allergy and constitutional internal disturbances etc. The treatment of eczema under any system of medicine promptly gives relief and cure, but the majority of eczema cases suffer from socio-psychological trauma and physical disturbances like intense pain, itching and foul smelling discharge.

CONSULTING TIME 12H.56M.11S

This boy consulted me on 19-5-1978 at 12h. 56m. 11seconds.

When a patient comes for consultation, in order to treat with Astro-Acupuncture first note down the position of the Second hand, the Minute hand and the Hour hand and draw the figure like the hands on the dial of the watch as shown in the figure, marked with 12 Rasis from sunrise to sunset.

(a) *The Position of the Second Hand*

At 11 seconds, the hand in the Rasi of Sagittarius is between 2 and 3 p.m. The Second hand is pointing to the first part of Sagittarius governed by Jupiter. The bio-energy is at peak level at Acupuncture point-small intestine, Si-5 (Ref. Table 1).

(b) *The Position of the Minute Hand*

The Minute hand is in the Rasi of Virgo between 11 and 12 noon, pointing at 56 minutes to the first part of Virgo, governed by Mercury. The bio-energy is peak level at spleen - Sp. 3 (Ref. Table 1).

(c) *The Position of the Hour Hand*

The Hour hand is in the Rasi of Libra between 12 and 1 p.m. pointing at 11th part of Libra governed by Sun. The bio-energy is peak level at Heart H4.

With the information given above the Horary Horoscope is cast.

In this horoscope the Lagna is selected as Sagittarius, because the fastest hand in a watch is the Second hand. Jupiter is the governor, because the Second hand is pointing to the first Drekkana part of the 9th Rasi. The Moon is placed there because it is the fastest of the planets.

The next selection of the house in this horoscope pointed by Minute hand is Virgo and Mercury, the first part of the Rasi at 56 minutes.

The other Rasi pointed by the Hour hand is Libra, since the major portion of the Rasi was nearly complete, the hand pointing to Sun is Virgo.

The 6th house from Lagna is Taurus, the health house. Since Venus governs the health of the native the author preferred this planet in the health house.

Analysis of the Horoscope

Sagittarius

Sagittarius is the 9th house of the zodiac. It has the fiery element governed by Jupiter. In Asto-Acupuncture the general features of the native are very helpful. Sagittarius governs the hips, thighs and other parts of the human body according to the degrees in which the native is born.

The governing planet Jupiter in this Rasi is a great benefic and helps the native to recover from diseases such skin allergies, cardio-vascular disorders etc. The Moon with Jupiter in the Lagna imparts very good chances of recovery from the disease and gives good health.

Virgo

Virgo is the 6th Rasi and it is an earthy sign. The 6th house of the native is considered as the Health House. Since Virgo is not the Lagna of this horoscope, the characteristic features are not described.

Mercury, the lord of Virgo, causes eczema of the legs and other dieseases caused by sexual abuse and sexually transmitted diseases, AIDS etc.

Libra

Libra is the 7th Rasi which has air as its element. It is governed by planet Venus. In this horoscope as Libra is governed by Sun, the giver of life and health, the chances of full recovery are great.

Taurus

Taurus is the Health house in this horoscope. It is the sign of exaltation of the Moon the watery planet - in this earthy sign both are benefic. Venus as the governing planet in this house, gives all the beneficial effects to the native in this horoscope. In the light of these beneficial factors it can be inferred that the native has the best chances of complete cure. The peak level bio-energy in Taurus is at Co 11 during 7 to 8 a.m.

The Technique of the Treatment

(a) First day's treatment

The first day's treatment is commenced from Lagna Rasi, the 9th. Since small intestine Acupuncture Meridian has the peak level bio-energy at Si. 5 Acupuncture point, it is selected for needle therapy.

Small intestine Si.5 is the fire point situated at the medial aspect of the wrist in a groove lateral to the ulnar styloid process. Pricking this point with the Acupuncture needle to a depth of 6 mm. in a vertical direction at 2.00 p.m. helps the restoration of fluid balance and removes the auto toxins through kidneys.

The Moon is the indicator of Lagna Rasi and is the lord of Cancer. Cancer belongs to water element. In Cancer the Stomach Acupuncture meridian has the peak level bio-energy at its Acu-point St. 43; therefore this point is selected for needling.

Stomach St. 43 the water point located at the dorsal aspect of foot proxymal to the webspace between the second and third toes. Pricking this point with Acupuncture needle to a depth of 2 mm. in position slightly pointing towards the toes balances the chemical energy, distributes nutrition to the cells and cures skin diseases and controls pain.

Observation

After the first day's treatment, the patient felt immense relief in pain and itching.

(b) Second Day's Treatment

Next day the treatment was given at 11 a.m. at spleen - Sp. 3 Acupoint. This point is located at the inner aspect of the foot posterior to the head of the first metatorsal bone. Pricking the point with Acupuncture needle to the depth of 6 mm. vertically controls the secretion of the steroid hormones and cures the inflammatory diseases in the body.

Observation

After the second day's treatment the pain and itching were very greatly reduced. But the oozing of

Hindu Astronomical Instruments

K.R. KRISHNAMURTHI

Ancient Hindu astronomers were not lacking in the knowledge of astronomical instruments, their designing and construction followed by their proper use in respect of their needs. From the days of *Surya Siddhanta* these instruments were handled for specific purposes. There is often a separate chapter on instruments in some of our Siddhantas. So, from ancient times, Hindu astronomy developed independently and in that process, it had so much to give to the world outside than to receive from it.

Instruments were generally referred to as "Yantras" from ancient days. The earliest reference is to 'Jala Yantra' or 'Water Clock' made in *Vedanga Jyotisha*, for reckoning the exact time, which is the determining factor in Hindu Astrology or Astronomy for a given moment.

The observatory is not a modern concept, as there existed in India a famous ancient observatory at Ujjaini 23° N. Latitude which was used from early days by our ancient astronomers like Varahamihira, Lallacharya, Brahmaguptha, Bhaskara, King Bhoja and his court astronomers, Ganesa Daivagnya and similar well-known astronomers in their own times. Hence it was called the Greenwich of India!

This observatory included elevated masonry erections to observe stars conveniently supplemented by wooden and metal instruments, specially designed to determine Polar latitudes and longitudes of planets and stars and their angular measurements, etc. They constantly strived to achieve unity among calculated figures and observed results. So the statement of some western writers that Hindu astronomers were poor observers cannot be sustained. Hindu tradition always favoured observation and an observatory was termed Vedasala and Drishtiveda was associated with observation.

The first astronomical instrument discovered by Hindu astronomers relates to reckoning of time called Jala Yantra or Gati Yantra, mentioned in *Vedanga Jyotisha*, the earliest astronomical work of the Hindus.

The first *Arya Siddhanta* (*Aryabhatiyam*), the second *Arya Siddhanta*, modern *Romaka*, *Sakalya*, *Brahma* and *Soma Siddhantas* do not contain a chapter on instruments. But Brahmaguptha speaks of instruments about Chakra and Chapa instruments in his work. Later astronomers wrote works under the names of the instruments they designed and used. Bhaskara in his *Siddhanta Sironani* (1150 A.D.) described about ten astronomical instruments in use during his days and the Palaka Yantra, designed and used by him.

1. *Gola Yantra or armillary sphere:* This astronomical instrument consists of an arrangement of rings, all of which are circles of same sphere used to show the relative positions of the celestial equator, ecliptic and other circles on the celestial sphere.

2. *Chakra Yantra or the disc instrument*

This is one like Gola Yantra, to find time from the position of the Sun, its altitude and zenith distance. This was also used for finding latitudes and longitudes of planets.

3. *Chapa Yantra or the semi-circular disc*

This instrument would take the form of a bow or the protractor used in geometry. Angular measurements of planets are largely determined by the use of this instrument.

4. *Turiya Yantra*

This would be half part of the Chapa instrument. This may be called a Quadrant.

5. *Chakra Yantra, Chapa Yantra and Turiya Yantra* are mainly used for taking observations. Thus observation of celestial bodies can be found to occupy a prominent place during Bhaskara's days.

6. *Gola Yantra* or *Globe Instrument*

This is used to study the shadow cast by the Sun and thereby calculate the Ghatis elapsed after sunrise. The Ascendant *i.e.* Lagna at that time is also determined by the use of this instrument.

7. *Nadivalaya*

In this instru-ment a rod is passed through the centre of a circular disc graduated with Ghatikas. From the shadow cast by the Sun on the disc, calculations are made for Lagna, Hora etc.

8. *Jala Yantra*

This is called Ghatika Yantra, to measure passing of a Ghatika or 24 minutes of time.

9. *Sanku*

This is a 12-inch long rod, fixed on the ground, starting with its equnotical day shadow, cast by the Sun's rays exactly at noon. All shadow calculations start from that day onwards.

10. *Palaka Yantra*

This is an instrument similar to Chakra Yantra designed by Bhaskara. This is used for finding time.

11. *Yashti Yantra:*

This is used for finding Phalaba or Phalachaaya. Brahmaguptha and Lallacharya have described methods for finding the distance between Sun and Moon and from that; the Thithi, by a different type of *Yashti Yantra*. Varahamihira also has mentioned about some instruments in his *Pancha Siddhantika*.

Discussions about the shadow cast by the Sanku (gnomon) are found in *Athmva Veda*. As such the use of gnomon went to the West from India and not *vice versa*. Bhaskara has written a separate work on Sarvatobhadra Yantra. But it is not available today.

Subsequent to Bhaskara, Padmanabha (1398 A.D.), son of Narmada, wrote a work called *Yantra Ratnavali*, describing the various astronomical instruments used in his days. The work consists of 31 *slokas*, followed by a commentary by himself. Kesava II, father of Ganesa Daivagnya, was a distinguished observer, which is reflected in his work *Graha Kauthuka*, in a remarkable manner.

Dhruva Brama Yantra is an instrument described by Padmanabha, meant for finding time. Another instrument mentioned by him relates to the determinations of the Lagna at any moment whether day or night.

A mathematician named Chakradara, son of Vamana, who flourished after Padmanabha probably in Saka 1400 (1478 A.D.) compiled a work named *Yantra Chintamani*. The work has four chapters containing 26 *slokas*. *Yantra Chintamani* as described by the author, was a kind of quadrant instrument. The observations taken with this instrument give the longitudes of the Sun and Moon and also those of the planets, the time and the Lagna for that moment etc. They relate to Sayana system.

Subsequent to Chakradara, the famous astronomer Ganesa Daivagnya (1520 A.D.), son of Kesava Daivagnya, compiled a work on astronomical instruments called *Bahuda Yantra*, comprising of 13 chapters. The author claims that when while riding on a horse, one can find time by observation with the help of this instrument and also the shadow cast by the Sanku (gnomon) at that moment.

Subsequent to Ganesa Daivagnya the famous author of *Yantra Laghava*, Nrisimha Daivagnya (1556 A.D.) son of Krishna Daivagnya, in his *Bhashya on Siddhanta Siromani* of Bhaskara, mentions about a number of instruments like *Yantra Raja* (Astrolabe) and a variety of other instruments like *Hamsa Yantra, Angara Yantra, Brahmachari Yantra, Tomara Yantra, Sarabheda Yantra, Dhi Yantra* etc. *Sarabheda Yantra* was handled for eclipse purposes. About 1590 A.D. Rama Daivagnya wrote a work called *Yantra Prakasa*, which is not traceable today.

There might have been several such works on instruments. Rama, son of Madhusudana, a resident of Parthapura, the commentator on *Yantra Chintamani*, observes thus:

Vilokithani Yantrani Krithani Bahuda Budaihi
Mathaha Siromani Theshaam Yantra Chintamanirmama

meaning, that he has seen all instruments prepared by learned men, and it is my belief that this *Yantra Chintamani* is the best of all.

This shows that several kinds of astronomical instruments were used by our ancient astronomers for ensuring best results by direct observations. As such **there is no basis for the remarks of some Western writers that the astronomical results of Hindu astronomers were got more by calculations than by observation.**

It may be pointed out here that the Paris observatory was completed in 1671 A.D. and Louis XIV posted an Italian astronomer named John Dominic Cassini to take charge of this observatory. Greenwich observatory was started 4 years later and the first Nautical Alamanac was published in 1767 A.D. Galileo discovered the Telescope in 1609 A.D., an astronomical instrument of outstanding value.

Till as late as 1791 A.D. astronomical instruments were designed and put to use in India. For example, an astronomer by name Chintamani Deekshit of Satara wrote a work called *Golaananda*, describing therein the details of his instrument, the method of its use for purposes of observation. Among these instruments the *Sanku* (gnomon) and the quadrant are found at some places. A few ancient instruments are still in possession of the families of some astronomers in Maharashtra.

Sawai Jai Singh of Amber who ascended the throne at Amber in Saka 1615 (1693 A.D.) was the last king, a scholar and astronomer to establish observatories for celestial studies, for arriving at more exact figures. For this purpose he established observatories at five places in Northern India like Jaipur, Delhi, Ujjaini, Varanasi and Mathura.

The equipments installed at these places were mostly built in brick and mortar in huge sizes. He preferred masonry constructions to small sized metal instruments. Of these, Jai *Prakash*, *Bitti Yantra* (wall instrument), *Yantra Samrat* and *Vrittasthamba* etc. were designed by him. A variety of astrolabes for specific use constructed by him, numbering about thirty, have been lost, only a few are found today. He appointed a great scholar Pandit Jagannath as the chief astronomer who compiled the remarkable astronomical work named *Siddhanta Samrat* in about Saka 1653 (1731 A.D.) consisting of 13 chapters.

In the glorious history of Hindu astronomy, the part played by a number of and a variety of astronomical instruments at the hands of our distinguished astronomers from ancient days, in arriving at most amazing results, culminates at the hands of King Jai Singh (Jai Simha) with his remarkable achievements by giving priority for observation and observed results, as we find today.

Astronomical instruments used in ancient days were private possessions, carefully guarded. Many of them have not survived the barbaric onslaughts and plunders of successive Muslim invaders. This is one of the main reasons for our losing all important links in the glorious history connected with observation of celestial bodies.

Some astronomical manuscripts and instruments that escaped destruction in the hands of Muslim Vandals earlier fell into the hands of Timur, the Tartar firebrand of Central Asia, the most dreaded invader, who took them to his country as war trophy in 1369 A.D.

The translation into Arabic and Persian languages of the Hindu astronomical works, so acquired, later on helped Ulug Beig, the grandson of Timur, to prepare his well-known *Tables of Stars* in 1437 A.D.—152.91.

Indications for Love Marriages

R.M.BANERJEE

When two persons of the same sex feel irresistibly attracted towards each other, they become great friends. If however they belong to the opposite sexes such friendship blossoms into love which may or may not culminate in marriage. There is also a third possibility. After marriage, they may gradually lose mutual attraction and fall apart. this is, of course, the saddest part of the whole story. The main focus in this article will be on love through planetary indications for happy and unhappy marriages.

In Astrology, prospects for love affairs are mainly judged from the 5th house, its lord and planets posited in the 5th house and those for love marriages from a study of relationship, direct or indirect, between the 5th lord on the one hand and the 2nd and 7th lords on the other. Such relationships may take the form of conjunction, reciprocal aspect , exchange of houses or aspect from a planet's house on the planet itself and assume optimum sensitivity if involving such houses as are either directly or indirectly connected with love (5th), sex (7th), happiness (4th) and comforts (12th).

A powerful natural benefic placed in the 5th house, unafflicted with malefics and elevated through Jupiter's aspect, is generally considered favourable for a healthy love life. This type of excellent configuration is however rarely found in horoscopes where usually mixed type of influences operate on the 5th house resulting in complications in our love and emotional life. Anyway for understanding the problem in broad terms it may be said that the Moon, being representative of emotions, works well in the 5th house. Venus, the natural significator of love, sex and married life, produces excellent results in the 5th house. Jupiter in the 5th ensures stability in love life. Mercury in the same house ensures early maturing of love into marriage. Saturn in the 5th causes delay, Ketu blocks and complicates while Rahu and Mars in the 5th house have potentialities to cause abrupt termination of love life through impulsive action or stiff opposition from others.

A debilitated 5th lord causes disappointments in love affairs. Such disappointments may also be experienced if the 5th lord stands afflicted in the birth chart. Mars as the 5th lord in the Ascendant Cancer is an instance in this regard. Such Mars gives too many fleeting connections without any tangible results. Another instance is Jupiter's debilitation as the 5th lord in the 6th house Capricorn. Frustrations in love affairs are possible when a planet specially a natural malefic as the 5th lord gets debilitated in the 7th house or a 7th lord in debility in the 5th house. For example, Jupiter as the 7th lord in the 5th house Capricorn under the rising sign Virgo is not a happy sign for a successful love life. A debilitated Sun as the 5th lord in the 7th house Libra conjoined with Venus under the rising sign Aries or a debilitated Saturn as the 5th lord in the 7th house is also not good. Aries with the 7th lord Mars can destroy conjugal life after love marriage.

Conversely it may be said if Jupiter as the 7th lord under the rising sign Gemini is found placed in the 5th house Libra, the house of Venus, the native's wife may become an asset to him. When Moon as the 7th lord under the Ascendant sign Capricorn gets exalted in the 5th house Taurus or when Venus as the 7th lord under the rising sign Scorpio gets exalted in the 5th house Pisces the native's wife becomes a source of constant joy to him.

A natural benefic as the 5th lord strongly posited in the 9th house is one of the best placements for a flourishing love life because the 9th house represents the same angular distance from the 5th house as the 5th house from the Ascendant. Following the same logic it can be said that the 5th lord in the 12th is the least to be desired because it represents the 12th house from the Ascendant and 8th house from the 5th implying thereby termination (12th) and destruction (8th) of love. Exceptions however are location of Venus as the 5th lord in the 12th house Taurus or Pisces. In fact, the 12th house denotes bed pleasure and bed comfort while love operates on the mental plane. A natural malefic as the 5th lord in the 12th house specially with Rahu can drive a man to impulsive sex act with the resultant effect of physical contact with his lady—love even before

Chart 1 belongs to a lady who had a love marriage but her husband died of heart attack when she was only 42. Now she is leading a lonely life.

The horoscope visibly displays exchange of houses between the 5th lord (Saturn) and 7th lord (Mars). Mars is exalted in the 4th house and

aspecting the 5th lord in the 7th. The 5th lord in the 7th remains retrograde coiled with Ketu. So both love marriage and premature loss of husband are strongly indicated. Moon-Venus-Jupiter-Mercury relationship has evidently fortified the trend towards romantic disposition.

The owner of Chart 2 had a number of infructuous and unreciprocated love affairs which caused disappointment and frustration in him during the major period of Jupiter from 1980 till date.

The 5th lord Jupiter in this horoscope is retrograde in the 8th house receiving sextile aspect from Saturn in Capricorn. The 7th lord Saturn is retrograde in the 6th house. The 5th house is occupied by Ketu. So both the 5th house and its lord are damaged without any signs of compensating element. Severe afflictions on Venus and Rahu-Moon conjunction are also not encouraging signs for a stable emotional life. Jupiter as a 5th lord has helped bring these latent traits of the horoscope to the surface.

Chart 3 presents a sharp contrast to Chart 2. This has been given below to enable readers to understand why the owner of Chart 3 had a successful love affair while that of Chart 2 had failed on many occasions.

Presence of a natural benefic as the 5th lord in the 7th house and location of two other natural benefics *viz.* Venus and Jupiter are the most outstanding features of this chart . It is true that the 7th lord Mercury is in the 6th house conjoined with Mars and Sun aspected by Rahu. As a result the

lady to whom this horoscope belongs, faced initially some problems when she was in love with a man but ultimately marriage was celebrated in a befitting manner. Here deficiencies of the 7th lord and its lack of connection with the 5th lord has been compensated through 5th lord's placement in the 7th house.

Retrograde and afflicted Venus is capable of creating enormous problems in married and love life. Chart 4 has been used to emphasize this aspect of love and married life.

The native of Chart 4 fell in love with a girl and married her but the girl after six months of married life, left the man with her paramour.

The first question is why there was a love marriage. This is because the 5th lord Saturn is exalted in the 2nd house conjoined with the 2nd lord Venus and the 7th lord Jupiter

is exalted in the 11th house Cancer trinally aspecting the 7th house Pisces.

The next question is why there was separation. This is because both the 7th lord Jupiter and the 2nd lord Venus are retrograde and afflicted by Saturn through his aspect and conjunction respectively.

The chart also shows severe afflictions to the 12th house due to combined influence of Mars and Rahu indicating thereby stress on the sex life of the native.

The owner of Chart 5 is a free lance journalist who married a girl of his choice. The married life is now totally colourless. Though the couple live under the same roof, they are mentally separated and almost strangers to each other.

The native married a lady towards the end of 1961 after a brief courtship. At that time he was under the operative influence of Moon-Venus. Readers may mark that the Dasa lord Moon is in the 2nd house directly opposed to the

retrograde 5th lord Jupiter in the 8th and the Antara lord Venus. The natural significator is in the house of Saturn with which the Dasa lord is conjoined. Love and marriage therefore both became possible.

Now the 5th lord is retrograde in the 8th house aspected by Saturn. The 7th lord Venus is in the 3rd house sandwiched between two natural malefics. The 5th house is occupied by Rahu and above all the 5th and 7th lords are in the 6th and 8th houses from each other. Thus though the Dasa helped marriage, discolouration of relationship proceeded at a much faster pace. Mars-Venus mutual opposition also aggravated stresses and strains of married life.

Thus though the 5th lord is a basic determinant of the love life of a native, its modality of operation depends, to a considerable extent, on its locational strength, state of motion and relationship with other strategic planets in the birth chart. Planets posited in the 5th house and the type of influence operating on them also have a lot to do with such expression. This therefore demands study of a horoscope in its totality and concurrent application of rules for obtaining correct results.

At the beginning when I talked of relationship between the 5th lord on the one hand and the 2nd and 7th lords on the other, I should have discussed several variants of this relationship. For instance, instead of establishing direct relationship with the 2nd and/or 7th lord, the 5th lord may operate through some other planet which is linked to them. Suppose, Cancer is the rising sign of a native whose 7th lord Saturn is posited in the 5th house Scorpio where Venus is also situated. Venus, however, has interchanged its house with that of Mars in the 4th house Libra. Here Mars, therefore, is linked to Saturn through Venus.

Let us cite another instance. A lady with the same rising sign has

Lastly, 5th lord-7th lord relationship ing in a birth chart assumes ility when Venus intercepts that pattern or when the ionship is favoured through ter's aspect. The Moon - Myths and Facts

MRIDULA TRIVEDI

The Moon has been assigned a very pivotal role in Hindu Astrology. Though smaller in size but closest in distance, the Moon has very evident effects on various animate and inanimate objects on the earth. Trees and plants grow faster in the bright lunar half as compared to the dark. That is why often a beneficial Muhurta is elected for sowing the seeds. A western astrologer Mr. Jeri had found that the beards of men grow faster in bright half. Ebb and flow of tides of the oceans are caused by the influence of the Moon on earth. Fishes deliver eggs only in the bright lunar half. All such observable effects prominently display the Moon's powerful influence on earth.

Moon — Its Paramount Importance

Undoubtedly the Moon is a planet of vital significance. The cycle of human lives is largely governed by the Moon. The degrees travelled by the Moon in a particular sign at a particular time decide the bent and structure of our mind and body. The position of the Moon at birth decides the time of various events of our lives. Longitudes of the Moon fix the Dasa-Bhukti one has to undergo, which ultimately reflect the period of any happenings of our life—good or bad. We even use the Rasi name to denote the Moon's position. The Moon's movement controls our day-to-day routine, our moods, behaviour, nature and temperament. The Moon largely controls the span of life of children, menstruation cycle of ladies. All auspicious celebrations such as marriage, important undertakings, long journeys, festivals, Vratas and religious rites are performed during the Moon's stay in an auspicious star.

The Moon, if placed suitably, can make one a king or one equal to him. Mantreswara says:

गुणोत्तमें लग्न नवांशका दृगमे
निशाकरश्चापि गणोत्तमेडपिवा ।
चतुर्ग्हैश्चन्द्रविवर्निंतैस्तदा निरीक्षितः
स्याद धमोदभ्वो नृपः ।।

If the Full Moon is aspected by a planet who occupies own or exaltation sign, one becomes a king even if he is born in very poor circumstances.

The same author again says:

सुधा मृणालोपम विम्ब शोभितः
शशी नवांशे नलिनीपियस्य ।
यदि क्षितिशो वहुहस्तिपूर्णः
शुभाश्च केन्द्रेषु न पापयुक्ताः ।।

The author means to say that Full Moon if it falls in the Navamsa of the Sun and benefics are unafflicted and they join Kendras, such a native becomes a king and has many elephants (a very prosperous, famous and rich person).

जलचर राशिनवांशक इन्दुस्तनुभवने
शुभदस्वक वर्गे ।
अशुभकरः खलु कण्टकहीनो भवति नृपो
वहुवारण नाथः ।।

If the Moon falls in a watery sign and Navamsa in the Lagna, own Vargas or in a benefic Varga, one becomes a king with many elephants provided no malefic occupies a Kendra.

Thus the Moon is a planet of great importance. *Phaladeepika* states that the strength of the Moon is a basic foundation of the strength of the horoscope. (Strong Moon means strong mind.)

The fourth sign of the zodiac, Cancer, is ruled by the Moon. He is exalted in Taurus, a sign ruled by his enemy, Venus, debilitated in Scorpio, owned by Mars, its friend. Likewise Mars gets debilitated in its friend's house Cancer. Thus both friends get weakened in each other's place. Suppose the Moon joins the 7th house in Venus' sign Taurus. Auspicious results regarding 7th house can be predicted as a general rule. Whereas its presence in the 7th in Scorpio — though in its friends' sign—will be regarded as forestalling evils.

The Moon Chart

A very popular and widely applied dictum is that predictions should be made by a Lagna Kundali or the Chandra Kundali whichever is stronger. It implies that all the judgment is required to be done by the Moon chart only if it is stronger than the Lagna chart. Here an important question arises as how to judge which is stronger ? It is not so easy so long as Shadbala of planets and Bhavabalas are not worked out correctly. I do not know if the strength of the Bhava occupied by the Moon should be taken as the strength of the Moon chart. If it is not so, should the strength of the Moon be taken into account? How will I compare the strength of the Moon with the strength of the first house? Obviously, Moon and Lagna are two different things. One is a planet and the other is a house and these cannot be compared together for the purpose of judgement of their relative strengths. If at all it is so that stronger chart should be taken for judgement. One should consider the houses owned by the Moon and Lagna.

The other possibility of comparing the relative strength is to consider the strength of the Moon and Lagna lord. Suppose the Lagna lord occupies the 12th house, one will outrightly say that Lagna is weak. Now see the Moon chart. The dispositor of the Moon is situated in the 8th or 12th house from the Moon. Which will be treated as stronger? Merely by placement of Lagna lord in the 12th, 6th or 8th houses the Lagna does not become weak. And if the Lagna is weak, why should the Moon chart be considered for judgement of the horoscope, as lord of the Moon's house too is placed in a similar position? If the Lagna is weak, overall strength of horoscope gets reduced. The concerned native will have to face obstacles and tough times in his life. If it is so, why should the Moon chart be considered? In my view predictions should always be made from the Lagna and not from the Moon.

The Moon governs one's will, desires, emotions, thoughts, mind, wishes, sentiments, ambitions, decisions and temperament. If the Moon is stronger, one is controlled by his mind. He has a strong will. He has a good decisive power. His determination is strong. He acts as per his mental analysis and after thoroughly weighing the pros and cons of his various actions. Such a native is ruled by his mind while others are ruled by circumstances.

If the Moon is strong and the Ascendant is weak, and one's vocation is to be judged, one should try to find out from the Moon as well as from Lagna. If the Moon chart indicates any particular profession and Lagna chart supports it, the native will surely be engaged in that occupation and that will suit him too. Similarly if Lagna is stronger and signifies any particular field of livelihood which is also supported by weak Moon chart that field of business or service will favour the native. If the Lagna is strong and Moon is weak, one goes according to the profession indicated by Lagna, which if not supported by the Moon chart will not give happiness or satisfaction in that job. The nature of one's occupation depends also on one's strong determination and will-power. A strong Moon chart makes one act with strong determination and will but he can get complete success only if the Lagna chart also supports it.

Suppose the judgement about progeny is required. One should never judge it from the Moon chart. This aspect of life, like various others, should be considered from Lagna and Jupiter. Sickness, accidents, longevity etc. should be judged from Lagna chart only.

A strong Moon chart should be considered only when certain specific aspects of life, which are governed by strong determination and will-power, are required to be judged and verified. It will be an error if a strong Moon chart is taken into account for the judgement of all the events of life without taking actual Lagna into consideration.

...y Consider Transits ...m the Moon

An important aspect of Hindu ...ology is consideration of the ...chara or transits. Whatever may ...the Ascendant the transits of ...rent planets are taken into ...deration from the natal Moon. ...is point views of some modern ...lars differ sometimes. Some ...ain that the transits should be ...en in relation to the Lagna. ...ever I do feel that our sages ...e absolutely right to consider ...sit results from the radical ...on.

As I have said earlier the Moon ...des the Dasas and Bhuktis we ...e to undergo in our lives. The ...ing of various events, good or ...d is thus under the control of the ...n whereas the nature and shape ...vents of our lives are governed ...Lagna. Can Lagna chart alone, ...hout taking the Moon into ...deration, decide the time of ...rent events of one's life? It is ...ply the position of the Moon in ...roscope, which is responsible ...deciding what will happen ...n.

...e Combination of the ...n and the Moon

The association of the Sun with ...e Moon occurs around New ...n day *i.e.* Amavasya, which is ...ded as adverse for all kinds of ...pious undertakings. This ...bination has been named as ...ono Yoga which is an adverse ... But this Yoga should not be ...ed as adverse for all occasions. ...Moon owns the 9th and the Sun ...the 10th for Scorpio Ascendant. ...h the Sun and the Moon ...ine in the 9th, 10th, 4th or 5th or even 11th, results will be quite auspicious and this will be a powerful Raja Yoga. For Aries Ascendant being the lords of the 4th and the 5th, the association of the Sun and Moon forms a Kendra Trikona Raja Yoga in the 9th, 10th, 4th, 5th or 11th houses. For Libra Ascendant, the combination of the Sun, Moon and Mercury *i.e.* lords of 9th, 10th and 11th gives rise to prosperity and wealth. This combination is very adverse for Taurus, Virgo and Capricorn Ascendants. Generally, if they are associated in the 6th, 8th or 3rd house (except for Libra) the combination produces very adverse results. The adverse results may cause death of one of the parents before 7 years of age. The childhood may be full of miseries and sickness. Chronic disease may cause worries. If the combination has an influence over marriage or marital life, one may have two marriages. If the 5th house is involved and weak along with a weak Jupiter this combination denies children. This forms a Daridra Yoga if unfavourably placed as mentioned above. One will have to serve others for the whole of their life and face various kinds of troubles. Old age is very bad.

Moon-Saturn Association

Saturn has been regarded as the worst malefic. But there is no other planet who is so kind as Saturn is. Saturn creates a feeling of detachment from the worldly involvements and creates interest in spirituality. Saturn has always produced real saints like Ramakrishna Paramahansa. Saturn creates miseries so that the native may be detached to the pleasures and glamour of life and may proceed towards the path of real attainment. Any planet associated with Saturn will either make him a king or beggar depending on their positions in the horoscope.

If the Moon and Saturn are conjoined, one runs under the adversities of the *sade-sati* of Saturn right from birth. This is named as *Udarastha Sade Sati*. This combination acts like a permanent effect of *Sade-Sati* on the native throughout life. The native always remains worried and is devoid of much happiness. At least the real happiness is absent. One faces innumerable miseries throughout and remains disturbed even in the best days of life.

The Moon-Saturn association reveals that the native had harmed a lady or girl in the previous life. The harm was so unbearable that the lady has given birth to the native and became his mother. The case may be *vice versa* also, that any lady harmed the native so much, that he has taken the birth as the son of that lady. In either case, the native does not have smooth relations with his mother, becomes poor and leads a miserable life. If the son's enmity is greater *i.e.* Saturn is stronger than the Moon, mother may expire soon after the birth of the native or she lives long to face the wrath of the son till old age, as revenge from the previous birth. This Yoga is more effective till 14 years of age. One gets inclined towards spiritualism after facing endless worries and after leading a life full of sins and curses, crime and greed. The time comes when Saturn creates detachment from all worldly involvements, deceit, greed, false glamour and sins. He becomes like a sage or a real preceptor in old age.

In fact the combination of the Moon and Saturn should be carefully judged and needs much expertise to read any final conclusion. Readers should never speak out the effects of this combination even if they are sure of it, before the client or querent.

Saturn's Transit over the Sun-Moon Combination

Saturn's transit over the radical Sun and Moon produces many worries caused due to serious adversities to self and closely related persons like parents, children, wife or husband. There is always fear of death. One suffers from chronic diseases and gets depressed very much. At times the native receives serious setbacks in his profession, gets suspended, terminated or charge-sheeted. He may be required to leave the job or place of residence. He suffers from humiliation and dishonour, defamation and disrespect. He wanders here and there aimlessly. His qualities and ability are overlooked and he is insulted. All ambitions and desires and expectations are spoiled. He has also to suffer from the side of wife and children or otherwise he receives distress from their side also. False charges may cause even imprisonment or prosecution to the native. The effects of the transit of Saturn are so powerful that they affect the native throughout his life. It has been said that one suffers from such miseries due to ill-behaviour with parents in the previous life. This is always the worst transit of Saturn which adversely influences the native if at all it comes between 30 years to 60 years of age. After the 60th year and before 30th year it is not an effective transit.

The combination of the Moon with other planets has a great significance. The results are modified according to the influence of different planets over the Moon, their nature and lordship. The association of the Moon with the saintly Jupiter is regarded as an even auspicious combination, but there are circumstances when this produces extremely adverse and distressing results. There is need to scrutinise properly and deeply various astrological factors before pronouncing good results of this combination, as this may not be always true.—1.91.

Vedanga Jyothisha —Some Observations

IRANGANTI RANGACHARYA

The earliest book in antiquity on Hindu Astronomy is *Vedanga Jyothisha*. The Hindu astronomers refrained from making alterations of some of the readings of *Vedanga Jyothisha*, though necessary, lest they may be labelled irreligious. But by using the pseudonyms like *Brahma Siddhanta*, Varaha Mihira in his Pancha *Siddhantika*, spoke lightly of *Vedanga Jyothisha*. Perhaps Varaha took recourse to this indirect attack to avoid the calumny of the Vedic priests. Brahma Gupta later openly criticised *Vedanga Jyothisha* with impunity under the impression that the authors of *Jyothisha Samhita* and *Vedanga Jyothisha* were no divine personages. Had the Hindu astronomers considered the subject-matter of *Vedanga Jyothisha* in the ancient past, from the mathematical stand-point, setting aside the religious prejudices, they could have made the emendations of all the verses and supplied the ellipses (*adhya haras*) in their interpretations, wherever needed. Unfortunately that was not done.

Europeans devoted themselves to the critical study of *Vedanga Jyothisha* as they did of the *Vedas*. Some of them were Weber, Whitney, Colebrooke and others. Dr. Thibaut brought out his own contribution of *Vedanga Jyothisha* in 1877. Among the prominent English-educated Hindu interpretors were Shankara Balakrishna Dikshit and Lala Chottelal (*non deplume*, *Barhaspatya*). Pandit Sudhakara Dvidedi contributed his Sanskrit commentary and edited Somakara Bhashya of *Yajusha Jyothisha*. *Vedanga Jyothisha* does not contain any account of *Graha gananam* or *Grahana gananam*. It gives us an account of lunar days, parvanas, semesters, seasons etc. It is simply called the positional astronomy. Still dissensions of interpretations do exist, each claiming supremacy over the other. *Vedanga Jyothisha* was brought to light in two texts *viz.*, *Aarchajyothisha* and *Yajusha Jyothisha* the authors of which are not known. But from the second verse of *Aarcha*, we come to know the exponent of *Vedanga Jyothisha* was Lagadha Maharshi. The *Aarcha*

contains 36 verses whereas text contains 43 verses. 36 verses are practically to both, these two texts are tured to have been authored and the same person.

Now let me present before readers a few verses of *Jyothisha* to show how our scholars strangely differed their interpretations.

Pancha Samvatsaramayam
yugadhyaksham Prajapatim | |
Dinartuayana masangam
pranamya sirasa suchihi | |

is the first verse of both the texts. Sudhakara Dvivedi made an dation of the above as

Pancha samvatsaramaya
yugadhyaksham prajapatim |

The sensible meaning implied line is the lord of 5 year-Yuga, not the lord who is 5 years. The is unambiguous in the point the exposition of a luni-solar nomical cycle of lustrum, and our past scholars were of this tion only. But recently an of Vedic Astronomy tried to lish a luni-solar cycle of 19 based on the *Aarcha* text. In it is a Metonic cycle, since a astronomer by name, Meton vered it in 432 B.C. which was defective by our Hindu nomers.

Let us know the basis of both cycles. A month has 30 *tithis*. 12 months of a lunar year we 30 x 12 = 360 *tithis*. The lunar (12 synodical months) has 354 days. The solar year has 365 days. The difference in days a solar year and a lunar is 11.25 (365.25 - 354); this to 11.25 *tithis*. It means 11 are completed and the part of the next *tithi* is operating. Hence the total number of *tithis* in integers is 12. Thus the total number of *tithis* in a lunar year is 360 + 12 = 372. So for every solar year, the 12 *tithis* go on adding and for a lustrum of 5 years, there will be 60 *tithis* in excess which come to mean two intercalary months in addition (two *adhikamasas*). But the basis of a 19-year cycle is different. The luni-solar year difference of 11.25, mentioned above is taken as 11 leaving away the fraction 0.25 of the next *tithi*. So at the rate of 11 *tithis* per year, the number of *tithis* for a lustrum will be 5 x 11 = 55. This means in a lustrum of 5 years, the excess is one month and 25 days. So we get only one intercalary month in addition and an in-complete month of 25 *tithis* in additon in 5 years. This is a paradox. But for 19 years, we get 11 x 19 = 209 *tithis*. This would come to 6 months and 29 *tithis* (days) as intercalary months in additon in a cycle of 19 years. So within a cycle of 19 years no full intercalary months in addition are probable. Let us see:

For 5 years = 5 x 11 = 1 month 25 days
For 10 years = 10 x 11 = 3 months 20 days
For 15 years = 15 x 11 = 5 months 15 days
For 19 years = 19 x 11 = 6 months 25 days

But in the case of luni-solar cycle of lustrum two full Adhikamasas are probable. I leave it to the scholars to decide whether a cycle of 5 years or a cycle of 19 years bears the propriety.

The following is the 6th verse in *Yajusha* (the 5th in *Aarcha*):

Swarakramete somarkau-
adasakam savasavau |
Syattadadiyugam maghasaptah
sukhomanadyodinamityajah | |

This verse means that when the Moon and the Sun arrive at Dhanista asterism in the heavens (ecliptic), the luni-solar astronomical cycle of lustrum begins in the bright half of Maagha Masa, known as Tapa, the period of summer solstice. The conjunction of the Moon and the Sun need not be close. Somakara supplied the eclipses *tatrayadi Brihaspati raste* (if there be Jupiter) without quoting any authority. Barhaspatya meant Tapa as winter season. But Sudhakara Dvivedi did not feel its properiety, since Magha and Tapa mean the same. This means Maghamasa, known as Tapa. Besides, Magha and Phalguna months constitute winter season according to the sruti *tapamcha tapasyascha saisira vritoo*. However this dissension matters little. But the protagonist of 19-year cycle, retained the following corrupt verse and tried to interpret it in his own way.

Swararakameke somarkau
yadasakam savasavau |
Syattadadiyugam maghasaptasuklo
dinamityajah | |

His translation of the above verse runs as follows:

When the Sun and the Moon are on both sides (with the Sun) at Vaasavanakshatra in the heaven, the cylcle begins with Full Moon day in Maagha month in winter season. But he could not succeed what he wanted to derive even from the above defective verse for the following reasons. Somarkau and Savaavau are connected both being in dual number. So both the Sun and the Moon must be in Dhanishta in which case Full Moon is unthinkable. The meaning of Full Moon deduced from

Shuklodinantyajah is not correct. It is not *Dinantyajah* but it may be *Dinaantyajah* or *Dinaantyayah* in either case of which the meaning would be evening.

The meaning got from Swararkmeka is incorrect and incoherent. How Arka (Sun) is connected with Eke is absurd. He cites the simple grammatical rule that Eke indicates a dual nominative case. But one should know that Eke is plural when it means 'some' and it can never be in dual. The singular is Eka and it changes according to the gender. Let us go to the next verse.

Prapadyete sravishttadau surya chandramasa vudak |

Sarpardhe dakshinarkasya magha sravanayossada ||

The verse means that when the Sun and the Moon arrive at the beginning of Dhanishta, it is Uttarayana and when they arrive at the middle of Aslesha, it is Dakshinayana. See the Ravibhaganas etc. which are the same in *Vedanga Jyothisha* and *Pancha Siddhantika.*

1 Yuga = 5 solar years (*Ravibhaganas*)

Solar months = 60 (5 x 12)

Solar days = 1800 (60 x 30)

Lunar months = 62

Lunar days = 1860

Kshayahas = 30

The solar days from one ayana to another) = $\frac{360}{2}$ = 180

Each Nakshatra will be 13°1/3.

The number of Nakshatras to one semester (ayana) to another semester (ayana) = 180 / 13 - 1/3 = 3 x 180/40 = 27/2 = 13 - 1/2.

So counting from Dhanishta the 13-1/2 Nakshatras, we arrive at the middle of Aslesha which begins Dakshinayana. Thus it is found that the Sun from the beginning of Dhanishta constitutes Uttarayana and from the middle of Aslesha in Cancer, Dakshinayana. The following is the 9th verse in *Yajusha* or the 8th verse in *Aarcha.*

Pradhaman saptamam chahuraya nadyam trayodasa |

Chaturdham dasamam chaiva duiryugmadyam bahule pryutau ||

Dwigunam takes the place of Pradhamam in the *Aarcha* text. Somakara explained the above verse taking 'ritu' to mean Kaala. Barhaspatya's explanation agrees with that of Somakara, but Sudhakara Dvivedi gave a sensible meaning of 'ritu' as six because of the seasons being six. This is justified buy the following explanation. The number of *tithis* in a solar year is 372 as shown before. So for a semester of six months the number of *tithis* is 186. This when divided by 30, gives, the *ritu sesha* of 6 *tithis* which exceed from the *tithi* to the other, from one semester to another semester. They are 1st, 7th, 13th, 19th, 25th, 1st, 7th, 13th, 19th, 25th. The 4th *tithi* in dark fortnight is called the 19th *tithi* and the 10th *tithi* in the dark fortnight is the 25th *tithi.* Dwigunam in the verse of *Aarcha* does not convey any coherent sense. Dwiryugmam is a better reading than Dwiryugmadyam of one syllable more not needed in Anustup metre. The following is the 13th verse in *Yajusha* or the 4th verse in *Aarcha.*

Nirekam dwadasabhyastam dwigunam gata sunyatam |

Shashttya shashttya yutam dwabhyam parvanam rasiruchyate ||

Somakara's explanation of the above verse was accepted for fixing the time (Parva) but it did not stand the test applied to it according to astronomical calculations. Dikshit explained as follows: Reduce the number of the current year by one. Multiply the remainder by twelve and add the elapsed months of the current year. Double this total which should be further increased by two for every sixty of the total doubled. The result thus obtained will be the total number of Parvanas elapsed from the beginning of lustrum to the end of the current year.

Suppose we require to know the total number of Parvanas elapsed since the beginning of the lustrum upto and including the *10th* month or *20th* Parvana of the *4th* year. Then according to Dikshit, the number of Parvanas

= ((4-1) x 12 + 10) x 2 + 2

= (3 x 12 + 10) x 2 + 2 = 94

But Barhaspatya supplied the ellipsis 'parva' instead of month multiplied by 12 and then by 2 before adding Parvanas. He therefore remarked, "I need not quarrel with Mr.Dikshit though I consider my own explanation better". So according to Barhaspatya the number of Parvanas

= (3 x 12 x 2 + 20) + 2

= 92 + 2 = 94

But by this formula, the result differs.

Formula = ((x - 1) x 12 x 2 + y) (1 + 2/60))

x = 4 years y = 20 Parvanas

Astrology and Medicine

I

Sir, - I would like to congratulate you for your progressive lecture on the "Role of Astrology in Medicine" organised by Apollo Hospitals on 5th September 1991. Being an authentic person on this subject, your speech will have a very good impact on the public.

Madras. **Ravi Tamilvanan.**

II

Sir, - I have just read your brilliant exposition of Medical Astrology in the November 1991 issue of *A.M.* My congratulations and respects. Hitherto I have not read such a brief, compact yet complete article in all aspects on medical astrology. It is very revealing.

Thane. **R. B. S. Mani.**

Sir, - Apropos the editorial write-up 'Astrology As An Aid to Medical Science', I hereby convey my sincere appreciation of the beautiful presentation made by our Rev. Editor Dr. B. V. Raman under the aegis of Apollo Hospitals, Madras, on 5th September 1991.

Dr. Raman, in this article, has very nicely narrated the facts as to how Astrology could be utilized more precisely and effectively with the help of medical sciences. Before any diagnosis is made, if our doctors study the nativity of the ailing person and prescribe medicines keeping in view the astrological principles, perhaps, a patient can be treated more effectively.

Astrology is an empirical science and its principles cannot be tested in the laboratory as done in the other physical sciences. But because of the same, it would not be wise to discard Astrology, as we have accepted many principles in physical science without any theoretical explanation *e.g.* Gravitation.

Dr. Raman is striving hard to secure a status for Astrology. His lone effort is required to be supported by many.

The Uttar Pradesh Earthquake

Sir, - Mr. Arun Bapat has expressed doubts (*A.M.*, November 1991 issue) about predictions made by The Astrological Magazine regarding the earthquake in North India around June 1991. Though late, it has come true on 20th October 1991. Congratulations once again to the respected Editor on his excellent prediction indicating the earthquake hit area.

The purpose of writing this letter is to convey the fact the message of ancient truths lie in the womb of the astrological science.

Vimshottari — A Versatile System

Sir, - The Vimshottari Dasa system has a unique place among the several directional systems, commended by sage Parasara as particularly effective in Kaliyuga. This has been borne out by experience as well. The system seems to be based on sound rationale, which makes it versatile, capable of being adapted to other time-frames, apart from the original 120-year life-span. Thus we observe that Vimshottari applies very well to the annual chart, superbly timing the events delineated by the erudite Editor for the lunar year Prajotpatti (*vide A.M.*, January 1991), serving as old wine in new bottle — indeed a Dasa system for all seasons! For the purpose, the duration of the planetary periods is correspondingly reduced to: Sun 18, Moon 30, Mars 21, Rahu 54, Jupiter 47, Saturn 59, Mercury 51, Ketu 21 and Venus 60 days (total 360 days) respectively.

The new year commenced with a balance of 9 days of Jupiter Dasa. Saturn ruled from 25-3-1991 to 22-5-1991. Two major events marked this period. A devastating cyclonic storm around Full Moon (28-4-1991) struck Bangla

Desh with unprecedented fury, consistent with Saturn's acknowledged sway over such vagaries of weather, particularly in angular positions (both from the Ascendant as well as Jupiter). This was followed by the assassination of the national leader Rajiv Gandhi (on 21-5-1991), plunging the country into national mourning, and thereby ruefully bringing about the fulfilment of the Editorial's eloquently accurate assess-ment of the 8th house subjected to strong Papakartari Yoga, and the 9th lord (Saturn) occupying the 7th with Rahu. Since Mars is actually relegated to the 12th Bhava, strong in his own constellation, his aspect on the Saturn-Rahu combine in the 7th had its own gory tale to tell. Mercury period ruled upto 13-7-1991, which saw the installation of a new Government on 21-6-1991. Mercury constitutes a Neechabhanga Rajayoga, conjoined with the Ascendant lord (Mars) and the Rajyakaraka (Sun) and aspected by 4th lord (Jupiter). It was no mere coincidence that the new ministry was sworn in with Virgo rising and Mercury in the 10th with the Sun and a similar disposition obtaining in the horoscope of the new Prime Minister. Such invincible proof of the validity of Astrology is what places it on the pedestal of super-science. Ketu reigned over the next 21 days, followed by Venus Dasa for 60 days, extending upto 4-10-1991. This period was memorable for far-reaching fiscal changes, the devaluation of Indian currency, run-away inflation, the financial crunch, and the liberalisation of trade practices. Ketu afflicts both the Lagna and the Dhanakaraka Jupiter. Venus is entrenched in Ketu's star and hemmed in between malefics, Venus' placement in Swanavamsa saving the country from financial collapse.

The upheavals in Soviet Union during August 1991 took place under this directional influence of Venus, putting another feather in the Editor's resplendent cap. With Gemini rising at Moscow in the annual chart, the 8th house is severely battered by Saturn-Rahu, and Venus is involved in Arishta Yoga (lords of 11th and the 12th exchanging places). Here again, the strength of the Ascendant lord Mercury in the 10th (in Neechabhanga), aspected by powerful 10th lord, and Venus in Swanavamsa, saved the day for the Soviet Union. Consistent with the peace-loving credentials of Venus and his favourable disposition with respect to the ruling signs of the USA and the USSR, the world was greeted with the dramatic announcements on the reduction of nuclear arsenal by the two super-powers. The 18 days of the Sun's period, afflicted by his association with the 12th lord, the 3rd glance of Saturn, and combining with Ketu in Navamsa, heightened the terrorist activities, by way of abduction, explosions and a spate of fires. The New Moon in October (8-10-1991 at 3.09 a.m.) had Leo rising, the lords of the 1st, 2nd and 12th houses in the 2nd, Mars in the 3rd in mutual aspect with Saturn (in 6th), and severe afflictions of the 8th house, and brought about a train accident near Guntur and a severe earthquake in Uttara Kasi, in quick succession. The Sun, Mercury and Mars together in a movable sign in an angle to Saturn, and the Moon opposite Jupiter clearly point to the events. Transitwise, these three planets were in the 6th from the radical Moon (Annual Chart).*

The Moon Dasa rules for a month upto 22-11-1991. The Moon is afflicted by Saturn's aspect, association with 12th lord, and conjunction with Ketu in Navamsa, but somewhat relieved by having exchanged places with the 9th lord, aspected by the latter in the bargain, who is in strength in own Navamsa. Though the general discontent and suffering of the people will continue the pressure on the mounting prices is expected to ease. The following period of Mars (21 days) has violent propensities. Though lord of the 10th, Mars, occupies 12th Bhava, strong in own Nakshatra, but in inimical Rasi and Navamsa, further aspecting Saturn-Rahu in the 7th. In transit, Mars traverses the 8th from the Moon in mutual reception with Saturn. The New Moon in November (6-11-1991 at 16.01 hrs.) has Aries Ascendant with the Sun, the Moon and Mars in the 7th Kendra (movable) from the Lagna, as well as from Saturn (10th), thus capable of exciting

Political Forecasts

I

Sir, - I had the opportunity of going through your (Mrs. Gayatri Devi Vasudev's) speech in THE ASTROLOGICAL MAGAZINE at a meeting presided over by Mr. R. Gundu Rao, the former Chief Minister of Karnataka.

It is not for eulogising you I am referring to this. It has gone deep into the hearts of many who are in touch with the magazine.

How wonderfully you have put it "The Rajiv era is over" and this is long before the nasty assassination.

It is all due to the blessings of your noble father DR. B. V. RAMAN. May he live long. May you be blessed by the Lord.

Madras. K.V.Krishnamachari

II

Sir, - You had predicted the fate of the mid-term polls of 1991 and the future Indian Government set up with "cent percent" accuracy in advance on 10-4-1991 in your editorial "Planets and the Mid-Term Elections (pages 470 and 531, *A.M.*, June 1991).

Kudos to you and the staff of THE ASTROLOGICAL MAGAZINE.

Waiting for Venus in Rahu

Sir, - Mr. Rao in "Sidelights on Practical Astrology" (*A.M.*, March 1991) has written that the real Yoga in Rahu will begin after 12 years, when Venus in Rahu begins. I request you to give your seasoned opinion on this issue.

Sun-Moon Limitation

I

Sir, - This refers to the letter of Mr. G. Chandrasekhar (page 727, *A.M.*, September 1991). Yoga means a specific

combination of planets. In the first *sloka* of "Chandra Yogadhyaya" of Varahamihira, the relative positions of the Sun and the Moon and their effects are given. In subsequent *slokas* placement of other planets except the luminaries are enumerated. Though most astrologers are ignorant of this rule, we cannot afford to ignore the Sun-Moon Yoga given in the 1st *sloka* and adopt only the other Yogas. A discerning student should know, that the Yoga in the 1st *sloka* spreads the umbrella over the following Yogas. The other Yogas including the Panchamahapurusha Yogas become useless if the Sun or the Moon is not placed in a favourable configuration. This opinion has already appeared in THE ASTROLOGICAL MAGAZINE as long back as 37 years ago (though not in specific reference to the *sloka*). Mihira, a stalwart in Astrology, had answered as follows (*A.M.*, March 1954, page 281):

Q: In Panchamahapurusha Yogas, only 5 planets except the Sun and the Moon play the role. Are there any similar Yogas for the **Sun** *and the Moon?*

Ans: *It is because the Sun and the Moon have no role in these Yogas, they are called Panchamahapurusha Yogas, but they have an importance in the fructification of the Yoga in actual life. If these two planets Sun and Moon are weak, even though any of these Yogas may be present they will not be fully effective and will only be nominal.*

In my article "Sun-Moon Limitation" I had given 5 examples to explain how the Sun and the Moon got afflicted and thereby how their significations suffered. Though Mr. Chandrasekhar had criticised my approach, he ultimately had fallen in line to say "I would like to add that insanity is a very grave illness having no parallel etc... where Sun, Moon, Mercury, Lagna lord and the 5th lord are severely afflicted" in the penultimate para of his letter.

In all the examples given by me, he opines that close disposition of the Sun and Mercury is the reason for the malady pointed out by me ignoring the contents of the 1st *sloka* of Chap. 13 of *Brihat Jataka*. He can verify his own statement by statistical proof. As a student of research, I would have been happier if Mr. Chandrasekhar had produced some example charts to disprove the Yoga contained in the 1st *sloka* of Chapter 13 of *B.J.* In the second para he had advocated against total dependency on the basic rules of Astrology implying their use when convenient and ignoring them when not convenient. This will only make Astrology a tool used according to whims and fancies of an astrologer and it can never become a pure science.

Madras. R.Krishnamoorthy.

II

Sir, - The author (*A.M.*, April 1991) draws attention to a *sloka* in *Brihat Jataka* that the Sun and the Moon in mutual Kendras at birth is unfavourable. Though in Western Astrology the concept is more or less similar, Hindu astrologers appear to be 'indifferent' to this aspect. This may, perhaps, be due to the regular and frequent occurrence of this configuration. But the author contends that the Sun and the Moon (Karakas for body and mind) in mutual Kendras may even limit the powers of the good Yogas in a horoscope!

Of the many horoscopes discussed by DR. B. V. RAMAN in his well-known book *Notable Horoscopes* twenty-eight have the Sun and the Moon in mutual Kendras. These are of persons of the highest spiritual attainment, monarchs, writers, statesmen and others. In some of these horoscopes the Moon or Lagna has also been afflicted. But the common feature in all the horoscopes is the presence of powerful beneficial Yogas — evidently not affected by the Sun-Moon configuration.

Without considering the mutual positions of the Sun-Moon in the five horoscopes illustrated in the article one can see the Moon or Mercury (Karaka for intelligence and speech), or both, afflicted by malefics or Marakas. In Chart 5, the boy had suffered serious injuries in his Jupiter Dasa (12th lord in Marakasthana) and Saturn Bhukti (Maraka lord in an inimical Nakshatra in the 12th Bhava).

In Chart 1, the Sun (a Maraka) and Venus and Mercury (malefics for Cancer Lagna) are directly aspecting the Moon. Further, Mercury is combust in superior conjunction.

afflicted and thus bring misery to the native. This combination corresponds to the days of Sapthami, Ashtami, Navami and Chaturdasi, Amavasya, Poornamavasya, Sankramana. I don't think all the persons born on these *tithis* suffer a miserable life as portrayed by the author's examples. There should be exceptions to this rule. I would request the author to elucidate on the exceptions.

Atmakaraka Planet

Sir, - In her excellent article "Planets and the Mid-Term Elections" Mrs. Gayatri Devi Vasudev has quoted from *Sloka Talwa* T-36 to the effect that during the Bhukti of the Atmakaraka planet, fall from one's position and loss may be expected (page 470, *A.M.*, June 1991).

The above interpretation does not appear to be correct as pointed out by Mr. V. A. K. Iyer (page 718, *A.M.*, September 1977). In his opinion the above *sloka* refers to the result of the Bhukti when the Dasa lord is in the second house of the Bhukti lord.

It may be recalled that I had also quoted the above interpretation in my letter published on page 220 of the A.M., February 1985 issue. Mr. Buell D. Huggins had given several examples of well-known persons where the Dasa of Atmakaraka planet gave unexpectedly good results not warranted by lordship and placement of that planet (page 728, *A.M.*, August 1973).

Parameters in Astrology

Sir, - Puligadda V. Rao has set down certain basic parameters for the judgement of horoscopes and suggested that Dr. B. V. Raman set forth his own basic parameters if events cannot be explained astrologically ("My Turn", *A.M.*, July 1991).

Mr. Rao seems to be unhappy with the Nakshatra lordship of planets, but seems quite satisfied by the use of Navamsa charts. If, in the opinion of Mr. Rao, Nakshatra lordship of planets is not accounted for, then, the 27 Nakshatras that are superimposed on the zodiac should first be severed off. Bhava chart assumes greater significance in the context of prediction just like the Navamsa chart. Divisional charts are skilfully made use of where more details are demanded. Retrogression gives Cheshta Bala to a planet, one of the parameters for measuring strength of a planet. Planets in Bhava-sandhi are effectless — *Sandhishta na phalaprada*. Ashtakavarga is concerned with the transit of planets. None of these can be arranged in the order of priority. All the parameters referred to by the scribe as primary or secondary are effectively made use of by the astrologers for prediction and are incorporated in all important classical works of Astrology. The greater the parameters employed, the better the results.

There is no event that cannot be astrologically analysed since Astrology is the expression of Cosmic Karma. If any predicition goes wrong, the responsibility solely rests with the astrologer and not with Astrology.

Prediction is an art. Upasana (worship of a deity), knowledge of the Sastras and Yukti (intelligence) are what make a real astrologer. Upasana stands foremost since it gives intuition which is indispensable for prediction.

Aspects of Exalted Planets

Sir, - While going through some old volumes of The Astrological Magazine, I came across a letter by Bhagwan Das Mittal of Mathura under the caption "From Our Old Readers — November 1948". In the footnote of the letter marked is the Editor's comment "It is not clear what the writer means by 'Exalted aspect of Saturn'....".

Recently I bought *Bhrigu Samhita Paddhati* written by Mittal. In that book the effects of a planet's aspects are assessed by considering the Rasi in the Bhava being aspected. For example, if the Lagna is Leo and Saturn is in Aries, then Saturn in Aries in 9th is bad, but its 7th aspect falls on 3rd house which has Libra Rasi and which is the exaltation Rasi of Saturn; hence Saturn's aspect on this house would be good.

Taking another example, if Jupiter were in Taurus, then its 9th aspect would not be favourable for the house in which Capricorn falls (depending on Lagna) because that is the debilitation Rasi of

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Jupiter. If Jupiter were in Cancer in Lagna then its 7th house aspect on the 7th would not have its protective value because Jupiter's debilitation Rasi is in the 7th.

This is an interesting observation and needs further research.

Horoscope of S. B. Chavan

Sir, - S. B. Chavan was born on 14-7-1920 at Paithan near about Amavasya. There is Kuhoo Yoga in Lagna. Mercury and Venus are in the 2nd, Jupiter and Saturn are in the 3rd, Mars and Rahu are in the 5th and Ketu in the 11th. There is exchange of houses between the Moon and Mercury. For Lagna, Venus is the only benefic. Saturn, Mars, Jupiter and the Sun are all malefics. Saturn will not kill. His Mercury Dasa ends on or about 14-1-1992 and there will be a bad period of Ketu in Ketu upto 11-6-1992. Afterwards Venus' sub-period (benefic) is upto 11-8-1993. As per *Hindu Predictive Astrology*, Venus sub-period shows wealth and happiness and efforts crowned with success. So S. B. Chavan will be the next prime minister upto 11-8-1993. He should guard his health during Ketu's sub-period.

Yoni Kuta in Perspective

Sir, - Astrologically, the 5th position has a significance of its own. In the natal chart, its trine has its own importance. Among the ten *kutas* employed for matching of horoscopes, *Yoni Kuta* occupies the 5th rank. Marriage is the rule and celibacy, the exception. Even the Rishis had their consorts. The *summum bonum* of marriage is the continuous maintenance of lineage which is secured by procreation. The prerequisite for such an exercise by the couple is the presence of effective physical matching.

I am surprised that Ekalavya should have chosen to say that *Yoni Kuta* is not meant to cover "sexual compatibility" or "conjugal bliss" but only "to fathom the absence of enmity between the couple" (THE ASTROLOGICAL MAGAZINE, April 1991, page 326). It is worthy of note that there is no separate classification of the human *Yonis* apart from categorising them with reference to the chosen animals and reptiles. By and large, the sexual instincts of the humans could be gauged with reference to their stellar equivalents — the dog suggesting a pronounced inclination, the buffalo an uncivil one, the monkey unappreciative behaviour, the lion majestic performance, the deer moderate enjoyment, and the serpent, union in complete seclusion.

The combination of essential *Kutas* varies for the Dwijas — from that for others. The *Yoni Kuta* is not very important for the twice-born. In the modern world the so-called Dwijas perform the functions of others without observing their own prescribed religious injunctions. They would be considerably benefited by the helpful presence of this *Yoni Kuta*. In the light of the above, Ekalavya's reference to *Dharma Sastras* and the passage quoted from the *Maha Sankalpa* are not relevant. The science of Astrology is for the entire mankind, good, bad, indifferent, sensual, abstemious, indulgent, restrained, aggressive etc. The *Yoni Kuta* helps in the proper matching of sexual features and tendencies.

Indeed the *Dharma Sastras* do not say that the purpose of marriage is fulfilled by the procreation of a son to redeem man's "triple debt" as Ekalavya would like to have it. In fact, the *Sastraic Swasti Vachanam* (benedictory address) says:

श्री कल्याणपंचाशत्
आशीर्वाद वाकयानि ।
दशास्यां पुत्रानाधेदि
पतिमेकादशं कृधि ।।

meaning, may you be blessed with ten sons. It advises the wife to specifically to treat the husband thereafter as her 11th child. The great Kuchela is credited with having 27 children, and no one would accuse him of lust. It is not as if the childless couples are free from lust.

It is unfortunate that Ekalavya has overlooked the significance of *Dampati*. This word has no English equivalent. It is not a couple married in the western or modern sense. *Dampati* means a boy and a girl united in wedlock according to *Sastraic* injunction in the presence of sacred fire (*Agni Bhagavan*) by undergoing the prescribed rituals to the utterance of the relevant *mantras* by a competent Purohit. The *sneha* in relation to *Dampati* includes,

No devotion fails of its highest reward, the lesser ones bring lesser rewards while devotion to the Supreme brings the Supreme reward. Having conceded that the average Grihastha (householder) can perform *Sraddhas*, one is intrigued by a verse in *Brahma Vaivarta Purana* reproduced below:

Ye kurvanti mahipala, sraddham caikadasi dineh.

Trayaste narakam yanti, dhata bhokta ca prerakah

This means, if one performs the *sraddha* ceremony or oblations to the forefathers on the Ekadasi day, the performer, the Manes for whom *sraddha* is performed and the Purohit will all go to hell.

I came across the above *sloka* in a commentary on the *Srimad Bhagavatam* by Swami Prabhupada — Canto 7, Chapter 14, an extract from which is reproduced: "Srila Jiva Goswami has given quotations from many Sastras stating that when the *tithi* of the death anniversary falls on Ekadasi day, the *sraddha* ceremony should be held not on Ekadasi day but on the next day *viz.*, Dwadasi."

This would mean that one is not to perform *sraddha* on Ekadasi day. Are there Sastraic injunctions against performance of *sraddhas* for ancestors who have died on Ekadasi *tithi* on Ekadasi day, which is common practice now obtaining and also approved in Panchangas. Enlightenment on this point from scholars will be most welcome especially to those whose parents have expired on Ekadasi *tithi*.

Simhastha Period

I

Sir, - I had, on page 430 of *A.M.*, May 1991, requested Ekalavya to furnish any authority of the sages on traditional beliefs that Jupiter in Leo is not auspicious for marriages. The answer now comes indirectly from Pulippani on page 638, *A.M.*, August 1991. He cites *Muhurta Parijata* and *Rajamartanda* wherein Jupiter upto his transit in Leo Navamsa in Leo Rasi is prohibited for marriages. This period is stated to be dangerous for both husband and wife. Now that Jupiter has entered Leo in August 1991, there are instances of many Muhurtas prescribed for marriage in the prohibited period. Will ignorance come to rescue? Learned men should come forward to save the younger generation. Mr. S. K. Kelkar is conducting research on this and he is requested to kindly publish his findings.

Sir, - There is a great controversy here in Madhya Pradesh as regards marriages. Panchanga-makers quote the following *sloka*:

meaning, during the transit of Jupiter through Leo marriages should not take place. *Gangagodantare* means "between the rivers Ganges' and Godavari marriages are not permitted.

In astrological books *Ganga* has been written as *Gangaa* : the river Godavari has been referred to as *Godavari* and not as *Goda*.

In *Ganga-Goda-antar* where does Godavari come from? A pundit from Uttar Pradesh tells me *Ganga* is the *Gotra* (lineage) of the descendants of the Kouravas and Pandavas of *Mahabharata* and that some Brahmins of Uttar Pradesh are called *Ganga-putri*.

I shall feel highly obliged if any of your readers clarify regarding *Ganga-Goda-antar*, whether *Goda* signifies the river Godavari?

Durg. **B. R. Soni.**

Books on Review

M. P. PANDIT

❑ **UPANISHADIC ESCHATOLOGY** by William A. Borman (Sri Satguru Publications, 40/5 Shakti Nagar, Delhi 7, Pp. 83, Rs. 75/-).

The author approaches the *Upanishads* not as manuals of philosophy but as maps of Consciousness, giving the chart of the human journey from Mortality to Immortality. For bringing out this character of the texts he combs the major *Upanishads* and systematically presents their detailed analysis of the interaction between life and death. Death is not an end, it is only a phase in the long evolution of human consciousness. Following Sri Ramananda, Dr. Borman perceives a definite purpose in life and studies the objective from various angles. Desire is the mechanism of this force of evolution which is spiritual in character.

Unique among the world's literature on Death and after, the *Upanishads* emphasise the goal of Immortality: *mrityormaamritam gamaya*, 'lead me from death to immortality'. They do not accept that all ends with the dissolution of the physical body. The detailed examination of the relation of the Atman with Brahman, the sense in which All is Brahman, the meditational exercises which the texts recommend for discovering one's own self and thence to arrive at identity with the transcendent Self, the two famous Pathways, Devayana and Pitriyana, to the realm of the Gods and of the Manes,—these and other allied themes are discussed with ample quotations. The author explains how ceremonies like the *sraddha* help the departed soul in its transition to the beyond.

In an interesting chapter the author summons the findings of Dr. Moody and Elizabeth Kubler-Ross from their case-studies of patients who had survived their 'clinical deaths' and reported common experiences testifying to the fact that there are other realms of existence to which the soul retires before its next birth on earth. A model study on the subject.

❑ **ASTROLOGY AND RELIGION IN INDIAN ART** by Swami Sivapriyananda (Abhinav Publications, E 37, Hauz Khas, New Delhi, Pp. 150, Rs. 350/-).

Richly illustrated with as many as 69 plates in colour and 14 in line-drawings, this is a magnificent treatise dealing with the interrelation between Astrology, religion and

n India. Swamiji explains man has attempted to g to the surface the unseen n of the heavenly bodies ur physical universe and man through artistic esentations, icons, rituals. rites: "The representation eavenly bodies as images geometrical shapes, and r worship, is one aspect of 's attempt to understand control the powers that pe his destiny... through rology, icons, yantras and emonial worship of the s, planets and the forces of universe, every individual attempt to bridge the gap een man and the deity. s, by personifying them, he control them to a certain nt. This is the basis for rological art and ritual. It is meeting of art and magic; religion and psychology" 136).

Among the topics dealt with these pages are the origin of rigu *Samhita*, 3 asurements of Time: rological calendar and mic; forms of asterisms, the s in which the Moon uences and governs the life-es of men and women, the onale behind the oscope; the reasons of Sani g cherished as a spiritual ster despite his mundane effects; divisions of the oscope, the Vedic ndations of astronomy and rology etc. The precise s of worship of the various ets (and deities presiding r them) are given in detail.

There may be some rence of opinion about the hor's stand on the debt of an Astrology and allied nces to the Greek sources. s being proved that the Greek knowledge of these subjects owes a good deal to the Indian and Egyptian traditions.

The book is an eye-opener to those who tend to regard Astrology and the horoscope as unscientific. Every page of this valuable work is full of authentic data which man may disregard to his own disadvantage.

❒ **THE WAY TO NIRVANA** by L. De La Vallee Poussin (Sri Satguru Publications, 40/5 Shakti Nagar, Delhi 7, Pp. 172, Rs. 70/-).

Reprinted after more than seven decades, these lectures by a French Savant at Cambridge deal with Buddhism, not as a religion but as a way of salvation. There is a vigorous discussion as to what is salvation according to Buddha and who is it that gets the release — and release from what? There is a salutary distinction between Buddhism as it has developed down the centuries and the Teaching of the Enlightened One before the rise of the Church. The author underlines the perception of the Master that there is really no entity as the Self or soul; what gives continuity is a figure of associations forged by the chain of Karma initiated by Desire. There is difference of opinion among scholars regarding the precise implication of the Nirvana that is the goal of this Path. Is it extinction or just liberation from the cycle of births and deaths? The conclusion of the author is: "The most exact and the most authoritative definition of Nirvana is not annihilation but 'unqualified deliverance', a deliverance of which we have no right to predicate anything" (P. 131).

Poussin defends the Buddha for not speaking everything that he knew. His approach was highly rational and he did not see any purpose in bringing in concepts that were not strictly relevant to the problem he had set himself to solve. Translated into English from the original in French, these lectures are a faithful presentation of the direct Teaching of a spiritual revolutionary.

❒ **MYTHS AND SYMBOLS OF VEDIC ASTROLOGY** by Bepin Behari (Passage Press, P.O. Box 21713, Salt Lake City, Utah 84121 - 0713, Pp. 278, 14.95 Dollars).

The author is well known for his comprehensive and at the same time in-depth study of Astrology — not Indian alone but of other traditions too. Through an exhaustive survey of Indian mythology in the Vedic tradition, he traces in this book the influence that heavenly bodies exercise on the life of man on earth. He discusses the meaning of astrological symbols: Cross, Circle, Arrow etc. He narrates the mythological background of the 9 planets, taking care to cite parallels from the Western systems wherever patent. Signs of the Zodiac and the Nakshatras receive detailed treatment. As David Frauley notes in his Foreword, the author "introduces the Nakshatras or asterisms and helps us to understand them according to the same astrological symbols as the

planets and signs.. he explains the Vedic view of the nodes and shows their profound effect on the human psyche and its transformation".

Apart from bringing out the essential character of Jyotisha as an integral part of the Vedic Wisdom, *Vedanga*, the author underlines the scientific bases of Indian Astrology and its role in establishing the relation between the macrocosm and microcosm. He sets right the notion that Indian Astrology and astronomy derive important features from the Greek tradition; in fact it is the other way round.

❐ **HEALTH FARMING** by Dr. Krishna Murari Modi (Health Farm Publications, 14 Jolly Maker Apartments. No. 3, Cuff Parade, Bombay 400 005. Pp.331, Rs.90/-)

Easily one of the best books to appear recently on Health Care, this volume is a digest of the knowledge and experience of a professional doctor with a nature-cure background in several countries. The main note of this exposition is preventive, not curative. The author pleads for a minimum acquaintance with the laws of Nature, on the part of each individual. His approach is one of healthy balance. Diet, but no calorie-fever; fasting, but no obsession of self-denial; relaxation, but no tension to relax. He describes the ills of alcoholism, smoking, coffee and tea, the dangers of indiscriminate sex but without alarming the common man with understandable weaknesses. He prescribes sun-bathing, water treatment, practice of asanas and pranayama, simple breathing exercises, to each according to his need. Chapters on diabetis, arthritis, Cancer, heart-disease, allergy, are perhaps the most important. Dr. Modi counsels precautionary measures in daily life to keep off these maladies; if they appear still, medicines have to be used. Which kind? What are the side-effects? How far to avoid the doctor? These and other pertinent questions that arise in the mind of most men in the modern world of stress and anxiety, are answered to full satisfaction. There are innumerable illustrations, beautifully reproduced to make the treatment of the subject more useful. The author has a sense of mission without being fanatical. Here is a book that must be kept in every enlightened home. What with charts, case-histories, notes on the latest techniques for diagnosis and curative measures, this work is more than a doctor at home.

❐ **HINDU ASTROLOGY AND PRE-COGNITION** by E. R. Nayanar (Author, P.O. Kalliasseri 670 562, Pp. 112, Rs. 45/-).

Astrology, points out the author, is not like physics and chemistry, it is more of the nature of psychology, Yoga, Mantra-Sastra etc. It is not confined to the region of physical matter; it ranges to distant planets, across many births. It needs a special approach — assiduous study, mental discipline, intuition, faith are indispensable. He analyses the science into its three branches: Jataka, Prasna and Muhurta. While Jataka defines the position at the time of birth, the other two keep pace with the dynamic movement of life. While it is true that the present life is determined to a large extent by past Karmas, it is also true that during the present term it is possible, with the help of astrological data, to modify the past and create a positive Karma. The writer underlines the need for accurate timing in casting the horoscope. His description of the *akashic* records and the means to read them is instructive. The chapter on the process of rebirth and carrying over the 'vasanas' is interesting, though he is on slippery ground in speaking of souls from other planets entering the womb. All told the subject is well argued and convincing to an open mind. It is a book for both the specialist and the layman.

❐ **ASTROLOGY AND THE CHILD-ASPECT** by K. N. Saraswathy (Kadalangudi Publications, 38 Natesa Iyer Street, Madras 17. Pp. 118, Rs. 20/-).

Written by a specialist in Astrology, this book provides helpful instructions to the married couple. The propitious time for conceiving, means of determining the sex of the child, remedy for curses, fixing the legitimacy of the progeny—these and allied topics are dealt with. It throws light on an important aspect of life.

It will not do to dismiss this thesis as wrong history. The author has built up an array of documented facts to establish his position. Edition after edition of this book was suppressed, so much so that the present fourth edition has had to be brought out from U.S.A. The main argument is that the Taj Mahal was a Hindu temple palace before it was forcibly converted into a mausoleum by a Moghul king. It appears Prof. Mervin Mills, teaching Architecture in New York, was struck by the forceful presentation of the author and paid three visits to India on a mission of fact-finding. He carried a broken piece from a lower-level wooden doorway for carbon-14 testing. It was certified in a laboratory in New York that the doorway was some 300 years older than Shahjahan. The author of this remarkable research brings out several facts so far hidden by false history under State patronage. They explode the myth of the Taj Mahal and point to an unassailable truth which no fair-minded reader can cast aside.

❒ **UDBODHANA** by Kedar Nath Prabhakar [Jyotirdham, Swami Ramatirth Nagar 247 001 (U.P.). Price not given].

Swami Ramatirtha (1873-1906) was one of the illustrious pioneers of Indian Renaissance in this century. His writings and speeches had a profound effect both in India and abroad. Here are 108 sayings of his — in English and Hindi —, cryptic and meaningful.

"Head as high as you please, but feet always on the common ground."

"Fasting should be taken as a help but should not master us."

"A man, who has never loved, can never realise God."

❒ **SRIMAD BHAGAWAD GITA** by Yogacharya Shanti-kumar Bhatt (Gita Publications, 27 Jivan Santosh Society, A 6/8 Jivan Bima Nagar, Borivli (W), Bombay 400 103, Pp. 124, Rs. 25/-).

Keeping in mind the difficulties of western readers in following the *Gita*, the author has tried to give a summarised version of the text in simple English. He writes: "*Gita* is symbolic. Lord Krishna means God. Arjuna means any person who faces problems in life. The battle means the battle of life. All gods etc. mentioned here are symbolic of certain qualities. For those who don't believe in the existence of God Lord is symbolic of the Supreme Teacher who is the authority on the science and of life" (P. 4).

❒ **HOLY BRINDAVAN AND SRI RAMAKRISHNA AND HIS APOSTLES** by Swami Ekatmananda (Sri Ramakrishna Mutt, Madras 600 004, Pp. 67, Rs. 6/-).

An engaging account of the history and role of Brindavan in the religious and spiritual annals of the Indian people. The visits of Sri Ramakrishna, Swami Vivekananda to this holy centre and the unusual experiences they had at that place are narrated. There are also accounts of pilgrimages by distinguished disciples of the Master to the Kshetra and their responses to the Breath of Lord Krishna pervading the region.

❒ **KUNDALINI AND MEDITATION** by Arjan Dass Malik (Manohar Publications, 2/6 Ansari Road, Daryaganj, New Delhi 110 002, Pp.96, Rs.100/-.

"There are kinds and kinds of movements of the Kundalini energy but the Kundalini *per se* is only of one mind. When the Kundalini awakens and moves downward it is called *adho-kundalini*. When it awakens and moves upwards it is called *urdhva-kundalini*. When the Kudalini moves up stage by stage from Chakra to Chakra it is called *prana-kundalini*, and when it moves up fast without stopping at any Chakra en route, it is called *cit-kundalini*. Again the *cit-kundalini* is also called *akarma kundalini* since it performs no *karma* or action pertaining to the opening of the Chakras on its route of ascent. Such a Kundalini awakens the Chakras on its route of descent." (P. 49).

So observes the author of this remarkable work based upon his own authentic experience. Guided by a Guru adept in this science, he has not only an unconventional realisation but has also the capacity to present it in rational terms, opening up several new dimensions in the study of the Kundalini Shakti. He makes a clear distinction between *prana-kundalini* and *chit-kundalini*. The Kundalini which is awakened by specified operations of Prana and goes up from Chakra to Chakra, coming back by the same route

is termed *prana-kundalini*. That which is awakened by the Grace of the Guru by action on consciousness of the individual and goes up straight upto the Brahmarandhra like lightning and comes down by a frontal route *via* Ajna Chakra is *chit-kundalini*. The gifted author takes care to ascertain the validity of his experience by cross-checking with others who have had the same experience and also by consulting allied literature of other traditions *viz.*, Chinese, Greek, Egyptian etc. He also cites from some of the lesser texts in the Hatha Yoga, Raja Yoga and Tantra traditions. He does not name his Guru who is his main standard of reference but he cites from Sabhapati Swami whose expositions of the Kundalini experience do not toe the common line. He also quotes Sri Aurobindo speaking of the action of the Mahakundalini from above downwards choosing centres that are ready — not necessarily in the traditional order. He differs from Sir John Woodroffe (and more from Sir John's Pandit) on certain points, but he is fair in his approach and assessment of others' statements.

Writing on the various situations that may arise following the awakening of the Kundalini, he says: "The Kundalini of a person may awaken and yet remain static in the Muladhara; the Kundalini may awaken and instead of entering the Sushumna Nadi it may start moving downward towards the thighs and the legs below; the Kundalini may awaken and instead of moving upward through the Sushumna Nadi it may start rising up through either the Ida or the Pingala; the Kundalini may move into the Sushumna but being unable to go across the mid-way knot (*granthi*) below the neck it may return to its source; the Kundalini may move up from the Muladhara to Ajna step by step stopping at each *cakra* enroute; the Kundalini may move from the Muladhara straight upto the Ajna at the speed of light without stopping at any point in between; no matter what may be the speed, the Kundalini may ascend up the Ajna but being unable to pierce the *granthi* between the eyebrows, it may return to the source *via* the route of its ascent; the Kundalini rising upto the Ajna is able to cut across the knot between the eyebrows and travel down *via* the nose, throat, chest and naval back to the Muladhara..." (Pp. 48-49).

It is instructive to note that many a fine point in the Kundalini movement which commonly escapes the attention of writers is dwelt upon satisfyingly by the author with convincing, verifiable explanations. He takes care to mention the difference of perception on the question of the original source of Nadis and the route taken by them: whether they originate from the Muladhara or from the top of the brain. He does not appear to agree that the Chakras are not located in the physical body though their areas of operation are; he does not accept their location in the subtle body.

While describing the state in an out-of-body experience, he mentions that "some old saints have recorded that the soul maintains contact with the body through a ray of light which looks like a thread tied to the navel. They may well be correct but I have not seen any such connecting thread... Logically, there must be some means of contact" (P. 66). The author may take it that there is a silvery cord extending from the physical body to the subtle body holding the line. If that be snapped for whatever reason, the person cannot come back.

The chapter on mystic meditation following the Kundalini experience is graphic in its description of mentally dying before the physical end. The case studies recorded testify to the possibilities of the different types of Samadhi even today. Explanations of 'clinical death', the 'dark tunnel' through which the departed or/almost-departed beings pass through, the extent to which *prana* stays in the body in cases of clinical death and where, are some of the other topics dealt with. Incidentally, his explanations of references to Yama in the *Rig Veda* are truly stimulating.

Sri Malik has done yeoman service to spiritual science in producing this work which is easily one of the best to appear on the subject during the last one or two decades. It opens up fresh dimensions.

DATE OF SRI RAMA by N. Narasinga Rao (International Society for the Investigation of Ancient Civilisations, 102, Mount Road, Madras 600 032, Pp. 299, Rs. 100/-).

"In the meantime, after rifice was over, six seasons ed away one after another. en at the twelfth month in e month of Chaitra, on the th lunar day when the arism Punarvasu was in the endent, when five planets viz., Ravi, Chandra, Kuja, Sukra and Sani happened to be in one's own house or in exalted position and when Janma Lagna and Guru in conjunction with Chandra were just rising i.e., entering together simultaneously the zodiacal sign Karkataka i.e., Cancer, Kausalya gave birth to Sri Rama, who is the Lord of the Universe and who is endowed with all auspicious divine marks." (Verses 8, 9, 10, Sarga 18, Bala Kanda).

Working on the data embedeed in these slokas of Valmiki, the author comes to the conclusion that Sri Rama's birthdate is 11th February, 4433 B.C. (tithi at 10h. 47m. 48secs.) This comes very near to the date January 10, 4439 B.C. arrived at by Prof. K. Srinivasaraghavan and his team. Naturallly the scholar-engineer Narasinga Rao has assembled a mass of supportive information in the process of his findings and has opened up new vistas for further research. Much light is shed on the age of Valmiki from many angles.

❒ **ALL INDIA ASTROLOGERS' DIRECTORY** - First Edition 1991 (International Institute of Astrology and Occultism, 47, III Floor, Palika Place, Panchkuian Road, New Delhi 110 001, Pp. 208, Rs. 125/-)

We have received a *Directory of Astrologers* which claims to be comprehensive covering at least 4000 astrologers around the country. Computerised, it has been updated to February 25, 1991.

The addresses are classified statewise. Two helpful indexes provided help to locate quickly any of these names on the basis of the surname and on that of the first name. An added feature of this Directory is a section on gem-dealers in India, statewise again. Many of the addresses found in this Directory, we are told, are complimentary inclusions.

However, at places it seems to include names of certain people who are not astrologers such as Sai Baba of Whitefield, Veerendra Heggade of Dharmasthala etc.

The printing is neat and the effort, commendable.

It is hoped the next edition will be free of such ambiguities.

❒ **ADVANCED TECHNIQUES OF ASTROLOGICAL PREDICTIONS:** Edited by K. N. Rao (M. N. Kedar, Chapter Chairman, Delhi Chapter I, ICAS, 1838, Gali Mata Wali, Chandni Chowk, Delhi 110 006, pages 169, Rs. 100/-, library edition Rs. 140/-)

This collection of research papers marks the second phase of the activities of the Indian Council of astrological Science (ICAS) which so far had been confined to teaching Astrology through classes. Mr. K. N. Rao, Vice-President of the ICAS, has concentrated on producing research papers based primarily on statistics. In fact, he has been the first to make a statistical assessment of astrological predictions. He started with Dr. Raman's political predictions producing in the process irrefutable evidence in favour of the methods of Astrology.

Some of the papers here are based on statistical studies of horoscopes, planetary patterns, and time-cycles-based on both Dasa and Gochara. Some papers have slected a few cases and gone in for indepth analysis of the charts. All papers, however, are priamrily based on classical techniques of Hindu Astrology.

There are many books on Astrology which introduce and teach the subject. There are also books which are the result of hastily putting together matter culled from different sources, most times without even duly acknowledging them and which are a slur on the science than anything else.

This volume is totally different and blazes a new trail in contemporary astrological literature because it brings out methods not commonly explored but dormant in classical literature on Astrology. A deep understanding of and experience in the different aspects of the subject are necessary to appreciate these papers. They are more in the nature of papers submitted at the doctoral or post-doctoral level and therefore, beyond the ken of the novice.

There is, in some papers, a fusion of Parasari and Jaimini principles. The subjects handled in these papers are the elections (politcal), the little understood but much dreaded Kalasarpa Yoga, marriages through the Annual chart, professional aptitude, marital harmony, 5th house matters and disease, its onset and outcome. Mr. S. N. Kapoor's paper gives new insights into the use of the Paramamthamsha planets Sun, Moon, Mars and Rahu in finding out if a chart shows service or self-employment. Mr. Kedar dealing with education emphasises the 4th house as showing the type of education one may get while the 5th shows one's academic inclinations. If both houses are harmoniously placed, education fares well with no frustrations. Kalasarpa Yoga has not been understood by many and is defined as Rahu and Ketu enclosing all the planets between them, inclusive of the Lagna. But Mr. Z. Ansari in his paper rakes up more controversy by extending the Yoga to Ketu-Rahu also having all the planets between them which is not quite acceptable. Messrs. R. S. Sharma, P. C. Verma, Shiva Raj Sharma, Ms. Kusum Sharma and others have authored some of the papers.

Mr. Rao has all along ensured that the predictive techniques evolved through the research under his guidance are such as to answer the test of replication, which is valid evidence of its scientific nature. Mr. Rao has the advantage of students involved in these studies being highly qualified in their own fields and therefore not only equipped with the right frame of intellectual inquiry but also conversant with research techniques.

While it is true, this research volume is an innovative step in the field of astrological studies which Mr. Rao claims justifiably so, it is not a fair assessment on his part to say there is not a single book written by contemporary authors which answers the need of the student for dependable techniques of prediction. Highly effective techniques of prediction have been culled out from classical works and modified to suit present times by a few modern day savants of Astrology. Only, details of statistical studies made using these techniques have not been either properly recorded or published. But these savants have stimulated in other's urge to study and further probe the science of Astrology through their writings. Statistical studies are no doubt part of proving a point but they are not the all of research work. Their role even if significant is limited.

Some of the conclusions arrived at in these papers are interesting and should be tried independently by all serious students of Astrology. Reproduced below are a few of them:

Any nexus between the 3rd, 5th and 10th lords from Lagna and from Karakamsa with Jupiter and Mercury also prominently involved produces a flair for writing.

Technical planets influencing the 10th house from Karakamsa, particularly Rahu, indicate the engineering profession.

The Prasthara Ashtakavarga of all the planets used with Vimshottari Dasa gives precision in timing events.

The Dasa of a planet in Mrityu Bhaga can produce diseases.

A highly commendable beginning into statistical research of astrological

TEEN SAU MAHATVA-POORNA YOGA by B. V. Raman, translated by J. Ansari (Motilal Banarsidass, Delhi 110 007, Pp. 219, Rs. 60/-).

This is an able translation Hindi of the famous work Dr. B. V. RAMAN, now in its th edition. It is a priceless ction of three hundred gas, combinations of ets. There are indeed merable such Yogas but e selected here are of the e important category. The hor draws upon many an ent authority beginning h Varaha Mihira, but relies e on his own long erience in astrological ters. He points out that no le Yoga can be paramount all time in one's life. There sually an onset of other gas which infleunce the ting of the prevalent one. ides there are periods, ations, in the impact of combination. The author ses the effects of each - evil or beneficial - and trates them with charts ever helpful. He ves the role of such Yogas ually overvalued. In his appended note on Kala Sarpa Yoga he notes that it need not always be malefic; though difficulit it has its long range benefits tooo.

This work is a veritable dictionary of astrological Yogas which every one inerested in the subject must possess as a reference book.

❑ **JANMABHOOMI PANCHANGA FOR VIKRAMA SAMVAT** 2048-49 — Khagolasiddhi Sukshma Nirayana Bharateeya Panchang (Janmabhoomi Panchanga Karyalaya, Janmabhoomi Bhavan, Ghoga Street, P.O. Box No. 62, Fort, Bombay 400 001, Pp. 53, Rs. 8/-).

The well-known Janmabhoomi Panchang-makers releases their maiden Panchang in Hindi for the year Vikram Samvat 2048. Handy and foldable, this compact carry-around-volume has many interesting features for the layman as well as for the serious student of Astrology. Popular forecasts for the market, for the 12 signs, information on Kumbhamelas, marriage and Upanayanam Muhurtams, exceptions to the taboo on marriages during Jupiter's transit of Leo and a compatibility table are of universal interest and use.

The more technical data provided includes the cabinet for the year and solar ingress into Capricorn and their results, eclipses, planetary positions and the five-fold details of Tithi, Nakshatra, Yoga and Karana and lunar ingress on a day-to-day basis; the coordinate of major cities in India and abroad and the Avakhadhachakra.

Specially designed to meet the needs of users in North India, the extended period covered is from Vikram Samvat 2048 Kartika Masa to V. S. 2049 Phalguna Masa or roughly November-December 1991 to February 23rd to March 1993.

Garo

❑ **A CHIK BONG AMJIKA** 0038 (Garo Universal Ephemeris) compiled by Sri. Biddanishth Marak (Compiler, J.N. Road, Hawakhana, P.O. Tura 794 001, West Garo Hills, Meghalaya, Pp. 148, price not quoted).

The first ever almanac-Marak's effort is a pioneering one in Garo, a language confined to a small territory in the West Garo Hills of Meghalaya for the year 1991-92. Although the bold effort must be commended, an assessment of the contents becomes impossible since no one around knows Garo. According to the compiler, it is said to carry annual predictions for Meghalaya, the 12 signs, annual rain forecast, Bengali, Muslim and English dates and details of the 5 elements of Panchanga and a planetary ephemeris for the year.

The volume is cyclostyled. We hope this effort meets the encouragement it rightly deserves.

❒ **JATAKA TAYARISUVA KRAMA** by Prof. K. P. Suryanarayan Rao, Dongerkery Sreet., Mangalore 3 (Karnataka).

This is a Kannada translation by Sri Panduranga Vithal of a most useful handbook by the author on "How to Cast a Horoscope and the Role of Planets on Human Life". Apart from initiating the layman into the principles of Astrology, the author gives in detail the various steps of casting a horoscope, the method of reading the Panchanga, the primacy of Surya, the Rasis, Nakshatras, the Grahas governing them etc. He disabuses the mind of many wrong notions of the effects of certain planets like Saturn or Sani; describes the role of planets, singly and in combination, and the means to promote or offset their influences. The discussion is as simple as could be.

With financial help the boy has ventured on DTP Computer by purchasing a computer. With help of friends he is getting orders, but is doubtful about the progress/ expansion to seek good margin. His eyes are also strained in this work. Can he expect better future in this line or should he diversify?

G. K. Bajaj, Delhi

Ans: Enough data are not given as to judge whether the planetary period is favourable or not for any enterprise to start or continue. The Lagna is connected with four malefics. This blemish is redeemed by Jupiter's placement in Lagna. The 2nd house is afflicted by the occupancy of the debilitated Sun, the lord of the 12th house. Navamsa Lagna is occupied by the Sun. Hence you cannot but wear spectacles. On this score, you need not change your present occupation. Since your horoscope shows your good financial status and Vaahana Yoga etc. you need not worry about a change.

Q. 3. As per Malayalam calendar, the Karkatakam (Cancer) comes under the dates 17th July to 16th August. But as per western version, Cancer comes under 21st June to 20th July. Similarly other Rasis also. For a person born on 5th July, what is his correct birth Rasi and why so?

Babu Thomas, Kottayam

Ans: Western version may be by Saayana. For a person born on 5th July, the correct birth sign is Gemini by Nirayana Sun. By at least 14th April, the Nirayana Sun must enter Aries and would transit each sign for 30 days. The Sun would be in Aries from 14th April to 15th May and from 16th May to 15th June in Taurus and from 16th June to 15th July in Gemini and so on.

Q. 4. Rasi: Aries - Ascendant and Ketu: Virgo - Jupiter and Moon: Libra - Rahu and Mars: Scorpio - Sun, Saturn and Mercury: and Sagittarius - Venus. (Karakamsa - Virgo). Navamsa: Virgo - Ascendant. Jupiter, Venus and Ketu:

Sagittarius - Mercury; Capricorn - Mars; Gemini - Moon; Cancer - Sun; and Pisces - Rahu. Mercury Bhukti in Jupiter Dasa from June 1990.

Classical texts says that Jupiter-Venus in Karakamsa make the native head of any religious or political institution. I am a Government employee. Suddenly I am offered the membership of the Managing Committee of a religious District body. Is the matter beneficial to me or will I face any litigation like communal/political etc., problems which could be harmful to me?

Subs. No. 160001

Ans: The 5th of Karakamsa is occupied by the exalted Mars. Hence your legal advice may be sought. You are likely to face problems in the Bhuktis of Venus and the Sun.

Q. 5. Rasi: *Libra - Ascendant and Venus 18-7; Scorpio - Rahu 4-54, Saturn 12-57 and Sun 19-34; Sagittarius - Moon 19-5 and Mercury 1-50; Pisces - Mars 6-6; Taurus - Ketu 4-54; and Virgo - Jupiter 5-39. (a) The 7th lord in the 6th house aspected by 6th lord. (b) 7th house subject to Papakartari Yoga. (c) Saturn and Rahu in the 2nd with Badhakapati Sun. If marriage is likely, what will be the financial position of the husband; will he be sickly?*

Girija Saxena, Delhi

Ans: Mars, the lord of 7th house is aspected by Jupiter. The 7th of Karakamsa is aspected by two benefics, namely, Venus and the Moon, unconnected with any malefic by aspect or occupancy. Darakaraka is Jupiter and is aspected in the Rasi chart by three malefics, namely, Mercury, the Moon and Mars. In Navamsa Jupiter is aspected by the exalted Saturn and Mercury. In view of the relative merits and demerits of Bhartrustana, the husband will neither be sickly nor of lower financial status than wife.

Q. 6. *On page 458 and 463 of* How to Judge a Horoscope (Part II), *Dr. B. V. Raman has given 2 examples A and B where he has indicated as to why the status of the father is exalted. In the following horoscope a similar pattern emerges i.e., exalted Mars in 9th house and exalted Karaka for father i.e., Sun in the 12th house. Despite similar indications, why is the condition of the father to the contrary?*

Rasi: *Taurus - Ascendant 15-29, Venus 21-11 and Moon 22-38; Leo - Ketu 27-39; Sagittarius - Saturn (R) 8-48; Capricorn - Mars 15-11; Aquarius - Rahu 27-39; and Aries - Mercury 6-11, Sun 6-33 and Jupiter 15-57.*

Hardeep Walia, New Delhi

Ans: The factors in the horoscope indicate the prosperous position of the father at the time of birth of the child and before. It is not compulsory the position of the father continues for good. That should be judged by some other factors and the operating planetary Dasas of the father.

Q. 7. Rasi: *Capricorn - Ascendant, Aquarius - Ketu; Aries - Venus; Taurus - Sun, Mercury and Saturn; Gemini - Jupiter and Mars; Leo - Rahu; Virgo - Moon. (a) Venus in the 4th also Indu Lagna, Budha Aditya Yoga, Guru-Mangala and Chandra-Mangala Yoga, position of Mars in 2nd from Sun and Saturn, and Jupiter's position in Kendra from Moon forms Gajakesari Yoga. Rahu in 12th from the Moon, Maha Sakthi Yoga. The Moon is in the 9th. Do you see any luck in business and politics?*

Sub. No. 2020

Ans: Data does not suffice to say anything about business or politics. The Yogas which you have mentioned (some of which are of course marred) do not indicate your luck in politics. But according to the articles on Argala Application published in the previous issue of The Astrological Magazine the lord of the Moon-sign is Mercury who is aspecting Lagna. The 5th of the Mercury is occupied by the Moon forming Argala Rajayoga, since Mercury is associated with the Sun and Saturn. Of course Navamsa should be looked into. However this points to your entry into politics.

Q. 8. Rasi: *Libra - Ascendant, Mars and Ketu; Pisces - Saturn; Aries - Rahu; Gemini - Sun, Mercury and Moon; Cancer - Jupiter; and Leo - Venus.* ***Navamsa:*** *Libra - Ascendant and Mars; Scorpio - Saturn; Sagittarius - Ketu; Pisces - Mercury; Aries - Sun; Taurus - Venus; Gemini - Moon and Rahu; and Virgo - Jupiter. R. V. Dixit, Gwalior

Ans: The combinations entioned by you besides gna and the Moon being in rgottamamsa, point to good ancial status. Since the 4th d 5th from the 7th house of gna are occupied by the alted Jupiter, and Venus, it s probable the native gets a ch and learned husband. nshottari Dasa timing is not ssible in the absence of lance of Dasa at the time of th. But according to Jaimini ara Dasa for woman, she ay marry in her 27th year in thuna-Kataka.

Q. 9. Rasi: Leo - Ascendant 2-49; Aries - Mercury 19-28 d Ketu 26-17; Taurus - Mars 3-34; Virgo - Moon 15-43 and piter 0-23 (R); Libra - Rahu 5-17; Scorpio - Saturn 20-42 Pisces - Venus 29-45 and n 29-57. Navamsa: Sagittarius - Ascendant; Capricorn - turn and Jupiter; Pisces - nus and Sun; Taurus - Moon d Rahu; Leo - Mars; Virgo - ercury; and Scorpio - Ketu. present Saturn Bhukti in piter Dasa till August 1992. The native aspires to be a m star; now he is an assistant director. Will the exaltation of Venus help him?

Ajay Sharma, Bombay

Ans: The Sun and Venus are conjunct in both Rasi and Navamsa charts. According to the Sutra, *Ravi sukrayoh Raja Preshyah* let the native be content with his present post.

Q. 10. In the following chart, Venus Bhukti of Moon Dasa is running. The relation between 2nd lord Venus (7th lord also) and 4th lord Moon, both have enough strength to yield good results such as acquisition of new property, new vehicle, house, advantage from ancestral property, unexpected money through speculative dealings like lottery, visit to holy place or foreign lands, favourable domestic developments like returning of absconding brothers and improvement in profession in Venus Bhukti. Or should the native wait for Sun Bhukti of Mars Dasa for these results.

The Moon, the Dasa lord posited in 9th which is aspected by Jupiter who is his dispositor posited in the 5th (house of speculation, 9th is the 5th from the 5th) and Venus posited in the 11th from the 5th did not yield any advantages from speculative dealings so far in this Dasa period. Why is it?

Rasi: *Aries - Ascendant; Taurus - Ketu and Mandi; Gemini - Venus; Cancer - Sun and Mercury; Leo - Jupiter; Scorpio - Saturn and Rahu; Sagittarius - Moon; and Aquarius - Mars.*

Sub. No. 17249

Ans: You have given only the Rasi chart, by which it is not possible to appraise the strength and the results of Moon. However by the mutual aspect of Venus and the Moon, you must have already Vaahana Yoga. You can hope for the good results of Mars Dasa, since Mars is Lagna lord aspected by Jupiter.

Q. 11. (a) Mercury in association with the Moon, affects one's IQ and the growth of brain as well as intelligence. It makes the person lacklustre even if he be highly educated. Such persons lack steadiness in life. Makara Moon makes the native commit the gravest blunder once in his life". How far are the above statements true regarding the following horoscope.

It is said "for Taurus Lagna people though Rahu is posited in the 7th if the sign dispositer Mars is exalted in the 9th then the native will lead a happy married life." Please enlighten me on this. (e) Will 7th Rahu give computer studies (10th to 10th)? The native is interested in Administrative studies. The luminaries are in the 9th. 10th. Lagnadhipati exalted with 8th and 11th lord in his own house.

Rasi: *Taurus - Ascendant 16-21 and Ketu 10-33; Gemini - Saturn (R) 18-27; Scorpio - Rahu; Capricorn - Moon 25-33. Mercury 28-37 and Mars 11-46; Aquarius - Sun 25-30; and Pisces - Venus 24-42 and Jupiter 4-26.*

Savitha, Hyderabad

Ans: By your statements, the native of the horoscope may be fickle minded with over estimation of self, and faulty understanding, without the

affliction of I.Q. Karakamsa is connected with Mercury, Moon and Venus. Hence the native may take up doctoral studies (Ph.D.,etc.).

Q. 12. *For remedial measures, Mr. H. R. Shankar says on page 735 (*THE AUSTROLOGICAL MAGAZINE *September 1982) last paragraph as follows: "Remedial measures generally associated with occult practices such as Talisman Gems, intervention by sages and babas in curing diseases, are all beyond the scope of Astrology and should not be construed as astrological". You are requested to comment on this statement.*

Sub. No. 11175

Ans: Yes, But Astrology gives the combinations of those who make good use of worship of Deities or misuse of worship of low deities, for material and spiritual ends. It points out those who get spontaneous grace of their deities (Anugraha) or who control the deities (*nigrah*) for ephemeral ends.

Q. 13. Rasi: *Gemini - Ascendant 8-54, Venus 0-37, Mars 3-25 and Rahu 5-05; Cancer - Sun 9-43; Leo - Mercury 4-38; Sagittarius - Ketu 5-05; Capricorn - Moon 23-36; Aquarius - Saturn 10-24; and Aries - Jupiter 28-49.*

(a) Are Rahu and Ketu the reasons for the native's nervous trouble? (b) Which Bhukti of Jupiter Dasa is qualified to give marriage? and Why?

Uma Maheswari, Jatni

Ans: Mars, the lord of 6th house in conjunction with Rahu, and Mercury the lord of Lagna in the 3rd, aspected by the malefic Saturn, are responsible for nervous trouble. Jupiter, the lord of 7th house, Mercury, aspected by Jupiter, and Venus the Kalatrakaraka are qualified to give marriage. Ketu in the 7th house of Lagna aspected by Venus and Jupiter, is also qualified to give marriage. Among these 4 planets, Venus may be disqualified since he is defeated in the planetary war. Mercury is aspected by Saturn and hence he too may be disqualified. So Ketu Bhukti in Jupiter Dasa is qualified to give marriage.

Q. 14. Rasi: *Cancer - Ascendant 7-44 and Mars 22-16; Leo - Venus 17-54, Jupiter 21-05, Ketu 22-01 and Mercury 12-00; Libra - Sun 00-16; Capricorn - Saturn 5-21; Aquarius - Rahu 22-01; and Aries - Moon 24-34 Saturn; Aries - Rahu. Despite exchange between 1st and 10th lords, 2nd and 4th lords and neechabhanga of Mars and Sun, Sasa Yoga, Chatussagara Yoga, Raja Yoga aspects of 9th lord on 1st and 5th lord on 7th and 11th lord and 9th lord. (a) Jupiter Dasa, Saturn Bhukti starting on 24-1-1979 gave a heart attack in October 1980 and forced the native to resign an executive position in June 1981. (b) Business started due to combination of 9th and 11th lords in the 2nd house and in Dasa of Jupiter resulted in debts. Why has Jupiter Dasa given adverse results? Any remedial measures?*

B. G. Sharma, Delhi

Ans: Jupiter along with two malefics in the 2nd house, a Maraka sign becomes a Maraka. Saturn being a malefic is in the 7th, a Maraka sign. The 4th house, denoting heart is afflicted by the debilitated sun and the aspecting Saturn while Janma Lagna is afflicted with two malefics one by occupancy and the other by aspect. Hence no wonder the heart attack came in Saturn Bhukti of Jupiter Dasa. However the entire Jupiter Dasa does not give adverse results. Try to do Japa for Jupiter.

Q. 15. Rasi: *Aries - Rahu; Taurus - Venus; Cancer - Mars and Saturn; Libra - Ascendant and Ketu; Sagittarius - Jupiter; Aquarius - Moon; and Pisces - Sun and Mercury.*

The native argues that it would be a criminal offence to marry and cause the death of the lady due to his afflicted stars and planets which would amount to further sins in this life. Can I request you to kindly give your comments on this Rasi chart?

R. K. Patnak, Ranchi

Ans: To rush to a rash conclusion with half-baked knowledge of Astrology is nothing but to expose the science to mockery. Even the creator cannot alter destiny. Only Astrology gives indications of our destiny. If really the astrological factors are so bad in the horoscope as to indicate the death of the spouse is it possible to escape from marriage itself? If you do not marry, that also means the denial of marriage. Then the question of death of spouse does not arise. If death of

ouse occurs, it is the result your past karma, whether know it or not from rological factors. It is not to argue with meagre owledge of astrology and th meagre data.

Q. 16. (a) What is nificance of Mars-Rahu d Sun-Venus on either side the Moon? (b) The 7th lord ars is with Rahu in the 6th use. Does it indicate an compatible life partner? (c) oes the chart indicate loss of fe as there is an exchange of uses between the 5th and h lords? What results will e aspect of Jupiter on turn give?

Rasi: Libra - Ascendant, piter and Mandi: Sagittarius Sun and Venus: Capricorn - on and Mercury (R): uarius - Mars and Rahu: es - Saturn: and Leo - Ketu.

Sanjay Rawat, New Delhi

Ans: (a) The 4th house with e Moon and Mercury is eavily afflicted, being emmed between the malefics, ars and Rahu and the Sun d Venus. Hence the 4th hava is afflicted. (b) The 7th d Mars is not in 6th house. The exchange of 5th and h house lords shows the loss husband, if the son survives. it may indicate barren wife.

Q. 17. **Rasi:** *Capricorn - cendant 16-29; Libra - Sun 19; Gemini - Moon 20-30 d Jupiter 6-57; Scorpio - ercury 16-49 and Ketu 11- Sagittarius - Venus 14-52 d Mars 4-54; Aquarius - urn 11-7; and Taurus - Rahu 17. (a) Physical frame is weak and emaciated. Chest is narrow and weak. Will there be any chance of improvement? (b) If married, will Mars' association with Venus and his aspect to 7th lord and 7th house give unfaithful, quarrelsome and dissastisfied wife? Or, (c) Will Mars-Venus conjunction in 12th deny marriage?*

D. Gopala Krishnan, Hyderabad

Ans: (a) There is chance of improvement, since Saturn, the lord of Lagna is in his Moolatrikona and in own house in Navamsa besides Saturn being aspected by Jupiter in Rasi chart. (b) Since Lagna lord is strong both in Rasi and Navamsa, there is no question of unfaithful wife. (c) Mars-Venus conjunction in Dhanus, that too, when aspected by the 7th lord Moon, does not deny marriage.

Q. 18. **Rasi:** *Aries - Ascendant and Saturn: Taurus - Moon: Leo - Sun, Ketu and Mars: Virgo - Mercury and Venus: Libra - Jupiter: Aquarius - Rahu: and Pisces - Mandi.* Navamsa: *Scorpio - Ascendant: Sagittarius - Jupiter, Saturn, Rahu and Mandi: Aquarius - Mercury: Aries - Mars: Gemini - Sun, Moon and Ketu: and Leo - Venus. The native is suffering from chronic gingivitis since childhood. Though Saturn is debilitated in Lagna, it is aspected by 9th lord Jupiter and has Neechabhanga also. Then why is the suffering? How long will it continue? Kindly advise remedial measures.*

C. Rajakrishnan, Palakkad Dist.

Ans: The Neechabhanga has nothing to do with your suffering. It is due to evil planetary period and sub-periods. Since your birth particulars and balance of Dasa are not given, it is not possible to make any further probe into the matter of your suffering.

Q. 19. My relative's engagement took place on 14th August 1991 at Madras. The marriage is fixed for 24th January 1992. I have read in your magazine that auspicious functions like marraiges etc., should not be done when Jupiter enters Leo (while passing through Makha star). The birth star is Revati (Chaitra masa Amavasya Ugadi day). What is your opinion?

B. Sarala, Bhadrachalam village

Ans: The 24th January 1992 coincides with the 5th and 6th lunar day of the dark fortnight of the lunar month of Pushya. Marriage should not be performed when the Sun transits Capricorn in Pushyamasa. It is strange how marriage is fixed on the above mentioned date. According to *Makhaadi Pancha Paadeshu Gurussarvatre ninditah* marriages etc. should not be performed when the Sun transits the four padas of Makha and the 1st pada of Poorvaphalguni. Gobila pronounces that marriage is prohibited for the people to the North of the Vindhya mountains, but not for the people to its south. Though there is an exemption in case of blemish of Jupiter in Simha, no exemption is pronounced in case of Pushyamasa. Hence

I sincerely advise that the date be altered to Margasiramasa or Maghamasa. Margasira is mediocre while Meghamasa is good.

Q. 20. *The native has ear-allergy since 1976. Is it due to the 3rd lord Moon being in the 6th or will his Pakshabala and the aspect of Jupiter on the 3rd house and lord provide some relief?*

Rasi: *Taurus - Ascendant; Leo - Saturn; Libra - Moon and Ketu; Capricorn - Jupiter; Pisces - Mars; and Aries - Sun, Rahu, Venus and Mercury.* ***Navamsa:*** *Taurus-Ascendant; Gemini - Moon and Saturn; Libra - Ketu; Aquarius - Mars and Jupiter; and Aries - Sun, Rahu, Mercury and Venus.*

B. Manjula, Nellore

Ans: The lord of 3rd house is aspected by two malefics *viz.*, Saturn and Mars. The 11th house is occupied by the malefic Mars. The 11th lord Jupiter is debilitated. Neither the Pakshabala of the Moon, nor Jupiter's aspect on 3rd house may help get relief in ear-allergy.

Q. 21. Rasi: *Pisces - Ascendant and Jupiter; Leo - Ketu; Virgo - Saturn and Mars; Libra - Venus; Scorpio - Sun and Mercury; Capricorn - Moon; and Aquarius - Rahu.* ***Navamsa:*** *Scorpio-Ascendant; Sagittarius - Sun; Capricorn - Mercury and Rahu; Aries - Mars; Gemini - Saturn; Cancer - Ketu; and Libra - Jupiter and Venus.*

The native is at present running Saturn Dasa, Saturn Bhukti. During Jupiter Dasa the native experienced success in all his undertakings by running his own factory and earned good wealth. But during the same Dasa and during 1988 and onwards he fell into abysmal depths in profession and finance and had to close down his establishment and dispose off all his house and other properties. (a) Is there any possibility for the native to come up or will he not?

G. S. Ramachandran, Turaiyur

Ans: There is a possibility of progress in Venus Bhukti of Saturn Dasa since Venus is in Moolatrikona sign besides the two being in 2 and 12 positions.

Q. 22. *My son aged 5 years is suffering from disintergrative psychosis for which no medical treatment is available in allopathy. Physically he is normal but mentally underdeveloped. He is running Jupiter-Saturn Dasa. Born on 7-2-1986. Can I adopt homeo treatment for better results?*

Rasi: *Taurus - Ascendant; Gemini - Sun and Moon; Cancer - Mercury; Leo - Venus; Libra - Ketu; Scorpio - Saturn; Sagittarius - Mars; Aquarius - Jupiter and Mandi; and Aries - Rahu.* ***Navamsa:*** *Gemini - Ascendant and Jupiter; Libra - Mercury, Saturn and Ketu; Scorpio - Mars; Pisces - Moon; and Aries - Rahu, Sun, Venus and Mandi.*

P. Damodaran, Calicut

Ans: Certainly. Improvement may be hoped as Jupiter Dasa advances. For anything all possible efforts must be put in, irrespective of the future result.

Q. 23. Rasi: *Virgo - Ascendant 14-29; Scorpio - Ketu 1-59; Pisces - Venus 21-23 and Saturn 5-54; Aries - Moon 9-34, Mars 29-4 and Mercury 23-00; Taurus - Sun 3-36 and Rahu 1-59; and Gemini - Jupiter 9-10.*

Does the 6th lord Saturn with Venus in the 7th indicate ill-health to his wife?

B. Srinivasa Rao, Chirala

Ans: Saturn, the lord of 5th house, in the 7th of Lagna and the occupancy of Mercury and the Moon of the 8th denote barrenness of wife more than her ill-health.

Q. 24. Rasi: *Pisces - Ascendant 26-03; Taurus - Mars 4-23 and Mercury 28-59; Gemini - Sun 20-01; Cancer - Venus 28-30 and Rahu 16-57; Leo - Moon 3-56; Capricorn - Saturn (R) 16-39 and Ketu 16-57; and Aquarius - Jupiter (R) 19-26. Will the start of Moon Dasa elevate native's career and financial position?*

Sub. No. 17554

Ans: The Moon is the lord of 5th house and is aspected by the Kendra lord Jupiter. Besides, the Moon attains exaltation Navamsa. Hence you can hope for a better career in Moon Dasa.

Q. 25. Rasi: *Ascendant 334-27; Sun 296-12; Moon 341-44; Mars 244-21; Mercury 303-07; Jupiter 274-24; Venus 280-56; Saturn (R) 51-40; Rahu 263-17; and Mandi 35-41.*

(b) The 4th and 7th lord in exaltation—does it indicate a happy marital life as 8th lord and 6th lord are aspecting the 7th house with Saturn posited there?

Vinay Rao, Bombay

Ans: The redeeming feature of the blemish of Kalatra Bhava, is the aspect of the exalted Jupiter, the 7th lord on Saturn, the 5th lord. Besides, Lagna Pada and Dara Pada are one and the same, aspected by 5 planets including Rahu. The lord of 2nd house of Upapada is exalted. Hence there is no indicaton of marital discord but may have two wives.

Q. 28. Rasi: Gemini - Ascendant; Virgo - Rahu; Scorpio - Jupiter; Sagittarius - Saturn; Aquarius - Sun; Pisces - Venus, Ketu and Mercury; Aries - Moon; and Taurus - Mars. **Navamsa:** Aquarius - Ascendant; Pisces - Venus; Gemini - Sun; Cancer - Rahu, Saturn, Mars and Moon; Virgo - Jupiter; Sagittarius - Mercury; and Capricorn - Ketu.

The 7th lord Jupiter is in the 6th house in the constellation of Saturn who is the lord of 8th and 9th. Jupiter is in his friend's house. He is having Kendradhipatya Dosha as well as Badhaka dosha. The lord of 8th Saturn is in 7th house. No doubt he is also lord of 9th which is his Moolatrikona. Saturn is in Sagittarius with Digbala and placed in his friend's house. But a very disturbing factor is the lord of 6th and 11th, namely, Mars is a bitter malefic for Mithuna Lagna. He is in 12th in Sayanasukhasthana. Mars as lord of 6th and 11th aspects the 7th lord Jupiter and 7th house and the planet Saturn. The Kalatrakaraka Venus is exalted and Vargottama along with lord of Lagna and 4th, namely Mercury. Mercury, though debilitated, has his debilitation cancelled by virtue of the aspect of Jupiter, its dispositer. Jupiter having Kendradhipatya dosha, aspects lord of Lagna and 4th and Venus and 10th house. Whether his aspect is benefic or malefic is a moot point with reference to marital prospects?

K. B. Radhakrishnan, Madurai

Ans: Jupiter, being Kendra lord in the 6th house is not a minus point, because he is relieved from the right of causing death to the native. Irrespective of lordship, the aspect of Jupiter on Lagna or any planet or Bhava is always welcome. Here the aspect of Jupiter on Lagna lord and Venus is benefic for marital prospects.

How Is 1992 For You?

UTPALA

MARS: In Sagittarius in the beginning of the year, Mars enters Capricorn on 8th February, Aquarius on 18th March, Pisces on 25th April, Aries on 4th June, Taurus on 15th July, Gemini on 30th August, Cancer on 29th October, gets retrograde in Cancer on 30th November and is in retrograde motion in Cancer during the rest of the year.

MERCURY: In Scorpio in the beginning of the year, Mercury enters Sagittarius on 4th January, Capricorn on 25th January, Aquarius on 12th February, Pisces on 28th February, gets retrograde in Pisces on 18th March, resumes direct motion in Pisces on 10th April, enters Aries on 6th May, Taurus on 23rd May, Gemini on 6th June, Cancer on 21st June, gets retrograde in Cancer on 21st July, resumes direct motion in Cancer on 14th August, enters Leo on 30th August, Virgo on 15th September, Libra on 2nd October, Scorpio on 23rd October, gets retrograde in Scorpio on 11th November, resumes direct motion in Scorpio on 2nd December, enters Sagittarius on 28th December and continues his sojourn in Sagittarius for the next three days in the year.

JUPITER: In Leo in the beginning of the year, Jupiter gets retrograde in Leo on 2nd January, resumes direct motion in Leo on 2nd May, enters Virgo on 3rd September and continues his progress in Virgo for the rest of the year.

VENUS: In Scorpio in the beginning of the year, Venus enters Sagittarius on 19th January, Capricorn on 12th February, Aquarius on 7th March, Pisces on 1st April, Aries on 25th April, Taurus on 19th May, Gemini on 13th June, Cancer on 7th July, Leo on 1st August, Virgo on 25th August, Libra on 18th September, Scorpio on 13th October, Sagittarius on 7th November, Capricorn on 2nd December, Aquarius on 28th December and continues his sojourn in Aquarius during the last three days in the year.

SATURN: In Capricorn in the beginning of the year, Saturn gets retrograde in Capricorn on 2nd June, resumes direct motion in Capricorn on 18th October and continues his progress in Capricorn during the rest of the year.

RAHU AND KETU: In Sagittarius and Gemini respectively Rahu and Ketu enter Scorpio and Taurus respectively on 26th November and continue their counter-clockwise motions in Scorpio and Taurus respectively for the rest of the year.

MAJOR TRANSITS

During 1992 the Sun, as usual makes a complete round of the zodiac. At the opening of the year, the Sun transits Sagittarius, enters Capricorn on 13th January, Aquarius on 11th February, Pisces on 12th March, Aries on 11th April, Taurus on 12th May, Gemini on 13th June, Cancer on 14th July, Leo on 14th August, Virgo on 14th September, Libra on 15th October, Scorpio on 14th November and Sagittarius on 14th December where he continues for the rest of the year.

[These forecasts based on Janma Rasi are general and as such those having favourable aspects according to present Dasa and Bhukti in their horoscopes will have favourable results from the indications made here while those having adverse aspects according to current directions will experience these predictions to a lesser degree. These predictions are based upon a clear interpretation of movements of transits of planets. If you do not know your Janma Rasi write to Utpala C/o THE ASTROLOGICAL MAGAZINE giving your birth details and enclosing a stamped self-addressed envelope, Ed., *A.M.*]

MESHA (Aries)

Venus is ourable for the greater part the year. Saturn transits e adverse 10th throughout e year. Unfortunately his l proclivities are not under ck practically throughout e year. The year leans more the favourable side. The st half of the year shows ch better promise than the ond. Bharani is better than vini and Krittika.

Health and Domestic: cessful surgical operation, moval of cataract and oration of full vision in the are most likely during the t quarter. You will derive ch happiness through your dren's continuous good formance in schools and ges. Domestic harmony peace will be vouchsafed you throughout except een 12th February and March and 25th April and 13th October.

Finance and Speculation: The two parameters controlling finance are the Dhanakaraka who is favourable for 8 months during the year and Venus, lord of the 2nd favourable for most months during the year. The year will be, broadly, satisfactory for finances. Speculative transactions will yield substantial dividends from 13th January to 12th March, from 13th June to 14th July and from 14th September to 15th October.

Real Property. Services. Professions etc.: The favourable periods for real property matters during the year are 8th February to 25th April and from 30th August to 29th October. The February to April period will be quite profitable and acquisition of new property is likely during the period in view of the favourable support of the Dhanakaraka during the period. The year will, certianly, be unsatisfactory for the services, professions and businesses.

Women: You will realise all your ambitions during the first eight months of the year. Film artistes will reach the top of the pyramid in the world of celluloid during the first half. Unmarried girls will get excellent proposals for marriage which will definitely take place during the first quarter. 1992 is a satisfactory year for the working girls.

Students: Your entry into the superior services of the Central Government is certain and this will fructify in the beginning of the second half. You will make progress in service directions. Foreign scholarships with travel grants are likely to be offered to you during the first eight months of the year. It is advisable to go slow on sports, games and athletics during the year.

VRISHABHA (Taurus)

General: The Sun will be beneficial when he transits the 10th and the 11th from the middle of February to the middle of April, again when he transits the 3rd from the middle of July to the middle of August and once again during his transit of the 6th from the middle of October to the middle of November. The Sun yields to Vedha from the middle of March to the middle of April when transiting the 11th and when in the 3rd. Mars transits the favourable 10th and 11th from 18th March to 4th June and the favourable 3rd from 29th October till the close of the year. Mars is free from Vedha throughout the favourable transits except between 18th March and 25th April when in the 10th. The movements of Mercury, back and forth, are so varied that a general summing up is not possible in an annual survey of this kind. Jupiter transits the unfavourable 4th till 3rd September when he moves into the favourable 5th and stays there till the close of the year. Unfortunately Jupiter's evil proclivities are not under check practically throughout the year except during the period from 1st August to 15th September. Venus, lord of the Moon-sign, is signally good for the greater part of the year. Saturn in the 9th throughout the year is not satisfactory but the redeeming feature is that his evil proclivities are under check practically throughout the

year, till November 26th, by the presence of Rahu in Sagittarius. The two major planets are not very helpful and it cannot, therefore, be stated that the year has any promise for you. Rohini is better than Krittika and Mrigasira.

Health and Domestic: You are likely to have health troubles practically throughout and consequently health will require careful watching. Chronic sufferers will have to be very careful. The health of your spouse and children will require careful attention. The domestic life will be, more or less, peaceful.

Finance and Speculation: The Dhanakaraka is not in a favourable mood for eight months this year and he is not also under check during the period. This is, to some extent, offset by the favourable lord of the 2nd for about 6 months in the year. The financial position will take a favourable trend during the last four months of the year. The year will not be unsatisfactory for finances. Monthly forecasts will be a better guide for the effects of speculative transactions.

Real Property, Services, Professions etc.: The real property matters will be, more or less, satisfactory. Acquisition of new property is likely during the last two months of the year. Income from land and buildings will be above average practically throughout. The second half shows greater promise to services. Businesses, professions and industry will find the year more or less satisfactory.

Women: Not an unsatisfactory year for the fair sex. Romances will blossom into happy wedding during the last four months. Club activities and social work will yield good results during most months in the year. Welcome changes are likely for the employed girls during the last quarter.

Students: The last four months will be a very good period for you. You could concentrate on studies practically throughout. You are advised to go slow on sports practically throughout the year. It will be, in fact, advisable for you to cut down all your extra-curricular activities during the first eight months of the year.

MITHUNA (Gemini)

General: The Sun, as usual, favours Gemini during his transit of the 10th and the 11th, Pisces and Aries from the middle of March to the middle of May and from the middle of August to the middle of September during his transit of the 3rd sign, Leo, and lastly during his transit of the 6th sign, Scorpio for a month from the middle of November. During all these favourable transits the Sun yields to Vedha only for a short period from 26th November to 14th December due to the presence of Ketu in Taurus. Mars transits the favourable 10th and 11th from 25th April to 15th July and this is an unusual short favourable transit in any year for Mars. He does not transit the favourable 3rd and 6th during the year. Mars yields to Vedha during his favourable transit of the 10th, from 25th April to 4th June. The monthly forecasts will be a better guide for the results of Mercury. Jupiter transits the unfavourable 3rd and 4th during the year. His evil proclivities are under check for only a very brief period from 21st June to 30th August during the year due to the presence of Mercury in Cancer. Venus is beneficial practically throughout. Saturn is unhelpful throughout the year when transiting the unfavourable 8th and his evil propensities are fortunately under check for nearly eleven months in the year due to the presence of Rahu in Sagittarius till November 26th. Bad influences will have an upper hand during most months in the year. Mrigasira is better than Punarvasu and Aridra.

Health and Domestic: You are likely to have health troubles practically throughout. You will have some relief when the Sun is in favourable transit. The critical period for you is from 26th November till the close of the year. Chronic patients will have an aggravation of their present ailments. Prophylactic care will be of some help. Quarrels and misunderstandings are not ruled out on the domestic side.

Finance and Speculation: The adverse posture of the Dhanakaraka throughout will be a hindrance to your financial activities particularly so during the first eight months when Jupiter is in the 3rd. Unless you exercise all your skills in the management of your finances you are likely to be in very great difficulties. You should refrain from speculative activities totally.

Real Property, Services, Professions etc.: The conditions pertaining to real property may not be good for most part of the year. You are advised to avoid arguments with Government authorities on property matters. This is a troublesome year for the services. Businesses and professions are not likely to find the year encouraging.

Women: Relationship with husband is likely to get strained unless you adopt a policy of give and take and thus resist the adverse planetary influences. Those engaged in social work may have to face criticism. The year may prove somewhat trying for working girls.

Students: In spite of adverse Jupiter you could concentrate on studies. The last quarter is likely to usher in a better period. You should watch the monthly forecasts for Mercury's effects and when he is in favourable transit you can intensify your studies. It is advisable to cut down your activities in sports in view of your proneness to physical injuries, especially during the last two months.

KATAKA (Cancer)

General: The Sun is always favourable for Cancer when transiting the 6th, Sagittarius, in the first half of January and the second half of December, also from mid-April to mid-June when he moves through the 10th and the 11th signs, Aries and Taurus and again from mid-September to mid-October when transiting the 3rd. The Sun yields to Vedha during the first half of January and during the last three days of December, during his transit of Sagittarius and from mid-September to mid-October during his transit of the 3rd.

He is free of Vedha during his transit of the 10th and 11th. Mars is beneficial when transiting the 6th from the beginning of the year till 8th February free of Vedha. He transits the favourable 10th and 11th from 4th June to 30th August yielding to Vedha for only nine days till 13th June. Mars is thus fully favourable practically throughout his four months of favourable transits. For the results of Mercury the monthly forecasts are to be referred to. Jupiter is favourable when transiting the 2nd from the beginning till 3rd September and he is free of Vedha for about six months from the beginning to 21st June. He transits the adverse 3rd from 3rd September till the close of the year. Saturn is unfavourable throughout the year when transiting the 7th. The favourable influences will, certainly, be more in evidence during the year. Aslesha is better than Punarvasu and Pushyami.

Health and Domestic: Excellent health will be vouchsafed to you throughout the year. Chronic patients should take advantage of the planetary vibrations of several planets and endeavour to get rid of their ailments permanently. You will have domestic harmony and bliss in abundant measure during most months of the year.

Finance and Speculation: Finance will be a strong and favourable point for you during the first eight months in the year. You are likely to promote public companies and the public issue of equities will be heavily subscribed. Speculative transactions will yield good dividends for about seven months during the year.

Real Property, Services, Professions etc.: New properties will be acquired. You are likely to get restive at the unreasonable attitude and demands of labour. You are advised to get labour problems resolved through compromise talks. Unexpected promotions for the services and transfers to places of their choice are most likely. This is a lucrative year for the professions, businesses and industry.

Women: You will realise your ambitions. You will be the most sought-after person in social gatherings. Film artistes will reach the top of the pyramid in the world of celluloid. Unmarried girls will get excellent proposals of marriage which will definitely take place during the first half. This is a very good year for employed girls.

Students: You will make good progress in all spheres including studies. The chances of your coming out successful in the superior services (foreign service) competitive examinations held by the Central Government are exceedingly bright. You will find the year very fruitful in the field of fine arts.

SIMHA (Leo)

General: The Sun being the lord of the Moon-sign his transit of the 6th from mid-January to mid-February, that of the 10th and 11th from mid-May to mid-July and that of the 3rd from mid-October to mid-November will cause quite favourable results. He yields

to Vedha only during his favourable transits of the 11th from mid-June to mid-July. Mars transits the favourable 6th from 8th February to 18th March and the favourable 10th and 11th from 15th July to 29th October when transiting the favourable 11th. He does not transit the favourable 3rd during the year. Monthly forecasts are a better guide for Mercury. Jupiter transits the favourable 2nd for only four months during the year, from 3rd September till the close of the year. Fortunately he is free of Vedha during this favourable period except for two weeks from September 3rd. The evil proclivities of Jupiter during his unfavourable transit of the 12th from the beginning to 3rd September are fully under check by Ketu in Gemini. Saturn is practically fully favourable when transiting the 6th yielding to Vedha only for short periods from 6th May to 23rd May due to Mercury's transit of Aries and from 4th June to 15th July due to the transit of Mars in Aries. Venus, the ruler of the 3rd and the 10th is favourable for most part of the year. The year is full of promise to the native. Poorvaphalguni is better than Makha and Uttaraphalguni.

Health and Domestic: Barring minor complaints, off and on, the year will be practically trouble-free from the point of view of health. Chronic sufferers could look forward to having relief during most months in the year. You will derive happiness through your children. Peaceful and harmonious life will be vouchsafed to you practically throughout.

Finance and Speculation: The year will be, more or less, satisfactory for finances practically throughout. You may start a finance company during the last quarter which will be a success within a few months. Your company will attract large fixed deposits from the investing public. Moderate profits are likely in the speculative transactions during the first half. The second half will be more profitable for speculative activities.

Real Property, Services, Professions etc.: The real estate field will yield good results during the year. Acquisition of new property is also indicated. The year will be satisfactory for the services. Unexpected promotions are likely during the last quarter. The year will be profitable for the professions and businesses.

Women: Love affairs will blossom into happy wedding during the last quarter. Your popularity in social circles will rise very high during the year. Working girls will find the year very helpful and encouraging. They are likely to be promoted during the last quarter and transferred to places of their choice.

Students: You will make good progress in studies. You will also shine very well in sports. The chances of your inclusion in the national or state level teams are excellent. You will make good progress in several directions during the year. Particularly the last quarter is full of promise to you.

KANYA (Virgo)

General: The transit of the Sun is generally favourable from mid-February to mid-March when he transits Aquarius, the 6th sign, from mid-June to mid-August when he transits the 10th and the 11th signs, Gemini and Cancer, and again from the middle of November to the middle of December when he transits Scorpio. The Sun yields to Vedha during his transit of Aquarius from mid-February to mid-March and during his transit of the 10th sign from mid-June to mid-July. He is free of Vedha during the transits of the 3rd and 11th signs, Scorpio and Cancer. Mars transits the favourable 6th sign, Aquarius, from 18th March to 25th April and the favourable 10th and 11th signs, Gemini and Cancer from 30th August till the close of the year. He does not transit the favourable 3rd, Scorpio, during the year. Mars yields to Vedha during his favourable transits of the 10th and the 11th from 30th August till the close of the year, due to the presence of Ketu in Gemini and Saturn in Capricorn respectively. The monthly forecasts are a better guide for the effects of Mercury. Jupiter tranists the unfavourable 12th and Janma signs during the year. Unfortunatley his evil propensities are not under check during most months in the year. Venus, a first rate Yogakaraka for this sign, will be in good transit for the greater part of the year. Saturn in the 5th during the year is not satisfactory; the redeeming feature is Rahu's check on Saturn's evil proclivities practically throughout the year except during the month of December. The general results will be of a mixed nature with good and bad sides.

THULA (Libra)

General: As usual the Sun is good when he transits the 3rd during the opening and closing fortnights of the year, again from mid-March to mid-April when he transits the 6th and once again from the middle of July to the middle of September when he transits Cancer and Leo, the 10th and the 11th signs. He is practically free of Vedha during all these four favourable transits ignoring his yielding to Vedha during the opening fortnight of the year due to the presence of Ketu in Gemini. Mars is favourable when he transits the 3rd, Sagittarius, from the beginning of the year till 8th February, the 6th Pisces from 25th April to 4th June and the 10th, Cancer from 30th August till the close of the year. Unusually, Mars is favourable to the native for a long period of about six months yielding to Vedha from 25th April to 4th June when transiting the 6th. Mercury moves back and forth to cover the whole zodiac and it is better to consult the monthly forecasts to know his effects. Jupiter transits the favourable 11th for a little more than eight months during the year moving into the unfavourable 12th on 3rd September. He stays in the 12th till the close of the year. The fortunate feature is that Jupiter does not yield to Vedha for six months during his favourable transit of eight months. Venus, the ruler of the Moon sign is favourable for the greater part of the year. Saturn in the 4th during the year transits, of course, his own sign. From the Gochara point of view he cannot be of much positive help to the native. The good influences have the upper hand during the year. You are likely to take some very important decisions during the year which may have a favourable reaction on the rest of your life. Swati is better than Chitta and Visakha.

Health and Domestic: The Dhanakaraka will enable you to stabilise and consolidate your financial position during the first eight months in the year and his adverse influence during the last four months will not affect you seriously. Some of the old dues which you had practically written off will be paid back to you during the first half. The year does not show any promise for speculative transactions.

Real Property. Services. Professions etc.: All matters pertaining to real property will be satisfactory. Acquisition of new property is indicated in the first week of February. Services may get unexpected promotion during June/July. This is a good year for the professions, businesses and industry.

Women: The year will be satisfactory for the fair sex from many points of view. Women in independent professions such as lawyers, doctors, writers etc., are particularly favoured. Film artistes will reap a rich harvest in the world of celluloid. Romances will blossom into happy wedding during the first eight months. Good year for the working girls.

Students: Fruitful year indeed for you. You will make excellent progress in studies.

You will be successful in your National Defence Academy examination for entry into the defence forces as commissioned officers. Foreign scholarships with travel grants and personal allowances will be offered to you during the year.

VRISCHIKA (Scorpio)

General: The Sun, ruler of the 10th, will be good from mid-January to mid-February when he transits the 3rd, from the middle of May during his transit of the 6th and again from the middle of August to the middle of October when he transits the 10th and the 11th signs. Fortunately the Sun does not yield to Vedha during any of these favourable transits and he will go all out to assist you in your endeavours. Mars transits the favourable 3rd, Capricorn, from 8th February to 18th March and the favourable 6th, Aries, from 4th June to 15th July. He does not transit the favourable 10th and 11th for you during the year. He is free from Vedha during his transit of the 3rd but he yields to Vedha from 21st June to 15th July due to the presence of Mercury in Cancer, when transiting the favourable 6th. The beneficial influence of Mars is thus available to you for only a little more than two months during the year and even during this short period the Vedha effect obstructs him from exercising his full beneficial influence for twenty-four days. The monthly forecasts should be referred to for Mercury's results. Jupiter is unfavourable to you for a little more than eight months during the year when he transits the 10th, Leo from the beginning to 3rd September when he moves into the favourable 11th and starts conferring his grace on you. He continues in this favourable transit of the 11th till the close of the year — a favourable period for 4 months from 3rd September till the close of the year without, fortunately, any ill-effect due to Vedha. Venus is favourable for most months during the year. Saturn transits the favourable 3rd during the year. Saturn transits the faovurable 3rd during the year. Fortunatley he is free of Vedha practically throughout the year; he yields to Vedha for a very short period during the year from 18th September to 23rd October due to the presence of Venus and Mercury in Libra. The good influences will have the upper hand during the year. The last quarter will be decidedly better than the rest of the year. Anuradha is better than Visakha and Jyeshta.

Health and Domestic: You will maintain reasonably good health practically throughout. Chronic patients could find the year, more or less, trouble-free. The year is full of promise to family happiness. The whole family may go on a pilgrimage and get the blessings of enlightened souls.

Finance and Speculation: The financial position will be generally satisfactory. For urgent need of cash you can always rely on your friends for coming to your rescue. You are likely to start a finance company during the last quarter and you will receive good support from the public in the form of fixed deposits to your company. Speculative transactions are not recommended except during the last four months.

Real Property, Services, Professions etc.: The year cannot be said to be satisfactory for real property matters. Investment on properties could be postponed to 1993. You will be able to manage labour problems satisfactorily for most part of the year. The last five months show good promise for the services. The year will be, on the whole, profitable for businesses and professions.

Women: This is a satisfactory year for the fair sex. The last four months show promise of happy culmination of romances into wedding. Social workers are particularly favoured during the year.

Students: You will make good progress in both studies and sports. The chances of your inclusion in national or state-level teams for athletics are quite bright. You will get acquainted with scholars of fame and reputation during the last quarter and such contacts will help you in your career later.

DHANUS (Sagittarius)

General: The Sun, a key planet for Sagittarius, will be good during the transits of the 3rd from mid-February to mid-March, again when he transits the 6th from mid-May to mid-June and during his transits of the 10th and the 11th from mid-September to mid-November. It is only during his favourable transit of the 3rd from mid-February to mid-March that he yields to Vedha due to the presence of Jupiter

Leo. He does not yield to Vedha during his other favourable transits. Mars transits the favourable 3rd, Sagittarius, from 18th March to 6th April and the favourble 9th from 15th July to 30th August. He does not transit the favourable 10th and 11th houses during the year. He yields to Vedha during his transit of the 6th and not the 3rd. Mars is favourable for a little less than three months during the year. Mercury, another key planet for this sign, lord of the 9th and the 10th Kendras, covers the entire zodiac with both forward and backward movements and so his effects are better gleaned from the monthly forecasts. Jupiter transits the favourable 9th from the beginning till 3rd September for a little over eight months and the fortunate position is that he is free of Vedha during his favourable transit of the 9th. We could more his yielding to Vedha for ten days from 25th August to 3rd September due to the presence of Venus in Virgo. Jupiter transits the adverse 8th from September 3rd till the close of the year. Venus is favourable for most part of the year. Saturn is unfavourable throughout the year when transiting the 2nd. The good effects will be, certainly, more during the year. Moola is better than Poorvashadha and Uttarashadha.

Health and Domestic: Reasonably good health will be vouchsafed to you practically throughout. Chronic patients could look forward to having good relief during the first eight months. You will have domestic bliss and harmony practically throughout the year.

Finance and Speculation: The finances will be entirely satisfactory during the first eight months. The old family debts which were worrying you will be repaid in full on favourable terms and the public will applaud you for paying back their debts honourably although they were time-barred and legally not payable - effect of the Dhanakaraka aspecting his own house. You are advised to go slow on speculative transactions.

Real Property, Services, Professions etc.: Acquisition of new property is likely during the first half of April when Mars transits the favourable 3rd without any Vedha. The year is full of promise for the services. The businesses, professions and industry could look forward to having a profitable year.

Women: You will realise your ambitions. Film artistes will reach the top of the pyramid in the field of celluloid during the second half of March and they will stay there for a very long time as a lone occupant. There is room for only one at the top of any pyramid. Working girls will be promoted and transferred to places of their choice. Love affairs will blossom into happy wedding during the first half.

Students: Good year indeed. Vidyakaraka will help you very much in studies. Mars will secure for you army commissions during March-April period. Excellent performance in competitive examinations, thanks to favourable Jupiter for eight months till 3rd September. Contacts with scholars of fame and reputation. You should make good use of the year.

MAKARA (Capricorn)

General: The Sun favours Capricornians during his transit of the 3rd, Pisces, from the middle of March to the middle of April and again when he transits through the 6th, Gemini, from the middle of June to the middle of July and once again during his transits of the 10th and the 11th, Libra and Scorpio, from mid-October to mid-December. He yields to Vedha during his transit of the 6th from mid-June to mid-July due to Rahu in Sagittarius and from 26th November till mid-December during his transit of the 11th. Mars transits the favourable 3rd from 25th April to 4th June and the favourable 6th from 30th August to 29th October. He does not transit the favourable 10th and 11th for Capricornians during this year. He yields to Vedha during his favourable transit in the 3rd from 25th April to 4th June due to the presence of Rahu in Sagittarius. The effects of Mercury, a fast moving planet, often back and forth are not uniform and could be more advantageously studied from the monthly forecasts. Jupiter transits the favourable 9th from 3rd September till the close of the year for a period of four months; his transit in the 8th from the beginning to 3rd September, for a little over eight months is not satisfactory. Venus, a powerful Yogakaraka for Capricorn, is favourable for most part of the year. Saturn in Janma is thoroughly unsatisfactory. The year shows mixed results with bad side more than the good. Dhanishta is better than Uttarashadha and Sravana.

Health and Domestic: The planetary transits indicate that the native will have some problem or other in the field of health during the first eight months. Chronic sufferers should be prepared for an aggravation in their ailments during the first half. Domestic harmony and peace will, however, be vouchsafed to you for most months in the year.

Finance and Speculation: This is not a satisfactory year for you in so far as financial matters are concerned. After passing through a difficult period in the first eight months relief from financial difficulties will be provided for you by Jupiter when he transits through the favourable 9th for a period of four months from 3rd September. You should avoid speculative transactions totally.

Real Property, Services, Professions etc.: No important decisions on real property matters should be taken practically throughout the year. The agricultural crops are likely to be affected adversely. Services may have to keep their fingers crossed during the first eight months. Businesses and professions are advised to concentrate on consolidating their past gains instead of seeking new profitable outlets for their talents and experience. The closing period of four months in the year will be quite favourable for both services, businesses and professions.

Women: You should be careful during the difficult period of the first eight months when you should be watchful about your functional health. Social and club activities should be curtailed as far as possible during the first eight months. The closing period of four months in this year is full of promise for love affairs, blossoming into happy wedding. Working girls may find the first eight months somewhat trying but the closing period of the year will end on a happy note for them.

Students: You should be patient. If you exercise sufficient self-restraint during the first eight months you will have laid a good foundation, for a smooth and satisfactory period during the coming years. This is an accident-prone year for you during the first eight months. You should try to avoid sports and games during this period.

KUMBHA (Aquarius)

General: The Sun is favourable for this sign when he transits the 3rd, Aries from mid-April to mid-May, again from the middle of August when he transits the 6th, Cancer and once again when he transits the 10th and the 11th signs from the middle of November onwards till the close of the year and during the first half of January. The Sun yields to Vedha from 14th November to 26th November during his transit of the 10th on account of the presence of Ketu in Taurus and he is free of Vedha during the remaining period of his favourable transit in the 10th. He is completely free of Vedha during his transit of the 11th. Mars transits the favourable 3rd, Aries from 4th June to 15th July and the favourable 6th, Cancer from 30th August till the close of the year. He does not transit the favourable 10th and 11th during the year. He yields to Vedha during his favourable transit of the 3rd. During his transit of the favourable 6th he yields to Vedha throughout the period of four months except from November 14th till the close of the year. It is an unusual feature that Mars is favourable for a period of nearly six months when transiting only two signs during the year. He does not transit the 10th and the 11th signs during the year. It is better to refer to the monthly forecasts for the effects of Mercury. Jupiter transits the favourable 7th from the beginning till 3rd September, a period of a little over eight months; he transits the adverse 8th from September 3rd till the close of the year. Venus, Yogakaraka for this sign, is favourable for most past of the year. Saturn in the 12th during the year is thoroughly unsatisfactory but the redeeming feature is that he is in his own sign. The favourable effects will be more during the year. Satabhisha is better than Dhanishta and Poorvabhadra.

Health and Domestic: Barring minor complaints the year will be practically trouble-free from the point of view of health. Chronic sufferers could look forward to having relief for most months in the year. You will derive happiness through your children. Peaceful and harmonious domestic life will be vouchsafed to you throughout the year.

Finance and Speculation: The year will be satisfactory for finances, especially the first eight months. You may start a new financial company during the first half and the public confidence in you will be

General: The Sun, as usual, favourable right from the nning till the middle of ruary and also during the cond half of December when transits the 10th and the h signs, again from the dle of May to the middle of e when he passes through 3rd and once again from the middle of August to the middle of September when he transits the 6th sign, his Swakshetra (own sign). The Sun yields to Vedha for a very short period from the beginning to January 13th in all his favourable transits for four months during the year. Mars transits the favourable 10th and 11th from the beginning to 18th March and the favourable 3rd from 15th July to 30th August. He does not transit the favourable 6th during the year. Mars yields to Vedha only during the favourable transit of the 10th from the beginning till 8th February due to the presence of Rahu in Sagittarius. It is advisable to refer to the monthly forecasts for the effects of Mercury. Jupiter, the ruler of the Moon-sign, transits the favourable 7th from September 3rd till the close of the year. But he yields to Vedha from 26th November till the close of the year due to the transit of Ketu in Taurus. Jupiter transits the unfavourable 6th from the beginning till September 3rd. Venus is unfavourable only during short periods in the year. Saturn transits the favourable 11th during the year. This is an extremely helpful situation and you should aim at deriving maximum benefits in 1992. Saturn yields to Vedha from 21st June to 30th August due to the transit of Mercury in Cancer and again from 29th October till the close of the year due to the transit of Mars in Cancer. The year is full of promise and it is up to you to gather and consolidate your gains for stability in the coming years. Revati is better than Poorvabhadra and Uttarabhadra.

Health and Domestic: There are not likely to be any health problems during the year. Chronic sufferers could look forward to having a practically trouble-free year. You will derive happiness through your children. Domestic bliss of a high order will be vouchsafed to you.

Finance and Speculation: You will not have any financial problems during the year. The last four months, however, will be particularly favourable for financial matters. An unexpected financial legacy is likely to be conferred on you during September-October. Speculative transactions will be profitable for most part of the year.

Real Property, Services, Professions etc.: The year shows good promise for real property matters. Purchase of property is indicated during the last quarter. Yield and rentals will be at high levels. Services may get unexpected promotion during the first quarter. This is a profitable year for professions and businesses.

Women: The period will be quite satisfactory for the fair six, from many points of view. Unmarried girls will receive excellent marriage proposals which will fructify during the second and fourth quarters of the year. Working girls will get transfers to places of their choice.

Students: The year will be good for you in studies, sports, health and money matters. You will be successful in tests and interviews. You will have very enjoyable picnics in the company of the opposite sex during the year. Make good use of the promising year. ✻

Your Technical Difficulties Solved

(from page 105)

years back is fighting with the management and the case is pending with the labour court. In the meantime his wife who was residing with him for the last six years or more deserted him and got married to another man. My friend is now totally frustrated and awaiting the court decision. Will he win or lose?

Rama Mohan Mohapatra, Barsuan

Ans: It is difficult in the absence of birth details to presage success or defeat, since the Dasa operating also is not known. However Lagna lord is exalted receiving the aspect of Jupiter. Your friend can hence hope for success in the suit.

9. 30. Rasi: *Libra - Ascendant 29-13; Scorpio - Saturn 10-53; Sagittarius - Ketu 5-54; Pisces - Jupiter 6-54; Taurus - Sun 20-2; Gemini - Rahu 5-54 and Mercury 7-00; and Cancer - Venus 3-13. Mars 5-59 and Moon 17-54.* Navamsa: *Gemini - Ascendant; Cancer - Venus and Sun; Leo - Mars; Virgo - Jupiter; Libra - Saturn; Scorpio - Rahu; Sagittarius - Moon and Mercury; and Taurus - Ketu. Rahu has foreign qualities about him and he is in 9th house. And there are 3 planets in the 10th house. They indicate foreign travel. Am I right?*

M. P. Muthanna, Sankhavaram

Ans: The Lagna is a cardinal sign and is aspected by Mars from a cardinal sign. Navamsa Lagna is a dual sign. Lord of Lagna, Venus is in a cardinal sign both in Rasi and Navamsa. These suffice to indicate foreign travel.

General Market Indications for 1992

PROF. B. C. MEHTA

The year 1992 is a year of at importance for the siness world indicating avy and astounding ctuations in all the principal rkets like oilseeds, cotton d kapas, bullion, jute, ssian, share and stock rkets, grains, jaggery and gar markets due to the fact at many important planets ving special bearing on rket fluctuations change eir Rasis and Nakshatras d form special aspects.

The most important is the mbination of three malefic nets Neptune, Herschel and hu in Sagittarius and piter's trine aspect from Leo th these three malefics. The ry of Rahu into Sagittarius 11th May 1991 is very lefic for political as well as ancial and social conditions the world. This combination ll continue till 26th vember 1992 when Rahu aves Sagittarius to move into orpio.

Saturn will continue in pricorn throughout 1992. pricorn is said to be the ling sign of our country and malefic like Saturn there is t favourable. Jupiter will ter Virgo ruled by Mercury 3-9-1992.

In view of these planetary ns it can be said that 1992 l also be an extraordinary r not only for market ctuations but also for political upheavals and economic as well as social conditions.

We will discuss some important individual markets.

Oilseeds: This consists of groundnut oil, castor seeds, cotton seeds, sasoo seeds, linseed, vegetable and coconut oil.

The chief significator of this market is Saturn and the helping planets are Rahu, Jupiter and Mars.

All airy signs have special affinity with the oilseed markets and when any malefic planet crosses these signs or the three special Nakshatras Aridra, Swati and Satabhisha, the oilseed market shows excellent bullish trend. If a benefic passes these signs or Nakshatras, the market shows declining tendency. During 1991 we have predicted excellent bullish trend from beginning of the year to August 1991 or the first 7-1/2 months of 1991.

This year 1992 denotes bearish trend in the beginning of the year. As Jupiter will continue in Leo and Makha Nakshatra, it will affect all sorts of oilseed markets and we expect declining trend till 15th February 1992. After Rahu enters Moola, the Nakshatra of cotton and cotton seed market, good bullish trend in the oil market is expected and this will continue till April 1992. Then again bearish trend till next Diwali 1992.

Cotton and Kapas Markets: Libra is the significator of cotton and kapas market. Pluto is passing through Libra. Herschel, Neptune and Rahu are in Sagittarius forming sextile aspects with Pluto. Bullish trend prevailed in 1991 as predicted by us. This rise was supported by the entry of Jupiter into its exaltation sign Cancer and Saturn into Capricorn forming mutual aspects when excellent Teji was seen. As predicted, after Jupiter left Cancer in August 1991, the cotton market started its bearish trend. Several merchants and readers of THE ASTROLOGICAL MAGAZINE have made excellent profits in cotton and kapas business based on this forecast.

1992 denotes slight declining trend in the beginning from January 1992 to February 1992 and then gradually again market would be bullish till 30th April and then again good decline till September 1992 and thereafter again bullish trend is expected. However, it can be safely expressed that 1992 will not prove very bullish like 1991. So please note the market may rise but after some declining or bearish trend. The first 8 or 9 months may bring good decline two or three times before September 1992.

Bullion:

The ruling sign of silver is Cancer; of gold, Leo. But according to Indian

Commercial Astrology Pisces is for silver and Aquarius for gold.

In our view all watery signs Cancer, Scorpio and Pisces have special affinity with bullion market. The Nakshatras having a bearing on silver are Punarvasu, Visakha and Poorva-bhadrapada and for gold Pushya, Chitta, Dhanishta and Mrigasira.

The controlling planets are Jupiter, Saturn, Rahu and Mars.

We had clearly predicted good bullish or Teji period in both silver and gold markets, from the beginning of the year 1991 to August 1991 due to the exalted position of Jupiter in Cancer, its ruling sign. The bullion market showed very good rise and bullish trend and touched new high rates.

Now in 1992 we expect some declining trend from the beginning due to Jupiter in Leo. Rahu is passing through Sagittarius and will enter Moola about February 1992 and so after that some bullish trend is expected for a couple of months or till April 1992 and then again bearish trend will run till September 1992 with Teji reactions in the interval, however, before September 1992. Markets of both the commodities may show good declining trend and thereafter when Jupiter enters Virgo again Teji trend may commence. However 1992 will give two or three Mandi or declining chances before 10th or 12th September 1992.

Jaggery and Sugar Markets:

This market is governed by Jupiter, Rahu, Neptune and Mars and the combination of Neptune, Herschel and Rahu in Sagittarius will also control this market. January and February 1992 may bring declining trend especially in the sugar market, but from 3rd week of February to April 1992 again bullish trend is expected and then again declining period will continue till 25th of September 1992. The last two or three months may show again Teji or bullish trend.

Share and Stock Market:

I have been very keenly researching on this market since more than twenty years. I have noted that Scorpio has an important bearing on the share market. All watery signs *viz.* Scorpio, Cancer and Pisces have a special bearing on this market. Herschel, Saturn, Neptune, Mars and Rahu also affect it very much.

Saturn was in Scorpio the ruling sign of this market till December 1987 and we have been always predicting bearish or declining trend. This prediction proved quite accurate, but from the year 1988, we have been also predicting bullish trend as Saturn left Scorpio and bullish trend commenced. In 1990 when Jupiter entered Cancer we predicted horrible Teji or bullish trend. 1990 and 1991 indeed proved excellent bullish years.

In 1992 the market would show some declining trend in the beginning of the year till next Budget and then after again good Teji can be expected as Saturn is passing through Capricorn, the 10th sign of the zodiac. This is a Teji factor. This may bring bullish trend after Budget 1992. This bullish trend may continue till April and then again declining trend may be seen before October 1992. Rahu enters Scorpio on 6th November 1992. This is an important factor for share market.

Jute and Hessian Market:

This market is governed by all airy signs — Gemini, Libra and Aquarius. Hence the rulers of these three signs, namely, Mercury, Venus and Saturn have a special bearing on the fluctuations of jute and hessian markets.

Saturn being a malefic denotes bullish trend and Jupiter always favours its production. Pluto will be in Libra till the end of 1992. Rahu and Neptune with Herschel will be in Sagittarius. This malefic conjunction will form a sextile aspect with Pluto. Thus 1992 will see both bullish and bearish trends.

We expect bearish trend till the end of February 1992 and then bullish trend till April 1992. Again bearish trend till September 1992 and thereafter we expect both-sided fluctuations.—156.91. ❊

Ans: The 10th house is very strong. Jupiter, its lord, is in the 11th house and he is aspected by 9th lord Saturn. Saturn, in turn, is with 2nd lord Moon which is favourable for finances.

Jupiter Bhukti of Saturn Dasa will start from December 1992 and marks the last Bhukti of the Dasa. However, both are well-placed and can give you a footing in a teaching or coaching job. However, Mercury Dasa next may favour you with writing abilities. Against these indications it is better you train or otherwise prepare for a career in writing and journalism.

aspects the 10th house and this can give intuitive abilities. So a career in Astrology can be cultivated carefully. The Dasa is of the 5th lord Mercury who is aspected by Jupiter and promotes consultations.

Q. 2. I am in Final B.Sc. and plan to do a Master's course in Computer Applications. But I feel nervous and am afraid of failure. Do you see any indication of such a career so that I can go ahead with confidence? I am dependent on what you say for guidance and moral support.

Ans: You are passing through Rahu Dasa, Venus Bhukti. The Sun Bhukti begins thereafter. The Sun is the Ascendant lord and quite well placed in the 7th with 2nd and 11th lord Mercury, the latter ruling computers. Therefore, you can forge ahead with your plans for MCA. You will be able to do quite well in your entrance test.

Q. 3. I am a bank-officer since 1977 and highly qualified in the line. But twice I missed my promotion in 1989 and 1990 failing in the exams. When can I expect to be promoted as Manager?

Ans: Jupiter, the Ascendant lord, is strongly placed in the 4th house aspecting the 10th house and its occupants, the Moon and Saturn.

Jupiter Dasa should, as a rule, be good as the Dasa lord happens to be the Ascendant lord and aspects the 10th house favourably. Mercury Bhukti which began in July 1991 shows promise. As 10th lord not only is he Vargottama but joins benefics 9th lord Sun and 5th lord Mars in the 6th, an Upachaya. The promotion may come about September-October 1992 when transit Jupiter will also be favourably influencing the chart.

The 10th lord Mercury is with 2 strong benefics and is himself in strength. This can show success in computer-services also but Mercury is in the 6th from Dasa lord Jupiter in Navamsa which means a change of place is round the corner. This would affect the computer-business. You can carefully consider all these points before investing in the business.

Q. 4. I am an executive of senior management cadre in a big steel plant. In 1986 I was accused of negligence and charge-sheeted but the real culprit was found later on. Even though I was exonerated of the charges, I was denied my promotions and have thrown up the job in sheer disgust. My future seems very bleak. Will my past name and fame be recovered at all?

Q. 5. Kindly indicate the line of ...siness best suited to the native.

S. N. 16274

Born 9-12-1968 at 6.32 p.m. (IST).

Ans: We see a concentration of Rahu-Ketu influences and also of watery signs in the chart. The 10th house has Rahu-Saturn aspected by 10th lord Jupiter, Mars and Ketu. The Ascendant lord Mercury is in the 6th in Scorpio with the Sun. In Navamsa, the 10th lord Jupiter is in Aries with Ketu. These factors would point to a career in articles related to medicine, chemicals, laboratory supplies etc. However, Ketu Dasa will run upto June 1995 and Ketu cannot be productive of good results. So, the boy can start business in the lines suggested on a very modest scale and keep-

commencement of Venus Dasa when it will start prospering well.

Alternately, since Saturn and Rahu are in the 10th and Saturn, to some extent, shows the cinema, stage, artistes etc. he can also venture in this line but not on a very big scale.

Q. 6. My son who was well off in a foreign bank switched over to a subsidiary State Bank in May 1982. He feels frustrated and wants to rejoin the foreign bank. He is heading towards a nervous breakdown. Will resignation from the present job help?

Ans: Your son is now in

Sun Dasa. The Sun as 12th lord in the 2nd is with malefic Mars causing intense restlessness and frustration. Since the Sun is also in debility, any change made now will only be like jumping from the frying pan into the fire. Venus Bhukti may usher in major changes for the better in his life. The Moon as 11th lord is well placed, waxing, aspected by benefics Venus and Jupiter all of which show the native will see a sea-change in his fortunes as Moon Dasa begins.

Q. 7. My son is doing very well in his B.E. studies and has even completed GATE successfully. He has epileptic fits sometimes and is still on medicine. Will this affect his academic ambitions and career prospects?

S. N. 11086

Born 12-7-1969 at 11.40 a.m. at 17 N 54, 76 E 54.

lord. This would indicate highly successful studies and also a distinguished career. Jupiter in Lagna will also progressively see the fading away of his epileptic problem. Mercury Bhukti of Jupiter Dasa will begin in 1993 when opportunities for going abroad will also turn up.

Q. 8. I have been transferred to a police station in Kodagu. My children are with my in-laws. My wife also has not been able to get transferred to this place. When will I be able to live with my family and will my present posting cause any problems for me in my work?

out major trouble in your workspot. In early 1992, a change of place is likely when you may be able to live with your wife. However, the next 3 years may be filled with minor irritations and pinpricks in your work but they will not affect your career or reputation adversely.

How Is January 1992 for You?

UTPALA

MAJOR TRANSITS

The Sun transits Sagittarius till 13th and then enters Capricorn. Mars, Jupiter and Saturn continue their progress in Sagittarius, Leo and Capricorn respectively, Jupiter getting retrograde on 2nd. Mercury in Scorpio till 4th transits Sagittarius till 25th and then enters Capricorn. Venus transits Scorpio till 19th and then enters Sagittarius. Rahu and Ketu continue their anticlockwise motions in Sagittarius and Gemini respectively.

Mesha (Aries)

General: The Sun in the unfavourable 9th till 13th transits thereafter the favourable 10th. Mars in the adverse 9th is under check till 19th. Mercury in the favourable 8th till 4th transits thereafter the adverse 9th till 25th; with check till 19th; he then moves into the favourable 10th with Vedha. Jupiter in the 5th is fully favourable. Venus in the favourable 8th and 9th yields to Vedha throughout. Saturn in the 10th is none too good. The month has more favourable influences. You should, however, guard against a tendency to fall from ideals. Krittika is better than Aswini and Bharani.

Health and Domestic: Barring minor complaints you will be generally free from health troubles during this month. Chronic patients having stomach troubles should be careful. Children's performance in schools and colleges will make you happy. With some effort you should be able to save peace and harmony in the domestic field.

Finance and Speculation: The month will be quite satisfactory for all financial matters. You will settle your past financial commitments on favourable terms. The old dues which you had practically written off will be paid back to you. Speculative transactions are not recommended during the month.

Real Property, Services, Professions etc.: Decisions on major deals should be postponed to a more favourable period. Yield and rentals will be a little above average. Labour problems are likely to worry you. This is quite a satisfactory month for services. The period will be profitable for businesses and professions.

Women: The month will be enjoyable for women. Love affairs and romances are likely to blossom into wedding. Outside activities will bring in happiness and success. Employed girls will find the period, more or less, satisfactory.

Students: Medical students are particularly favoured. You will be successful in tests and interviews. You are advised to refrain from sports in view of your proneness to accidents and consequent physical injuries.

Vrishabha (Taurus)

General: The Sun in the 8th and the 9th, Mars in the 8th, Jupiter in the 4th and Saturn in the 9th are all unsatisfactory; the Sun is under check till 13th, Mars till 19th and Saturn throughout. Venus in the adverse 7th till 19th with check transits thereafter the favourable 8th. Mercury in the unfavourable 7th during the first four days transits thereafter the favourable 8th till 25th when he moves into the unfavourable 9th with check. The evil influences predominate during the month. Frustration will be the order of the day practically throughout. Stoicism coupled with prayer to God will be of great help to counterbalance the restlessness which the evil planetary influences will tend to generate in you. Mrigasira is better than Krittika and Rohini.

Health and Domestic: The planetary transits do not generate any optimism in the field of health. Stomach ulcers and nervous tensions are likely to worry you. Chronic sufferers should be more careful. Peace and harmony will elude you in the domestic field till 19th. Thereafter you will have domestic bliss.

Finance and Speculation: This is an unsatisfactory month for finance. Pressure from creditors is likely to be very severe. Some items of expenditure should be carefully checked by you. Speculative transactions are likely to yield profits between 4th and 25th. This will assist you to discharge a minor part of your financial obligations.

Real Property, Services, Professions etc.: Real property transactions are best avoided during the month. Yield and rentals are likely to go down. You will, however, be able to resolve labour problems to the satisfaction of all concerned. Services, businesses and professions are likely to find the month quite trying.

Women: Social contacts are not likely to yield any satisfactory results. Romances and love affairs should be avoided. You should take particular care of your functional health. Working girls should be very careful when dealing with superiors.

Students: If sufficient self-restraint is practised during the month you will have laid the foundation for deriving good benefits during the favourable months. Vidyakaraka is favourable for most days in this month and you should make up your mind to make good progress in studies.

Mithuna (Gemini)

General: The Sun in the 7th and the 8th, Mars in the 7th, Jupiter in the 3rd, Venus in the 6th and the 7th and Saturn in the 8th are all unfavourable; the Sun is under check till 13th, Mars till 19th and Saturn, throughout. The lone planet favourable to you during part of the month is Mercury who transits the favourable 6th during the first four days and the favourable 8th during the last six days. His transit in the favourable 8th is clouded by Vedha. He transits the adverse 7th from 4th to 25th with check till 19th. The month will be thoroughly unsatisfactory from the Gochara point of view. You should not take a fatalistic attitude but give full play to your free-will to perform good deeds to counterbalance the evil reactions of your past mistakes which also arose from your free-will. Mrigasira is better than Aridra and Punarvasu.

Health and Domestic: Persistent and violent headaches indicative of tumour are likely due to the severely adverse transits of practically all the planets. You should consult medical experts

Chandrashtama occurs from the morning of 19th to the morning of 21st.

Makara (Capricorn)

General: The Sun in the 12th and 1st, Mars in the 12th, Jupiter in the 8th and Saturn in Janma are all unfavourable; the Sun is under check till 13th and Mars, throughout. Venus in the favourable 11th and 12th yields to Vedha till 19th. Mercury in the favourable 11th during the first four days with Vedha transits afterwards the adverse 12th and 1st with check till 25th. The evil influences are in predominance during the month. You should develop your will very strongly and resist all temptations which are likely to land you in difficulties. Frustration will be the order of the day practically throughout. Uttarashadha is better than Sravana and Dhanishta.

Health and Domestic: The planetary transits do not generate any optimism in the field of health. Stomach ulcers may worry you. Chronic patients should be very careful. Domestic peace and harmony may not, however, be denied to you during the month.

Finance and Speculation: This is altogether an unsatisfactory month for finance. You will have to bring into force all your managerial skills to keep your financial affairs under strict control. Speculative transactions are not recommended during the month.

Real Property, Services, Professions etc.: All decisions on real property matters, major or minor, should be postponed. Agricultural crops may be affected adversely by pests. Labour problems will cause you considerable annoyance. Services will find the month quite trying. Businesses and professions may have to face numerous obstacles.

Women: The month will prove to be unsatisfactory for the fair sex. You should take particular care of your functional health. Social contacts are not likely to be much helpful. Working girls should be extremely careful in dealing with the superiors.

Students: If sufficient self-restraint is practised now and patience is shown to counteract the adverse influences of planets you will have laid the foundation to enjoy the good effects that are bound to come your way during the coming months. Contacts with the opposite sex could be reduced to your advantage.

Chandrashtama occurs from the morning of 21st to the morning of 23rd.

Kumbha (Aquarius)

General: Jupiter in the 7th and Mars in the 11th are both favourable, the latter yields to Vedha. Mercury in the favourable 10th and 11th till 25th with Vedha from 4th to 25th transits thereafter the adverse 12th with check. Saturn in the adverse 12th is under check. Venus in the unfavourable 10th till 19th transits afterwards the favourable 11th. The Sun in the favourable 11th till 13th with Vedha transits afterwards the unfavourable 12th withcheck. The favourable influences are in predominance during the month. You will be successful in your business undertakings. Accrual of wealth and general prosperity are indicated. You will gain political influence through contacts in the right quarters. Satabhisha is better than Dhanishta and Poorvabhadra.

Health and Domestic: Notwithstanding the evil transit of Saturn you will enjoy good health throughout. Chronic sufferers could look forward to having a trouble-free month. Children's performance in schools and colleges will make you happy. You are likely to have plenty of problems in the domestic sphere till 19th when peace and harmony will return.

Finance and Speculation: Your financial affairs will be quite satisfactory. Gains could be made in all transactions. Amounts due will be realised and loans repaid. Speculative transactions are likely to yield good profits.

Real Property, Services, Professions etc.: Good period for real estate matters. You are likely to acquire new property. One of your properties will fetch a good price and you will make a judicious investment of the sale proceeds. Services could look forward with confidence to congenial working conditions. The month will be quite profitable for businesses and professions.

Women: In spite of the adverse transits of Venus for most days in the month this is quite a satisfactory period for the fair sex. Love affairs will blossom into a very happy wedding during the last week. Employed girls are likely to be transferred to places of their choice after 19th.

Students: The month shows very good results for students. You will make excellent progress in studies. A few may be offered army commissions in the engineering field. You will be successful in tests and interviews.

Chandrashtama occurs from the morning of 23rd to the afternoon of 25th.

Meena (Pisces)

General: The Sun in the 10th and the 11th, Mars in the 10th and Saturn in the 11th are quite favourable ignoring the yielding to Vedha by the Sun during the second half. Jupiter strikes a discordant note in the 6th but that does not matter in view of the good influence of the majority of other planets. Mercury transits the unfavourable 9th during the first four days. He transits the favourable 10th and 11th during the rest of the month yielding to Vedha from 4th to 25th. Venus in the favourable 9th till 19th with Vedha transits the unfavourable 10th afterwards with check. The month will witness the accomplishment of your desires, business advancement and accrual of power and authority. Uttarabhadra is better than Poorvabhadra and Revati.

Health and Domestic: Good health is assured to you throughout. Chronic sufferers could look forward to having a good deal of relief. Children's health may cause mild concern but there is no need for any anxiety whatsoever in this connection. The month cannot be said to be quite satisfactory for peace and harmony in the domestic field but if you are patient and tactful you could ensure that the domestic boat does not rock.

Finance and Speculation: The Dhanakaraka is positively adverse. Even so you will not have an unsatisfactory month for finances in view of the support of the lord of the 2nd. Friends will come to your rescue and help you financially. Speculative transactions will yield good profits for most days in the month.

Real Property, Services, Professions etc.: Yield and rentals will be at good levels. Tenants will pay back all the old arrears. All your labour problems will be resolved to the satisfaction of all concerned. Services should be very careful as they are likely to incur the displeasure of their superiors. This is a profitable month for businesses and professions.

Women: Those engaged in social work will be invited to shoulder greater responsibilities in recognition of their good performance in the past. You will be the most sought-after person in social gatherings. Employed girls will have to be very careful in dealing with their superiors.

Students: Those pursuing technological courses are particularly favoured. This is a good month from the point of view of both studies and sports. Your excellent performance in the field of sports will be fully recognised and the chances of your inclusion in state or national level teams are quite bright. Close contacts with the opposite sex are not advisable during the month.

Q. My daughter was married in April 1986. She had a girl in May 1987 and is in the family way again. Right from the beginning her domestic life has been marked by tiffs between husband and wife. Will she ever be happy?

Ans: There are certain inherent deficiencies in your daughter's chart. Both from Lagna and Moon-sign, the 1st and 7th lords are in Shashtashtaka. This generally leads to stress due to incompatability. The 7th lord Saturn is with Jupiter and aspects the Ascendant. The solution in such case lies in working towards adjustment (at the mental plane) with the shortcomings of the husband. The 7th lord retrograde can make him very unyielding and rigid in his views. But because the girl's chart itself is defective, major changes cannot be expected. But some improvement is indicated after the next 4 years when Saturn leaves Aquarius.

Husband: Born 5-9-1952 at 9.49 p.m.

The 7th house is caught between malefics and the 7th lord is in the 6th with Saturn, a malefic. However, Jupiter's aspect on the 7th house is redeeming.

The 5th house has Jupiters' aspect. The 5th lord is in Leo, a male sign. A male child is not therefore ruled out.

Ans: The 7th house has a benefic Jupiter but he is retrograde. The 4th house has malefic Saturn, also retrograde. Venus, the Karaka, is hemmed between malefics and aspected by malefic Saturn. All these factors do not seem to suggest happiness in marriage.

Coming to the Dasa, it will soon be of Rahu who in the 8th does not augur well for marital life or its stability. In view of these indications, it is better girl returns to her parents when things become too difficult and pursue her career goals.

Q. My wife is having serious menstrual problems. Is an operation advisable as suggested by doctors?

Born 22/23-5-1941 at 12.00 midnight.

S. N. 18021

Ans: The worst phase of your wife's sickness is over now that Mars Dasa has ended. Rahu Dasa is starting and Rahu occupies Virgo aspected by Mars and Jupiter. The sign lord Mercury (Rahu's sign-depositor) is in the 5th with Venus and Jupiter which is favourable. Therefore, if managed with palliative treatment during the next 2 years, there should be no major problem. Jupiter's aspect on Rahu indicates surgery may not be necessary.

Lagna, Jupiter aspects the 7th house. Jupiter Bhukti of Venus Dasa has just started. Marriage is likely before September 1993. Since Bhukti lord Jupiter is the Lagna lord and placed in the 10th house Vargottama, it can give success in your efforts in other areas of life also.

Q. Will I get back my family life? I am living with my son since 1986 when acute marital tension started. In 1989, the divorce suit came. My wife is living with our younger child born in March 1988 and he does not know me at all.

Ans: Venus occupies the 7th house and Jupiter is in the 8th. This does not seem to show permanent separation. Venus Dasa will finish in May 1992. The Sun Dasa begins after that and the Sun, though Neecha (with Neechabhanga) is with Lagna lord Mercury in a benefic sign. Therefore, you may resume marital life in Sun Dasa, although the relationship may not be particularly happy.

Q. My wife is suffering from severe back pain, leg pain and heavy bleeding. All kinds of medicines have been tried without success. Is it necessary to get the uterus removed as advised by doctors?

S. N. 15860

Born 29-12-19957 at 10.10 a.m. (IST)

Ans: The sign Scorpio is heavily afflicted and it rules the reproductive system. But Saturn who is there is a functional benefic being the Lagna lord. Further, your wife is passing through Ketu Dasa till 1996. Ketu is in Aries ruled by Mars and Mars, in turn, is in Scorpio. Therefore, the degree of the trouble may be high. However, Venus Dasa runs after that and Venus as Yogakaraka is well placed. He also rules the private parts. Therefore Ketu Dasa is best tided over with the help of medication — Ayurveda, nature-cure etc. Ketu will not help arrive at a proper diagnosis; so any drastic step now taken can be regretted later on. You can wait for the Dasa of Venus to start when the problem may automatically right itself.

IAN COUNCIL OF TROLOGICAL ENCES, DELHI

ia Conference and ration

The first ever all India ference organised by the ICAS held on 21st and 22nd mber, 1991, at Bharatiya Bhawan on the first day at the Aga Khan Hall, on the nd day, at Delhi. It was ded by delegates from all the country.

The Conference was gurated by the former Chief ice of India, Justice P.N. gwati and the key-note ess was delivered by Dr. B.V. n, President of ICAS and or of The Astrological ine. Sant Nagaraj Ji Jain and his disciple Muni mal Ji were also present.

In his inaugural address ice Bhagwati said that it was rtunate that most of the ated Indians did not realise Astrology was not merely an gral part of Indian culture tradition but was also totally entific to its core. He referred the *Valmiki Ramayana* in h King Dasaratha had asked Vasishtha to arrange for the ration of Sri Rama when the n entered Pushya Nakshatra the old king had been told trologers that his end was nching. He was therefore in ry to nominate his essor. Justice Bhagwati also ated an episode from the *bharata* in which Karna Sri Krishna that Saturn had ed Rohini Nakshatra, Mars retrograde in Jyeshta and to enter Anuradha and ath (Ketu) was in Chitta and therefore all indications existed for the total destruction of the Kuru kingdom. The defeat of the Kauravas was absolutely certain and he (Karna) was helpless in spite of seeing this inevitable cosmic verdict clearly in the astrological configurations present. Justice Bhagwati also stressed the need for understanding and imbibing classical sciences.

In his key-note address, Dr. B.V. Raman said that the debate whether Astrology could be granted the status of a science continued. Astrology was not perfect, but neither was science. Scinece classified an electron as a wave as well as a particle at the same time and could not say definitely which of the two it was. Dr. Raman, criticised the press and some of the "intellectual elite" for the eagerness with which they debunked Astrology. There were people who condemned it publicly but made surreptitious trips to astrologers at the drop of a hat. "Scientists have never disproved Astrology; then why do they want us to prove it?" asked Dr. Raman. He said he could not understand why the media was hostile to Astrology while it faithfully reproduced weekly forecasts by various astrologers. Dr. Raman had a dig at the Doordarshan for misrepresenting Astrology and denigrating it subtly.

In his message sent in Sanskrit, His Holiness Sri Sankaracharya of Kanchi Kamakoti Peetam referred to the glorious tradition of Astrology and wished the Conference all success.

The Chief Justice of India, Justice Ranganatha Mishra, said in his message, "Astrology in our country had reached great heighta and in fact had acquired almost perfection which the modern science is not able to reach. I am sure, your Council will endeavour to keep up the

achievement."

Acharya Nagaraj Ji highlighted the dedicated work of the ICAS in spreading scientific Astrology. He said he was happy to note that young astrologers were highly educated and taking to the study of Astrology with great zeal.

In his message, Dr. Murli Manohar Joshi, President, B.J.P., said that the modern scientific mind was gradually recognising the complex relationship between man and his environment. The holistic world-view was slowly replacing the reductionist approach and Astrology had taken into account this principle.

Mr. Vijaya Bhaskar Reddy, Union Minister of Law, Justice and Company Affairs, said in his message that he was impressed by the fact students included highly qualified professionals, academicians, engineers and many businessmen.

Mr. Krishna Kant, Governor of Andhra Pradesh, expressed great satisfaction at the research being done by ICAS. Mr. Giridhar Gomango, Minister of State for Food Processing Industries, Mr. A. R. Antulay, former Chief Minister of Maharashtra and other dignitaries also sent their messages wishing the Conference all success.

Presenting a report of the activities of the ICAS, the Controller of Examinations Mr. S. N. Kapoor said it was noteworthy that of the 181 students who underwent the *Jyotisha Praveena* (one year) and *Jyotisha Visharada* (two years) courses of the Indian Council of Astrological Sciences in the last two years, there were 10 doctors, including two FRCS and two MD's, 44 engineers, 14 businessmen and industrialists, 17 government officers, 21 bank officers, 16 advocates, MBA's and chartered accountants and even 4 army and air force officers. Their ages ranged from 20 to 60 years.

Mr. K.N. Rao, well-known astrologer and one of the teachers, explaining his methods said "Older students obviously do not have a good memory, they cannot memorise like children; then I use the associative memory technique with them."

The day's highlight was a highly technical discussion on a variety of subjects like Godhooli Muhurta (Iranganti Rangacharya), Simhasta Brihaspati (S. K. Kelkar) and Secrets of Palmistry (Jain Muni Manimal Ji, Messrs. N. P. Thareja and P. C. Joshi etc.). The technical sessions were presided over by Messrs. R. K. Narayan (Patna), S. K. Kelkar (Poona) and A. V. Sundaram (Madras).

Mr. Vellampuri John, former member of Rajya Sabha, condemned the habit of people consulting astrologers privately and speaking against Astrology in public. He said that people who condemn Astrology should be penalised through an amendment of the I.P.C.

The second day's deliberations commenced with the successful candidates of Visharada presenting their technical papers in the morning session with Mr. K. N. Rao presiding over it. The subjects covered in these papers included education, service or self-employment, period of rise and fall in profession, onset and outcome of diseases and other topics.

In the concluding session on marriage, Mr. P. S. Iyer (Erode) dealt in detail with little known techniques and methods relating to marital problems.

In his valedictory address, Mr. Vijaya Bhaskara Reddy said that consulting astrologers was an inseparable part of our daily and social life. At a time when people were forgetting the meaning of the Vedas, it was Vidyaranya and Sayanacharya of Andhra Pradesh who had given their interpretation. Astrology, being part of the Vedas, had received a tremendous revival then. Many good books written in Telugu in the last part of the last century and the early part of this century were still popular. Andhra Pradesh, said Mr. Reddy.

L to R: Mr. Vijaya Bhaskara Reddy, Dr. B. V. Raman (holding the address), Mrs. Rajeswari Raman and Mr. K. N. Rao.

The technical papers compiled in a book form entitled "Advance Techniques for Astrological Prediction" are available at Rs. 100/- a copy from the Delhi Chapter I, of the Indian Council of Astrological Sciences, No. 44, Mahabat Khan Road, Din Dayal Upadhyay Marg, New Delhi 110 002.

Concluding, Mr. Reddy said
t Astrology was a great
ient science and astrologers
d given very good predictions.
e Indian Council of Astrological
ences was founded with the
e aim of purifying Astrology
m all that was dross, gross,
dulent, sensational and
ndentific. In every profession
re was technical training,
ellectual honesty and moral
ellence and so also in
trology. The ICAS was doing
y good work in the
semination of Astrology.

Mr. Giridhar Gomango, Union
inister of State for Food
ocessing Industries, said he
s happy to attend the annual
nvocation-*cum*-Conference of
e Indian Council of Astrological
ences, a well-organised all-
dia body promoting the
entific culture of Astrology. He
d he had had reservations
out astrologers getting
ticised, particularly in the
dian context and indulging in
sational political predictions.
was this political nature which
ve credence to the ICAS.

"You will be surprised to
now that in fixing my own birth
gna there have been
ferences of opinion among the
trologers. But one of you
esent here today insisted that
had to be Mesha Lagna and on
at basis wrote out in advance
me predictions and asked me to
k them. Eighty per cent of
ese predictions about the past
re correct" said Mr. Gomango.

There were some paradoxes in
trology which could be solved
y when approached with
objectivity and scientifically. ***Political predictions made on wrong data and wrong horoscopes and then justifying the predictions could harm the science.*** He said the planets represented the Avataras. Of the nine Avataras, Lord Rama was a Suryavamshi, Lord Krishna was a Chandravanmshi, Lord Narasimha was a Mangalvanmshi, Lord Buddha was a Budhavamshi and so on. The great culture of this country was woven round these Avataras and the critics of Astrology were probably not aware of this great religious and cultural linkage between the Avataras and planets.

It was for this reason that many people recite the Dasavatara Stotra of Jaya Deva for *graha-shanti*. All planets, including the Kali Avatara, were referred to in that great *stotra*, said Mr. Gomango.

Even the *Geeta Govinda* of Jaya Deva was not an accidental poem but a spontaneous outcome of the religio-astrological culture of Orissa. The magnificent architectural masterpiece, the Konark Temple was constructed with astronomical precision. As the Sun rose everyday, his first rays would fall on the feet of the great idol of Surya and as the day progressed, the rays would fall on different parts on the basis of which one could cast the correct Lagna. The spokes of the wheel of the chariot could be used to find out the exact degree of the Lagna and the Sun. Orissa was the only State in India where the Government regularly granted funds and controlled an astrological organisation called Samant Chandrasekhar Smruti Parishad, a registered body devoted to the cause of Astronomy, Astrology and other allied studies. In January 1986 this Parishad had honoured Mr. K. N. Rao with the title *Jyotish Vidya Vachaspati*.

Referring to the Patala Rista Chakra, a chart usually cast in Bengal, and a very effective tool of prediction, Mr. Gomango said that there were many techniques which were lost, half-forgotten and little used for predictions. As an all-India body, the ICAS should undertake the task of integrating these different techniques.

On the occasion research scholars who presented papers were given medals. The ICAS honoured the following well-known astrologers engaged in the service of the astrological science with titles: *Jyotisha Bhanu* (Pt. Hardev Sarma Trivedi, P. S. Sastry and K. N. Rao and posthumously M. S. Sitaramaiah and V. A. K. Ayer); *Jyotisha Vachaspati* (M. N. Kedar, S. N. Kapoor and T. S. Vasan); *Jyotisha Kovid* (Dr. Lalitha Gupta, T. N. Sharma, R. N. Bashist, V. K. Chowdhury, K. S. Jain, R. K. Viswakarma and Z. Ansari); and *Samudrika Kovid* (N. P. Thareja).

A beautifully designed and framed memento was presented to Dr. Raman for his contribution to the cause of Astrology in the shape of an address signed by over 50 leading astrologers. Mr. K. N. Rao said that this was being done as Dr. Raman had reached a very significant landmark in his astrological career. The first was, that on 8th August 1991 he had entered the 80th year of his life and the second was that he was the only Editor in the world who had edited a monthly journal without any interruption for over 55 years between 1936 and 1991. It could be a world record worthy of being included in the *Guiness Book* said Mr. Rao. Thunderous cheers followed the presentation of the address to Dr. Raman who replied suitably.

Suryaprakash Memorial Lecture

The inaugural Suryaprakash Memorial Lecture for 1991 was delivered by Mr. D. N. Mukhrishna, IPS, Deputy Inspector-General of Police,

Bangalore, on 2-11-1991 at the Indian Institute of World Culture, Bangalore. The subject of the lecture was "Astrology and the Modern World". This annual lecture has been instituted by Dr. B.V. Raman and Mrs. Rajeswari Raman in memory of their late son Mr. B. Suryaprakash.

Dr. B.V. Raman, Editor, *The Astrological Magazine*, presided.

Astrology connected time, space and matter and demonstrated both a cause and effect relationship as well as a synchronicity said Mr. Munikrishna addressing the elite and learned gathering at the Institute. Free-will and fate were equally forceful and it was not right to say that fate had the upper hand. Elaborating the theory of Karma, Mr. Munikrishna said the law of Karma operated under 3 categories — Sanchita, Prarabdha and Agami. Sanchita Karma was stored-up Karma waiting for fruition at a future date. The present life was the unfoldment of Prarabdha Karma while Agami was Karma in latent form and whose manifestation could be modified through effort or self-will. A versatile scholar in Vedanta, English literature, history and Astrology, Mr. Munikrishna interspersed his interesting talk with quotes from Bernard Shaw and other great writers. He referred to several instances of planetary correlations and results. He also presented instances when free-will had indeed given results. Referring to the 20-year cycle of Jupiter-Saturn conjunctions, Mr. Munikrishna pointed out, how every time the conjunction had led to the death of the Presidents of the United States. But in 1980, when the conjunction occurred, great precautions were taken by the Government and although a violent attempt had been made on President Reagan he had escaped death. Mr. Munikrishna also narrated to the audience instances when predictions of the late Prof. B. Suryanarain Rao had come remarkably correct. He had, in March 1914, predicted the outbreak of the first world war. Mr. Munikrishna also paid glowing tributes to Dr. Raman and his pioneering work in Astrology. He said Dr. Raman had made wonderful predictions including the death of Mahatma Gandhi months before the tragedy and he drew the attention of the audience to a list of amazing predictions made by Dr. B.V. Raman and which had been statistically analysed and recorded by Mr. K. N. Rao, I.A.A.S., Delhi. The speaker deplored the attitude of the Astrology critic saying most people had lost the ability to really think and echoed only what others said.

Astrology was of relevance to the modern world as it had great applicability to the various aspects of life. It was a science that needed to be studied in depth. Dr. Raman had done yeoman service in bringing out rare techniques of predictions in his writings and one could never thank him enough for his great contribution to knowledge said Mr. Munikrishna, concluding his lucid and lively talk.

Mr. Anand Kundaji, Secretary of the Institute, proposed a vote of thanks.

R to L: Mrs. Umesh, Mrs. Gayatri Devi Vasudev, Mr. Shivanna, Mr. Somasekhar, Mr. Ranganatha Desikar and Mr. Umesh.

Felicitation to N. Ranganatha Desikar

Mr. N. Ranganatha Desikar, astrologer was felicitated on 17-11-1991 on his being conferred the title *Praninam Adrushta Vivechakaha* by the Parakala Maha Samsthan, Mysore, at its Vidwat Sadas, held during the Dassera, 1991.

Mr. Shivanna, Minister for Social Welfare, Karnataka, chaired the meeting. Mrs. Gayatri Devi Vasudev, Associate Editor, The Astrological Magazine, Mr. C. Somasekhar, Visesha Jilla Adhikari, Bangalore, Mrs. Shobha Umesh, Mr. Umesh, Deputy Director, Department of Social Welfare and Labour and Mr. Venkatakrishniah were the guests of honour.

Congratulating Mr. Ranganatha Desikar on his being conferred the title, Mrs. Gayatri Devi Vasudev, the speaker of the day said this honour bestowed on him was an appreciation of the growing importance of

astrology in all spheres of life. Mathas and Mathadhipatis had always wielded great influence even on historical developments. This was because religious thought played an important role in the lives of people who laid great store by the guidelines laid down by the Acharyas. As such, Mrs. Gayatri Devi Vasudev said, these Mathas could play a highly effective role in spreading and promoting Astrology, especially in our country. Our 'secular' government and 'secular' educational system had resulted in ancient disciplines like Astrology, Ayurveda, Yoga and Mantra Shastra being treated with scant regard. She said this was not fair, especially because these disciplines, particularly Astrology, could give excellent results in alleviating different kinds of human ills and problems.

Mrs. Gayatri Devi Vasudev came down heavily on the attitude of such scientists who, though totally ignorant of even the basics of Astrology, did not hesitate to pass judgement on it. This state of affairs needed to be set right, said Mrs. Gayatri Devi Vasudev and could be done by the Government taking appropriate steps in this direction.

Mr. Shivanna, in his presidential address, said Mr. Desikan's understanding of Astrology had been recognised by his being awarded the title. He said Astrology was consulted by people from all walks of life. It was high time it was recognised. Dr. Raman had done invaluable work in presenting Astrology in its proper perspective. He said he could call himself Dr. Raman's student as he had learnt the subject from his books.

Mr. Somasekhar quoting from Basava and Sarvagna lucidly explained the need to approach Astrology and other Vedic sciences in the right spirit. He said sometimes these sciences had been exploited by certain elements and this could have led to wrong notions regarding the sciences.

Mr. Ranganatha Desikar thanked the Felicitation Committee for the felicitation to him. Mr. Umesh proposed a vote of thanks.

Outlook for the Month

(from page 16)

persistent attack from different directions. Jupiter retrograde in the 12th from India's ruling sign, gives scant hope for overcoming the economic crisis. The placement of the Lagna, the 9th and 10th lords in the 2nd (finance) aspected by the 2nd lord from the 10th Kendra (angle) in the lunar chart does offer some promise for curbing the inflationary trend. But the luminaries hemmed in between Rahu and Saturn clearly point to powerful influences and severe constraints out to frustrate the efforts. Determined and bold steps are called for. The 6th lord placed in Ketu's constellation may cause inflammatory disorders and a killer disease eluding medical diagnosis. Incidence of suicides may go up. The 3rd lord (neighbours) strongly placed, the 7th (foreign relations) aspected by benefics Venus and Mercury, and the 10th occupied by Jupiter offers the opportunity for initiative in shaping pragmatic foreign policy and resolving disputes. But one cannot lose sight of the heavy malefic influences focussed on the 8th with reference to the Ascendant in India's independence chart, and also on the 8th in the lunar chart. The potential for mischief and provoking conflict inherent in the Rahu-Mars conjunction due to take place in this position, calls for utmost vigil on the borders. The severe affliction to the 8th house is a grave pointer to heavy loss of lives as a consequence of epidemics, disturbances, conflicts and calamities. The favourable disposition of the 10th, occupied by Jupiter, exchanging places with the 10th lord Sun in the 2nd, shows the sincere intentions of the Government in solving problems of the State and the State economy, but the retrogression of Jupiter and his placement in the asterism of 12th lord, is an indicator of the severity of the difficulties, defying satisfactory solution.

WORLD TRENDS AND TENSIONS IN 1992-1993

(from page 9)

Gorbachev will be confronted with not only new and different ideologies within the U.S.S.R. but also by a host of challenges.

Most of the Republics which declared independence immediately after Gorbachev was reinstated after the August 1991 *coup* will continue to be part of the Soviet Union in a loosely structured confederation. The collapse of the Soviet empire will lead in due course to a commonwealth of national states. Thanks to Jupiter's aspect on the 8th and 11th, Russia may slowly head into a period of relative orderliness and economic recovery. Martian dominance denotes violent happenings, changes in Soviet Government and displacement of a top man in the year ahead. For the common man in this country all these momentous changes in his land may only mean at least for a couple of years, more hardship, hunger and privation.

WEST ASIA

A resolution of the Gulf tensions, though appears closer than ever, will in reality elude the grasp of the peace-mongers and all the tensions will not be resolved in the coming year. The reasons are obvious. At Jerusalem and Damascus, Saturn is in the 10th. In fact at Jerusalem the 10th is much afflicted in the Navamsa. Though Taurus rises in Baghdad, the 10th house has a dominantly placed Mars relieved of course to some extent by a Jupiter blemished due to his 8th lordship. In the Navamsa the political and military planets are combined in the 12th house.

There will be considerable chaos within the Islamic countries, particularly Iraq. King Hussain faces a very tough year. The sanctions against Iraq will continue. And Saddam Hussain's tactics of appearing to go to the brink and stepback will be suitably dealt with by the U.N.

The Iraqi ruler's infamous image as a "genius at devious methods" will not change. The tactics of the United Nations to unearth the nuclear arsenal of Saddam Hussain may not completely succeed because they may not be able to identify such arsenals as may have been stored with other weapons of mass-destruction.

Iran may be hit by a severe earthquake, about the time of the Mars-Saturn conjunction. Things will be bogged down by internal conflicts and power struggles. The country may move closer to Pakistan while not adopting an unfriendly attitude towards India. Terrorism will increase, but the pendulum may gradually swing away from religious fundamentalism. New leadership will arise. Rahu in the 8th is not favourable for peaceful conditions to exist while Mars in the 10th may involve the country in a local war.

Israel may be dragged into actual fighting, short and swift. But most of the Arab powers may not continue to treat Israel as a pariah. Wary of negotiations of giving up anything, Israel may increase its military strength and consider negotiations only from strength. However, moderate Arab and Israeli negotiations may not end all the turmoil because fundamentalism in states like Iran make it difficult for moderate voices to establish peace with Israel. Martian movements indicate a sharp power struggle in Israel the outcome of which will make the Israel Government somewhat soften its attitude towards Arabs.

The much trumpetted Islamic solidarity will only be a will-o'-the-wisp. The Islamic powers will not be able to establish unity amongst themselves. The common bond may be religion, but Islamic fundamentalism may again raise its tentacles posing a threat in West Asia and the stability of the region. Political manoeuvres increasingly become a disruptive factor in the Arab camp. West Asia will continue to be the most volatile region of the world.

EUROPE

For Europe, in general, there is strong emphasis upon finance and the efforts to strengthen relations

...ng the members of the European block. Some ...rtunate situations may arise in Germany's ...ings with other countries, especially France. At ...on the first degree of Pisces rises. The situation ... Mars and Rahu and in the 12th and 10th ...spectively is not a welcome portent. The Navamsa ...gna is equally afflicted. Prominent persons and ...en members of Parliament are under strong ...ction especially affecting the safety of their ...son. Subversive forces will be active. The Queen's ...alth may be affected adversely. Relations with ...mmonwealth States will be fairly cordial. ...ganised crime may infiltrate industry, economies ...d even politics. The ruling house is exposed to ...olence. In the next general elections which may ...e place this year, the chances for the Conservative ...rty to return to power are bright. Trouble with ...otland is foreshadowed. Violence in Ireland will ...crease, clashes between the Catholics and ...otestants taking an ugly turn. The Anglo-American ...ecial relationship will be an active political force ...r safeguarding democracy. With India the relations ...ill be cordial. With Mars in the 12th Britain faces a ...mber of strikes, involving dock workers. Colored ...ples living in U.K. may be deprived of some of their ...litical rights.

In Paris also Pisces rises with Mars in the 12th ...d Rahu in the 10th, the Navamsa Leo being ...nsiderably afflicted. Mitterand's presidentship ...ay not continue. Franco-Russian relations will not ...e that smooth. The country will be inclined to ...ffer from some delusions of political grandeur. ...s role in European politics will be quite significant. ...omen will come into greater political prominence ...d their voices will be heard sympathetically in ...atters of divorce, marriage and birth control. On ...e whole the prestige of France will increase and its ...articipation in international affairs will be greater ...an in recent years. Labour troubles will hit major ...dustries and social strife will increase. Because ...ahu is in the 10th, new problems will arise with ...me Islamic countries, and terrorist activities ...crease.

At Bonn, Pisces rises with Saturn, lord of the 12th placed in the 11th and Mars, 6th lord affecting the 2nd lord in Navamsa. Germany will play a leading part in the formation of European policy and increase its influence. It will not see eye to eye with Britain in regard to the European community treaty for the political union of the member states. Closer ties are foreseen with France in the matter of E.C. defence corps. However, there will be general co-operation between France, Germany and Britain in their dealings with the newly independent Soviet Republics. German Chancellor Helmut Kohl's health will be affected. He is exposed to a violent attack on his person by the neo-Nazis.

Changes in the **Italian** Government are foreshadowed. With Rahu occupying the 10th at Rome and the 12th in Navamsa being afflicted, a *coup* of some sort is threatened. Stormy weather will dislocate the shipping industry. Fascist forces may again raise their ugly tentacles. The Pope's health will cause anxiety. The financial condition of the country improves. There will be friction between the Italian Government and the Vatican City. Italian life will be dominated by the Mafia and related criminal groups. Volcanic eruptions cannot be ruled out. The country is also in for terrorist activities. The introduction of drastic changes in tax laws is likely to prove unpopular. Unusual accidents due to storms are likely. In the main, the country will remain peaceful.

There will be no alarming developments in the **Scandinavian** block countries. Political tension may arise due to difficulties involving nuclear waste or the contamination of the sea coast. In the latter part of the year cases of espionage and sabotage will be unearthed.

Spectacular developments are indicated in the former Soviet Republics. Instability may continue till practically the next 2 to 3 years, what with heads of Government changing frequently and most republics lacking political stability.

In **Yugoslavia** ethnic dissent will not be quelled. The disintegration process will be kept alive though

a semblance of unity may come into force.

Eastern Europe, on the whole, will be exposed to ethnic violence and economic shambles.

BURMA

Three planets in the 11th in the Navamsa rising at **Rangoon** is a silver lining in the dark shadow which has hung over this country for a number of years. The attempts of the Burmese to emerge from these dark shadows may be somewhat successful. Burma will be a corridor for drug traffic. The political dictators will spare no pains to suppress the movement for self-expression.

In **Malaysia**, Dr. Mahathir's administration will be efficient and to the liking of the people. Tunku Razaleigh's party may cause headaches to Mahathir as it may try to introduce Islamic laws in the state in which it is in power. However, the Central Government will be able to bring the state back into line. Malaysia's relations with the *Borneo* states may sour because of economic discrimination against the Chinese.

JAPAN AND CHINA

The 2nd degree of Leo rises in Tokyo. Mars in the 7th indicates political conditions will be unsettled. Because of Jupiter's placement emphasis will be on finance and a reorganisation of the economic system, Japan is likely to play an important role in international plans. Relations with India will become closer. Surprising developments may occur due to differences between the Government and Imperial authorities. Japan will stand in good stead to assist countries facing serious economic crises. There will be strong endorsement of traditional customs, culture and time-honoured religious institutions.

The malefic combinations referred to above indicate a major earthquake in the latter part of the year. Floods and inundations are not ruled out.

Cancer rises at **Beijing**, the 6th, 7th and 8th being occupied by malefics. However, the Jupiter aspect tempers the affliction. China and Pakistan may come closer and enter into a secret mutual pact for military co-operation, posing a threat to India. Iran also may join these two powers. Soviet-China border becomes hot leading to ethnic clashes. Significant departures from rigid communist policy may become unavoidable due to certain internal developments. A beginning in capitalism will feature private ownership of land and personal profit for enterprises. Widespread factory closures will aggravate the rulers' headache. In the latter part of the year a severe epidemic may spread in N.E. China with serious results. Lagna being aspected by Saturn, and Mars placed in the 8th, may trigger off a severe earthquake during the period of martian transit of Gemini. China may be plunged into a national mourning.

At Manila, the rising sign being watery, and the 7th and 8th houses afflicted expose the country to severe storms, typhoons and tidal waves and other natural disasters. The country will face a turmoil-filled year. Political tensions running high, Imelda's presence in the island will unleash much violence and killings. Various political changes are envisaged.

OTHER COUNTRIES

In *South Africa*, in spite of almost complete collapse of Apartheid the Blacks will continue to fight amongst themselves causing much bloodshed. In fact Mandela's followers may resort to violence.

Political turmoil and instability will continue in many of the African states. Whatever vestiges of Western democracy are still left may be replaced by authoritarian regimes. Mobutu may be thrown out of power but Zaire will pass through a period of political and economic chaos.

The rulership of **Morocco** may be involved in a serious religious and political crisis. Prominent members of the Government may face physical danger. Terrorists will be active. Conditions will not improve in **Ethiopia**. There will be more evidence of strife. The main dangers are, the two internal political groups, barbaric and determined to prevent

return of peaceful conditions, will have a free
. The people will not be happy.

The political situation in **Indonesia** remains
urbed. Dr. Suharto's political career may end.
them fundamentalism will be curbed. Trade will
prove. Some volcanic disturbance is possible.
re will be emphasis on the cultivation of ancient
s and revival of ancient values of life. **Thailand** is
atened by the menace of Communists. Unusual
matic developments will follow the December
r eclipse. The Government may change.

Capricorn rises in most Latin American countries.
major earthquake may occur in a part of this
inent.

Summing up, though Saturn and Rahu are
ding from each other after their conjunction in
uary 1991, the year ahead still continues to be
der the shadow of malefic influences released by
e *dwirdwadasa* positions of Saturn and Rahu and
turn and Mars and the *shashtashtaka* dispositions
Saturn and Jupiter, to which dispositions classical
rks attribute only adverse results. The year ahead
mises to be a complex one, though the world
der itself has been radically changing.

In India, political parties will continue to pander
the narrow prejudices of caste, sub-caste etc., and
in motion forces that may jeopardise the unity
d integrity of the country. Everything in the name
solving poverty directed by politicians with an
e on the vote banks may lead a class struggle. The
aker sections will never be allowed to join the
ainstream.

Indian communists will face a dilemma and a
sis. The two communist parties will be plagued
dissensions and the collapse of Communism in
ssia will make the very existence of the
mmunist parties in India irrelevant. The anti-
ndu stance of the pseudo-secularists will cost
em dearly in the coming elections. Astrologically
e Muslims come under Rahu, and his disposition
the yearly chart indicates internal communal
uterings and unsavoury developments in some
amic countries. The web of corruption spanning the whole of society will be broken. The birth-rate will not be brought down. The number of illegitimate children will increase. And this will pose a major social problem. The public health will cause much anxiety partly due to propaganda. The attempts on the part of some segments of the Indian media which will not hesitate to indulge in exaggerations and mis-statements on political corruption will be exposed.

Pakistan will continue her intransigence and its relations with India will deteriorate to such an extent that an armed clash may become inevitable, unless serious efforts are put forth by responsible leaders to stem the rot. India must get prepared to face any emergency. There will be changes in the structure of the Indian Government. The President and the Prime Minister must be careful about their health and person. During the period between the time of Mars-Saturn conjunction and the end of the June 1992 eclipse the Prime Minister may face a situation threatening his position. But by undertaking suitable precautionary steps and astrologically recommended remedial measures, the crisis can be staved off. However, the country is again in for "significant and unexpected transformation in the political scene in Delhi", necessitating another mid-term poll in 1993.

Among other events to happen: A national mourning in India, change of chief ministers in Karnataka, Andhra Pradesh, Bihar, Orissa and even Rajasthan; outbreak of violence due to the machinations of pseudo-secular political forces, a sudden military move by Bush, Republican Party coming to power in U.S.A., a short but swift outbreak of hostilities in West Asia between Israel and an Arab country, surprising developments in Russia affecting the future of Gorbachev and a political crisis in Pakistan leading to the fall of the Shariff Government. Events in Soviet Union may not be the final reprieve from the clutches of Communism. The movement is bruised and battered but not dead.

America will continue to hold the trump card in world affairs for another couple of years. 1992-93 would sow the seeds of a historical turning point;

the effects of which would manifest about the time of the next Jupiter-Saturn conjunction to occur in the latter half of 2000 A.D. when India may enter the portals of its real nationhood, facing another shift in emotions and ideas and giving importance to the concept of Satya and Dharma, dropping the trappings of western political theories which are the root cause of all the disruptive forces now gripping India.

We have given above a bird's eye-view of political trends and tensions in the year ahead. As often emphasised in these columns, Astrology is a science of tendencies and a deterministic approach to horoscopes, individual or national, is not called for. Efforts put forth honestly to stave off adverse planetary indications can go a long way in mitigating or at least in minimising the evils. As any other science handled by man, Astrology has its limitation and lays no claim to absolute prediction of future events.

COMPUTER HOROSCOPE

Dear learned, astrologers and my well-wishers, 'on getting your continued association and patronage, I am very much encouraged and have now shifted to a better and spacious place where I shall be available for discussions and Casting of Horoscopes, at the new address and the telephone number given above.

My Computer Horoscopes of all models have been liked by all eminent astrologers and scholars of Astrology all over the world. Eminent astrologers of India and particularly of the Capital ask their natives to get their Horoscope casted from me, and then they give (write) prediction with authenticity. Moreover my models are the cheapest in the world without compromising on the quality and information.

It is not an ordinary programme, it has been prepared under the close direction of Dr. Sukhdev Chaturvedi, M.A., Ph.D., the Head of the Department of Astrology of Shri. Lal Bahadur Shastri Kendriya Vidyapeeth, New Delhi (A Govt. of India Educational Institution).

1. SENIOR ASTROLOGER MODEL

INDIAN INSTITUTE OF ASTROLOGY AND OCCULTISM

In the service of mankind through the magic and art of Astrology and Occultism and its Relation to healing.

The Institute is engaged doing research in the following branches of Astrology, Occult and Allied Sciences. 1. Natal Astrology, 2. Horary Astrology, 3. Election Astrology, 5. Kabala Astrology, 5. Astro-Pathology, 6. Mundane Astrology, 7. Astro-Materiology, 8. Esoteric Astrology, 9. Astral-Gemology, 10. Hymnology, 11. Omenology, 12. Palmistry, 13. Numerology and 14. Occult Sciences, etc.

The motive behind the Institute is, "the desire to serve the humanity". The knowledge of future does afford mental strength to the feeble and weak-minded, solace to the depressed, peace to the anxious and worried, and steadiness to those who are wavering and vacillating in mind. It is a common experience now-a-days that when troubles come, they come in battalions. The afflicted person can get rid of these troubles through indispensable suggestions of this Institute. Fore-knowledge of events bestows strength on man to face ups and downs of life peacefully and bravely. The greatest advantage of Astrology is that it helps mankind to understand himself through the knowledge of destined events. Astrology does not draw us in Magic World of fortune, but it gives us the indication of future events to guard against the approaching tides and floods, the lurking sharks and whales of human life's miseries. It helps us know in advance as to when the fortune will smile and we will feel majestic and splendid.

Planetary influences are in consistent with the working of the divine will. There is a subtle destiny which sometimes escapes the ken of an astrologer/palmist or a destiny forecaster who simply looks in the future events through the mathematical and mechanical bush. It is, therefore, necessary to look into the future events of mankind through spiritualism and intuition together with astrological calculations. Intuition gives us immediate insight into situations and human problems. Intuitive inspiration is, however, not the smell of the lotus from the being's abyss. It is the outcome of one's accumulation of past experience and reflective thinking. The Institute thus provides help to those who are in need as a service to the humanity through the art of Astrology.

MEMBERSHIP OF THE INSTITUTE:

Membership of the Institute is open for public to enable them to take maximum advantage from the Institute. Three types of Members are enrolled by the Institute:

1. LIFE-MEMBERSHIP OF THE INSTITUTE (Plan No. 1) **2. LIFE-MEMBERSHIP OF THE INSTITUTE (Plan No. 2)**

3. ASSOCIATE MEMBERSHIP

Advise and suggestion to mitigate the malefic influences of the evil planetary combinations and configurations existing in the horoscope through the occult remedial measures. This is a *special service* to those who wish to know the remedial aspect for their problems and sufferings. Those who wish to utilise these services are advised to send the copy of their horoscopes along with their problems.

GET YOURSELF SCREENED THROUGH THE PUBLIC WORKS UNDERTAKEN BY THE INSTITUTE

Help yourself through the Moving Stars. The ripened fruit of many years' toil, practice, and research is being offered now by the Institute to the benefit and help of the mankind. Get revealed your future, your marriage possibilities, lucky days and years, ill-health and how to guard against it, the persons suitable for you as friends, business associates or life partners.

ACADEMY OF HINDU OCCULT SCIENCES

ASTROLOGY
AND PREDICTION OF
EARTHQUAKES AND WEATHER

DR. B. V. RAMAN
Compiled by **GAYATRI DEVI VASUDEV**

The first book on how to predict earthquakes, it is also the most reliable work available on the subject. Carries astrological methods to earthquake prediction verified by the author's own amazing and precise predictions of seismic occurrences in Iran, Los Angeles, China, Russia and even the October 1991 Uttar Pradesh earthquake.

A book which no conscientious seismologist or government can afford to overlook.

Also tips and clues to forecast rain and weather vagaries.

MY EXPERIENCES IN ASTROLOGY
(Second Edition)

Dr. B. V. Raman

Serialised earlier in THE ASTROLOGICAL MAGAZINE this is a completely revised edition with an additional 14 chapters over the first.

Givers a graphic and touching account of the early life and childhood of the author, his collegiate education, initiation into Astrology and the restarting and growth of THE ASTROLOGICAL MAGAZINE. Carries vivid details of discussions with scholars and the forays of the author into different schools of Astrology and predictions, sometimes marked by dazzling success and sometimes, by depressing failure.

An excellent guide and text book on not only natal but also mundane Astrology, a wide range of predictive techniques ranging from the village astrologer's to the sophisticated savant's are discussed in clear detail. Fifty-two charts cover a variety of cases - political, mundane, personal, Raja Yogas, Raja Yogabhangas and a host of day-to-day situations.

Notable Horoscopes

By BANGALORE VENKATA RAMAN
(6th Edition)

Pre-eminently a research treatise, this book discusses the horoscopes of seventy-seven outstanding personalities of not only recent but also ancient history. The horoscopes of kings, saints, politicians, statesmen, scientists, authors, poets, industrialists, killers as also of royal figures are discussed in detail establishing the co-relation between the main events and traits of the native and astrological factors in the chart.

The book is aimed not only at the scholar but also the layman student of Astrology.

A preliminary knowledge of predictive Astrology and its principles is needed for appreciating this volume. It is an excellent guide to understand how the fundamental principles formulated by ancient Rishis have to be modified and adapted to modern and changing social, economic and political conditions to understand the astrological personality of each chart.

Dr. Raman dissects and analyses with wonderful insight and precision the factors that go to make one a sinner, saint, philosopher, king, king-maker, scientist, business-magnate, literateur and even a maniac.

Each chart has been subjected to a thorough and scientific study by Dr. Raman. For the beginner this is a dependable text while for the research student it offers qualitative analysis of various planetary aspects and combinations, Dasas and Bhuktis and Gochara influences as leading to important events in life. Rajayogas, Daridra Yogas and others and their practical application are explained lucidly.

An excellent guide for mastering the technique of interpretation, this volume is bound to be of invaluable help to the students and practitioners of Astrology, both from the Orient and the Occident.

Some of the horoscopes discussed in these pages include those of Sri Krishna, Adi Sankara, Akbar, Alexander, Gautama Buddha, Jesus Christ, Prophet Mohamed, Augustus, Goethe, Aurangazeb, Gandhi, Ramakrishna Paramahamsa, Vivekananda, Tilak, B. Suryanarain Rao, Aurobindo Ghose, Ramana Maharshi, Sri Thyagaraja, Sri Vidyaranya, Rabindranath Tagore, Hitler, Mussolini, Abraham Lincoln, Subhas Bose, Jagadish Bose, Milton, Savarkar, Annie Besant, Barnard Shaw, Godse, Stalin, Nehru, Eisenhower, C. R. Das, Ashutosh Mukherjee, Sree Chaitanya, Karl Marx, Farouk, Nero, Duke of Windsor etc.

Those who know Astrology can only indicate in a way what will take place in future. Who else, except the Creator Brahma, can say with certainty what will definitely happen?

PLANETS, LINGUISM AND NATIONAL DISINTEGRATION

AS MARS moves towards a conjunction with Rahu, the epidemic of violence grows in different parts of India, its tentacles now stretching into our own home town of Bangalore, thanks to the Centre's decision to gazette the interim award of the Cauvery Tribunal.

Leaving a margin of ten years for our childhood, resident of Bangalore, we have watched the city grow from a population of a mere 2.5 lakhs in 1922 to millions today. We have seen much bigger cities the world but to us, Bangalore is the city *par excellence* in regard to climate, tolerance, culture and cosmopolitan outlook. We have so far not witnessed the type of disturbances that rocked the city on 1991, thanks to the Bundh sponsored by the Congress government. And this government is supposed to be wedded to the ideals of "secularism, nalism and national integrity".

The smouldering fires of hate released by the have been further stoked by idle rumours. monious relations between Kannadigas and and other linguistic groups prevailing for have been suddenly disturbed, inter-state has been disrupted all because of politics, the root cause of all mischief, which has now descended to the lowest levels.

Astrologically, India has always been one. There can be only one citizenship in India. There is nothing like an exclusive homeland for an Indian inside India. India is perhaps the only country in the world where the unity of the country has been threatened, and still is, on the basis of religion (creation of Pakistan), language (reorganisation of states) and scripts (Punjab). The language problem has been one of the greatest disintegrating forces in our country. As C. Rajagopalachari once said, "the division of India on a linguistic basis was a tribal idea". Parochial organisations have had a free hand in disturbing the unity of India — a unity based on a common culture extending from Kashmir to Kanyakumari.

It cannot be a coincidence that as Mars began to move close to Rahu, violent happenings, such as those occurring in Kashmir, Punjab, ULFA, Bihar and now in peaceful Karnataka, have been intensified.

The issue of the Cauvery has remained unsolved for decades and it could have been resolved if only the Centre had approached it with foresight, far-sight and firmness.

In the astrological nomenclature, Mars represents strength, will, fighting, war, courage, violence and incendiarism. The most destructive and dangerous human beings are those under a Mars' influence. Whether in a country's or an individual's chart, the harmonious disposition of Mars is always essential. The influence of Mars on the affairs of a country are always potent. The game Rahu plays is generally sinister and treacherous. The conjunction of Mars and Rahu due on 22-1-1992 in the war-like sign Sagittarius is really ominous giving rise to sudden and unexpected happenings in India and other countries like Russia exposed to the danger of this configuration.

We have already hinted in an earlier issue of THE ASTROLOGICAL MAGAZINE that the conjunction might trigger disturbances, communal, regional etc. in different parts of the country. For India, the conjunction occurs in the 4th from the ruling sign, which, in national Astrology, has reference to lands, crops, mining interests, happiness of the populace and landed interests. The Indo-Pakistan relations may further deteriorate. Such a conjunction is an index to sudden happenings, the exact nature of results depending upon the sign involved, in this case, the active and fighting Dhanus.

Our governments will do well to take such precautionary measures as may be necessary to maintain peace between linguistic peoples. The combination presages angry propaganda and much discontent. It can make the people wilful and instil ideas in their minds that the laws of the country could be altered to suit their chauvinistic demands; and it can also raise disputes between states on the international level. Such disputes can concern their mutual relations and military pacts. Reason is simply shouted down.

Two major factors that have thwarted a sense of national integration in our country are linguistic division and pseudo-secularism indulged in by a section of the politicians. In the 1920's in order to mobilise enthusiasm for winning freedom, the Indian National Congress (not the Congress I) of that period promised several things. Most of the promises were tactical objectives — a sop to draw people to the Congress. And to have given effect to them in the 50's was as retrograde a step as was the theocratic division of the country, into India and Pakistan

which took place under the impact of Rahu's influence.

In the Independence (Chart 1), Rahu is afflicting the Lagna, the constellation being Krittika ruling fire and destruction. It can be said to be a critical case of Kalasarpa Yoga, the nodal axis affecting the Ascendant and the 7th — all the planets being hemmed in between the two nodes. The intensity of the Yoga can be considered to have been diluted or even neutralised if a benefic like Jupiter or Venus is disposed in a Kendra from Rahu. In this chart the Kalasarpa Yoga is theoretically absolute but the evil effects are minimised due to the quadrangular (Bhava) dispositions of Venus and Jupiter. Rahu's situation in Lagna is not favoured by ancient writers as it is said to make one "independent or revolutionary following his own opinions; estrangements from near and dear ones, a striving for equality". It gives "cranky notions and makes one vigorous in the cause of the oppressed". These are the brighter shades. And the effects of Rahu along these lines—efforts to improve the lot of the common man, removal of untouchability etc.—have been felt to some extent. But there is the sinister aspect of Rahu's situation also such as we have been witnessing today—strikes, agitations, even government approved Bundhs, disruptions and the so-called Satyagraha, linguistic and regional conflicts and a weakening of the foundation upon which the very conception of nationhood rests simply because no sincere efforts were made to thwart these trends.

due to Rahu in Lagna that we have a curious that a strip of land can belong to a religion or age. All sorts of perverted ideas are pumped heads of the common man that a language to a religion—Sanskrit to Brahmins, Tamil to ans, Urdu to Muslims and English to Anglo-s. Many instances can be cited to show that of the linguistic groups, who are supposed these languages, are themselves ignorant of auty and greatness of these languages. Every today is politically motivated, thanks to Rahu mischief. Our rulers should at least in future this and direct the forces through creative els so that future misfortunes are avoided.

The regional rivalries become clear when the (Chart 2) cast for the time at which Pandit announced the main decisions of the Govern-India regarding the re-organisation of States basis of language is carefully analysed.

on after the broadcast, which was made in Lagna, an orgy of violence was let loose in ay and subsequently in other parts of the y. The whole of India was profoundly shocked se disturbances. If you look at the chart you nd that whether from Chandra Lagna or , the 10th or house of action is heavily afflicted e focussing of the influences of the worst ics—Saturn, Rahu and Mars. The lord of Lagna is in the house of Saturn aspected by Saturn. dra Lagnadhipati is in the 10th therefrom ted; and Chandra Lagna is aspected by the rd Mars. Chandra occupies the constellation hu. Three powerful malefics occupying the denote "a fanatical and explosive set-up" — a which should always be avoided when g or announcing such momentous decisions nal or international importance affecting the es of millions of people. Otherwise, subversive , which always lie dormant, will make elves felt. Mental balance hinges on the able disposition of the Moon, Karaka of the . The Moon, here, is in the constellation of Rahu aspected by Mars who, in turn, is considerably

afflicted. This gives a clue to the unbalanced posing of issues involved without any sense of proportion and to the arousing of deep emotions by the Government's decisions on the S.R.C. proposals. The political planet Sun occupying a sign of Saturn is aspected by Saturn; while Jupiter, lord of the 5th or house of thinking, occupying Lagna is also aspected by Saturn. This denotes confused thinking on the part of those who implemented the S.R.C. report.

Our leaders took for granted the political 'unity' of India ignoring the more pervasive and enduring influence of the cultural unity of the country. They started with the idea of linguism and unconsciously encouraged and exaggerated tendencies which they thought could weld the different linguistic groups politically. But these were, by their very nature, fissiparous and disintegrating and strong enough to disrupt even the cultural unity of the country.

Though 35 years have passed since the linguistic states were born, peace does not seem to have returned to the country. Because of the emotive language issue—the Shiva Sena's tirade against South Indians in general some years ago (though the stance of the Sena has now changed), the DMK agitation against North Indians in Madras, the anti-Malayalee incidents in Madras enacted after M.G.R. left DMK, not to speak of the Karnataka-Maharashtra boundary issue, are illustrative of what damage could be done to India's integrity by such whipping up of forces hand in glove with chauvinistic regionalism and linguism.

Inspite of the fact that people of Karnataka and Tamil Nadu had common heritage and shared many things—dress, food, music etc., insidious propaganda such as we have recently witnessed for

the first time in Bangalore, did in the absence of ethical standards, influence the subconscious minds of trouble-makers and made them develop animosity towards people not belonging to their own language group.

Rahu in Krittika can give destructive tendencies. But in Punarvasu the destructive tendencies can destroy the ego-content of an individual and render him humanistic. Rahu is in the sign of Venus. Rahu is by nature saturnine. Saturn is a Badhaka. It was only during Saturn's Dasa that Rahu's debilitating forces found a congenial atmosphere for free-play.

Rahu-Saturn conjunction took place in October 1956 in Scorpio (7th in the Independence chart) and the most powerful disintegrating forces were unleashed in the form of the dividing of India on a purely linguistic basis.

It was again just prior to the recent conjunction of Rahu and Saturn that more sinister forms of disintegrating and stabilising forces are finding full play by way of intensification of anti-national activities in many sensitive parts of India.

The Indian Independence horoscope is now having the sub-period of the Moon in the major period of Venus. As lord of Lagna Venus is actually in the 4th Bhava in association with Mercury (lord of the 2nd and 5th), Saturn (Yogakaraka) and the Sun (lord of the 10th). The sub-lord Moon occupies the 3rd and is subject to Papakartari Yoga. Though the Moon and Venus are in the same sign they are in Bhava-dwirdwadasa. When the Dasa lord is associated with malefics it indicates "differences and quarrels" (पापग्रह समन्वितस्य - सर्वत्र कलहो भवेत्)

These results cannot of course be applied *verbatim*. Venus as lord of Lagna aspecting the 10th Bhava and associated with the lords of the 2nd, 4th and 5th gets Raja Yoga, the effects of which can manifest after the present unfavourable period has passed. In individual charts, the situation of Venus in the 4th (in Cancer) is not generally favoured as it indicates "fall from position (*Padabhramsa*), residence in other places; unsuccessful in efforts, loss of money etc.". But the position of Venus in the 3rd or 4th is otherwise favoured and beneficial results occur during the period. Association with the Sun is not good as it indicates Nripakrodha (wrath of rulers, here rulers being the people).

The sub-period of Mars lasts from 18-3-1993 to 18-10-1994.

Though Venus Dasa is operating in the chart and the favourable results are bound to occur after the end of Rahu Bhukti in 2000 A.D. when India can look forward to be a leading power in Asia, thanks to all the political, economic and other changes that may happen or will have happened in the country the effect of the situation of Rahu in the Ascendant—almost in exact conjunction and the transit Mars conjoining transit Rahu and transit Saturn, in the year ahead, are factors favouring the unleashing, in the near future, of disintegrating forces. The differences — politically motivated, between castes and communities in the matter of distribution of offices, promotions, electoral machinations etc., will continue to be pseudo-secular caste-based, merit being a casualty.

During the 17 years of the fickle-minded Mercury's Dasa we have seen deterioration in every respect and a lowering of the morale of the administration. The excessive zeal of some of the state governments in experimenting in ideologies and injecting the poison of regionalism has resulted in what we are still witnessing in several parts of the country — breakdown of authority, outbreak of violence, linguistic chauvinism and the worsened plight of the people.

Ketu was no better. The seeds of seccessionism and terrorism were sown in a manner that large areas of the country were exposed to numberless killings.

The present positions of Saturn-Rahu in *Dwirdwadasa*, Saturn-Jupiter now in *Samasaptaka* and changing over in due time to *Shashtashtaka* again and the sub-periods of the Moon and Mars in Venus Dasa in the coming 2 or 3 years will not see peace in the minds of those more interested in power and leadership.

World Predictions for 1992

B.A. KUMAR BABU, B.E., M.S.

B.A. Kumar Babu is the 3rd son of Dr. B. V. RAMAN. He is well versed in Astrology. He is a computer scientist working in the United States.]

The sixth lunar year, Angeerasa, at 5h.31m. GMT on April 3rd,

1990 and 1991 have been two of the most eventful years since the end of World War II. For the first time since its inception, the United Nations has been able to act effectively at a time of global crisis. The East European countries are finding their way to free market economics and political democracy after decades of total subservience to the Soviet Union. The Soviet Union itself has finally moved out of the shadow of Communism but now in danger of total fragmentation. This fragmentation could threaten international peace in ways such as by creating a number of unstable nuclear states. Almost all of these events have been predicted many years ago in the columns of the THE ASTROLOGICAL MAGAZINE.

Though Astrology has been vindicated time and time again there are still those that belittle the science. **It is unfortunate that in this the spirit of inquiry amongst some of the "Government trained scientists" has been blinded by adherence to outdated scientific dogma which cannot accept anything that cannot be tested in a laboratory environment.** The seeming inconsistencies in astrological theory and astrological predictions are seen by them as proof that Astrology is not a science. It is easy to refute this kind of ignorant thinking.

Consider modern day physics. Scientists describe the universe in terms of two basic theories—the General Theory of Relativity and Quantum Mechanics. Though they deal with the macro and micro universes respectively, the two theories are known to be inconsistent with each other and therefore cannot be both correct. A major research area in physics these days is looking for a new theory that will incorporate both theories. It is obvious that the main problem with "Scientific Theories" is that an assumption is made that we are logical beings who are free to observe the universe in any way we want and draw our deductions from what we see. Inspite of this, our partial and sometimes inconsistent theories of the universe have been sufficient to make fairly accurate predictions in the areas of matter and energy. In an analogous fashion astrological theories, though incomplete and seemingly contradictory, are still sufficiently accurate for the majority of predictions relating to man's future. No more apology is needed from an astrologer if some predictions fail or if some theories are not consistent, than is required from a physicist for things he may not be able to explain or predict because of the inconsistencies and incompleteness of Quantum Mechanics or the General Theory of Relativity.

Many scientists unfortunately are more interested in publicity than in science. It was not long ago when a couple of US scientists claimed that they had achieved superconductivity at room temperature. Within a month of that claim we read in various newspapers the claims of some Indian "scientists" who corroborated the experiments of the US scientists. It is now agreed by most international experts on the subject of superconductivity that the claims of achieving superconductivity at room temperature could not be substantiated. **It is obvious that the Indian scientists had either made false claims or had no idea what was going on. Unfortunately the Indian news media has no enquiring mind when it comes to scientific claims; no comment or editorial ever appeared regarding the erroneous statements made by the Indian scientists.**

Reverting to the prognosis for the year 1992 we refer to the planetary cabinet for the year. The planetary cabinet is as follows: Venus —King and Commander-in-Chief; Saturn — Prime Minister, Minister of trade and commerce and lord of clouds; Jupiter — lord of juices; Mars — lord of vegetation and lord of metals; and Moon — lord of grains. Saturn dominates the planetary cabinet indicating that forces of democracy thoughout the

world will continue to assert their rights. His disposition as the lord of clouds and the disposition of Mars as lord of vegetation signifies that either due to scarcity or due to excess of rainfall considerable damage to vegetation will be caused in various parts of the world. This would be the price we pay for progress — the denuding of our rain forests and polluting our environment in so many ways. However, there is no likelihood of any major famine other than in Central Africa since the Moon happens to be the lord of grains in the planetary cabinet. The absence of the Sun from the planetary cabinet is indicative of danger to royalty and such. Venus as King and Commander-in-Chief ensures continuing inroads being made in the areas of women's rights all over the world. New legislation will be introduced in many places enhancing and protecting women's rights. Women will get more power in Government and in the armed forces. Since Venus and Saturn are friends the armed forces of various countries are likely to support democratic movements and disobey the commands of totalitarian governments.

During the year Saturn will transit Sravana and Dhanishta, while Jupiter will transit Pubba and Uttara. Saturn starts at 13 degrees Capricorn at the beginning of the year; on May 28, 1992 it starts retrograding, becomes direct on October 16, and ends the year in the 24th degree of Capricorn. According to classical texts his sojourn through Sravana and Dhanishta will result in "fear, excessive rains, deaths and loss of Yavanas; kings, Brahmins, doctors and priests will be afflicted; and there will be an increase of wealth". Jupiter is retrograde at the beginning of the year in the 15th degree of Leo; becomes direct on May 2nd and enters Virgo on September 1st where he stays till the end of the year. His movements result in "health and prosperity to all; pleasant rainfall; price equilibrium and gains to friends". Rahu and Ketu start the year in Sagittarius and Gemini respectively and enter Scorpio and Taurus in November 1992. In this context we assert that the results attributed to planetary transits in classical texts should not be taken at face value.

The year will see five eclipses — three solar and two lunar. A total solar eclipse will occur on January 4th, 1992 while partial eclipses occur on June 30th and December 3rd respectively. A partial lunar eclipse will occur on June 14th, 1992 and a total eclipse on December 9th, 1992. According to ancient astrological texts the results of the January solar eclipse are "Horses, Mithila residents, wrestlers, Punjabis, doctors, traders and arms dealers will be destroyed" while the June solar eclipse will result in "Noble women, kings and their equals, artistes, people living on the borders of the Yamuna river and Ayodhya will be afflicted". The results of the June lunar eclipse will be "affliction to the people living in hills, mountains, Western countries, Ahirs, thiefs, countries bordering Kashmir, Sinhanagar, Morocco, Algeria and Tunisia". At the time of the June eclipse Mars will be in the 12th house in India's independence horoscope. It will also be aspecting the 7th house. A border war between India and Pakistan, involving Kashmir, cannot be ruled out around that time.

India and Its Neighbours

At New Delhi the 6th degree of Gemini rises in Scorpio Navamsa. The lord of the Ascendant Mercury is well placed in the 10th. Though debilitated he gets cancellation of debilitation. This augurs well for the future of India, especially in the economic sphere. However, the situation of Ketu in the Ascendant and of Rahu in the 7th is ominous. India will continue to be battered by divisive separatist and communal forces. Rahu in the 7th is indicative of Islamic foreign countries (Pakistan, Bangladesh and Saudi Arabia) making every effort to dismember India. Kashmir, Punjab and Assam will continue to be volatile and the danger from secessionist forces will spread to Tamil Nadu and Bengal if urgent steps are not taken to arrest the deterioration. The Ayodhya temple issue will again come to the limelight and cause considerable tension between Hindus and Muslims. Some opposition parties and leaders will try to convert this tension into electoral advantage for themselves by pretending to be the guardians of the minority communities. In their effort to grab power they would not mind if this caused grave damage to the motherland. The situation of Jupiter in the 10th in the Navamsa chart is a positive influence; the country will continue to maintain a semblance of unity but Jupiter's association with Saturn in the Navamsa chart raises the possibility of the collapse of the present Government.

The tithi was the auspicious Panchami, the weekday Wednesday, and the rising sign was Aries. Since the exact time is not known, the exact degree of the Ascendant cannot be had.

Two benefics, Venus and Jupiter, aspect the Ascendant. This augurs well for the Yatra which will, by and large, be peaceful and with the Moon and Saturn in the 10th, be enthusiastically received by the people. The disquieting feature is the Lagna lord Mars in the 8th which may expose the captain of the mission to the danger of a violent attack about the time of the Mars-Rahu conjunction on 22-1-1992. Bloodshed and violence may be engineered by forces inimical to the interests of the country. However, this can be prevented by taking in advance the required precautions.

The chart for Aries Ascendant is supported by a Sasa Yoga in the 10th and a Malavya Yoga in the 7th. The message sought to be conveyed by the BJP will be matched by its restrained political conduct. The Yatra will succeed in taking its message to the hearts of the people.

For All Mankind

When the fiery sage Viswamitra discovered the Gayatri Mantra, he gave it to all mankind. Born a Kshatriya king, Viswamitra vowed to outdo Vasishtha in his spiritual prowess and in the bargain ended up a Brahmarishi proving to posterity, Brahminism was only a plane of evolution anyone could work at and obtain. This universal nature of the Gayatri Mantra was reaffirmed recently in a ruling of the Madras High Court. The United India Insurance Company, some years back, had carried the Gayatri Mantra on its Divali greeting cards. This incensed the Dravida Kazhagam so strongly its general secretary K. Veeramani challenged it in the Madras High Court as violating the secular concepts enshrined in the Constitution.

Justice D. Raju dismissing the petition, held: "The Gayatri Mantra is said to be "Shabda Brahmam" and it appears in the *Rig Veda* and is said to be the key to Vedic wisdom. It will be anachronistic for anyone to contend that it signifies or relates to any particular religion. The Vedas have always been considered to belong to all mankind and are not limited to any particular religion, race, caste or community .....

"There is nothing on record to demonstrate that the Gayatri

Mantra is the exclusive privilege or property of any class or race or community. Even ancient texts and scriptures will belie such blasphemous claims, if any, of any vested interests. Saints and philosophers of world repute who stood above the barriers of religion had commended the recitation and chanting of the Mantra."

For those who always identify secularism with anti-Hinduism the judgement carried quite a few insights into the term. It said secularism could not mean anything anti-religious. It only implied that the State did not identify itself with any particular religion but treated all religions alike. The learned Judge further said that the founding-fathers of the Constitution nor any of its provisions implied doing away with the philosophical and spiritual ideologies and high values of life which formed the core of Indian polity and culture.

ॐ भूर्भुवः स्वः तत्
सवितुर्वरेण्यं
भर्गो देवस्य धीमहि ।
धियो यो नः प्रचोदयात् ॥

"O! effulgent light that has given birth to all the *Lokas* (spheres of consciousness) O God who appears through shining Sun, illumine our intellect."

The Gayatri is said to be the Supreme Mantra.

न गायत्र्याः परो मन्त्रः ।

It is also said to be a saviour Mantra protecting its reciter from all kinds of calamities.

गायन्तं त्रायते यस्मात् गायत्रीति प्रकीर्तिता ।

It is primarily a purifactory Mantra. Proper and regular recitation of the Mantra cleans the mind of all the dross and prepares the spirit to merge into the Universal Soul.

Maharishi Devendranath Tagore has this to say of the Mantra:

"With constant repetition of its meaning I meditated on it to the best of my power. Though I did not succeed in benefiting others by the promulgation of the Gayatri Mantra, yet in my case it was productive of much good. I continued to worship Him daily by means of the Gayatri Mantra, before touching any food, with mind alert and collected so as to completely fulfil the injunctions of the Brahma Dharma.

"The deep significance of the Gayatri began to be disclosed to my mind day by day. Gradually the spirit of *dhiyo yo na prachodayat* permeated my whole heart. By this I was firmly convinced that God was not merely a silent witness with regard to myself. He was an indwelling spirit in whoever inspired my thoughts and volitions. In this way a deep and living connection was established with Him.

"Formerly, I had deemed it a privilege enough to salute him from a distance. Now I obtained this beyond all hope that He was not far from me, not only a silent witness, but that he dwelt within my soul and inspired all my thoughts. Then I knew that I was not helpless. He is my stay-everlasting. When not knowing Him, I was wandering sad and despondent; even then dwelling within me, He gradually opened my inner eye, the eye of wisdom.

"All this time I did not know that he was leading me by the hand. Now I consciously walked under His guidance. From now I began to train myself to listen to His command, to understand the difference between my own inclination and His will. When it seemed to me the insidious prompting of my own desires, I was careful to avoid it and what appeared to my conscience to be His command that I tried to follow. Then I prayed to Him to inspire me with righteousness to guard me with moral strength, to give me patience, courage, fortitude and contentment.

"What profit beyond all expectation had I not gained by adopting the Gayatri Mantra?

"I had seen Him face to face, had heard his voice of command and had become his constant companion. I could make out that He was guiding me, seated within my heart. Even as He, dwelling in the sky, guides the stars and planets, so does He dwelling within my heart inspire all my righteous feelings and guide my soul. Whenever in solitude or in the dark, I acted against His wish, I at once felt His chastening influence, at once I saw His terrible face, dread as an uplifted thunderbolt, and the blood froze in my veins.

"Again, when I performed some good action in secret, He openly rewarded me; I saw His benign countenance, all my heart was purified with the water of holiness. I felt that ever enshrined within my heart, He taught me wisdom like a Guru, and prompted me to do good deeds, so that I exclaimed: 'Thou art Father too and Mother; Thou art the Guru and bestower of all wisdom'. In punishment as in reward, I discerned His love alone.

...re Strikes Back

A surprising number of body ...can be taken from the dead to ...the living live better. Damaged ...and tissues can be replaced ...healthy ones taken from a dead ... Many people are inspired while alive to donate, after death, their organs such as the kidneys, heart, spine, bones, tissues and many more and leave a legal note to that effect. But this altruistic concern for fellow humans has, in some cases, led to bizarre results.

When Pete Norwood was killed in a roadside shoot-out 6 years ago in the U.S.A. his distraught mother gave permission for organ and tissue removal for the purpose of donation. Norwood's posthumous gift, unfortunately, instead of prolonging life acted in exactly opposite manner. Three of his 55 donees who had received the vital organs—the heart and the kidneys—died recently of AIDS-related causes and three more were tested positive. This has led to much trauma in the Norwood family which says "It was bad enough he got murdered. This has brought it all back. It's like Pete died all over again."

Nature somehow beats man, every time he thinks he has overtaken Her. Pete's blood was screened twice for the AIDS virus and both times it showed positive misleading the medical doctors into using his body parts for "saving" other lives. But fact is the antibodies which indicate the presence of the AIDS virus may take up to three months to develop and can lie hidden in the system. Pete had somehow got infected just before he was killed.

Although according to official reports, the chances of contracting the AIDS virus are 1 in 40,000 to 1 in 153,000 and slightly higher from tissues or organ transport, the lurking deadly danger present in the medical achievement of transplants cannot be underestimated. The more man probes into Nature and arrogates to himself the role of Life-Giver, the more vehemently does Nature strike back.

Woman Becomes Womyn

Feminists have cause to celebrate. And they should thank Random House for it. The casualty has been English. Samuel Johnson and those of his ilk must be turning in their graves.

The *Random House Webster's College Dictionary* claims to be the 'biggest' and the 'best'. The biggest, we are not very clear on that. But the 'best', is it?

Special interest groups such as feminists and minorities have managed to make themselves heard and their influence has found its way into the pages of the dictionary.

Fashionable words have been given respectability and approval. The Editors say they have only tried their best to "infuse social significance into the language along the lines of what sociolinguists do."

Sexist words are replaced by neuter gender terms *chairpersonship* for *chairmanship*, *human-kind* for *mankind*, *waitron or wait -person* for *waiter and* notably *Womyn* for *woman* to avoid discrimination against woman. *Avoiding Sexist Language*, extra papers to the dictionary provide enlightenment on gender transformations. *History* is distinguished from *herstory* which the text says is "a study of women's affairs from the generic, all-inclusive history". History, for those who are loyalists of English as it is, etymologically comes from the

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

Greek *histor* meaning learned or knowing and in no way, gender-related. *Fireman* is rewritten as fire-fighter.

Weightism and heightism are brought in to avoid discrimination against short and fat people. And all these new entries are there because the editors have buckled under the pressure-barks at purported offences in word-usage. The criterion is not the origin of the word but how a person feels about it. Even Webster's has given in to the watch-dogs or shall we say watch-canines or else the watch-bitches will chase us like mad! English is being pruned. English is being repaired.

Dangers of Permissiveness

Our Government under the constant advice of some of our "intellectuals" is planning to introduce sex-education in the school curricula. This seems to be because we are infatuated with western ideas and ashamed of some of our own ancient traditional mores. In our country, the use of the term sex is generally taboo. No one is taught about it because our ancients believed Nature would do it at the appropriate time. But these men of wisdom were aware of the inherent dangers it carried and laid down certain seemingly rigid do's and dont's to govern the conduct of the young. This they did to harness sexual energies in the right direction which would then ensure healthy progeny, happy homes and healthy citizens. Unfortunately our rulers have begun to feel they can dispense with the traditional wisdom of our seers carried away as they are by the colourful lives of the westerners. But even the West is now quite sick of its own approach to life and veering towards ancient Indian wisdom.

Americans, especially, are cursing the day when sexual taboos and traditions were chased out in the name of "freedom and liberation". Parents in the U.S. are now shocked beyond disbelief by certain facts and figures released by official sources. Federal surveys have shown that 75 percent of school-children are not virgins. Schools are said to be distributing condoms to their wards, asking no questions. Out of more than 3000 cases of AIDS in children under 13 years, 2500 are under age 5. And official figures, everyone knows, are always far behind the actual number.

For example, 4 years-old Stephie is sick and she knows it. She also knows she got it because of her mother. And she is all set and ready to depart to "heaven, a beautiful place where angels live". Stephie's grandmother has made it her mission to educate people on AIDS. Stephie was ostracized by child care centers and her grandmother has taken on the responsibility of the cute little girl who was diagnosed as having AIDS at 11 months.

Promiscuous sex is one of the important reasons why AIDS is so widespread. Any indiscretion, hetero or homo, can lead to a fatal error. Some heroes and film stars boast of their exploits and adventures. Their life-styles become role models to young impressionable minds. These youngsters are the first to ape them and in the process have generated increased violence, larceny and felonies as also sexual crimes. In fact this problem has assumed such proportions, the Presidential elections in 1992 will have the Republicans and Democrats using it as a plank to woo the voter promising to go 'tough on crime'.

And back home here what do we see? Huge hoardings and government insertions in newspapers telling you how to avoid AIDS. Nothing wrong in that but look at the way it is being done. The hoardings appear listing precautions to escape the dread visitation and this is near schools, bus-stands, railway stations, temples, shopping centres and such places frequented by decent families with their children.

Precaution Number One tells you to stick to one partner. Precaution Number Two says, if not, use a condom. And you are safe. What kind of advice is this and what kind of influence can it have on teenage minds will be known only after the havoc is wrought. Who coins these ads in our country? Does no one in the departments and ministries concerned care or is there no other way to bring home the message of the dangers of AIDS? Or is it okay so long as their own children are safe? The rest can go to the dogs.

GAYATRI DEVI VASUDEV, B.Sc., LL.B.

Simple Solution

"I have Mars and Venus in the 6th house. I have a desire for evacuation followed by constipation. There is always a sour taste in the mouth. Can you throw some light on my health problem?" asks reader K.K. Arora of Delhi.

Born on 17-7-1959 at 11.00 a.m

Rasi: Virgo - Ascendant and Moon; Libra - Jupiter; Scorpio - Mercury; Sagittarius - Saturn; Pisces Venus; Cancer - Sun and Mercury; Leo - Mars and Venus.

Mars and Venus occupy the 12th house from Lagna, not the 5th as Mr Arora thinks. But these 2 planets do occupy the 5th zodiacal sign Leo. Saturn aspects the 6th house and this can cause problems in free bowel movements. Mars also aspects the 6th leading to gastritis and acidity. Luckily, so do Jupiter and Venus, 2 natural benefics, indicating the problem can be treated successfully.

The 2nd lord Venus is in Leo, a fiery sign with Mars which can give fondness for hot, spicy foods, especially that Dasa is of Venus. This can lead to acidity. Saturn's aspect on the 6th shows lack of fluid or inadequate liquid intake. By cutting down on spicy, oily, tongue- tickling foods (ruled by Venus joining Mars) and increasing consumption of liquids—water, tender coconut and fruit juices and also more intake of natural foods (Jupiter in the 2nd trining the 6th house) such as plenty of vegetables and fruits, particularly bananas, the native will experience great relief.

Where are the Results?

"After the onset of Venus Dasa, the 6th Dasa from 10-12-1989, I have had the opportunity to consult 2 local astrologers whom I know very well. Both of them are of the opinion that the aspect of Jupiter from the 9th and that of Saturn from the 11th cannot mar the Yogas caused by the conjunction of Mercury and Venus in Lagna (Kanya). However, I differ on what these 2 astrologers say.

"Jupiter even if considered a *Subha* being posited in the 9th, a Kendra Badhaka Marakadhipati, his position in the star of the Moon (lord of 11th), a Badhakasthana for a dual sign according to Kalidasa, cannot be said to be either malefic or benefic. Jupiter is in his inimical sign. Even though being in the star of the Moon (lord of the 11) may be considered auspicious, I am confused in my assessment. According to *Phaladeepika*, Jupiter's aspect on Venus is a Raja Yoga. The astrologers I consulted say that *Phaladeepika* is not an authority.

"Again I am not sure if Saturn in the 11th with Mars and such a Saturn's aspect as 5th and 6th lord on Mercury and Venus is malefic or benefic.

Debility Destroys Yogas

"The 2 astrologers whom I consulted say that there is Neechabhanga Raja Yoga but according to *Phaladeepika* if the lord of 9 is debilitated no Raja Yoga can be predicted. This verse in *Phaladeepika* makes me differ in my opinion regarding this Yoga and therefore I am doubtful about the full efficacy of lord of 9 and 10th (Mercury and Venus) in Lagna causing Dharmakarmadhipathi Yoga. Regarding Adhiyoga (Mercury and Venus in the 8th from the Moon) I am not sure if the Yoga is partial or full."

Born on 1-9-1917 at 8.55 a.m. at Alleppey (Kerala)

Rasi: Virgo - Ascendant 26-30, Mercury 10-19 and Venus 18-55; Sagittarius - Rahu 4-47; Aquarius - Moon 10-10; Taurus - Jupiter 17-24; Gemini - Ketu 14-47; Cancer - Mars 0-23 and Saturn 15-56; and Leo - Sun 15-26 and Mandi, with a balance

This feature, unusual and interesting events that occur in day-to-day life will be discussed astrologically. of 13 years, 3 months and 9 days of Rahu Dasa at birth.

The conjunction of Mercury and Venus in Lagna is a powerful Raja Yoga. Jupiter's aspect on these 2 planets is also conducive to favourable results. Only the Dasa of the Yogakaraka has to pick up momentum.

The mere presence of 2 benefics in Lagna and the aspect of Jupiter and the Full Moon (as 11th lord) on the Ascendant rules out penury and privation, especially during the last years of life. The 2nd and 9th lord Venus in Lagna ensures a certain minimum of material, comfort until the end. With Venus Dasa also having started, there can be no doubt about this. The Sun Bhukti of Venus Dasa running between April 1993 and April 1994 may bring in a health crisis of a severe nature.

Regarding the technical points raised by the reader, readers can send in their views before 15-3-1992.

Birth in Moola

Reader P.R. Sanathanan Nair has the following to say on Moola Nakshatra:

"Moola is earmarked as bad for female births. According to classical texts in Kerala,

Moolaja swasuram hanti

meaning, a Moola-born girl kills the father-in-law astrologically.

Moolelpa soukhya vidhava daridra,

Ragabhi bhootha bahusatrupaksha,

Naribhavet bandhava loka heena,

Parabhibhootha Bahuneecha varya

meaning, girls born in Moola are devoid of happiness, get widowed, are poor, subject to illness, have a number of enemies, have no relatives, are defeated by enemies etc.

Moolathurku Mamiyur Moolayile is a Tamil saying in vogue in Tamil Nadu and also Kerala, meaning the mother-in-law is removed to a corner of the house due to the death of father-in-law.

Under `Destructive Constellations' (*A.M.*, September 1990, page 718) Mrs. Mridula Trivedi writes under items 1 and 5:

(a) 1st Pada of Moola caused death of father-in-law and

(b) 1st Pada of Moola is destructive for the mother and father of the couple."

Paradoxical Moon

"The Moon is the only planet among the Navagrahas that is benefic or malefic according to the time factor. According to some texts, the Moon is a benefic from the 5th day of the bright half to the 5th day of the dark half. And according to others, it is benefic from the 8th day of the bright half to the 8th day of the dark half. For the remaining days of the lunar month it is a malefic.

"In transit, when a malefic crosses the 2nd sign from the Moon it is harmful and when a benefic crosses the 2nd sign, it is beneficial. So benefic and malefic planets give different results. But the transits of benefic Moon and malefic Moon yield the same result. It is a paradox and a riddle to be solved.

"In Radix, taking the 1st house as an exception, whenever the waning and waxing Moon influences the physique differently in all the remaining houses the influence of the malefic Moon and the benefic Moon are the same.

"The question is what then is the difference between benefic and malefic Moon in the Radix and in transit?" asks reader B.R. Soni of Durg.

Importance of Bhava

"The majority of the astrologers never consider the Bhava chart without which the predictions cannot be accurate" writes reader N. Jayakumar of Kutch. He illustrates his point with a case study.

"The native was given the prediction that the onset of Rahu Dasa would worsen his life as Rahu in the 5th in his sign of debilitation was unaspected by any benefic planet. As the 5th is the house of children and the 5th lord Mars is in the 3rd, he was told there would be unsuccessful prenancies or there would be innumerable sufferings to the children. As Rahu is in the 5th house, it was described as Sarpa Dosha and some remedial measures were suggested.

"However, things proved quite contrary to the predictions. On the onset of Rahu Dasa the native got a promotion in service and his financial condition improved. He married a girl from a good family in 1984 and got two children, a girl and a boy, in 1985 and 1986 respectively. The children are also healthy.

"Now let us look at the Rasi as well as Bhava charts.

"In Rasi, no benefic aspects Rahu in the 5th and the 5th lord is

the secretes of Nadi-amsas avelled it will not be possible astrologers to make totally ate predictions from birth to of all prominent events of a life. Concentrating on a of his life, when a consultor some questions astrologers very sound and dependable tions. This is why Astrology es to hold sway as the only te and brilliant predictive whatever the hostility of the er of others. The danger of quacks and charlatans the profession will get d to some extent when the classes take to the study of gy as seriously as is now ning in the Bharatiya Vidya n, Delhi Chapter I.

e have put on the stage in our seminars some astrologers d to discuss full-length ically on an astrological subject r choice. To-date only one, an engineer-astrologer, could s them! So as the scientific of Astrology spreads new ch will, in any case, be made doctor-astrologer, engineer- ger etc. in future because own disciplined mind helps look into astrological ations to understand the ious, inner law that operates strological prediction.

* The article has appeared in January 1992.

They having learnt Jaimini sufficiently well, Jaimini Astrology today has its biggest centre in Delhi. But let it be admitted that even that knowledge they have is rudimentary though they can use two Dasas, Chara and Sthira, with Rasi and Graha Bálas calculated, yet the appetites of some of them cannot be whetted till they are clearly shown how the Rajayogas given in Jaimini work.

I have tabulated over twenty such Rajayogas given in Jaimini but they are so theoretical that it will satisfy no intelligent and inquiring mind unless the lost manuscripts on this super-brilliant branch of Astrology are recovered, translated and made available and made use of for research. What should we do till then? Wait indefinitely?

My answer is 'No'. Observe, apply the known principles of both Jaimini and Parasari, fuse them into one logical coherent technique in a simple and lucid way and predict.

I have taken such risks very often with my application of Jaimini Astrology and sometimes given dazzling out of the way predictions and sometimes failed so miserably that I almost decided to give up Astrology. My high rate of success in these experiments has kept up my enthusiasm somehow.

With this introduction I am posing two questions to Jaimini scholars.

(a) Can the nature of struggle in one's career be seen? Is what is shown as struggle only a struggle or has it some other meaning?

(b) When will there be rise and when a fall, in a career of vicissitudes?

Before this question is answered let me give ten instances briefly here to show how it can be seen through the position of Amatyakaraka in one's horoscope, from Lagna, not from Karakamsa, Pada Lagna or the Moon.

(a) Nehru's *Amk* (abbreviation for Amatyakaraka which will be used hereafter) is Mercury with Venus in Tula aspected by Saturn from Simha (the 8th lord) and he rose late in life but never fell till death.

(b) Lal Bahadur Shastri's *Amk*, like Nehru's is also in Kendra in Kanya (the 10th house). The Sun, his Amatyakaraka is with exalted Mercury and Moon and he never suffered any defeat in his life though he too rose late in life.

(c) Sanjay Gandhi's *Amk*, Venus, is in own house with Jupiter and he was powerful at a very young age and died only after he had become powerful.

(d) Rajiv Gandhi's *Amk* Venus is in Lagna with all other benefics and so even when his party did badly in 1989 elections he retained cabinet status as India's most powerful opposition leader till date.

(e) Contrast the four instances with Indira Gandhi's *Amk*, Venus with Rahu in the 6th house. She fought, lost and won back her political leadership.

(f) Morarji Desai's *Amk* is the Moon in the 3rd house aspected by three planets from the 8th house and Saturn from Tula. A leader without a following became a Prime Minister and lost power. How many times in his life he has come back to power only such a well-aspected *Amk* can explain.

(g) Again see the *Amk* of the three U.S. Presidents and the story of struggle becomes visible. All these are taken from the past issues of THE ASTROLOGICAL MAGAZINE. The *Amk* of Gerard Ford is in Lagna, Mesha and is Mars. He faced no struggles but was not a distinguished man.

(h) The *Amk* of President Carter is in the 2nd house, Vrischika and so long as he was in power his *Amk*, Jupiter gave him a good and liberal image.

(i) But see President Nixon's *Amk*, Moon in the 6th house aspected by Saturn from the 10th house (Vrishabha) and we know the familiar over-familiar, story of Watergate and his fall.

(j) Lastly see the *Amk* of Queen Elizabeth Venus with Jupiter aspected by Moon from his own house and exalted Sun from the 4th house. She continues to be the world's most dignified royal figure for over three decades now.

From the observation of over five hundred horoscopes I have formulated a simple rule which can be split into three parts:

(a) See how *Amk* is placed from Lagna;

(b) See how it is aspected; and

(c) Then see how he is conjunct with other planets.

The rules that can be applicable through further research are:

(a) *Placement*: If placed in Kendras or Trikonas from the Lagna or in the 11th house, career will be generally smooth while its level will depend upon other factors.

(b) *Aspects*: Aspects on *Amk* show the nature of problems in career.

(c) *Conjunction*: The planet associated with *Amk* reveals a good deal about such career.

The rules flowing from these three pivotal observations will be just the same as in the case of any other astrological analysis, except that two new factors come into play, Jaimini's aspects and Karakas.

A series of observations done on this basis has helped me formulate some more dependable, not hundred percent accurate, principles:

1. A malefic becoming *Amk*, ill-placed and aspected by malefics shows a man who has the dash to push through in favourable periods but not without a controversial image. But such persons can also be technocrats.

2. A benefic becoming *Amk*, associated with benefics apparently but with one of them debilitated and the other owner of, say, the 8th house, ends up finally with a broken career and dubious image in unfavourable periods.

3. Invariably any connection of *Amk* with the 6th house and the 6th lord, without any association with the 8th lord is a sign of a man's

As a contrast see another horoscope. Here the *Amk*, Mars is in the 8th house (Chart 2) aspected by two malefics, Ketu and the Sun. He rose very high in the judicial

profession and was elevated to the High Court in the Dasa of Mars which is *Amk* but resigned after the Janata Government came to power in 1977 to defend Mrs. Indira Gandhi. By the time Mrs. Gandhi came back to power his Rahu Dasa had started and after suffering all the days of anti-Congress tirades of those years, he had expected Mrs. Gandhi to appoint him in one of the top judicial posts under the Central Government. I told him that it would elude him and he should be mentally prepared to be betrayed by his erstwhile friends. My further warning to him was to be careful about his health. His shock was so much, perhaps that he died of heart-attack when on a tour to Patna, in September 1984 in Rahu-Saturn period or in Chara Dasa as soon as the Kanya Dasa began.

The difference between a father's horoscope (Chart 3) who built up a business and industrial place for himself in India after a modest beginning and his son's (Chart 4) who was naturally, born with a silver spoon in his mouth is revealed by the *Amk* of both.

The father has his *Amk* in Lagna aspected by Saturn, from the 11th house, while *Amk* aspects the 11th house and is, in turn, aspected by the Sun, Venus and Mercury from the 8th house. The son has his *Amk* Mercury in the 5th house with Venus and Sun which combination is aspected by Jupiter from the 11th house.

On Rahu and Ketu and Their Dasas

BUELL D. HUGGINS

As stated before, Ketu rules the asterism Aswini (Aries), Makha (Leo) and Moola (Sagittarius) which correspond to Mars (courage), the Sun (soul) and Jupiter (wisdom). Therefore, Ketu in Aries (and Scorpio), Leo and Sagittarius (and Pisces) should be expected to give good results unless other factors intervene. However, Ketu in other signs and asterisms might also yield good results, or if the sign or asterism Ketu is the Lagna lord or Yogakaraka, excellent results could be predicted and this is the case in most of the following examples. It will be noticed that when Ketu (like Rahu in the preceding horoscopes) is not in one of the friendly signs, the house it is in becomes more important - that is, it should preferably be in an Upachaya house.

Neil F. Hartigan[1] (Democratic Opponent of James R. Edgar for Governor of Illinois in 1990—the first horoscope given previously under Rahu), had a Leo Lagna and Gemini Chandra Lagna, with Ketu in Taurus in the asterism of the Sun (Krittika). Ketu conjoins Mars and Venus in the 10th from Lagna and 12th from Chandra Lagna, but the Mars-Venus conjunction as lords of the 9th and 10th does not confer Raja Yoga for Leo Lagna, because Mars as lord of the 9th is a Badhaka and Venus as lord also of the 3rd is bad. Furthermore, Ketu does not do as well in the 10th as Rahu—lacks *sthanabala* (positional strength). Nevertheless, the election was not a landslide victory for Edgar, but his Rahu in Taurus, plus the solar eclipse falling on his Sun about three and a half months before the election put him over the top.

Mario Cuomo[2] has a Cancer Lagna and Libra Chandra Lagna and Ketu in Leo in the 11th from Chandra Lagna and in the Sun's asterism (Uttaraphalguni). The Sun as lord of the 2nd is good for Cancer Lagnas although here it is in the 12th from Lagna but in the asterism of Yogakaraka Mars, yet debilitated in Libra in the Navamsa chart.

He was first elected Governor of New York in Ketu Dasa, Venus Bhukti on November 2, 1982, re-elected in November 1986 in Ketu Dasa, Jupiter Bhukti and for a third term on November 6, 1990 in Venus Dasa, Venus Bhukti. Venus is well placed in the 9th from Chandra Lagna, in the asterism of Jupiter and in the 10th from the Moon (Gajakesari Yoga - good for political success). Jupiter exalted in Lagna aspects the 9th (luck, dharma), the 5th (government) and the 2nd from Chandra Lagna, which makes him a good speaker.

Francis Ferdinand[3], Archduke of Austria and Crown Prince of Serbia, had Ketu in Taurus in the Sun's asterism (Krittika) in the 7th from his Scorpio Lagna and 3rd from his Pisces Chandra Lagna. He was heir to the imperial throne of Austria—Hungary. But as he and his wife were descending steps at

Van Cliburn[5], the noted pianist who achieved international fame in 1958 in Mercury Dasa by winning the Tahaikowsky Musical Competition in Moscow, Russia, for which he received a gold medal and a substantial sum of money, continued to do well in Ketu Dasa. With a Virgo Lagna, Mercury in the 10th from Lagna and Ketu in the 11th in the asterism of Mercury, he could hardly fail. Mercury as lord of the 1st and 10th gives Yoga for those with a Virgo Lagna.

United States Senator from Illinois Paul Simon[6] has a Leo Lagna and Gemini Chandra Lagna. He barely got elected to the Senate on November 4, 1984 in Mercury Dasa, Rahu Bhukti (for Mercury is a malefic for Leo Lagna), and in the 6th from his Chandra Lagna. Rahu in Krittika in the 10th from Lagna and 12th from Chandra Lagna was not good either.

But on November 6, 1990, in Ketu Dasa, Venus Bhukti he was re-elected by a large margin. Ketu in Scorpio in the 6th, an Upachaya house from Chandra Lagna, gave the results of Mars, Ketu's sign, more than the asterism Saturn. Venus, well placed in the 5th from Lagna, is aspected by Jupiter, is in Libra in the Navamsa, and gave Yoga from his Chandra Lagna.

Lagna, with Ketu in Capricorn in the 3rd from Lagna and in the asterism of Mars, lord of Lagna. On October 21, 1971, President Nixon nominated him for Associate Justice of the United States Supreme Court. He was confirmed by the Senate and took his seat on January 7, 1972. Both dates were in Ketu Dasa, Venus Bhukti. His Venus in Leo is in the asterism of Ketu.

In June 1986 President Reagan nominated him for Chief Justice and after three months of acrimonious and divisive debate because of his very conservative views, he was confirmed by the Senate on September 17 and took the oath of office on September 26, in Venus Dasa, Rahu Bhukti. Rahu in Cancer is in 10th from Chandra Lagna, but 9th from Lagna and neither Cancer nor Mercury's asterism were very helpful. Ketu in Capricorn, sign of Saturn, Yogakaraka for his Chandra Lagna and Ketu in the asterism of Mars, lord of Lagna, had been much better in 1971-'72.

Edward Benes[8] had a Gemini Lagna and Cancer Chandra Lagna with Ketu in Pisces in the 10th from Lagna, aspected by Jupiter and in the asterism of Mercury, lord of Lagna. Ketu is Vargottama in the Navamsa chart.

A college instructor, Mr. Benes became interested in politics and at the dawn of Ketu Dasa in 1921 became Prime Minister of Czechoslavakia.

Ketu Dasa, Rahu Bhukti (or *vice-versa*) is nearly always marked by misfortune, for the full weight of the Ketu-Rahu nodal axis is brought to bear on the native.

King Alfonso XIII of Spain[9] had a Leo Lagna and Libra Chandra Lagna in Aquarius, aspected by Mars and in Jupiter's asterism. Rahu in Leo, with Mars, is aspected by Saturn and in the asterism of Venus.

After World War I the King had sought a more personal rule without Parliament, and the elections of April 1931 showed a landslide victory for the Republicans and a desire to abolish the monarchy. He refused to abdicate, but was forced to leave Spain and spent the rest of his life in exile. He was running Ketu Dasa, Rahu Bhukti.

Emperor Charles Francis Joseph I[10], the last Emperor of Austria-Hungary, had a Virgo Lagna and Cancer Chandra Lagna. Ketu in the 5th in Capricorn is aspected by both Mars and Saturn. Rahu in Cancer in the 11th is with Mars, Saturn, Mercury and the Moon. In the Navamsa, Ketu and Saturn exchange signs from those in the natal chart and Ketu is with Mars.

On November 21, 1916 he became Emperor in Ketu Dasa, Venus Bhukti. Venus is debilitated in Virgo and as ruler of the 2nd as well as the 9th was a Yogamaraka. Venus is also a malefic for his Chandra Lagna.

Following World War I the Austro-Hungarian Empire was dissolved by the Treaties of St. Germain and Trianon in 1919, and in April of the same year the Emperor was deposed by Parliament and forced into exile. He was running Ketu Dasa, Rahu Bhukti. He died in exile on the Madeira Island of Portugal on April 1, 1922, in Saturn Bhukti.

How Saturn's Transit of Capricorn Affects India—II*

CHANDRAKANT S. KOTHARE

The independence horoscope (Chart 1) of India would represent the destiny of India as an independent country. A very peculiar feature of this map is the continuity of Dasa from the 1842 map. In that map Jupiter Dasa ends in November 1956 whereas the balance Jupiter Dasa of this map ends in February 1960. It indicates continuation of the unfoldment of destiny after independence and also the direct results of the developments that had taken place prior to independence. The history after independence is too eloquent to need any reiteration. The most sinister feature of the independence map is the conjunction between Saturn and Pluto. This is the conjunction of explosion—almost a nuclear explosion. Since the conjunction occurred in the 4th house it brought about the immediate destruction of property, human life and partition of the country. What happened after 1947 was the direct result of the Britishers "divide and rule" policy and the incompetence of the National Congress to tackle in time the separatist movements building up in the country. The most important reason was the extreme conciliatory approach adopted by the destiny builders of the country which, in turn, was the direct result of the methods adopted till 1940, the utility of which had ceased to be effective after the end of Rahu Dasa.

Another violent conjunction was between Mars and Uranus in the 2nd house. This, besides hastening the domestic violence, also ensured that India would become indebted to such an extent

*Part I has appeared in the *A.M.*, January 1992.

Ketu in Cancer in Mercury's asterism is aspected by Jupiter. He became King in July 1559 in Ketu Dasa, the Moon's Bhukti, but died of middle ear disease on December 15 (NS), 1560 in Rahu Bhukti. Rahu in Capricorn gives the results of Saturn, lord of the 7th, and Rahu is aspected by Saturn. In the Navamsa chart, Rahu is in the 7th from the Moon.—109.91. ●

that it would eventually find itself in a debt-trap. Uranus indicated heavy fluctuations in finance and Mars ensured that the politicians would squander the valuable foreign exchange. History has proved it. Neptune in the 6th house developed a service class which was singularly corrupt. Thus corruption became rampant in almost every field of life. Mercury by one degree per one year reached Saturn-Pluto conjunction by 1954. This brought about two sinister results in the social life of the country. Firstly, Mercury being the lord of the 2nd house was controlling the 'speech' of the country. We made haste to introduce Hindi as a national language and decided to form states on the basis of language. Both affected the national fibre of the country adversely. Another sinister element which entered into the social life was accepting "pugree" for residential premises and which later on converted into yet another evil practice of ownership-flats where "white and black element" was introduced. Mercury being the lord of the 3rd and the 2nd brought about these elements, when he conjuncted Saturn in the 4th house, who was responsible for the paucity of residential premises. Saturn being the lord of the 10th and 11th houses denoted that the Government's actions would accentuate the above evil elements and that is what actually happened.

One good point about this horoscope is that it promises long life for the country. In other words it says that our independence is long-lived.

As for the political life of the country we need to examine the Republic horoscope (Chart 2) of the country.

ASCDT. 12°-38' RAHU 17°-18'	MOON 10°-18'		URA.8°-31' (R)

The most striking feature of our Republic horoscope is its similarity with the Destiny map of India 1842 and some very important hints that comparison provides us about the strategy that India should adopt for its survival and success in times to come.

The lord of the Lagna and M.C. is same, that is Jupiter and this very fact indicates to us that this republic must fulfil the religious, spiritual and philosophical aspirations of this country and bring about the "Golden Age". This is bound to happen because the Sun, Mercury, Venus and Jupiter, The lord of the Lagna are all elevated. The lord of the 11th, representing the Lok Sabha, is weak and is placed in the 6th, hence unless Saturn regains strength by coming up in bright half and particularly in his sign of exaltation, Lok Sabha would not be able to function in a manner which would give an impetus to the country to achieve its basic aspirations. By one degree per one year method Saturn entered Libra after 35 years from 1950, that is in 1985. From then onwards the forces have started gathering the strength. It is only six years since Saturn has entered Libra by that method and the country has started witnessing the sea of changes.

Ruler of this map Jupiter does not indicate a State devoid of religion. He demands that the Ruling party should have religious bearing, not based on hatred and fanaticism, but imbued with cultural values and based on the philosophical understanding. The association of the Sun with Jupiter indicates that the Defence will always support the Ruling party for protecting democratic legislations. This further promises peace, prosperity, growth in business and industry achieved by pragmatic policies and the moves. It is further supported by the fact that Mercury too is heading to meet Jupiter. Mercury-Jupiter conjunction took place, by progression, after thirty years from 1950, that is in 1980. It means that development started accelerating from that year onwards. Incidentally the Moon Dasa was in progress from 1978 onwards and the Moon was the lord of the 5th house placed in the 2nd house. It then indicated that the direction of the development was more in consumer durables and entertainment. Nevertheless, as promised by progressed Mercury conjunction with Jupiter rapid

From 1995 August, Mars Dasa is g and hence the enemies s us till then. Rahu Dasa after 26-8-1995. Rahu s Jupiter or being in his can, therefore, hope for ly after 1995. Please note s only in Rahu Dasa in map we successfully a method which eventually helped us to win our independence in 1947. Jupiter Dasa starting from August 2013 will finally achieve what 1842 map has destined for India. Having examined the basic factors of Republic map let us revert to the Saturn cycle.

The first half of 1961 cycle witnessed another drama being enacted in the political arena. It was characterised by centralisation of the power. This happened because Jupiter and Saturn once again came close to conjunction in Sagittarius, before conjuncting in Capricorn. Political immaturity was making a mockery of democracy. Between 1975 and 1977, when Saturn came in Cancer it took an ugly form, especially when Mars became stationary in Taurus-Gemini between August 1975 and May 1976, in 4th house of Republic map. People agitated. Immediately after stationary period Emergency was proclaimed. This is the time when Saturn was heading towards the opposition of the Sun, Jupiter and Venus of the Republic map. As Saturn came in exact opposition to Jupiter of Republic map in June 1977, democratic forces scored a temporary victory and Emergency was withdrawn. Janata Party swept March 1977 elections but experiment in coalition failed. Saturn entered 7th house in October 1979 and a turbulent period commenced. Before that the Moon Dasa started in August 1978. The Moon being in 2nd house was a Maraka and was controlling finance, being lord of the 5th indicating that money would be squandered on entertainment and pleasures as well as on diplomatic contacts. As Saturn conjuncted Ketu and Mars (lord of 2nd house), a new phase of squandering started. I.M.F. cleared 5 billion SDR loan to India in November 1981. We were thus entering a debt-trap. December 1981 Mars became stationary in Virgo where Saturn was already present. Central budget of 1982 was a massive tax effort to raise Rs.590 crores. In August 1982 that is immediately after stationary period of Mars and when Saturn was going to make conjunction with Neptune, the most deceptive and nebulous planet, Maruti project was floated with total investment of Rs. 269 crores, with a foreign exchange component of Rs. 89 crores. Saturn entered Libra in October 1982 and the last quarter of the cycle started. Saturn made repeated conjunctions with Pluto in the 8th house of Republic map and yet another violent phase started. In 1984 Mars became stationary in Libra, where Saturn and Pluto were already there and "Dance of Death" started. This was heralded by Kashmir Liberation Army kidnapping Mr. R. H. Mhatre, Indian Assistant High Commissioner in Birmingham, in January 1984 and who was later killed on February 1984. When he was kidnapped Mars-Pluto conjunction was taking place and when he was killed Mars was heading for conjunction with Saturn. From then onwards spate of terrorist activities started. In June 1984 stationary Mars and Saturn conjuncted. By that time "Blue Star" operation was over. This culminated in Mrs. Gandhi's assassination, in October 1984. Pluto came in opposition to the Moon of Republic map in December 1984 and Bhopal gas tragedy took place.

Games, Colour T.Vs, Bharat Mahotsavs, frequent foreign trips and so on finally brought us to the present situation. We paid for what started in 1980s in 1990 onwards. We are still paying and we would continue to pay in future. Saturn will conjunct the Sun, Jupiter and Venus from January to December 1992. Uranus and Neptune will conjunct between 23° and 25° of Sagittarius between March 1992 and February 1993. Mercury is in 25° in Sagittarius and represents people and transactions with others. We have to be extremely careful about the pacts and deals. Fifth column activities and violence may disturb our system very much. This position does not augur well to the Ruling party. Mars is becoming stationary in Gemini and Cancer between September 1992 and April 1993 and afflicts planets in the 11th house of Republic map. The planetary position is volatile, disruptive and dangerous. God knows whether we will have time and opportunity to learn the lesson taught by the Saturn in next two years. I see major economic crisis world over, during Mars stationary period, particularly in the last week of January 1992, mid March 1992, last week of May 1992, third week of October 1992 and January-February 1993. Saturn conjunction Sun in January 1992 shows danger of heart attack to our Prime Minister. If that happens then March 1992 when Saturn and Mars would conjunct Jupiter there could be a serious trouble to him. Let God help him.

In this cycle commencing from December 1990 we have to learn to discipline our finance, keep our Defence in perfectly fit condition and act firmly and if necessary ruthlessly with the disruptive element in the country which is thriving on the implicit and explicit support of our enemies. We have seen that many important developments take place when Mars is becoming stationary in sensitive zones during Saturn cycle. Mars becomes stationary in the following periods:

November 1994 to July 1995 in Leo; Saturn is in opposition then. In Virgo Jan to August 1997—Saturn in opposition. February to August 1999—Saturn in opposition with Jupiter too there. Thus 1999 is a crucial year. In Aquarius June to December 2003 where Mars will repeatedly conjunct Uranus. There will be a violent thrust towards democratisation. India will radically change from this year onwards; In Aries August 2005 to February 2006 when Saturn will be in Cancer and Jupiter will be in Libra. The churning of this year will eventually bring us out of the woods and now onwards family planning would be a success. In Gemini Sept. 2007 to Apr. 2008 most of the time Jupiter will be in Sagittarius and Saturn will be in Leo—aggressive drives in the commercial sector are expected. In Leo November 2011 to June 2012—Saturn will be in Libra—confrontation with enemies expected. In Virgo December 2013—July 2014—Saturn in Libra, Jupiter in Gemini, Uranus in Pisces—open confrontation with the enemy is expected. In Capricorn May to October 2018—Saturn in Sagittarius and Jupitor in Libra—major reshuffle in Government expected. Saturn would complete the cycle in the end of January 2020.

ewhere, I wrote about ra. The movement of the s with reference to our Rasis ve an effect on us, apart from the Dasas in our charts. The ents firstly of Saturn, ly of Jupiter and thirdly of rom one Rasi to the next will t in decreasing order of y.

en Saturn enters the 12th from Janma Rasi, *sadesati* is begin. For example, for Aries *sadesati* begins when Saturn Pisces and it continues until it out of Taurus. The duration of this transit is seven and half years (7-1/2 years). In other words, Saturn traverses the 12th, 1st and 2nd houses from the Janma Rasi. The results during this period will be such that they will have far-reaching consequences on one's life.

I have already written succinctly in an earlier part (on Gochara) the results of saturn's transit of all the Rasis. I will now give in detail the results of the transits of Saturn on the 12th, 1st and 2nd houses from the Moon-sign.

Transit of the 12th House

You will have sleeplessness due to unknown fears, mental agony and torture. Suddenly you find enemies around you, whom you have to fight out, either in the office or in the courts. There will be sudden unexpected and unwanted quarrels in the office. You will find that you are caught in a dragnet from which you are unable to extricate yourself. Or, you may be suspended for a mistake you have really not committed. The income having dwindled, you may have to borrow for your needs. Suddenly, an in-law or close relations may fall sick, and you may have to rush them to a doctor and find the money for it. Many such other predicaments would put you at the mercy of others for money. Thus, your paternal property might be eroded by diseases or by enemies. There may be an accident or such events of a serious nature, which may put your life in danger. Young girls may have to wait for a long time for getting married as proposals which appear to have been settled slip away, resulting in disappointment and frustration. As if this is not enough, you may be transferred if you are a job-holder; a businessman may have to wind up his business and go elsewhere seeking better luck. All your ventures may end up as fruitless exercises. Your lands may slip out of your possession or the yield may be poor. You may fall into bad company and squander money on drinks, cards, brothels. Speaking falsehood becomes very common with you.

Transit of 1st House

No mental elation — sadness, some inexpressible fear and sorrow; bad talk by others; sickness, especially due to rheumatism, weakness and exhaustion; tendency to do things which are a sacrilege to caste, custom and religion and thus antagonise one's own people; accepting food which is prohibited; sickness and quarrels with wife and loss of domestic peace; contact with low-caste women; aimlessly moving to unknown places; troubles in the office and business; altercations with superiors; disrespect; loss of name; transfers; failures in educational efforts, sale or mortgage of vehicles.

Transit of the 2nd House

Loss of money, eye problems, quarrels in the house, moving out of one's own house and living in rented houses; living pathetically on the charities of others; loss of all

happiness; listlessness; indebtedness, sickness to mother; insults; punishment; fear.

Do such incidents really occur or is it all theory?

In 1952 a gentleman who was in our neighbourhood in Maharanipeta at Jeypore came to my father with a lad of about 19-20 years. The boy who had been serving in a semi-government job had left it suddenly. This had hit the family badly. The boy was affected by scabies, irritation from which was intolerable. No treatment was giving results. Having no job, he was always seen on the roads and probably with unwanted friends. He was picking up quarrels in the house and outside. He was not able to find another job. The parent was disgusted with the circumstances of the boy and at the same time worried. When my father checked up the chart, he found that *sadesati* had started for the boy. My father had gone into the details of the horoscope of the boy no doubt to ameliorate the mental condition of the parent who was upset but essentially it was the 12th house Saturn that was the cause of torment and distress.

One of my colleagues Venkataraman, senior officer in SAIL, was also not spared by the *sadesati* of Saturn. He was charged with corrupt practice on a matter which was done in the interests of the company and his condition was lamentable. The higher management sympathised with him but was not able to do anything. The procedure of investigation to its finality had to be followed by the investigating authority and hence Venkataraman had to wait. His Rasi was Sagittarius and Saturn had entered Scorpio, the 12th house, at the end of December 1984. It had a carastrophic effect instantly on him. Venkataraman had also told me that his daughter's Rasi was also Sagittarius and the movement of Saturn had affected her studies. Avataram (who was my relation), who had settled down in Bhubaneswar, had told me of the interruptions in the studies of his son for two years from 1985. He had joined a post-graduate course in 1988. The boy's Rasi was Sagittarius incidentally. Persons born in Sagittarius were severely affected between December 1984 and July 1987 when Saturn was passing through the 12th house. In some cases, it was interruption in studies of young boys and girls due to prolonged illness. The 12th house Saturn had ravaged the lives of many without compunction. After Saturn moved out of Sagittarius Rasi the situation had improved. Persons had recovered from illness and/or had taken to their studies once again. They had slowly limped back and found their feet on the ground though not firmly. They are yet to tide through Saturn in Capricorn. Some of my colleagues who had good confidential reports and expected promotion were thoroughly disappointed and they were later told that it was the effect of the 12th house Saturn. It was really interesting for me to observe the impact of *sadesati* on the people around me. It was devastating. I wish that such personal experiences are pooled at one place and duly recorded for the benefit of the posterity. It is said that in Gochara 12th house Saturn takes the person to the brink of death.

ome Observations on umbha and Karkataka Lagnas

. Suryanarayana Rao, B.Sc., B.T., M.Ed.

bha Lagna

ring my research studies, no agna has fascinated me so Aquarius or Kumbha. This more than on reason. ing to *Phalaadeepika*, Kumbha people will secretly commit Even Varahamihira feels, is the worst of all Lagnas. opinion of the Yavanas, Navamsa is bad.

re is a saying in some classical rely a man born in Kumbha the grave without some disgrace or serious loss. He on well for some time, but, have a fall—an ignoble one e end."

statements about Kumbha prompted me to carry on e research on this sign.

mbha Lagna may not be bad, e are made to think, if the are suitably placed in the pe. I can cite many Kumbha people born as great sages, thinkers or persons given Yoga as explained by Lord to Arjuna on the battlefield kshetra. Ramakrishna hamsa who revived and ted Hindu Philosophy, Mohammed the tor of Islam, Dr. T.M.A. chitect of Modern Manipal, RAMAN, doyen in the field of gical sciences, Karl Marx, the prophet of Socialism and father of Communism, Havelock Ellis, Abraham Lincoln and many other great people in different fields are all Kumbha Lagna people. Hundreds of cases of persons born in Kumbha Lagna and in high places can be cited.

The controversy about Kumbha Lagna is meaningless. It is a mystic sign and gives the natives a philosophical outlook.

Of course, Saturn, the lord of Kumbha, is a crooked and wicked planet. Because Kumbha imbibes many of its characteristics from Saturn, it might have come to be condemned.

Again, let me compare Saturn with Mars, an evil planet of more or less equal notoriety. Saturn in Kumbha Lagna is Sasayoga, one of the Panchamahapurusha Yogas. Kumbha is a Moolatrikona Rasi for Saturn. But Mars, an Aries Lagna forms a Panchamahapurusha Yoga called Ruchaka Yoga. Aries is also Moolatrikona Rasi for Mars. Of these two Yogas, and this has been my personal experience, Ruchaka Yoga is more powerful, dynamic and beneficial. Aries is a fiery sign, while Aquarius is an airy sign. Comparing the lordships, Saturn is the lord of the 1st and 12th, while Mars is the lord of the 1st and 8th. And between the houses 8 and 12, I consider the latter as the worst, for we know that the 12th house represents expenditure, loss, and is a house of failure and frustration.

Between Mars and Saturn, both evil planets (as Rahu and Ketu are not full fledged evil planets), I have always maintained that Mars is more humane and kind at heart. Of course, Saturn is Ayushyakaraka, but he is also Kastakaraka and Rogakaraka, whereas, Mars is Karaka for landed property, brethren, happy marriage and children. Worship of Durga, heroism, spiritedness, battle or fights, military command and such other good attributes are assigned to Mars. But, if anything goes wrong anywhere, suddenly the thought of Saturn first comes to our minds. The proverbial *sadesathi*, the *panchama sani*, Saturn Dasa as the 4th Dasa, Sun-Saturn square, conjunction and opposition, Saturn-Mars square, especially when it is a mutual square etc., roll into our minds. One knows Saturn governs meanness, drunkenness, debt, slavery, fines, punishment, accidents, theft, defective limbs, irreligiousness, Childlessness, Sudra caste, biliousness and such other bad attributes. No other planet in Astrology exclusively commands all such negative characteristics.

The fact is the evil association between lords of the first and second will produce marital discords. If the square, conjunction and opposition of Sun and Saturn, Mars and Saturn, Moon and Saturn are bad, undesirable for all Lagnas, then why single out only Kumbha Lagna in this regard and condemn it? some Lagnas, Saturn is Yogakaraka, especially for Taurus and Libra Lagnas. The only fact is that Aquarius Rasi and its lord, Saturn, lead towards Sanyasa with very little enthusiasm in marriage and conjugal life and this must have led astrologers into declaring Kumbha as undesirable.

Mars and Jupiter are malefics for Aquarius Lagna. Mercury, though a powerful friend of Saturn is a eunuch! The Sun is the death inflicting planet. Both the luminaries are deadly enemies of Saturn. These factors alone are not sufficient to dub Kumbha as bad!

I have found in my studies of Kumbha Lagna that the natives though they are bereft of paternal property and material happiness, are generally honest, humble and sincere. They attain distinction due to their devotion to a cause. They are able to confront any challenges in their work by their undaunted courage.

The following are some of my observations on Kumbha Lagna natives.

Jupiter and Venus in the 2nd for Kumbha Lagna gives name, fame and reputation. If Jupiter and the Moon are in mutual Kendras, Akhanda Samrajya Yoga is caused. People with this Yoga get political success. Saturn in the 7th for Kumbha Lagna gives Raja Yoga in Saturn Dasa. Venus exalted in Pisces and Jupiter powerfully situated makes one an astrologer. Usually the fortunate period for Kumbha Lagna people is from 36 to 42 years, the period assigned to Saturn. I have seen people carrying on an insignificant life till 36 years and then suddenly becoming rich, purchasing vehicles and landed property. The ladder of success for Kumbha Lagna people is of short duration—from 36 years to 42 years. They marry late, poor in early life, a court—bird all their lives, suffer great humiliation, and they possess a sickly constitution.

Planets in Kumbha Lagna

The Sun in Kumbha Lagna — likely to be abandoned by his children, likelihood of incurring great loss; the Moon—health of the native may be bad and short—lived; Mars—poor in early life, one may suffer humiliation; Mercury—loss by theft; here Jupiter is considered as good—he earns name, fame and popularity; Saturn forms Sasa Yoga. Though Sasa Yoga does not guarantee higher education, there will certainly be flow of money. As Saturn is also the lord of the 10th, being in the 1st he may earn and swuander money. If such a Saturn is aspected by Jupiter, one becomes a great philosopher, Venus in Kumbha Lagna is good. But Venus is also Badhakadhipati, being the lord of the 9th. It is said this makes one a slave to women, will have many wives, if associated with or aspected by evil planets.

Karkataka Lagna

Karkataka or Cancer is another sign which has deeply fascinated me.

Cancer is the 4th sign of the zodiac. Beginning from 4th pada of Punarvasu, this sign covers the stars Pushya and Aslesha in full. It is the Moon's own sign, a mental planet and also Matrukaraka. This significant sign is the exaltation sign of Jupiter, Karaka for higher

The greatest drawback of this sign is, it brings about maximum evil on the matrimonial front, perhaps owing to Mars. This is its debilitating sign. It is generally believed that if one wants to foresee the things connected with conjugal life, one has to look at the position of Mars in the birth chart. Or it may be due to the 9th house.

Natives born under Cancer or Karkataka Lagna are fortunate and intelligent with remarkable memory power. Generally highly educated and fairly handsome, they are known for their honesty and are alert to whatever is entrusted to them.

Cancer Lagna people are likely to rise to high political eminence. The late Jawaharlal Nehru, Mrs. Indira Gandhi, Maharaja Sri Krishnaraja Wodeyar of Mysore, Sir Mirza Ismail, the Diwan of Mysore and many more examples can be cited. This made me wonder if Cancer, like Leo is a royal sign?

Marital Life

Let me discuss marital life for Cancer Lagna people. My generalised conclusion may not hold good in all charts. The totality of the horoscope comes very much into play.

For Cancer Lagna, it is said, when Saturn, the 7th lord, gets Jupiter as administrator, separation is bound to take place between husband and wife. As Saturn is also the 8th lord and Kashtakaraka, he will surely bring about miserable conditions on the married front. The best example is of Lord Rama who was born in Cancer and lacked marital happiness. His marriage ended in eternal separation,

Outlook for the Month

DHRUVA

Saturn is a planet of profound changes, of urge for freedom and progress. All the misery and suffering he inflicts on humanity is meant only to bring home the realisation of the true meaning of life, and the value of ethical, civilised behaviour based on equality, fraternity, and mutual respect. He brings order out of chaos, optimism out of despair, and peace out of turmoil. As the mighty Saturn rolles through Capricorn, his own pragmatic sign, he was taken the world on the path of a New World Order, breaking the long drawn cold war between the Super Powers, dramatic changes in the Eastern Europe, unification on Germany, thaw in racial relations in South Africa, the rapproachment between China and Vietnam and the peace initiatives in West Asia. These changes have come about through severe turmoil and conflict. It is for the world leaders to show statesmanship in consolidating the gains for securing sustained world peace, promised by Saturn's transits through his own and jovian signs during the next few years.

During the month, Saturn remains combust till 17th February, causing suffering and frustrations. Mars enters Capricorn on 8th, followed by Venus on 12th, leading to their conjunction on the 19th. Mercury and the Sun enter Aquarius on 12th and 11th respectively; the former opposing Jupiter on 22nd and the latter opposing Jupiter on 29th February.

The lunar month Magha commences on 3.2.92 at 24 h. 30 m. The Ascendant is 16° Libra afflicted by the aspect of Saturn, and the Ascendant lord Venus coming within the hold of Rahu and Mars, threatening the country's stability, which is further strained by the aspect of Mars, Rahu and Saturn on the Navamsa Lagna. This reveals the vulnerability of the country to disruptive attacks by internal and external forces. The lord of the 10th ruling the government is the vacillating Moon, afflicted by malefic associations, and the 10th receiving the baneful aspects of

Mars and Saturn. Such a weak planetary disposition indicates that the Government may falter in tackling the unleashing of forces of disruption and disintegration. The malefic forces are concentrated in the 3rd and 4th houses. The 3rd ruling neighbours falls in fiery Sagittarius. Mars stands for violence, strife and aggression. Rahu's forte is disintegration and subversion. A volatile situation is likely to develop. The planets involved, Rahu, Mars and Jupiter (3rd lord) in a weak Venusian constellation, indicate that the country's peaceful intentions may be taken for weakness. The aspect of Jupiter on the 7th and the 3rd offers a ray of hope for meeting the situation and averting serious consequences. The affliction of the 3rd and Mercury, ruling communication, media, transport, offers no cause for cheer. The media may be put to severe strain; there may be widespread disruption of communication and transport systems; serious accident is not ruled out. Jupiter's aspect may bring about some miraculous escape.

Four planets in the 4th, all placed in the asterism of the Moon, lord of 10th, indicate the possibility of some agrarian reforms, but lacking in will to implement. Land disputes are likely to result in outbreak of violence and murder. The 6th is aspected by Mars and Saturn, and the 6th lord occupies the 6th from the 6th, in retrogression. There will be a spurt in terrorist activities and outbreak of diseases. The 8th lord, weak and handicapped in the 8th from the 8th, and the 12th lord too coming under affliction, there will be no respite from heavy loss of lives as a consequence of violence, accidents, explosions and natural calamities. The affliction of the 9th and the 9th lord Mercury has an adverse effect on the judiciary and foreign trade. The 2nd lord Mars is aspected by Jupiter, conjoins Lagna lord and occupies own Navamsa. This is a hopeful sign for improvement in the economic situation. Jupiter's transit in the 12th from India's ruling sign, is an indicator of the financial difficulties to persist. Budgetary exercise will be a balancing act, only marginal tax relief can be expected. Communication, agriculture, family planning, housing are some of the sectors which may receive particular attention in the budget. The severe affliction of Venus makes position of women, artists, artisans vulnerable. Cases of assaults on women's rights and personal safety and modesty may go up.

Gemini 8° rises at Washington. The planetary influences are focussed on the 7th and 8th houses. The Ascendant lord in the 8th hemmed between Mars and Saturn points to a difficult period for the United States. The country may be rocked by a scandal. Four planets in the asterism of weak Moon (lord of 2nd) and the other four occupying the constellation of afflicted Venus (lord of 12th) is not a happy augury for the health of the nation, which may suffer tragic events and loss of lives. Relations with some foreign power may be strained.

should like to acquaint the s with a few symbolic terms plain them so that they may the ready comprehension er throughout, concerning koning of Bhavas, sign-Dasas, years etc. If one is thorough these conventional notations, can be no doubt of a full and r grasp and use of Jaimini.

e symbolic terms are (1) Chakra, (2) Prakriti Chakra, riti Chakra, (4) Graha Chakra, dakrama.

ya Chakra

e count or reckoning of s or sign-Dasas directly, er from an odd sign or from n sign, is called Udaya Chakra. is an odd sign. The count from whether for Bhava reckoning Dasa-sign reckoning is direct. means the Dasa-signs from are Aries, Taurus, Gemini, er, Leo, Virgo, Libra, Scorpio, tarius, Capricorn, Aquarius Pisces. Taurus is the 2nd house, ini is the 3rd house, Cancer is h house, and so on from Aries. me reckoning is to be done in se of even signs. Taurus is an sign. So, if you begin from s, the count or reckoning is t as in the case of the odd sign Aries etc. So the Dasa-signs are s, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries. Similarly, the Bhava reckoning if needed is also direct. It means that Gemini is the 2nd, Cancer is the 3rd, Leo is the 4th and so on from Taurus. Hence when we say 'according to Udaya Chakra', anywhere in these lessons, the reader should know the count or the reckoning, whether for an odd sign or for an even sign, is always direct as explained above.

Prakriti Chakra

The count or reckoning of Bhavas, Dasa-signs etc. from an odd sign is direct while from an even sign, it is reverse. This is what Prakriti Chakra means.

Aries is an odd sign. The count is direct from Aries. So Aries, Taurus, Gemini and so on are the twelve Dasa-signs from Aries to Pisces, directly. Similar is the count of Bhavas. Taurus is an even sign. The count or reckoning is reverse from Taurus. Then the Dasa-signs are Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer and Gemini. Similar is the count of Bhavas. Aries is the 2nd, Pisces is the 3rd and so on from Taurus, because Taurus is an even sign. Suppose you want to begin any sign Dasa from Gemini. Gemini is an odd sign. Hence according to Prakriti Chakra., the Dasa-signs are Gemini, Cancer, Leo and so on from Gemini to Taurus directly. Suppose you want to begin from Virgo which is an even sign. The Dasa-signs are Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra Leo is the 2nd, Cancer is the 3rd, Gemini is the 4th and so on in the reverse direction from Virgo. Hence when we say *according to Prakriti Chakra* for Bhava reckoning or for Dasa-sign reckoning or for the count of Dasa Varsha (years of Dasa-sign) the readers should understand that the count or reckoning is direct for odd signs, while it is reverse for even signs.

Vikriti Chakra

The count or reckoning of Bhavas or Dasa-signs from an odd sign is reverse while from an even sign it is direct. This is what Vikriti Chakra means.

Aries is an odd sign. The count from Aries is reverse. Hence the Dasa-signs from Aries are Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini and Taurus. The count of Bhavas from Aries is as follows: Pisces is the 2nd, Aquarius is the 3rd and so on. Taurus is an even sign. If you want to count, or reckon from Taurus, you should do it directly. Then Taurus, Gemini, Cancer etc. are the Dasa-signs from Taurus. Hence when we say according to Vikriti Chakra, you should understand the count or reckoning is reverse from the odd signs, while from the even signs it is direct.

Graha Chakra

The reckoning of Bhavas or Karakas from the sign-lord according to Udaya Chakra, in the order of the planetary placement is called Graha Chakra. For example, the lord of Lagna is Mars. Mars corresponds to Tanu Bhava. The

planet next to him in the Rasi chart corresponds to Dhana Bhava. The planet next to him corresponds to Bhratru Bhava. The planet next to him corresponds to Matru Bhava. The planet next to him corresponds to Putra Bhava. The planet next to him corresponds to Jnati Bhava. The planet next to him corresponds to Dara Bhava. The planet next to him corresponds to Dara Bhava. The planet next to him corresponds to Ayurbhava. The next planet corresponds to Bhagya Bhava. Thus the nine planets in the direct order correspond to the nine Bhavas.

Example Horoscope

The Mystery of the I-Ching — V*

U. S. PULIPPANI

Case 2

Once a police officer came to me and asked, whether he would be able to arrest a particular offender who had misappropriated a huge sum of money in a firm where he held a high position. As usual, the coin method was adopted and the following present and resultant Hexagrams were obtained.

1. Present Hexagram	2. Resultant Hexagram
———	———
— —	— —
— —	— —
— —	— —
———	———
— —x	———
Hexagram No. 59	Hexagram No. 61.
Dispersion	*Inner Truthfulness*

I draw the attention of the readers to the form of both the Hexagrams. In the present Hexagram No. 59, the 1st line at the bottom is a (broken) YIN line. The broken line naturally gives an outlet in the bottom. As water flows out from a hole in the bottom of a container, this broken line indicates that the culprit has escaped from the organisation with a huge sum of money (water that has drained). Moreover the name of the Hexagram itself is given as *dispersion* meaning scattering of resources which indicates escape of the culprit with the resource. The judgement and other basic explanations of this Hexagram give the idea that it is beneficial to cross a great (water) distance and by that the work will be achieved which will appear later in the serial. This indicates that the man will be caught.

The 1st moving line reads "He brings help with the strength of a horse" which means that the horse representing the fast-moving police squad deputed for this purpose will reach its destination being the location of the culprit and arrest him (who is underground now).

The second resultant Hexagram conveys much more. Note the form of Hexagram No. 61, *inner truthfulness* (which will appear in this serial later with usual explanations). The 1st line which was broken in the previous Hexagram changing to solid line, in this Hexagram has the form of the Hexagram as that of a container. The bottom and top lines closing and blocking the middle 2 broken lines in the new Hexagram indicate a closed enclosure, in which something is caught, representing the culprit in the context. The judgement of this Hexagram is in the following words.

"*Sea Lions - Good Fortune - Persistence in Right* course brings reward." The *Sea Lions* means fish which will be caught in the form of the culprit. The word reward includes not only the culprit being caught, but also the money being recovered from him.

Regarding the condition of fortune in both the Hexagrams, there is not much difference. The first changing from *Medium good fortune* to *Good fortune*, in the 2nd, indicates success in any case.

In this case, I have discussed the structural pattern of the form of both the Hexagrams and made it fit into the context of the question asked. This requires long experience and maturity, which can be acquired only by repeated and devoted study of *I Ching* Wisdom with concentration. However, even on considering the direct outward meaning of the various elements of both the Hexagrams, the same delineation can be drawn even by a moderately intelligent person. I shall provide more information in the appendix on various attributes of the 8 Trigrams which form the Hexagrams, from which the implied philosophical and psychological meanings and the structural pattern of the Hexagrams may be made use of in arriving at correct predictions. As predicted the culprit was later arrested and a major part of the money was recovered. *I Ching* never fails, it is the human intellect that fails.

ship, this is a female Trigram,
indicating mother which stands for love which does not stop with passion, but fuses itself into affectionate maternal love and compassion. The Hexagram itself is termed receptive and hence not repulsive. The Hexagram symbolises a mare, a female horse, which bears everything. Further, the Hexagram is also passive and not active. The judgement says, *Passive - Sublime Success.*

Among other things, this Hexagram indicates service, patience, submissiveness, peace etc.

The 2nd part of the Hexagram, the prediction under the heading marriage declares *A Meek, Obedient and Yielding Bride.* Moreover, under the heading *Condition of fortune* in the 2nd part of this Hexagram it is termed *Good fortune,* hence favourable.

Hence I advised him to go ahead with the marriage. The marriage proved very successful. Though the young man holds only a clerical position in a private firm and his wife is a bank manager, she is a meek, obedient and devoted wife.

Here also *I Ching* Wisdom proved correct.

Epilogue

Points to Remember.

1. *I Ching* is to be approached with reverence.

2. Only serious questions are to be asked, trivial questions should be avoided.

3. Drawing of the Hexagram for a question is to be done by tossing 3 coins of the same pattern 6 times, drawing each line from each throw. The lines should be constructed from bottom upwards. The inscribed side of the coin is given the value 2 and the side with the seal is given the value 3. During each throw, the total value of 6 is designated as a moving YIN line. Similarly, the value of 7, 8 and 9 are designated as unbroken YANG line, broken in YIN line, unbroken moving YANG line respectively. When more moving lines appear in a draw, that line changes into its opposite and the new Hexagram is formed by these new lines, keeping all other lines intact in the same position. This Hexagram is called resultant Hexagram.

4. When no moving line appears, it is called locked Hexagram. It will only answer the future condition.

5. *Interpretation*: When 2 Hexagrams appear in a question, namely, the present and the resultant, read the moving lines in the present Hexagram and give importance to the topmost moving line to connect the present situation. Read the judgement and other general indications of the future Hexagram but, do not consider the lines in this resultant Hexagram. Finalise the prediction, based on the general indications of the resultant Hexagram and to the relevant heading fitting it to the context in the 2nd part of the resultant Hexagram.

If no Moving line appears in the drawing of the Hexagram, it is called as locked Hexagram. In this case, finalise your prediction based on the judgement, the general indications of the Hexagram, and to the particular heading referring to the context of the question in the 2nd part of the Hexagram. Lines are not considered in this Hexagram. However, if any special additional

meaning or clarifications are required, you can refer to the ruling line and finalise the prediction based on this.

6. Special Terms

Certain terms appear in the text of the *I Ching* which seem to be peculiar but they have meanings which are relevant to the context. They are explained below.

1. *Superior man*: This term in the majority of the contexts refers to the inquirer himself or in other words to a mature well- balanced man of Wisdom in general. This term appears mostly in the explanation under the heading *Symbol* in the main text of the *I Ching*.

2. *No Error or No Blame*: This indicates that when the results are as per our wishes, we are not to be blamed, and that the circumstances are beyond our control.

3. *It will be advantageous to cross the great water*: This is a time to proceed even with risk or to travel great distance to achieve the goal.

4. *Good fortune*: This means that there is possibility of our wish being fulfilled.

5. *Misfortune*: This means that our wish will not be fulfilled and there may be even loss or trouble. The best course to be adopted is to give up the plan completely.

6. *It is advantageous to see a great man*: This means that we will benefit generally if we approach some one of great Wisdom and maturity for advice regarding the situation or problem on hand. By doing so we will succeed.

K. R. KRISHNAMURTHI

Ancestry

Divaakara was the eldest son of Nrisimha of Bharadwaja Gotra, whom he named after his grandfather the learned astrologer Divaakara. Kamalakara (1616 A.D.), Gopinatha (1620 A.D.) and Ranganatha (1640 A.D.) were the younger brothers of Divaakara. Divaakara was born in Saka Year 1528 (1606 A.D.) at Golagrama by the side of the river Godavari in Andhra Pradesh. His father Nrisimha and his grandfather Krishna were not only well known astrologers but were also well recognised astronomers and mathematicians. It is but natural that Divaakara inherited some of the best attainments of his forefathers.

His Works

Divaakara wrote three works on Astrology including his commentaries. They are *Jataka Paddhathi* (his own work) with his own commentary (*Padmajatakam*), *Makaranda Vivaranam* and *Kesava Paddhathi Teeka (Prowdhamanorama)*.

Jajataka Paddhathi was designed by him on the lines of Sripathi's (999 A.D.) famous work *Jataka Paddathi* and that of Kesava (1456 A.D.). It may be pointed out here that Divaakara preferred Astrology to Astronomy, in which his father was so distinguished. At the beginning of *Jataka Padhathi* he writes,

श्रीमच्छिवारव्यं गणितज्ञ च्रकचूडामणिं
सज्जन वृन्दवदयम् ।
विदुर्विदोयं धिषणेन तुल्यं तं नौमिनित्यं
धिषणाप्ति हेतोः ।।
श्री केशव श्रीपति सुन्दरादि प्रणीत
तन्त्रादधिरात्यसारम् ।
प्रकाश्यते सुज्ञ दिवाकरेण पद्मांशुभिः
जातक मार्गपद्मम् ।।

meaning thereby that he has started the work by paying due respects to all distinguished early authors and elders and has brought out this work, *Jatakamargapadmam*, reflecting in its contents the essence of the works of great authors like Kesava, Sripathi, Sundara etc. in full acknowledgement to them.

In the closing chapter, he adds the following *slokas*:

नृसिंह पुत्रेण पितृव्यलब्ध प्रबोधलेशेन
दिवाकरेण ।
प्रकाशितं जातकमार्गपदम् अध्यायरूपाष्ट
दलं सुबोधम् ।।
नन्देन्दु (19) वर्षेण मया कृतोऽयं

Saka Year 1547 (1625 A.D.) with clarity and correctness.

This commentary on *Kesava Pathi (Prowdhamanorama)* reveals his erudition in *Nyaya* (Logic), *Vyakarana* (Grammar), *Kavya* (Poetical Science) and *Gola* (Planetary motion).

He starts this work duly bowing to Lord Ganesa as follows:

विघ्न निघ्नमहं वन्दे विन्धयं
देवुघाचितम् ।।
यत्व स्मरणतः साध्यं सिद्धिं प्राप्नोति
सत्वरम् ।।

At the closing *sloka* runs as follows:

रुद्रे गजाम्भोधि शरे न्दु (1548) तुल्ये
सिद्धान्तवित्
प्रेमनोरमाख्या । दिवाकरोक्ता
सुकेशवोक्ते वृत्तिः
सुकृतिः समागात् समाप्तिम् ।।

This would mean that he wrote *Prowdhamanorama* in the Saka Year 1548 (1626 A.D.), when he was 69 years old with much ingenuity and application of skill.

Divaakara has written another work called *Ganithatatwa Chintamani* on astronomy which reveals his beliefs, elucidation and results arrived at.

He begins it with the following verse:

प्रणम्य नितान्तंशिवपाद युग्मं चित्ते
निधाय दिवाकरारव्यः ।
सिद्ध्यै तोषाय निजप्रणीतं ग्रन्थं वरेण्यं
प्रकटीकरोमीति ।।

Meaning "After taking the feet of Siva in his heart and with all the true knowledge he gained from his paternal uncle Siva Daivagna, as his pupil, he has started this *Tatwa Viveka* in all splendour."

At the concluding part he writes,

दिवाकराऽऽराधन लब्धबुद्धि
दिवाकरारव्यो नृसिंहसूनुः ।
रम्यं निजोक्तेर्गणितस्य तत्व चिन्तामणिं
संरक्षयां बभूव ।।
शाक सर्वयुतिर्यदा नृपशतीरामैर्विहीना
(1597) तदा ।
सिद्धान्त सिद्धान्त विदसगण्यो
दिवाकरोरनन्तमिमं लिलेख ।।

These two concluding verses would mean that Divaakara, son of Nrisimha, has explained the principles of astronomy forming part of the best of his knowledge and beliefs. In the final verse he says that he wrote this work *Ganithatatwa Chintamani* in the Saka Year 1597 (1675 A.D.) when he was 69 years old. He was, therefore, born in 1606 A.D.

But we have no clues from other sources to establish the exact life-span of the author. - 204.90. ✻

Teach Yourself Palmistry — 5*

DR. T. S. VASAN,
B.Sc.,B.L.,PH.D.,F.R.A.S.(LONDON)

The Thumb

The study of the thumb takes a unique place because it plays a very prominent part in moulding the character of the subject. It is important because the connection between the brain and the thumb is so deep. We say that the brain is the centre of the nervous system. In the same manner we should give thumb the central place of importance in the hand. We can even say it is the counterpart of the first house or Lagna. A good deal of stress is laid on the study of the thumb in the Hindu system of palmistry. By a close study of the first phalange of the thumb the Lagna-characteristics can be found out. *'Ravana Samhitha'* and many *Nadi Granthas* are good examples for this. A general account on this subject will be given in future.

Let us, at the outset, study the Western method of thumb reading. The thumb is divided into two parts, the upper and the lower. The upper or the top part is called the *Will Phalange* and the lower one is called the *Logic Phalange*. In general parlance we can say that the thumb stands for hereditary characteristics and also certain acquired ones. Different kinds of thumbs may be classified as follows:

(a) The Stiff-Straight Th

The sub will
he
ll

reason
cannot be
emotions.

*Lesson 4 has appeared in the *A.M.*, December 1991.

(b) Supple Thumb (Fig. 2)

FIG. 2

This thumb indicates an adaptable nature, generous disposition with certain artistic talents in them. He y become a spendthrift. He will beflexible by nature and liked by others.

(c) Waisted Thumb (Fig. 3)

FIG. 3

Here the second phalange is narrow in the middle assuming waist-like formation. The people of this type are very intelligent and extremely tactful and non-committal and they are cautious.

(d) The Clubbed Thumb (Fig. 4)

FIG. 4

The thumb will be bulbous and with a thick phalange (first) in this case. The native is dominated by animal force and obstinate tendency. He maybebrutal and violent in reaction.

(e) The Long Thumb (Fig. 5)

FIG. 5

The owner of the long thumb will be very individualistic with good power of reasoning and will. The important characteristic here is leadership. He will be successful in business, politics or science.

(f) The Short Thumb (Fig. 6)

FIG. 6

The person of this type will be weak with undeveloped reasoning power. He will be very emotional and will not be in a position to resist opposition. In short, this person cannot occupy a position of power.

Apart from the above classification, we have what may be called low and high sets of thumb for our study. This may be judged by the space formed along the edge of the palm from the root of the index finger to the root of the thumb (Fig. 7). If the space is short we may

FIG. 7

call it as High Set, and if it is long, Low Set. The Low Set of the thumb gives dynamic courage, intelligence, independent disposition, individuality. Contrary to this type is the High Set thumb which gives money-mindedness, avaricious nature and timidity.

The first phalange of the thumb may be square, spatulate or pointed.

The square-tipped thumb shows deep common-sense. The spatulate thumb shows restless or creative ability. The conic type shows lack of self-control. The pointed type may show alertness and impulsive nature.

If the first phalange which is symbolic of the will is shorter than the second one, the possessor will be lacking in will and determination. He will be a man of more thinking and reasoning and lack in practicality. Contrary to this would be (2nd phalange becoming shorter than the first) the individual who will be self-willed and very stubborn.

Another factor to be observed while reading the thumb is the angle formed between the thumb and the index finger (Fig. 8). If the angle

FIG. 8

formed here is from 45 to 60° it is said to be a normal angle which gives a balanced nature, self-reliance and clear approach to things. The angle of 90° gives the individual an open mind and outspoken tendency. If the angle is acute the person may be very cautious and secretive.

Yet another observation one has to make while reading the thumb is when the thumb is closely held near the lower phalange of the index finger, it may either go half way or upto the top portion of the lower phalange or it may only touch the root of the first phalange. An average thumb will go half way in the lower phalange which gives the subject patience, self-control and courage. The one that touches the

root of the index finger gives an emotional temperament and instinctive nature whereas the thumb which goes to the top and above the lower phalange gives strong will, clear thinking, determined nature and good powers of concentration. This type is generally possessed by men of action and leadership (Fig. 9). - 112.91. ❋

Added to this, the father who was physically blind was also intellectually so. Dritharashtra means one who holds the kingdom to himself without sharing it with those who deserve it. Your analysis of the charts of the other dish-babies also is an eye-opener to society. Such articles are always welcome.

THE ASTROLOGICAL MAGAZINE

Sir, - I have been reading your Magazine since 1964. The information in the Magazine is of the highest astrological value resulting in my friends and relatives coming to me for consultation (of course free). Of course, this knowledge is wholly attributable to you and your Magazine. May the Almighty guide and help you in your efforts to help spread this knowledge globally.

I am now 87 years old (born 14-9-1904) and my health is deteriorating. I must still read your Magazine until my last days in this world.

Parasara and Prasna

Sir, - It is stated on page 712 (*A.M.* September 1991) that there is exchange of signs between 2nd (finance) and 6th (litigation). Apart from the fact that the number of the signs (*i.e.*, 2nd and 6th) will be wrong if the Ascendant is wrong I am not sure if it should be the 6th or the 7th house that indicates litigation. On page 700 Prof. P. S. Sastri states that the 7th house indicates law suits. On page 697, Mr. R. M. Banerjee states "If it is a question on passible victory over rivals in a legal battle, the 6th and 8th houses and their lords in the Prasna chart come to the forefront." On page 716, Mr. M. C. Luthra states that 7th house signifies litigation. On page 743, Mr. Iranganti Rangacharya looks into the 7th house concerning "disputes, litigation, fights".

As different views have been expressed, I shall be grateful to know whether the 6th house or the 8th house signifies litigation.

Secunderabad. S.Doraisamy.

President Bush

Sir, - President Bush has Mercury Dasa running, with Rahu Bhukti till 25-12-1993.

Although Rahu Bhukti in Mercury Dasa should give excellent results, from the Moon sign the Rahu-Ketu axis is across 12-6 and the 8th lord Mars aspecting Rahu does not augur well for the President.

Generally, it is said that Rahu in the 12th house gives a hoard of secret enemies and the native suffers from their machinations. The fall of such natives also comes in the period of Rahu due to secret enemies who take the help of foreign elements.

The Sun placed in the 9th house with Lagna lord Mercury will bring unmatched name and fame to the native. But as Rahu is in Ketu's asterism and Mars is lord of 8th and 3rd house, it indicates sudden fall in status coupled with ill-health.

In Rahu Bhukti, Jupiter-Rahu-Mercury period is from 24-10-1991 to 26-2-1992. Jupiter being the lord of the 7th house currently in Leo can cause health hazards to President Bush.

regard to avandanam, it has to rmed in the morning 3 before sunrise *i.e.*, 1 2 minutes. So day begins at 1 hr. 12 ms. unrise.

n regard to menses, d death, the duration has to be divided into The first two parts be reckoned as day and the 3rd part e taken as the following day. For *e.g.*, if sunset occurs at 6.00 p.m. and sunrise is at 6.00 a.m., the duration of night is 12 hours. Dividing it into 3 parts, 8 hours shall be reckoned as previous day that is upto 2.00 a.m. and the remaining 4 hours should be treated as the following day.

This is as per *Sri Venkata Somayajeeyam*

With regards to Pitrukriyas, the day has to be divided into 5 parts - 1st part is Pradaha; 2nd part is Sangavaha; 3rd part is Madhyahna; 4th part is Aparahna; and 5th part is Sayankala.

The Pitrukriya has to be performed during the 4th part.

Theory of Astrology

Sir, - My hearty congratulations to Mr. R. Krishnamoorthy for his article on the theory of Astrology (*A.M.* June 1991). He has clearly explained by mathematical diagrams the principles of Trikona working and aspects between planets at a distance of 120° or more which is the angular distance covered by nine Nakshatras (13° 20' x 9).

Puri. **D. Giri.**

Cyclonic Storms

Sir, - Mr. T. R. Natarajan's findings (*A.M.* October 1991 page 828) have also corroborated my conclusions, that a large number of planets in Chanda and Vayu Nadis produce cyclones. Regarding other points raised in his letter, I may add the following:

1. Old classical literature has not given any rules about Mundane Astrology and natural catastrophies. Perhaps *Brihat Samhita* is the only ancient work which has given some astrological combinations on mundane events. Sloka 39 of the Chapter "Shukrachar", mentioned in my article (*A.M.* May 1991) says that whenever Mercury, Mars, Jupiter and Saturn move ahead of Venus, strong winds and storms will be there and the trees will be uprooted. It does not specifically mention sea-storms, that is cyclones. Moreover the reader has himself admitted that in the case of cyclones of Andhra Pradesh and Orissa sea coasts, Jupiter was ahead of Venus. In the case of West Bengal cyclones it is just possible that the remaining three planets Mars, Mercury and Saturn might have been ahead of Venus. The rules of *Brihat Samhita* are to be supplemented by further research.

As regards the division of the zodiac into 28 Nakshatras, perhaps, Mr. Natarajan has not noticed the duration of Abhijit Nakshatra, as given in standard texts. The total span or duration is only 4° 13' 20" and it extends from 276° 40' to 280° 53' 20" of the zodiac, that is from 6° 40' Capricorn to 10° 53' 20" Capricorn. Also it

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

covers the last quarter of Uttarashadha and 1/15th part of Sravana. Thus the spans of Uttarashadha and Sravana are reduced, But all other Nakshatras remain as they are. The Chanda and Vayu Nadis do not cover any of these three Nakshatras. Hence there is no contradiction in this regard. While concluding, I may add that 'Abhijit' is mentioned first in Atharva Veda (19-7) *Abhijinme rasatam punyameva sravanaaha.*

Satna. P. W. Mandvikar.

"Samanta Chandrasekhara"

Sir, - Mr. Dukishyama Pattanayak states in his article (*A.M.* December 1990) that Samanta Chandrasekhara was born on 11th January, 1836. On this premise, he erects a horoscope and claims that this is Samanta's horoscope. In my letter (*A.M.* July 1991) I pointed out that the actual date of birth of Samanta was 13th December, 1835. In his letter (*A.M.* November, 1991) Mr. Pattanayak has reiterated his view that the date of birth of Samanta as fixed by him, was correct. He has also observed that while the date indicated by me, namely 13th December, 1835 is of my "own conjecture", the date fixed by him, namely 11th January, 1836 has been arrived at by him "on solid astronomical calculations" and "is not an assumption but a fact of mathematics". He has further observed that my "surmise is only a scholarly query and not a refutation." I want to clarify that the date as mentioned by me is not based on conjecture or surmise as alleged by Mr. Pattanayak but is based only on astronomical principles.

While I agree with Mr. Pattanayak that the date of birth of Samanta was the 8th day of the dark fortnight of the lunar month Pousa in the Saka Era 1757, that date was not the same as the 11th January, 1836. I also stated in brief the reason in support, namely, that in Orissa (where Samanta was born) lunar months are reckoned by the Purnimanta system and not by the Amanta system and when calculated on that basis, the 8th day of the dark fortnight of Pousa in Saka Era 1757 corresponded to the 13th day of December, 1835. I shall justify this on the basis of astronomical principles and also on the basis of astronomical calculations recorded in the *Indian Ephemeris* of Dewan Bahadur L.D. Swamikannu Pillai.

Mr. Pattanayak writes: "Since the Moon was in Krittika on the Full-Moon day, *i.e.*, 6th December, 1835, it was Kartika Pournima. So also, as the Moon was in the Mrigasira on the next Full-Moon day on the 4th January, 1836, it was Margasira Pournima. The date thereafter, *i.e.*, the 11th January, 1836 fell in the dark fortnight of Pousa".

I am afraid, these dates for the respective Pournimas are not correct. In fact, there was no Pournima on either of these dates. In this connection, a reference is invited to pages 73-74 of Pillai's *Indian Ephemeris* (1800 A.D. to 2000 A.D.) It will appear therefrom that in December, 1835, the Purnima occurred on the 5th (Saturday) and in January, 1836, it occurred on the 3rd (Sunday). On the 5th December, 1835 the Nakshatra at sunrise was Rohini and on the 6th December, 1835 the Nakshatra at sunrise was Mrigasira. According to astronomical rules for reckoning lunar months, the Pournima on 5th December was of the month Margasira. This fact has been clearly recorded in the same Ephemeris. Mr. Pattanayak's assumption that the Pournima in December was Kartika Pournima is not correct.

The dark fortnight which immediately followed the Pournima on 5-12-1835 was of the lunar month Pousa according to the Purnimanta reckoning (which is followed in Orissa). Again, according to the same *Ephemeris*, though the New-Moon in December 1835 occurred on the 19th as stated by Mr. Pattanayak, the 8th *tithi* of this dark fortnight began on 12-12-1835 after 0.46 part of that day after sunrise and was current at the sunrise on 13-12-1835; its ending moment on that day was 0.43. Incidentally, the 14th tithi preceding the New-Moon in December, 1835 was a Kshaya tithi. The Nakshatra at sunrise on 13-12-1835 was Uttaraphalguni, its ending moment being 0.77. The Nakshatra Hasta came immediately thereafter and its ending moment was 0.74 of the next day.

5. These facts make it clear that the date of birth of Samanta Chandrasekhara, namely, the 8th tithi of dark fortnight of Pousa in Saka Era 1757 corresponded to 13-12-

counting the date from e to the next sunrise as general practice in India) ot to 11-1-1836. I hope larifies the point.

Year of Birth

Sir, - This is with reference to the letter of Mr. Venugopal, (*A.M.* December 1991, page 963).

I only want to mention that Mr. Venugopal has taken my father's year of birth as 1889. It was really 1899. There was a printing mistake in the April 1991 issue. I did not point it out earlier only because I thought any astrologer making a Dasa-wise analysis would rectify the year of birth based on the positions of Saturn and Jupiter, as 1889 was an evident error.

Your Technical Difficulties Solved

MIHIRA

Q. 1. Rasi: *Aries - Ascendant; Gemini - Saturn and Rahu; Cancer - Mars; Libra - Jupiter; Sagittarius - Venus, Ketu, Mercury and Sun; and Aquarius - Moon.* **Navamsa:** *Scorpio - Ascendant, Sun and Rahu; Aries - Moon; Taurus - Ketu and Mercury; Gemini - Saturn; Cancer - Mars; Virgo - Venus; and Libra - Jupiter. Debilitated Mars aspects the 7th house. Indicator of marriage i.e., Venus in 9th house with the Sun and Ketu and Venus aspected by Saturn and Rahu.*

Please confirm is it a case of delay or denial of marriage and my life in Ketu's Dasa?

Chandra Lalit Kohli,
New Delhi.

Ans: Venus is Kalatrakaraka and the lord of 7th house. Venus is in his inimical sign, associated with Mercury, a malefic by virtue of his lordship of the 3rd and 6th houses. Venus is receiving the aspect of another malefic Saturn. The Lagna lord is debilitated. Hence it may be delay.

Q. 2. Rasi: *Leo - Ascendant 1-41; Libra - Mars 9-43, Venus 1-52; Scorpio - Sun 5-04 and Mercury 10-53; Sagittarius - Jupiter 15-13 and Rahu 25-56; Taurus - Moon 1-41 and Saturn 25-02; and Gemini - Ketu 25-56.* **Navamsa:** *Taurus - Ascendant and Ketu; Leo - Sun, Jupiter and Saturn; Libra - Venus; Scorpio - Rahu; Sagittarius - Mars and Mercury; and Capricorn - Moon.*

Can I get a job in Venus Bhukti in Mars Dasa, since they are in the 3rd house? If not, kindly advise when career will start?

M. V. Sarma, Guntur.

Ans: Your career may start in the Sun Bhukti in Mars Dasa, since Lagna lord Sun is associated with the lord of 2nd and 11th houses in a Kendra. Your career may start in your 23rd year as per Jaimini.

Q. 3. Rasi: *Cancer - Ascendant; Libra - Jupiter, Rahu and Mandi; Scorpio - Saturn (R); Sagittarius - Moon; Pisces - Mars; Aries - Ketu; Taurus - Venus; and Gemini - Sun and Mercury.* **Navamsa:** *Capricorn - Ascendant; Aquarius - Sun and Mars; Pisces - Saturn; Aries - Moon and Venus; Taurus - Ketu; Gemini - Mercury; and Libra - Jupiter and Mandi.*

The native suffers from extreme restlessness and lacks peace of mind. Why is it and what is the remedy?

Harinder Pal Bharadwaj,
Sirhind.

Ans: The 5th and 9th houses are afflicted by Saturn and Mars. So tensions may arise. They will clear when the benefic planetary periods and sub-periods run, which are not known from the chart given. Find out which period is running and arrange for Japa of the relevant planet whose Dasa is operating.

Q. 4. d my efforts to leave my ent job in teaching and a position as a computer ist have been in vain. not Jupiter as a strong fic in Lagna promote my er, especially because of aspect of 9th lord Moon?

r. Raj Kumar, Allahabad.

ns: Go for higher studies wait for Sun Bhukti in iter Dasa for career ation. The lord of 10th se is in Kona, and Pisces he Sun is an excellent sign eneficial results. Besides, Sun receives the aspect of iter, the 2nd lord.

Q. 5. Rasi: Virgo - endant, Jupiter and Ketu: rpio - Mars (R); Pisces - hu; Aries - Saturn and us; and Taurus - Sun, Moon Mercury. Navamsa: es - Ascendant and Jupiter: es - Saturn and Mercury; cer - Moon and Rahu: Leo - us; Virgo - Sun; and icorn - Mars and Ketu.

Will Rahu Dasa, Sun Bhukti going on and the next kti of the Moon retard my merce studies?

J. V. V. Krishnamurthy, Rayagada.

Ans: You have to wait for iter Dasa since the 3rd part Rahu Dasa, in particular end of Rahu Dasa, may not ve beneficial and may, on other hand, show loss of at has been gained since hu is in Pisces.

Q. 6. Rasi: Aries - endant and Jupiter; Taurus hu; Leo - Mars; Virgo - us; Libra - Sun; Scorpio - cury and Ketu; and Aquarius - Moon and Saturn. Navamsa: Gemini - Ascendant and the Sun; Cancer - Mars; Leo - Venus; Virgo - Rahu; Scorpio - Mercury and Saturn; Capricorn - Jupiter; Pisces - Ketu; and Aries - Moon.

(a) The native is indifferent to his studies. Will this attitude hamper his future prospects or will Jupiter in the Ascendant take care of it? (b) Will business suit the native?

Takht Singh Komal, Mogha District.

Ans: The natives of Jupiter in Mesha Lagna generally think high of themselves and are over-confident, and seemingly arrogant. But they are very careful in money matters and do not miss any opportunity of right means of earning. They are miserly too. The 11th of Lagna is occupied by Saturn and Moon. Business may suit the native better.

Q. 7. Rasi: Aquarius - Ascendant; Pisces - Mars and Ketu; Taurus - Jupiter and Saturn; Gemini - Sun and Mercury; Cancer - Venus; Leo - Moon; and Virgo - Rahu. (a) What planetary factors show termination of services following charge-sheeting 3 times? (b) Will Jupiter and Saturn influencing the 10th house safeguard his reputation in a court of law?

B. R. Rao, Allahabad.

Ans: The termination of services, suspensions, etc., happen in the Dasas and Bhuktis of malefic planets, by placement, strength etc. This judgement is easier in Jaimini system provided the full data are available. Lagna lord Saturn in Kendra and friendly sign with Jupiter, the lord of 2nd and 11th houses, is a plus point to safeguard reputation.

Q. 9. Rasi: Gemini - Ascendant 11-10; Virgo - Moon 21-38 and Mars 1-41; Scorpio - Ketu 26-00; Capricorn - Venus 24-11; Aquarius - Sun 7-08, Mercury 3-17 and Saturn 13-16; Aries - Jupiter 25-23; and Taurus - Rahu 26-00.

(a) Will Jupiter Dasa due to start in 1992 give better results relating to (i) finance, (ii) family life? (b) Will service be under government or private?

Sub. No. 17412

Ans: (a) Yes; (b) Government since the 2nd of Karakamsa is occupied by the Sun.

Q. 9. Rasi: Capricorn - Ascendant; Aquarius - Rahu; Pisces - Jupiter; Leo - Mars, Ketu, Venus and Moon; and Virgo - Mercury, Saturn and Sun. Navamsa: Aries - Ascendant, Sun and Saturn; Taurus - Mars; Gemini - Venus; Leo - Ketu; Libra - Moon; Scorpio - Jupiter; Capricorn - Mercury; and Aquarius - Rahu.

(a) The Dasa is of Rahu. Is it safe to expand the business of dyes and chemicals? (b) Does 10th lord Venus in 8th with the Moon and Ketu favour a career in homeopathy?

Dr. Devdatt Dave, Madras.

Ans: (a) Yes, since Rahu is in Vargottama; (b) Yes.

Q. 10. Rasi: Taurus - Ascendant; Gemini - Moon; Leo - Ketu; Scorpio - Jupiter and Mars; Sagittarius - Venus;

*Capricorn - Sun and Mercury; Aquarius - Rahu; and Aries - Saturn; **Navamsa:** Gemini Ascendant and Venus; Leo - Sun; Libra - Jupiter, Saturn and Rahu; Scorpio - Mars; Aquarius - Mercury; and Aries - Moon and Ketu. (a) Adhiyoga, Parijatha and Ruchaka are some of the Yogas present in the chart. When will they give results? (b) Does the chart show a career in politics?*

Kaushik P. Parmar, Ahmedabad.

Ans: Adhi Yoga does not form because of the involvement of the malefics too in the 6th and 8th houses from the Moon. It is hence termed Mishradhi Yoga. It is not exclusively Ruchaka Yoga because of Jupiter's association with Mars. However, the results of the Yogas may be found in the Dasas/Bhuktis of the involved planets in the above Yogas. The lord of the sign occupied by the Moon is Mercury who is aspecting Janma Lagna. And Mercury is associated with the Sun (A.K.) who is well placed in Navamsa. Hence a career in politics is foreseen.

***Q. 11.** My 2 sons and one daughter and my wife are having Rahu Dasa with different Bhuktis. Please clarify whether their Rahu Dasa periods will give bad effects for me or for my family during the last leg of the Rahu Dasa periods.*

***Self: Rasi:** Leo - Ascendant, Sun, Mercury and Mars; Virgo - Venus; Libra - Saturn; Sagittarius - Jupiter and Mandi; Capricorn - Ketu; Cancer - Moon and Rahu. Ketu Bhukti, Sun Dasa upto November 1991.*

***Wife: Rasi:** Aquarius - Ascendant; Cancer - Ketu; Leo - Mars; Libra - Sun, Jupiter, Venus and Mercury; Scorpio - Mandi; Sagittarius - Moon; Capricorn - Saturn and Rahu. Rahu Dasa, Mercury Bhukti upto April 1993.*

***First son: Rasi:** Aries - Ascendant; Taurus - Jupiter; Cancer - Ketu; Leo - Moon; Libra - Mars and Saturn; Sagittarius - Sun, Venus, Mercury and Mandi; Capricorn - Rahu. Rahu Dasa, Saturn Bhukti upto July 1992.*

***Second son: Rasi:** Sagittarius - Ascendant; Capricorn - Mandi; Aquarius - Mercury, Sun and Venus; Aries - Ketu; Taurus - Moon and Mars; Virgo - Jupiter; Libra - Rahu; and Scorpio - Saturn. Rahu Dasa, Sun Bhukti upto September 1992.*

***Daughter: Rasi:** Aquarius - Ascendant; Pisces - Mandi; Gemini - Ketu; Cancer - Moon; Leo - Sun, Venus and Mars; Virgo - Mercury; Libra - Saturn; and Sagittarius - Moon and Rahu. Rahu Dasa, Sun Bhukti upto November 1992.*

N. S. Venkiteswaran, Vijayawada.

Ans: ***Self:*** Rahu is in Cancer, the 12th of Janma Lagna. Rahu Dasa causes Raja Yoga, but is likely to cause also water disease like dropsy etc.

Wife: Rahu is in Capricorn, the 12th of Janma Lagna. It is a period of mixed results.

First son: Rahu in the 10th of Janma Lagna. The end of Rahu Dasa may be fatal to father.

Second son: Rahu is favourable being in the 11th of Janma Lagna.

Daughter: Jupiter's position is not given.

***Q. 12. Rasi:** Scorpio - Ascendant, Mars and Jupiter; Sagittarius - Moon; Capricorn - Jupiter, Ketu and Saturn; Cancer - Rahu; and Libra - Sun, Venus and Mercury. **Navamsa:** Leo - Ascendant and Mars; Virgo - Ketu; Sagittarius - Mercury and Venus; Capricorn - Saturn; Pisces - Jupiter and Rahu; and Taurus - Sun. The Sun Dasa begins in November 1992. Does the chart show service in a foreign embassy?*

U. Venkatasubrahmanya Sarma, Rajahmundry.

Ans: Jupiter is shown in two signs - which is correct. But by Mars and Jupiter in Lagna (Lagnameshadhipah) service in a foreign embassy is probable.

***Q. 13. Rasi:** Sagittarius - Sun, Moon, Jupiter and Saturn; Capricorn - Venus; Aquarius - Ketu; Pisces - Ascendant; Gemini - Mars (R); Leo - Rahu; and Scorpio -, Mercury. **Navamsa:** Aries - Mars (R); Moon and Sun; Taurus - Venus; Virgo - Jupiter and Rahu; Scorpio - Saturn; Capricorn - Mercury; and Pisces - Ascendant and Ketu. Will the planets in the 10th lead to extraordinary success in life or is it a Sanyasa Yoga?*

M. P. Jain, Chandigarh.

Ans: There is neither a pointer for Sanyasa Yoga nor a Yoga leading to extraordinary success in life.

*14. **Rasi:** Aries - Gemini - Ketu; Libra - Scorpio - Mercury, and Sun; Sagittarius - Capricorn - Mars; - Saturn and Moon; - Mandi. **Navamsa:** Ascendant, Rahu and Scorpio - Mercury and Sagittarius - Sun; Capricorn - Saturn; Aquarius - and Aries - Ketu and Ketu in the 3rd is to give good results But I am having a adverse period. Is it transit of Saturn in the And, will I survive Venus?*

Prabhakaran, Madras.

Ans: The lord of the 8th is exalted. Ayush- Saturn is in the 11th in his Moolatrikona Mercury is in the 8th Hence long life is ted according to Hence the term of above 66 years. If Venus falls in the term of long ath is certain. But Venus below the range of long cannot be fatal, though the 7th, Maraka sign. the 3rd house may be ter to Rajayoga in the But Ketu Dasa, ective of his position, not only good results but auses troubles, adverse like loss of wealth, ngs with brothers and and ill-health.

---

*15. **Rasi:** Ascendant - 70-25; Sun 81-38; 83-17; Mars 151-03; 65-15; Jupiter (R) 238- us (R) 63-11; Saturn and Rahu 19-30. Dasa, Rahu Bhukti December 1991. The could not continue any job or business more than 2-1/2 years since beginning of career in 1968. During July 1988 there was a sudden fall of business and financial collapse. Since then, no business and income. What is the reason for this unsteady career? Does the chart show success in business? If so, what type?*

T. Murali Krishna, Vijayawada.

Ans: Rahu in the 11th is aspected by Mars and Saturn. Hence in Rahu Bhukti of Mercury Dasa, financial fall happened. Till Ketu Dasa, your financial position and business will be unsteady. It is only in Venus Dasa, you can expect fabulous wealth, Venus being the best benefic for Gemini Lagna.

---

*Q. 16. **Rasi:** Leo - Ascendant; Libra - Moon; Leo - Jupiter; Virgo - Rahu; Libra - Sun; Pisces - Mercury; Aries - Venus and Mars; Taurus - Saturn; and Cancer - Ketu. What line of education is shown as 10th lord Venus is with Mars?*

Dr. K. V. R. Murthy, Kakinada.

Ans: The positions of Rahu and Ketu in the chart are wrongly shown. Chemistry, chemical engineering, etc., may be the probable subjects in educational career.

---

*Q. 17. **Rasi:** Virgo - Ascendant 17-32 and Ketu 11-27; Libra - Moon 22-18; Scorpio - Saturn 21-4; Pisces - Rahu 11-27; Aries - Jupiter 5-40; Gemini - Mercury 29-38; and Cancer - Sun 16-40. Mars 23-50 and Venus 11-12. (a) Does the conjunction of Venus with Sun and presence of Mars cancel the effect of Venus-Moon exchange? (Venus is very near to Sun.) (b) How will Rahu in 7th affect Mercury?*

R. P. Mathur, Ajmer.

Ans: The Sun and Mars do not totally cancel the effect of Venus-Moon exchange, but may reduce it. Rahu in the 7th does not affect Mercury in the 10th.

Q. 18. I have read in many books that the Lagna of Navamsa is Karaka for spouse but at the same time I also read that the 7th house from Navamsa Lagna is Karaka for spouse. Please clarify which is correct.

Dr. R. C. Bahuguna, New Delhi.

Ans: If two opinions are from two authentic sources, what harm is there in accepting the two when they do not contradict each other?

---

*Q. 19. **Rasi:** Aries - Ascendant; Gemini - Rahu; Virgo - Saturn and Mars; Libra - Jupiter (R); Sagittarius - Ketu; Capricorn - Mercury and Venus; and Pisces - Sun and Moon. Does the chart show (a) Gajakesari, Dhana, Sanyasa and Kalasarpa Yoga? (b) What is the effect of unafflicted Mars and Saturn in the 6th house?*

Sub. No. 13271.

Ans: None of the Yogas mentioned by you is present in the chart. The chief significations of the 6th Bhava are disease, enemies etc. The occupancy of Mars and Saturn in the 6th house shows diseases like piles, nervous tensions and frequent bickerings with friends and neighbours etc.

HINDU ASTRONOMY

HYDERABAD (UNI): The parameters of ancient Hindu astronomy originated from the pre-Vedanga tradition, according to a study by the Physics Department of the Punjab University, Patiala. The study notes that kinematics of heavenly bodies intermingled with the rotational diurnal motion of earth which tally with the parallel values in later texts refuting the hypothesis of origination of *Vedanga Jyotish* from Greek and Babylonian traditions. Dr. Shakt D. Sharma, who conducted the study, says that Western scholars believed that the parameters of Indian astronomy originated in Greek tradition. Some went to the extent of even proving the hypothesis that *Vedanga Jyotish* originated in Babylon.

Ans: The 10th lord Mercury is in Leo, a fiery sign with 9th lord Venus and 5th lord Sun aspected by a strong Jupiter. From Chandra Lagna too, the 10th lord Venus is in Leo with the Sun and Mercury. This can give the boy a flair for figures and technical subjects like maths, physics, engineering etc. But the chart has nothing against a career in flying also. Anyway, at this stage the boy can be persuaded to do engineering in electronics/communications, radio etc., as this can also help him as a pilot.

due to start in July 1992. Until then, it is not wise to get involved in any major deals or transactions like buying or selling. However, after Jupiter Dasa begins you can venture into films. The 10th lord Mercury is with Venus, Jupiter aspecting 10th as Lagna lord is Neecha and Saturn also aspects the 10th house. Therefore, you can make a modest beginning in film distribution. After transit Saturn leaves Capricorn, financial luck is possible.

Ans: Rahu Dasa on and Rahu being with 6th lord Venus is responsible for your woes. Further, the natal Moon also suffers affliction from transit Saturn. However, Jupiter, the Lagna lord is well-placed in the 9th and aspects both Dasa and Bhukti lords. The 10th house is quite well-placed with its ruler Mercury joining the 9th lord Sun and both these planets aspecting 10th. These are all indications the charges are baseless and will be dismissed. You may be able to come out of the case with a clean chit. As Venus is also the 11th lord, you may get a sizeable amount as compensation coinciding with transit Saturn's passage out of Capricorn.

Saturn as 10th lord joining Mercury and Jupiter aspecting the 10th house would suggest success in the tax and commercial lines.

Rahu benefit from the aspect they receive of Yogakaraka Mars and Lagna lord Sun. The very fact Lagna lord is in a common sign with the 9th lord cum Yogakaraka Mars is indicative of luck from abroad. Gochara-wise also, Saturn is well-placed. Therefore, with Jupiter moving into Virgo in September 1992, you can expect tangible monetary benefits.

PREDICTIONS THROUGH JAIMINI'S CHARA DASA

damage as will be clear in the horoscope (Chart 5) which follows. He had a very prosperous business at one stage in his life and would have risen higher if the Dasa of his retrograde 8th lord, Mercury, had not come at a crucial stage in 1975 when he had asked me about his

ruined business. His *Amk* Sun debilitated in Tula is aspected by retrograde Saturn. Dhanu Dasa had started when he put the question to me but he died before his son could salvage the ruined business.

Much worse was the case of a police officer (Chart 6) who had been deprived of his promotions. I told him that he would have one promotion in 1975-76 which he got after lot of difficulties. His *Amk* Jupiter is under worst afflictions in the 6th house. He got one ordinary, long over-due promotion, but died of food poisoning soon thereafter.

Then arises a question how to predict the periods of rise (and naturally fall also) through Chara Dasa. As I have said for quick and yet sound predictions, using simultaneously both Dasas gives fast, snapshot and yet very reliable results. But there are a lot of details that should be worked out. In this part of this series, the shorter cut to generally accurate predictions is being given.

I gave the subject of Chart-7 predictions at different stages including the unexpectedly high rise in his bureaucratic life.

Atmakaraka and Amatyakaraka aspect each other mutually and the *Amk* is exalted. Again Atmakaraka and Darakaraka aspect each other mutually involving both the 10th house and the 10th lord from Lagna.

Periods of Rise

(a) In Chara Dasa, the Rasis aspected by Amatyakaraka and the Rasis from which *Amk* is in the 10th house are generally significant periods.

(b) The Rasi Dasa from where benefics are in Kendra are periods of rise.

(c) The Rasi Dasa of the 10th and 11th houses are significant if the above two conditions are fulfilled.

In this case Vrisha Dasa (1950-61) laid the foundation for a successful career. In Makara Dasa (1980-92) he rose to the level of Secretary to the Government of India and is even now doing intellectual work.

The second case (Chart 8) is of a prediction given in 1991 to an important doctor of Delhi who knows Astrology and discussed his horoscope and my prediction to him was that he would get a higher post, very dignified, after September 1991 and he is now a member of the Planning Commission.

He got Padma Sri and Padma Bhushan in the period of Vrischika Dasa (1976-85) which contains his *Amk*.

In 1991 when he asked me the question he was running Tula Dasa, which is generally a very good Dasa and from where both Atmakaraka and Amatyakaraka aspect the 10th house. In the Mesha sub-period two benefics are in Kendra, Venus and Moon and the *Amk* (Jupiter) aspects the 10th house. In Vimshottari Dasa he is running Saturn-Venus, both Trikona lords in their own houses.

But I must conclude this article with a warning that the short cut method I have given is only to stimulate interest in Jaimini Astrology and those who want to make use of it should work out other details, some of which will be discussed in the articles to follow.

Chandrashtama occurs from midday of 24th to the night of 26th.

The forecasts based on Janma Rasi are general and as such those having favourable aspects according to present Dasa and Bhukti in their horoscopes will have favourable results from the indications made above while those having adverse aspects according to current directions will experience these predictions to a lesser proportion. The predictions are based upon a clear interpretation of movements of transits of planets. If you do not know your Janma Rasi write to Utpala, C/o THE ASTROLOGICAL MAGAZINE giving your birth details and enclosing a stamped self-addressed envelope. — (Ed., A.M.)

Vrishabha (Taurus)

General: The Sun in the unfavourable 9th till 11th transits afterwards the favourable 10th with Vedha. Mars in the 8th and the 9th, Jupiter in the 4th and Saturn in the 9th are all unfavourable; Mars is under check from 8th and Saturn throughout. Venus in the 9th till 12th with check transits afterwards the favourable 10th and 11th. The unfavourable influences will sway the nature of the life of the native during this month. Attacks by opponents, losses by theft, deceit by so-called friends and worried mind are all likely. Stoicism and patience should be your watchword during the month. Rohini is better than Krittika and Mrigasira.

Health and Domestic: You are likely to be troubled by health problems, throughout. Chronic sufferers should be extremely careful and they should resort to prophylactic measures. Children's health may cause concern. Domestic bliss of a high order will, however, be vouchsafed to you.

Finance and Speculation: The financial position will be wholly unfavourable. Expenditure will far outstrip income. Medical bills will be heavy. Under no circumstances should you stand surety to anybody. Pressure from creditors will be quite severe. Speculative transactions will yield good profits during the second half but in view of the unsatisfactory financial trend you are advised to go slow in speculative transactions.

Real Property, Services, Professions etc.: This is not at all a favourable month for real property matters. There is likely to be a gradual reduction in yield and rentals. Expenditure on properties may rise to unexpected levels. Services may find the month quite trying. Businesses and professions may have to be prepared to face troubled conditions.

Women: Love affairs are likely to lead to disappointments. Social workers are likely to find the period unsatisfactory. Working girls may not find the month unsatisfactory.

Students: Conflicts with friends, teachers and relatives are likely. In view of the powerful and favourable support of Vidyakaraka you could make good progress in studies. Those interested in fine arts will find the period soul-satisfying.

Mercury in the adverse 7th till 12th with check transits afterwards the favourable 8th till 28th when he moves into the favourable 9th. In a month of mixed results the good effects will have a slight edge over the bad ones. Your merit will be recognised with consequent gain. All your actions should be absolutely above board since your enemies are likely to attempt to besmirch your reputation for honesty and integrity. Pushyami is better than Punarvasu and Aslesha.

Health and domestic: Health troubles are likely to worry you during the month but these will not be of a serious nature. Chronic sufferers should take good care of themselves. Children's success in the examinations will make you happy. But you may have to keep your fingers crossed in so far as peace and harmony in the domestic sphere are concerned.

Finance and Speculation: The month will be, more or less, satisfactory for finance. You are likely to get relief from your past financial commitments. You are likely to make good profits in speculative transactions during the first week. You should refrain from speculative deals afterwards.

Real Property, Services, Professions etc.: This is not an unsatisfactory month for real properties. You will not, certainly, incur losses. You will put through a very good transaction during the first week, which will give you considerable profit. This is a satisfactory month for the services. The period will be profitable for businesses and professions.

Women: You should curtail your social activities. Try to avoid love affairs during the month. You will have comforts and luxuries. Working girls will have to be extremely careful in dealing with the superiors.

Students: Not a bad month for students. Vidyakaraka will assist you to make progress in studies. Medical students are particularly favoured. Contacts with the opposite sex could be reduced to your advantage.

The favourable influences will be more in evidence during the month. Relief from certain commitments and favourable property deeds are likely. You should curb your tendency to deviate from right conduct. Poorvaphalguni is better than Makha and Uttaraphalguni.

Health and Domestic: You are not likely to have any health problems during the month. Chronic sufferers may find the month helpful. Children's health may cause mild concern. Domestic life will be peaceful and harmonious during the first half. You will have to exercise considerable tact and patience if you are keen on having peace in the domestic sphere during the second half.

Finance and Speculation: You will have many worries in the financial field. You will have to exercise all your managerial skills to ensure that you are not swept off your feet in the field of finance. You should refrain from speculative transactions completely and totally.

Real Property, Services, Professions etc.: Real estate matters will be more or less satisfactory during this month. Yield and rentals will be above average. You will make considerable improvements to your building properties. Services are likely to find the month trying. This is not an unsatisfactory period for businesses and professions.

Women: The fair sex will not find the month unsatisfactory. Social workers may be invited to shoulder responsibilities in recognition of their good performance in the past. Working girls will have to be very careful in dealing with their superiors especially during the second half.

Students: You should curb a tendency to neglect studies and spend too much time in sports. No doubt, your skill in sports will be fully recognised and your inclusion in National or State level teams is most likely. Even so without a good academic background sport, by itself, will not confer a happy life to you. You must exercise your will and concentrate on studies too.

Chandrashtama occurs from early hours of 16th to early hours of 18th.

Makara (Capricorn)

General: The Sun in the 1st and the 2nd, Mars in the 12th and the 1st, Jupiter in the 8th and Saturn in Janma are all unfavourable; the Sun is under check throughout except the last two days, Saturn throughout and Mars from 8th. Venus in the favourable 12th and 1st yields to Vedha throughout. Mercury in the unfavourable 1st till 12th transits thereafter the favourable 2nd till 28th when he moves into the unfavourable 3rd. The evil influences are in predominance. You should develop your will strongly and resist all temptations which will lend you in difficulties. Frustration will be the order of the day practically throughout. Prayer to God will help. Dhanishta is better than Uttarashadha and Sravana.

Health and Domestic: The planetary transits do not generate any optimism in the field of health during this month. Stomach ulcers may be expected. Chronic patients should be prepared for an aggravation in their complaints. With tact and patience you could prevent the domestic boat from rocking too much.

Finance and Speculation: This is an altogether an unsatisfactory month for finances. You will have to exercise all your managerial skills to keep your financial affairs under strict control. You are advised to refrain from the speculative field however tempting the profits may appear to be.

Real Property, Services, Professions etc.: All decisions on real property matters, major and minor, should be postponed to favourable periods. Agricultural crops may be destroyed by pests. Realisation of rents will be difficult. Penal transfers are likely for the services.

Businesses and professions may have to keep their fingers crossed during this month.

Women: The month does not show any promise for the fair sex. Social contacts are not likely to be very helpful. The tendency towards extravagance in money matters should be curbed fully. Employed girls will find the month difficult to pass through.

Students: Vidyakaraka is fortunately in a favourable mood for most days in the month. You should take advantage of this position and make a determined effort to make good progress in studies. In view of your proneness to physical injuries you are advised to refrain from sports.

Kumbha (Aquarius)

General: The Sun in the 12th and the 1st and Saturn in the 12th are both unfavourable but their evil proclivities are fully under check throughout. Jupiter in the 7th and Venus in the 11th and the 12th are fully favourable. Mars in the favourable 11th till 8th with Vedha transits afterwards the adverse 12th with check. Mercury in the unfavourable 12th and 1st till 28th with check till 12th transits afterwards the favourable 2nd for two days with Vedha. Good effects will be more in evidence during the month. You will be successful in your business activities. You may visit holy shrines with the members of your family. Satabhisha is better than Dhanishta and Poorvabhadra.

Health and Domestic: Though this is not an unsatisfactory month for health weakness and general debility may be present in a mild form, during the second half. The period is encouraging for chronic patients. Domestic bliss will be vouchsafed to you throughout.

Finance and Speculation: the financial affairs will be quite satisfactory. Some of the old debts you had written off will be paid back to you. You will have considerable relief from your past financial commitments. You should, however, refrain from speculative transactions.

Real Property, Services, Professions etc.: Acquisition of property is most likely during the first week. Yield and rentals will be at good levels. Labour problems may cause annoyance to you practically throughout. Unexpected promotions are likely for the services. This is quite a profitable month for businesses and professions.

Women: Quite a good period for the fair sex. Love affairs will blossom into happy wedding with the consent and blessings of parents. Employed girls are likely to be transferred to places of their choice.

Students: You should put a severe curb on your tendency to neglect studies. You will be successful in tests and interviews. Medical students are particularly favoured. You will have an enjoyable and memorable picnic in the company of the opposite sex during the first half.

Astrology and Women's World

Q. My daughter who got married on 7-6-1991 came away from her husband's place on 10-7-1991. The husband was involved with some other girl before marriage and is determined to marry her. Will my daughter's marriage break-up? Is a second marriage possible?

Ans: Taurus being the Ascendant, the 7th house Scorpio has the Sun in it. The 7th lord Mars is in the 6th with 11th lord Jupiter and Lagna lord Venus and aspected by Yogakaraka Neechabhanga Saturn. The multi-planetary influences on the 7th lord Mars and on Kalatrakaraka Venus and the Sun in the 7th are hardly conducive to a reconciliation and point to the marriage ending in legal divorce, the 6th house also being prominently involved. It may come about by the time Venus Bhukti of Rahu Dasa begins in April 1994.

Since Venus is with 11th lord Jupiter, so also 7th lord Mars, the same period may also see your daughter finding a suitable match and marrying again.

Q. My sons's marriage is delayed. He is in love with a Christian girl and we do not approve of it. Will he change his mind and when will his marriage take place?

Ans: The Ascendant lord Jupiter is with Ketu in the 2nd house in *his sign of debility. The Dasa is of Jupiter who, because of his position, may lead to an unconventional match. In all probability, your son may not change his mind and it would be in the interests of all concerned to

cept his decision as final and go ahead with the marriage. Since transit Jupiter is in Leo the 7th from the natal Moon, marriage is likely before September 1992.

Q. My son has 2 daughters. Is there a chance of his getting a son? If so, when?

***Son:* Born 24-9-1954** **S.N. 17445.**

Ans: The 5th lord Mars is Sagittarius, a male sign no oubt but he is with Rahu. rom Chandra Lagna, the 5th ouse has Mars and Rahu in but its ruler Jupiter occupies ancer, a female sign. In our daughter-in-law's chart so, the 5th lord Moon is in feminine sign Virgo while the th house is aspected by debilitated Jupiter and Saturn, from a feminine sign. From Chandra Lagna also, the 5th house has Saturn and Jupiter in Capricorn. Therefore, indications for male progeny ar practically non-existent.

***Daughter:* Born 8-4-1967 at 12-15 noon.** **S.N. 13203.**

Ans: The chart shows certain afflictions but this is not a case of denial of marriage. Saturn's aspect on the 7th house from both the Moon and Saturn can delay marriage unduly. Mars and Ketu occupy the 8th from Chandra Lagna. The Karaka Venus is afflicted not only by Rahu but also by the aspect of Mars on it. The marriage may take place

in 1996 in Jupiter Bhukti of Mercury Dasa. But because of the afflictions to the 8th house, severe incompatibility may result. The affliction to Venus can also lead to problems and litigation. Against this background, it would be advisable for the girl to qualify herself for some work or job during the pre-marriage period.

Q. The native is a highly qualified girl with a doctorate in Economics and well-employed. Despite their best efforts, her marriage has not materialised. Is she fated to remain single?

Born 21-7-1960 at 6-28 p.m. (IST).

R.K.S.

Ans: The fact, weak 8th lord Moon is in the 7th and with 7th lord Mercury and Saturn aspects the 7th house is responsible for the delay. Jupiter too, as Lagna lord, aspects the 7th and therefore does not rule out the event. Mercury Bhukti of Saturn Dasa runs upto December 1993. After September 1993, transit Jupiter will be in Libra aspecting the 7th house the Moon-sign and the 7th lord. Marriage is indicated during this transit before Mercury Bhukti finishes. Since the 7th lord Jupiter is in his own sign aspected by Mercury, the groom may also be academically highly qualified.

From Chandra Lagna, the 7th house is joined by 9th lord Saturn showing a generally lucky match with the groom being a man of studious habits and hard-working nature.

he second lord in both the Rasi Navamsa charts is well placed 10th. Dhanakaraka and 2nd upiter aspects the 2nd in the amsa chart. The increasing asis placed on an unregulated conomy will begin to bear . A significant expansion of the e class is likely. In the Rasi the 3rd house (neighbouring ns, communications and the) is occupied by Jupiter and ted by Mars. Mars is the r of the 6th house and Jupiter owner of the 7th house. These ships indicate the possibility of d conflict with our neighbour stan around the time of the June es. These significations are nced by the disposition of d Mars in the 3rd in the amsa chart. In their role as s of the 11th and 10th houses ctively, Mars and Jupiter ate that foreign publications be allowed to publish in India. also indicative of foreign vision programmes being ed increasing access to the n audience. International communication companies d be allowed to compete with -owned companies thus benefiting the consumer in the long run.

In the Rasi chart the 4th house is aspected by the 4th lord and by Mars, lord of the 6th and the 11th. Prices of agricultural commodities will rise significantly thus benefiting farmers. Various trade restrictions will be lifted even though there will be considerable opposition (6th lordship of Mars) from vested interested groups. The 5th house is ruled by Venus who is exalted in the 10th. The conjunction of the 5th lord and the 4th lord in the 10th constitutes a Raja Yoga. Government restrictions on the import of various consumer goods will be significantly reduced thus giving the general public easy access to quality foreign goods. Domestic manufacturers will face the prospect of having to drop prices and increase the quality of their products or face going out to business. Increasing emphasis will be placed by people on materialistic things. People will tend to think more and more of their own interests than the interests of the country. The 6th lord (Mars) is aspected by Jupiter, an expansionist planet, ruling the 7th (foreign countries) and 10th (foreign trade). There is no doubt that India will get deeper into debt and will be forced to make more compromises by agencies such as the International Monetary Fund to get aid. India will continue to be pressured by the United States and the Common Market to open its market upto foreign traders or face reciprocal sanctions. This will benefit India in the long run though it is likely to cause considerable short-term economic disruption and turmoil.

Rahu is located in the 7th house; there is likely to be an increase in the incidence of the AIDS virus and the potential for a large-scale epedemic will exist. This position of Rahu combined with the disposition of 6th lord Mars in the 9th is also suggestive of India possibly getting involved in a war with Pakistan over religious and territorial issues. The influence of Saturn in the 8th house points to a depleted treasury and augments the 6th house indications relating to the need for large-scale foreign aid infusion. Saturn in the 8th in both national and individual horoscopes tends to give poor fiscal discipline. There will be a tendency to live beyond one's means. In a national chart that would mean embarking on grandiose schemes that will ultimately cause one to depend on benefactors (in this case the IMF) and thus lead to loss of self-respect since the lenders tend to dictate the terms and conditions of the loan. As a Karmic planet, Saturn always teaches a lesson. If a horoscope is inherently strong then the person or a nation learns and develops sound financial habits; if the horoscope is inherently weak this will lead to total financial ruin. **The Indian national horoscope is inherently strong and we do hope that our leaders stop all the wasteful spending by shutting down useless national laboratories and public sector projects so that the country can be truly independent** and not have to depend on foreign aid. The Ascendants at New Delhi and Washington D.C are Shashtashtaka

in the 3rd house. However, in Bhava Rahu is aspected by Mars and Jupiter, the former is the 5th lord-*cum*-Yogakaraka and the latter, Putrakaraka-*cum*-Yogakaraka thereby reducing the intensity of Rahu's maleficence. In Rasi, Jupiter is in the 2nd sign but in Bhava, he is in Lagna. Mars is in the 3rd sign but 2nd Bhava. The facial features fit in with those of Jupiter in Lagna. His behaviour and quarrelsome nature can be explained by Mars in the 2nd in Bhava and not by Jupiter in the 2nd in Rasi.

"I feel even if the Navamsa chart is not taken into account, the Bhava chart is a must along with the Rasi chart."

Mars - The Planet of Mischief (*A.M.*, October 1991)

Oh, No! Not Mars

The reader has unnecessarily blamed Mars. Mars is birth Yogi (lord of birth Yoga point). So whenever there is aspect of Mars on a particular Bhava it prospers. In fact, the horoscope is not as simple as it appears to be.

Rasi: Sun 2s-0-8; Moon 1s-3-4; Mars 11s-12-14; Mercury 1s-25-30; Jupiter (R) 5s-28-30; Venus 0s-22-44; Saturn (R) 7s-29-4; Rahu 6s-5-22; Ascendant 2s-4-16; and X cusp 10s-24-29.

"Jupiter, the Karaka for issues, powerfully placed in the 5th has done sufficient damage (*Karakagraha samyukto bhava swalpa phala pradaha*). Ketu in the 11th indicates danger to issues; his aspect both as a natural malefic and as Avayogi for the chart are bad. But Mercury, the 5th lord, is powerfully placed with Digbala in Lagna. The Ashtakavarga of Jupiter has 6 benefic points in the 5th from Jupiter. The 5th receives the benefic aspect of Yogi Mars. Beejasphuta is strong. Santhana Ravi is however in Krishna Chaturthi. This calls for propitiation of Nagaraja. Rahu in the 5th as Dasa lord is likely to give issues in the 4th quarter (he is in Chitta-4) of his Dasa after the propitiation.

"The 8th lord Saturn's powerful aspect on the 4th house (Leo) and 2nd lord (Moon) explains the unsatisfactory education. It is also responsible for friction with mother as the Moon is Karaka for mother and the 4th indicates mother. The friction with brothers and sisters is also due to this as the Moon here is the 3rd lord as well. In fact, the aspect of Mars on the 4th lord Sun has given him what little education he had.

Again regarding the 10th house, the house has no occupants nor does it receive any aspects. The reason for his difficulties in job lies elsewhere. His Dasamsa chart contains the Lagna lord in the 8th indicating difficulties. But 10th lord Saturn strongly placed in the 7th is the only saving grace.

"Mars as birth Yogi gives him help from enemies (of all people) as he is 6th lord ruling enemies. So Sir, don't unnecessarily blame Mars. In fact he is the saving grace of the horoscope" pleads reader U. Muralikrishna of Kakinada.

The Sun in Lagna Crux

"I am not prepared to subscribe in full to the view that Mars is the mischief monger in the horoscope" says reader T.S. Raghavan of Bangalore.

"A persual of the *bindus* in the Sarvashtakavarga will prove my point.

Rasi: Aries - 32, Taurus - 19; Gemini - 27; Cancer - 33; Leo - 27; Virgo - 32; Libra - 23; Scorpio - 23; Sagittarius - 23; Capricorn - 31; Aquarius - 39; and Pisces - 38. Youth and middle age get 116 and 115 *bindus* respectively indicating that the subject is leading a life with no major changes. This is against his nature as a Gemini-born with Sun therein. He would be after variety. His ego will have to be satisfied and he should be heard and not dictated to, for his own welfare.

"The 2nd house has 33 *bindus*, 4th 32 *bindus* and 10th, 38 *bindus*, which promise a very happy and encouraging atmosphere at home, with his mother and in his office. But with Lagna having 27 *bindus* with the Sun in it, the subject is bound to be independent and self-willed in disposition. The Moon (Matrukaraka and Vaksthanadhipati) and Mercury (lord of 1 and 4) in 12 with only 19

In as much as the 2nd and houses have 33 and 32 *bindus* ctively, the over-bearing sphere in the family and the nce his mother exerts on him heir for his good—have fallen of ears. Note Libra Rahu in the intelligence) aspected by 6th Mars. Venus and Ketu ination has rendered him wife-sed. Hence there is a clash of nalities and ventilation of ions. The position of the n and Mercury in the 12th unts for his frustration and tist attitude.

"The remedy therefore lies in s realising the realities *vis-a-vis* iff nature and lead a balanced taking advantage of the enial atmosphere around him; (2) the people around (mother wife etc.) understand his nature adjust themselves by waiting him to come round voluntarily. h a situation, I am sure, would e to stay but after his 38th year ter Dasa)."

t Mars Alone

Reader S. S. Iyer of New Delhi is mistic about the chart, the all-rading influence of Mars withstanding.

"It would appear that the Bhava t is important in this case. cury would be in the first Bhava the Sun, Jupiter in the 5th a with Rahu, Saturn in the 7th a and Venus in the 12th Bhava the Moon. Mars is indeed d with all the *grahas* and the a either as sign dispositor or chatra or indirectly in some

Rasi: Gemini - Lagna 3-48 and the Sun 0-11; Virgo - Jupiter (R) 28-30; Libra - Rahu 6-26; Scorpio - Saturn(R) 29-4; Pisces - Mars 12-12; Aries - Ketu 6-26 and Venus 22-44; and Taurus - Moon 3-4 and Mercury 25-36. Balance of Sun's Dasa: 3 years, 1 month and 13 days.

"Mars is a malefic for Gemini Lagna. However, as Sloka 11 of Chapter XV of *Phaladeepika* says his Moolatrikona Rasi Aries, which is the 11th house for the native, would have to be taken into account in determining whether the effects of the 6th Bhava or those of the 11th Bhava would predominate. As the 11th lord in th 10th, he has to confer benefits such as prosperity in profession, assistance of elder brother in the profession, award of prizes for original work etc. In this respect, the opposition aspect of the natural benefic Jupiter on Mars is of significance even though Jupiter is also a malefic for Gemini Lagna. Mars acquires directional strength in the 10th Bhava. Situated as he is in the constellation of Saturn which is a partial Yogakaraka for Gemini Lagna, he is bound to give the native a status in life. The Moon in the 12th Bhava is indicative of the native's mother being noticeably eminent though the native has quarrels with her. The other Yogakaraka Venus in the 11th in Rasi and in the 12th in Bhava is a clear positive point.

"The minus points that have been cited are not attributable solely to Mars, but they are a result of the combined effect of the disposition of all the planets in the chart. The Dasas of Jupiter and Saturn, yet to come, could well be favourable to the native.

WORLD PREDICTIONS FOR 1992

(continued f rom page 237)

indicating that trade issues and the US insistence of India signing the nuclear non-proliferation treaty will continue to keep relations lukewarm at best. The Ascendants at Delhi and Moscow are Dwirdwadasa —a clear indication that Moscow's special friendship with India is all but over. India will be relatively isolated in most international organisations. A silver lining is that India and Israel are likely to re-establish diplomatic ties this year—a move that will benefit both countries.

The situation of Mars in the 9th house is disquieting. As lord of the 6th (internal and external enemies) his diposition in the house of Dharma points to anti-national forces creating tension and turmoil in areas involving religious institutions. The 9th lord is in the 12th from the 9th. People will forget the true meaning of religion and indulge in self-destruction. The courts are likely to get involved and the judges will become the targets of religious fanatics of all persuasions. The aspect of Jupiter on the 9th is a saving grace and will prevent the situation from becoming totally chaotic. The 10th house is well disposed hence though the present Government is likely to get destabilized the country will still plod along being sustained by the civil service. Though Venus is a Yogakaraka his lordship of the 12th indicates that secret plots will be made against the present leadership. It is upto the Prime Minister to nip such plots in the bud and to provide strong, impartial leadership. The aspect of the 9th lord on the 10th house indicates that moves will be made to form an informal alliance with a religious opposition party. This is likely to benefit the ruling party, the opposition party and the nation as a whole. *(To be continued)*

PLANETS, LINGUISM AND NATIONAL DISINTEGRATION

(Continued from page 172)

The Saturn-Mars conjunction (March 1992) takes place in the 5th (thinking) from the ruling sign of India and Jupiter, the planet of wisdom is in the 12th. These influences are capable of unleashing further disintegrating forces. There will be many chauvinistic manifestations threatening the integrity of the country backed by agitations. Alignment of linguistic and caste loyalties will become more pronounced. A sinister game may be played by the communalists who have to their credit or discredit the division of the country on the basis of religion. Regional loyalties will be encouraged and the "sons of the soil theory" is likely to assume ugly proportions unless thwarted by the Central Government by suitable legislation.

Only a strong Centre constituted by patriots and statesmen who are above the loyalties of caste, region and religion, can check the disintegrating forces and see that a strong India emerges in days to come. Students of Indian history must remember that whenever the Centre was weak, beginning right from the period of the invasion of India by the Islamic hordes led by Mohammad of Ghazni upto the establishment of the British empire, India has always lost her independence. The views of Communist and 'progressive' historians, bent upon making history 'secular' and misleading the younger generation must of course be ignored. The logical conclusion of the advocates of a divisive culture which is not in the interests of India, can go to absurd limits. Imagine a division of our own State into Lingayat and Vokkaliga majority areas. Then where would the West Coast districts, Kolar, Kodagu and Belgaum go?

The disintegrating forces inherent in Rahu's presence in Lagna in the Indian horoscope can be neutralised as the overall structure of the horoscope is inherently strong.

The greatest danger facing our country is the surrendering of political authority to a class of people who make and break the laws with impunity and who have no constructive ideas and whose one ambition is to grab and continue in power.

Abraham Lincoln, President of U.S.A. in 1858, is said to have made the following observation in the Amercian context:

"It presents to the whole family, of when the question whether a constitutional republic or democracy—government of the people, by the same people—can or cannot maintain *its territorial integrity against its own domestic foes* — a house divided against itself cannot stand."

If the leaders could show the way to moral integration, by example, by firm action in putting down fissiparous tendencies, and by refusing to compromise on principles in preference to expediency and by recognising the fact that the Hindu heritage is the greatest integrating force which in the past held, and which even today has been holding the country into one great nation disintegrating forces are bound to disappear.

It is not by asking the Tamilians to learn Hindi and Punjabis to learn Kannada, it is not by arranging Hindustani music concerts in the south and Carnatic music concerts in the north, it is not by imparting education in the mother-tongue, it is not by interdining, it is not by inter-marriage and it is not by misrepresenting Indian History that "national integration" could be achieved. It is the past history of India that can still be a cementing force. Shivaji was a pious Hindu. Krishnadevaraya was equally so. Their sense of justice and fairplay, tolerance and catholicity—all imbibed from ancient teachings—were so great that though orthodox in their personal lives they were absolutely secular and tolerant in their outlook. There were communities and castes even then. But communalism and casteism never came in the way of their administering the country justly and efficiently with a strong sense of fairplay and justice.

There has always been a synthesis, cultural and emotional, amongst all the Indians and it is for our leaders to reflect on how we can emulate our forefathers in making full use of these integrating forces which bind Indian to Indian irrespective of the State or caste.

MY EXPERIENCES IN ASTROLOGY

(Second Edition)

Dr. B. V. Raman

Serialised earlier in THE ASTROLOGICAL MAGAZINE this is a completely revised editon with an additional 14 chapters over the first.

Givers a graphic and touching account of the early life and childhood of the author, his collegiate education iIntiation into Astrology and the restarting and growth of THE ASTROLOGICAL MAGAZINE. Carries vivid details of discussions with scholars and the forays of the author into different schools of Astrology and predictions, sometimes marked by dazzling success and sometimes, by depressing failure.

An excellent guide and text book on not only natal but also mundane Astrology, a wide range of predictive techniques ranging from the village astrologer's to the sophisticated savant's are discussed in clear detail. Fifty-two charts cover a variety of cases — political, mundane, personal, Raja Yogas, Raja Yogabhangas and a host of day-to-day situations.

Hatha Yoga For All

Those who know Astrology can only indicate in a way what will take place in future. Who else, except the Creator Brahma, can say with certainty what will definitely happen?

The Mars - Saturn Conjunction and Earthquakes

GEOSCIENTISTS have, over the last few years, analysed huge volumes of earthquake data to discover many stunning facts of the earth's interior. They have found there is a e-mantle boundary with lofty ridges and deep "anti-continents" and "anti-oceans" of molslag; "rainstorms" of iron-filings pelting the and seething tumult within the insides. g held theories of the earth's interior have n set aside with geoscientists working on new s and by new methods.

The theory that the earth is made up of differmaterials arranged in static concentric shells de is no longer valid. The science of mology which arose in the 1900's has busied f with trying to understand the earth's interior h special emphasis on the origin and occurce of earthquakes. While some work has been e on the first part, not much can be said of its formance on the second judging by its woe- poor track record.

There are 3 crusts constituting the earth, seisgy tells us. A thin outer cover obtains at the ce. A second 3-layered crust comes next. The innermost crust which is said to form 55 per cent of the earth's diameter is believed to be made up of a solid metal ball at the centre (the size of the Moon) surrounded by a liquid shell of molten iron and nickel. That is as far as the structure goes. But what does seismology have to say about how and when an earthquake will strike ?

As to the how of earthquakes, the theory of the mechanism of plate tectonics is now widely accepted. According to it, earthquakes are primarily due to the *heavings and groanings* of the earth's crust, although some of these are said to originate from deep within the mantle. Giant crustal plates (plate tectonics) are driven by convection currents on a hot plastic mantle. When they move past each other rubbing against each other in the process or move away at mid-ocean ridges, they allow hot magma to well-up from below leading to volcanoes, continental drifts and earthquakes.

Original techniques of theoretically predicting powerful earthquakes are claimed by some Russian scientists. Studies of earthquakes of magnitude over 6 on the Richter scale have shown they occur at intersections of many abysmal frac-

tures. At the moment of a quake subsoil waters exhibit a sharp increase in the content of elements like helium, argon and uranium.

But every time there is an increase in the content of these elements, an earthquake need not occur which makes the business of earthquake prediction one of the toughest. The very fact that in spite of years and years of research running into crores of rupees not a single major earthquake has been predicted datewise or areawise with any degree of precision belies all the claims of modern seismology.

Many major earthquakes such as the Armenian earthquake 3 years ago or the U.P. earthquake of 1991 would not have led to such loss of countless human lives as they did, if seismology and its theories really worked.

Only once was an ideal forecast of the February 4, 1975 major earthquake of N.E. China made when an entire population was evacuated hours before the disaster struck minimising loss of human life to a mere 200 to 300 which otherwise could have run into hundreds of thousands in this densely populated area.

And how did the Chinese manage this prediction? They were able to do it by certain signals in laboratories but more particularly by peculiar animal behaviour. During the earthquakes, the Chinese have found out, there is an increased release of electricity in the bowels of the earth which instruments can register. But they find signals from domestic animals are more reliable. Hours before an earthquake strikes, chickens panic, pigs refuse to enter their pens and horses and sheep run around in a mad frenzy. Tigers at the zoo show extreme restlessness, pacing up and down their cages.

The Chinese radio warned the people of another quake but could not give sufficient advance warning when it struck on 28-7-1976 registering 8.2 on the Richter scale. It killed lakhs of people.

'It is now being accepted amongst western space and other scientists, that space technology can be used to forecast seismic disturbances. Satellite observations have shown that due to the interaction between the magnetosphere and the ionosphere, powerful currents are generated which constitute a single electrical system embracing the entire near-earth space. Using the current system, the kinetic energy of the solar wind—the plasma flux ejected from the Sun—can be pumped into the thermal energy of the upper atmosphere. These processes lead to various geomagnetic disturbances which affect the earth and its beings as well as its interiors in different ways. They are also said to generate cyclonic and anticyclonic winds at the polar regions. The ejections and winds from the Sun and their intensity are influenced by planetary movements.

It is a commonly known fact that solar activity peaks up and down in a 11-year cycle which is closely related to Jupiterean movements. Jupiter, in turn, is influenced by forces generated by the endless orbittings of planets around the Sun forming different angles and aspects not only with the Sun but also with one another.

This theory of planetary movements influencing earthquake activity finds mention in Varahamihira's *Brihat Samhita*.

Mihira quotes others and their theories in Chapter 32, Sloka 1 when he says:

क्षितिकम्पमाहुरेके बृहदन्तर्जलनिवासिसत्वकृतम्।
भूभारखिन्नदिग्गजविश्रामसमुद्भवं चान्ये ॥

meaning, *some sages hold that an earthquake is brought about by huge animals living in the waters of the oceans (or, shall we say cyclonic forces) while others declare that it is the result of the* heaving *of the elephants of the quarters that are tired by the weight of the earth.*

The quarters are the directions or space and could imply disturbances in the atmosphere due to planetary forces (unknown, rather unseen). The use of the term *heaving* is quite surprising because it fits in with the theory of tectonics where the huge plates are said to groan and

According to theories advanced by the Insti- of Space Research of USSR Academy of ces, the solar energy impinging on the atmo- re results in geomagnetic disturbances which the earth's equilibrium in different ways. what can अनिलोऽनिलेन mean but this?

The Russians have also discovered that during hquakes large-scale waves and inhomoge- es originate in the ionosphere. This is said to ue to the impact of acoustic waves on the sphere. They have also found that during the of spacecrafts near seismic regions, the on- d equipment registered specific electromag- noise. Do we see a parallel in the lines

पतन् सस्वनं *(falling to the earth with a boom- sound)?*

According to Parasara,

उद्भिज्जमतः परं भयमपनयाम्यनिलानला-
न्धरतिमदभिसृष्टाः कम्पाः कदाचिज्जगति
जैताहितवेदिनो भविष्यन्तीत्यर्कचन्द्र
ग्रहजग्रहविकृतचारजांश्च कम्पानाहुः ॥

meaning, *this shows that earthquakes are caused by eclipses of the luminaries, unnatural phenomena occurring in the planets and special movements of the heavenly bodies.*

It is very clear here that earthquakes are stimulated by planetary alignments, eclipses and major phenomena of the planets. We can classify these factors as:

1. Conjunctions, oppositions or mutual aspects of the major planets Mars, Jupiter and Saturn. These planets assuming direct or retrograde motion are also important phenomena. Aspects with Rahu or Ketu are also important.

2. Eclipses of the Sun and the Moon.

3. New and Full Moon days.

Any one, two or all three factors may be present at the time of an earthquake.

Earthquakes can be astrologically anticipated with considerable accuracy but they cannot be controlled or prevented. Therefore, knowing when an earthquake is likely to occur can help prevent loss of life by evacuating on the anticipated dates people living in those regions. Where the location is known, we can pay attention to buildings by choosing the right materials, design and sites and thereby avoid damage and destruction to property. Buildings, if they cannot be avoided in the region, can be built in such a way as to be able to withstand the effects of vibrations. This may initially necessitate spending large sums of money but in the long run will prove a wise course of action. For example, Concepcion, a little town in Chile, has been thrown upside down 5 times in its lifetime. But each time, it has been patiently and painstakingly rebuilt. After a major quake in 1939, buildings were legally required to be built according to certain specific structural codes. When a series of 5 quakes struck the town again in 1960, thanks to the planning and designing of buildings, there was practically no damage to the buildings constructed under the earthquake code. On the contrary, warnings of earthquakes

in Alaska were ignored by local builders and the 1964 earthquake knocked down the whole city. Japanese engineers have so designed buildings and structures in the earthquake-prone Tokyo, they are expected to withstand future earthquakes.

Many international and other organisations in Japan, Europe and U.S.A. have set up exchange research laboratories for earthquake studies, concentrating on earthquake prediction and methods of minimising loss of life and property. **Yet earthquakes have always succeeded in catching scientists unawares, striking at places and on dates least expected.**

Earthquakes in ancient times were treated as portents of events in the six months after their occurrence. Earthquakes striking under different Nakshatras were classified and specific results attributed to them.

An earthquake occurring in Uttaraphalguni, Hasta, Chitta, Swati, Punarvasu, Mrigasira and Aswini was said to come under the wind. Its symptoms were to be seen a week before and were: Smoke covering the quarters, strong winds throwing up dust and breaking trees and the Sun shining not too brightly.

Its results were: Destruction of crops, water, forests, herbs, outbreak of boils, inflammatory problems, asthma, lunacy, fever, diseases coming under phlegm, trouble to traders, dancers, warriors, physicians, women, poets, musicians etc.

The area affected by such an earthquake was given as 200 Yojanas.

When an earthquake occurred under Pushya, Krittika, Visakha, Bharani, Makha, Poorvabhadra and Poorvaphalguni it was said to come under the fire-circle. It was indicated a week before by falling stars and meteors, outbreaks of fire. Its results were: Destruction of clouds, drying up of tanks and lakes, outbreak of herpes, scabs, fever, jaundice, tensions between rulers and trouble to men of valour. This earthquake was said to cover 110 Yojanas.

The 3rd type was known as Indra's circle and was identified by the earthquake falling in Sravana, Dhanishta, Rohini, Jyeshta, Uttarashadha and Anuradha. This kind was portended by cloud-formation in the shape of mountains, thunder claps, lightning flashes, heavy downpour and swarms of bees and serpents being sighted. Its results were said to be the ruin of men of celebrated families, famous persons and important men. Dysentery, swelling of the throat, facial diseases and vomiting were other results attributed to it. Indra's circle was said to cause tremors upto a distance of 160 Yojanas.

The last kind called Varuna's circle covered the Nakshatras Revati, Poorvashadha, Aridra, Aslesha, Moola, Uttarabhadrapada and Satabhisha. This kind of earthquake could be anticipated by light rainfall from huge clouds resembling blue lilies and bees. It would lead to death of those working on or dependent on the seas and rivers. It would also cause excessive rains. It would foster friendship between people.

Earthquakes that repeated on the 3rd, 4th or 7th day or at the end of a month, fortnight or 3 fortnights could lead to destruction of important monarchs.

Let us try to analyse the recent Uttar Pradesh earthquake and see if any of the factors enumerated by Parasara combined to trigger that major seismic disaster.

The earthquake occurred at 2.53 a.m. (IST) on 20-10-1991 striking the north-eastern region of Uttar Pradesh. The Uttara Kashi District was the worst hit although the quake spread as far as down to Shahajahanpur.

ere there any major planetary phenomena about October 20, 1991 ?

(a) Saturn turned direct on 5-10-1991

(b) Mars and Saturn formed an exact square on 17-10-1991 at 8 degrees Capricorn.

There were no eclipses about this date.

The New Moon occurred on 7-10-1991 at 27h. 9m. (IST).

ne of the conditions required for an quake was fulfilled when Mars and Saturn ed an exact square aspect 3 days before the quake.

the chart cast for the New Moon (Chart 1) ew Delhi, the Ascendant Leo has the mis- ng presence of 2 natural benefics, Jupiter Venus.

The 4th house is important as it rules property, agricultural and residential. It also rules e and its members. The 8th house rules sters, death, destruction and major calami-

n earthquake of major magnitude is always mpanied by much destruction of life and erty highlighting the importance of the 4th 8th houses in this context.

n Chart 1, the 4th house is Scorpio hemmed either side by natural malefics, Rahu and . The 4th lord Mars is in the 12th from the 4th cted by malefic Saturn in mutual aspect. can be taken as an indication of a major nitous occurrence in the country.

Mars and Saturn, major malefics, formed an t mutual aspect on 17-10-1991 after the New n. So, the period of the particular lunar th from 7-10-1991 to 6-11-1991 could be ted as a vulnerable period. Another worthy factor, even if a minor one, was that Moon conjoined only malefics for the greater of the month until his transit into Leo. He oined in order Mercury on the 8th, Mars also e 8th, Rahu on the 15th, Saturn on the 16th and Ketu, much later in November. The Moon was therefore loaded with malevolent stimuli in that particular lunar month.

Therefore, the week covering the Mars-Saturn exact square assumed particular significance. The square occurred on a Thursday and the quake struck in the early hours of Saturday. The week-day ruler Saturn was under extreme affliction from the square.

We shall try to see if the factors we have identified in the Uttar Pradesh earthquake can be applied to predict a similar occurrence in the near future. We begin by looking for any major planetary phenomena in the next few months.

1. The Mars-Saturn conjunction occurs on 6-3-1992.

2. No eclipses occur about this period.

3. A New Moon occurs on 4-3-1992.

A major conjunction and a New Moon take place in the first week of March 1992 which would make it a seismically active period.

The Mars-Saturn conjunction takes place on 6-3-1992 (Friday) at 23h. 22m. (IST).

The New Moon preceding this conjunction occurs on 4-3-1992 at 18h. 52m. (IST) and the planetary positions for it at New Delhi are as given in Chart 2.

The Ascendant Leo is in a cuspal degree (29-09) with Jupiter in it. It is strongly aspected by the Sun, Moon and Mars.

The 4th house, Scorpio, is free of planets. Its ruler Mars is in the 6th with Venus and Saturn.

Mars and Saturn though with Venus are flanked on either side by malefics Rahu and the Sun. The sign involved is earthy.

The New Moon occurs on a Wednesday and the conjunction on a Saturday which can therefore mean, a heavily afflicted weekday lord. Tuesday, the 3rd March before the New Moon can be a potential day for the disaster as the weekday lord Mars will be moving to a conjunction with Saturn. Friday, the 6th and Saturday, the 7th of March after the conjunction can be high risk dates in terms of major seismic activity. Further, Venus who is the 3rd lord is also heavily afflicted by Mars and Saturn as well as the Papakartari Yoga. Therefore, the earthquake expected astrologically in the wake of the Mars-Saturn conjunction may cause much destruction in the neighboring country of Pakistan also along the seismically prone belt in this region.

In the charts cast for the new year Prajotpatti for India and Pakistan, the 8th houses come under a Papakartari Yoga while the 8th lords are in the 12th from the 8th with Rahu. That the Mars-Saturn conjunction of March 1992 takes place in the 8th house both for India and Pakistan is of significance to both these countries.

An examination of the Independence charts of India and Pakistan can confirm the earthquake.

In Chart 3, the Dasa is of Venus and the Bhukti of the Moon. The Moon is the 3rd lord, weak in the 3rd with Venus and both planets are in the 12th from the 4th. Therefore, this is another pointer to the occurrence of an earthquake in India. The focus of the earthquake shifts to the 3rd house indicating relatively less loss of life and property. Since the 3rd house shows neighbours, the destructive potential of the quake may be greater in Pakistan.

In Chart 4, the Dasa is of Venus and the Bhukti is of the 4th lord itself, the Moon, who is enfeebled in the 4th. This can indicate heavy loss of life and property in Pakistan, following a major earthquake of high magnitude on the Richter scale.

A prediction regarding an earthquake, its location and date is a feat seismology cannot perform. Astrology, in the majority of cases, succeeds to a fair extent in this area and therefore is worth exploring by every responsible government.

Variation in regard to the date, area or the very occurrence itself of the calamity should not lead to derisive comments from the scientific community. **Science, in its own area, has stumbled *ad infinitum* before pitching in even to a close approximation to the correct answer. Science should know better that modern techniques, although they have their virtues, do not provide answers to all the problems facing humanity, least of all natural calamities like earthquakes, typhoons, tempests, volcanoes etc. In all fairness to Astrology, its methods must be respectfully and humbly approached to help prevent human suffering and loss. Orthodox science and officialdom should not be the reasons for a callousness that could cost countless human lives.** Measures, preventive and others, taken can lessen deaths and destruction that would otherwise trail an earthquake, clues to which Astrology can offer with better accuracy than seismology can.

mple Technique

Reader Ajeet Pandey of Jhansi thrilled with his successful prediction using Prasna. He writes "While at Gwalior a young man who came to me wanted to know if he would be successful in the medical entrance examinations. I took a chart for 1.15 p.m. (IST) on 8-3-1991 for Gwalior with the following positions:

"*Rasi:* Leo - Ascendant; Sagittarius - Rahu; Capricorn - Moon and Saturn; Pisces - Mercury; Aries - Sun; Gemini - Mars, Venus and Ketu; and Cancer - Jupiter.

"All types of competitive examinations come under the 5th house. Here it is occupied by Rahu and its lord Jupiter is in the 12th house, the house of loss. The 5th lord is also aspected by malefic Saturn. But Yogakaraka Mars and Venus aspect it while the Ascendant lord Sun is exalted in the 9th house. I told the man he would not get admission in M.B.B.S. due to 5th lord Jupiter being in the 12th. But the aspect of Mars on the 5th could not be ignored and would show he would get into the veterinary or dentistry courses. What was my amazement when I met the man again in October. He had not been selected for M.B.B.S. and had joined the veterinary college. The Prasna methods are indeed marvellous."

A Transmutation

A despondent parent, reader N. K. Prakash, of Calcutta writes Saturn (R) in the 5th house spoiled his son's career totally although both he and his wife tried hard to make him study. He says "My son passed secondary school in 1987 but after that has not been successful in any exam. Will you be kind enough to give me a solution in this matter?"

Born 21-11-1970 at 8.30 a.m. (IST) at Calcutta.

Rasi: Sagittarius - Ascendant; Aquarius - Rahu; Aries - Saturn; Leo - Moon and Ketu; Virgo - Mars; Libra - Venus and Jupiter; and Scorpio - Sun and Mercury. *Navamsa:* Cancer - Ascendant; Leo - Sun; Virgo - Mars; Scorpio - Saturn and Rahu; Sagittarius - Mercury; Pisces - Venus; and Taurus - Moon, Ketu and Jupiter.

The Ascendant lord Jupiter is well placed in the 11th. This by itself assures a good future. The 10th house has Vargottama Mars with Digbala. That takes care of a successful career. But the question is one of the time when these indications will show up. The next Dasa is of the Sun who is well placed in the 12th with 10th lord Mercury. The 10th and 12th lords have exchanged signs and in one sense it is a Dainya Yoga. If the Dasa is good, as will be that of the Sun, the Dainya Yoga can get transmuted into a Yoga for opportunities from overseas. The 10th lord Mercury in Scorpio and Mars in the 10th can give an aptitude for medical or para-medical studies. Since Mars is involved in strength with the Dasa lord Sun, the chart is bound to bloom as Sun Dasa begins in mid-1994.

Muhurta Elements Ignored

Reader Rajkumar of Allahabad is unable to figure out why he lost many valuable papers and some rings on a journey which he undertook from Kanpur to Banasthali in Rajasthan. Nor was he able to achieve his objective for which he made the journey. "Why did this happen in spite of Lagna lord Venus in exaltation, as also the 8th and 11th lord Jupiter; if you attribute it to the position of 12th lord Mars in Lagna, what role did Jupiter, Venus and Saturn play?" he asks. I was on 8-3-1991 in the evening

(In this feature, unusual and interesting events that occur in day-to-day life will be discussed astrologically. They may be about anything—birth, marriage, accident, sport, career, art, farming, weather, animals and the list is endless—so long as it is different from the monotony of life. and the chart furnished by our reader is as follows (The journey began at 10.45 a.m.):

Rasi: Taurus - Ascendant and Mars; Cancer - Jupiter and Ketu; Scorpio - Moon; Capricorn - Saturn and Rahu; Aquarius - Sun and Mercury; and Aries - Venus.

Reader Rajkumar seems to be blissfully unaware of the elements of Muhurta or Electional Astrology. A strong Ascendant and a vacant 7th house are imperative. Malefics are taboo in the Ascendant. And pray what was the *tithi?* It was Ashtami, bad again. The birth star being Krittika, the Nakshatra ruling on that date being Jyeshta, it was a Naidhana Tara. The Panchaka works out to 4 or Raja Panchaka showing adverse results.

At least was the 3rd house showing the journey rendered strong? The aspect of Saturn on the 3rd house, Ketu there and 3rd lord Moon being aspected by Mars are all adverse. But Jupiter in the 3rd even if afflicted, and his influence on the 3rd lord Moon did help in that, at least our reader did not suffer a major accident which Mars in the Ascendant could easily have led to.

Mars, the Planet of Mischief

(*A.M.*, October 1991)

The Dynamic Planet

Reader K. Narayan of Delhi is so distressed by the reference to Mars as the planet of mischief, he takes up cudgels on behalf of him. Writes he "Generally Mars is degraded as a mischief maker, a dreaded planet. It is not that Mars is all bad. There is both good and bad to him. Position, aspects and location determine the characteristics of Mars in that particular horoscope. If it is unafflicted and receives favourable aspects, it gives courage, daring, heroic deeds, self-confidence, dash in life, muscular strength, determination, ambition, quickness in decision-making, swift action and see things are through to their successful conclusion.

"Army and police are governed by Mars. In Hindu mythology, Mars is the god of war, Mars gives all the qualities needed to enable a person make a mark in the military career to reach the coveted top rank. The planet by itself or those conjoined with it in the horoscope give an idea to find out the exact line he would get into.

"Mercury and Mars give proficiency in mathematics. Especially for intelligent, hard-working students, well-placed Mars enables one to get excellent marks in any examination. Mars is Sama Gana Priya. So, a benefic Mars helps the budding aspirant to get top status in the music world.

"A martian will have beautiful handwriting. Nobody can defy a martian. However much his opponent may try, he cannot win over a martian in argument.

"I give below the horoscope of a middle aged martian.

"*Rasi:* Sun 9s-4-24; Moon 5s-24-46; Mars 7s-18-19; Jupiter 0s-14-15; Mercury 9s-11-11; Venus 8s-10-29; Saturn 0s-16-25; Rahu 5s-13-37; Ketu 11s-13-37; and Lagna 7s-15-29.

"Lagna is Vargottama Scorpio with its lord Mars in his own house. In Amsa, Mars is in Sagittarius aspected by Jupiter from Leo. Mars neither aspects nor is aspected by any other planet.

Usually martians will be rash, rough and tough and talk in a loud and a hoarse voice. But in the present case, the man is calm, measured in his speech. His Saturn is in Aswini. There is a Tamil saying *Sani Aswini yil irundal ayal nattu vasam* meaning, if Saturn is in Aswini star, the native will live in a foreign land. He is employed in a good job, drawing a fat salary, owns a house and car, is well mannered. Everyone covets his friendship. He respects elders and is of a devout temperament.

The Vaideeswaran Temple is situated in a place named after the presiding deity of the place near Kumbhakonam in Tamil Nadu. At this temple, there is a small *sanctum sanctoram* for Mars. Daily pooja at this temple is offered to Mars, not to lord Vaideeswaran. Anybody suffering from any disease declared incurable by top doctors is cured by Darshan of these 2 deities. Salt and pepper are offered to the deities. Their diseases get cured quickly. Especially those suffering from coms in any part of the body find easy cure by offering salt and pepper at this temple. I think I have said enough about the good qualities of Mars to rebut the critics."

There is Progeny

Reader Changal Kannan of Madras concentrates on the question of children.

"The Karaka for children Jupiter in Virgo gains strength being Vargottama. The 5th lord aspects the 5th and its occupant fortifying the Bhava. The aspect of Mars on Jupiter is not as evil as it is thought to be. On the contrary he is good as 11th lord because (a) he is in the

of Jupiter in a fertile sign (b) he is in Uttarabhadrapada e lord Saturn is the 9th lord in a house of Mars. The nction of Ketu with Venus is ineffective as the two are in 11th Bhava.

The Lagna lord and Moon-sign spected by Jupiter. The native der Rahu Dasa, Venus Bhukti 2-1-1993. Rahu is in the 11th the 7th (wife). Therefore his fic effect is not strong. So a is possible before the end of s Bhukti. Or, certainly, durupiter Dasa, Jupiter Bhukti."

Reader G. K. Borkar of napur thinks "Fortune favours brave where Mars is strong" in support quotes a Leo Ascent case. But then, the chart given reader Satyanarayana is of a mini Ascendant!

rnessing Mars cessary

To reader Purushottam Lal ari of Vidisha, Mars has many s points. It is only afflictions to planet that cause the negative ects to show up.

"Mars in the 10th gives one rgy and enterprise, force and rage and good executive ity. One will be well qualified captain any industry or conduct business especially when Mars n a movable sign. The native l succeed best in martial upations. Mars in watery signs ws Navy too. The 10th house movable signs shows movement m one place to another.

"But in the present case there a number of minus points as n by Mr. C. Satyanarayan in his essment. He blames natural efic Mars.

"On my part, I see Mars afflicted cause he is in the constellation of retrograde Saturn, the 8th lord. Such afflicted Mars is the constellation lord of Lagna lord Mercury. Therefore the native should exhibit excessive ambition, arrogance and incur disfavour. For other minus points afflictions to the concerned houses, lords and Karaka planets are responsible. The role of natural malefic Mars is secondary.

Mars, connected with Mercury, Jupiter and Saturn with the 1st, 6th, 9th, 10th or the 11th houses, either jointly or independently is good. Here (a) Mars is the lord of 6 and 11. He is in 10th. He is in the constellation of lord of 9. (b) the Saturn is lord of 9. He is in constellation of lord of 1: (c) Jupiter is lord of 10. (d) Mercury rules 1. He is in the constellation of lord of 6 and 11, *i.e.*, Mars when in the 10th.

"Entry into politics can be by adopting unfair means also and this is quite common in Indian politics. The native can try to use afflicted Mars and the current Dasa of Rahu (in the constellation of Mars) to help him."

Much Potential

"Mars has been blamed as having spoilt 6 Bhavas. No doubt the aspect of a natural malefic Mars on these Bhavas is a negative feature. But if we analyse here, Mars is well placed and has been made to lose much of his malefic nature and thus his aspect on the concerned Bhavas is not totally discouraging.

"Mars occupies Jupiter's house and is aspected by retrograde and Vargottama Jupiter, the sign lord and thus the position of Mars is rendered strong. Jupiter's benefic rays have mellowed the malefic Mars.

Mars has 6 *bindus* in his Ashtakavarga and is placed in Pisces which has 38 *bindus* in Sarvashtakavarga. The house lord Jupiter has 6 *bindus* in his Ashtakavarga. Thus the position of Mars is good from all angles. Mars is in the 10th sign but 11th Bhava both from the Ascendant and the Moon, a good one to occupy for a natural malefic. Texts praise a good Mars in the 11th as clever in speech, wealthy and valiant. Being in a friend's house is good for getting favours from friends. There is a good Guru-Mangala Yoga involving auspicious houses which confers ministership, presidentship of an organisaton etc."

"Mars' aspect on the 5th Bhava gives the native a sharp and analytical mind. Being the 11th lord and aspected by Dhanakaraka Jupiter helps the native get riches. His good aspects to the Lagna may give a dynamic and dashing nature. Mars has the 7th lordship from the Moon and thus becomes a benefic.

"Mars and Jupiter are lords of the 9th and 10th from the 10th house and their relationship has given rise to a powerful Raja Yoga to the house of profession and this is relevant as the native is due to start his Jupiter Dasa from 1996. As per Jaimini, Mars aspects Lagna and has Venus in the 2nd and the Sun in the 4th and is thus involved in a Subha Argala Yoga of the above average order. The native's childlessness is mainly because of Rahu in the 5th and Jupiter, Putrakaraka, shifting to the 5th in Bhava chart. If at all the native has unhappy marital life it is because of malefic retrograde Saturn occupying the 7th Bhava in a cuspal degree and in an enemy's house to boot.

How to Forecast World Events

W. J. TUCKER, D.Sc., PH.D.

The pattern of coming world events is clearly indicated in the changing courses of the planets as they progress through the signs of the zodiac; but in order to demonstrate certain of the facts to the student, it is advisable to consider the action of each of the major planets as they have effected history in the past. We shall therefore begin our study with Neptune.

Neptune's influence, of course, imparts a communal flavour to the mass psychology of the nationals ruled by the signs it may be affecting in any given epoch. It is claimed by some astrologers that Neptune represents democratic political movements; but to this author it has always seemed certain that Neptunian 'democracy' is by no means the freedom-loving kind. Communism, for example, claims to be ideally democratic. But those who believe in individualism and in freedom of the individual will hardly find communism scanning with their idea of what a democracy should be. This is a fact which becomes all the more apparent whenever Neptune comes under affliction.

In B.C. 4 the first conjunction of the Sun with Neptune in the sign of Sagittarius occurred at 0°. First let us note that Sagittarius has Jupiter as its sign ruler, and that the main influence is concerned with the Spiritual Power. Thus the principal feature of a transit of Neptune through Sagittarius is the production of Spiritual Reformation or the emergence of a great religious movement. And as B.C. 4 happened to be the year of birth of Jesus Christ, heralding the coming of Christianity, the indication can be clearly seen.

In the years A.D. 237-8, Neptune began to enter the sign of Gemini; and Gemini, be it noted, is the sign ruler of Nuremberg, the hinge of the Holy Roman Empire, as well as the sign-influence of political intrigue. In fact it was this period which brought about the decline of the Holy Roman Empire. Those were the years in which Maximinus crossed the Alps with a starving army which turned on him and slew him! Five emperors, in all, were slain during A.D. 237-8 before the revolution was completed; and after the fifth had been disposed of, no one was bold enough to upset the army again. Army soviets held the power until Neptune passed out of Gemini and Docius became Emperor upon the entry of Neptune into Cancer.

In the last decanate of the ninth century, Neptune was passing through Taurus, the sign ruler of Great Britain. The Danish Conquest of England had just been completed, ratified in A.D. 884 by 'Guthrum's Fryth', whereby the Danes acknowledged the overlordship of Wessex which was ruled by Alfred, the Great. Alfred, throughout this transit of Neptune through Taurus, founded a great English democracy with codified laws. And when he died in A.D. 900, just as Neptune was entering Gemini, he left England "at a height of prosperity and security such as no other land enjoyed".

In A.D. 1148 Neptune began to enter Sagittarius, and this transit again witnessed a revolution in Christendom. Pope Lucius II attempted to suppress the revolution led by the ecclesiastical reformer, Arnold of Brescia, and was assassinated. Then, on the entry of Neptune into Sagittarius came Adrian, a strong, resolute, fearless man who was completely convinced of the theory of the papal supremacy as propounded by Pope Gregory. Adrian thereupon confronted the commune with the full courage of his convictions and frightened them into expelling Arnold. And during the closing years of the transit of Neptune through Sagittarius a great pestilence raged among the armies of the 'enemy of the Church', thus shattering the last menace.

In 1862 Neptune began to enter the sign of Aries. This transit brought about the *Rise of Japan*. This was the creation of a *New Power* (unrecognised at the time) in the Far East.

In 1901 Neptune began to enter Cancer; and since Cancer is the ruling sign of Morocco, we expect to find that country particularly implicated. Thus it was in 1906 that the Moroccan question came to a head in the form of the Conference of Aligeciras in which all the powers (including the U.S.A.)

ipated. It saddled the Moors the French.

n 1915 Neptune began to enter and, as previously mentioned, ever Leo is activated we t to find the Latins involved. this period saw the establish- of Fascism in Italy—the rise ussolini—when Neptune was ing the middle of the sign.

n 1929 Neptune began to enter —the sign ruler of Germany. l be remembered that in 1930 Nazis, led by Adolf Hitler, se- d over six million votes at the ral election and became the nd strongest party in the stag. In 1935, when Neptune ed at the middle of the sign, r became supreme and Na- l Socialism in Germany was *accompli.*

So far we have only been sidering the actual sign through ch Neptune may have been sing. But we must also pay tion to the sign *opposite* to the transited by Neptune.

It will be noted that while tune was transiting Leo een 1915 and 1929, the planet s simultaneously *opposing* arius—the ruling sign of Russia. as this factor which brought t the Russian Revolution in and introduced Communism at country.

While Neptune was transiting o between 1929 and 1942, es- shing National Socialism in many, the planet was simulta- sly squaring Sagittarius (the n ruler of Spain) and installing sm (another name for Com- ism) among the Spaniards.

Power, authority and autocracy ear to be the prime movers of influence of *Uranus*—a planet which also gives impulsion to science. The Uranian effects on the mass-mind are apparently of a cohesive nature, admirably adapted to constructive reform, bureaucratic building, mass-organisation, and authoritarian welding. The nation under its influence manifests a resolute attitude, bent on assuring its independence, through revolution if necessary, and by war if threatened.

In the country under the Uranian influence, scientific achievement often reaches a high peak—as witness the coming of the Atom Bomb with Uranus in the sign of Gemini (sign ruler of the U.S.A.).

From 1844 until 1851 Uranus was in the sign of Aries (sign ruler of Japan). Now it was round about 1846 that Komei, the Mikado of Japan, first began to make apparent his resolution to resist the pressure of the Western Powers. Thus this was the period when Japan first conceived imperialistic notions and began to marshal her resources in order to resist Western expansion. The Shogun was impelled, through force of circumstances, to merge his policy with that of the Mikado.

Between 1851 and 1858 Uranus transited Taurus (sign ruler of Great Britain) and it will be noted that the power of Britain spread during those vital years as an authori tarian, imperialistic regime. The battles of Alma, Balaclava and Inkerman were fought in 1854, peace being negotiated in 1855. Then in 1856 occurred the Arrow Incident in China, resulting in war between Great Britain and China for the purpose of securing concessions. In 1857 the Indian Mutiny broke out, ending in 1858 with India acquired as another great colony. Within these self-same years, too, the colonies of the British Empire were given a large measure of autonomy on parliamentary lines. In short, Britain was resolute in her policy, but amenable to domestic pressure requiring her to concede self-government along approved lines.

Between 1859 and 1865 Uranus was transiting Gemini, the ruling sign of the United States. Thus the American Civil War was fought out within this period, and in 1865 the political union of the American nation was an established fact. Slavery had been abolished, and the mandate of Washington ran throughout the United States.

Uranus transited Leo during the years 1870 to 1878; and Leo is the sign ruler of the Latin races. In 1870 the Franco-Prussian War began, and the Second Empire ended when Sedan fell. Paris was besieged. Rome was occupied by royalists and became the capital of Italy. Under the same token, the Pope became "prisoner in the Vatican". Paris capitulated in 1871. But, though crushing terms were imposed on the French, and though Alsace and Lorraine were taken from them, the effect was to cause a regeneration of the French nation. The people became filled with a burning resolve to live for the day of revenge. If Italy achieved unification as a result of the tribulations of the French, it is nevertheless true that the French achieved unification also—as a result of the fire which glowed in the heart of every Frenchman.

Between 1878 and 1884 while Uranus was transiting Virgo, Berlin was making the headlines. The

Germans inaugurated the transit with the Berlin Congress in 1878 granting treaties which gave Serbia, Montenegro and Roumania complete independence. But in so doing the Germans took magnanimous delight in carving up other people's domains in ways suitable to German ideas of justice and policy. Berlin was even magnanimous towards France, encouraging that country to annex Tunis at the expense and annoyance of Italy.

From 1890 to 1898 Uranus travelled through Scorpio, and should accordingly have affected Africa. The first thing we notice, as Uranus began the entry to Scorpio, is the Anglo-German treaty delimiting spheres of influence in Africa. Whereupon a great change came over the peoples of the Dark Continent who, like China before them in the preceding seven years, resented the foreign penetration. In South Africa, for example, the crisis came to a head with the Jemeson Raid in 1895; and we observe that in 1898 the Sudan, too, had to be reconquered. Note that Great Britain was primarily concerned with the African moves. This naturally follows from the fact that when Uranus is transiting Scorpio, the planet is simultaneously *opposing* Taurus (Britain's ruling sign). The South African War, which began in October 1899, was the logical outgrowth of these prior movements occurring during the transit of Uranus through Scorpio, stirring up the independence and resolution of the Africans.

Between 1927 and 1935 Uranus journeyed through Aries, and again it was Japan's turn to feel the influence in the familiar manner. To define the way in which Japan was affected, it is necessary to mention one word only: *Manchukuo!* The history of Japanese imperialism, and Japanese aggression, beginning with the creation of Manchukuo is too fresh in the memory of us all to fail to realise what was stirred up by this transit.

To round off the survey of the transits of Uranus, the student should take note of the effects which follow whenever Uranus conjoins Saturn. For this major conjunction naturally presages a period of extraordinary events of special character.

Between August 1851 and March 1852 Uranus conjoined Saturn in Taurus. And the significant event which occurred during the period 1851-2 was the proposal made by the Russian Tsar Nicholas, to Great Britain, to divide Turkish Empire between their two nations. Nicholas failed to realise that the British were convinced that the Russian design was to secure Constantinople as a base for future operations against India. Therefore the Tsar's proposal had the reverse effect to what he had intended. It put Britain on the side of the Turks.

To appreciate the full significance of the above-described effect, let us return to the period of the recent war. During 1941 and 1942 Uranus was conjoining Saturn again in Taurus (the zero point of the conjunction occurred on May 3, 1942, but the power of the gathering conjunction was first felt in the summer of 1941). It will be remembered that in the middle of May 1941, Rudolf Hess flew to Britain; and it has since been revealed that the motive for his flight was to persuade the British Conservatives a coalition with Germany for an attack on Russia. The Nazis were counting upon the hatred of communism and the hostility to Russia which British Conservatives had for years openly expressed. What the Nazis failed to realise was that the eyes of the British people were fully open to all forms of Nazi trickery. The proposal therefore had the reverse effect to what was intended. Britain warned Russia of the German designs, and thenceforward was on Russia's side!

Saturn—called Khronos by the Greeks—is the Keeper of the Time. Artists delight in depicting him as Old Father Time, complete with Hour-Glass and Scythe—an idea suggestive of the Grim Reaper. Because of this representation it is all too seldom realised that the true function of Saturn is that of Sower.

"As ye sow, so shall ye reap" applies to Saturn's effects in full measure; and it should be more generally realised that because more cockle than wheat is frequently produced, the fault does not lie with Saturn. For Saturn's influence will yield choice fruit for the just with equal facility. The racketeer procures a harvest of his own choosing.

"Two pounds of wheat for a penny, and thrice two pounds of barley for a penny, and see thou hurt not the wine and the oil" is Saturn's injunction. The prescription will determine the resultant harvest.

Hence we have to study the double effect of Saturn: (1) as the Sower and (2) as the Reaper. For the fruits yielded as a result of the planet's action often cloak the seeds of a new sowing which is taking place simultaneously.

The effects of Saturn's influence most plainly apparent when- he comes into conjunction or in opposition to another or planet.

urn
onjunction Neptune

Whenever this conjunction urs its influence favourably cts the country or countries d by the zodiacal sign in which two planets are conjoining. For ample, in 1882 the Neptune- urn conjunction occurred in urus; and as Taurus is the ruling n of Great Britain we expect country to be favoured, just as expect countries ruled by the posite zodiacal sign (in this case, orpio) to be *unfavourably* ected. Scorpio, of course, is the ling sign of Africa. Thus in 1882 e sands of the Hour Glass ran out d caused Britain to attack and throw Arabi Pasha. This they d after bombarding Alexandria. t in doing this the British sowed od seed. For, in the public inter- t, they had on their sole respon- bility undertaken to carry on a k which other European nations mitted was necessary but which ey shirked. Therefore, though it as tempting to annex Egypt, the itish did not do so. They 'occu- ied' Egypt on the understanding at they would evacuate that untry immediately it possessed permanent and secure self- vernment. Then, as a first step wards the reconstruction, the itish set about the task of organising the Egyptian army.

aturn
pposition Uranus

Whenever Saturn opposes Ura- s, the cleavage of political opin- ion usually becomes even more pronounced than in the case of the conjunction, and revolts break out in countries ruled by the signs from whence the planets are opposing.

Thus, for example, in the year 1874 Saturn in Aquarius opposed Uranus in Leo. The effect was a revolt of the peasants of Herzegovina against the Turks.

Again, in October 1918, the opposition of Saturn-Uranus occurred in the same two signs, but from reverse directions. That is to say, Saturn was then in Leo, with Uranus in Aquarius. As a result, the Slavs caused the collapse of the Turks and Bulgars.

Saturn Conjunction Jupiter

Under The influence of this conjunction the Old Order of things generally breaks up and a New Order begins. Passing evils usher in a period of greater expansion and development.

In the year 1881 Saturn conjoined Jupiter in Taurus. As a result, the Boers of the Transvaal rose against the British ( ) at Majuba Hill. But the British happily recognised the justice of the Transvaal claim of independence, in spite of Majuba, and granted the retrocession.

In 1901 Saturn conjoined Jupiter in Capricorn, Turkey's ruling sign. German influence with Abdul Hamid, the Turkish Sultan, was supreme, and Germany was authorised to build the railway to Baghdad and Basra. But the Old Order in Turkey was now about to depart, and the 'Young Turk' Party now came into being.

In 1921 Saturn conjoined Jupiter in Virgo, Germany's ruling sign. The effect of this was to make Germany declare herself bankrupt. The Old Order passed out of Germany as a result, and the way was paved for the subsequent development of Hitlerism despite the fact that the passing evil made the powers realise the necessity for economic revival.

Saturn Opposition Jupiter

The opposition of Saturn to Jupiter usually precipitates an economic blizzard; or, because of economic compulsion, causes countries to become envious of the trade, or presumed prosperity, of their neighbours. A period of great stress for countries implicated by the signs across which the opposition aspect is thrown, is indicated.

As an example, the following is offered:-

In 1930 the Saturn-Jupiter opposition occurred across Capricorn-Cancer. This precipitated an economic blizzard in India. India began to seethe with unrest. The psychological state of the masses in that country provided an ideal cradle for Indian nationalism. Business was paralysed. Outbreaks occurred at Peshawar and at Sholapur. 23,000 people were put in prison in Bombay alone.

Uranus Conjunction Jupiter

The conjunction of Uranus with Jupiter always originates new freedom movements as the following examples will show:

In 1900 the conjunction of the two planets occurred in Sagittarius, the sign ruler of Australia, originating the movement in that country to establish a Commonwealth.

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

In 1914 the conjunction took place in Aquarius, the sign ruler of Ireland, and originated the movement in that country to establish Home Rule.

In 1927 the conjunction occurred in Aries, the sign ruler of Japan. This originated the Geneva Conference to discuss the limitations of naval armaments. But the conference proved abortive. Cause: Japan; because Japan, as a result of this conjunction in Aries, and her own idea of what a freedom movement should be. In fact she made that idea sufficiently obvious to cause the U.S.A. to suspect her true intention and to seek security in expanded naval building. We have since seen how right American suspicions actually were.

In May 1941 the conjunction occurred in the sign of Taurus, leading directly to the historic meeting of the leaders of the allies in St. James's Palace on June 12th 1941. This was the origin of the movement to establish world freedom—in a year which had laid the foundation for the Atlantic Charter.

Uranus Opposition Jupiter

The function of this opposition aspect is to force reforms long overdue, or to accomplish revolutionary movements. The form of revolution is usually bloodless, but Uranus is prepared to destroy existing institutions if resistance is encountered.

In 1907 Uranus opposed Jupiter across Capricorn-Cancer, and under its influence the Young Turks demanded the long-promised Constitution.

In 1920 Uranus opposed Jupiter across Virgo-Pisces, and under its influence German troops marched into the Ruhr, ostensibly to quell communistic disturbances here, but in reality to consolidate the position of the German Military Party.

We have now considered all the great conjunctions and oppositions which really matter. For the term of such conjunctions covers a span of time sufficient to make a deep impression on the mass-mind as a result of sustained application.

Such minor configurations as Mars conjunct Pisces or Mars conjunct Saturn are of very short duration, and the impact of their influence on the mass-mind is not sustained; and unless a nation is on the brink of a movement (resulting from the action of a more powerful configuration) there is little reason to suppose that any perceptible effect on the mass-mind will be produced.

Saturn produces his own individual effects when transiting each zodiacal sign; and in this connection it must never be forgotten that he is the Sower as well as the Reaper. The nation(s) governed by the sign he is traversing is put under test and called upon to render an account of its stewardship. If the nation has multiplied its talents, good seed is sown again. But if it has buried its talents instead, Saturn carries out the reaping process and disposes of the cockle.

Jupiter also produces his own impress when traversing each of the zodiacal signs. He blazes a trail of prosperity as a rule—except when under affliction. The national mass-mind becomes mellower, more liberal, more philanthropic. The time is ripe for social reform.

Mars has a transitory effect on individual countries when traversing the signs, for it tends to impel a community to action along any lines which may be brewing as a result of the influence of a greater configuration. If a crisis is working up, Mars is apt to explode it. But you would certainly fail to trace any independent action attributable to Mars alone. Mars acts in concert or in combination with other planetary configurations, or not at all.

Within the limitation of the available space we have endeavoured to set forth a comprehensive statement of the leading principles and features of Mundane Astrology. The treatment has necessarily had to be somewhat sketchy, but, as before mentioned, Mundane Astrology is a subject of tremendous scope and incapable of exhaustive treatment within the framework of two articles. Consequently, what we have here able to offer can only be considered as an introduction to the subject. FOR-7-49 ●

he Astrological View f Life and Death*

, GOPALANKUTTY MENON, M.A.

Much time and thought have n spent by philosophers, an- t and modern, in trying to trace the truth about Life and Death, two unsolved problems which ever perplexing the human in- ct. Let us here approach these blems through the road of As- logy.

2. All things, it is supposed, are festations of astral energies cted together. Their differences end upon the different propor- s in which the energies com- e.

ana

3. To elucidate a little further, Sun is the central planet in the r system. Around it move the r planets, being powerfully at- ed by and towards it. The Sruti s say that from the Sun spring special kinds of rays called mas', a particle of which, if fallen a molecule of matter, makes it ble of drawing into it six other ecules to form a single unit. All characteristics of the Sun are t in every speck of a ray. A ecule takes in the qualities of Tarana which falls on it. Then it s towards itself six other mol- es, just as the Sun does the n and the five Taragrahas.

4. Thus the solar force mingles with other astral forces giving rise to manifold creation. But it is to be observed that, of the astral energies, prominence always belongs to the solar and the lunar ones.

5. Man too is a combination of these astral forces. His distinguishing feature is that in him alone the constituent astral energies have very nearly attained perfection.

A New Interpretation of Karma

6. The astral forces in us endeavour to establish bonds with our environments. In so doing they undergo modifications. Their effort to establish bonds is called Karma and the modifications are the Karmaphalas—the fruits of Karma.

Happiness and Misery

7. Sukha or happiness is that state which an individual experiences when there is harmony and no conflict among the component astral forces. Full Moon and Jupiter are the planets that contribute most to that state.[1]

8. But there are also rays that conspire to break the harmony and bring discord. These belong to Saturn. Saturn is verily a rebel planet. He is jealous, as it were, of the strong union of the various astral forces. His influence mercilessly begins to split and separate from one another the well-united astral knots. Then occur experiences that are not palatable. These are diseases, pains and sorrows. Hence the reason for describing Saturn as 'Rogasokadikaraka'.[2]

Laziness

9. It is but natural that the astral energies, when their mutual attachment is loosened, cannot possess the same capacity (which we may, with profit, divert through the channel of any work) as when they remain tightly knit together.

Thus attention diminishes, and the interest in work is lost. The individual feels indifferent. Rightly, therefore, is the Karakatva for sloth and laziness ascribed to Saturn.[3]

* The views here are presented are taken e Chapter, "Janmaparamparamarsa" in maprakasika.

1 "मिथः संघट्टनमुत्सृज्य यथोचितं वर्तमानेषु ज्योतिश्शक्त्यंरोष्वनुभूयमाना दशा सुखमित्युच्यते । यत्पुष्टिकरौ तु पूर्णेन्दुजीवौ ।"

2 "तथापि सन्ति केचिदंशवोऽशुभाः, ये परस्परैक्यं रलथतां नेतुं सुतरां प्रयदन्ते । ते हि मन्दसंबध्निनः । ज्योतिश्शक्तितन्तुबध्नदाढच विदारणाय निर्दयं प्रहरत्सु सूचग्रतीक्षणशनैश्चरकिरणगणेषु याः पुनरवस्था जायन्ते, ता एकक्लेशा व्याथयो व्यथाश्च व्यपदिष्टाः ॥ "

The Karakatva of Theft

10. We have already seen that Saturn attempts to cause separation between the astral energies, the fundamental constituents in an individual. When things belonging to a person are separated by theft, or when one's near and dear relatives or friends are parted, it may reasonably be inferred that Saturn, the planet responsible for all sorts of separation, is again the originator of such theft or parting (Caurya-viyogadhikaraka).

Poverty

11. Health is that state where the astral energies are well balanced or equipoised. Saturn who brings about diseases by disturbing the equilibrium of the energies and thus wrecking health, keeps the individual aloof from wealth which, if spent on nourishing food, may be conducive to health. This accounts for the Daridryakarakatva of Sani.

The Meaning of Death

12. Life ends and death results when Saturn becomes successful in completely breaking the cords that bind the astral energies as a group. If the strength of Saturn is not much, disintegration of the energies will take place only after a considerable length of time. So, the validity of the astrological law that 'while prosperity of every Bhava increases or decreases with the strength of the respective Karaka, the duration of life indicated by the eighth Bhava is inversely proportional to the potency of Saturn.[4]

The Astral Energies—Their Order of Combining for Creation

13. The solar energy does not itself first combine with the energies of the five Taragrahas, but only after uniting with lunar energy. In other words, the solar energy, being associated with the lunar one, mingles with rays of the Taragrahas and then accomplishes creation. We are here reminded of the Vedanta passage which declares that Paramatman cannot create anything in the absence of Maya and of the famous line in Sri Sankaracharya's *Soundaryalahari*, "Without Sakti, Siva is incapable of action". Exponents of Astrology identify Paramatman or Siva with the Sun. And Maya or Sakti is none other than the Moon. To sum up, the two foremost forces—solar and lunar—mix to form a single power which, afterwards, becomes the sole substratum for the combination, progress and decline of the astral influences of the Taragrahas. That is why we are told that the 5th and 9th Bhavas in the horoscope (whose Karakas are the Sun and Moon) can supply us with all particulars relating to one's past and future births.

Rebirth

14. Body is the visible development of the collective astral energies. When it is destroyed, that visible growth alone comes to an end. The energies still remain in an invisible form in which are minutely inherent the Karmas, Vasanas and Samskaras. After death, the invisible combination of astral energies, being strongly attracted by a similar combination in a living individual, a combination possessing almost identical qualities, falls into that individual's Garbha and takes birth again. The innate seeds of Karmas and instincts slowly develop, and the whole story of life is repeated.

The Astrological Conception of Moksha

15. If the astral energies forming the invisible federation mentioned above are fully devoid of the particles of Karma (which serve as connecting links between them) they get themselves dissociated from one another, and regain their original positions, namely the respective planetary spheres. This, in a nutshell, is the astrological conception of Moksha.

16. The Vedantins stress that Saama and Daama are the two main trails essential for Moksha. Saama is the process of diverting the mind from the senses, and Daama is detaching the senses from the external world. Mind is made up of the lunar force, and the senses are constituted by the rays of the Taragrahas. So, what is meant by practising Saama and Daama is only disconnecting the bonds of the lunar force from the astral energies of the Taragrahas, and of these latter energies from worldly things.

e Mokshakarakatva f Saturn Explained

17. When the fruits of Karma and worldly experiences are favourable, we feel unhappy. This e of unhappiness breeds in us a oughful disposition. What for is s life, if deprived of joy? We ask selves this question a thousand es. Life always has endless sor- ws in store for us. The best way to oid sorrows is to avoid births. So e yearn to annihilate life for ever. this manner Duhkha[5] (grief) leads Tatvajignasa (an enquiry as to the h to overcome grief) which in turn es us to Vairagya that ultimately culminates in Moksha. We may, therefore, conclude that Moksha is the delicious fruit of cultured grief. Thus Saturn who bestows grief bestows also Pravrajya (renunciation) and Pralaya (liberation).

The Attainment of Moksha

18. When Vairagya reaches its climax the ties of astral energies are weakened, and at the moment of death they break. The energies of the five Taragrahas first sever their mutual connection, and get back to their former abodes, the planetary planes. This fact is in agreement with the Vedantins' theory that as soon as the Mukta departs from the world, the Samskaras (which are acquired through the five senses and the five elements whose Karakas are the Taragrahas), and which have begun to decay since the dawn of Vairagya, leave the soul to which they cling, though loosely, until the body falls. What remain are the united energies of the Sun and the Moon. Of these the solar energy now exerts its supremacy and entirely overwhelms and dissolves the other one, and then vanishes into the region of the Sun. With this we may compare the position of the Vedantins which is as follows: Maya (the lunar force) entangles Atman (the solar force) only so far as the point of exhaustion of the Vaasanas (the particles of the astral energies of the Taragrahas), Atman absorbs Maya into himself and is free, when the Vaasanas are spent.

Predictions Through Jaimini's Chara Dasa — IV*

K.N. Rao I.A.A.S.

India's most ambitious men live in Delhi and for the success of whatever they undertake they do not mind not merely consulting but even exploiting astrologers. The late Sitaram Jaipuria once told me that he made use of astrologers for effective liaison work. But there is something much worse. Except Dr. Raman and Sri Hardev Sharma Trivedi, sensational political predictions with or without basis is the common feature of Delhi's political gossip. Sonia Gandhi will leave India by July 1991; there will be total collapse of Congress government in less then hundred days of its swearing in (I am writing this on the one hundredth day of P.V.N.Rao's Govt. on 30th September); the names of different prime ministers are floated and astrologers, whatever their motive, are willing to join in the big business of Indian politics in a most vociferous way.

The fact is what Kanchi Shankaracharya told me in October 1986: Political predictions can not be correct more than fifty percent of the time. I would say, considering the poorest quality of research done in mundane Astrology by Delhi astrologers and the absence of the right horoscopes of those top leaders as cause swings in Indian politics that it is less than thirty percent.

The recent astrological mania in Delhi and around in the nearby states is to predict the fall of a leader on the basis of the Dasa or Bhukti of the Atmakaraka. The success of a chance prediction is paraded as proof of their astrological understanding of Jaimini.

For years I have worked on the problem and I find it difficult to accept it as an infallible maxim. Then again there is another problem. When Mahadeva stated it as an aphorism did he refer to Jaimini Dasa or Vimshottari? So the best is to examine both ways and leave it to readers to draw their final conclusions: I can give only conclusions at the end, my conclusions.

Pandit Nehru was in jail for some part of his Moon Dasa, his Atmakaraka (A.K. hereafter), and towards its end headed the interim government to become the first ever prime minister of independent India. But Nehru was arrested in earlier Dasas of Sun and even Venus. The Dasa of A.K. was actually significant for his rise in life. The next Dasa of Mars, his 10th lord was the best of his life.

I have deliberately started with the horoscope of Queen Elizabeth whose Dasa of A.K. Mars was over in 1990 because in my research the fall of the Queen in the Dasa of Mars, or her voluntary relinquishment of her throne in favour of her son

A.K. - Mars; Amk - Venus; B.K. - Moon; M.K. - Mercury; P.K. - Sun; G.K. - Saturn; and D.K. - Jupiter.

Prince Charles would have been a most appropriate astrological test because when Mahadeva wrote his *Jataka Tattwa* there were no elected governments in India and he must have referred to the fall of kings or nobles.

In Chara Dasa, the Dasa of Makara containing A.K. or of Mesha from where A.K. is in the 10th are also over.

Obviously, the principle given in such an aphoristic way in *Jataka Tattwa* has to be looked into more deeply. So I tested it on more than one hundred horoscopes from various walks of life and through some instances being shown here, it will become easy to draw some conclusions.

Given below is the horoscope of a governor of a state. Incidentally he was also the prince of a state which merged into the Indian Union after independence.

A.K. - Mars; Amk - Mercury; L - Moon; M.K. - Venus; P.K. - iter; G.K. - Sun; and D.K. - Saturn.

Now contrasted with the horo- pe of Queen Elizabeth it strikes eye—the difference. In her case Atmakaraka is exalted and is ected by Saturn whether it is asari or Jaimini aspect in this e. In this case the A.K. is debili- d. But two differences may be iced that in the Queen's case s has extreme exaltation while his case there is extreme debili- on. The second difference is that e Mars is in Gandanta. *So I have necessarily make the exception the Parasara rule that a debili- d 3rd lord is as good as not ng applicable.* Interestingly, the asari adage of Rahu in Mesha ng excellent proved so in this e but being with Venus cannot tinue to be good as I write this Sept. 1991).

In Chara Dasa also the contrary sible. Towards the fag-end of from where A.K. is in the 10th became a governor.

I will now discuss the horoscope of a famous politician of his time who was literally down and out in 1978 when I met him first and got his authentic horoscope.

It was the period of Mercury then, his A.K., and most of the astrologers had written him off politically. But I insisted that he would progress inch by inch.

At the beginning of Saturn Dasa he joined politics and had so meteoric a rise that his enemies had to increase. This position he retained till the beginning of Mercury Dasa. As soon as Mercury-Ketu came he fell and except some spasmodic successes it was a dismal story of failure. In Navamsa Mercury is debilitated. But when other astrologers insisted that Ketu would be bad also I differed and said that there will be some prestigious rehabilitation in Ketu-

Mars. Here Mars is exalted in Navamsa and he did get back into an important post then.

So the question worth asking is if A.K. debilitated in Navamsa proves to be the period of fall as it did in the 2nd case when debilitated A.K. in the birth horoscope gave no chance of staging a recovery.

Cases 2 and 3 are comparable.

The next horoscope is of a very gentle and unassertive politician of a state who never did anything spectacular and was generally liked.

His political career actually became noticeable only in the Dasa of his A.K. Mercury. Otherwise in the earlier period of Saturn he had done very well as a lawyer but the

lure of politics changed his life.

There can be many explanations why the Dasa of Mercury which is his A.K. proved so good for him.

(a) It is his 9th lord joining in a big Raja Yoga with the 10th lord, Moon in the Bhagyasthan.

(b) It is Vargottama.

(c) It forms two Jaimini Raja Yogas by being with Putrakaraka Moon and Darakaraka Saturn.

(d) Those who claim to have made correct predictions on the basis of exalted and debilitated planets in Dasamsa should notice that in Dasamsa Mercury is debilitated and it did no damage to his career.

(e) Obviously the Navamsa position of a planet is more important for prediction than its Dasamsa position which can be used as cor-

roborative and not the sole basis.

When the Kanchi Shankaracharya told me (he told the present governor of Andhra Pradesh, Sri Krishna Kant also) that astrological predictions about politics will be wrong fifty percent of the time I accepted it as words of wisdom for many reasons, one of them being that there is no sound research in mundane Astrology. Only Dr. Raman's and Mr. Hardeo Sharma Trivedi have been able to maintain so high a percentage of correct political predictions because of their better understanding of classical principles of Astrology unlike the mushroom forecasters who have neither assimilated classical Astrology nor have any consistency. Some of them have told me that they are able to tell the correct number of seats a party would win astrologically. Some of them have passed on to me "authentic" horoscopes and asked me to predict. I refrained from doing so. But they persisted with their own predictions and when one such man wrote recently something about the P.V. Narasimha Rao government, one M.P. took out photostat copies of his predictions and distributed it among the M.P.'s in the central hall (in August 1991). Then another M.P. took out the photostat copies of his earlier disastrous predictions and distributed them !

But this astrologer keeps off merrily reeling off his political predictions!

Therefore let us proceed with humility, instead of inviting so bad a name for Astrology as these astrological upstarts whose horoscopes do not show any high predictive ability (I have them), keep rattling off.

Look at some of these instances:

(a) Indira Gandhi became most powerful as prime minister in the Dasa of her A.K., Saturn, fell in Saturn-Ketu, came back in the middle of Saturn-Venus but was shot dead in Saturn-Rahu.

(b) Rajiv Gandhi lost power in Rahu-Mercury and Mercury is A.K. but his A.K. so excellently conjoined with other benefics still made him India's most powerful ever leader of opposition. It was not a fall in the accepted sense of the term. But he died in the Rahu-Mercury period like his mother.

But when the maraka period comes, one dies whether it is the Dasa of A.K. or not.

For Maraka certain other rules are to be made applicable.

I examined the horoscopes of some high placed bureaucrats and found the results of A.K.'s Dasa equally baffling. A horoscope of an I.A.S. officer is described here: Rasi - Lagna in Sagittarius with Saturn in it, Capricorn has 3 planets Mars, Mercury and Sun (A.K.), Aquarius has Venus, Aries has Rahu and the 6th house has Jupiter and the 8th house Moon in his own house with Ketu in the 11th house. He was born on 11-2-1950 at 4 a.m. I.S.T. Ludhiana with a balance of Saturn of 10 years 9 months 20 days.

He went on getting his normal promotions. I gave him many predictions one of which was that he would have lot of earnings in his Sun Dasa from abroad which neither he nor his wife could accept. He became an expert in oceanography and started international consultancy while in the meantime he was denied his promotion to the post of [illegible] ment in Sun-Jupiter period. After taking voluntary retirement he has earned so much that he does not know how best to invest it! Was it a fall? Or was it a period of prosperity though he was denied promotion? I know of many other cases when promotions were denied and A.K. had no role in it.

In another case of a man in legal profession a very significant change came in his career in the sub-period of his A.K. when he changed from one post to another with tremendous financial benefit and also enhanced status.

All that can be said that the period of A.K. is worth watching. But predictions about it must be done as in the case of any other planet after assessing its potentiality to do good or evil, ignoring its A.K. status, perhaps.

A.K. in Sagittarius

One of the favourite tricks of astrologers is to seek an explanation for their failures behind a classical principle which they may have not tested themselves. Now one of the best explanations is that if A.K. is in Sagittarius or if the Karakamsa Lagna is Sagittarius there will be "fall" as stated by Jaimini rishi. Now what does fall mean? It can mean, let me say from experience, any of three things:

(a) Fall from a height physically, fall from a high position from a hill, from a top floor of from an aeroplane etc.

(b) It can mean sudden death from such diseases as cause sudden death.

(c) It can mean assassination or violent death.

But this is not coming correct in all cases if it is applied as a

The Rationale of Planetary Aspects

R. KRISHNAMOORTHI

The earth has a very strong netic field covering the entire be from the North Pole to the th Pole (Fig. 4). The magnetic d is in two layers, one over the er. The heights of the layers, at equatorial region are 5600 km. d 9600 km. respectively. The sity of these magnetic fields in area is far less than the density e Polar regions and this allows powers from the planets to penate through it. The magnetic ds also rotate along with the th. This momentum gained by magnetic fields due to rotation ers a differential treatment to the wers penetrating through it.

(1) All planets send their power rough the magnetic field at use 1.

(2) The powers trying to penate the hemisphere containing uses 8, 9, 10, 11 and 12 are opsed by the motion. Let us call s *Right Side*.

(3) The powers trying to penate the hemisphere containing uses 2, 3, 4, 5 and 6 are aided by e motion. We will call this *Left* e.

The penetration of power conced in the shortwave harmonics ough the magnetic field depends the thrust the power makes d the angle at which it is made. thrust, in turn, depends on the ength of the planets and the distance travelled by them to reach the surface of the magnetic field. In short, the thrust on the magnetic field depends on the physical properties of the planets of our universe.

(1) All planetary powers enter the magnetic field in the first house without any difficulty.

(2) The powers of the inner planets *viz.*, Sun, Mercury, Venus and Moon, are able to penetrate and reach upto the 5th house on the *Left Side* and the 9th house on the *Right Side* as they are very near the earth.

(3) The powers of the outer planets Mars, Jupiter and Saturn fall at an inclined angle opposing the motion of the magnetic field on the *Right Side*. According to Astrology, the Mars-power reaches upto the 8th house, the Jupiter-power reaches upto the 9th house and the Saturn-power reaches upto the 10th house. The thrust of the outer planets, while opposing the motion of the magnetic field appears to be inversely proportional to its distance from the earth.

(4) When the powers of the outer planets enter the magnetic field on the left side, there is no opposition to it. The Mars-power reaches the 4th house, the Jupiter-power reaches the 5th house and Saturn-power reaches the 3rd house. In this condition, the penetration and travel within the magnetic field appear to depend on the size of the planets as also their distance from the earth.

It is obvious therefore that the thrust of the power decides the aspect of the planet. The size of the planet has the property to increase the thrust. The distance of the planet has the property to reduce the thrust on account of the natural loss of power due to propagation through space.

Thus the 2nd part of the *sloka* clearly enunciates the potentiality of Mars to afflict the planets in the 4th and 8th houses, Saturn to afflict the planets in the 3rd and 10th houses and Jupiter to control the malefic planets or augment the goodness of benefic planets when they are in the 5th and 9th houses from it.

If there are no planets in the 4th or 8th house from Mars, the 3rd or the 10th house from Saturn and the 5th or the 9th house from Jupiter, the powers of these planets actually get wasted in space. However, the branch of power which enters the ionosphere at the 1st house will have its own propagation pattern over the various house divisions as envisaged in the 1st part of the *sloka*. This is the standard pattern of propagation within the atmosphere after having entered the ionosphere from outer space.

After the entry of powers into ionosphere, the propagation of shortwave and microwave harmonics coming from various planets take a common pattern which is different from propagation in space. As long they remain in space beyond the ionosphere they do not have the capacity to instantly pervade the entire space as there is no media assisting the powers to follow that type of propagation. They

are simply present in the same pattern as they come from the planet.

But when they enter the earth's atmosphere after crossing the strata of ionosphere with the aid of the undefined subtle powers from the Sun or the Moon or other planets, the powers contained in the harmonics instantly pervade the entire atmosphere of our earth at the speed of light and become omnipresent. However, the main concentration of power remains in one segment of our ionosphere and the power from it propagates through the atmosphere in a definite pattern. This propagation pattern virtually is in consonance with the theory of aspects as enunciated in the first part of *sloka* 13, Chapter 2 of *Brihat Jataka*. The behaviour of the harmonics, while traversing in space and propagation through atmosphere after its entry into ionosphere, makes a sea of difference. The power that instantly pervades the entire atmosphere contains so little strength that it does not have enough impact to be called an astrological influence. The main concentration of power which confines itself in a particular segment of the ionosphere contains the strength for real astrological influence.

The entry of celestial power into the ionosphere and their propagation through the atmosphere is explained below.

The theory of planetary aspects enunciated in the *sloka* has a sound scientific basis. It is a bit complicated too. This is actually an explanation as to how a planetary power behaves after entry into our ionosphere. So it is essential for us to have a combined basic knowledge of the behaviour of electromagnetic waves during their transit through various strata of our atmosphere and the potentiality of the ionosphere and atmosphere in causing refraction, attenuation and fading of electromagnetic waves. I give below an outline of the properties of electromagnetic waves and the potentiality of the atmosphere. This discussion is based on certain assumptions which have not yet been proved beyond doubt scientifically.

(1) The ionosphere is a thick shell of electrically charged particles forming a shield to the entry of electromagnetic waves from space. Only those electromagnetic waves which are incident, perpendicular to the tangent at the point of entry on the ionosphere can penetrate through the ionosphere. The electromagnetic waves which fall at different angles to the tangent are reflected back into space. This mathematical constraint stipulates that a planetary power can have entry into the ionosphere only at a point equivalent to the astronomical latitude and longitude at which the planet is located, etc., If Jupiter is at Cancer 22° N 18' the power of Jupiter can enter the ionosphere only at the corresponding point Cancer 22° N 18' on the ionosphere. Its entry is barred at other points on the ionosphere.

(2) My assumption is that a planet, at a certain location, constantly sends its power into the ionosphere, so long it remains at that particular astronomical location. The planets send very high power in terms of wattage of power as the planets have very strong magnetic fields of their own. I assume the power to be many thousand times the power that can be artificially generated. This is commensurate with our general knowledge that all natural forces are colossal.

(3) Due to the continuous flow of colossal power from planets, the ionosphere gets charged with the power of that planet. The electrically charged particles of the ionosphere do not allow the power to spread in all directions through the strata known as ionosphere with the result, the continuous flow of power from the planet becomes highly concentrated at the point of entry and forms a ring of concentration along the magnetic layout of our terrestrial magnetic field *i.e.*, the planet forms a concentrated power ring around our earth passing vertically over the North and South Poles of our earth. The ionosphere has the property to hold the ring of concentration in that position. This is the main power concentration circle of that planet. Due to continuous flow of power from the planet, the concentration of power gradually descends towards the earth, propagating through the various strata of the atmosphere.

(4) The atmosphere immediately below the ionosphere does not have any electrically charged particles and the atmosphere as a whole is slowly rotating along the direction of the earth's rotation. The main concentration ring of power gradually descends to the earth's surface due to continuous bombardment from the planet and is slowly being carried away in the direction of rotation of the earth.

(5) The atmosphere is nearly 130 km. thick over our earth. So the distance covered by the ring of concentration to reach the earth's surface on the same side of its entry

ly 130 km. By the time it nds down it is carried away the point of its entry. During eriod the power is subjected raction and attenuation. With esult only 75% of its input entration reaches the surface away. This is known as 4th of planet and is said to con- 4 power as per the *sloka*. On rface, at the 60th degree 25% is power becomes incident t the 120th degree the main entration reduces to 50% and er beyond, the power fades This is known as the 3rd and spects.

This ring is in the same of the power-entry-point and continuous flow of colossal , the ring gives out 100% nce on the surface of earth e other side. This is known as h aspect of the planet in gical terminology.

Due to the slow rotation of the atmosphere, this concentrated ring on the other side of the earth also is being carried away along the direction of rotation of earth. The ring, then, travels through the 8th house, 9th house, 10th house etc. As the ring moves away from the plane of the main ring of power it gradually loses its concentration. Thus only 75% power will be available at the 210th degree, 50% power at the 240th degree and 25% power at the 270th degree from the point of entry. These are depicted in the above - mentioned *sloka* as the 8th house aspect of 75% power, 9th house aspect of 50% power and the 10th house aspect of 25% power.

Thus the house divisions 1, 2, 6, 11 and 12 are not influenced by a planet while the other houses are influenced by varying degrees according to the *sloka*. This pattern of concentrated ring and subsequent propagation through atmosphere is common for all planets without exception. Thus the rules of power propagation laid down in the first and second parts of the *sloka* do not contradict each other.

In the case of an opposition, a planet will be located at some point in the zodiac while the other planet will be exactly opposite to it in the zodiac separated by 180°. Each planet will be creating a power ring of its own with subtle power. The ring of power will cover the 7th house aspect. The planet at 180° away will also be creating a power ring of its own in the same planet. Thus the power rings of both the planets join together perfectly within our ionosphere. Thus the combined effect of both the planets will be felt as per the *sloka*.

A perfect opposition can be deemed to be existing if the separation is exactly 180° or 180° ± 10°. If the separation is more than ± 10°, then the grade of coupling between the opposing planets becomes weak and at ± 15° they behave independently and there will be no opposition coupling effect. — 117.91. ●

PREDICTIONS THROUGH JAIMINI'S CHARA DASA

general rule to the native himself. Let me, to avoid taking too much space give birth particulars and mention A.K. or Karakamsa and it may be tested by those who are interested in doing this research.

(1) Male: 1-11-1902, born 4-30 p.m. Lucknow. Saturn as A.K. is in Sagittarius, Vargottama. So Karakamsa is also Sagittarius but there was neither a fall nor a violent or sudden death. He died in the middle of 1976 a peaceful death.

(2) Female: 3rd July, 1898, Sitamarhi, at 8.0.52 p.m. I.S.T with Mars as A.K. in Aries in Sagittarius Navamsa. She died on 26th November 1982 a peaceful death.

(3) Male: 22-4-1892 2.57 p.m. Delhi with Mars in Sagittarius Vargottama. He died on September 28th, 1977.

(4) Male: 26-10-1908 at 6.5 a.m. (local time) Calcutta with Venus as A.K. in Simha and in Sagittarius Navamsa. He died in October 1980 of heart attack.

(5) Male: 14-9-1905 11.11 a.m. Delhi with Sun as A.K. in Sagittarius Navamsa. He died of heart attack in january, 1972.

I have worked on fourteen different Dasas of Jaimini with varying successes in them and can now say confidently that about nine of them have given the higher percentage of results. In all these Dasas what I have observed is that in the major or sub-periods the results given by Jaimini seem to manifest. An interesting corollary to this principle is that I have seen people making careers in Sagittarius Dasas. Sagittarius as Kodanda Rasi must bestow position of authority to allow someone to attain a position of height. There can be a fall only when one has reached a height. See four contrasting examples from the same family.

(a) Pt. Nehru has his A.K.,Moon in Sagittarius Navamsa but he died of an illness, not suddenly.

(b) Indira Gandhi has her A.K. in Cancer (Saturn) with Capricorn Navamsa and she died a violent death.

(d) Sanjay Gandhi has his A.K.(Venus) in Libra and Taurus Navamsa and he died a violent death.

(d) Rajiv Gandhi has his A.K.(Mercury) in Leo and in Sagittarius Navamsa but he died a gruesome violent death like his brother and mother, unlike his grandfather.

But I have seen in all cases of violent death some common features in Navamsa, Drekkana and even in A.K. whether or not Atmakaraka or Karakamsa is in Sagittarius or not.

Yet I have seen repeatedly that Sagittarius Dasa in Jaimini is a period of rise and also of sickness. Very few astrologers will apply triple check before predicting such events. The triple check must be first through Vimshottari Dasa, then Jaimini's Chara or any other Dasa like Sthira or Nirayana Shula Dasa, Brahma Dasa or Padanadhansa Dasas and finally the Kal Chakra Dasa to clinch it. — 106.91 ●

Chart 3 is of a pathalogist. Mars is the natural significator of blood, marrow and viral problems.

Mars is prominent in Chart 3, not only signifying a medical career but also the area of specialisation. Jupiter influences the Lagna strongly showing work in the teaching faculty also.

Ketu's involvement shows osteopathy, of Saturn, orthopaedics. Jupiter gives skills in rheumatology, general health or can make one a diabetician also. Venus and the Sun show ophthalmology. The Moon's presence in a distinct sense shows specialisation in children's ailments and such natives excel as pediatricians. Mars and Venus influencing 10th house factors show gynaecology, obstetrics and allied areas of work.

Involvement of Venus and the sign Taurus or Libra can show dentistry, cosmetology and if Mars is also involved, it can indicate plastic and cosmetic surgery. Signs,

houses and planets involved in different ways can narrow down the range of specialization.

The significators of different organs can show specialization in that particular region of the body. Against this generalization we can study with profit the chart of an eye-specialist whose missionary zeal in serving people has lead to the growth and development of an Ophthalmology Complex in the sprawling metropolis of Madras.

For a man whose motto is *'Work is Worship'* what could be more appropriate than being born in Aquarius Ascendant. The Aquarian is the classic water-bearer, quenching the thirst of parched throats. The Sun in Aquarius Ascendant is said "to produce idealists and reformers, knowers and friends of men". And Dr. Badrinath of the Charitable Medical Research Foundation at Madras is every bit a typical Aquarius with the Sun there. Tall and imposing in appearance, he has that serious look of dedication which is the hallmark of the Aquarian. Engaging and intensely humane, Dr. Badrinath knows his work well and where his ideals lie. The 10th house is Scorpio aspected by Jupiter. The 10th lord Mars is in Aries, his Moolatrikona sign with Lagna lord Saturn. The Full Moon influences the Ascendant. The Sun in the Lagna joins Mercury giving the native a rare talent for dealing with optical problems.

The Medical Research Foundation in Madras is Dr. Badrinath's brainchild. Carefully conceived it is nurtured and fostered by a team of dedicated doctors and specialists. One of the best places in the world for eye problems of every description, the Sankara Netralaya is the hospital wing of the Foundation catering to the optic needs of endless streams of patients from an infinite variety of backgrounds. Named after the great Advaitin missionary, Sankara Bhagavatpada, the whole place spills with efficiency and order.

The Medical Research Foundation was founded in 1978 with the main objective of building a modern ophthalmic complex. This goal has been achieved and with credit as a visit to the Foundation and its various wings will prove. The C.U. Shah Ophthalmic Post- Graduate Diploma Training Centre here trains medical students for Post Graduate Diploma in Ophthalmology and Diploma of the National Board of Ophthalmology Examination besides imparting specialization in different fields of Ophthalmology.

A look at the chart (Chart 4) of Dr. Badrinath, the founding father of the complex, will not be out of place if we are to understand the birth and growth of the Foundation.

Born with Aquarius rising with the Sun and Mercury in it, Dr. Badrinath is academically highly qualified with specialisation in laser technology in the treatment of eye-conditions. Mercury as a benefic 5th lord in the Ascendant has endowed him with great mental and intellectual capabilities. An active mind and very innovative, this disposition of Mercury has also endowed the native with streaks of genius. A good memory, there is in the native a desire for a circle of cultured and intellectual acquaintances. This same position of Mercury influenced by a well-placed Jupiter whose Nakshatra he occupies is good for moral consciousness and social position, both of which tag Dr. Badrinath in ample measure. Intuitive, independent, idealistic, sociable and inclined to abstract thought, philosophy attracts Dr. Badrinath as much as devotion and research.

The Moon in Leo is full, and a fixed sign, has given Dr. Badrinath fixity of purpose, evidenced by nothing less than the sprawling complex of the Foundation he directs today. There is, due to this position of the Moon, a lurking tendency to overesteem himself while at the same time trying to forever increase his capabilities. The Full Moon in the 7th in Leo has made him a strict disciplinarian whose standards of work are exacting and aimed at perfection. Because of the same position, Dr. Badrinath has much vital force and moral courage and these traits can attract weaker people to derive material or even spiritual support from him. Honest sympathy and an open mind are also caused by the Moon here, especially that he occupies Poorvaphalguni ruled by Yogakaraka *cum* Dharmasthanadhipati Venus, who,

what ought to be done gives such natives great satisfaction. But they rarely stop for the sign Aries will continue to prompt them to set up fresh goals everytime old ones are attained. However, this constant effort can lead to a lack of patience and tolerance and can be easily mistaken for some kind of tyranny. They are self-reliant, tactful, with great organising abilities. Also diligent, the doctor can become critical and take severe measures against sluggishness.

With such a strong personality, it was therefore, no wonder when the Medical Research Foundation was conceived and founded in 1978 during Rahu Dasa. Rahu is in the 9th in Libra whose lord Venus is a well-placed Yogakaraka. Rahu is aspected by the achiever 10th lord Mars and the industrious Saturn and being Vargottama ensured steady and excellent progress once the idea took concrete shape. The Raja Yoga formed by Mars and Saturn influences Dasa lord Rahu in the 9th house (ruling overseas) and resulted in the formation of the Ophthalmic Mission Trust inc., at Maryland in the U.S.A. to provide assistance from abroad to the various wings of the Foundation in India.

The Elite School of Optometry was set up in 1985 to provide a course on Optometry to students with Higher Secondary Education. This came about in Sun Bhukti. The Sun is in a trine from Dasa lord Rahu and with Mercury, the Vidyasthanadhipati.

The activities of the Foundation were also extended to rural areas with the opening of the Rural Eye Hospital on the outskirts of Madras in April 1989 just as Jupiter Dasa Began. Jupiter joins the Yogakaraka Venus helping in performing humanitarian works (Dharma Karyas) and especially so being in Pisces which inspires activities of kindness, compassion and philanthropy. In fact, Jupiter in Pisces is significant in intercourse with the sick and poor.

The Rural Eye Centre in conforming to Jupiterean characteristics provides an outlet for free service to the economically weaker sections of society. The V.V. Ramanatha Iyer Dharmashala housed in the Foundation Complex provides free lodging facilities to the poor and at nominal charges for the not so poor. Jupiter Dasa has been seeing the growth of the Foundation in different charitable ways in the form of new schemes conceived each year to make available to the poor expert eye-help. Patients with earnings below a certain level are even treated free.

Mercury prominent in Lagna has managed to keep academic activity also bustling under the aegis of the Foundation. The Vision Research Foundation here conducts research projects and has a core of dedicated scientists and infrastructure facilities for such activity.

The Neechabhanga Yoga generated by Lagna lord Saturn involving 10th lord Mars in Aries (the Moolatrikona sign) has given the place an international reputation. Perhaps, it is the only place in the country where patients are drawn for treatment from such advanced countries as even the U.S.A. and Germany.

The phenomenal growth and expansion of the institution is largely attributable to the Adhi Yoga involving the 6th lord Full

Moon and Mercury, Venus and Jupiter in the 7th and 8th places from it. The Yogakaraka Venus with Jupiter forms a powerful Dhana Yoga and as the Dasa of Jupiter further progresses indicates success in its missionary work.

Behind every successful man there is a woman and Dr. Badrinath is no exception. Mrs. Vasanti Badrinath, his charming and smiling wife, has been a source of inspiration and moral support to the doctor in his altruistic goals. The strong disposition of the 7th house in the chart is proof of the dynamic role played by Mrs. Vasanti in the work being carried on in the Foundation.

The 9th lord Venus strong and with Jupiter, the spiritual planet and the Lagna lord Saturn and the 10th lord Mars aspecting the 9th house bear testimony to the spiritual ideals behind the birth of the Foundation. Said to have been inspired by the blessings of the senior pontiff of Kanchi, Sri Chandrasekharendra Saraswati, the Foundation's hospital wing Sankara Netralaya has been named as ordained by the sage. The philosophy of the Foundation is summed up in the following lines that are quoted in all its literature.

"Let the word Sankara of Sankara Netralaya ever remind me and my associates His Holiness' command that there be missionary spirit in the project. Let the word Netralaya constantly remind me and my colleages that the place of our work is an alaya. *Work will be our worship which we shall do with sincerity, dedication and utmost love."*

The Bhukti of Saturn is running now, in Jupiter Dasa. Saturn is in the 3rd with 10th lord Mars. This can indicate diversification of the activities of the hospital in other cities. Jupiter, the Dasa lord, though well-placed in the 2nd occupies Revati ruled by the 5th and 8th lord Mercury. This can lead to a lot of problems and financial pressures since the 8th lordship of Mercury is involved. But because Mercury is also the 5th lord, there will be solutions at every stage. This will be more so in the Bhukti of Saturn, who as Lagna lord though a benefic can create challenges. The period of Mercury in Jupiter Dasa (November 1993 to February 1996) can be broadly described as one of outstanding achievement and distinction. However, the running theme of these activities, in spite of Dhana Yogas which lace the chart heavily, will be service to all and the poor too. The ideal in which the Foundation was built will continue to inspire the complex, thanks to the strong disposition and association with Dasa lord Jupiter of the Dharmasthanadhipati or 9th lord Venus. *GDV*

e Bolshevik Revolution of arked the coming into ex- of the first communist state Saturn's transit of Cancer. urnine transit of Capricorn om the ruling Sign Aquarius) r with the disintegrating in- e of Rahu's conjunction, pre- ed the dissolution of the ful USSR into independent dealing a death blow to communism.

e horoscope of the Bolshe- volution coming under the ce of Nidhana Dasa of Jupi- d Sub-Dasa of Venus (Major Minor lords related by ex- e), the mighty Communist power collapsed. The benign upiter and Venus involve the ge of the 5th and 10th lords, o wonder the great changes been unwittingly brought by the progressive policies *asnost* and *perestroika* fol- d by Gorbachev, Rahu's ma- nt association with Venus g to Gorbachev's losing con- Forces generated by his pro- e policies, and sweeping l power.

urn's dynamic revolutionary ce was similarly in evidence Cancer-Capricorn axis when astic rule taking control of estiny of the Independent State in 1947 during Saturn's of Cancer was rudely cut short during the planet's transit of Capricorn in 1991. Saturn is a great leveller of mighty dynasties and a crusader for human freedom.

Planetary movements during this month involve entry of the Sun and Venus in Aries, in the 8th from India's ruling sign Virgo, Mars in Pisces, opposite Virgo, Mercury turning direct in Pisces on the 9th and Jupiter resuming direct motion in Leo on the 30th. Mars opposes Jupiter in the 6-12 places from Virgo. The movements have adverse effects on the health of the country.

The lunar month on Chaitra commences on 3-4-1992 at 10h.31m., with Gemini 5° rising at Delhi. The Ascendant is afflicted by Ketu and by occupation of martian constellation (lord of the 6th and the 11th). The Ascendant lord Mercury is retrograde and afflicted by Saturn's aspect. The country will continue to pass through a difficult situation. The 2nd and the 2nd lord are both afflicted by Saturn's aspect. Jupiter, governing finance, is afflicted by Mars. These influences largely neutralise the favourable financial climate indicated by the 2nd and Ascendant lords together in the 10th Kendra. Martian influence may cause agitation against unabated inflation. The exchange between 3rd and 10th lords and the affliction of the 3rd by the powerful aspect of Mars are not favourable for effective management of communication and transport services.

A fiery, violent accident may be caused. The affliction of the 3rd, as well as the 7th lord by Mars, the 3rd lord aspected by Saturn, and occupation of the 7th by Rahu are not conducive to harmonious relations with neighbouring and other countries. The 10th ruling the Government is well disposed with the lords of Lagna , the 4th, 2nd and 5th joining in the 10th, but the affliction of the 10th lord by exchange with the 3rd lord, and the aspect of Mars indicates that the Government will not be allowed to tackle the problems.

Mars forms an exact opposition to Jupiter on 4th April with both the lords occupying nodal asterisms. This can have sinister fore-

bodings for exciting violence, subversion, disturbances and natural disasters, causing loss of lives. The combination has the potential for triggering a major earthquake.

Taurus 20° rises at Moscow. The Ascendant lord Venus with lord of the 2nd Mercury in the 11th favours initiation of steps to put the economy on the recovery path. The exchange between 4th and 11th lords augurs well for good crops

and increased food production. The placement of Rahu in the 8th, the 8th lord Jupiter aspected by Mars, and the placement of all the three planets in a nodal constellation is a clear indication of the hardship, suffering and unsettled conditions to continue, but the situation of Mars in the 10th aspected by Jupiter vouchsafes strong leadership showing capacity for facing the challenge and tackling problems.

At Washington, the 27th degree of Scorpio rises. The Ascendant lord in the 4th aspected by Jupiter, the 2nd lord aspecting the 2nd, the exchange between the 5th and 10th lords, the 11th lord aspecting the 11th and the 9th, 10th and 11th lords conjoined in the 5th are indicators for significant advancement in the scientific field and strengthening the economy. Mr. Bush will have something to cheer up.

The continuing transit of Rahu in the 7th and Saturn in the 8th from Gemini, and the aspects of Mars and Rahu on the 7th and 8th from lunar Lagna are adverse influences causing natural tragedies and loss of lives.

With 14° Cancer rising at Peking, the placement of Mars in the 8th, and the 8th lord hemmed in between malefics, are violent portents for national disaster and loss. The exchange between the 2nd and 9th lords ensures prosperity. —23.92

How Jupiter in Leo Affects Gemini Rasi

PROF. A.N. RAJAMANI
M.A., M.LITT, PH.D.

Part I

Introduction

This paper consists of four parts. Part I introduces succinctly Jupiter's transit positions and appropriate *palas* in general and, as per Rasi considered. Part II analyses in detail the stars in Gemini *vis-a-vis* Jupiter's 3rd house aspect between 60° and 90°. Tables are drawn to clear the representations. That Part also separately notes down the sextile, square and trine positions of Jupiter from the respective stars in Gemini. Part III deals with the numbers of Gemini-stars and respective terms and names of Jupiter in Sanskrit with assigned numbers, and examines, how far the stars and Jupiter's numbers would accord with each other for beneficial living. Planets denoted by numbers are also mentioned. And finally, Part IV makes certain valid inferences for the foregoing analysis.

For Gemini Rasi, Jupiter's sp cial aspects 5 and 9, along with will bear on the 7th, the 11th a the 9th houses respectively fr Gemini. From exaltation in the 2 house to Gemini, having there conferred mental happiness a stimulation, Jupiter has moved o to the 3rd house, generating nee less anxiety and confusion in t period of its occupation of Leo Ra However, good and bad effects w be fifty-fifty, as Jupiter is the own of the 7th and the 10th from Gem and of the 5th and the 8th fro Leo. In either case, negative resu flow out as from defective patte of twin ownerships of house However, positive results are n at all ruled out, which results fo a relevant part too of Jupiter's ow erships. That such mixed resu would follow will be predicted f individuals by pandits. The bas for such differing qualitative pr dictions is the well-proclaimed ge eral rule that Jupiter in 2-5-7-9- positions from the Moon is indee good and in 3-6-8-10-12 from th

In Gemini Rasi, there are three distinct stars, but with only a half of Mrigasira, full Aridra and three quarters of Punarvasu.

For Mrigasira, the 3rd house Jupiter extends to a length from 60° to 90° in Leo, that is, Jupiter's 3rd position extends from 120.1° to 156.6° in Virgo. From Dr. B.V. Raman's Nirayana Ephemeris for this Leo position, the period for Jupiter is from about August 11, 1991 to October 3, 1992, whereas Jupiter will be in Leo only from August 7, 1991 to September 3, 1992, that is, for Mrigasira the 3rd house position of Jupiter commences and ends later than these dates.

Table 3

Stars and Jupiter's 3rd House Periods

Star	Star Length in Gemini	Third House Position of Jupiter (61° to 90°)			
		From Aries		Jupiter Periods	
(1)	(2)	From (3)	To (4)	From (5)	To (6)
Mrigasira	0° to 6.6° (60° to 66.6°)	120° in Leo (0°)	156.6° in Virgo (6.6°)	Aug 7 1991	Oct 3, 1992
Aridra	6.7° to 20° (67.7° to 81°)	126.7° in Leo (6.7°)	170° in Virgo (20°)	Sep 6, 1991	Dec 20, 1992
Punarvasu	20.1° to 30° (80.1° to 90°)	140.1° in Leo (20.1°)	Virgo (30°)	Nov 21, 1991	Oct 8, 1993*

Note: * This prolonged period is due to Jupiter's repeated R and D aberrations.

Again for Mrigasira, Jupiter's start of 3rd house position will be 0° + 60° = 60°, that is sextile, and the end of the third position will be 6.6° + 90° = 96°, that is a square position almost. Whereas the sextile is benefic and only a little effort is needed on the part of a given native towards fulfilment of his objectives, the square postition indicates rampant stress, opposition, hurdles and consequent failure in the fulfilment of the native's objectives.

As for Aridra, it extends in Gemini from 6.7° to 20°. The 3rd house Jupiter extends from 60° to 90° in Leo, that is Jupiter's third position extends from 66.7° in Leo to 110° in Virgo for Aridra star. From Dr. B. V. Raman's Nirayana Ephemeris for this 6°.7' position in Leo to 20° position in Virgo, the period for Jupiter is from September 3, 1991 to December 20, 1992, whereas Jupiter is sojourning in Leo from August 7, 1991 to September 3, 1992. That is, for Aridra, the 3rd house position of Jupiter commences and ends late (September 3, 1991 instead of August 7, 1991 and December 20, 1992 instead of September 3, 1992).

Again for Aridra, Jupiter's start of third position will be 6.7° + 60° = 66.7°, that is sextile, and the end of the third position will be 20° + 90° = 110°, that is nearing trine position. Whereas the sextile posi-

tion is benefic, the trine position is favourable. In other words, for Aridra, it is from good to better for the entire third position period of Jupiter. On the other hand, astrologers are apt to say that for the first half of this third position for Gemini born, the results will be bad and for the succeeding second half, it will be good.

Star Punarvasu in Gemini extends from 20.1° to 30°. For Punarvasu, the 3rd house Jupiter extends from 60° to 90° in Leo, that is, Jupiter's third position extends from 80.1° in Leo to 120° in Virgo. From Dr. B. V. Raman's *Nirayana Ephemeris* for this 20°.1' in Leo to 30° position in Virgo, the period for Jupiter is from November 21, 1991 to October 8, 1993, whereas Jupiter is sojourning Leo from August 7, 1991 to September 3, 1992. That is, for Punarvasu, the third house position of Jupiter commences and ends very late.

Again, for Punarvasu, Jupiter's start of the third position is 20.1° + 61° = 80.1°, that is, far from, sextile position but tending towards square position, and the end of the third position is 30° + 90° = 120°, a perfect trine position. Whereas the square denotes stress and failure, the trine is favourable.

PART III

In this context of astrological study, an added analysis in terms of Numerology, lends weight to some of the possible conclusions that could be reached otherwise independently from Astrology alone. Hence, a very brief sojourn is made here into Gemini stars and their numbers, planets indicated by the star numbers, and numbers for Jupiter in respect of the Sanskrit terms related thereto.

The word 'Mrigasira' consists of 9 letters, 'Aridra' 6 and 'Punarvasu' consists of 9 letters; and 'Jupiter' 7, 'Guru' 4 and 'Brihaspati' 10 letters.

Table 5

Gemini Stars, Jupiterian Terms and Their Numbers

GURU 3626	=	17	=	8
BRIHASPATI 2215138141	=	28 = 10	=	1

The next Table (Table 6) notes the planets ruling the numbers *vis-a-vis* the Gemini stars etc.

According to Count Louis Hamon, better known to millions as 'Cheiro', the compound/double number in respect of Aridra and Punarvasu, 11 is an ominous number, warns of hidden dangers, trials and treachery from others. Number 10, applicable to Brihaspati, symbolised as the 'Wheel of Fortune' is a number of honour, of faith and self-confidence, of rise and fall, and one's plans are likely to be carried out. Number 17, denoted by Guru, is a spiritual number, and represents the person as superior in spirit to the trials and difficulties of his life and career. Number 18, denoting Mrigasira, is

Number 27 ing for Jupiter is termed a one and symbolised by the re. It promises authority, r and command, reward from ductive intellect, and the per- oncerned should carry out his ideas and plans. Lastly the ber 38, standing for Punarvasu, ates uncertainty, treachery and ption of others, foreshadows tribulations and unexpected ers, unreliable friends and

his brief analysis of double bers shows mixed qualities of emini stars *vis-a-vis* Jupiterian s. From Table 6, one learns e additional points. For ini Mrigasira, with Number 9 planet Mars, Jupiter (general and Mars are friendly with Rasi; for Aridra and Punarvasu, number 2 and planet Moon, is again friendship; Jupiter, number 9 and planet Mars, same; Guru, with number 8 Planet Saturn, is friendly with Rasi; and Brihaspati, with num- and Planet Sun, is in inimical position to the Rasi.

It is also noted that within Gemini, the three stars are denoted by Mars and Moon, whereas the Jupiterian terms vary in planets (see Table 6). Whereas for Mars (Jupiter), Sun and Moon are friends, for Saturn (Guru) Sun, Moon and Mars are enemies; and for Sun (Brihaspati), Moon and Mars are friends, but, Saturn is an enemy.

Thus, Tables 5 and 6 show mixed results.

From Table 7, it is found that the term 'Guru' has attraction for Gemini star Mrigasira, and term 'Brahaspati' has attraction for Gemini stars, Aridra and Punarvasu. From Table 8, one notes that from the point of view of the names of stars, both Aridra and Punarvasu have vibration with the term 'Guru.' The main reason for this is that Number 1 governs that planet basically, and represents the First Cause of Knowledge, understanding and realisation thereof. One who knows of the Brahman is Brahman himself. In mudane matters, the Numbers govern as follows: 1. Sunday indicating impetus, stimulation and power; 2. Ambition, strong will-power and constructive role; and 3. Heart and blood-pressure, and that their erratic behaviours could be averted by telling on the term: 'Brihaspati'.

Part IV

Some valid conclusions are in order from the foregoing analysis. Ere noting them down one may mention that:

1. The same procedure adopted here and calculation made of periods for results could be done for other Rasis *vis-a-vis* Jupiter's current position in the zodiacal Leo:

2. For Gemini Rasi, results for its individual stars, the analysis will hold good for a lone time, except for changed/changing dates in respect of the Planet Jupiter's description of its universal path;

3. Calculations broadly cover the erratic motions of Jupiter like R and D;

4. Calculations for every *pada* of every Gemini star and relative

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

Jupiter's positions have not been done, though they are needed for meticulous predictions;

5. Like calculations for the other major planet Saturn could also be profitably made; and

6. To find out Dosha and Dosha Samya in making matrimonial horoscopical matching; such calculations appear and are held vital for Mars.

The conclusions may now be noted:

1. Predictions based on Jupiter's relative position to zodiacal Rasis are only general.

2. For every star or its *pada*/ part in a given Rasi relative to Jupiter's position in a difficult Rasi (clock-wise), good or bad results will commence and end in periods certainly different from the Ephemeris period of stay of Jupiter in that given Rasi.

3. Sextile, square and trine position results belie the general statement of fifty-fifty good and bad results in respect of the relative positions of Jupiter based on the planetary ownership of two houses (thereby reckoning their positive and negative features); nor would such theory hold good for all planets with twin house ownership.

4. Astrological readings are (fully) backed by predictions based on the scientific reading of Numbers, though one does not aver from this limited analysis here that both Astrology and Numerology are one and the same; they are, however, part and parcel of the derivation process; they are complementary to each other.

5. For Gemini Rasi stars, Sanskrit terms applicable to Jupiter, are more in tune with fulfilment of natives of stars.

6. For Gemini Rasi stars, for Mrigasira star the Jupiter result starts beneficially but ends not satisfactorily; for Aridra star it starts beneficially and ends very favourably; and for Punarvasu star it starts with stress but ends very favourably. —6.91 ●

P. V. Narasimha Rao's Horoscope

— According to Jaimini Astrology

IRANGANTI RANGACHARYA

Mr. P. V. Narasimha Rao, the 71-year old Congress (I) President and sober statesman from South India, had premiership thrust upon him by unanimous election after Mr. Chandrasekhar. He has the distinction of being a linguist, scholar, journalist, lawyer, educationist and administrator. He became Congress (I) President following Rajiv Gandhi's assassination. Affectionately called 'PV' he has handled several key portfolios at the Centre and in his home State, Andhra Predesh, since he first became Minister in 1962. He has also been Chief Minister of Andhra Pradesh.

This article is meant not to prognosticate exclusively the future of Mr. P. V. Narasimha Rao or of the Congress (I) Government but to illustrate some salient principles of Jaimini Astrology.

Date of birth = 28th June, 192[illegible] at 1300 hrs. *Rasi:* Sun = 2[illegible] 13° 16[illegible] Moon = 11[illegible] 10° 30'; Mars = 2[illegible] 13[illegible] 34'; Rahu = 6[illegible] 0° 37'; Jupiter = 4[illegible] 20[illegible]

12'; Saturn = 4[illegible] 26[illegible] 29'; Mercury = 2[illegible] 27[illegible] 22'; and Venus = 0[illegible] 27° 42'; Atma = Venus, Amatya = Mercury, Bhratru = Saturn, Matru = Jupiter, Putra = Mars, Jnati = Sun, Dara = Moon, Janma Lagna = Kanya 24° 23'.

Brahma Graha = Venus (Neelakanta's method)

Janma Lagna is Kanya (Virgo). The 7th house, Meena (Pisces), is occupied by the Moon. Hence the 7th house is stronger than Janma Lagna since the 7th house is occupied by a planet while Janma Lagna lies vacant. Find out the 6th, 8th and 12th lords from the 7th house. They are the Sun, Venus and Saturn. The strongest of these three becomes eligible for *Brahma* when

d in an odd sign. Here the nd Venus are in neutral signs. n is in an inimical sign. So, n and Venus of equal strength stronger than Saturn. Since s attains greater longitude (27° than the Sun (13° 16'), Venus mes *Brahma*, with his place- in the odd sign, Mesha (Aries).

eswara = Mars

The 8th lord of Atmakaraka sign omes eligible to become eswara. Here Atmakaraka is s placed in Mesha. So the 8th from Mesha is Mars. Hence becomes *Maheswara*.

al Rudra = Venus;

rani Rudra = Mars

Find out the 8th lords from and its 7th house. The stron- of the two becomes *Prani ra*. The weaker, if associated malefics, becomes *Aprani ra*. Here the 8th lords are Mars Venus. Mars is in the inimical Mithuna (Gemini) while Ve- is in his neutral sign, Mesha. ce Venus is stronger than Mars. Venus becomes *Prani Rudra* Mars becomes *Aprani Rudra* use of his association with the fics, *viz.* the Sun and Mercury.

ada Graha = Sun

The Sun aspects Janma Lagna asi and Navamsa Lagna in msa. Hence the Sun becomes ada.

a Lagna (Parivritti dwaya) = na (see the Table, *A.M.*, May)

a Lagna (Savayava) = Meena, 18'

Find diurnal duration for a day or nocturnal duration for a birth., Divide the above by 12 and find out the quotient. Divide the duration from sunrise or sunset to the birth time by the quotient. The quotient 5° obtained + 1 should be counted direct from Janma Lagna if Janma Lagna is odd or reverse if Janma Lagna is even (use *ghatis* etc. or hours etc). This has been explained taking the units of ghatis in the Annual Number 1990.

Here the diurnal duration is 1300 hrs. 05 mts. Divide this (because of day birth at 1.00 p.m.) by 12

∴13 hrs. 05 mts. ÷ 12

Q = 1 hr. 05 mts.

The duration from sunrise to birth time is 7 hrs. 27 mts. (Sunrise = 5.33, Sunset = 6.38). This duration should be divided by the above quotient.

∴7 hrs. 27 mts. ÷ 1 hr. 05 mts.

The quotient + 1 will be 7 and the remainder is 57 mts. Therefore the 7th sign from Janma Lagna is Meena which becomes *Savayava Hora Lagna*. Its longitude is calculated as follows:-

For 1 hr. 05 mts. — 30°

For 57 mts. ?

Hora Lagna = 30/65 x 57 = 26° 18' (Meena)

Ghatika Lagna = Meena 18° 45'

Find out the duration from sunrise to birth time in *ghatis* or hours etc. Each *ghati* or 24 minutes from Janma Lagna would make up each sign. Thus you can find out the number of signs from Janma Lagna in the duration from sunrise to birth time.

Here the duration is 7 hrs. 27 mts. = 447 mts.

∴447/24 = Q = 18, R = 15

∴Q + 1 = 18 + 1 = 19. Expunge 12 signs. We get 7 signs. Hence the 7th sign from Janma Lagna is Meena. The longitude is calculated as follows:-

For every 24 mts—1 sign of 30°

For 15 mts ?

30/24 x 15 = 18° 45'

Maharaja Yoga

Several Raja Yogas may be found in our classical tests of Astrology following Parasari. But it is not markedly clear which Yoga of *par excellence* leads to Maharaja Yoga to the level of Prime Ministers or Presidents of administrative control of countries. In Jaimini we can single out such Raja Yogas for the cocksure presage of Premiership. As most of the readers know, I drew one such Yoga in the horoscope of Mr. V. P. Singh, well in advance when no one thought of his elevation. In the horoscope of Mr. P. V. Narasimha Rao, I find two such Raja Yogas which have elevated him to Premiership.

The planets Sun, Mars and Mercury from Mithuna (Gemini) are aspecting the above-mentioned three Lagnas constituting Raja Yoga. The relevant aphorism is *Janma kaala ghatika sweka drishtasu raajanah*. If one planet aspects *Janma*, *Hora* and *Ghatika Lagnas*, the native becomes a king. In the chart of Mr. P. V. Narasimha Rao, three planets are aspecting such that the quantum of Raja Yoga is greatly increased. Here the Yoga is free from controversy because of the coincidence of the two kinds of Hora Lagnas, and of the count from Janma Lagna being an even sign.

MANIRAMA

K. R. KRISHNAMURTHI

Ancestry

Manirama was the son of Laalamani, a Yajur Veda Brahmana belonging to Bharadwaja Gothra. His grandfather was Devidasa and great grandfather was Leeladhara. A Gujarati by birth Manirama was the disciple of a learned scholar Vatsaraja of Kasyapa Gothra.

His Work

Manirama has written an astronomical work called *Grahaganitha Chintamani* with its epoch starting on Chaitra Sukla Prathama of Saka 1696 (Sunday 13-3-1774 A.D.). This seems to be the only work written by the author. This is a Karana work with all the details useful for compiling a Panchanga in 12 chapters covered by 120 *slokas*. True to a Karana work it deals with the usual subjects such as Mean and True places of the Sun and Moon and other planets, calculation of Lagna, Lunar and Solar eclipses, Heliacal rising and setting of planets, Sringonnathi (elevation of Moon's crescent), designing water clock (Gati Yantra), Mahapata etc. A copy of this work is in the Library of Anandasrama, Pune.

This work *Grahaganitha Chintamani* is found to follow the procedure of *Grahalaghava* of Ganesa, though the author does not seem to have fully relied upon it, as is evident from the deviations made by him in his workings at several places. Though a follower of *Surya Siddhanta*, broadly speaking, he did not depend upon it fully. His own statement will prove his independent approach in this great science. He has observed at the conclusion of his work that he has compiled it after making observations himself as advised by learned men and it is open to scrutiny for its accuracy by means of instruments employed for such purposes. That means he has taken the planets' places at his epoch after actually making observations himself. This proves that till Manirama's time, the practice of taking observations by authors continued and due care was taken to check the results with those found in the standard works of well-known earlier authors.

Manirama is one of the familiar authors like Ganesa Daivagnya to carry out important corrections needed to mean places of planets etc. though at the same time he has adhered to *Graha Laghava*, and *Surya Siddhanta* in other respects.

He has given a correction due to difference in longitude (Rekhantara) to mean places of planets and has likewise furnished corrections to *bhujantara* and *chara* for all planets. Regarding Ayanamsa, he has followed *Surya Siddhanta* and *Graha Laghava* for calculation of true places of planets. For geocentric and heliocentric positions of planets, his figures are found to be different. His critical evaluation is evident from the number of corrections he has made on important details regarding planetary motions.

Much credit is to be given to Manirama for giving planetary positions in conformity with observed results. In this respect, he ranks equal to Brahma Guptha and Ganesa Daivagnya and his only work *Grahaganitha Chintamani* as such stands on par with *Graha Laghava* and *Khanda Kadyaka*.

The efforts of Manirama to make his work as popular as *Graha Laghava* are quite visible from the independent approach he has made at many places in it. Still *Graha Laghava* was extensively followed in the North.

Many of our astronomers have given useful Tables in their Karana works for simplifying all calculations needed for a Panchanga. In this respect, *Grahaganitha Chintamani* is a good addition for Panchanga Ganitha. —185.90.

Political Forecasts

Sir, - Even though many of your predictions in the Annual Number 1991 have come true, I have to point out that your forecast that the Congress Party will not make any improvement in its position is proved wrong. The Congress Party which remained out of power during 1990 seized power in June 1991 after the general elections.

Even the predictions on Russia, Gorbachev and Yugoslavia have come true.

"Horary—The Art of Precise Prediction"

I

Sir, - I find several errors in the analysis of the chart given on page 703 of September 1991 issue of A.M.

The Moon's longitude is given as 16° 15' in Pisces, in which case, it should fall in Uttarabhadra and not in Revati as stated in the article (the author has followed an Ayanamsa other than Raman's).

He has stated that Ketu is in Bharani, whereas on the basis of the longitude given of 27° in Gemini, he should be in Punarvasu ruled by Jupiter.

He has stated that Venus is in Punarvasu whose ruler is Jupiter, whereas Venus is in Aridra whose ruler is Rahu.

I feel that most of the comments on Chart 1 are based on wrong premises and therefore, illogical.

It seems to me that from the position of the Lagna lord Moon, the 7th lord Saturn and the 10th lord Mars, the question of marriage and employment are not favourable.

S. Doraisamy,
Secunderabad.

II

Sir, - In the article by Chandrakant S. Kothare under the caption "Horary—The Art of Precise Prediction" I request him to clear the following doubts:

Page 703 - The Moon is in Revati Nakshatra. As per chart, Moon is in 16° 15" which means Moon is in Uttarabhadrapada, hence ruled by Saturn.

CC-0. In Public Domain. Mukul Kangri Collection, Lahore

Digitized by Arya Samaj Foundation Chennai and eGangotri

Mercury is in Aries in 19° 0', hence Bharani star, ruled by Venus and not in Aswini ruled by Ketu.

Ketu is in Gemini and is Punarvasu star, ruled by Jupiter and not in Bharani falls in Aries, and not in Gemini.

Mercury as per *A.M.* Ephemeris should be around 2°, but it is charted as 19".

At any rate Ketu is not in Bharani in Gemini in Venus star.

Against Q.No. 2 (last sentence) lord of Lagna (Moon) is placed in Saturn's Nakshatra who is placed in 7th house. Hence Moon is not in Revati star. How can predictions be accurate if mistakes are there like this?

Kindly clarify the same.

Bombay. S. Venkataram.

[Chandrakant Kothare clarifies:

At the outset I must say that what has been stated in respect of Nakshatra positions is absolutely correct and I thank the readers for pointing out the mistake. I also hasten to add that the mistakes do not in any way indicate that the technique adopted for interpreting the horary chart is faulty.

I have just checked the manuscript of my article. The Moon is placed in 16° 45' in Pisces, whereas in the register (typed copy) the Moon is shown as in 16° 15'. This has resulted in the chain of Nakshatras going wrong and some such mistakes like Ketu in Bharani due to over-writing and corrections in the draft. Mercury is, incidentally, in 0° 19' Aries as per Lahiri Ayanamsa which I follow and not in 19° as stated earlier by the reader.

As stated in the article the Lagna, 7th, 9th, 12th, 10th, 5th, and the 6th houses are all interconnected. The moot point that the person wanted to go abroad after getting married is very well explained, so also the other aspects of the person's life as detailed in the article. The correct chain of Nakshatras, however, is as under:.

The Moon is placed in Uttarabhadra ruled by Saturn who, in turn, is placed in Sravana ruled by the Moon. The Lagna is in the first degree of Cancer in Punarvasu ruled by Jupiter who, in turn, is placed in Pushya ruled by Saturn. Thus the basic pattern of the Moon, Saturn and Jupiter connects our mind to 1st, 7th, 9th, 6th and 8th houses of the horary making it clear that getting married and going abroad for employment are the important contents of the person's mind. The M.C. is 26° Pisces. This is in Revati which is ruled by Mercury who, in turn, is placed in Aries 19' in Aswini ruled by Ketu. Ketu is in Gemini 27° in Punarvasu ruled by Jupiter. Thus the M.C. links us once again with the basic pattern but connects the 10th with 12th houses of the horoscope. Further, the placement of Ketu in association with Mars and Venus and inter-change between Mars and Mercury in each other's signs establish beyond any any conceivable doubt that the thought is related to 10th (career), 12th (going abroad being 9th from 4th and also indicating privation due to going far away from kith and kin) with 1st (person), 7th (marriage), 5th (pleasure, entertainment) and 6th (employment) and 8th (which too is connected with going abroad).

The process of predicting is highly complex and involves analysis as well as synthesis. When I tried to explain it, naturally isolated individual elements of the process, to get a microscopic insight. In the process, inadvertently, a small writing mistake lead to errors which I deeply regret.]

Karaka Determination

Sir, - It seems that in the determination of variable Karakas only the degrees advanced by the planets are to be considered, not the minutes and seconds. Kindly clarify the points. Some text say, "if the degrees are equal consider the minutes, if the degrees and minutes are equal consider the seconds". It is necessary to remove the confusions here.

Shraddha Performance

I

Sir, - I wish to refer to your correspondent Mr. T.D.V. Raman's letter on page 89 of 1992 Annual Number of *A.M.* concerning oblations performed for ancestors and related problems.

A reading of the chapter "The Merits of Annabhishekam performed in the Kshetra of Arunachala" in the book *Arunachala Mahatmyam* prepared by Ramana Maharshi and published by Sri Ramanashramam, would help clarify many of the misconceptions relating to such practices. The proper course of ac-

The New Planets and the Dasa Systems

Sir, - Some astrologers have been marking the places of Uranus, Neptune and Pluto in the stellar horoscopes. This is not quite valid unless the place of these planets in the Dasa system is determined. In this connection we may take the clue from the practice of some Western astrologers who relate these new planets to three old planets as their high octaves.

Another suggestion may not be out of place in this context. The Dasa system may be considered in relation to the tropical zodiac instead of the stellar zodiac.

ICAS Meet at Delhi

Sir, - I have seen the report (*A.M.* January 1992) of the All India Conference of ICAS held in Delhi. May I point out an omission therein?

A Seminar on general topics was held on the first day of the meet chaired by Mr. K.N. Rao, Messrs. Lakshminarayan, Srinivas, myself and others spoke on different topics. The report does not mention this session.

T. S. Venkatesha,
Bangalore.

Ayanamsa

Sir, - The date of co-incidence of the Sayana and Nirayana zodiacs adopted by different astrologers vastly varies such as Cheiro 388 B.C., Davidson 317 B.C., Ga Massey 255 B.C., Thurius 125 B.C., P. Connel zero B.C., C. Fagan 213 A.D., Lahiri 285 A.D., P.S. Ray 319 A.D., Sephariel 498 A.D. and Dr. B.V. Raman 397 A.D.

Why do not highly educated astrologers attending seminars get together and thrash out this problem once for all.

I am a regular reader of The Astrological Magazine since 1962 when I first happened to read it at Bhilai Steel Plant. I have been applying different Ayanamsas to my own horoscope [Date of birth 16-11-1905 at Kalka (Near Chandigarh) time 8.50.36. a.m.] and find Mr. A. Basu's Ayanamsa gives better results.

Even determining Lagna differs considerably. Mr. H.R. Shankar, vide *A.M.*, October 1991, gives Parasara's *sloka* saying "Divide Ishtakala by 2 in case of hours and by 5 in case Ishtakala is in gahtis and add the Sun's longitude at sunrise on day of epoch". *Manasagari* also advocates same method for determining Ascendant. But Panchangas adopt the method of Sarni which does not give correct Lagna. Kindly help and decide this issue by calling a seminar.

Ludhiana. K. C. Sharma.

"Combustion" of Rahu

Sir, - Kindly refer to page 502 of *A.M.*, June 1991 and Dr. Misra's views.

Rahu and Ketu are sworn enemies of the Sun. The Sun gets eclipsed by the nearness of the Nodes and becomes powerless. How can a powerless Sun make the Nodes combust? Rahu and Ketu are above combustion. This fact has been mentioned by Solitaire on page 503.

P.R. Sanathanan Nair, Painkulam.

Upagrahas

Sir, - I have been greatly enlightened by the article "Upagrahas" by L. Narayan Rao (*A.M.*, January 1992). But it creates many doubts also. Parivesha, Dhuma, Indradhanus and Vyatipata are described as the sons of Mars, the Moon, Rahu and Venus respectively but I feel it is wrong; actually they are the sons of the Moon, Mars, Venus and Rahu respectively.

Parivesha gives fear from water and watery diseases. So he could be the son of the Moon while Dhuma produces heat in the body so it is possible he can be called son of Mars.

My views have been supported by an article "The Significance of Upagrahas" (*A.M.*, March 1991) by Mr. S. Natarajan.

The calculations for the Upagrahas Dhuma and Upaketu do not seem very correct. Dhuma can be obtained by adding 4s 13° 20' to the correct longitude of the Sun at that instant instead of 4s 13° as stated by the writer while Upaketu can be obtained by adding 16° 40' to the correct position of the Indradhanu instead of 17° as given by the writer. The difference of 20 minutes can change the position of Dhuma and Upketu in the horoscope.

Please clarify how we can calculate the position of Kala, Ardha-prahara, Yamakantaka and Mandi when duration of day or night is either more or less than 30 ghatikas, say, duration of the day 32 ghatikas and duration of night 28 ghatikas.

What will be the result of Yamakantaka placed in the 12th house with the Moon and Venus not aspected by any planets for Virgo Ascendants.

Jhansi. Ajeet Pandey.

Counselling on Fleeting Problems

Sir, - While congratulating Mr. H.R. Shankar for his lucid and informative article "Counselling on Fleeting Problems of Life" (*A.M.*, September 1991) I would like Mr. Shankar to clarify the following points.

Did he conclude a particular Bhukti would prove adverse as the Bhukti lord was in the 30th degree?

Is Mercury in the 30th degree alone the dissuading factor since Mercury as Lagna lord occupies his own sign in Vargottama and is exalted?

How was it possible for the author to give a favourable reply when the Lagna lord Mercury (in the 2nd Bhava) was in 6/8 with Jupiter, the 7th lord denoting foreign travel?

How was it that he missed the all-important Mars, the worst malefic for the Ascendant, placed in the Badhakasthana in the 7th in his prime analysis?

Is the affliction to the Lagna by Saturn and Mars from Kendras and the Papakartari to the Lagna by the Sun and Ketu something of minor import?

M.K. Venugopal, Thalayolaparambu.

Vedanta or The Science of Reality
by K.A. Krishnaswamy Iyer. (Adhyatma Prakasha Karyalaya, Tyagarajanagar, Bangalore 560 028. Pp. 500, Rs. 120.00)

The appearance of this ok in 1930 was a landmark the history of modern clas- s on Advaita. Thereafter the rk came to be revised and notated with explanations Swami Satchidanandendra raswati, another recognised thority on undiluted danta of Sankara. This is e third edition which is very lcome for the high standard sets for expositions of the ality, not just based on faith tradition but on reason, in- ition and direct experience *Sudhana*. The author was ardent *upasaka* and knew hat he wrote at first hand.

Many are the methods of proaching the Reality. The thor bases himself of a tailed analysis of the three *asthas*, waking, dream and eep. He proves: "This trinity one in fact. Waking cannot separated from the pure onsciousness commonly oked upon as sleep, nor eam. All these are essentially e, ever one and identical." p.70) He aims at a total rspective of the Reality which Brahman-Atman. If the ality is one, how to account for the multiplicity of the world we find ourselves in? There are degrees of Reality which are empirically true as long as one is related to them. There is a detailed evaluation of the Advaita System from the point of view of Western philosophers from Socrates, Plato to Russel and Whitehead. Separate chapters are devoted to the study of Advaita with reference to ethics and to aesthetics: This includes observations on meditation and practice of sadhana.

In the words of the Swamiji, the book "may be said to contain a complete exposition of all the essentials of Vedanta as it offers detailed suggestions on the practical side of the system no less than a systematic exposition of its positive aspect as the science of reality."

❑ **The Society of The Ramayana**
by Ananda Guruge. (Abhinav Publications, E-37, Hauz Khas, New Delhi 16. Pp. 350, Rs. 400.00)

In this full lenth thesis for his doctorate on the *Ramayana*, the author examines the data from various sources in order to come to the conclusion that the epic of Valmiki predates that of Vyasa. He puts the period of the *Ramayana* between 4th century B.C. and 2nd century A.D. Where exactly did the events take place? Where was Lanka? Who were the tribes that are described as Vanaras and Rakshasas? The author marshals arguments from different standpoints and leaves the questions open. After describing the land and the people, the economic conditions, the social organisation, the philosophy and religion of the society portrayed in the epic, he gives a vivid picture of the daily life of the peoples - especially of the higher classes - their marriage customs, their dress and ornaments, their exacting standard of education. All told, it is an affluent society governed by an all-comprehensive Law, Dharma, which is still the source of the norms of the Indian society. The discussion is well documented and makes for pleasant reading. The writer rightly says that while the *Mahabharata* has received a good deal of attention, the *Ramayana* is yet to be evaluated from these angles. Towards this end his study is certainly a solid contribution. It should have rejected western concepts about the antiquity of our epics.

❑ **The Vedic Origins of Karma**
by Herman W. Tull (Satguru Publications, 40/5, Shakti Nagar, Delhi 7. Pp. 181, Rs. 150.00)

In this original research work Dr.Tull goes to the root of the Karma doctrine which he traces to the ritual, *Karma*, of sacrifice in the Veda, especially in the Brahmana literature that concerns itself solely with the subject of *yagna*, sacrifice. He studies the sacrificial rituals in the context of famous Purusha Medha, sacrifice of the Purusha which has resulted in the formation of the Cosmos. He describes how

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

each step in the sacrifice corresponds to the role that man, the sacrificer, has to play in the cosmos. Even the death rite is pre-enacted in the ritual in a symbolic manner.

The author describes how the connection of Karma, from the purely ritualistic context, got shifted in the age of the *Upanishads* to the moral paradigm. He narrates the common route of the journey after death, both in the *Brahmanas* and the *Upanishads*, notably the *Chhandogya* and the *Brihadaranyaka*. The writer deplores - and rightly - the scant regard in which the valuable *Satapatha Brahmana* is held by Western scholars beginning with Max Muller. The thesis throws light on many an aspect of Vedic tradition which modern scholarship has ignored. An uncommon study of Karma stimulating further enquiry.

❑ **Secrets of Astrology**

by L.R. Chowdhri (Sterling Publishers Ltd. L-10 Green Park Extn., New Delhi 16. Rs. 30.00)

This book aims to serve as a ready reckoner for the common man to find answers to his daily problems. After explaining the action of the planets on human affairs, the importance of Tithis and asterisms, the author provides guidance to find lucky partners in life, to maintain marital harmony, the right timings to plan for lotteries, horse-betting, travel and similar concerns. He discusses ways and means to propitiate evil planets and draws upon gemmology, mantras, yantras and tantras as he has understood them. The tantric remedies suggested are certainly of the lower, *kshudra* category and caution is necessary before resorting to them.

There are tables showing the Zodiac signs and various aspects of life. There is also the Ascendant table to serve as a guide for readers to fix upon the propitious time and

P. V. NARASIMHA RAO'S HOROSCOPE

(Continued from page 347)

Drekkana Lagna (Parivritti traya) is aspected by Mercury, Jupiter and Venus, constituting Premiership, with Raja Yoga formed by Yogada, the Sun. That Mr. P. V. is a lawyer, journalist and author is seen by the following principles of Jaimini.

Karakamsa Lagna is Dhanus (Sagittarius) since Venus, the Atmakaraka, is placed in Dhanus in Navamsa chart. The 3rd of Karakamsa is occupied by Mars, denoting his study of law. The 3rd is aspected by Jupiter and the Moon and Karakamsa is aspected by Mercury, indicating his authorship. The 2nd of Karakamsa is occupied by the Sun, indicating his entry in politics. Though the Sun is not powerful by his position in his inimical sign in Navamsa, the Sun happens to be Yogada, being strong in Rasi and Drekkana charts. This gave him political elevation.

Karakamsa is Dhanus and is hemmed in between malefics *viz.* Sun and Saturn. Janma Lagna is hemmed in between malefics, Saturn and Rahu. The 3rd sign of Atmakaraka is occupied by malefics. The danger of accident may therefore be feared. Now let us examine the present Raja Yoga Dasa duration through a Phalita Dasa called Trikona Dasa. Janma Lagna is aspected by Mercury. Hence Trikona Dasa is chosen *(Swami Guru Jna drigyogo dwinteeyah).* Trikona Dasa begins from Mithuna, the *sammuka* sign of Kanya, because Kanya is an even sign, The Dasa signs and Dasa years are as follows.

Dwara			*Bahya*
Mithuna	=	12	Mithuna
Thula	=	10	Kumbha
Kumbha	=	10	Vrischika
Kataka	=	4	Simha
Vrischika	=	5	Mesha
Meena	=	7	Makara
Simha	=	10	Mithuna
Dhanus	=	8	Kumbha
Mesha	=	2	Vrischika
Kanya	=	3	Simha
Makara	=	5	Mesha
Vrishabha	=	11	Makara

28-06-1921

— — — — — — 3 Kanya — —

28-06-1989

28-06-1992

So Kanya Dasa proved beneficial in bestowing Premiership. Though Kanya is hemmed between malefics, Saturn and Rahu, the 10th house of Kanya is fortified by the placement of Amatyakaraka (Mercury) in association with Yogada (Sun), and is aspected by these two planets too. Among the Dasa Karakas, Mercury is Rajyakaraka in the Rajya Sthana, aspecting Kanya. Hence Mr. P. V. Narasimha Rao became Prime Minister in June 1991 in Kanya Dasa. The next Dasa from June 1992 is Makara, deemed to be evil. The Bahya sign of Makara is Mesha. The 12th of Mesha is occupied by the Moon. Mesha is occupied by Venus with Ketu. The 3rd of Mesha is occupied by malefics. The 6th and 8th houses of Makara are occupied by malefics. The beginning of Makara Dasa for 5 months from June 1992 may be evil. — 34.92.

Death, Intermediate State and Rebirth in Tibetan Buddhism

by Lati Rinbochay and Jaffrey Hopkins. (Snow Lion Publications, P.O. Box 6483, New York 14851.)

Tibetan Buddhism has its n theory about death, rebirth and the state in between. The state of after death depends upon the Karmic Samskaras of the life that has been led. So far the approach is the same as that of the Indian tradition. Thereafter, the soul stays in the Intermediate region for a maximum of 49 days, in which time the conditions for rebirth are worked out. There are mini-deaths in this state delaying the rebirth. The Higher Tantra Yoga of the Tibetans prepares the individual to meet these eventualities by teaching him how to handle the situations that may arise. The present work is a translation of an 18th century text on the subject by a reputed Lama. The treatment is technical and can be of interest only to the serious student of the subject.

SANSKRIT

❑ **Phaladipika**

by Pandit Gopeshkumar Ojha.(MotilalBanarasidass, Delhi 7. Pp. 677, Rs. 110.00)

This Sanskrit work of Sri Mantreshwara (13th century A.D.) from Kerala has not been known well enough in the north though it is studied and drawn upon in the south. We learn that this is the first edition of the text and its translation into Hindi. In his paraphrased translation, Sri Ojha has included almost 450 Yogas from the commentary, *Ratnakara*, of Sri Ramanuja. He writes: There are three branches of the Kalpadruma of Jyotisha. They are *Samhita*, *Siddhanta*, *Hora*. The Hora contains the *Phala* of birth and *prashna kundali*. In the course of his commentary, he brings out the full meaning and thought of the original. He expounds the twelve *Bhavas* of the *janma-kundali*. The main topics dealt with are: *Rasi*, *Graha Varga*, *Grahabala*, *Karmajiva*; *Yoga*, *Rajayoga*, *Bhavaphala*, *Rasiphala*, *Kalatrabhava*, *Strijataka*, *Putrabhavaphala*, *Ayurdaya*, *Roganirnaya*, *Bhavachinta*, *Dvadashabhava phala*, *Niryana prakarana*, *Dvigrahayoga*, *Dashaphala*, *Antardashaphala*, *Pratyantardasha phala*, *Mishradasha*, *Ashtakavarga*, *Ashtakavarga phala*, *Gulikadi Upagraha*, *Gochara phala*, *Pravrajya yoga*. The standard of the original and the exposition are high.

❑ **Jyotisha Navanit**

by Acharya Bhaskaranand Lohani. (Universal Book- sellers, Hajratganj, Lucknow. Pp. 223, Rs. 100.00)

In this second part of the author's work on Horary Astrology, the science is presented in terms of a syllabus for research students. There is a comparative study of the methods adopted in comparative study of the methods adopted in other countries in casting the chart and calculating the positions of planets. There are a number of tables to facilitate the study. Propitiation of the *Grahas* is the theme of one whole chapter. The work is informative and offers practical guidance based upon experience. ●

Publishers and Authors of books on Astrology, Indian Culture and allied subjects are invited to send their books to the Book Reviews columns for review.

Your Technical Difficulties Solved

MIHIRA

Q. 1. Rasi: *Virgo - Ascendant; Libra - Sun, Moon and Mercury; Scorpio - Jupiter, Venus and Ketu; Taurus - Rahu; Cancer - Mars; and Leo - Saturn. The native has been working in a reputed merchant firm. Will he be able to complete his service period upto 2006 or is there any probability of termination of his service sometime before 2006 due to various disturbances in the Company as a result of re-organisation?*

Jayanta Kumar Chatterjee, Dt. Hoogly.

Ans: He will continue to be in service for some time to come. In the absence of Navamsa and of the balance of Dasa at birth, it is not possible to state how long. Only looking into the transit positions, he will continue till at least April 2002.

Q. 2. Rasi: *Aries - Ascendant and Saturn (R); Taurus - Mandi; Gemini - Moon; Leo - Mars; Virgo - Sun, Jupiter and Ketu; Libra - Mercury (R) and Venus; and Pisces - Rahu. **Navamsa:** Scorpio - Ascendant; Sagittarius - Rahu; Capricorn - Jupiter; Aries - Saturn and Mandi; Gemini - Moon, Venus and Ketu; Virgo - Sun; and Libra - Mars and Mercury. As the boy is having Saturn (R) in debility in Ascendant and both Jupiter and Saturn in debility in Navamsa also, what do they indicate?*

Sub. No. 12649.

Ans: Saturn is debilitated, but Vargottama. He receives the aspect of his friend Mercury. Both these are retrograde. As per *Uttara Kalamrita*, Saturn gives the results of his exaltation — tolerably long life, slow but some financial success, and expenditure. In Bhava, Saturn is in 12, Mercury in 6 and Jupiter in 5. Jupiter's debilitation in Navamsa is in the 3rd from Lagna. The health of the partner cannot be very sound.

Q. 3. Rasi: *Scorpio - Ascendant, Saturn (R) and Rahu; Aquarius - Mars; Aries - Mercury; Taurus - Sun and Ketu; Gemini - Venus; Leo - Jupiter; and Libra - Moon. The lord of 2nd and 5th is in the 10th aspecting the Lagna lord and Mercury. The Lagna lord is aspecting 10th and Jupiter. Saturn is powerfully aspecting the 10th, Jupiter and the lord of 10th (Sun). Mercury and Moon mutually aspect each other. Will these planetary positions give a legal career?*

K. Muralidharan, Satna.

Ans: Saturn and Mars have exchanged houses, and this is the real strength of the chart. The 10th lord and the house promise a legal career. But he should specialise in taxation and property affairs.

Q. 4. Rasi: *Sun 0s-21-08; Moon 1s-08-13; Mars 11s-18-49; Mercury 1s-10-12; Jupiter 10s-14-25; Venus 1s-15-17; Saturn 9s-17-50; Rahu 3s-19-45; Ketu 9s-19-45; and Ascendant 5s-08-42. (a) What line do the planetary positions indicate as far as career is concerned? (b) Will the current Dasa of Rahu prove favourable as Rahu is in the 11th and 11th lord Moon is exalted with reference to career success?*

T.V. Narayanan, Nellore.

Ans: (a) Banking or medical line is indicated. (b) The major period of Rahu proves favourable from the sub-period of Mercury onwards.

*5. **Rasi:** Virgo - ndant (Pisces Ascendant vamsa); Aquarius - Venus Pisces - Saturn 2-51 and ury 10; Aries - Moon 3-9, 7-58 and Mars 10; Taurus hu 4-54; and Gemini - ter 5-21. (a) Will the ange of signs between 7th 10th lords give success in ness? (b) Does the 2nd Venus in the 6th show cial difficulties?*

Sanjay, Ghaziabad.

Ans: (a) The exchange of s between Mercury and iter has improved the tiveness of Mercury. He succeed in business ect to the answer to the nd question. (b) He is liable be put to losses by his ociates and subordinates, by legal processes or in els.

*Q. 6. **Rasi:** Aries - endant; Cancer - Jupiter: - Moon; Virgo - Ketu: pricorn - Saturn; Aquarius - Mercury and Mars; and es - Venus and Rahu. Will h lord Saturn in 10th ected by exalted 9th lord piter give a happy mination to career even if hu Dasa is running (Moon kti)?*

Mandar Lal, Jalandar.

Ans: Rahu is with exalted nus and aspected not only Saturn, but by the exalted of that sign. The sub-iod of Mars in Rahu gives ed results. There is 6-8 ation between the Moon and hu; yet the sub-period of Moon will be tolerably urable.

*Q. 7. **Rasi:** Sagittarius - Ascendant; Aquarius - Saturn; Taurus - Rahu, Sun, Mercury and Jupiter; Gemini - Sun; Cancer - Moon; and Scorpio - Ketu; **Navamsa:** Leo - Ascendant; Libra - Moon and Venus; Scorpio - Mars; Sagittarius - Ketu; Pisces - Mercury; Taurus - Jupiter and Saturn; and Gemini - Sun and Rahu. Will 10th lord Mercury with Jupiter and Rahu give a career in the Civil Services?*

R. Srinivasa Rao, Rajahmundry.

Ans: The data is incomplete. The Sun is placed in two signs. The positions of Mars and Ketu are not given. Mercury is lord of the 10th and debilitated in Navamsa. Civil Services at the Central level are ruled out. This answer is subject to a guess about the positions of Mars and Venus. Mercury, Rahu and Jupiter are in the house of Venus.

---

*Q. 8. **Rasi:** Aquarius - Ascendant and Ketu; Gemini - Mars; Cancer - Moon; Leo - Rahu; Scorpio - Mercury and Sun; Sagittarius - Jupiter and Saturn; and Capricorn - Venus. **Navamsa:** Taurus - Ascendant; Leo - Jupiter; Virgo - Rahu and Mercury; Scorpio - Saturn; Sagittarius - Moon; Capricorn - Sun; Aquarius - Venus; Pisces - Ketu; and Aries - Mars. (a) Do the Sun and Mercury in the 10th and Saturn and Jupiter in the 11th house show exalted Government service? (b) What combinations show litigation with Government and its outcome?*

Shomit Ghosh, Calcutta.

Ans: (a) There is an exchange of houses between the 5th and the 10th lords. There is a very good career. The period of the Sun comes late in life. Government service is indicated. (b) The 8th house has the aspects of Mars and Saturn. Mars is the lord of the 10th. The 6th house with its own lord is hemmed between malefics. The outcome may not be favourable in the middle part of the major period of Venus.

---

*Q. 9. **Rasi:** Aquarius - Ascendant and Mercury; Pisces - Sun, Moon and Rahu; Aries - Venus and Saturn; Virgo - Ketu and Jupiter (R); and Scorpio - Mars. **Navamsa:** Aries - Ascendant, Venus and Saturn; Leo - Sun; Virgo - Rahu; Scorpio - Mars; and Pisces - Mercury, Moon, Ketu and Jupiter (R). The native wishes to join the Indian Foreign Service. Can he make a career in it? Will he achieve any high distinction in his life?*

M. Suryanarayana, Bangalore.

Ans: Yes; 10th house is strongly conditioned by Mars, own lord in Vargottama, giving rise to Ruchaka Yoga too, helpful for administration; 9th is aspected by Lagna and 9th lords favouring overseas orientation. He can gain distinction provided affliction to matrimonial life does not come in the way. Rahu-Ketu axis is the fly in the ointment.

---

*Q. 10. The 7th is aspected by Saturn and 8th lord Moon is in the 7th. The **Karaka** is in the 12th; Why has there been a delay in marriage? Saturn is propitiated in February 1988.*

Ans: The 5th lord ...ercury is well-placed in the ... Vargottama with ...gottama Sun aspected by ...n lord Mars. Mercury is also retrograde which makes him very strong and can show doctoral studies as well. However, during 1993, when Sun Dasa ends (in March) and the Moon Bhukti of Moon Dasa begins, there may be some setback in your master's course. However, this only calls for extra perseverance and hard work and once Moon Bhukti is over, you should be doing quite well in your studies.

Q. 2. I am a law graduate but in my family business with my father and brothers dealing in consumer goods. I would like to start a sericulture farm on a medium scale by taking lands for lease. Is this advisable?

Venus which does rule out sericulture. The Moon Dasa now on must be allowed to finish in December 1993 after which you can go ahead with your idea. The next Dasa lord is Mars who as Lagna lord is a strong benefic and placed in the 2nd house in Taurus and favours financial success.

Q. 3. My brother's career is virtually in doldrums. He did not fare well in some jobs until 1986 when he quit service and has been on his own since then doing nothing in particular. Would business suit him?

and now in that of Venus also. Venus is the Yogakaraka and well-placed in the 5th aspected by Lagna lord Saturn (R) and Rahu. Saturn has exchanged signs with 11th lord Mars which is a plus point for monetary success but this exchange is somewhat blemished by the nodal axis.

Mars Bhukti of Venus Dasa will begin in July 1993. Mars is the 11th lord and in a trine from Dasa lord Venus who is also the 10th lord. This would be a good time to start business especially in products like edibles, condiments, snacks, pharmaceuticals and allied articles.

exchanged signs with 3rd lord Jupiter. Venus is also exalted and his Dasa has just begun. Venus occupies Pisces, an intuitive inspirational sign. Therefore, the boy is in the right line. Jupiter's transit of Virgo may be particularly significant in this regard when the limelight may turn on him. As Yogakaraka, Venus will also take care to generate opportunities for earning well.

Q. 5. I am unemployed since June 1986. Inspite of my qualifications and utmost effort on my part, everything leads to a dead end. Very much in debt and penniless. Please examine my horoscope.

And: The basic weakness of the chart is the Ascendant and Moon being weak and in the 10th house. Jupiter's aspect on the Ascendant makes up for this deficiency to some extent. Further, the 8th and 9th lords have exchanged signs which is also a good thing to have. Most of the planets in the visible half of the horizon point to a relatively better phase in later years. Rahu Dasa is now running. Once Venus Bhukti begins when transit Saturn will also be in the 11th from natal Moon, a new source of income may open up. Since Rahu is in the 8th house from the Moon, it may take the shape of a windfall, legacy etc., which would enable you to lead a fairly comfortable life.

Q. 6. I am confused as to which line would suit me. Should I do some business or join the army?

S.N. 15829

Ans: The Ascendant has Mars. The Moon and the 10th lord Sun are in Aries showing the predominant influence of martian traits and characteristics. Such an

individual may not be capable of good and carefully considered decisions which is imperative in business deals. As such, it would be better to join the army where income would be regular while because of certain limitations in the chart, you will be lacking in business acumen and, therefore, only inviting losses.

Q. 7. Will I get a promotion in June or July 1992? If not, should I leave my job and do export business?

S.N. 17936

Ans: You are now at the fag end of Mercury Dasa. Transit Saturn is in the 8th from natal Moon. Both these

Born 26-12-1950 at 7.10 a.m. (IST) at 26 N 29, 80 E 21

influences caution against going in for major changes in life. In other words, this is not at all the right time to embark on export business as it can bring in only heavy losses. Since the period is not supportive, your promotion may also prove elusive but it is important you do not give up your job as it can invite quite adverse consequences in the next few years. ●

How is April 1992 For You?

UTPALA

[illegible] The Sun transits Pisces till 13th and then enters Aries. Mars transits Aquarius till 24th and then enters Pisces. Retrograde Mercury in Pisces resumes direct motion in the same sign on 10th and continues his progress there. Jupiter continues his retrograde motion in Leo. Venus in Aquarius enters Pisces on 1st and then moves on to Aries on 25th. Saturn continues his progress in Capricorn. Rahu and Ketu continue their counter-clockwise movements in Sagittarius and Gemini respectively.

Mesha (Aries)

General: The Sun in the 12th and the 1st, Mercury in the 12th and Saturn in the 10th are all unfavourable; the Sun is under check till 11th and Mercury till 25th. Mars in the favourable 11th till 25th with Vedha transits afterwards the adverse 12th. Jupiter in the 5th is fully favourable. Venus in the favourable 12th and 1st yields to Vedha till 25th. The good influences will be more in evidence. Relief from past financial commitments and success in business ventures are indicated. Official favours are also likely. Bharani is better than Aswini and Krittika.

Health and Domestic: The month will be, more or less, trouble-free from the point of view of health. Chronic sufferers may find the month helpful. Your eldest son may establish private business of his own and he will make good in this venture. Domestic life will be peaceful and harmonious practically throughout.

Finance and Speculation: Quite a good month for all financial matters. A financial legacy of good magnitude is likely to be conferred on you by a close relative of yours unexpectedly. This is not a good period for speculative transactions.

Real Property, Services, Professions etc.: The month will be satisfactory for all transactions pertaining to real properties. You are likely to sell one of your buildings at a fabulous price and reinvest the sale proceeds. This is a very good period for the services, industries, professions and businesses.

Women: Love affairs are likely to blossom into happy wedding during the second half. This is a good month for working girls who may be promoted and transferred to places of their choice.

Students: Listlessness and indifference towards studies should be controlled ruthlessly and you should make determined efforts to concentrate on studies. You should curtail considerably your sports activities. You are most likely to be invited for an important interview and selected for the appointment concerned. "His job dissatisfaction and bad relations with higher officials may be attributed to the opposition of Sun and Saturn (separated by 178° 52')" writes reader Dr. S. T. Suryanarayan Rao of Kasargod, Kerala.

Nothing to Grumble About

As very lucidly explained by many of our readers, the chart is not as bad as reader Satyanarayana thinks it is. Mars has a strong influence on important sectors of the horoscope but not necessarily malevolent. The drawbacks in the chart are primarily due to the Lagna lord Mercury and Moon in the 12th with their sign-dispositor Venus in the 12th therefrom. Luckily, Jupiter aspects both Lagna lord and Mercury which is a big help.

Mars as 6th lord aspecting Lagna from the 10th may give the native unrealistic ambitions. That is, his objectives far outpace his abilities. Naturally, the gap between the two can lead to much frustration. Nevertheless as reader Dr. Suryanarayan Rao so succinctly points out Mars in the 10th has Digbala and is doubly strong being aspected by sign-dispositor Vargottama Jupiter. So, things are bound to improve as Rahu Dasa progresses. The last 4 or 6 years could have been frustrating with the transits of Saturn combining with the Bhuktis of unhelpful planets in Rahu Dasa. Further, Jupiter Dasa is yet to run and can set right most matters, careerwise and also relating to relationships, in ways totally unexpected by the native.

Double Details (A.M., November 1991)

Dismal Forecast

"*Rasi:* Sagittarius - Ascendant 2-28, Ketu 4-47 and Moon 15; Aquarius - Saturn (R) 7-14, Taurus - Jupiter 3-09; Gemini - Rahu 4-47; Cancer - Mars 7-08 and Venus 14; and Leo - Mercury 12-52 and Sun 29-35.

Mars, one of the significators in the context of marriage, falls on the descending *eclipse point* as under:

Lagna 252 - Rahu 65 = *eclipse point* 187°.

Mars 97° on descending *eclipse point* 187/97 axis.

Based on the article "Points to Ponder—VI" by the learned H. R. Shankar (*A.M.* of November 1986), the above details indicate marriage is denied to the native. As her twin sister was born within minutes of her birth, his lying should apply to her also" concludes reader S. Doraiswamy of Secunderabad on a dismal note.

Yes, But Late

"Below are the two horoscopes cast by me for which the girls' mother wants to know when they will get married.

Neeta: Rasi: Ascendant 249-58, Sun 151-11, Moon 262-53, Mars 98-28, Mercury 135-24, Jupiter 44-9 (R), Venus 105-54, Saturn 318-13, Rahu 65-53. *Neeta: Rasi:* Ascendant 251-36, Sun 151-47, Moon 238-22, Mars 98-25, Mercury 135-22, Jupiter 34-11 (R), Venus 106-06, Saturn 308-13 and Rahu 65-47.

"One of the important guidelines to answer this question is Saturn in transit should aspect both the natal Lagna lord and the 7th lord, covering 1/7 axis (*A.M.*, May 1986).

"In the case of the 2 girls in question, such a transit position of Saturn occurs only when it transits Leo. From Leo it aspects Lagna lord Jupiter in Taurus (10th aspect). The 7th lord Mercury is already in Leo then. So the girls will get married only then. It looks odd that they would get married when over 40 years. But now-a-days this is not uncommon" writes reader K. Narayanan of Delhi.

Ans: The 7th lord Mars, though in his own sign, is with the Sun which can make the husband hard-hearted. Jupiter aspects the 7th house, so does Yogakaraka Saturn. The Dasa now running is of Saturn who is in the 5th from Lagna and in the 4th from the Moon. Saturn is also aspected by Jupiter. Therefore, the marriage may get sorted out especially after Moon Bhukti egins in August 1992. The Moon is in the 2nd with benefic Venus in Kutumbasthana. herefore, for the time being, it is better to stay quiet. After transit Jupiter enters Virgo in eptember 1992, efforts may be made to bring the couple together.

Therefore, it would be advisable for the girl to train for a career or work for job-opportunities before getting married.

Born 31-3-1962 at 11.15 a.m. (IST) at 23 N 10, 79 E 59. **S.N. 16884**

Ans: The Ascendant is a common sign. The 7th lord Jupiter joins the 11th lord Mars in the 9th house. Venus, the Karaka of marriage, is in the 11th house. These factors do not rule out a second marriage but much effort may be required to find a suitable match. From the Moon-sign too, the 7th lord is with 2 *grahas* — Saturn and Ketu, showing a second marriage.

Astrological Activities

Glimpses into Hindu Astronomy

Addressing the Senior Citizens Forum on Wednesday, 18-12-1991 at the Vijaya Bank Head Office, Bangalore, DR. B. V. RAMAN, Editor, THE ASTROLOGICAL MAGAZINE, said that the ancient Hindus had made remarkable progress in their study of astronomy. It was an undoubted fact that no other people upto the 17th century had so much knowledge of theoretical and observational astronomy as the ancient Hindus.

Mr. Justice E. S. Venkataramaiah, former Chief Justice of India, presided.

Those present included Mr. Justice Nittoor Srinivasa Rao, former Chief Justice of Karnataka, Dr. M. A. Srinivasan, Dr. P. C. Alexander, former Governor of Tamil Nadu, Mr. Lakshman Rao (IAS) Retd., Prof. Ramesan, Dr. D'Costa, and other eminent citizens.

Welcoming the distinguished gathering Prof. N. S. Ramaswamy, Director, CARTMAN, paid rich tributes to the speaker of the evening.

DR. RAMAN said that Hindu astronomy began to fall on evil days after the death of Bhaskaracharya until the 17th century when Raja Jaisingh II of Jaipur took up the science and founded four observatories at Delhi, Ujjain, Varanasi and Jaipur. Jaisingh detected 200 years ago many errors in the calculations of European astronomers by his own observations.

Giving an account of the general cultural background of ancient India that gave birth to an astonishing variety of disciplines, DR. RAMAN pointed out that most nations borrowed their knowledge of astronomy from the Hindus.

Quoting from *Bhoutika Sutras* and several classical astronomical treatises, DR. RAMAN proceeded to prove that much of what had come to be accepted as the theoretical achievements of modern science and astronomy, like gravitation, movements of the earth, planets, the Sun and galaxies, the conception of time and cosmology was anticipated with amazing accuracy centuries earlier by intuition and mathematical calculations of the ancient Hindu savants. The differences between the Hindu and modern astronomical calculations were well within the range of differences that obtained amongst the modern scientists themselves.

DR. RAMAN also briefly dealt with the scope, significance and limitation of Astrology and its utility to mankind making special reference to the role Astrology could play even in national affairs. He illustrated a number of horoscopes of world leaders.

DR. RAMAN referred to the profound observation of Dr. Einstein, the great architect of relativity, that at the end of a lifetime of inquiry into the nature of the universe he discovered "a spiritual reality — an illimitable superior spirit who reveals himself in the slight details we are able to believe with our frail and feeble minds".

In his presidential remarks, Justice Venkataramaiah said that since ancient times Indians had defined the year as of 365 days. They had been able to time the exact occurrence of eclipses. They had divided the year into seasons based on the movements of the Sun. All this had been possible only because ancient India had somehow obtained knowledge of the movements of heavenly bodies. This fact itself, emphasised Justice Venkataramaiah, was sufficient to prove our amazing and high attainments in science and mathematics. He said DR. RAMAN had given a vivid account of Hindu astronomy and it was lamentable that astrology which was based on Astronomy and which had so much potential in it was being scoffed at instead of being explored. People everywhere were the same and experienced the same kind of problems in relation to personal relationships, emotions and family vicissitudes. And it was Astrology alone that could provide guidance when one was faced with traumatic situations in life.

The meeting concluded with a vote of thanks.

Dr. B. V. Raman, Editor, The trological Magazine, presided. s. Rajeswari Raman was also sent.

P. S. Ramanujam, I.P.S., spector General of Police, rnataka, was the Chief est.

Addressing the staff, udents and members of the dience, Dr. Raman deplored e dual attitude adopted by e educated Indians in general wards Astrology. He said it s a pity that this ancient ience would come to be cognised in the country of its rth only after the West started lling it. Ancient Indian inkers were not just hair-litting philosophers. They ere the creators of branches of owledge which were the onder of today's thinkers. The eat mathematician haskaracharya had discovered Differential Calculus 11 centuries before Europe even dreamt of it. Geometry and Trigonometry were discovered by the Hindus; and in their route through Arabia to the West took on these names from the Sanskrit *geomiti* and *trikonamiti*. It was deplorable, said Dr. Raman, we were celebrating Copernicus day and not Varahamihira or Aryabhata or Bhaskaracharya day. Dr. Raman called upon the students to cultivate the spirit of inquiry and to uphold the dignity of this ancient science.

Dealing with his own experiences in predictive Astrology, Dr. Raman observed that the correctness of prediction rested on "analysis, synthesis and perception" the last depending upon one's intuitional power. Dr. Raman also emphasised the need for observing a strict ethical code by astrological practitioners. This naturally implied the cultivation of *Yama*, an important ingredient of Ashtanga Yoga. This meant that an astrologer must try to transcend the levels of hatred, jealousy and vindictiveness, so that his mind was purified and the subjective factors lessened.

Dr. Ramanujam, a scholar in Sanskrit and literature, said although he could claim no proficiency in Astrology, he had had remarkable experiences with it which showed it had much truth in it. Anyone who criticised Astrology should, in the first place, be aware of not only what it was, but also what it was not. Unfortunately, the so-called rationalists and others, who denigrated Astrology, were doing it from a point of ignorance and an in-built feeling of inferiority, largely due to brainwashing during the British period. This had been engineered by scholars like Max Mueller who gave a racial connotation to the term *Arya* in a policy of 'divide and rule'. The translations of the Vedas by Max Mueller were motivated by religious bias. It was unfortunate people had allowed themselves to be misled by such brainwashing. It was fortunate that Dr. Raman was around and had done much to revive interest and respect for Astrology.

Dr. Ramanujam then distributed certificates to candidates successful in the exams conducted by the Association. Special prizes, under an endowment set up by Dr. and Mrs. Raman, were given to outstanding students.

Earlier, Mr. Narayan, Director of the Association, welcomed the gathering.

The meeting concluded with a vote of thanks.

L to R: Smt. Rajeswari Raman, Dr. B.V. Raman (delivering the valedictory ddress), Dr. P.S. Ramanujam, Mr. K.V. Narayan and Mr. T.S. Chandrashekar.

Special Suggestion Poll — 1991

Thank you readers for your overwhelming response to the Special Suggestion Poll.

The winners of the Poll held in October, November and December 1991 are:

I Prize - Rs. 400/-

A. Balakrishna Rao, "Brindavan", Old Convent Road, Bajpe 574 142

II Prize - Rs. 200/-

E.S. Balasubramaniam, 208, R.K. Mutt Road, Mandavalli, Madras 600 028

The 5 third prizes of Rs. 125/- go to

1. V. G. Kalkundrikar, Hyderabad
2. T. R. Kulathu Iyer, Madras
3. Vijay Singh, Jaipur
4. K. Venkateswara Rao, Hyderabad
5. V. Padmanabhan, Bangalore

The consolation prizes, 5 in number, of a year's subscription go to

1. Y. S. R. Sastry, Indore
2. Daulat Singh V. Thakur, Bombay
3. Iyer Kannan, Thane
4. P.K. Venkatesan, Coimbatore
5. Lakkundi, Hyderabad

Our congratulations to all the winners.

The task of reviewing the mountainous number of suggestions we received by the year's end was a truly herculean one. But it was a delight to feel your pulse and the involvement you have all shown with THE ASTROLOGICAL MAGAZINE family.

Some of you, readers, have seen us grow over the last five decades. Suggestions you have sent us have been treated as both blessings and advice with salutory respect.

The entries we received portrayed a wide panorama of reactions — excitement, happiness, pride, indignation, anger and even plain complacency over the fare offered by THE ASTROLOGICAL MAGAZINE. We give you a brief, miniscule, review of what our readers have written to us from around the country and even from across the seas.

Most readers are happy with all the features, save **My Turn**. Clip it off, they have said in one unanimous voice. Others are so angry we even asked this question in the first place. Let them stay, some readers say, but why don't you delete the planetary positions and other details in the forecast for the month and the year? Most of your readers, they tell us, have a fairly good background of Astrology and can locate the planetary details from any ephemeris. It is precisely for this reason we carry technical details so that you can understand and appreciate the predictive analysis better with the planetary details to guide you. These details are important because our main aim is to create a proper awareness of the content as well as potential of Astrology.

The Book Review Section has been invested with a subtle dignity with Mr. Pundit's reviews which are both balanced and objective, our readers feel.

The Farmers' Guide is a great help but why don't you also include a weather bulletin each month ?, ask some of our readers. **The Ephemeris** and its utility cannot be underestimated and it would be of greater value if you could provide all the astronomical

Lectures at Mysore

Mr. H. S. Venkata Rao, a well-known astrologer, delivered a series of lectures on "Jyotisha and Jeevana" at Rama Mandir, Jayanagar, Mysore, from 17th to 20th December 1991. In the course of his lectures Mr. Venkata Rao dealt with the scientific nature of Astrology, Karma and Rebirth, the influence of planets on Jeeva, Dhatu and Moola. He explained how Astrology was also an art. The 3rd lecture covered the significance of the *Panchanga* and also touched on numerology and palmistry. The last lecture in the series highlighted the applicability and relevance of Astrology to different areas of life such as education, vocation, weather, travel and also disease.

The lectures were well received by the public.

etails in the January issue self is another fairly common uggestion.

The lessons by Mr. ranganti Rangacharya make s comfortable understanding he Jaimini system which had lways scared us before by its ntricacies, write many readrs. Palmistry is not Astrology nd one article once in a while s okay, according to our readrs. But the present series is ood, only the diagrams are ot clear enough, they tell us.

And according to some, you hould avoid articles that spill nto more than one issue. But eaders, this is not always posible if the content and quality f the article justify its serialization.

The quality of the paper needs to be improved and also, the printing. What about the costs? You can always accept more advertisements they tell us. Simple enough but then we are not an absolutely commercial organisation although the economic angle cannot be overlooked either.

Your Technical Difficulties Solved and **How is This Month for You?** are the best features according to a majority of our readers but slightly marginalised only by the **The Astrological Miscellany** and **As It Strikes Me. Astrology and Women's World** and Anuradha's feature on career counselling are particularly appealing for the insights they provide in the art of interpretation, according to others. My very special suggestion, writes an indignant reader, is you must be more articulate, whatever that means.

You must reproduce Sanskrit works like **Sarvartha Chintamani, Brihat Samhita, Jaimini Astrology** with translations by stalwarts like Prof. B. Suryanarain Rao and V.S. Sastri. The translations of some of these classics by upstarts available in the market are disgusting. In fact, they are an insult to the great masters. And as a pioneering journal in Astrology, it behoves on you to do something about all these low-quality translations, write our readers. We do concede, dear readers, this suggest merits serious attention. Translations by the old master are incomparable in quality or erudition backed by sagacious experience but there is very little we can do about the editions circulating.

THE ASTROLOGICAL MAGAZINE is complete in itself with its regular features and various contributors writing on different astrological techniques. So also the organisation which furnishes valuable information on request at any time, tell our readers. A small number of them is disgruntled that in spite of sending queries more than once to Mihira, Anuradha and Arundhati, they have not been answered. Well, we are sorry this should have happened to them. Write again and we assure you, we will expedite the answers. But also remember, each columnist receives hundreds of queries. Each month we can accommodate just 4 to 5 or even 6 but not more in **Planets and Career Counselling** and **Astrology and Women's World.** Mihira is more generous but even his column faces space constraints.

Some of our old-time readers write: Most of the articles in the 1940's and 50's were of a high educative value and by merely reading them, one was able to improve one's astrological knowledge. They were written in simple elegant style with strong emphasis on astrological factors. But now the magazine appears to have lost its charm, may be due to the way the articles are presented or may be due to lack of references to classical works. Some of the theories now enunciated of judging children from the 12th house or of Jupiter aggravating Kuja Dosha are not only far-fetched but smack of scant regard for our great Rishis. The less said about some of the writers now, the better.

The Editor has written hundreds of editorials, each a priceless piece of astrological knowledge. Eminent writers like Mr. Lakshmanan, Mahalinga Sastrigal, V.A.K. Ayer and Venkata Raman wrote in such a manner as to inculcate in the younger generation respect for this great Upaveda.

Astrology lessons should be started, but only a very small section of our readers say that. That is just a waste of space, many tell us. All of us know the fundamentals and there is no point in giving lessons.

We like the way you analyse political charts from various angles. Regarding the predictive value of the editorials, they are second to none in this field. The subject of mundane Astrology itself is very intricate and open to criticism, but then the way you handle it only proves the calibre of our Editor, our readers pat us on our backs.

A small section of our readers think: All important Vedic

texts, Vedas, Upanishads and Puranas should be serialised with original slokas in Sanskrit, their English transliteration and also translation. Whew, that is a difficult thing to do ! What do we then do with the Astrology matter ! Where will we put it ? A more reasonable suggestion from others is to have an occasional article on these subjects.

As It Strikes Me points out incorrect and ignorant criticism of Astrology, but sometimes the tone is too harsh, tell our readers.

About errors, some readers console us 'To err is human'. Very true, but can we get complacent about them? You are, write others. There are times when quality lags and can draw ridicule from educated readers. (We believe all our readers are all educated and more important, highly enlightened too.) Yours is a class magazine. Avoid gimmicks and graphics, they tell us.

A few well-meaning readers give us a piece of their mind. You are good but somehow over the years, success has entered your head and you have started losing perspective. A certain amount of arrogance has crept into your writings on political and general matters. Maybe you would like a Ministry of Astrology at the Centre and one of your editorial staff would like to be Minister-in-Charge and for all decision-making, a Muhurta should be selected. The entire Government, you seem to think, must be run by this Ministry, say a few readers dripping with sarcasm. Not a bad idea and our country would most certainly benefit from such a Ministry! Anyway, do Public readers, you may rest assured we ourselves entertain no such political ambitions.

Regarding the best articles many have refrained from saying anything since they feel they are not qualified to stand in judgement over scholars. The Editorial of January 1991, otherwise, walks away with the cake. The fall of Gorbachev, the earthquake in North India and the Bank scandal (BCCI) which was the only one of its kind in banking history were wonderful, not to mention other developments such as the polls and national mourning, our readers tell us. No one could have anticipated these developments except DR. RAMAN through Astrology. And this one article is sufficient to stop all challenges to Astrology, write a very large number of our readers. The second best, according to them, is the editorial **Planets and Mid-term Polls** in the June 1991 issue by Gayatri Devi Vasudev, in which the predictions were verified by the turn of events. Other readers write if the editorials cannot be classed as articles, then we would all single out H. R. Shankar's **Management of Wayward Tendencies** (page 769) as the best not only for his lucid, free-flowing presentation but particularly for the way he highlights, ever so subtly, the role of effort in astrological solutions to problems. **Marakas or Badhakas** by Buell D. Huggins also figures high as one of the best articles of the year followed by C. S. Patil's **Interpreting Bhinnashtaka varga** (Annual 1991) and the late V. A. K. Ayer's **Upgrade the Predictive Tools.** Almost all articles of Sri Rajneesh's **Astrology — A Door to Religiousness** (February 1991) was excellent. Research papers by Mr. K. N. Rao's circle are interesting and often throw up a new angle. Other articles that have drawn much encomium are **Combustion as a Source of Strength** (November 1991), **Major Transits and Historic Events** by C. S. Kothare, Iranganti Rangacharya's **Predicting Parental Death According to Jaimini** and **Why Predictions Go Wrong** by Man Mohan Kishan Wali. The series **Yoga in Daily Life** by Mrs. Rajeswari Raman was also well received by a majority of the entries. **Reflections on Ramayana** also provides much food for thought, said our readers, and could appear more often. The September issue, the Surya Prakash Memorial Number on Prasna, was liked by all our readers.

Since the annual subscription was revised, the amount for the 3rd prize had to be hiked.

We thank you all for participating in this Poll and also for all the highly interesting suggestions you have sent us. We have discovered with this Poll what a large and wonderful family we and our readers constitute and we look forward to many more years of being and thinking together for on and about Astrology.

Those who know Astrology can only indicate in a way what will take place in future. Who else, except the Creator Brahma, can say with certainty what will definitely happen?

The Role of Mars in Killing Sprees

ON November 8, 1985, the bodies of a man (39) and a woman (39), their sons aged 13 and 10 and of their daughter (14) were found by the police at Mount Vernon in the S.A. The next day, the eldest son of the nily Thomas Odle, aged 19 years, was arted. He confessed to the killings, hours later.

Thomas Odle was found guilty and senced to death on July 1, 1986. He went ough various available appeals and now reins on death-row awaiting execution. How ld a 19-year old bring himself to commit such einous crime especially that all the victims re his own family members and one of them s just 10 years old and one who would fondly described as 'kid brother'?

The murderer was born on 20-12-1966 at 2 p.m. (CST) at 38 N 19, 88 W 52 with mini rising in Aridra and the 3 malefics Mars, n and Saturn spread over 3 quadrants. The on in the 10th comes under the combined uences of Mars and Saturn. Exalted, retrode Jupiter aspects the Moon who is in Revati ruled by the spineless Mercury. In this case Mercury is rendered violently malevolent by his occupation of Scorpio in an exchange of signs with 6th lord Mars.

What shall we look for in this wretched and pitiable chart? Combinations for homicide, worse, for killing one's own parents and brothers? Or, shall we look for insanity? Or, shall we try to find out if this man will be electrocuted or if there is hope for him to live on and enjoy a fresh lease of life with a heart purified by repentance or *paschatapa?* We shall start with the first.

secretive, brooding sign. Mercury here has exchanged signs with 6th lord Mars involving the 4th and 6th signs showing a highly volatile and possessive mother - relationship with strong overtones of hate, domination, anger, resentment. Since Mercury is also the Lagna lord, the native also suffers from these traits of Mars. This results in a vicious, unyielding, rude temperament that is prone to harbour intense bitterness and rage which take on the shape of vindictiveness, the degree intensifying with the magnitude of the affliction. In fact, Mars in Virgo gives a nervous, irritable disposition, often conceited, mutable and intolerant of any form of control. Such natives are rarely, if ever, fortunate. Mercury on the other hand, and the sign Gemini which is the Ascendant, if not strong and otherwise weakened by afflictions will make one mean, unprincipled and given to slandering others. In Scorpio especially, it gives a very intense nature that craves for a near perfect kind of love and if this is not forthcoming, this craving is transformed into great depths of self-pity and paranoid fears. Here, in Odle's case, Mercury is in the 6th in a Dusthana caught between malefics Sun and Ketu and robs the native of any reserves of discrimination and judgement. Jupiter aspects Mercury, no doubt, but being retrograde, not exactly in congenial ways.

The Moon in Pisces is with Saturn which makes the native highly unfortunate. This is rendered worse by the aspect of the fiery Mars which only adds fuel to fire. The 4th house is heavily afflicted, so is the 4th lord. Matrukaraka Moon is aspected by Mars and is with Saturn which is hardly conducive to a congenial home environment. Life was happy and normal in the Odle family until he was about 11 years old. But after that Thomas Odle himself says, "I don't know what happened, but that's when everything started going crazy and we all started fighting". Most of the happy period came under Mercury Dasa with exalted Jupiter in the 2nd aspecting the Dasa lord Mercury (who is also th 4th lord). As the last Bhukti of Saturn began Mercury Dasa, things began to go wrong an home was no longer the happy place. Ketu, th next Dasa lord, was taking over. Ketu in the 5 is in a Venusian sign and Venus is aspected malefic 6th lord Mars, the trouble-shoote Further as Ketu is said to give results akin Mars, tension, anger, hate took over the Od family in Ketu Dasa. In the course of sever interviews, Odle testified he and his broth Sean had been chained to the bed as youn sters. Mars in the 4th shows strong ang against the mother and especially that he is th 6th lord (ruler of enemies for Gemini), an affects the 4th house, he could no longer stan the family members.

"Imagine someone you don't like. Someon you just can't stand and who makes you angry just hanging around. And then imagine bein forced to live with them day after day.

"They are always there, nagging. The anger keeps building and building inside. My anger snapped."

And this was his mental state before the killings on November 7, 1985 which comes under Mars Antara Rahu Bhukti of Ketu Dasa. It is Mars all the wa *vis-a-vis* the directional influences. Ketu give the results of Mars. Rahu is in Aries reflectin martian results signwise rendered ghastly by th 8th house aspect of Mars again, as 6th lord And to top it all, Mars was the ruler of th Antara (sub-sub-period) as well. And on the da (Chart 1A) of the gruesome murders, Mars Ketu, Mercury and Rahu were in their natal sign in Virgo, Libra, Scorpio and Aries respectively Mars and Mercury additionally, as at birth, wen in Parivartana also triggering a volcanic upsurg

notions in Odle's mind, jerking him so ntly out of his sanity, he rushed into the etuation of the heinous killings of his family bers.

What factors drove him to this wicked course tion? He had a problem, no doubt, but this not a solution which could solve it. All it did tually was to generate a host of other lems more grave than the first which now to have no solution at all.

he Moon, ruler of the mind, is in the 10th e, a powerful Kendra aspected by exalted er, its sign-dispositer. This in itself rules nsanity as the cause of the crime. But the n here is influenced by Mars and Saturn, 2 erful malefics and this can give a personality is at odds with itself. An anti-social person- is the result therefore and which, under the opriate kind and quanta of provocation, go out of control. Any catalytic agents, an or other, can also accelerate the process. e, it is reported, had consumed whiskey, juana and LSD on the morning of the gs and this is believed to have 'snapped' his aints inside.

lo killer kills all the time. Nor does he our such an intention perpetually. But the instinct can lie hidden deep down some- re in the innermost recesses of the mind g its time for an opportune moment. This nct is not universal. Only some people have d no one knows it exists, not even the killer elf, until the dastardly act is already gone ugh or a process of doing it has been set into on either at the mental level or on the ical plane.

According to *Jataka Tattwa*, L 155

लग्नापारावेकांशगौ क्रूरहत्या

neaning, if the lord of the Lagna and s conjoin and be in the same Navamsa, native will commit terrible murders.

he lord of the Lagna, Mercury, is in Scor- and in exchange of signs with Mars. This combination is not exactly the same as that quoted above but it answers the requirements in a general sense. It is rendered potent by the highly malefic nature of Mars' lordship. The Lagna lord Mercury is a volatile planet and in his own constellation Jyeshta gets no stabilizing strength so that it is Mars who takes complete charge of the native's psyche. Add to that the Papakartari Yoga squeezing out any strength left in Mercury and the picture emerging is clear enough. Additionally, the 4th house has a strong affliction and the 5th house has Ketu. Given the right Dasa and Bhukti, the killer in Odle is not difficult to spot and identify. But who cares? No one sought an astrological assessment which could have been judiciously employed to weed out the killer instinct and help him reorient his emotions and thoughts. In fact, the society, the family and the people involved in this bizzarre tragedy may not have even been aware that there was such a discipline as Astrology as could have been used to make for a totally different scenario than has been already enacted and the curtains rung down. Not surprising considering the fact the potential of Astrology is hardly understood in the land of its own origin! What then to speak of a distant country with a totally alien culture of its own, a culture filled with many good points but unaware of the great science of Astrology and its marvels?

Mahadeva's dictum is a very simple one but even here, the intensity of the combination varies from chart to chart depending upon the Ascendant and the positions of the planets.

The Ascendant lord and Mars must combine and in the same Navamsa. This is possible, to begin with, when both the planets occupy the same Navamsa within an arc of 3° 20' or 200'. They should, in other words, occupy the same Nakshatra pada. Here, both planets would then be sufficiently close and under the same constellational influence to be able to direct their joint destructive energy to one focal point. For example consider Aquarius Lagna rising with its

ruler Saturn at 8° Virgo in Uttaraphalguni, 4th quarter or pada. Mars at 7° or even 9° or anywhere between 6° 30' and 10° Virgo would fulfil the conditions of the dictum, pointing to a potential killer. The Lagna lord Saturn and Mars would be in the same Navamsa of Pisces. This is an ideal case where the dictum fits like a glove and luckily (or unluckily) there is a classic example available with this combination and its results.

Adolf Hitler (Chart 2) had Mars at 25° 30' Aries and Lagna lord Venus at 25° 50' Aries in exact degree conjunction in the same Nakshatra pada - Bharani 4th. The two planets occupy the same Navamsa and in this case, the murderous sign Scorpio. And we know with what horrendous results! Hitler was responsible for thousands of killings. His avowed objective of exterminating a whole race led to gruesome methods of mass killings being devised by his equally cold-blooded men.

Take another example (Chart 3) with the same Lagna and similar combination.

The Ascendant Libra has its ruler Venus at 25°53' Libra and Mars in the same sign at 27°39'. The two are in conjunction in Libra in different Nakshatrapadas, Venus in Visakha (2) and Mars in Visakha (3). They, therefore, move into two different Navamsas breaking the deadly spell of the combination. This man was an Apostle of Non-Violence in strong contrast to the Nazi leader, a personification of *himsa*. There are other reasons too for the widely differing personalities, but our attention must be focused on the influence (or lack of it) of Mars.

Two planets in the same Navamsa as this dictum requires does not always occur with such perfect precision as in Hitler's case. The same length of arc (3° 20') can hold the 2 planets even in different Navamsas. Would they still produce killers? A logical answer and many times, the right interpretation, would be not to limit the application of the dictum *ad verbatim*. Some extension and modification is always allowed so long as the essential requirement of the combination is met with.

The location in the same Navamsa of the two planets can also imply their being connected in some way in the Navamsa as when they occupy opposite Navamsas and also when the Lagna lord receives the aspect of Mars in Navamsa. They need not necessarily be in conjunction in the same sign in Rasi. They could occupy each others' signs or even each others' Nakshatras. In other words, it would appear the underlying principle was a strong martian Navamsa influence — by ownership, position, aspect or association.

For example in Chart 4 of Dennis Nilsen who confessed to killing 15 young men and also attempted to kill another 7, the combination is present but not very clear and can only be picked out with some care. This man is said to have cut up some of the bodies to make their disposal easy. He was a small time government clerk who had formerly worked in the army and had also served as a policeman.

The Ascendant lord Mercury is in Aries Navamsa and though not with Mars as defined

ung San Suu Kyi

Myanmar's war goes on uthlessly with the military junta gainst the movement for democracy. Aung San Suu Kyi who heads the freedom fight gainst the military junta won he elections for her party in May 1990, obtaining 392 out 485 seats contested. But the military rulers were in no mood o oblige and sentenced important leaders of Suu Kyi's party o different terms of imprisonment. Aung San Suu Kyi was offered release if she left the country which she, however, efused.

Born on June 19, 1945, she ost her father Aung San early when he was assassinated on 19-1-1948. The time of birth being unknown, Sagittarius rising would explain many features f this woman's life of courage nd nationalistic pride.

Aung San Suu Kyi married n Englishman in 1972 in Saturn Dasa, Mercury Bhukti.

Both Dasa and Bhukti lords are in the 7th which also has Rahu showing the non-Burmese husband. The Sun, Saturn and Rahu association and influence on the Ascendant created in her "a deep responsibility for the welfare of the country". So driving and forceful was this that within 2 years of her assuming leadership she led her party to a thumping victory at the hustings in a state infested with military terrorism. Most of her life was spent outside the country of birth consistent with the Dasas of Mars, Rahu and Jupiter, all related to houses connected with *Paradesham*. Saturn, Rahu, Mercury and the Sun in Gemini warn against violence against her person about the time of the June 1992 eclipse. The period between June and October 1992 can expose her to physical danger. While she may not herself be able to assume power, the National League for Democracy will certainly fight the military junta and sooner or later, throw it out of power.

Marriages and Unions

A reader from London writes: "In this country a man and a woman live together for years without getting married, they beget children too. Does it constitute a marriage from the astrological point of view ? Where and how does one look for the ups and downs of their relationship—would the separation be considered a divorce? How to look in a chart if a person has a lover or a mistress?"

These are situations that are not unique to any one culture, continent or race. They are basically related to human passions and urges which are universal in nature. Therefore such situations occur everywhere in the world, the only difference being they may be overt in some countries and covert, in others. Their frequency may also vary from area to area. Such relationships are currently getting the stamp of social approval in western countries but they have always been recognised in many parts of India, especially amongst tribal groups which see nothing unusual in them. They are broadly the result of economic, religious and other compulsions the group concerned may come under.

A man and a woman living together without marriage (legal) is not different from a legalised union in any other respect, except that legal rights obtainable in a marriage are not available to either party. Therefore, such a union has all the astrological factors of a normal marriage. In societies where it is frowned upon, the 6th or 12th house influences surface or an aspect or influence of a malefic

such as Saturn or Rahu becomes evident because the relationship assumes a clandestine colour. Where the social mileau is such that people don't really care if the couple is legally wedded or not, the Dasas of Rahu or Ketu may be operative. The Nodes usually stand for the unconventional and the out-of-the-run results. In cases such as our London reader refers to, such unions though common are still not conventional. Parents may not necessarily insist on a marriage but they may not whole-heartedly approve of such a union. It is another matter the couple in question may not care two hoots as to what elders and parents think of the relationship.

For example, a young Hollander happily married in 1991 has Taurus rising with Mars in it, Venus in the 3rd, Sun and Mercury are in the 4th, Jupiter and Rahu in the 6th, Saturn in the 7th, the Moon in the 10th and Ketu in the 12th. Before the marriage he and his wife had lived together a couple of years, although they did not beget children. The pre-marriage relationship comes under Saturn Dasa. Saturn, a benefic, is a Yogakaraka and in the 7th and is aspected by 12th lord Mars. The 12th house has Ketu, a nodal influence. In Jupiter Bhukti of Saturn Dasa, the pair married. Saturn is qualified to give marriage, so also Jupiter if you talk in terms of regular marriages. The relationship was spread over Mars and Rahu Bhuktis of Saturn Dasa. It was only Jupiter who gave the union the stamp of marriage.

A separation between a couple who has lived together without marriage, even if not constituting a divorce, carries the same trauma and emotional disturbance, that accompany a legal break-up and so, the planetary factors in both cases would be more or less the same. And the quality of the relationship is determined by the running Dasa-Bhuktis as also the afflictions or benefic influences the 7th house and related factors receive. Favourable influences ensure a harmonious relationship and adverse influences can point to storms in the union. For, in such a relationship it is love that initially draws the couple together. According to *Uttarakalamrita*, V - 12, 13

meaning marriage, unchastity, winning of love, enmity with a debauched female, deviation from the right path and

भर्तृपवित्रदारयुगलं गुह्यं च ...मैथुन

purity of the Bhartru or husband, a pair of wives, private parts and conjugal union — these significations coming under the 7th house (Saptamaath) would more or less cover all the aspects involved in a man-woman relationship irrespective of whether it comes under marriage or a plain union of the kind our reader talks about.

The second situation of a married person having a lover or a mistress is easy to identify. There are specific combinations showing two or three or even many wives, and another while the first is living which would cover this situation.

नीचारिमूढांशेऽङ्गपे वा धूनपे कलत्रान्तरभाक । JT K-51

If the lord of the 1st or the 7th occupy a depressed, eclipsed or inimical Navamsa, the native will have either two wives or be adulterous.

ions and therefore is applicable to any situation obtaining in the world but astrological principles have to be adapted and suitably interpreted in the light of the mileau to which a native belongs.

"Secular" India and Putrakameshti Yaga

Kerala, the birth place of Advaita and of Adi Sankara Bhagavatpada, is gearing up for an exciting and great event in May 1992. The Putrakameshti Yaga will be performed in Kochi for the first time, may be, in 5000 years. It is said the Yaga holds out hope for couples who long for a son; and already, a large number, reportedly 2000 couples, are said to have registered for it. Many foreigners are also queuing up for a son. India has always provided answers to the world's spiritual ills. Now, with a revival of this and hopefully of other Vedic rites, she may be able to tackle problems of a more mundane kind. India has furnished answers in areas where modern or western methods and techniques have been groping in the dark.

The announcement of the Yaga has, quite expectedly, drawn loud protests from some quarters, which include some so-called secularists also.

'Secularists' in our country are generally anti-Hindu. Nothing, no matter how barbaric, how wasteful, how brutal disturbs them where other communities are concerned but let a Hindu practice be announced, they flare up in self-righteous anger and indignation. And draw long lists of why.

The 'secularists' are shocked that the Yaga will cost about Rs. 75 lakhs and about 70 kilos of ghee will go into the Yaga-kunda. How can one think of burning up precious edibles when "the state is starving, when prices of commodities are peaking, just to etch out a mirage.... sheer exploitation of credulousness and naivity" they ask angrily. Isn't it a little too premature to talk of mirages when it has been proved time and again that lesser remedial rites have given stunning results and solutions, otherwise quite beyond the reach of modern or western methods and techniques in different areas of life ?

And as for burning up precious edibles, what are these people doing when people dine and dance and belch in 5 star-hotels, wasting more than they can take in. And what about when a Southern State Government parted with a tidy 10 crore rupees to be splurged on a vulgar film festival some months back. Even as the film buffs made merry at the expense of the tax-payer, hundreds and may be, even thousands lay dying of hunger and disease on the pavements of not only the Garden City but everywhere around the country. Didn't it occur to these critics to cry halt to the film-world revelry and demand that the groaning tax-payer's money be put to better use to feed all those hungry souls on the pavements ? **75 lakhs is a mere pittance compared to the crores being wasted around the country for different kinds of tamashas, many government sponsored.**

Another Yaga critic is so enraged as to say of it, "Would such nonsense have been allowed during Nehru's time ? .....he was completely uncompromising in allowing blind faith and superstition loaded public events." He goes on to ask what else can one expect in a country where the prime-minister consults astrologers to decide which day to assume office.

It is not surprising this journalist is dismayed by the open and frank views of the present prime-minister on Astrology. With the Nehru dynasty around for so long, the tradition was "to consult astrologers in private" as Dr. Raman has pointed out *ad infinitum* and "condemn them in public". And a sudden departure from a practice so strongly embedded in the prime-ministerial line, must have given this media man a rude shock. Quoting Nehru in this context, he should know, is like the devil quoting the Bible.

It is an open secret the members of the Nehru dynasty laid great store by Astrology although they had no qualms of pretending to scoff at it from public platforms. In fact, Nehru frequently took recourse to Astrology and remedial measures, such as *homas* and *shantis*, through the circuituous route of the then Home Minister. It is

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

said that he and his daughter expended huge sums of money for *grahashantis* to ensure they stayed on forever in power and the very fact of their dynastic rule in a democratic country speaks volumes for the efficacy of these remedial measures.

People can no longer be taken for a ride by newspaper reports, that are many a time distorted versions of the truth. Nehru's secularism was crass hypocrisy and people are no longer naive enough to be overwhelmed by it. Quoting such a person against a Vedic Yaga is ludicrous.

The Yaga, it is reported, is promoted by a body which calls itself "Centre for Astrology and Research Development". We do not know how Astrology enters the picture but let us wait and see.

Some feminist organisations are also said to be upset by the Yaga and have demanded the right to know and have access to the names and medical case-histories of the couples selected by the project. They have also demanded the right to check up the blood group and other genetical strains to determine the identify of any child supposedly born of the success of the Yaga. The spirit of inquiry anywhere is commendable but not if it is coloured by prejudice, suspicion and antipathy which is evident in the case of these groups. If they are really interested in truth, have they sought the same details of test-tube babies? There is no knowing if the baby is of the husband of the woman bearing it. Nor can other origins be definitely ruled out. The claim of a test-tube birth rests only on the word of the doctor handling the case. This group, I am sure, has not verified the authenticity of even one of the half a dozen or slightly more claims of test-tube births in this country. This group has not investigated even a single claim of the many success-stories in medicine and other disciplines that make occasional headlines. And why not, for how can anyone be sure of what goes on behind the scenes. In today's mad scramble for honour, limelight, lucre, truth and fact can be bashed up and theories and evidence cooked up to support many claims of success. **When this group has been sleeping over all such claims, its belligerency against the Yaga should only be dismissed as the result of a deep-rooted inferiority complex for Vedic culture and tradition.** If the group is genuinely interested in truth, let it first prove its credentials by collecting the details listed above from other disciplines and hand over its findings to a body of august members drawn from different walks of life and formed for this specific purpose. Only then let it approach the Yaga-project for what it seeks.

And what about the gargantuan hogging that goes on at the 79th AICC Session as this scribe pens these lines? Will the critics of the Yaga (and of burning of ghee it involves) swoop down in anger on this gorging *Tamasha* at Tirupati or join in to devour, with the Congressmen, 107 tonnes of rice, 40 tonnes of vegetables, 11 tonnes of biryani rice, 1.13 lakh litres of milk and 5 tonnes of atta. As barrel after barrel of liquor is drained to the last drop in this temple town contravening all law and religious sentiment, the Yaga critics will tend to look the other side politely, not characteristic of them. Poor Gandhi's ghost must be squirming at Rajghat. ●

Astrological Miscellany

GAYATRI DEVI VASUDEV, B.Sc., LL.B.

Unwarranted Generalizations

"In April 1991 under *Astrological Miscellany*, "Where is the Sanyasi" the following quotation from *Notable Horoscopes* given — *lord of the Moon — sign and the Ascendant lord together or in mutual aspects leads to Sanyasa*. In my case the first condition is satisfied but I am a house-holder with three children — 2 sons and a daughter — all married, settled in life and having children.

"I think that people are trying to draw very general conclusions on the basis of too little data which can mislead readers and is not a healthy attitude for Astrology. The details of my horoscope are as follows" writes Prof. Misra from Rajkot.

Born 16-3-1932.

Rasi: Leo - Ascendant; Virgo - Ketu; Capricorn - Saturn; Aquarius - Mars; Pisces - Sun, Mercury and Rahu; Aries - Venus; Gemini - Moon; and Cancer - Jupiter (R). *Navamsa:* Leo - Ascendant and Venus; Sagittarius - Mercury; Capricorn - Jupiter and Ketu; Aquarius - Moon; Pisces - Saturn; Aries - Mars; and Cancer - Sun and Rahu.

Generalizations cannot always be made but sometimes they cannot be avoided either. Starting from a highly generalized view, one can through a process of elimination zero in on the more specific reasons for a particular situation. In this sense, generalized statements have their value and cannot always be dispensed with. And coming to the definition of Sanyasa as *Sat+nyasa* or the right renunciation, ochre robes and external circumstances such as living away in an ashram or forests do not contribute to this state. It is more a state of the mind when as Lord Krishna so clearly points out in the *Srimad Bhagavad Gita*, the mind is disengaged from the source of pain, and this source may be animate or inanimate. Therefore, all beings who are evolved sufficiently to be free of infatuation for crass objects and enjoyments are to that extent *sanyasis*. In Prof. Misra's chart, the Ascendant is Vargottama and its ruler Sun in the spiritual sign Pisces is with Buddhikaraka Mercury and Rahu aspected by the exalted Jupiter from the 12th house. Moreover, Lagna is aspected by Yogakaraka Mars, ruler of the 9th (Dharmasthana) and indicative of spiritual propensities. So, the *sanyasi* is there alright in this chart, notwithstanding the family and other worldly concerns surrounding him.

Ascetic Yoga

"I was under the impression the combination of 6 planets in the 3rd could make one an ascetic. But so far that has not happened to me. I am very anxious to go in search of an ashram where I can spend my life in meditation" writes reader B. V. S. Prakasha Rao of Visakhapatnam.

Born 11/12-11-1910 at 1.45 a.m. near Visakhapatnam.

Rasi: Leo - Ascendant 23-49; Libra - Sun 26-40, Mercury 26-40, Venus 23-20, Jupiter 10-0, Mars 13-20 and Ketu 26-40; Aquarius - Moon 20-0; Aries - Saturn 10-0 and Rahu 26-40. Venus Dasa ends on 9-4-1992.

He writes "(i) According to *Phaladeepika* charts under the Dasa and Bhukti of the planets which are very powerful cause *Sanyasa* (*A.M.*, March 1991, pages 258, 259). (ii) What we have seen in the horoscope of great *sanyasis* is not a combination of 4 planets but a weak Lagna or Lagna lord aspected by Saturn (*A.M.*, March 1991, page 259). (iii) According to

(In this feature, unusual and interesting events that occur in day-to-day life will be discussed astrologically. They may be about anything—birth, marriage, sport, career, art, farming, weather, animals and the list is endless—so long as it is different from the monotony of life. Readers are invited to send in details of such instances plus relevant astrological charts, dates and the Ayanamsa to Astrological Miscellany, THE ASTROLOGICAL MAGAZINE, Bangalore 560 020.

DR. RAMAN, lord of the Moon-sign and the Ascendant lord together or in mutual aspect lead to a *sanyasi* (*A.M.*, April 1991, page 330). (iv) According to *sloka* 25; chapter XV or *Jataka Parijata* if lord of the 10th with 4 other planets is in a Kendra or Kona, the native will attain emancipation without any prospect of becoming an ascetic.

But No Results ?

"(i) According to rule (1) above, in my own horoscope the Sun and Saturn who are in *Neecha* are in mutual aspect. As such they attain Neechabhanga Raja Yoga which gives them extra power to help Sanyasa Yoga. In Saturn Dasa, I did not find any such Yoga but led a very miserable life. In future, if I survive can I expect Sanyasa Yoga in Sun Dasa and Sun Bhukti ? (ii) Taking the other combinations, the Lagna lord Sun in Neecha may be taken as weak since he is in mutual aspect with Saturn. This also has not fructified. (iii) Lord of the Moon sign Saturn and the Ascendant lord Sun are in mutual aspect which also has not given Sanyasa. (iv) Or, can I conclude that the 10th lord Venus in a Kona from the Chandra Lagna or Mars the 10th lord from Chandra Lagna in Kona from Chandra may be favourable for my emancipation without any prospect of becoming a Sanyasi ?

"But I have many misgivings — As I am now facing Dasachidra of Venus Dasa besides the 1st phase of the 7 1/2 years' Saturn transit period, will I meet my end? Also in the recent issues, I remember to have seen the Sun as Lagna lord will not do any good. Besides his early period will be in Dasachidra. Moreover as Atmakaraka he can't do good.

"Since 1934, I have been daily reading *Valmiki Ramayana* in Sanskrit and completing six volumes by Sri Ramanavami day and celebrating Seethakalyanam. This is being done every year even to this day. Since my retirement in 1966, I have been leading a life of renunciation from 6 a.m. to 6 p.m. with an interval of 1 hour from 12 noon to 1 p.m. for lunch and newspaper reading. During these 11 hours of renunciation I have been doing *Sandhya Vandanam*, *Ramayana* and *Bhagavadgita Parayanams*, Rama and Venkateswara Poojas, writing of *Rama Koti* and *Venkateswara Koti*. I have completed 2 crores and 12 lakhs of *Rama Koti* and submitted it at Bhadrachalam to the tune of 1 crore 58 lakhs. The balance is to be submitted when Sri Rama permits. In the light of these facts, I hope some light may be thrown on my chart."

The Fashion of Sanyasa

Ascetic Yogas seem to be the rage today. There is another reader from Tanuku, reader Surya Bhagavanalu, who is intrigued about finding no Yoga worth mentioning in his brother's chart who has, nevertheless been, elevated to the pontifical seat of Siddeshwa Peetam at Courtallam. Th ceremony, he writes, took pla on 12-1-1991.

Born 22-8-1929 at 19h. 2 at 16 N 54, 81 E 44.

Rasi: Aquarius - Ascendar Pisces - Moon; Aries - Rah Taurus - Jupiter; Gemini - Ven and Mandi; Leo - Sun and Me cury; Virgo - Mars; Libra - Ket and Sagittarius - Satur *Navamsa:* Pisces - Ascenda and Mars; Aries - Saturn a Ketu; Taurus - Sun and Man Gemini - Venus; Cancer - Ju ter and Moon; Libra - Rahu; a Scorpio - Mercury with balance of 2 years of Jupit Dasa at birth.

The picture that emerg from the Moon-sign is qu clear. Saturn occupies the 10 house aspected by 9th lord Ma who, in turn, is aspected 10th lord Jupiter, showi acquisition of a high post rel ing to religious and *dharm* matters. From the Ascendant self, the aspect of Jupiter on t 10th house Scorpio and 10 lord Mars is indicative of hea ing a spiritual or religious grou or organisation. Venu Yogakaraka and 9th lord, is the 5th, a trine, Vargottama a aspecting Lagna lord Satu which can confer strong spi tual propensities. Of course, our reader says, no speci combinations as listed in cla sic works are found here b the clues are quite apparent.

Reader: Born 22-10-1942.

Rasi: Sagittarius - Ascendant; arius - Ketu; Pisces - Moon; rus - Saturn; Cancer - Jupi- Leo - Rahu; Virgo - Mars, cury and Venus; and Libra - *Navamsa:* Sagittarius - endant and Ketu; Gemini - urn, Mercury and Rahu; cer - Jupiter; Virgo - Mars Venus; Libra - Moon; and rpio - Sun.

The 4th house rules paren- property and it is here ected by exalted 4th lord ter and occupied by 8th lord ing Moon. The 4th house is aspected by 5th and 12th lord Mars, 7th and 10th lord Mercury and 6th and 11th lord Venus. The 4th lord Jupiter is aspected by 2nd and 3rd lord Saturn from the 6th house.

The strong position of 4th lord Jupiter (exalted and Vargottama) indicates the native will be able to retrieve the property in its entirety. The Dasa of Venus is due to end shortly and with it one phase of the litigation will also culminate in favour of the native. Since the Moon in the 4th will be under the impact of *sadesathi* from mid-June 1993, Saturn (in transit) leaving Pisces may see the end of the litigation.

Comfortable, but not Rich

Indu Lagna Gemini, says reader Vallabdas Tewari, Vizianagaram, who sends in this chart, has a powerful malefic Mars. Can it be concluded to indicate great financial prosperity especially that the 2nd lord Moon is exalted?

Born on 26-9-1975 at 00.05 a.m. (IST) at Vizianagaram.

Rasi: Gemini - Ascendant and Mars; Cancer - Saturn and Mandi; Leo - Venus; Virgo - Sun; Libra - Mercury; Scorpio - Rahu; Pisces - Jupiter (R); and Taurus - Moon and Ketu. *Navamsa:* Aries - Ascendant; Taurus - Venus; Cancer - Rahu; Virgo - Saturn; Libra - Mars and Mercury; Capricorn - Ketu; Aquarius - Mandi; and Pisces - Sun, Moon and Jupiter with a balance of 10 months and 8 days of Sun Dasa.

Mars as 11th lord in Lagna is good for financial luck but malefic Saturn in the 2nd is a great drawback. Further, the Moon though exalted is in the 12th with Ketu (in debility) which is not very supportive of financial prosperity.

The Lagna lord is quite well-placed being Vargottama and Jupiter is also Vargottama in the 10th house which implies although the native may not strike gold, he will be well-off in life without any financial problems if he manages his affairs prudently. ●

Importance of Navamsa in Prediction

C. S. PATEL

It is said that there are 20 or more different *Nadis* prevalent in the South out of which 8 Nadis, I have studied partially — 5 of them in detail (in my possession) and 3 of them through articles and books e.g. *Kaka Bhujander, Budha Nadi.*

Every *Nadi* author uses a particular Navamsa technique in an outstanding way, though basic treatment of Navamsa is common, in the five Nadis, so far studied by me.

(1) *Budha Nadi - (1 Navamsa = 1 year of life)*

I have dealt with five different methods in my articles (explained later in this paper).

(2) *Chandra-Kala Nadi*

Achyuta, the author, deals with Navamsa's transit results of planets through a particular Navamsa, occupied by a planet and its trinal places. He also gives importance to Ashtamsa, Pushkaramsa, Yogamsa, Vikatamsa etc. Pushkara Navamsa is rarely used in standard texts, but in Chandra-Kala Nadi, it is freely used. Persons having Pushkara Navamsa as rising Navamsa (Udit-Navamsa) are outstanding in their careers (explained *infra*).

(3) *Dhruva Nadi of Shri Jaya-Muni*

There are 42 volumes in G.O.M.L. (Madras) comprising about 2,25,000 verses. The scribe has one volume (copied down) having about 10,000 verses (120 Charts are discussed in them). The author, Shri Jaya Muni deals mostly with Bhavatmaka Navamsas. Results are also given. This method has been already explained in my article "Searchlight on Navamsa" 1986 Annual Number of THE ASTROLOGICAL MAGAZINE.

(4) *Bhargava Nadi (Adyar Library, Madras)*

(3 verses translation)

Jupiter in the 10th house:-

(i) In Leo Navamsa - native becomes a minister;

(ii) In own (Sagittarius Navamsa) - a learned man;

(iii) In enemy Navamsas (3-6; 2-7) - native is without learning and happiness;

(iv) In friendly Navamsas (1-8) - becomes well known in government circles;

(v) In Aquarius Navamsa - he is slow-witted and always using harsh words;

(vi) In debilitated Navamsa - doing many sins;

(vii) In exalted Navamsa - well-versed in Shastras;

(viii) In own Navamsas (Pisces)-giving shelter to others.

Jupiter's position in other houses in similar classified Navamsas will give different results. There may be more volumes depicting results of all planets in various houses.

(5) *"Jataka Satyaa-chaareeyam" by C. G. Rajan in English*

This book is a translation of a book named *Dhruva-Nadi - Antargata-Satya-Samhita* - a Sanskrit book, but published in Telugu script (about 450 verses).

Results of every Bhava lord posited in each of the 12 Bhavas are given in about 450 verses (12 Lagnas x 12 Bhavas = 144 possibilities).

E.g. "If the Lord of the 3rd Bhava is posited in the 9th Bhava, some good results for native's brother and father are indicated. .... If the Lord of the 9th Bhava is weak, the native will have some misunderstanding with his father. .... If the lord of the 3rd Bhava (at Rasi Chart) is posited in the 6th, the 8th or the 12th place from Navamsa-Rasi of the lord of the 9th Bhava (of Rasi Chart) in Navamsa, results contrary to those mentioned above may be predicted".

In the example chart, in Navamsa, Mercury (lord of the 3rd Bhava in Rasi) is in Scorpio Navamsa which is the 6th place from Gemini Navamsa occupied by Jupiter, 9th lord in Rasi.

In other Nadi Granthas, some other Navamsa tech-

niques might have been used. The scribe has not come across them so far.

Navamsa Literature

PART-A: *Jaimini Systems, Kalachakra Dasa, Sarvatobhadra-Chakra, and Ankana-Shastra* (by Vyaghra-Pada) are all based on "Navamsa-Division".

PART-B: Practically every standard text of Astrology, right from *Vrddha-Yavana Jataka* till the 18th century, various authors such as Meena Raja, Sphujidwaja, Varaha Mihira, Pruthuyasas, Kalyana Varma, author of *Mana-Sagari*, Vaidyanatha, Gunakara, Mantreshwara, author of *Vidya-Madhaviya*, Balabhadra, Dhundi-Raja, Kamalakara and other authors have dealt with Navamsa results in one or more chapters and/or partially here and there in their respective books. If one collects all these verses, the Sangraha would go upto 2000 or more verses.

Big Chapters on Navamsa Results

Some authors give importance to the rising Navamsa and others to the Navamsa occupied by the Moon.

[*Saravali:* (Kalyana Varma) in Chapter-50, (1 + 108=109 verses) gives results about the nature, traits, physical features etc. of the native, one verse for each Navamsa *i.e.* 108 verses for 108 Navamsas.

Nashta-Jataka: (from a Tamil Jataka work based on axioms from Nadi-granthas covers 108 Navamsas in Ascendant showing place of birth (North-South street or East-West street), adjacent houses of the birth house, surroundings etc. for 108 Navamsas.

Yavana-Jataka: of Sphuji Dhvaja (1+108=109) deals with the Navamsa occupied by the Moon describing colour, nature, forms and characteristic marks on the body (moles, etc.) of a native for each of the 108 Navamsas.

Nakshatra-Chudamani describes traits, etc., of a native on the basis of the Moon's 108 different Navamsa positions.

Bhava - Madhya Navamsa

The Ascendant Navamsa is known as the rising Navamsa or Udaya Navamsa or Lagna-Navamsa. It is a Navamsa of Bhavamadhya of the first house or Lagna or the Ascendant degree.

In the example chart, Cancer is the Ascendant 3s-8-53' *i.e.* Navamsa occupied by Lagna is Virgo). On the basis of this Navamsa sign, the Navamsa Kundali is prepared. Putting this Navamsa sign in the 1st house, all planets are placed in their respective Navamsa signs.

When the first house Bhavamadhya is given so much importance, why not other midpoints of houses such as the 10th, the 7th, the 4th and other houses?

Jataka Tatva G.216, page 184 (by Sri V. Subrahamanya Sastri) refers to Putrasthana-vamsa the Navamsa indicated by the centre of the 5th Bhava.

S. Krishna Iyengar had written a series of 19 articles on the "Use of Navamsa in Prognostication" from November 1968 to March 1971. He has referred to this midpoint at many places:

(i) "The 2nd house midpoint will join some Navamsa and that Navamsa is occupied by Mercury;

(ii) If Mars, the midpoint of the 3rd house and the lord of the 3rd house, all fall in even Navamsa, the native will be blessed with a number of sisters;

(iii) If the midpoint of the 7th bhava falls in the Navamsa of Venus and several other Venusian Vargas, the native is likely to have many wives.

(iv) If the 5th house midpoint be a Navamsa of Venus, the native will have many children.

So, the Navamsa of the midpoint of a Bhava is used for:-

(a) placement of planets in it in Navamsa Chart;

(b) midpoint falls in an odd or even Navamsa;

(c) midpoint falls in a particular planet's Navamsa.

(d) whether, a midpoint Navamsa has an aspect (benefit on malefic); etc.

The midpoints of the opposite Bhavas *e.g.* of the 1st and the 7th Bhavas; of the 2nd and the 8th Bhavas; of the 3rd and the 9th Bhavas, etc. will fall in the 7th Navamsa from each other; (*e.g.* in example chart 1st house 3s-8-53' Virgo Navamsa x of the 7th bhava 9s-8-53' is Pisces Navamsa).

Midpoints of the 2nd and 12th houses, of the 8th and the

12th houses; of the 3rd and the 11th houses and of the 5th and the 9th houses, are of the same Navamsa signs.

Dispositors

(1) *Chandra Kala Nadi*: Vol. II, Part II, Page 71, Verse 3272:

मेषे चापांरागे शुक्र कुलीर च प्रजायते
जीवे कुम्भयुते काले बहुविन्तयुतः सुखी

Meaning:- "A native born in Cancer Ascendant, with Venus occupying Sagittarius Navamsa in Aries sign (both neutral planets), will have much wealth and be happy, during the period of conjunction in transit of Jupiter and Mars."

Note that Venus, a benefic planet is posited in the 10th house, occupying Pushkara Navamsa *i.e.* Sagittarius Navamsa in Aries sign. It may be noted that Mars is the sign dispositor (Aries) and Jupiter is Navamsa, dispositor (Sagittarius). These two planets whenever they conjoin in transit, they produce certain favourable results to the native.

Venus, in Cancer Ascendant, is the lord of the 11th house and the 4th house, hence he bestows wealth (the 11th house) and happiness (the 4th house) as per houses owned by him. The sign conjunction between Jupiter and Mars takes place roughly once every two years (*i.e.* 24 months). This period of conjunction varies from 1.5 months to 6 months, depending on their speed.

Conjunctions of Jupiter and Mars in Cancer, Sagittarius, Pisces, Aries, Scorpio and Capricorn signs are productive of more good results because either of them becomes powerful in each of these six signs. Only, in Cancer or Capricorn, one is exalted and the other is debilitated, simultaneously.

One research scholar has successfully applied this principle of Navamsa dispositor and sign dispositor of Mandi and confirmed the demise of Mahatma Gandhi in the Dasa of Rasi lord Venus and in Bhukti of Navamsa lord Jupiter.

In application of this rule to Dasa/Bhukti, stellar-dispositor of a planet can also be taken into account for inclusion of Dasa/Bhukti of Rahu and Ketu.

A very important rule can be deduced from the above verse - as follows:-

"Two planets, one Navamsa dispositor (Jupiter in this case) and the other Rasi-dispositor (Mars in this case), during their conjunction in transit produce results pertaining to sign/s (houses) owned by the disposited planet (Venus).

How many possibilities are there ?

Venus in different signs 12,

Venus in different Navamsa 9, 12 different Ascendants 12,

Seven Planets 7 That is,

12 x 9 x 12 x 7 = 9072

There can be 9072 different possibilities of results, taking into account all the seven planets in different signs, Navamsas and the Ascendant.

One very important event took place in my life on 10-10-1989 (at Ahmedabad). My tenant vacated my bungalow after 19 years' occupation on Tuesday 10-10-1989 at 12.40 p.m.

Example horoscope

Born on December 31, 1915 at 7-44 p.m. (IST) at 23-2' N and 72-39 E. with a balance of Rahu Dasa 10 years, 6 months, 3 days.

Note

(i) Mars-Karaka for landed property is posited in the 2nd house in Leo;

(ii) Sign dispositor of Mars is the Sun; and

(iii) Navamsa dispositor of Mars is Mercury.

A transit conjunction of these three planets - Mars, the Sun and Mercury was in operation from 16-9-1989 to 17-10-1989 in Virgo - *which is Udaya Navamsatulya sign or Navamsa Ascendant sign,* also a Pushkara Navamsa. The event took place when the Moon was passing through the sign Capricorn — Chandra Navamsatulya Rasi, trine to sign Virgo in which the conjunction of these planets took place. It may be noted

that on that day, one of these three planets Mercury, was powerful occupying his own sign Virgo (Moola Trikona 5-5-15") having the maximum number of 33 *bindus* (in S.A.V.).

(2) The Ascendant or Lagna is a very important point in the Chart.

Lagna *dispositor* is the Moon and *Navamsa dispositor* is Mercury. Whenever a conjunction of these two planets takes place, something (good) happens. This conjunction takes place every month for 2 1/2 days.

(3) Another important point is the Moon's position. The Moon's Rasi dispositor is Venus. Navamsa dispositor of the Moon is Saturn. This conjunction takes place once every year.

Results can be checked when they conjoin once at least every year.

Eventful Years in One's Life

Three articles published earlier: (i) Searchlight on Navamsa (*The A.M.*, Jan. 86, P.106), (ii) Eventful Years in One's Life (*The A.M.*, Jan. 89, P. 95 and (iii) Eventful Years in One's Life (*The A.M.*, Jan. 90, P. 77 must be studied to get a comprehensive idea of the subject. Five different methods have been explained therein.

(1) *The First Method*

Reckon the number of Navamsas from the Navamsa occupied by various planets (including Rahu) upto the Navamsa occupied by the Ascendant, both inclusive.

(2) *The Second Method*

Reckon the number of Navamsas from the first *pada* (Navamsa) of Aswini Star upto the *pada* occupied by each planet (including Rahu/Ketu) both inclusive.

(3) *The Third Method*

Reckon the number of Navamsas from the Navamsa occupied by Saturn upto the Navamsa occupied by the Moon, both inclusive (and so on, from all the planets to the Moon.

(4) *The Fourth Method*

Reckon the number of Navamsas traversed by the lord of the rising Navamsa from the Lagna Navamsa. One can apply this rule to the Navamsa positions of other planets, both inclusive.

(5) *The Fifth Method*

Reckon the number of Navamsas from the Navamsa of the Ascendant upto the Navamsa occupied by all the 9 planets, both inclusive.

One more advantage of these methods is that one can cross-check and verify the correctness of the Ascendant Navamsa. This is a unique system of delineation, independent of planetary transits and Dasas.

All the above five methods are fully discussed in the above three articles. **This system is the backbone of Budha-Nadi.**

Navamsa Progression

One Navamsa equals one year. This theory will give the year in which an event is likely to take place. But during that particular year, in which month and which day the event occurs, is a subject for research.

Calculate from one planet to another planet (indicating an event) the degree distance, convert the difference into degrees and find out complete Navamsas and the balance. ***This balance will indicate the month and day of the event.***

One Navamsa = 3°-20' = 200 minutes = 1 year = 360 days. One should find from the balance degrees and minutes, probable month and day of the event.

E.g. Refer my article "Eventful Years in One's Life" II, (P. 78. *the A.M.*, January 1990.)

In the case of Mrs. Indira Gandhi.

Her Mercury is 75'-13-15 from Aries

7 Signs	=	63 Navamsas
10 degrees	=	3 Navamsas
	=	66 Navamsas: Years

Balance 0-13-15' = 195 minutes;

For 200' = 360 days; for 195' = 351 days = 11 months and 21 days.

Date of Birth	=	19-11-1917
	+	21-11-0000
	+	0-00-0066 years (Navamsas)
		10-11-1984

She breathed her last on 31-10-1984. Adjustment of 5" - for seconds of arc in Mercury's position would give correct result. Mercury is the lord of the 12th house (exit from the world) and the lord of the 3rd house *i.e.* 8th from the 8th house (house of death).

The Astrologer and the Modern Politician - III*

MANDANA MISHRA

(This fictional-skit is written to highlight the disturbing attitude of some politicians towards traditional Indian Culture, including Astrology)

K:..... Ramji..... forgive me.... sometimes we politicians get carried away... that we don't even know, let alone understand, what we are talking or what will come out in the future from our mouth.... **Practically everyone in New Delhi know that even Pandit Nehru had often consulted DR. RAMAN through one or more of his senior cabinet level ministers**. There are no secrets in Delhi about ministers in New Delhi and state capitals consulting a distinguished astrologer in Bangalore on their personal and political matters, although some of my fellow politicians foolishly believe that just because they close their eyes the rest of the country also sleeps... We politicians have to constantly play all kinds of games to get as many votes as possible... One minute we act as devout Hindus, another minute we are atheists; a third minute we even bash and belittle our culture, and in the fourth minute we heap praise to the hilt on every religion except Hinduism. It is a very great political circus-act bequeathed to the politician mainly by our Pandit Nehru and his tribe. This act usually generates a windfall of votes. In fact show me a successful career politician... and I can tell you his or her circus-acts... to grab votes in the elections..... Again..... I got carried away.... Ramji... please continue...

R: I defined Astrology so that you and others who are poorly informed about our traditional culture and heritage understand the strength and limitations of Astrology, the Vedic science, we have been fortunate enough to inherit from our seers and sages.... Many of my fellow astrologers.... had until recent years a limited idea of how effectively Astrology could be utilized in the day-to-day life of an individual. A clear understanding of applied Astrology is absolutely necessary if the astrologer has to be of practical and meaningful help to his or her client. Fortunately for us, DR. RAMAN has removed any misapprehension and misunderstanding many astrologers had in defining their role of support to the public.... Now we need to educate the public as to what astrologers can do to assist them to better their lives both in short and long terms.

You have, so typical of many uninformed or ill-informed persons, used buzz-words or jargon like Rahu or Jupiter in a house, Rahu-Saturn combination, and, even and odd Navamsa houses etc. to give an impression that you know or understand something of Astrology. Fortunately for Astrology, I could right away find out that your knowledge in the subject is at best superficial. I understand career politicians believe that they know everything under the sky. Most of the time they make a nuisance of themselves when they open their mouth before learned professionals. It takes a life-time to study, understand and develop expertise in any subject. In fact, for some difficult fields like Astrology even one life-time is not adequate. So if you want an astrologer to help you, be straightforward and approach him with as pleasant a personality and attitude as one would do with any qualified professional. Please leave your ego, artificial personality, and superiority complex in the assembly and parliament buildings and meetings. There "chelas" and "chamchas" are available in dozens to boost your ever growing ego, and put you over a paper pedestal. Some who need some real favour from you will even treat you like a god when you

in power. And the opposite equally true. That is, to put it ldly, they will treat you even rse than dust when you are t of power. I am a specialist Astrology, but I certainly ow that I have, if anything, ry limited knowledge in gineering, law, medicine, art c. People must acknowledge at while no one has all the owledge in all subjects, there e many individuals with pertise in a specific subject.

Since you are as you say a e-long politician, I like to are some aspects of Political trology with you.... Perhaps e biggest and most-extraordi- ry political prediction ever ade in this century was by one other than Dr. B. V. Raman, e distinguished doyen of As- ology in the twentieth century. his astrological *coup-de-etat* vered the political future of e then President of United ates, Mr. Richard Nixon. I member the prediction very ell because I had started get- ng interested in Political trology. It was the fag end of 72 and President Nixon was ting on the top of the world his decisive action to end e Vietnam War. It was also e beginning of the residential election fever in the nited States. Public polls vering the re-election of Mr. ixon were significantly in his vour. The Democratic Party as in disarray, unable to find personality to match the popu- r Nixon. Boston Brahmins, e political pundits, and the edia had all come to the con- usion that the only certainty in the 1972 election was not whether Mr. Nixon would win, but how humiliating the defeat would be for his opponent in the election. Everybody literally saw a successful second term for Nixon. Million Dollar polls, the fat-cat political analysts, and the "political experts" saw only a successful second term for Nixon. The political-media climate was so charged such that if someone even made a snide remark about the experts' view, he or she would be chased to the nearest mental institution! Dr. Raman made the most astonishing and startling prediction of the century in an editorial dated 25-10-1972 appearing in The Astrological Magazine of December 1972 which was on the stalls before November 10, 1972, that while Mr. Nixon would be elected with an unbelievable plurality, **he would not complete the second term.** Krishnaji, one must carefully note the choice of words used by Dr. Raman. Let me repeat he said President Nixon would not complete the second term. Behind those very carefully chosen words a lot of other information was available. Dr. Raman's statement ruled out illness, or death by natural cause (or assassination). Dr. Raman had presented an astrological review of Nixon's horoscope, particularly emphasizing the position of Saturn in 10th as the catalyst for both glory and gory in Nixon's life. The issue of The Astrological Magazine containing the above predictions has become a collector's item. No astrologer or astrological student's education would be complete until he or she has studied the evaluation of Nixon's horoscope by Dr. Raman. What million dollar experts and pundits could not imagine, let alone anticipate, was anticipated well in advance by Dr. Raman. He did not need computers and other gadgets to fathom the future of Mr. Nixon. All Dr. Raman had was a pen and a horoscope. Lest one forgets, he has one more thing — the mastery of Astrology. A modern Varahamihira, indeed!

Astrologers over the years have made many extraordinary predictions covering national leaders and nations. Yet, I have to share what I consider an exceptionally unusual and startling recent prediction made by none other than by my distinguished colleague Mrs. Gayatri Devi Vasudev. This political prediction rocked the nation because it was precise, and pin-pointed the future of India that no one had even dreamed of until it actually happened. When the event did happen, it shocked the nation beyond belief and froze the emotions of the nation. This larger than life astrological *coup-de-etat* will remain in the minds of everyone for time immemorial. The few guarded magic words Mrs. Vasudev used were not only precise and balanced, but most importantly detailed enough to convey the chilling astrological truth. The predictions were made in June 1991 issue of The Astrological Magazine released in the first week of May. It said "Rajiv's era

The Dual Role of Bhratru Karaka - I

DR. K. S. CHARAK, M.S., F.R.C.S., JYOTISH VISHARAD (ICAS)

Over fifteen years ago, I came across "Jaimini Sutras" by Prof. B. Suryanarain Rao. Since then I have seldom missed a chance to read whatever little of Jaimini I could lay my hands on. Over the past years, I have been carefully going through pages devoted to articles on Jaimini Astrology in THE ASTROLOGICAL MAGAZINE. However, I always found it hard to apply this system in practice.

It was amidst my almost dwindling interest in Jaimini that I came in contact with Mr. K. N. Rao. The result is the rekindling of my interest in the Jaimini system. It is not for nothing that personal instruction has been so much extolled in the ancient system of education in India.

Mr. K. N. Rao has been busying himself popularising Jaimini Astrology in North India. Besides, in his articles as also in his classes, he has been highlighting the remarkable relationship between the Parasari and the Jaimini systems. Combining one with the other increases the percentage of successful predictions and provides surer grounds for prediction. Mr. Rao has also been stressing on furnishing the statistical proof of astrological predictions, thus rendering this noble discipline more in harmony with the present-day scientific temperament.

For the present discussion, the Bhratru Karaka (BK) of Jaimini has been selected. The BK falls third in the order of Karakas, depending on the degrees of longitude after deleting the Rasis. An attempt will be made here to analyse the role of the BK using the Jaimini Chara Dasa.

The first part of this article deals with the application of BK to the events pertaining to brothers and sisters. The second one will deal with the extension of the role of BK to delineate events pertaining to father. How the events pertaining to father are to be segregated from those pertaining to the sibling will form the substance of the last two installments of this article.

The Chara Dasa

The calculation of Chara Dasa is again done according to Mr. Rao's method. The significant differences when compared with other practitioners of Jaimini Astrology are as under:

(1) Similar calculation is done for either sex.

(2) No extra addition or deduction of one year is considered in any cases of exalted or debilitated planets respectively.

(3) In case of Rasis with dual lordship (*viz.*, Scorpio and Aquarius), the longitudes of Rahu and Ketu have been considered as they are and not in the reverse order.

Important Points

For the purpose of this article, it has been found convenient to record the tragic event in most cases (disease/death, etc.). The events relating to brother or sister shall be first taken up using the Chara Dasa, the BK and the Rasi chart.

The following points are to be carefully taken note of :

(1) Affliction to the BK indicating an inherent weak point which at appropriate time would culminate into an adverse event.

(2) An affliction along the 3/9 or 5/11 axis from Lagna or BK indicating a similar weakness.

(3) Dasa of an adverse house (*e.g.*, 6th, 8th or 12th), also adversely related to the BK; also Dasas of 2nd and 7th from BK.

(4) A mutually adverse (*e.g.*, 6/8) relationship of MD (Maha Dasa) or AD (Antara Dasa) especially if involving BK, or sensitive houses (3/9, 5/11) from Lagna or BK.

(5) Affliction to MD/AD.

(6) An affliction is taken to mean malefic conjunction or aspect according to Jaimini aspects. Association or aspect of Rahu or Ketu or both (the

The BK here is Mars which combust, being in close conunction with the Sun. It is pected by a retrograde Jupiter. The 3rd house is aspected y the RKA.

The native lost his elder brother in January 1981 in the MD/AD of Simha-Mithuna. Simha is the 6th house from Lagna as well as from the BK, and is aspected by Rahu from the 11th house. The illness started in Simha-Vrishabha. Vrishaba is the 3rd from Lagna as also from the BK, and is aspected by the RKA. Mithuna is the 11th from Simha and aspected by BK (Mars), the malefic Sun, and retrograde Jupiter.

The elder brother of this native died of a heart attack. Mars happens to be the BK here.

The BK is combust and heavily afflicted due to association with the Sun and aspect of the RKA. The 3rd house from BK falls in the RKA while the 3rd from Lagna, though occupied by Jupiter and Mercury, is aspected by a retrograde Saturn.

The tragic event occurred in December 1989 in the MD/AD of Mesha-Vrishabha (March 1989-Jan 1990).

Mesha is the 6th from Lagna and 3rd from BK falls in the RKA. The remaining malefics (Sun, Mars and a retrograde Saturn) aspect Mesha. Vrishabha is the 7th from Lagna and aspected by Ketu.

The heavy affliction to BK has also afflicted variously the remaining (six) brothers and sisters of the native.

The next chart belongs to a female native who lost her younger sister in an accident in the MD/AD of Meena Karaka (June 1988-May 1989). The BK here is Saturn.

Here the BK is not afflicted. But the 3rd house from Lagna as also from BK is afflicted by the presence of Mars and the aspect of the RKA.

From BK, Meena falls in the 7th, a Maraka house. BK aspects Meena. From Karka (AD), BK is in the 3rd house. Kataka is afflicted by RKA and aspected by Mars (death in an accident!) from the 3rd house.

H. R. SHANKAR, B.A.

Nakshatra *padas* with Meena Rasi Amsas namely Fourth Padas of Krittika, Aridra, Aslesha, Uttaraphalguni, Swati, Jyeshta, Uttarashadha, Satabhisha and Revati are detrimental to the Sattwic nature of Budha, which gets Tamasic *guna* when placed in these *padas*. Budha has its fall in this Rasi which is its Rasi of debilitation.

Guru is a Sattwic graha. Sattwa *guna* results flow from Guru whenever it is placed in the First *Padas* as well as Fourth *Padas* of Nakshatras Krittika, Aridra, Aslesha, Uttaraphalguni, Swati, Jyeshta, Uttarashadha, Satabhisha and Revati. The first *padas* of these Nakshatras account for emergence of Dhanus Rasi and fourth *padas* for Meena Rasi. Guru is at home in Dhanus and Meena Rasis.

Inherent Sattwa *guna* gets transformed into Rajas Guna with Guru occupying Fourth *padas* of Aswini, Rohini, Punarvasu, Makha, Hasta, Visakha Moola, Sravana and Poorvabhadra. Conforming to traits of Rajo Guna, the emphasis shifts to strength, wealth and such other aspects. Rasi Amsa of these nine Nakshatra *padas* being of Kataka, this Rasi is considered as exaltation Rasi of Guru.

The Second *padas* of Krittika, Aridra, Aslesha, Uttaraphalguni, Swati, Jyeshta, Uttarashadha, Satabhisha and Revati prove detrimental to Guru, as Sattwic Guna curdles into Tamasic when Guru is in these *padas*. These *padas* being parts of Makara Rasi, it becomes the debilitation Rasi for Guru.

A Tamasic Graha *Sani* feels at home when occupying the Second *Padas* as well as Third *Padas* of the same Nakshatras namely Krittika, Aridra, Aslesha, Uttaraphalguni, Swati, Jyeshta, Uttarashadha, Satabhisha and Revati. The nine second *padas* constitute Makara Rasi and the nine 3rd *padas* go into the making of Kumbha Rasi. A transformed Sani gives Sattwic results from these Amsas Makara and Kumbha which are assigned as own houses.

Inherent Tamas Guna makes room for play of Rajas Guna when Sani occupies Third *Padas* of Nakshatras Bharani, Mrigasira, Pushya, Poorvaphalguni, Chitta, Anuradha, Poorvashadha, Dhanishta and Uttarabhadra. The emphasis in the context of results would be on strength and rising high, overcoming foes and such similar aspects. Thula Rasi of which these Nakshatra *padas* are Amsas becomes the Rasi of exaltation for Sani.

Fall of Sani is seen when it is in the First *padas* of Aswini, Rohini, Punarvasu, Makha, Hasta, Visakha, Moola, Sravana and Poorvabhadra as its Tamasic Guna finds full expression herein. These Nakshatra *padas* being constituents of Mesha Rasi, it becomes the Rasi of debilitation.

Sukra is a Rajasic Graha. The Nakshatra *padas* where it gives Sattwic result are the Second *padas* of Nakshatras Aswini, Rohini, Punarvasu, Makha, Hasta, Visakha, Moola, Sravana and Poorvabhadra.

Sukra obtains Sattwic Guna when occupying another set of Nakshatra *padas* also. These are the Third Padas of Bharani, Mrigasira, Pushya, Poorvaphalguni, Chitta, Anuradha, Purvashadha, Dhanishta and Uttarabhadra. While the second *pada* group forms into Vrishabha Rasi, the third *pada* group constitutes Thula Rasi. By virtue of Sukra remaining Sattwic in both Vrishabha as well as Thula Amsas, these Rasis are consi-dered as own houses of Sukra.

Sukra finds conditions suitable for its inherent Rajo Guna to flourish when it is occupying Fourth *Padas* of Krittika, Aridra, Aslesha, Uttaraphalguni, Swati, Jyeshta, Uttarashadha, Satabhisha and Revati Nakshatras. Conforming to Rajo Guna, the results would be in the nature of strength, wealth and the like. These Nakshatra *padas* go into the formation of Meena Rasi which becomes the Rasi of exaltation for Sukra.

It would be a Sukra transformed into a Tamasic when it is in Second *Padas* of Bharani, Mrigasira, Pushya, Poorvaphalguni, Chitta, Anuradha, Poorvashadha, Dhanishta and Uttarabhadra. Consequent to the *guna* of Tamas it assumes, these Nakshatra *padas* mark its fall. The Rasi emerging from the grouping of these *padas* being Kanya, it becomes the Rasi of debilitation of Sukra.

Rahu and Ketu are the two Nodes of Chandra. Their movement along the ecliptic is in opposite direction to that of Chandra. They are weakest when placed in Amsas wherein Chandra finds strength *i.e.*, gets exalted; by corrollary they gain strength while moving through Amsas wherein Chandra is debilitated. Vrischika Rasi is the Exaltation Rasi of Rahu and Ketu; Vrishabha Rasi is their Debilitation Rasi. Being the strongest amongst the Tamasic Grahas, the best they can elevate is to Rajas Guna. Since they do not attain Sattwa Guna in any of the Amsas, they are not designated with own houses.

Own house, exaltation, and debilitation of Grahas are symbolic expressions to effectively convey the changing *gunas* of the Grahas as they move along different Nakshatra-*pada* areas along the ecliptic path. The ideal *guna* being that of Sattwa, it is picturesquely expressed as own house, wherein one is most benignly disposed. Exaltation is associated with Rajas Guna, the emphasis being on muscle power and money power. Tamasic nature causes fall in character and this Guna is associated with debilitation.

Third "	Makara-Sani	Vrishabha-Sukra	Kanya-Budha
Fourth "	Kumbha-Sani	Tula-Sukra	Mithuna-Budha

In conformity with the basic patterns of squares and triangles on which the whole structure is developed, the Rasis also adhere to the pattern of triangle, the Rasis owned by Tamasic, Rajasic and Sattwic Grahas being in trine to one another. Mesha Rasi is owned by Tamasic Graha Kuja. In trine to it falls the fifth Rasi Simha owned by Rajasic Ravi. The next trine point is occupied by Dhanus Rasi owned by Sattwic Guru. All the twelve Rasis, with four Rasis owned by Sattwic Grahas, another four Rasis owned by Rajasic Grahas and the remaining four Rasis owned by Tamasic Grahas fall into a pattern of inset of four triangles:

Through a simple idea of ownership, the subtle and hidden relationship between Grahas and Nakshatra *padas* that runs through network of circuits is brought out in a way leaving no scope for confusion. Through similar idea of lordship of Nakshatras, the kind of overall relationship (Sthoola) between Grahas and Nakshatras, are conveyed. Without in any way coming into conflict with the implied symbolic meaning and significance attributed to Nakshatras under *Vedanga Jyotisha* through such symbols as Adhi-Devata etc., the lordships of Nakshatras are assigned to Grahas keeping their respective *gunas* as common factor.

Astrological Clues to Promotions in Career

R. M. BANERJEE

The term promotion is used in a broad sense to include all sorts of advancement in service and professional life from job entry, increased pay and responsibility to switch over to a better job or expansion in business activity and gain of eminence in social and political life. The 10th house and the 10th lord, for obvious reasons, automatically occupy the centre stage of the discussion. These two parameters in a birth chart determine the height of rise, success and failure in all our gainful economic activity. All planets gain optimum potency in the 10th house provided they are strong. The Sun and the Mars have directional strength in the 10th house. Jupiter and Mercury, being the natural significators give good results when they occupy the zenith of a birth chart. Saturn in the 10th can raise a man to dizzy heights of success. Even Venus and the Moon, though being devoid of directional strength in that house, can bless a man with a stable career. All planets transiting through the meridian of a chart contribute benefic dots to it. In fact it is possible to predict promotions in career provided the relevant birth chart is properly analysed keeping the 10th house and its lord at the centre because once the horoscope is looked at from all angles, one can assess the extent to which the 10th lord either directly or indirectly has been able to activate the horoscope for bearing fruit at the most opportune moment.

Take for instance, the 10th house. When a planet occupies the 10th house, the 10th lord becomes automatically its sign dispositor. As a result, the planet in its own Dasa in the Bhukti of the 10th lord is very likely to give effects of the 10th house provided such Dasa and Bhukti lords are friendly to each other and the Bhukti lord is congenially placed from the Dasa lord. The term 'congenial placement' will be discussed in a subsequent paragraph. Otherwise there may be results but such results may be adverse in the form of setbacks in career etc. Several variants of this simple rule may be imagined. Thus a planet in the 10th house in the Bhukti of a friendly planet conjoined with the 10th lord may give similar results as mentioned above or the 10th lord in the Dasa or the Bhukti of a friendly planet in the 10th house etc.

This simple rule can be illustrated in the following manner. Chart 1 is of a man born on 8.5.1906 at 12 gh 30 kgh with a balance of 6 months 24 days of Rahu Dasa.

	SUN MERC.	MARS VENUS JUPIT.	
SAT.	Chart 1 RASI		ASCDT. RAHU
KETU			
		MOON	

In 1951, the man got a big lift in service during Mercury-Mars. The Dasa lord Mercury is in the 10th house conjoined with the exalted Sun, the Karaka for service. The Bhukti lord being the dispositor of the Dasa is placed in the 11th house. Hence Dasa-Bhukti results clicked. The promotion was big because both the Dasa and Bhukti lords are locationally strong and well supported with other strategic planets in the chart. The illustration therefore suffices to prove **that a planet in the 10th house inherits traits and qualities of the 10th lord which are best expressed through the 10th lord itself.**

Apart from examining the nature, number and strength of planets residing in the 10th house, it becomes necessary in an exercise on promotion

prediction, to assess the type of aspects the 10th house has been receiving from all planets in the chart. This is because **a planet in its own Dasa gives very much effects of its aspect on different houses.** In connection with **this specific aspect effect** it may be said that the 10th lord's aspect on the 10th house is always good. A malefic's aspect on the 10th house harms prospects of that house and spoils planets posited there, unless the aspected house is of its own. A benefic, especially Jupiter, boosts attributes and qualities of the 10th house through its aspect. **So it is clear that a powerful planet in the 10th house trinally aspected by a powerful Jupiter is an excellent sign for a good career.**

Now **if a planet applies aspects on a certain house, effects of such aspects are being experienced by the native throughout his life but such effects have been observed to gain greater prominence during its own Dasa and own Bhukti of the aspecting planet.** Logically, therefore, it follows that a planet's aspect on the 10th house in a birth chart will produce results good or bad — during its own Dasa and Bhukti. Chart 2 of a man born on 26-9-1925 at 1-25 a.m. with a balance of 17 years, 2 months 13 days of Venus Dasa may be used to demonstrate this simple rule.

The owner of the horoscope, previously working in an unorganised sector, switched over to a Government job with better pay and service conditions in 1955 when his Mars Dasa just started. Here Mars in this birth chart is seen applying its 8th aspect on the 10th house, its own house. Again no sooner Jupiter Dasa had commenced in 1980, the native got another promotion in service. This became possible because of benign Jupiter's trinal aspect on the 10th house. The native enjoyed a calm and quite service life without any ripples and it culminated in a promotion during the planet's own Dasa and own Bhukti. It may be mentioned in this connection that Mars and Jupiter besides giving promotions in service also distributed other results to the native but in their respective Bhukti's, aspect effect dominated the scene.

Thirdly, the location and strength of the 10th lord in a birth chart merits rational appraisal. **There are houses which are supportive of the traits of the 10th house.** We may call these houses and their lords as requisite complements to the 10th house and the 10th lord. If the 10th lord happens to fall in any one of these houses or if these house lords occupy the 10th house or its lords distribute themselves among these houses in a birth chart, best results relating to the service and profession may be obtained. Take for instance, the 11th house which represents the 2nd house from the 10th *i.e.* the house where the fruits of labour are deposited or conserved. The 2nd and 6th houses are trinally connected with the 10th house. The 2nd house being 5th from the 10th denotes recognition in career while the 6th house being the 9th from the 10th governs general status in service. Next comes the 7th house which is the 10th from the 10th. The 10th lord in the 7th means the Bhava lord is in a house which is equidistant from the Bhava as the Bhava itself is from the Ascendant. This fulfills the conditionality of the principle of Bhavat Bhavam. Astrologers, accordingly judge boss's favour from the 7th house. Lastly, the 8th house. Being the 11th house from the 10th it determines current income from service and profession. *So* **these 5 houses viz., the 2nd, 6th, 7th, 8th and 11th may be called supportive of the 10th house. These houses along with the 10th house comprise a 'highly charged' field. The greater the degree of concentration of their lords within that field, the better will be the horoscope from the point of view of career of the native.** Dr. B. V. Raman's horoscope may be cited to prove this point because the Doyen of Indian Astrology has an eventful, colorful and one of the most successful and continuously rising careers.

DR. RAMAN's Jupiter, the 2nd and 11th lord, is in the 10th house. His 10th lord Mars is in the 7th house with the 8th lord Mercury. His Sun, the 7th lord is in the 6th house. The horoscope displays that all the strategic lords excepting the 6th lord Moon are compressed within half of the delineated field.

We deviated from our discussion on promotion but this is an excusable deviation because predicting promotion is possible only when such promotions are promised in the horoscope. In DR. RAMAN's horoscope crucial planets are so arranged as to make possible his sustained rise over a long time. Readers may also imagine possible placement of the 10th lord in these strategic houses Ascendant wise and see that, for most of the Ascendants, the 10th lord in these special houses also are very powerful *e.g.*, for the Ascendant Aries, the 10th lord Saturn in the 11th house Aquarius or for Taurus, the 10th lord Saturn in the 6th house Libra.

There may be horoscopes where the 10th lord is so posited as to influence both the Dasa and Bhukti lord. If the Dasa and Bhukti lords are friendly to each other, their interactions may result in a breakthrough in career.

SAT.(R)	Chart 3 RASI		ASCDT. MARS VENUS KETU

			JUPIT.

The owner of chart 3, who was born on 23-8-1934 at 3.24 p.m. with a balance of 10 years, 4 months 15 days of Sun Dasa achieved a significant breakthrough in his career when he got the Bhukti of Venus in the Dasa of Rahu. Besides in the entire Rahu-Venus, he became a very important person in his place of work. The Dasa-lord, Rahu is locked in a reciprocal aspect relationship with the 10th lord Mars and the Bhukti lord Venus is conjoined with the 10th lord Mars. Besides, Rahu and Venus are best friends. Moreover Rahu is conjoined with the Ascendant lord Moon and receives trinal aspects from the 9th lord Jupiter. Several variants of this simple model are possible. In some horoscopes both the Dasa and Bhukthi lords friendly to each other may be seen conjoined and placed opposite the 10th lord and their dispositor is found posited in the 10th house. In some horoscopes, the Dasa lord may be opposed to a planet in the 10th house and its dispositor as the Bhukti lord is conjoined with the 10th lord and so on. So to discard a horoscope on the plea that it has neither any planet in the 10th house nor will it the Dasa of the 10th lord would be an erroneous approach. It is said in Astrology if you do not get the Dasa of a planet in your life, results expected of it may be obtained in the Dasa of another planet which is situated wither in the 4th or 10th house from that planet in the birth chart. In a nutshell, planets placed on square to each other also become Karakas for each other.

Gems as Astrological Remedies

M. G. BHAT

)o Gems Really Help

Many people doubt whether ems can help solve human roblems. The reasons for this oubt are quite obvious. Gems e very costly. To set them in a old ring is even more expen- ve. Therefore, anyone who ishes to invest such huge sums gems would like to know if ey can really help advance ne's prosperity, good health c.

he Need for Gems

The planetary positions at irth can give good or bad sults either during their Dasa, hukti or transit periods. metimes they give results roughout life like when there a Gajakesari Yoga or Nabasa, aridra Yoga etc.

Suppose a person has a bad oga like the 9th lord in the 6th 12th house then whatever may do, it may end in loss or ilure. A student may have the h lord in a bad house or he ay be combust. Then his lucation will not be smooth. ne has a weak Lagna lord or a uel planet in the Lagna. So he ay suffer ill-health most of the ne. In such situations it is nec- sary to correct the weak anets by the use of gems.

Types of Gems

Gems are of two types, precious and semi-precious. Precious gems cost more than ten to fifteen thousand rupees. Semi-precious stones are not so costly and can be afforded by the common man. In *Brihat Parasara* Hora Sastra the remedial measures like donation of cow, gold etc. at the end of Mrityunjaya Japa, Sivasahasranama etc., have been suggested. Gems come in handy to those who cannot afford to give away in charity cows and gold. A rich person can use diamonds which at today's rate cost Rs. 50,000/- per carat, while a poor man can use white coral or white zircon with the same results. The result will not depend on whether the gem is costly or not, but on whether it is for a good lord or not based on the Lagna. The gem based on the Rasi will not be very effective because hundreds of persons are born on the same day when the Moon will be more or less in the same Rasi. The Lagna on the other hand will change every 4 minutes.

However, the weight of the stone should be more than 3 carats (1 carat = 200 mgms). A diamond should be atleast one half carat. In a Navaratna set, the gems will be smaller in size, with the original diamond or zircon. Accordingly, the rate will vary.

The Correct Gem

The most difficult task is to choose the right gem. One can follow the Parasari system and prescribe a gem for a good lord only *i.e* the 1st, 2nd, 4th, 5th, 7th, 9th, 10th lord or for a planet in the 11th. But sometimes we have to choose a gem for a bad lord also like the 3rd lord. If the

Jupiter	Yellow Saffire	Golden Topaz
Mercury	Emerald	Peridot, Green Onyx
Venus	Diamond, White Saffire	White Zircon, White Coral
Saturn	Blue Saffire	Amethyst

3rd lord is combust or in debility one lacks courage. The 8th lord may be Neecha or combust. The longevity gets affected. For certain Lagnas, for example, for Virgo, Saturn becomes the 5th and 6th lord, for Gemini Lagna, Saturn becomes the 8th and 9th lord for Pisces Lagna, Venus becomes the 3rd and 8th lord *i.e.*, such planets when in Neecha Rasi or combust can give very bad results.

Sometimes two inimical planets become weak. For a person, the Sun in Libra and Saturn in Aries or both Mercury and the Moon combust, become weak. In such cases prescription becomes difficult. In such a situation prescribe a Navaratna set so that all planets will become neutral and give one more gem for a good lord like Lagna lord, the 9th lord or the 5th lord so that good results will increase. Whenever a gemstone for a bad lord is necessary then it is safe to give Navaratna as a balancing factor. For better results, the person may be asked to read Ashtottara of a planet who is in a bad place or a bad lord. Say a person has Rahu in the 8th in Leo. So reading Rahu Ashtottara can reduce his malefic effect along with a gem for the Lagna lord or the 9th lord. I have come across many horoscopes with Kalasarpa Yoga (all planets within Rahu-Ketu axis). In such situations also Navaratna is better than a single gem.

Chart 1 is of a native born on 3-4-1946 with a balance of 2 years, 1 month and 21 days of

Ketu Dasa. He started getting leucodermic patches. It was Rahu Dasa and he took medicines for over a year with no improvement. I prescribed 3 gems: For (1) Mercury who is Neecha and the 9th lord; (2) Venus who is the Lagna lord; and (3) Saturn who is a Yogakaraka. After 6 months he reported that the patches on his face had cleared and only some white patches remained on his hand. He also got a promotion in his present job.

Chart 2 is of a businessman born on 7-3-1951 with a balance of 13 years, 8 months of Jupiter Dasa at birth. He was in heavy debts.

It was found that the Moon and Jupiter were combust, for both of which he was given gems. To his surprise, he recovered more than Rs.60,000/ and that within a month of wearing the gems.

Chart 3 is of a man born on 1-10-1965 with a balance of 1 year, 10 months and 27 days of Mars Dasa. This person is a Ph.D. but was without a job for 6 months. He was prescribed a gem for 9th lord Mars (but in 8th). He wore the gem at the time of going for an interview. He was selected against competition from amongst 8 other Ph.D. candidates. You will notice that this person is having bad transits — Jupiter in the 3rd and Saturn in the 8th from the Moon. He got the job in October 1991.

Chart 4 is of a man born on 12-6-1949. He was having Rahu

Outlook for the Month

DHRUVA

Readers will not fail to notice the remarkable correspondence between the astral dispositions at the two cataclysmic events in Uttarkashi and Turkey. The New Moon chart (on 8-10-91 at 3h. 09m.) preceding the Uttarkashi earthquake had 13° Leo rising with mighty Jupiter close to the rising degree. Mars moved to an exact square aspect with Saturn on 17 October 1991, exciting a strong tremor that rocked northwestern India on 20-10-1991, when the celestial timer the Moon came opposite Jupiter in Satabhisha Nakshatra. Again, the Ascendant on the New Moon (-4-3-1992 at 18h. 52m.) at Ankara was Cancer 24° opposed by Mars and Saturn. Mars came to an exact conjunction with Saturn on 7-3-1992 and Eastern Turkey was rocked in 13-3-1992 when the Moon transited Gemini opposite Rahu in the asterism of Punarvasu. Both the events caused widespread destruction and heavy loss of lives. As presaged in these columns for March 1992, the catastrophe in Turkey matched the devastating power of the earthquake in Bihar-Nepal border on 15-1-1934 under the influence of similar planetary conjunctions. We had noted India, ruled by Virgo, among the vulnerable zones. The ruling sign of Turkey also being Virgo, it came as no surprise that the disaster struck this location, and that too when the rising sign was Virgo (at 5-20 p.m. GMT). Likewise, Turkey was the scene of a mining tragedy on 3-3-1992 at 8-10 p.m. (LMT) with Virgo rising, occurring just prior to the Mars-Saturn conjunction and the Moon in Satabhisha constellation opposite Jupiter. What better evidence to affirm Virgo as the ruling sign of Turkey ! This is further corroborated by the devastating earthquake that struck the same area on 26-12-1939, killing nearly 30,000 people. Mars and Jupiter transited Pisces opposite Virgo, and Saturn-Ketu in close conjunction were in Aries in the 8th, the Moon once again being in Gemini in the 10th from Virgo. The Ascendant Libra 11° was afflicted by Rahu, Saturn and Mars. This offers a promising area of investigation for the serious students to precisely delimit the orb of the sign Virgo that rules Turkey in contrast to that governing India. This will aid in differentiating which part of the globe is affected by celestial dispositions.

Two eclipses within a fortnight, a lunar eclipse (partial) on 15-6-1992 and a solar eclipse (Virgo) on 30-6-1992, affecting the Sagittarius-Gemini axis, have sinister forebodings. These eclipses, to recall the forewarning in the Annual forecasts by the Editor, are likely to have, "fateful repercussions on the Indian affairs in general and on the head of the Indian Govt., as also the US President, in particular severe earthquake shocks may strike California coast, Iran, Portugal, Mexico, or eastern India - Weather conditions may also be affected in the southern part of India".

The lunar month Jyestha commences on 1-6-1992 at 9h. 27m., with Cancer 11° rising at New Delhi. The Ascendant is afflicted by Saturn's direct aspect, but the lord Moon is in dignity in the 11th with benefics, and strong in his own asterism. Lord of Navamsa Lagna, though in own camp, is afflicted by Mars and Saturn. The eclipses having reference to the 6-12th axis in the lunar chart, and 4-10th axis with respect to India's ruling sign, the country may pass through a severe crisis, but will come out of the ordeal on account of the Lagna lord's strength. The lord of the 10th Mars, afflicted by the 3rd aspect of powerful Saturn, in his turn aspects the 12th. The 8th is hemmed between two powerful malefics. These influences, coupled with the incidence of solar eclipse in the 10th from Virgo, adversely affect the health of the nation and the Prime Minister; Jupiter's aspect on the 8th and the 10th being a redeeming factor. Jupiter, signifying financial affairs, occupies the 2nd as lord

of the 9th (and the 6th), in exalted Navamsa. The 2nd lord occupies the 11th with lords of the 11th and the Ascendant. These are positive influences for strengthening the economy and managing the fiscal situation. The 9th is occupied by Yogakaraka Mars, the 7th by own lord Saturn. The 10th receives the benign aspect of Jupiter. These strongly favour a rise in foreign trade and forex reserves. Price rise may show welcome signs of stabilising.

The 3rd is aspected by Mars, but the lord of the 3rd and significator is well placed in the 11th with benefic lords, favouring improvement in the functioning of communication, transport and media systems. The 4th receives the aspect of two powerful malefics Mars and Saturn, indicating disturbance, and turmoil in country's interval situation, land disputes and vagaries of weather. The 4th lord is however, strongly disposed in own Rasi, in Vargothamamsa, joined by the Ascendant and the 2nd lords, and favours growth in agriculture and efforts in land reform. The 5th is aspected by four planets, and the lord of the 5th is aspected by Saturn. In Navamsa, the 5th is occupied by Mars aspected by Saturn. This adversely effects children and speculative activities. Rahu in the 6th but aspected by 6th lord Jupiter presents the opportunity for taking firm initiative in checking internal disruptive activities and working for settlement of disputes in some parts of the country. Saturn, the 7th lord occupies the 7th in Yogakaraka Mars' constellation, in trine with the powerful Ascendant lord. Despite the hostile posture of external forces, the time is conducive to taking peace initiatives, and shaping a pragmatic foreign policy. The rising sign at Washington (Capricorn 9°) is Samasaptama with the Ascendant at New Delhi, an indicator for India and USA coming closer to each other.

The Ascendant at Washington is occupied by the lord Saturn, which promises general stability, but the aspect of Mars and Saturn on the 10th, the 10th lord Venus afflicted by the 8th lord, and the eclipse falling in USA's ruling sign, all conjure up a difficult period ahead for the President, physically and politically. Both the Ascendant and the 7th lord strong, a tough fight between Presidential contestants in the elections is on the card. An air tragedy and communication disruption is feared because of Mars in the 3rd aspected by Saturn, the 3rd lord in the 8th and the affliction of airy Gemini by Ketu and Mars.

Gemini 28° rising at Moscow is closely afflicted by Mars, who occupies the 10th, aspected by Saturn, and by the eclipse occurring in the sign. The country and the leadership will face a severe crisis, strife and attempt to overthrow the Government in some parts of the erstwhile Soviet State. Leo 17° rising at Peking has Jupiter, lord of the 8th in Ascendant, the 8th occupied by Mars, aspected by Saturn, lord of 6th, the 10th lord combust and afflicted by the 12th lord, the country may suffer national disaster and demise of a prominent leader. Taurus rises at London and Paris, with four planets in the Ascendant, assuring economic progress. Berlin with 4° Gemini on the Ascendant, has the rising sign and the 10th afflicted, by Mars, aspected by Saturn, turning the health if the Chancellor to criticality. 74.92

Dasaadhyayee-I

P.S. IYER

[*This article on* Dasaadhyayee *brings into prominence what purports to be the hidden meaning of certain verses in Varahamihira's* Brihat Jataka *hinted at by him in the sloka (1-2)* स्वल्पं वृत्तविचित्रमर्थबहुलं
-Editor]

Introduction

Astrology is the oldest of the sciences of India and it has been in use right from the time of creation. Brahma, the creator, taught Astrology to his son Narada, who in turn, handed it down to Parasara. Our ancient scriptures lay down that there are six branches of learning, namely Sikshaa (learning of language), Vyaakarana (grammar), Chandas (prosody), Nirukta (etymology) and Jyotisha (Astro physics, Astromathematics and Astrology) and Kalpa (method of performing various rituals)

Valmiki Ramayana reveals many instances to show that Astrology was strictly followed by the kings and the citizens alike even in Satya Yuga. There are very many instances, in *Valmiki Ramayana* to prove this contention. To wit, a view:

i) Valmiki describes the planetary positions visible in the sky at the time of birth of Lord Rama and his brothers. *(Book 1, Chapter 18, Slokas 8-16)*

ii) Dasaratha is said to have told Rama "My beloved son! Astrologers declare that the asterism under which I was born, is under the heavy influence of unpropitious planets Sun, Mars and Rahu. On such appearance a monarch meets with terrible calamity and ultimately meets his end. *(BK-2, Canto-4, Sloka-18)*

iii) "The war between Vali and Sugreeva resembled Graha Yuddha between Budha and Mangala". *(BK-4, Canto-12, Sloka-17)*

iv) "One who is in Dasa Sandhi will only be helped by another who is in identical part of Dasa Sandhi". This is what Kabandha, the Gandharva tells Rama. *(BK-3, Canto-72Sloka-8)*

These are but a few of the instances to show that niceties of Astrology are embedded in India's cultural life and part of it. The *Mahabharata* too has numerous instances to prove that Astrology was very much in use in Bharat, from times immemorial. Astrology was handed down to the mankind by eighteen great seers. In the current Kaliyuga too, many great writers and seers have interpreted the ancient wisdom in simple and effective languages in the style of the civilisation prevalent at the relevant time. But the credit for codifying Astrology in its modern form goes to Mihira, popularly known as Varaha Mihira, the jewel of the advisors of King Vikramaditya of Ujjaini.

Varaha Mihira was a great scholar of Sanskrit, Astrology, Astronomy, Astro-physics and Astro-mathematics. His principle was to write a few lines each capable of being interpreted in many ways, by scholars according to individual capacity and skill of interpretation. His son Prithuyasas was also an able astrologer. Of the many monumental works of the great Mihira, *Brihat Samhita* and *Brihat Jaatakam* popularly known as *Varaahi Hora* are the standard texts which are followed strictly and scrupulously by learned astrologers, students of Astrology and the Shastras all over India today. The Shastras ordain:

Vidhaatra Likhitaa Ya (a) sow
Lalaate (a) Kshara Maalikaa;
Daivagnastaam
Pathedyuaktam
Horaam Nirmala
Chakshushaa.

liberally meaning "The creator writes on the forehead of each creature what is in store for that soul in this birth; but it is only an astrologer who possesses a clear vision named HORA who can interpret what is destined for that being". Mihira writes in *sloka 2* of the first chapter of *Brihat Jataka* "Great writers (Rishis) have written books on Astrology strictly following the six rules governing literature. Yet there have been many scholars who have failed to cross the sea known as

Jyotisha Vidya. I begin writing this great work in small words capable of being interpreted in different ways by the scholars according to their own shrewdness and skill of interpretation". (*Note: This is the idea spoken in Sloka 2. But this is not its literal interpretation*). Thus it became essential that great scholars who had studied the work, HORA, of Mihira should write interpretations according to their own capability, wisdom and skill, for the good of the posterity.

In Kerala, two scholars look upon themselves the task of writing commentary on *Vaarahi Hora* and they both named it as DASAADHYAYEE or a book of 10 chapters. The importance of *Dasaadhyayee* is expressed in these terms:

Adrishtwaayo
Dasaadhyaayeem
Phalamaadeshtumichchati
Ichchatyeva Samudrasya
Taranam Saplavam Vinaa

meaning, that if an astrologer wishes to interpret a horoscope without (thorough) knowledge of *Dasaadhyayee* his attempt may be equated to the attempts of a person wishing to cross the sea even without the help of a boat. Kerala astrologers keep Dasaadhyayee as *VadeMecum*. *Bhattotpala* was the first interpreter of *Hora* in his book called *Dasaadhyayee* written in 825 A.D. He has to his credit many other works on Astrology, Astronomy and mystical sciences including interpretation of *Brihat Samhita*. This was followed by another version known as *Dasaadhyayee* written by Govinda Bhattatiri in 1238 A.D. Each of these is a code by itself. These two works were preserved by many Kalaries (Gharaana) written in palm leaves. Somehow, in 1888, Raja Raja Varma, the great scholar in the kingdom of Tiruvidaankoor (Travancore) got a copy of it and preserved it in the State Sanskrit Library. In 1912 Jyotirvid Hanuman Prasad Sharma of Jaipur managed to get a copy of *Dasaadhyayee* in Sanskrit script and he preserved it like a family possession of treasure.

I have already quoted a *sloka* at the beginning that it is only a Daivagna or an astrologer who has studied the subject thoroughly and who can say with micrometric precision what is in store for each creature born under the sky. Such predictions are possible only when a correctly cast horoscope of a native, a country, an occasion or a function is erected. The astrologer should also know the strength of each planet and the nodes and also the essential rules of interpretation of horoscopes.

One may ask two questions decrying the use of a horoscope:

(i) How can the stars, the planets, the constellations and the asterisms suspended miles and miles away over one's head influence the fortune or misfortune of each creature born under the sky in any part of the globe?

(ii) When Sastras say that the creator has destined the fate of each creature, even before it was born under the sky, then how on earth can Astrology help change such fate, eliminate such happenings or prevent any catastrophe? And what is the use of knowing such things well in advance when fate rules everything in this world?

The answer to the first question is simple. When the Sun and the Moon which are millions of miles asay from the surface of the earth can cause heat, cold etc., and influence one's behavior pattern, the other stars, planets, asterisms and constellations can also influence *mutatis mutandis* the future of every creature born under the sky - in their own way. Take for example asthma patients. They suffer unbearable suffocation on New Moon and Full Moon days. Stars appearing over the sky at different latitudes and longitudes influence the atmosphere, the sea, the tides, the behaviour of animals, birds and beasts and even trees, plants and creepers. Similarly they influence rainfall, wind and all other natural phenomena.

Now let us take the second proposition.

What is the use of knowing in advance one's good fortune and misfortune if destiny is so powerful and how can one say that a horoscope drawn is bound to reveal so many hidden secrets well in advance?

The answer is simple. The horoscope is just like the plan of a building and it explains the position of the planets prevail-

ing at the time of an epoch in relation to the hour and the degree of the Ascendant rising on the horizon. Once you know what is likely to happen you can take preventive and adequate action or be forewarned of a good or a bad thing which is going to happen. For instance, the parent of a child wants to know what type of education the child should be given so that it, ultimately, is well placed in life or a person plans to undertake travel to a foreign country on a specific date. He consults his astrologer who is well versed in this science and art. The latter warns his client that the ruling time of the consulting client is bad and the aircraft is likely to meet with an accident but he may not die. On hearing this, the client decides to cancel the trip even at the cost of some risk and wrath. Two days later, he reads in the newspaper that the aircraft in question had crash landed and consequently, four people died. Here, consulting an astrologer has helped him from an irreparable loss.

Let us examine this aspect further by referring to an example horoscope:

Chart 1: Born 29-9-1987 at 13-21 hours at 16N50, 82E 12.

Balance of Mercury Dasa at birth: 3 years, 2 months and 26 days.

Background: This is the only son of his father who was a village Munsiff who, due to the new policy of the Government has lost his traditional job as munisiff. The father of this boy does not know any other work. He wants to know:-

(1) Does this child suffer Baalaaristha? If so, till when and to what effect? (2) Will his father get back his Government or any other decent job? (3) What kind of education is this child likely to have? (4) Will his education be smooth? What branch? (5) Is any break seen in his education or change of discipline? (6) Will he get any good job and continue in it or will he change jobs many times? Or how will he earn his livelihood? (7) What about his health? Will he face any serious accidents? (8) Does he enjoy any valuable benefic Yogas? (9) Does the horoscope indicate any danger to the life of the mother of the child at any time because of the misfortune of this boy? (10) What are the remedies suggested to overcome the malevolence?

For the convenience of the readers we answer these questions indicating the respective planetary influences. Let us first assess the horoscope:

The analysis of the horoscope is as follows:

From the tabular analysis we find that, in this order, the Sun, Ketu and Jupiter are excellent, Mars and Rahu are good and others are inimical. Perhaps the Shadbala Chart might make some change or improvement.

Now let us answer his queries in order.

1) Balarishta has to be elicited from the position of the 8th lord, the Lagna lord, Rahu, the 8th Bhava, planets occupying or aspecting the said Bhava and the key planet of the chart. His longevity is upto Moon Dasa, Rahu Bhukti and Ketu or Sukra Antar Dasa, since Moon - as Ayur karaka for him - is debilitated, transits Gandanta, and is in Visha soonya, Venus is debilitated and is in Moon Navamsa aspected by Saturn and Mars in the Navamsa Chart. (see *Deva Keraleeyam*, Part I, Sagiharius ascan and the moon is in Jyeshta Nakshatra. During childhood he will suffer due to throat trouble. (Lord of 8th house is in the 12th with Saturn), lack of proper growth, (Mars aspecting the Ascendant lord who is in inimical Navamsa - as per *Gadavali)* and affliction to liver and spleen. He might also face miraculous escape from Vehicle-accidents. (The 7th and 8th lords badly afflicted and mercury placed between Saturn and Mars). The worst period is from 15.3.1992 to 3.3.1993. (Ketu-Sun and Ketu-Moon periods as both as susceptible to cause accidents to Sagittarius natives as per *Patu Jaatakam)*. (Convulsions and cramps are his eternal enemies. Convulsions and cramps are

2) His father is likely to get the old job itself between 22.4.1992 and 13.9.1992, but he may not continue in it for long. Ketu-Venus period: Ketu is the lord indicating father here (10th house) and Venus indicates, his father's job. Ketu is in Uttara and Venus in Hasta. He might be charge-sheeted before Saturn leaves Capricorn and might lose the job once for all in June-July 1994. He better take a diploma course in foundry engineering or in any work connected with melting of metals - mainly non-ferrous. (See the Sun, then the 10th lord from the Ascendant in Navamsa/Sagittarius in Loha Pada. Saturn aspects the 9th house and is in Capricorn Navamsa with Mars). Therefore, he can learn the trick of the trade as a trainee and, at 27, start business in rubber or plastic moulding, paper conversion or repairing transport vehicles since 10th lord is Mercury and is in 11th house in Jupiter Navamsa (See *Anushthan Paddathi* and *Krishneeyam)*. This is likely to be influenced totally or changed considerably, after marriage as Rahu is in the 10th to the 7th house and since lord of the 7th place from Navamsa Ascendant is aspected by Mars and Saturn and occupies a watery Navamsa.

IRANGANTI RANGACHARYA

Fourth House From Karakamsa

1. If the Moon occupies the 4th house from Karakamsa, the native becomes a sailor.

2. The Moon in the 4th house from Karakamsa aspected by Venus, makes the native a prosperous navigator. The same result is caused by the Moon in Sagittarius aspected by Venus.

3. If the Moon alone occupies the 4th house from Karakamsa and is aspected by the Sun and Rahu, the native dies by snake-bite. But the aspect of a benefic planet can avert the danger of death by snake-bite. By the association of benefics alone in the above, the native becomes a curer of snake-bite or a dealer in Antidotes.

4. If the 4th house from Karakamsa is occupied by the Moon alone aspected by Mars and unaspected by any other planet, his house burns away or he sets fire to others' houses. If benefics also aspect, the house will be half-burnt.

5. If benefics along with Venus aspect the above, the danger of fire accident will be averted.

6. If the 4th house of Karakamsa is occupied by the Moon and aspected by Mars and Jupiter, the house adjacent to the natives house, may catch fire but not the native's house.

7. If the 4th house from Karakamsa is occupied by Gulika, unaspected by benefics, he administers poison to others. But if Gulika is in the 4th house from Karakamsa aspected by malefics, he dies by swallowing poison.

Determination of Gulika

Divide the diurnal duration by 8. There will be 8 parts. The lord of the weak day owns the 1st part. Next the lords of the weekdays own respectively the next six parts in the order of the Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn., The 8th part will have no lord. The part owned by Saturn will contain Gulika at the end. Suppose the weekday of birth is Tuesday. Then the lords of the 7 parts are Mars, Mercury, Jupiter, Venus, Saturn, Sun, Moon. Hence Gulika resides in the 5th part of the day ruled by Saturn. For a night birth, divide the nocturnal duration by 8. The 1st part will be owned by the 5th week day lord from the weekday of birth and subsequent parts will be owned by in the order of the weekday lords. The Table below gives the positions of Gulika for both day and night births.

Since Gulika resides in the end of the part owned by Saturn, the longitudes of Gulika can be calculated according to the latitude of the place of birth.

Example: Birth on 20-12-1990 at 9.00 a.m IST; Place - 18.03N 79.32E; Weekday of birth - Thursday; Diurnal duration - 11 hrs 03 minutes; Each part when divided by 8 = 1 hr 23 minutes

On Thursday, the 3rd part is owned by Saturn. Hence Gulika stands at the end of Saturn's part which is 4 hrs 09 mts. (1 hr 23 min x 3) Sunrise = 6.20 a.m

∴ 6.29 + 4.09 = 10.38 a.m

GULIKA TABLE

Weekday	Day birth	Night birth
	(Gulika or part owned by Saturn)	
Sunday	7th	3rd
Monday	6th	2nd
Tuesday	5th	1st
Wednesday	4th	7th
Thursday	3rd	6th
Friday	2nd	5th
Saturday	1st	4th

Hence at 10.38 a.m for the given place and latitude, Lagna obtained becomes the longitude of Gulika. This comes to 10s 5° 57'. Hence Gulika is placed in Aquarius 5° 57' in the Navamsa of Scorpio.

Erect the Rasi and Navamsa charts for the given date (20-12-1990 at 9.00 a.m IST at 18.03N 79.32E) of birth and time and place. Place Gulika in Aquarius in Rasi chart and in Scorpio in Navamsa. If Gulika in the 4th house of Karakamsa is aspected only by the Moon and connected with benefics, the native gets the stolen property. If Gulika in the 4th house of Karakamsa receives the aspect of the Moon and is connected with malefics, the native himself becomes thief.

9. If Gulika is in the 4th house from Karakamsa aspected by Mercury, the native will have hydrocele or swelling of the testicles.

Second House From Karakamsa

1) If Ketu occupies the 2nd house of Karakamsa and is aspected by malefics, the ears of the native may be cut off. If benefics also aspect, the native suffers from ear disease.

2) Ketu in the 2nd house from Karakamsa aspected by Venus, makes the native perform Yajnas.

3) Ketu in the 2nd house of Karakamsa aspected by Mercury and Saturn makes the native an eunuch.

4) Ketu in the 2nd house from Karakamsa aspected by Mercury and Venus, makes the native talk repeatedly or gives tautological expression. Or he may be born to a woman for the second time. Or he may suffer from windy disease. If malefics aspect he is one born to a servant-maid.

5) If Ketu is in the 2nd house form Karakamsa aspected by Saturn, make two predictions.

1) Saturn (1° - 15°) associated with another planet, aspects Ketu in the 2nd house of Karakamsa, the native becomes an ascetic.

2) Saturn (15° - 30°) associated with another planet aspects Ketu in the 2nd house from Karakamsa, the native becomes a servant.

6) If Ketu in the 2nd house from Karakamsa is aspected by Saturn alone, the native becomes a fake ascetic.

7) If the Sun and Venus together aspect the 2nd house from Karakamsa, the native becomes a Government official.

ASTROLOGICAL CLUES TO PROMOTIONS AND CAREER

(continued from page 480)

(Mercury) and 6th lord (Moon), such a relationship having been reinforced through interception of Yogakaraka Venus into it.

The quintessence of discussion in the foregoing paragraphs is as follows:

i) The 10th house and its lord have a vital role to play in the Sunrise promotions in career.

a) The nature, number and strength of individual planets residing in the 10th house, b) type of aspects the 10th house receives, c) the position and strength of the 10th lord and its status *vis-a-vis* other planets in the chart, d) the strength and placement of the dispositor of the 10th lord all merit serious study in an integrated framework and assume tremendous relevance in forecasting.

ii) Besides the 10th house and its lord, the following five houses along with their lords *viz.*, the 2nd, 6th, 7th, 8th and 11th have their supporting role in pushing a man up in his career. The higher the degree of concentration of these strategic lords including the 10th within a given field comprising these 6 houses in the horoscope, the greater the thrust its owner would experience to ensure the sustained rise overtime.

iii) Assuming rise in career is strongly promised in the horoscope, such promises are fulfilled through appropriate Dasa and Bhuktis. Here also, the 10th lord and planets in the 10th house act as effective carriers of results in a variety of ways, either directly or indirectly. In some horoscopes, field placements of planets are such that they function as mutually dependent variables allowing the 10th lord to occupy a pivotal place and to act through them. For those fortunate persons rise becomes sustained and continuous.

Sanskrit: The Planetary Language

VYAAS HOUSTON

Occasionally I consider the idea of Sanskrit as a planetary language. When broached the subject with Vedic scholar and astrologer, David Frawley, he said, "It's inevitable. It's just a question of which century." The idea - Sanskrit, the universal language as the planetary language continues to surface among those who are devoted to it, and even seems to capture the imagination of others.

What exactly is it about Sanskrit that makes its devotees so passionate? What do we love so much about Sanskrit? Many have heard that it is the language of the gods, Devavani, as it is called in India; the language of yoga and meditation; the inner language. *It has been written up in AI magazine (Spring 1985) by a NASA researcher, Rick Briggs, as the only spoken language in the world capable of functioning with mathematical precision and embodying the basic principles of artificial intelligence. It is possibly the only natural language in the world that is compatible with computers.*

There are those in India who passionately seek its rebirth as the country's *lingua franca*. Religious seekers and mediators throughout the world chant and absorb themselves in the rhythmic sound currents of its mantras. Most have never taken the time to learn the language or the refinements of its pronunciation, or learn exactly what it is they are chanting. Still, they love it. There are organizations in this country where literally thousands of people gather and chant mantras together.

In the past two years I have given an intensive 20 hour introductory workshop, called the Sanskrit Training, or sent a Sanskrit cassette home study course to at least seven hundred people in the United States, and received inquiries from more than a thousand. The interest is growing rapidly.

Sanskrit is a language which generates inspiration. It has flourished now for thousands of years. *It is the world's oldest spoken language, enjoying an unbroken tradition of atleast eight thousand years and possibly much longer by the estimation of David Frawley.*

Those who are familiar with Sanskrit, regard the idea of

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

Sanskrit as a *dead* language as absurd. In fact, many will say, that there is no language which is so alive as Sanskrit - alive in the sense of creating aliveness. Sanskrit is a language of power.

Why? What makes it different? What is so extraordinary about Sanskrit? We have heard traditional answers - that the language was divined by rishis, enlightened sages, as the primary evolute of the original "word" of God. But it seems that it is time for us to discover that for ourselves by conducting our own inquiry.

Starting from the ground level, the physical structure of the language is flawless. The sounds of the Sanskrit alphabet are defined by and organized within the five distinct mouth positions capable of creating the highest degree of clarity of articulation and power of resonance:

1) guttural (throat)

2) palatal (hard palate)

3) cerebral (where the arch rising behind the upper teeth reaches the roof)

4) dental (behind the upper teeth)

5) labial (lips)

To give an idea of what occurs at each of these positions, let us take a look at the basic categories of sounds at the fifth position, the lips:

Simple vowel - short u as in *put.*

Simple vowel - long u as in *boot.*

Hard unvoiced consonant with minimal breath - *pa*

Hard unvoiced consonant with maximal breath - *pha*

Soft voiced consonant with minimal breath - *ba*

Soft voiced consonant with maximal breath - *bha*

Soft nasal consonant - *ma*

Semivowel derived from the vowel *u* - *va*

The above are a family of sounds which are distinctly labial. The Sanskrit language is structured in such a way that through experience, one becomes increasingly more aware of the unique resonance of labial letters, their differences and similarities, perhaps as a musician grows increasingly aware of the unique resonance of each string of his instrument. And with that increases the precision, clarity and power of each sound. Increasingly, one's enjoyment is enhanced and deepened.

The same could be said of any of the five groups. For example, one of the great pleasures of the Sanskrit language lies in the alternation between minimal breath and maximal breath consonants *(alpaprana* and *mahaprana)*. The minimizing of breath while producing a consonant, when for example, touching the tip of the tongue behind the teeth in *ta* brings about an intensely focused one-pointedness of concentration; while a consonant released with maximal breath, like that has an expansive liberating effect. It releases pressure from the heart and chest, and creates a happy relaxed feeling. Sanskrit, in this way, has its own built-in *pranayama* (yogic breathing). The language itself breathes, alternately contracting and expanding.

But Sanskrit, as a focal point of meditative awareness, can help to facilitate a yogic state by many of its properties, all contributing to make Sanskrit the perfect inner language. All sounds are harmoniously blended to maintain a continuous unbroken current of resonance. For example, the original combination of words *Bhagavat Gita* is dissonant because *t* is a hard sound and the following *G* is soft. If it were pronounced in the same way, there would be a choppy interruption at the *t*. Thus the dental *t* will change to its own dental soft letter *d*. Bhagavad Gita has the proper harmonic blending.

Some other examples:

Namah te becomes *Namaste*

Namah Narayanaya becomes *Namo Narayanaya*

Sah-Aham becomes *So'ham*

As one develops greater and greater sensitivity to the electromagnetic current and vibratory power of energy moving through the tongue and lips, it becomes possible to expand the field of resonance gradually to the entire body and then beyond. The effect of this, as the experience deepens, is one of the body and mind being chanted or resonated rather then chanting. Furthermore, what they are being resonated

Earthquake Prediction

I

Sir,- I like all your articles, but I have liked most the April editorial regarding earthquake prediction. Although the conditions given by Sage Parasara for an earthquake are (1) conjunction, aspect, opposition of major planets like Saturn, Jupiter and Mars, (2) Eclipses of Sun and Moon, (3) New and Full Moon, two of them have been fulfilled in the recent earthquake of Turkey during (1) Mars and Saturn conjunction in Capricorn and (2) New Moon occuring on 4-3-1992. But the area has been a total failure, as you have predicted India and Pakistan where nothing has happened so far. This I am pointing out to you as you have said in the same article that scientists are not able to predict earthquakes in advance. I am also a scientist and therefore ask you if an astrologer claims to predict earthquakes in advance and also locality to be affected why did your prediction go wrong regarding area? Please clarify.

Rajan Bakshi M.Sc. (Physics)

Jamu Cantt

[***Gayatri Devi Vasudev*** *replies:*

It is true that the earthquake prediction was correct time-wise but it was not wrong, location wise. The charts of only India and Pakistan were taken up for study and analysis vis-a-vis *the Mars-Saturn conjunction. If the charts of all areas prone to seismic disturbances are studied, the location can be identified with a fair degree of precision. And to do that, a large number of astrologers must come together as a team and coordinate their findings on different points of the globe. For this, not only men but other resources such as time, energy and funds are necessary. Astrology has no official recognition or patronage and work is done by individuals on their own private resources of time and energy. Seismology on the other hand is officially recognised and funded by the Government and has at its command, all that is materially necessary to work on the possibility of earthquakes. Public money supports all their work and they are answerable to the tax-payers. Therefore, failures by such departments ought to be criticised and pointed out and highlighted. Failures by astrologers can be pointed out too but lack of work in one particular area due to constraints of time, energy, resources is not the same as failure to do it by a body which gets massive funding from the government precisely to do that work. The very fact the timing was fairly precise needs to be taken note of by scientists who denigrate Astrology from a point of ignorance of this Vedic science. Its prediction locationwise is just one step away but hampered due to work being done only at the individual level in the absence of official recognition and patronage.*]

II

Sir, - I thank Mrs. Gayatri Devi Vasudev for her erudite editorial article "Mars-Saturn Conjunction and Earth-quakes", written on 7th February 1992 but published in April 1992 issue of *A.M.* which gave a clear hint of occurence of earthquakes in Pakistan and India around 6-3-1992 when Mars-Saturn would be exactly conjoining in Capricorn. True, a big earthquake has already occurred within a week from the aforesaid evil Mars-Saturn conjunction with Rahu in the rear fiery sign and Ketu occupying an airy sign in 6th from such conjunction. But areas affected appertain to Turkey and not to Pakistan or India as expected by Mrs. Vasudev.

In my view earthquakes, monsoon, weather, floods, droughts are all natural phenomena and for their studies political charts cannot serve as true guides. Our ancient sages have used only natural Nakshatras and signs allotted to each area in Mundane Astrology. They have also used Annual Samvatsara chart for knowing such event. It is true that many of the areas ruled by Nakshatras as explained in *Brihat Samhita* are not understandable to us. Maps of nations have undergone tremendous changes during the last two thousand years or so. Therefore, with the help of competent historians we may have to trace out ancient areas as discussed in oriental and western classical works on the present maps of nations. As various areas are ruled by the same sign or Nakshatra, we can predict probability of occurrence of earthquakes in some such areas but nobody can definitely say about any particular area.

The Indian subcontinent has been shown to be ruled by Virgo in some works while in many works it has been shown to be ruled by Capricorn. One ancient Greek astrologer allotted Cancer for India. W.J. Tucker, in his article "How to Forecast World Events" (*A.M.*, April 1992) has shown how Turkey had been hit in the past whenever its natural sign Capricorn was afflicted. No wonder, Turkey has experienced a big earthquake followed by a civil war in the form of Kurd-revolt in March 1992 on account of Mars-Saturn conjunction in Capricorn. We can build strong houses in earthquake prone areas but it is practically not possible to shift the

Sir, - I congratulate Mrs. Gayatri Devi Vasudev for her editorial article "The Mars-Saturn Conjunction and Earthquakes" (*A.M.*, April 1992). She has beautifully explained the facts in the article. She has also predicted the earthquake in the month of March. The two major quakes that occurred in Turkey show the correctness of her predictions.

Sir, - Kindly convey my hearty congratulations to Mrs. Gayatri Devi Vasudev for her correct prediction in respect of earthquakes in Pakistan and India (*A.M.*, April 1992).

An earthquake of intensity 5.2 on the Richter scale in Pakistan near Islamabad and not so severe earthquakes-tremors in India were reported on TV on 25th March.

Hindu Astrology

Sir, - I have been studying Jyotisha since December 1989 here in Holland.

Before, I was a student of western astrology for almost twenty years but I was not very satisfied. When I discovered the truth of Jyotisha I dropped the whole western stuff in order to follow only Jyotisha as taught by Maharshi Mahesh Yogi.

The study of Jyotisha not only satisfies me greatly but also enlightens me. It is a very fulfilling knowledge.

Maharshi Parasara is not always easy to read, especially not for a Westerner whose know-ledge of the Sanskrit terms is very limited. But it inspired me to take a Sanskrit course as well as Devanagari writing and with time we'll succeed, me and my colleagues.

Maybe you don't know, but among the Jyotish-astrologers from the TM-Movement you are very respected, since you have been writing so abundantly throughout your lifetime, safeguarding the tradition of the ancient Rishis in this field with so little difference from what our Master says. So your works are selling well over here and we are very happy to have them. I have been able as well to read some of the topics in THE ASTROLOGICAL MAGAZINE.

I found that not only you possess a great many horoscopes difficult to have over here from celebrities, edited in your *Notable Horoscopes*, but also you are discussing very interesting horoscopes in your magazines.

It was this fact that inspired me to write to you and to ask you if you could possibly provide me with the horoscope of another Indian Saint viz., Sage Vyasa. People told me it exists but they didn't tell me where to find it.

I wish you all the best for 1992 and hope you will be able to celebrate your 80th anniversary in the very best shape!

A Less Known Technique of Prediction

Sir, - I have been a reader of THE ASTROLOGICAL MAGAZINE for decades. While going through some old issues I came across in the July 1982 issue of A.M. an article under the above caption by Mr. R. Santhanam (now editor, TOA). The following extract from the said article will be found to be of interest.

"I give below the horoscope of our editor, Dr. B.V. Raman, which I discussed in the issue of December 1977. Date of birth August 8, 1912 at 07.43 hours IST at Bangalore (see chart below)

"The Ayanamsa used is 22° 38' 13" (Chaitra Paksha). This is Krishna Paksha Savyapasavya chart and the counting of zones starts from S.No. 3 for each Bhava and ends with the next at S.No.2 as the twelfth zone. The

Bhavas are indicated in brackets in the horoscope itself.

"Take the 4th Bhava which falls in Scorpio according to our calculations. It is occupied by Jupiter. He is exactly on the zone of 'success' for this Apasavyasavya chart. Hence Jupiter gave him success in astrology, success in the matter of issues in general, success in the matter of wealth, etc., all ruled by Jupiter. Taking Leo as the 1st Bhava, Jupiter rules the 5th Bhava (see as marked in Sagittarius) and the 11th Bhava (see as marked in Pisces). The success achieved by the native related to the 5th, 11th and Jupiter's Karakatwas.

"Lord of the 5th Jupiter is shunted to the 4th (which is the 12th from the 5th) and hence, the native lost his brilliant son Surya Prakash. Also note the direct opposition to Jupiter in the 4th Bhava from Saturn in the 9th Bhava. The opposition is almost exact and very effective. The 9th is also to be considered for children. Further, whenever Rahu is connected with one's education (and educating others) adversely, he is the most insurmountable menance. However, if he is well disposed, the native propagates religious studies not only in his native country, but also in foreign countries, apart from achieving a high degree of 'education' for himself. This has become 100% true in the case of Dr. B. V. Raman.

"Note Rahu in the 11th on the zone of 'educational abundance' and thus he made the native spread the cause of astrology not only in India, but also in many parts of the world under the

sun. Co-incidentally, Ketu is also on the zone of education in the 2nd Bhava and it is beyond argument that this is an effective connection lent by Ketu to the Editor's astrological fame. Ketu is again in the house of money. I can guess that the Editor has immoveable property, sufficient wealth etc.

"Thus, these two planets, *i.e.*, Rahu and Ketu, by thier position as above made the native a shining star on the horizon of Jyotisha.

"Finally the longevity aspect of the native can also be well discussed by my theories but I refrain from doing so as I do not believe in **carrying coal to New Castle.**"

George Bush

Sir, - George Bush has Leo Lagna. Mars is Yogakaraka for Leo and Mercury gives pronounced prosperity. Mercury in the 10th indicates high position. Saturn, lord of the 6th and the 7th, is a bitter enemy of the Lagna lord Sun and hence most baneful planet for Leo.

According to *Bhrigu Samhita* his 69th or 70th year shows critical illness. At the time of election the Moon in Venus will be running. He will enter the White House surely. But, I am afraid, due to critical illness he may not complete his tenure. As per the *Samhita* his birth month seems to be critical (Ref. Editorial A.M. November 1988).

India and Saturn's Transit of Capricorn

Sir, - Mr. C. S. Kothare in his illuminating article (A.M. January 1992), while giving details of the happenings due to the cycle of Saturn starting from 1842, has missed one important aspect of the period 1942, *viz.*, the influence of Netaji Subhas and his Azad Hind Fauz. He has mentioned the Quit India Movement and Naval Revolt of 1942. The Naval Revolt was in the early part of 1946 and prior to that the trial of Captain Shaw Nawaj, Shehgal and Dhillon in the Red Fort roused the people of India against the British. I think these happenings were also due to the cycle of Saturn.

I would request the editor to discuss the horoscope of Netaji Subhas threadbare and throw some light on his so-called end.

Sir, - I liked very much the article "Some Observations on Kumbha and Karkataka Lagnas" (A.M. February 1992) by K.P. Sir, - This has reference to Mr. C. K. Nair's views on Kumbha Lagna (A.M. September 1991 page No.722). An article on this subject appears in the February 1992 issue by K.P. Suryanarayana Rao. The A.M. has published many observations on Kumbha Lagna since 1972 but Mr. Rao thinks that Kumbha Lagna is the worst of all Lagnas. I suggest that this finding be tested in a number of horoscopes.

Useful Features

Sir, - What I observed in your magazine of February 1992 that questions along with horoscopes in "Astrology and Women's World" are varied and very interesting. They add to the knowledge of astrologers about their problems.

Another column "Planets and Career Counselling" has been very attractive and useful. Unlike in the past, today's service position in many fields has posed many problems and getting promotions has become very competitive. Besides career, moulding after graduation is becoming very tough now-a-days. For all such needs, this column is very useful. Your analysis of charts provides clear guidelines to determine one's inclination in the choice of a career.

Thoughts expressed in your editorial are very apt and need to be considered carefully by those in power.

The article "Rahu and Ketu and their Dasas" provides much food for thought.

Combustion of Rahu

Sir, - It makes no sense to talk of the combustion of Rahu (or Ketu for that matter) as Mr. A. N. Jivani (A.M. April 1991, page 359) and Mr. N. N. Saha (A.M. March 1983, page 284) have done. Both *Solitaire* (A.M. June 1991, page 503) and Mr. P. R. Sananthanan Nair are perfectly right in asserting that Rahu and Ketu can never be subject to combustion. But the real reason for it is that they are both *cchaayaa* grahas.

❑ *My Experiences in Astrology

(UBS Publications, 5 Ansari Road, New Delhi 110002. Pp.327, Rs.50.00)

A close study of this book is indispensable for appreciating the hard labour that Dr. Raman has had to put in before he became a national institution. In the thirty-three chapters comprising this volume we have a vivid portrayal of life in our country, spanning more than sixty years at a stretch. The author lays bare the struggles he went through — both domestically and professionally — and enables the reader to participate in the saga of the Raman family in their heroic effort to establish Astrology as a Science with a spiritual basis. Here we have history, social philosophy, astronomy, astrology (in its several lines of applications), all rolled into one. Dr. Raman is a keen observer of human nature and it is gratifying that no amount of trickery, ingratitude, cynicism in 'high' quarters has made him a misanthrope. He retains his original faith in the essential rectitude of the human soul despite the many disappointments that were his share. The several anecdotes that make the pages delightfully educative are a prominent feature of this work.

Many are the topics dealt with in this narrative. Methods for casting horoscopes, reading the future of individuals from scant data, warnings against stumbling for want of an intuitive touch are vividly discussed. Dr. Raman has come up the hard way under the tutelage of his illustrious grandfather, B. Suryanarayan Rao and his recollections bring a bygone age before the mind's eye. To cite a few of his notings: householders should not indulge in preparing Panchangams; they run the risk of domestic calamities. (P.21) Details of the Snapshot method for ascertaining facts; remedial measures prescribed in the Mantra Sastra; Origins of Palmistry in India; difference between the Western and Indian approaches and the excellence of the latter (P.69); Correspondence with Cheiro, whose occult powers left him when he lost a talisman that he always wore; encounters with astrologers who had propitiated the lower deities, kshudra devatas; the unfailing power of Gayatri Mantra in the face of mischief on the part of professional palmists and astrologers; the author's experiences with the custodians of *Nadi Granthas* which are true to the letter when it concerns the past events but which fail miserably where the future is concerned.

Interesting and educative are his accounts of meeting celebrities, sage Ramana Maharshi, Sir Mirza Ismail, Maharaja of Mysore etc. Dr. Raman's account of his brief forays in horse-racing are amusing. His account of his predictions during the Second World War is striking. Dr. Raman is frank and straightforward in his dealings with everyone and no doubt he has had to pay the price for upholding his values. There is reference to a correspondence with Carl Jung. The famous psychoanalyst explains: "As I am a psychologist, I am chiefly interested in the particular light the horoscope sheds on certain complications in the character.... I must say that I very often found that the astrological data elucidated certain points which I otherwise would have been unable to understand." (P.313)

The foundations of the career of Dr. Raman were laid by his grandfather. In one of his last communications to the author he instructs him:

Never underrate any person, big or small, deal with him politely. Help when you can but never cause harm to anybody. Always feel humble even when you reach a high position in your field. Don't interpret horoscopes deterministically. Never seek favours from others. Safeguard your self-respect, cultivate an attitude of non-attachment. Be patient whatever the provocative circumstance. Never underrate another person in a public assembly or in a private meeting. Do not listen to tale-bearers. Keep before you the mission in life and put forth efforts to achieve it. But the Karma you practise should be *Nishkama*. God Bless you. (P.189)

Surely the grandson has more than made it; Raman is a household word wherever organised Astrology is concerned. The 33 chapters of this volume bring the account up to 1945. The author owes it to us to work upon the subsequent period and add a companion volume covering the next four decades of his eventful life. His visits to Europe and U.S.A. are still to be dealt with.

. The Eternal Triangle

by Allison L. Bayles. (International Society for the Investigation of Ancient Civilisations, 31, Poes Garden, Madras 86. Pp.150, Price Rs. 95.00)

The author is an experienced en-neer who has travelled and worked idely. He has had encounters with several religions and experienced the breath of God in all spiritual efforts to practise the divine values. The crux of life, according to him, is in the Eternal Triangle: God, You and I. Unity with God is not complete without unity between you and I. In this perspective the author discusses the connotations of Religion, Trinity, Divinity, Love, Hope, Faith, Prayer, Sin, Salvation, Miracles, Worship. He examines the human situation as it has developed over the last sixty years and more and throws out suggestions whereby each one could contribute to the full figure of the Triangle. Though the background of the approach is largely Christian, there is a catholicity about the outlook of the writer. Citing a number of anecdotes, personal experiences, he makes the discussion highly interesting. It is a distinct contribution to the growth of the universal brotherhood of man.

❑ **Gayatri: The Highest Meditation**

by Sadguru Sant Keshavdas. (Motilal Banarsidass, Delhi 7. Pp.144, Rs.30.00)

In this book there is all that one who practices Gayatri needs to know. The Gayatri, it is said is the essence of the three Vedas: "Brahma, Supreme Creator, drew out each one of the three padas of this mantra from each one of the three Vedas" (Manu II.77). It is a most powerful invocation to the Supreme Sun of which our physical sun is a symbol, to energise our intelligence. How is the japa of this mantra done? What are the purificatory rites and techniques? The posture of sitting, time atmosphere, breath control, the use of fingers for Kriyas, the use of the rosary, etc. are described in detail in these pages. The book also contains the hidden meanings of the Pranava and the Vyahriti portions of the utterance. There is a striking chart which indicates the sevenfold symbolism of the Vyahriti and integrates it with the sevenfold creation. Practice of Sandhya Vandana, meditation on Kundalini through the Gayatri and Purusha Sukta are some of the other important contents. At the end there is a list of 20 Gayatris of different Deities on the model of the original Gayatri by Rishi Vishwamitra.

What distinguishes this book is its practical and spiritual character, unlike the academic treatises that are offered by many writers.

❑ **Anecdotes from Ancient Lore**

by K.V. Krishnamachari. (Namagiri Trust Tatabad II Street, Coimbatore 641 012. Pp.128, Price not stated)

The *Mahabharata* is a unique epic of which it is rightly said that what is not there is not anywhere. Ethics, religion, spirituality, history, statecraft, war-craft, social science etc. etc. are all there reflecting a civilisation spread over a thousand years. This well-written book contains a few of the incidents in the epic narrated in a way that satisfies the curiosity of the reader. The background of the marriages of Draupadi, Rukmini, Satyabhama etc. is vividly portrayed. Kunti's remorse, Karna's nobility, Bhishma's self-abnegation are some of the narratives designed to awaken higher impulses in the youth of today. A happy selection.

These two fascicles contain select talks of Swamiji who himself is a disciple of the famous Yogaswami of Sri Lanka. He is currently engaged in spreading abroad the Teaching of Saiva Dharma in which the Tirumantiram of Tirumular, Kural of Tiruvalluvar, Sutras of Patanjali and sayings of Yogaswami figure prominently. The first publication is a collection of lessons on how to practise the lofty Teaching in daily life. No withdrawal from the world, is the central theme. Your Technical Difficulties Solved

MIHIRA

Q. 1. Kindly throw more light on the following points. (a) What is the difference between "Suddha Pinda" and "Sodya Pinda" (Ashtakavarga)? (b) If the Lagna lord is in Lagna which Rasi would become the Arudha or Pada Lagna (Jaimini System"?

Krishna Kumar, New Delhi.

Ans: (a) Rasi Pinda and Graha Pinda may be termed as Suddha Pindas. Rasi Pinda or zodiacal product is obtained by multiplying the *bindus* (left after two reductions) in Ashtakavarga, by Rasi Gunakara of zodiacal factors. These are respectively 7, 10, 8, 4, 10, 5, 7, 8, 9, 5, 11, 12, of the twelve signs from Mesha. Graha Pinda or planetary product is obtained by multiplying the *bindus* (left after two reductions) by graha Gunakara or planetary multiplier. These are respectively 5, 5, 8, 5, 10, 7, 5 of the Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn. Sodya Pinda is the sum of Rasi Pinda and Graha Pinda.

(b) Lagna with its lord therein becomes Arudha or Pada Lagna.

---

*Q. 2. **Rasi:** Leo - Ascendant 5-51 and ketu 20-12; Libra - Jupiter 9-29; Scorpio - the Moon 20-9; Sagittarius - the Sun 21-26; Venus 16-50; Capricorn - Mercury (R) 6-22; Aquarius - Mars 22-16, Rahu 20-12; and Aries - Saturn 8-37. **Navamsa:** Taurus - Ascendant; Gemini - Saturn; Virgo - Venus; Libra - the Sun and Ketu; Sagittarius - Jupiter; Capricorn - the Moon; Aquarius - Mercury; and Aries - Mars and Rahu. Venus Dasa is on. (a) Are the rules for cancellation of debility applicable in Navamsa too? (b) Kindly suggest gems to facilitate educational pursuits.*

Sub. No. 10364.

Ans: (a) Yes. (b) Here in your case, for Venus Dasa, diamond may be preferred.

---

*Q. 3. **Rasi:** Capricorn - Ascendant 7-1, Sun 29-46, Venus 14-27 and Mercury 15-57; Aries - Mars 15-35; Taurus - Ketu 1-13; Gemini - Moon 21-44; Virgo - Jupiter (R) 7-25; and Scorpio - Saturn 19-43 and Rahu 1-13.*

The native, a female is running Mercury-Mercury since 10-1-1990. Mercury is 6th and 9th lord (long journeys) placed in Lagna (movable sign). The 9th is a common sign and houses 3rd and 12th lord Jupiter in it. Mercury is also dispositor of 7th lord (travel) in 6th. The native went abroad and lived there during Saturn Dasa-Jupiter Bhukti but came back after 2 years towards the end of Jupiter Bhukti. Subsequent Dasa of Mercury should have continued her stay abroad as Mercury is in the 6th and 9th lord dispositing 7th lord Moon in 6th and 3rd and 12th Jupiter in 9th. Mercury is also aspected by 3rd and 12th lord Jupiter from the 9th. Are there chances of native going abroad again in Mercury-Mercury, specially through marriage?

Sub. No. 17497.

Ans: Chances are weak for the native going abroad in Mercury-Mercury because Mercury is in a fixed Navamsa sign, but probable in Mercury-Saturn, since Saturn is in the 8th sign from Mercury in Navamsa.

---

*Q. 4. **Rasi:** Leo - Ascendant; Virgo - Jupiter; Libra - Venus; Scorpio - Saturn, Sun and Rahu; Sagittarius - Mercury; Pisces - Mars; Aries - Moon; and Taurus - Ketu. Will Sun Dasa give marriage or will the 7th lord Saturn joining Sun and Rahu in Scorpio deprive the native of marriage?*

Ms. Meghna Parijat, Gopalganj.

Ans: The Sun Dasa will give marriage, since the Sun being Lagna lord is conjunct the 7th lord Saturn, no matter even if Rahu is with the 7th lord.

---

*Q. 5. **Rasi:** Ascendant 32-52; Saturn 212-56; Jupiter 273-22; Moon 305-39; Rahu 30-19; Ketu 210-19; Mercury 262-36; Sun 279-36; Venus 326-38; and Mars 358-29. (a) All the planets including Lagna point are on one side of Rahu-Ketu axis forming K.S. (b) Jupiter in debility obtains Vargottama (c) The 7th and 10th lords Mars and Saturn have exchanged houses. Venus and Mars, lords of Lagna and 7th (also 6th and 12th), are in conjunction in Poorvabhadra ruled by Jupiter while the Moon is also in the 10th. (d)*

Lagna receives aspects from planets in 7th, 9th and 10th. (1) What is the impact of Kalasarpa Yoga on the chart as a whole and on the present Dasa of Rahu? (2) Does the mutual exchange between the 7th and 10th lords and the stellar influences involved therein keep the subject beyond temptations of worldly pleasures?

Sub. No. 15302.

Ans: Jupiter in debility does not obtain Vargottama since he is in 3°22' in Capricorn. The 7th and 10th lords, Mars and Saturn have not exchanged houses. Venus and mars are not conjunct. Hence there is no need for your assumption.

Q. 6. Rasi: *Gemini - Ascendant; Cancer - Saturn (R); Libra - Venus and Rahu; Scorpio - Sun and Mercury; Capricorn - Moon; Pisces - Jupiter (R); and Aries - Ketu.* ***Navamsa:*** *Taurus - Ascendant; Gemini - Moon and Rahu; Virgo - Saturn (R); Libra - mars (R); Sagittarius - Venus and Ketu; Capricorn - Sun and Jupiter (R); and Aquarius - Mercury. (a) What sort of career is indicated in this horoscope? (b) Without Jupiter in the 4th or the 10th house that is it not possible to be an engineer or in a medical field?*

Rohit R, Mulgund.

Ans: The position of Mars is not shown in Rasi. It is not improbable to be an engineer or medico without Jupiter in the 4th.

Q. 7. Rasi: *Scorpio - Ascendant 4-32; Pisces - Saturn (R) 18-57; Aries - Rahu 8-25; Cancer - Mercury 2-26, Sun 19-44, Jupiter 21-34 and Moon 22-24; Leo - Venus 20-19; and Libra - Mars 15-29 and Ketu 8-25. (a) Will the four planets in the 9th from Lagna cause Sanyasa Yoga or Raja Yoga on account of conjunction of (i) 10th lord Sun and 9th lord Moon (Badhaka lord); Konapati (5th lord) Jupiter with Kendrapati (10th lord) Sun.*

S. K. Gupta, Durgapur.

Ans: The four planets in the 9th from Lagna cause Raja Yoga, despite Mercury's involvement therein.

Q. 8. Rasi: *Cancer - Ascendant and Jupiter; Gemini - Moon; Leo - Sun, Mercury and venus; Libra - Mars and Ketu; Pisces - Saturn; and Aries - Rahu. (a) Manglik Dosha exists due to placement of Mars in 4th house. But since Mars is Yogakaraka for Cancer Ascendant, does it get cancellation of dosha? Please enlighten. At present Jupiter antar Dasa in Jupiter Dasa is going on.*

Kamal Kundra, Nashik.

Ans: Mangalik Dosha is feeble, since there is no blemish of Mars' placement from the Moon and Venus. Besides the blemish of Mangalik is unthinkable in Jupiter Dasa since both Mars and Jupiter are benefics by virtue of lordship.

Q. 9. Rasi: *Capricorn - Ascendant 7-1, Sun 29-46, Venus 14-27 and Mercury 5-57; Aries - Mars 15-35; Taurus - Ketu 1-13; Gemini - Moon 21-44; Virgo - Jupiter (R) 7-26; and Scorpio - Saturn 19-44 and Rahu 1-13. (a) Saturn's aspect to Venus; 7th lord in the 6th; powerful Mars aspecting the 7th; 8th lord Sun aspecting the 7th; Lagna lord and 7th lord in Shashtashtaka; Venus and 7th lord in Shashtashtaka. Are all these factors adding up deny marriage? I think they can only delay. Kindly examine my views. (b) The native is a well placed executive but for the last 3 years he has successively lost promotions for no obvious reasons. Is there any sign of rise in her present career or is a change seen in job in near future?*

Sub. No. 17497.

Ans: There can only be delay in marriage. Details of date of birth etc., are needed for the presage of future career.

Q. 10. Husband. Rasi: *Virgo - Ascendant; Aries - Venus; Gemini - mars; Leo - Rahu; Scorpio - Moon; Capricorn - Jupiter and Saturn; Aquarius - Mercury and Ketu; and Pisces - Sun. Present Dasa of Mercury Bhukti began on 14-7-1982.* ***Wife: Rasi:*** *Cancer - Ascendant, Mars and Rahu; Aries - Sun and Mercury; Capricorn - Moon, Saturn and Ketu; Aquarius - Venus; and Pisces - Jupiter. Present Dasa of Rahu started from 7-6-1981. Both husband and wife could not complete their advanced studies despite sincere efforts but facing severe troubles and difficulties. What is the main cause for these happenings? Is there any possibility of regaining lost fame and name and a happy life in future? what should be done?*

S. P. Sharma, Kanpur.

Ans: In the case of husband, Dasa operating is not given. In the case of wife good future can be gleaned in Sukra Bhukti of Rahu Dasa, that is after November 1992.

Q. 11. Rasi: *Taurus - Ascendant and Mercury; Gemini - Sun and Mars; Cancer - Venus; Leo - Ketu; Libra - Jupiter; Aquarius - Rahu; Pisces - Moon; and Aries - Saturn.* ***Navamsa:*** *Virgo - Ascendant and Mercury; Libra - Jupiter; Scorpio - Saturn; Sagittarius - Venus; Capricorn - Sun, Moon and Rahu; Aries - Mars; and Cancer - Ketu. The native (a girl) is very sangine and ever smiling and cries only when in extreme pain. Not at all violent. Had epileptic seizures from 13th year but it came under control after peaking in July 1989. Cut her tongue deeply around 1983 and the scar is still there. The native is mentally retarded. Lagna, Lagna lord, Chandra Lagna and Aries representing head are all subject to Papakartari Yoga heavily. Saturn's debility is distinctly cancelled. Mercury in Rasi sandhi. All planets in 2/12 to each other except Vargottama Jupiter. Does Vargottama Jupiter in the 6th have any significance? When will her condition improve?*

Ans: Details are needed for timing the probable period of health improvement.

Q. 12. Rasi: *Aries - Sun and Rahu; Taurus - Venus; Gemini - Moon; Cancer - Saturn and Mars; Libra - Ketu; and Sagittarius - Jupiter. The native is a metallurgical engineer with fairly good educational career. A very happy family life with mother, father, brothers and sisters. Father expired on 22-5-1988. Mother healthy and alive. Married on 29-5-1978. Wife doctor, gynaecologist. Has one son and one daughter, both intelligent. Native is serving as a sales executive in a multi-national company but has no prospects. Uptill now he has left 5 jobs, Lagna is Leo or Virgo. Which is the correct Lagna of the native?*

Exceptions to Kuja Dosha

Sir, - The learned Siddhanti who has compiled the *Vontikoppal Panchanga* gives some peculiar rules for cancellation of Kuja Dosha which are not found in any authoritative books on Astrology or in your books. The Siddhanti says if a native is born in (1) Aswini (2) Mrigasira, (3) Punarvasu, (4) Pushya, (5) Aslesha, (6) Uttaraphalguni, (7) Swati, (8) Anuradha, (9) Purvashadha, (10) Uttarabhadra or (11) Revati Kuja Dosha will not be operative even though Kuja is placed in Dosha houses like 1, 2, 4, 7, 8, 12. In another rule he says the aspect or the conjunction of Mercury and Venus with Mars also cancels Mars Dosha. This exception also we have not seen anywhere in other texts.

In our opinion, implementation of this rule will create disastrous results in marriage alliances.

Your views on these new exceptions will put to rest all controversy on the subject.

Horoscope of P.V. Narasimha Rao

Sir, - I request Mr. Iranganti Rangacharya to clarify the following regarding Narasimha Rao's chart (A.M. April 1992)

(i) *Selection of Brahma Graha:* Venus is the 3rd and 8th lord from the 7th and Saturn and Rahu are the lords of the 12th from the 7th. None of them are placed in a Drusya Rasi from the 7th except Rahu. So, how is Venus selected as Brahma? Instead Rahu should become temporary Brahma and the 6th planet from it *viz.*, Mercury, should qualify for Brahma.

Again, in an earlier article, Mr. Rangacharya had taught us that the said lords should be in an odd sign counted from Lagna. Here, Venus is in the 8th house, an even sign counted from Lagna. How does it qualify? Which method does he finally recommend for us?

(ii) *Selection of Maheswara:* Should we take the 2nd/8th lords from Lagna or Atmakaraka to determine Maheswara? Dr. B. V. Raman has recommended the former in his book STUDIES IN JAIMINI ASTROLOGY.

(iii) *Selection of Bahya Rasis:* For Mithuna as Arambha Rasi, the Bahya for Kumbha should be Thula or Mithuna counted directly or reverse. How does Vrischika become the Bahya Rasi? Kindly clarify these doubts.

Counselling on Fleeting Problems in Life

Sir, - In my letter (A.M. April 1992) with reference to Mr. H. R. Shankar's article (A.M. September 1991), it is found that the core of my letter is left untouched.

In Prasna due consideration is given to Nimitta. Mr. Shankar was talking with his client on phone regarding the latter's travel and employment opportunity abroad. But when Mr. Shankar was about to give a favourable reply, there was an abrupt disruption in the line. As one well-versed in Horary Astrology he would have noticed this omen as divine but did not. He had to wait till his glance finally fell on the Dasa of a planet placed in Mrityu Bhaga in the chart of another client to revise his former decision. Mr. Shankar is requested to give a clarification.

Planets in the Twelfth House

Sir, - Of the eight charts presented by the author, all (except that of the late Maharaja Madho Singh of Jaipur and late J. K. Birla) are of great academicians and administrators. In their charts (barring that of K. K. Shah) the Moon is aspected by Jupiter directly (Gaja Kesari Yoga) or from its 5th or 9th house, a feature seen in the horoscopes of a large number of people with high literary and spiritual atainments (Vide *Notable Horoscopes* by Dr. B. V. Raman). Apparently such favourable features more than offset any twelfth house deficiency which the author rightly feels is exaggerated.

An individual's prosperity may be indicated in the horoscopes of his parents or co-born. Aditya Nath Jha, who was the Lieutenant Governor of Delhi, was the younger brother of Dr. Amarnath Jha whose horoscope has been presented by the author. Discussing this horoscope the author of a book *Keraliya Jyotish* quotes a text that "when the 3rd lord is connected in some way to the 9th and 10th lords, the brother of the individual will prosper". In Dr. Amarnath Jha's chart there is `Parivartana' of the 3rd lord (also 10th lord) with the 4th lord (also 9th lord).

BOOKS ON REVIEW

(continued from page 497)

body, in the midst of everybody, but never forget your true self. " (P. 24) This involves regular discipline: "Sit upright with your spine in a straight line, top to bottom, head balanced at the top of the spine. Breathe deeply and diaphragmatically. Let go of tensions in the solar plexus until you are breathing as a baby breathes." (P. 12) Follow the Pancha Nitya Karmas: Virtuous Dining, Worship, Holy Company, Pilgrimage, Sacraments. This philosophy analyses the various layers of the mind: Conscious mind, subconscious mind, sub of the subconscious mind, sub of the superconscious mind, the superconscious mind. (P. 37) The lessons are all focused on the practical implications of the Saiva wisdom and provide beneficial reading to everyone, whatever his religious persuasion.

Karma Yoga dwells upon 'Sivathondu' which is 'serving personal Siva in form and this is a joyous event'. It is pointed out that all creation is engaged in Sivathondu and the speciality of man is that he is privileged to do it consciously. Joy through service is the motto.

Periodical

❑ **Brahmavidya**

The Adyar Library Bulletin. Vol. 54 (1990) (Theosophical Society, Adyar, Madras 20)

As usual, this latest Number of *Brahmavidya* is weighty with research papers on themes of importance. Deshpande's essay on the *Changing Conceptions of the Veda* is informative and well-documented. He surveys the scene from the Vedic age across the Upanishadic down to the Epics and after. A paper on modern developments would be welcome. Anand Amaladass on the *Dhvani Interpretation of Scripture* pinpoints Anandavardhana's analysis of the Sastra element and the Kavya in *Mahabharata*; Moksha is the main Purushartha in the former and Shanta Rasa the main sentiment in the latter. Y. Krishnan traces the development of the Ganesha-Skanda cult in India down the ages. There is a considerable Review Section which, however, could be more even. ●

Publisher and Authors of books on Astrology, Indian Culture and allied subjects are invited to send their books to the Book Reviews columns for review.

NADI JYOTISHA

(continued from page 477)

This pattern of Sthoola lordships of Nakshatras is widely in usage in the context of Vimshottari Dasa method. However, it is the Nakshatra-*pada* interrelationship that is in play that provides vital clues under Nadi Jyotisha for purposes of in-depth study.

Ancient Hindu astrological approach to understanding cosmic influences on our Earth is on two planes. One concerns mainly the natural phenomenon covering changing of seasons and climate, gales and rainfall, earthquakes and tidal waves, epidemics and such other calamities. It is a study concerning the influence of cosmic forces on physical plane. Ravi is the pivotal point of study of this aspect and the Equinoxes that mark the change of course of Ravi along the path in its apparent motion are the Primary point of reference for all calculations and working.

The other plane on which the study proceeds concerns life on this earth. All studies covering life processes, human activities and working of human mind, which are governed by Karma forces, are centred round Chandra as Chandra is "Carrier" of these Karma forces. Accordingly all working and calculations in this context are based on movement of Chandra

along the path of symbolic Nakshatras and *padas*, with Chitta Nakshatra as the point of bisection of the Nakshatra path. Nadi Jyotisha concerns itself exclusively with understanding of the working of human destiny and accordingly the entire working rests on Nakshatra-structure. This is an empirical approach charted by ancient sages with their realised knowledge. Wisdom, more than scientific temper, is needed to draw benefit from this knowledge. — 42.92.

GEMS AS ASTROLOGICAL REMEDIES

(continued from page 482)

Dasa and facing problems in his married life, profession, health and finances. After studying his horoscope, a gem for Jupiter, the 2nd and 5th lord, was suggested. Within a year, his ailment vanished. He earned more than Rs.50,000/- in share business. He bought 2 plots of land around Bangalore. Also his family life became peaceful and happy.

As the saying "prevention is better than cure" goes, people should wear gems as early as possible so that they can prevent bad results or at least the intensity of bad results could be reduced.

I hope people will take advantage of gem therapy and use gems as a preventive measure. Sometimes we have to prescribe more than 2 or 3 gems. Normally good results can be expected within a year of wearing gems. — 43.92. ●

Planets and Career Counselling

ANURADHA

Q. 1. My son has a good academic record but has not been able to get a good job so far. What are his chances of success in life?

K.B.T.

Born 11-8-1967 at 3.45 p.m. (IST)

SAT.	RAHU		
	RASI		SUN JUPIT. MERC.
			VENUS
ASCDT.		MOON MARS KETU	

Ans: The 10th lord Mercury is in the 8th with exalted Lagna lord Jupiter and 9th lord Sun. The 10th house is aspected by Saturn. The involvement of the 8th house and Saturnine factors can give initial frustration. Mercury Bhukti of Jupiter Dasa has begun and therefore with transit Jupiter's entry into Virgo in September 1992, your son can expect to land a good job. The Dasa on is of the Ascendant lord Jupiter and therefore, can indicate progressive elevation in career.

Q. 2. I have 2 sons and a daughter. I am employed comfortably but am not happy. Rahu Dasa has just started. I would like to do something which will earn me name and fame. I certainly do not want to continue in this line. Please advise.

S.N. 17970

Born 21-7-1956 at 10.30 p.m.

JUPIT. MERC. SUN	RASI		MARS
	ASCDT.	SAT. RAHU	MOON

	KETU	JUPIT.	
MARS	NAVAMSA		
	VENUS MERC. MOON	RAHU	

Ans: Rahu Dasa, you say, has just begun and Rahu can give very fanciful and impractical ideas if he has afflictions. Here Rahu is Vargottama aspected by Lagna lord Mars and can give happy results if no changes are made, unless there are solid, tangible safe opportunities available. Saturn, a strong malefic is with Rahu, and the two occupy the 12th house, the house ruling losses. That would indicate any grandiose plans for business or investment would only end up in smoke. It is better you curb this listlessness and put your energies to constructive use in the form of pursuing some good hobbies and involving yourself in some humanitarian occupation.

Q. 3. My brother finished Ayurvedic graduation in 1979 after which he set up private practice. But

it has not been successful, and he is without work and penniless. Will things improve?

S.N. 16200

Ans: The 10th lord Saturn, also a Yogakaraka in this case, is in the 7th with Rahu (debilitated but gets cancellation of debility) and has Digbala here. He has exchanged signs with 7th lord Mars. The Dasa of Sun did not help at all since the Sun, though in his own sign, is aspected by 7th and 12th lord Mars and is joined by malefic Jupiter. The Moon Dasa has just begun. The Moon is Vargottama and is aspected by 2nd and 5th lord Mercury from his sign of exaltation. Therefore, with the advent of Mars Bhukti (Mars has exchanged signs with Yoga-karaka Saturn), that is, in early 1993, your brother will be able to find a lucky break coming his way.

Q. 4. My son has appeared for the XII class Board exam under CBSE from Delhi. He is interested in studying engineering. Will he be successful in the competitive exams?

S.M.

Born 20-8-1973 at 1.10 a.m. (IST) at 20 N 26, 85 E 56.

Ans: The 10th house is aspected by the present Dasa lord Venus who, in turn, is aspected by 10th lord Jupiter. Both planets are in debility but obtain Neechabhanga. In Navamsa, the 10th lord Jupiter is in Aries, a fiery sign and can indicate a career in engineering. Since the period now comes under the last Bhukti of Venus Dasa, your son may face certain temporary setbacks in his studies now but there is nothing to be worried about.

Q. 5. My son will be taking his CA Inter either in November 1992 or May 1993. Will he be able to become an Accounts Executive in a reputed firm thereafter?

S.N. 17677

Born 18-3-1954 at 12.00 noon at 13 N, 80E 18.

Ans: The 10th lord Sun is quite strong in the 5th aspected by 5th lord Jupiter. Jupiter as 5th lord is also fortified being in the Ascendant aspected by sign dispositer Mars. The native is running Rahu Bhukti of Saturn Dasa upto October 1993. Therefore, he may be able to pass the exam in May 1993. Jupiter Bhukti may help him find a good job. ●

How is June 1992 for You?

UTPALA

Major Transits

The Sub transits Taurus till 13th and then enters Gemini. Mars in Pisces move into Aries on 4th. Mercury in Taurus enters Gemini on 6th and then moves into Cancer on 21st. Jupiter continues his progress in Leo. Venus transits Taurus till 13th and then enters Gemini. Saturn continues his motion in Capricorn getting retrograde there on 2nd. Rahu and Ketu continue their counter clockwise motions in Sagittarius and Gemini respectively. Jupiter continues his transit in Leo.

Mesha (Aries)

General: Mars in the 12th and 1st and Saturn in the 10th are both unfavourable unrelieved by any check on their evil propensities. The Sun in the unfavourable 2nd till 13th with check transits afterwards the favourable 3rd. Jupiter in the 5th is fully favourable. Venus in the favourable 2nd and 3rd yields to Vedha from 13th. Mercury in the favourable 2nd till 6th with Vedha transits thereafter the adverse 3rd till 21st when he moves into the favourable 4th with Vedha. The general results are of a mixed nature with good effects having an edge over the evil ones. You will not have any problems in the field of finance. In fact there will be accrual of money. You will launch new undertakings. You should guard yourself against deceit by your so-called friends. Bharani is better than Aswini and Krittika.

Health and Domestic: This is not a bad month for health. Weakness and general debility may be present during the first week. The period may give some relief to chronic patients. Domestic life will be, on the whole, peaceful and harmonious. One of your sons is likely to land a good job in a reputed business house.

Finance and Speculation: The month will be satisfactory for all financial matters. You will be able to settle your past financial commitments on favourable terms. Speculative transactions will yield good profits during the second half.

Real Property, Services, Professions etc.: You are advised to proceed cautiously in dealing with real estate matters. It is advisable to postpone all transactions, major and minor, to more favourable periods. Services will find the month quite satisfactory. The second half shows better promise for professions and businesses.

Women: New contacts will enliven social life. Social workers will be invited to shoulder greater responsibilities in recognition of their past good work. This is a satisfactory month for employed girls.

Students: You could make good progress in studies if you want to. You will be successful in tests and interviews. Medical students are particularly favoured. You will have an enjoyable and memorable picnic in the company of the opposite sex during the first half.

Saturn are under check throughout. Mars in the favourable 11th during the first four days transits afterwards the adverse 12th. Mercury in the unfavourable 1st during the first six days with check transits afterwards the favourable 2nd till 21st when he moves into the adverse 3rd with check. Venus in the favourable 1st and 2nd yields to Vedha till 13th. The result is that evil results are far more in evidence. You should develop your will-power to counteract the evil and maintain even tenor in your activities without attempting to resort to short-cut and unorthodox methods to achieve success. Krittika is better than Rohini and Mrigasira.

Health and Domestic: Health troubles in one form or another will be present throughout. Chronic patients should take adequate care to avoid an aggravation in their ailments. Children's health my cause mild concern. Domestic life may present minor problems during the first half but harmony and peace will prevail during the second half.

Finance and Speculation: Though the Dhanakaraka is not favourable the lord of the 2nd is helpful to you from 6th to 21st. With the efficient use of your managerial skills you will be able to tide over your financial difficulties. Speculative deals may yield good profits from 6th to 21st.

Real Property, Services, Professions etc.: You are likely to experience difficulties in the realisation of dues from tenants. Litigation with adjacent property owners is likely. Services, professions and businesses may have to keep their fingers crossed.

Women: You should take care of your functional health. You should curtail club and social activities considerably. You will have difficulty in balancing the domestic budget. Working girls should be very careful in dealing with their superiors.

Students: You are advised to refrain from sports and athletic activities in view of your proneness to physical injuries. Vidyakaraka will assist you greatly in your efforts to concentrate on studies and make good progress. Contacts with the opposite sex are better reduced as far as possible.

Chandrashtama occurs from evening of 15th to evening of 17th.

Mithuna (Gemini)

General: The Sun in the 12th and 1st, Jupiter in the 3rd and Saturn in the 8th are all adverse; the Sun is under check from 4th till the end and Saturn throughout. Mars in the 10th and the 11th is fully favourable. Mercury in the unfavourable 12th and 1st till 21st with check from 4th to 6th transits afterwards the favourable 2nd. Venus in the favourable 12th and 1st yields to Vedha from 13th. In a month of mixed results the bad side will be more in evidence. As criminal proceedings are likely to be initiated against you, you should scrupulously follow the laws of the land both in letter and spirit. Aridra is better than Mrigasira and Punarvasu.

Health and Domestic: Stomach and rectal complaints are denoted by the adverse transits. Those suffering from chronic diseases pertaining to stomach should be particularly careful. Relations outside the family circle are likely to give trouble. You will have peace and harmony in the domestic field during the first half; you may have major domestic problems during the second half.

Finance and Speculation: You may have to face financial worries during the month. Income will shrink and expenditure may increase considerably. Speculative transactions are likely to yield profits during the first half.

Real Property, Services, Professions etc.: Paradoxically this is a very good month for real property transactions. You will largely mitigate your financial difficulties. Labour is likely to prove restive. Setbacks are unavoidable for services. Businesses and professions may have to face obstacles during the month.

Women: It is advisable to curtail considerably your social activities. Your enthusiasm in social work is likely to be misunderstood by your senior colleagues. Employed girls are likely to be handed memos by their superiors for explaining their indifferent performance in their office work.

Students: You are likely to be offered permanent commission in the engineering branch of the army and you will do well to accept the offer. As quarrels are indicated by more than one transit you should avoid unnecessary talks in and outside the family.

Chandrashtama: occurs from early morning of 20th to midday of 22nd.

Simha (Leo)

General: The Sun in the 10th and the 11th and Saturn in the 6th are both favourable making an allowance for the yielding to Vedha by the Sun from 13th. Mars in the 8th and the 9th and Jupiter in Janma are both adverse. Mercury transits the favourable 10th and 11th till 21st, yielding to Vedha during the first six days and moves into the unfavourable 12th afterwards with check. Venus in the adverse 10th till 13th transits afterwards the favourable 11th. The month has more favourable influences. Gains, rewards and increase in authority are indicated. You should, however, guard against a tendency to fall from ideals. Poorvaphalguni is better than Makha and Uttaraphalguni.

Health and Domestic: Barring minor complaints you will be generally free from health troubles during the month. Chronic patients having stomach troubles should be careful. Children's health may cause some mild concern. The first half does not hold out any promise of domestic peace but you will have harmony during the second half.

Finance and Speculation: Notwithstanding the adverse posture of the Dhanakaraka the financial affairs will be generally satisfactory in view of the powerful and favourable support of the lord of the 2nd during most days in the month. You are likely to get income from unexpected sources. Speculative transactions should be avoided during the month.

Real Property, Services, Professions etc.: The month is not likely to be satisfactory for any real property transaction. It is advisable to postpone all decisions, major and minor, on property deals to more favourable periods. You will be able to resolve your labour problems with satisfac-

Chandrashtama occurs from morning of 22nd to early hours of 25th.

Kanya (Virgo)

General: The Sun in the unfavourable 10th till 13th with check transits afterwards the favourable 10th with Vedha. Mars in the 7th and 8th, Jupiter in the 12th and Saturn in the 5th are all unfavourable. Mercury in the adverse 9th during the first 6 days transits afterwards the favourable 10th and 11th yielding to Vedha. Venus in the favourable 9th till 13th transits thereafter the adverse 10th with check. The bad side will be more in evidence during the month. You should be extremely careful and should not transgress the law of the land in any manner whatsoever as criminal prosecution is indicated by the adverse transits. Hasta is better than Uttaraphalguni and Chitta.

Health and Domestic: Urino-genital organ troubles are likely to worry you during this month. Those suffering from chronic diseases should take extra care of their health. Health or affairs of spouse may cause annoyance. Domestic life will be peaceful and harmonious during the first half but the conditions may deteriorate during the second half.

Finance and Speculation: This is an outright unsatisfactory month for finance. Expenditure may increase considerably for various purposes. Pressure from creditors will be somewhat severe. You may also incur losses in certain transactions. This is not a period for speculative transactions.

Real Property, Services, Professions etc.: Income from land and buildings will tend to go down. Disputes with adjacent property owners may arise. You will be able to appease the restive labour in a satisfactory manner. Obstacles will be numerous for services, professions and businesses and nothing is to be anticipated by way of improvement.

Women: It is mainly in respect of their health that the women should be careful. You will find conditions rather disappointing in club and social life. Romances should be avoided altogether. Working girls should avoid unnecessary talking in the office.

Students: Games and sports involving violent physical activities are not recommended during this month in view of your proneness to physical injuries. You could make very good progress in studies provided you make up your mind to concentrate on them.

by joy and good health. Your self-confidence will stand by you throughout the month. You will undertake a long journey which will result in benefits to you. You are likely to expand your business during the second half. Swati is better than Chitta and Visakha.

Health and Domestic: You will have minor health complaints during the second half of the month, but quick and complete recovery is assured by the favourable transits. Chronic sufferers will find the month less troublesome. Domestic life will be, on the whole, peaceful.

Finance and Speculation: The financial matters will be, on the whole, satisfactory. There are, however, some indications of losses and you should, therefore, be extra careful to reap the benefits of the favourable posture of the Dhanakaraka during the second half. Speculative transactions are not recommended during this month.

Real Property, Services, Professions etc.: You are likely to experience difficulties in the realisation of rents from tenants. Yield and rentals are likely to go down. Speculation-*cum*-investment activities are better avoided during this month. Services will thrive well especially during the second half. Professions and businesses will find the period satisfactory.

Women: The month will be satisfactory for the fair sex. They will be able to climb up the social ladder during this month. Club life will be quite lively. Employed girls will find the month quite satisfactory.

Students: The month will be satisfactory from several points of view. You will come out successful in tests and interviews. Medical students are particularly favoured. You will have an enjoyable and memorable picnic in the company of the opposite sex during the second half.

Vrischika (Scorpio)

General: The Sun in the adverse 7th and 8th is under check throughout. Mars in the unfavourable 9th till 4th transits afterwards the favourable 6th. Mercury in the adverse 7th till 6th with check from 4th transits afterwards the favourable 8th till 21st when he moves into the unfavourable 9th with check. Jupiter in the 10th is none too good. Venus in the adverse 7th till 13th with check transits afterwards the favourable 8th. Saturn in the 3rd is fully favourable. The favourable influences will be more in evidence during the month. You will gain influence and authority through association with the higher-ups in political circles. You will undertake a long journey and the result will be quite profitable. Anuradha is better than Visakha and Jyeshta.

Health and Domestic: Stomach troubles are likely to worry you during the first half. These will, however, yield to ordinary medical treatment quickly. Children's health may cause mild concern. Chronic sufferers may have to resort to prophylactic measures. Domestic peace will elude you during the first half. The conditions will, however, improve during the second fortnight.

Finance and Speculation: Nothwithstanding the adverse posture of the Dhanakaraka, you will be able to meet your financial obligations, thanks to timely assistance from your friends. Expenditure will be within limits. Speculative transactions are not recommended during the month.

Real Property, Services, Professions etc.: This is a good month for all real property transactions. You will be able to strike a few good deals at advantageous prices. All the labour problems will be resolved by you satisfactorily. The month cannot be said to be very satisfactory for the services. The period will not be bad for professions and businesses.

Women: Your social contacts will help you to achieve very good results in your business activities. You are advised to be cautious in love affairs. The second half shows more promise for working girls.

Students: This is a good month for you from the point of view of both studies and sports. You could make excellent progress in studies if you want to. The Vidyakaraka will assist you. You will shine very well in the field of sports and athletics.

Chandrashtama occurs from early hours of the 2nd to early morning of 4th and again from afternoon of 29th till the end.

Dhanus (Sagittarius)

General: The Sun in the favourable 6th till 13th transits thereafter the adverse 7th with check. Mars in the 4th and 5th, Venus in the 6th and 7th and Saturn in the 2nd are all unfavourable. Mercury in the favourable 6th during the first six days with Vedha transits afterwards the adverse 7th till 21st with check till 13th; he then moves into the favourable 8th afterwards. The Dhanakaraka Jupiter is, however, fully favourable. While you will not have any financial problems during the month, the events in the month will convince you that money alone is not sufficient to yield happiness. Moola is better than Poorvashadha and Uttarashadha.

Health and Domestic: You are likely to have eye troubles practically throughout. You should seek assistance from ophthalmic surgeons immediately. Chronic patients may have to face an aggravation in their ailments. You should exercise great tact and patience if you are keen in saving domestic peace and harmony.

Finance and Speculation: In an otherwise unsatisfactory month you will not have any financial problems. The old dues which you had practically written off will be recovered. Investments in public issues of equities will give you handsome and quick returns. Speculative deals are not recommended during the month.

Real Property, Services, Professions etc.: Major real property deals are better postponed to more favourable periods. The labour will be restive. The month is favourable for the services. This is a routine month for businesses and professions.

Women: The period will be reflected in broken social engagements, unpopularity in club and restlessness of mind. Jupiter will, however, help you greatly in your attempt to regain peace of mind. Employed girls are likely to find the month somewhat trying.

Students: Research students in social sciences are particularly favoured. You will be successful in tests and interviews. Social contacts with the opposite sex should be curtailed as far as possible. You are advised to cut down your sport activities.

Chandrashtama occurs from early hours of 4th to morning of 6th.

Makara (Capricorn)

General: The Sun in the adverse 5th till 13th with check transits thereafter the favourable 6th with Vedha. Mars in the favourable 3rd during the first four days with Vedha transits afterwards the unfavourable 4th. Mercury in the unfavourable 5th during the first six days transits thereafter the favourable 6th with Vedha till 21st when he moves into the adverse 7th with check. Jupiter in the 8th and Saturn in Janma are both unfavourable unrelieved by any check on their evil propensities. Venus in the favourable 5th till 13th transits afterwards the adverse 6th with check. The evil influences will be predominant during the month. You should resist a temptation to fall from right conduct and ideals. Uttarashadha is better than Sravana and Dhanishta.

Health and Domestic: Bilious and urinary complaints are indicated by the adverse transits. As the planetary influences indicate an aggravation in your present ailments, chronic sufferers should resort to prophylactic measures. Domestic matters will require tactful handling to enable you to keep home life on an even keel.

Finance and Speculation: While there is likely to be a cut in your regular income, your expenses will increase considerably. You may also incur losses in certain enterprises during the first half. This is not a month for speculative transactions.

Real Property, Services, Professions etc.: Damage to property and crops is likely through unforeseen causes. You may also experience difficulties in dealing with tenants, Government authorities and adjacent property owners. Conditions of work and remuneration are not likely to be encouraging for the services. Professions and businesses are likely to have a lean month.

Women: The emphasis is on expenditure which, if not controlled, is likely to land you in a financial mess. You should be very careful about your functional health. Working girls should steer clear of politics in their place of work.

General: The Sun in the 4th and the 5th and Saturn in the 12th are both unfavourable; the Sun is under check from 4th to 13th. Mars in the unfavourable 2nd during the first four days transits afterwards the favourable 3rd with Vedha. Mercury in the favourable 4th during the first six days with Vedha from 4th to 6th transits thereafter the adverse 5th with check till 21st when he moves into the favourable 6th. Jupiter in the favourable 7th yields to Vedha from 4th till the end. Venus in the 4th and the 5th is fully favourable. In a month of mixed results the favourable influences have the upper hand. You will be successful in your business undertaking. You are likely to visit holy places with the members of your family. Satabhisha is better than Dhanishta and Poorvabhadra.

Health and Domestic: Minor health troubles are likely. No serious consequences will, however, arise. Chronic patients are likely to find the period somewhat trying. Domestic bliss of a high order will be vouchsafed to you.

Finance and Speculation: The period will be, more or less, satisfactory for finances. An unexpected financial legacy is likely to be conferred on you. You should curb a tendency to run after every public issue of equities. This is not a good month for speculative transactions.

Real Property, Services, Professions etc.: You will have a profitable month in the real estate field. Acquisition of new property is indicated. Labour is likely to cause considerable worry to you. This is a satisfactory month for services, professions and businesses.

Women: Love affairs are likely to blossom into happy wedding, with the consent and blessings of elders on both sides. You are likely to enlarge your social contacts with good advantage to you. The month will be quite satisfactory for working girls.

Students: Army commissions are likely to be offered to you. Those pursuing technological courses in engineering are particularly favoured. Those interested in fine arts will find the month quite soul-satisfying.

Meena (Pisces)

General: The Sun in the favourable 3rd till 13th transits afterwards the adverse 4th with check. Mars in the 1st and the 2nd and Jupiter in the 6th are both unfavourable unrelieved by any check. Venus in the 3rd and the 4th and Saturn in the 11th are both favourable; Venus yields to Vedha throughout except between 4th and 13th. Mercury in the unfavourable 3rd during the first six days with check transits thereafter the favourable 4th till 21st with Vedha till 13th; he then moves into the adverse 5th. The month will be, on the whole, satisfactory. Increased authority and influence are indicated. Renewal of contacts with old influential friends will prove quite beneficial to you. You will undertake a long journey which will yield good results to you. Revati is better than Poorvabhadra and Uttarabhadra.

Health and Domestic: You are likely to undergo surgical operation for the removal of cataract in your left eye. You will get back your vision after the operation. The month cannot be said to be satisfactory for chronic patients. Children's health is likely to cause mild concern. The month will be, more or less, satisfactory for domestic peace and harmony.

Finance and Speculation: The posture of the Dhanakaraka is severe. Even so, you will be able to meet

SANSKRIT: THE PLANETARY LANGUAGE

(continued from page 492)

by, not only in its representational meaning but equally in its vibrational purity, is sourced in a greater harmony, a truth beyond the habitual boundaries of self-consciousness. This is perhaps the most significant reason for Sanskrit's great attraction. Almost effortlessly, one may maneuver the instrument or vehicle provided by the enchanting harmonies of Sanskrit beyond the grip of self-consciousness and limitation, and enter a meditative state, a sense of freedom from what people normally struggle hard to transcend.

What I have described so far makes Sanskrit sound like the easy road to happiness and enlightenment. This is the catch. Most people in the West who have attempted to learn it, have given up in utter frustration. "Most people" are our society's brightest intellectuals studying in our most esteemed universities, Harvard, Berkeley etc. which tend to be the places where the study of Sanskrit is offered.

Do not be discouraged. Sanskrit is completely accessible to anyone who chooses to learn it. It is a matter of switching to the mode of consciousness whereby Sanskrit is accessible.

The prior mode is the one where each individual strives to get ahead, be better. The result is a fragmented consciousness in which one's assessments of "how I am doing - getting better or worse in comparison to others" - are constantly interrupting one's natural presence and power to see and listen and enjoy. It seems as if nothing could have been more perfectly designed than Sanskrit for getting our heads and hearts aligned to the truth that we are one: No one of us will ever be better. Unless we have just as much concern for everyone around us as for ourselves, we are not really going anywhere. In applying this to a model for learning, it is important to understand that we really begin to learn profoundly. The remarkable effect of this is that it creates a clear field for learning, in which every individual is given the space, the time, attention and nourishment needed to understand something which is really absolutely beautiful and inspiring, not difficult and painful, as has been the belief.

In retrospect, it becomes clear that Sanskrit, a language of crystalline purity of nature itself, a language which resonates harmonically with the very substratum of life and the dimensions of a universal mind, must be learned in a clear space, an atmosphere which is free from fear and judgment, an atmosphere where compassion and unity prevail.

Astrology And Women's World

Q. My son is 33 years old and after an unsuccessful proposal in 1983, still remains unmarried.

S.N. 12767

Born 4-7-1959 at 10.55 a.m. (IST) at Ludhiana

Ans: The Ascendant is occupied by the Kalatrakaraka Venus, who, therefore, aspects the 7th house. Yogakaraka Mars (in debility) also aspects the 7th house; so does 7th lord retrograde Saturn (R). A mixture of influences on the 7th tend to delay marriage but not deny it.

Venus Bhukti is on in Jupiter Dasa. Marriage is likely during this period, especially in 1993.

Q. My youngest daughter met with a serious railway accident on 16-4-1991 and her right foot had to be amputated to save her life. She wears an artificial limb now. What does the future hold for her and will she able to get a compassionate husband?

S.N. 16390

Born 26-12-1971 at 0.45 a.m. at 23 N 23, 85 E 23.

Ans: The Ascendant is aspected by Vargottama Moon and 8th lord Mars, the 2 planets in turn being aspected by Jupiter. This makes the girl fiercely independent minded but also mature. The Ascendant lord Mercury is with the 7th lord Jupiter which is a good sign for cordial marital relations. Further Jupiter also aspects the 7th house which means, she will have an understanding and co-operative husband.

The 5th and 6th lord Saturn aspects 7th lord Jupiter while 8th lord Mars occupies the 7th. This could delay marriage till about the 29th year.

The 10th lord Mercury is in a martian sign and the 10th house as well as Lagna are aspected by Mars which indicate a career also. Since Jupiterean influences are involved, the girl could plan for a teaching career.

Q. My son's marriage was fixed in April 1991 but got cancelled at the last minute. When will he get married?

S.N. 15913

Born 30-4-1956 at 6.30 a.m. (IST)

Ans: The Dasa of Mars will begin in July 1992. Mars as Ascendant lord aspects the 4th house and in turn is aspected by exalted 9th and 12th lord Jupiter. Therefore, he can bring about marriage after his Dasa begins. The influence of Jupiter on the Ascendant lord may give an arranged match.

Q. My daughter is mentally retarded. She also stammers a little. I have tried without success for her marriage. Will she get a groom at all?

S.N. 18065

Born 17-11-1962 at 3-15 p.m. (IST)

Ans: The 7th houses both from Lagna and Chandra Lagna have strong influences of Saturn showing much effort will be needed in the matter. However, the 9th lord Jupiter aspects both Venus (7th lord) and the 7th house and can indicate marriage after Venus Dasa begins. Venus being the 2nd lord and aspected by 9th lord Jupiter, the girl will, in spite of her drawbacks, be provided for.

Q. The marriage of the doctor whose chart is given took place in June 1990, but the marriage has not been consummated because of physical inability. Both families have been thrown into despair. Is there a remedy available?

S.N. 13437

Born 27-1-1956 at 1h. 36m. at 17 N, 81 E 46.

Ans: We see here the Ascendant Scorpio is with Mars.

Astrological Activities

INDIAN COUNCIL OF ASTROLOGICAL SCIENCES

Patna Chapter Inaugurated

The Patna Chapter of Indian Council of Astrological Sciences was inaugurated of February 29, 1992 at a function held at A. N. Sinha Institute of Social Studies, Patna. Dr. B. V. Raman presided over the function.

The function began with an invocatory chant by Dr. Rama Sen of Magadh University. Mr. R. K. Narayan, Vice-President, ICAS and Chairman of Patna Chapter welcomed the guests and expressed gratitude of the people of Patna to Dr. Raman and Mrs. Rajeswari Raman for coming all the way from Bangalore to participate in the function.

Mrs. Rajeswari Raman lighted the lamp marking the formal inauguration. She was assisted by Mrs. Lakshmi Narayan, Ms. Anita Narayan and Ms. Manisha Mukul.

Mrs. Rajeswari Raman in her inaugural address spoke on Yoga and its utility in the present day world of tensions for the benefit of mankind.

The morning session was addressed by Messrs. K. N. Rao, U. S. Pulippani, A. V. Sundaram, K. Subrahmanyam, M. N. Kedar, N. P. Thareja, Dr. K. N. Prasad, K. K. Pathak, R. R. P. Sinha, Dr. B. N. Jha, Pradeep Soni, Binod Charan Sinha, Miss Savita Jain and others.

The 22nd Managing Committee meeting was held at 3 p.m. the same day. Dr. B. V. Raman presiding over the meeting, expressed happiness over the opening of the Patna Chapter of ICAS. He praised the services of Mr. R. K. Narayan, Vice-President, ICAS and others and complimented the Chapter for its active work and achievements.

On the 29th February 1992, Dr. B.V. Raman addressed a press conference at Hotel Maurya in the Darbar Hall. Mrs. Rajeswari Raman, Mr. K. N. Rao and Mr. R. K. Narayan participated in the conference.

Rotary Club of Pataliputra

Dr. Raman later addressed the Rotary Club of Pataliputra in the evening. The meeting was attended by the cognoscenti of Patna.

Welcoming Dr. Raman and other participants, Mr. T. B. Jain, President of the Rotary Club, expressed his gratitude to Dr. B.V. Raman and Mrs. Raman for having consented to address the Rotary Club.

Dr. Raman in his address dwelt on the various aspects of Astrology. He said that Astrology was a science of tendencies and prediction did not imply fatalism. It was only one's aptitudes or leanings for a specific occupation that could be ascertained from the horoscope. Today in Western countries there was realisation that Astrology could be of immense value in the selection of brides and bridegrooms, so that the incidence of divorce could be reduced to some extent. He regretted the mis-representation of Astrology by the media. Mrs. Rajeswari Raman spoke on the utility of Yoga for women and discussed its various aspects in the cure of psychosomatic diseases.

Mr. K. N. Rao in his address cited an example in which he had told an IAS officer that there was a certain combination in his horoscope, indicating that Mangal Sutra would be tied twice by him to the same girl. Interestingly, the Chief Secretary Mr. Arun Pathak in his subsequent address confessed that the facts stated by Mr. Rao were absolutely correct and it was he who married the girl, now his wife, in a Gurudwara and then again later according to traditional Vedic rights.

Mr. R. K. Narayan spoke about the achievement of Dr. B. V. Raman and Mrs. Raman in the fields of Astrology and Yoga respectively. He said that Dr. Raman had the singular distinction of having written serialised books on Astrology which could help an ardent student to learn and understand the science in depth. He had also the distinction of having the longest stint of over 54 years as an Editor.

All India Conference, Patna

Hon'ble Justice Bimal Chand Basak, Chief Justice of Patna High Court inaugurated the two-day conference by lighting a lamp on 29-2-1992. Earlier Mr. U. S. Pulippani, Secretary of ICAS, rendered the invocation chant followed by Mr. R. K. Narayan's welcome address when he gave an outline of the activities of the Patna Chapter of ICAS.

Dr. B. V. Raman was the Chief Guest. Mrs. Raman and Mr. S. K. Kelkar were guests of honour. Mr. Arun Pathak, the Chief Secretary of Bihar was the chief speaker. The conference was presided over by Mr. K. N. Rao. Messrs. U. S. P. Hippani, A. V. Sundaram, N. P. Thareja,

ASTROLOGY AND WOMEN'S WORLD

Saturn and Rahu. This is a strong affliction since sign Scorpio is involved. The Dasa is of Mercury who is in the 12th from the 4th; and in the 7th from the Moon. The 7th lord Saturn with reference to the Moon in Scorpio has strong afflictions being with Rahu in the 5th and aspecting the 7th. But the good points in the chart are Vargottama Lagna lord Mars and Vargottama Moon in their own signs which are rejuvenating factors. Therefore, if sufficient will-power (Ascendant lord in Ascendant) is exercised to fight perversions and prayers made (9th lord Moon in the 9th) with the advent of Ketu Dasa, normal married life can be had. The 7th lord Venus is in the 4th with Digbala and benefic Jupiter aspects him holding promise of normalcy.

Astrologically yours,

Arundhati

Justice B. N. Sinha, K. Subrahmanyam, M. N. Kedar, J. N. Sharma, Vinod Charan, K. K. Pathak, Prof. D. D. Guru, Dr. Charak and Col. Gaur were present on the occasion. Dr. B. V. Raman released the Souvenir which was received by the Chief Secretary Mr. Arun Pathak.

Justice Bimal Chand Basak in his inaugural address felt that Astrology was an ancient science which helped men in many ways. He emphasised the need for a scientific approach towards Astrology. This ancient science should be explored in the modern context for the benefit of mankind.

The Chief Secretary Mr. Arun Pathak spoke on the various aspects of Astrology in a lucid manner. Dr. B. V. Raman in his address referred to his association in the 40's with Bihar's Chief Minister Dr. S. K. Sinha, who used to correspond with him regarding his personal matters. He praised the exhaustive book *Jyotish Ratnakar* in Hindi by Dr. Sinha's elder brother Mr. Devaki Nandan Singh.

Dr. Raman explained at length how Astrology was being utilised today in respect of profession, marriage, diagnosis and prevention of diseases and predicting weather and earthquakes in advance. He felt a computer meant for casting horoscopes could not interpret a horoscope like human beings. Astrology, he said, was something divine and the correct interpretation of horoscopes rested on one's experience and intuitive capacity.

Mrs. Rajeswari Raman spoke on Yoga for women. Yoga could relieve one from tensions and various kinds of diseases. Mrs. Raman, Founder Director of Sri Surya Prakash Institute of Yoga for Women at Bangalore, has imparted lessons in her institute to many people including celebrities who have been benefited immensely.

Mr. S. K. Kelkar emphasised the importance of constellations in making forecasts. Earthquakes could be predicted in advance and there was a strong co-relation between eclipses and earthquakes, he said.

Mr. K. N. Rao spoke about the research and teaching work being done under his guidance by the Delhi Chapter. He said that the Patna Chapter should also start teaching Astrology and take up research work on the pattern of the Delhi and Poona Chapters.

A vote of thanks was proposed by Dr. Ashok Kumar Sinha, who also compered the conference.

Technical Session

The technical session on 1st March 1992 under the guidance of Messrs. K. N. Rao and S. K. Kelkar, had several participants such as Pandit Ram Das, Vladimir Tonchuk, Dr. K. S. Charak, Messrs. U. S. Pulippani, M. N. Kedar, A. V. Sundaram, Sanjeev Ranjan Mishra, N. P. Thareja, J. N. Sharma, Harjeet Singh, Binod Charan Sinha, Dinesh Varma, Kumar Umesh Chandra and R. R. P. Sinha.

Dr. B. V. Raman attended the session briefly before leaving for Bangalore *via* Delhi. He said that it was possible to reveal the vocation and degree of success of an individual from the general strength of the horoscope, the natural significator of the tenth house and the different Yogas. The Dasamsa and the situation of the lord of the Navamsa, Dwadasamsa, the Shashtiamsa and Nadi Amsa merited serious attention, he said.

Mr. K. N. Rao said that in-depth research on professional indications and patterns, level of rise, deviations and obstructions and post retirement life had been undertaken by a team of over twenty astrologers on over five hundred horoscopes. He explained technically the in-depth methodology of research going on under his guidance.

Mr. S. K. Kelkar who presided over the session spoke about the different professions and stressed the need for the use of Nakshatras.

The first session dealt with Astrology and profession. The second session was devoted to planets and wealth. Mr. U. S. Pulippani spoke on Panchapakshi while Mr. A. V. Sundaram, Joint Secretary of ICAS, spoke on Nadi Astrology. Messrs. U. S. Pulippani, A. V. Sundaram and M. N. Kedar presided over the technical session.

Mr. R. K. Narayan compered the technical session. It was a successful All India Seminar with fair representation from different regions of the country.

A vote of thanks was proposed by Mr. Sheonandan Prasad, Life Member, ICAS.

Conference at Sironj (M.P.)

A conference of astrologers was held under the auspices of Pandit Kripa Ram Mishra Jyotish Peeth, Sironj, on 19th and 20th January 1992, Pandit Radhakrishna Shrimali (Jodhpur) presiding. The chief guests were Pandits K. P. Mudgil (Delhi), Vinayakpal (Modinagar) and Kailashpati (Ashok Nagar).

From Left to Right: Pt. Motilal (Co-Convener), M.C. Bhandari (Convener), Hon'ble Sri Giridhar Gomango, Union Minister of State for Food Processing, Sri Vasant Sathe, former Union Minister and Swamy Chinmayanand.

The highlight of the function was a Yagna for national welfare.

Dr. Prem Bharti, Messrs. Sanjay Joshi of Bhopal, S. C. Thakur of Dewas, D. N. Tiwari, A. S. Bapat, A. K. Sharma of Narsimhapur, M. P. Singh, G. P. Chaturvedi of Vidisha, Prof. Sanglikar, Vineet Tiwari, Pt. M. K. Bhargava of Basoda, B. P. Dixit of Gyaraspur, K. B. Tiwari (Mandla), C. B. Shastri of Chhabra and Mrs. Premlata Bhargava took part in the proceedings.

Blessings for the success of the conference were received from Dr. B.V. Raman, Chief Editor, The Astrological Magazine, Pt. Hardeo Sharma Trivedi, Swami Satyamitranand, Mr. Digvijay Singh, M.P. and Mr. Vidyaniwas Mishra, Vice-Chancellor Dr. Sampoornanand, Sanskrit University, Varanasi.

A souvenir was published on the occasion. A vote of thanks was given by the Convener Mr. Omkar Lal Sharma.

Tantra Conference

A two-day National Conference on the "Right Perception of Tantra" was organised by Bharat Nirman on the 1st and 2nd February 1992 at the Constitution Club, New Delhi. The Conference was inaugurated by Mr. Giridhar Gomango, Union Minister of Food Processing. Mr. Vasant Sathe, former Union Minister, was Guest-in-Chief and Dr. (Mrs.) Kapila Vatsyayan was the principal speaker. About 200 Tantra experts and scholars participated in the Conference.

The Conference was primarily aimed at educating people on Tantra as a form of Sadhana and all-round development.

According to Mr. M. C. Bhandari, Convener of the Conference, Bharat Nirman will set up a Guidance Bureau to guide people to approach Tantra in the right perspective and to discourage quakery in this area. The present social and economic problem, faced by India, was due to crude materialisation of life and discarding of spirituality. Tantra would charge the public mind with the thoughts of spirituality, he said.

Important amongst those who participated in the Conference were: Dr. Lokeshchandra, Mrs. Amrita Pritam, Pt. Motilal (Co-Convener), Dr. Badrinath, Dr. Kumar, Dr. Acharya Prabhakar Mishra, Dr. B. M. Samsukha, Mr. B. M. Sinha, Dr. Indra Goswamy, Ms. Madhu Khanna, Mr. Vasant Joshi, Mr. Rajendra Avasthi, Dr. Gafurova, Dr. D. N. Rai, Mr. Shyam Sunder Vats, Pt. Kailashpati, Mr. Pooran C. Joshi and other well-known personalities.

Gandhiya Jyotisha Parishad

The inauguration of Jibananda Jyotirvidyalaya and a Navagraha Yagnya were performed on the 7th March 1992. The Chief Minister of Assam Mr. Hiteswar Saikia, Dr. Hemaprava Saikia and the Education Minister of Assam, Dr. Bhumidhar Barman attended the function.

In his inaugural speech Mr. Saikia said that Gandhiya was the main astrological centre in Assam. The Government of Assam, he promised, would provide all necessary help to the astrologers of Gandhiya. It may be mentioned here that the Chief Minister Sri Saikia accorded financial help of more than a lakh rupees to construct the building.

Astrological Conference at Calcutta

The Fifteenth Annual Indian and Western Astrological Conference was held on the 15th and 16th February 1992 at the auditorium of State Labour Welfare Centre on Manicktola Main Road, Calcutta 54 under the auspices of the Astrological Research Project with much pomp and grandeur.

A large number of astrologers and astrological savants from all over India, Bangladesh, Nepal etc., attended the conference as delegates, including Mr. U. S. Pulippani, Secretary of the Indian Council of Astrological Sciences (Madras), Mr. H. R. Shankar, a well-known contributor to The Astrological Magazine and Mr. S. S. Gopalan, a keen sympathiser.

Among the galaxy of dignitaries adorning the dias at the inaugural session, Mr. Saral Deb, the Hon'ble Minister of Co-operation, West Bengal; the Hon'ble Justices of the Supreme Court and Calcutta High Court, Mr. Murari Mohan Dutt, Mr. Bhagabati Prasad Banerjee, Mr. Sudhangshu Sekhar Ganguly, Dr. B. V. Raman, the most eminent man of today in astrology, Mrs. Rajeswary Raman, an exponent of Yoga, former Vice-Chancellors of Universities, Dr. Manindra Mohan Chakraborty and Dr. Nimai Sadhan Bose are worth mentioning.

After inauguration of the two-day conference, Astrological Exhibition, Book Fair, Computer Horoscope display etc., the dignitaries on the dias delivered their speeches mainly putting stress on the need for thorough research and development of astrology with a view to place it on modern scientific basis and serve the cause of mankind and establish its authenticity. Several speakers also demanded formal recognition of astrology by the State for its introduction in the Universities as a subject of study.

On the first day of the conference, in his inaugural address, Dr. Raman spoke on the scientific basis of astrology, refuting the state objections of the critics. A few days earlier the "Statesman" had carried an attack on astrology by one Prof. Amalendu Bandopadhyaya. Dr. Raman gave a fitting reply to his critics saying that it was a pity that many of our educated persons still depended on ideas borrowed from western thinking and concepts.

The inaugural session was followed by the convocation ceremony when a large number of successful students of the Institute of Astrological Research Project received their Diplomas, titles and medals from Dr. B. V. Raman and Mrs. Rajeswari Raman. Dr. Raman also felicitated the delegate-astrologers by awarding them gold medals and titles on behalf of the Project. Gold medals and titles were also awarded to astrologers for their articles on astrological topics selected on merit. Besides, selected members of the Project were honoured presentation of "Varaha Mihira" and "Aryabhata" memento awards and titles.

Mrs. Rajeswari Raman was felicitated on this occasion in a befitting manner.

On the second day, the Astrological Session consisting of seminars on topics under different divisions of astrology as earmarked were held under the chairmanship of Dr. Raman and the delegates actively participated in the discourses.

Dr. Raman spoke on "Pitfalls in Predictions" and explained the subtleties

and intricacies involved in deciding on the correct time of birth and in interpreting horoscopes. He also dealt briefly with the standardisation of the Hindu almanac.

Lastly, there was a session of "Meet the Audience" wherein technical questions were invited from the audience and answers given by well-known astrologers on the dias.

On both the days of the conference the big auditorium was packed to capacity. The news of the conference was duly broadcast by the All India Radio and telecast by the Calcutta Doordarshan and also reported in the local dailies with due importance.

Dr. Raman thanked the young and enterprising Pt. Ramakrishna Sastri for conducting such a conference every year. He said that Pandit Sastri's service to the cause of the astrology merited appreciation.

The General Secretary of the organisation Prof. Jamini M. Chatterji spared no pains to make the conference a success. —SKR ●

5) Already answered above.

6) See remarks under Q.3. He might start as an apprentice and will end up as a successful businessman due to the 10th lord exchanging houses with debilitated 11th lord and the 10th lord exchanging houses with debilitated 11th lord and the 10th house occupied by the 5th and the 9th lords also.

7) Health will be always a problem, since the 6th lord Venus is in Moon Navamsa. Lack of vitality, inability to withstand strain, suffering veneral diseases or affliction to urinary system, are possible as the Sun and Ketu are together with debilitated Venus (6th lord). exchanging house with Mercury and the Moon being in the Gandanta. Nervous breakdown is possible during Venus-Rahu, Venus-Moon periods. Best medical system suited to him is *Ayurveda or Siddha* (Ketu, Venus, Sun in the house of remedies).

8) The following Yogas might benefit him or influence him after Balarishta period is over.

Benefic: Bhagya, Shankha, Raja yogas - to mention a few.

9) Mother might be suffering menstrual irregularity right from the birth of this child since the Moon is in debilitation and in the 8th place from the 4th lord and the 4th house is aspected by the 12th lord. But it seems his mother will live only till his age of 14 or near abouts. We cannot give definite answer to this unless we examine the horoscopes of his father and mother. (The 4th house occupied by Rahu and aspected by Sukra, Mangal and Surya).

10) Remedies: He should wear *Amrita Mrityunjaya Taweez* (the Moon in debilitation), duly consecrated, recite daily *Maarkandeya Krita, Mrityunjaya Stotra* and also visit Shiva temples and offer *puja* on Mondays. After 14 years of age, he must wear Rudraksha (Shanmukha during Venus Sun period onwards). His mother should offer prayers to Devi Amrita Varshini on all Thursdays, taking a vow, (as the 4th lord is in the 5th house).

Sanskrit, as a language, has got certain extraordinary superiority. A superficial knowledge of that language is not enough to understand the real meanings of Slokas (Stanzas) of *Vaaraahi Hora*. Bhattopala and Govinda have only selected ten of the twenty - five chapters of *Vaarahi Hora* for writing notes because they were convinced that these ten chapters will help an astrologer to understand the mind of the great author and help handle the subject objectively. The other chapters are only appendices to the said ten chapters.

Astrology handles the two difficult but essential species *viz*, Kaalam (Time) and Desam (space). It has different branches, *viz.*, Jaataka, Prasna, Muhurta, etc. But, for handling the subject effectively and satisfactorily, one (Astrologer) should be thorough with the subject, in its minute details. He must have an unbiased analytical mind, perception, divine gift, knowledge and wisdom.

Dasaadhyayee refers to contemporary works and it employs liberally Katapayaadi system of arithmetic. Each word used by Mihira has a numerical value attached to it. For instance the first word in the first stanza "Moortitwe" indicates 465. The first stanza itself declares how many stanzas are there in the book, how many compound letters have been used, how many chapters are there and so on. Each word of each stanza is capable of numerous interpretations. Thus a deep study of *Dasadhyayee* and its interpretation makes an astrologer a real and gifted Jyotiswi. ●

THE ASTROLOGER AND THE MODERN POLITICIAN

(continued from page 473)

could be said to nearly over". The small sentence of carefullly and cautiously chosen nine words encompassed a whole range of predictions, including the end of Rajiv Gandhi's life. When I read the prediction, I intuitively knew what my distinguished friend had conveyed in those nine words to the world. Nothing more and nothing less.....In fact many issues of THE ASTROLOGICAL MAGAZINE have already become rare collector's item. Practically to-day no one wishes to part with the past issues of the journal. They are priceless possessions.

K: ..... As soon as it was published, practically all the leading politicians heard about it... and I tried to seek astrological advice from Mrs. Vasudev.... but it is next to impossible to meet her. In fact.... just between you and me.... I know one of her brothers and he told me because of the demands of A.M., how long even he had to wait to get some astrological advice from her. By the by.... don't quote me to her.

R: ..... I understand that..... I know her very well... the odds of anyone having such a command over Astrology and the English language is one in a million. She is a simple person, and is the modern combination of Saraswati and Varahamihira. A mix that occurs only once in a decade or generation. She has brought Astrology and astrologers to great heights of popularity and respect among people of all walks of life.... In fact.... I like to end this discussion with an interesting story. Mrs. Vasudev and I, whenever she gets some time, review politics and politicians from the astrological angle. Some years ago... while reviewing the future of Pakistan in AM, she had predicted that Benazir Bhutto would become the Prime Minister of Pakistan.... but the icing on the cake of this prediction was that she would also lose the position very quickly. This was when General Zia was at the top of power in Pakistan. Typical of me, I had laughed at that prediction with a comment that between the military and the religious zealots in Pakistan, any woman would be the last person to have even an iota of a chance of occupying the highest political position. Benazir became the prime minister and was later removed from power. I was proved wrong. Astrology in the hands of a capable-astrologer is the greatest gift to mankind. Her prediction in this instant was extraordinary because the social and political climate in that country was such that not even the best political pundit had come out and said that Benazir Bhutto, a woman, had even a ghost of chance to become the nation's leader. I am still hypnotized from the astonishing prediction... We can continue to talk about the remarkable achievements of modern astrologers under adverse circumstances.. but it looks like we should do it some time later.... Coming to your own horoscope, I will cast your horoscope according to modern astronomical data after you furnish the required information. Here is your "janma-patrika" paper....

K: Ramji..... I do not have the birth data with me. I will send the information through my assistant. Perhaps, as you say, the ego in me, especially because I am a high profile politician, picks up a speed that sometimes I cannot even control. Many words come out at that time.... but they are not out of my heart but from my mouth and head. In this country of Buddha, Adisankara, Mahavira, Gandhiji and others, politics has become somewhat dirty and tainted because of the politician's greed to be in power at all costs, regardless of the welfare of the country or its people. Many words I said in our discussion are due to the influence of the unhealthy political culture that surrounds ambitious people who live most of their lives on the fringe of power or enjoy power for short time. Politics and politicians to be of any service to the nation or her people must always be aware of the fact that their power is people-power and not personal-power. I have made some mistakes. Perhaps this meeting and discussion with you may be a divine blessing and guidance for me to really help people if I ever have another chance to become a chief minister. In any case, I will try my best. But I hope you understand it will take time to gradually improve the current political culture and climate in this country.

I hope we can meet soon. Again... while deep in my heart I have great respect for Maryadapursha Sri Rama, and Lord Shiva, I hope God will forgive me if I unintentionally use uncouth words towards the divinity and our culture. Ramji.... Thank you. May God Bless you! Namaskar!

R: I will be looking forward to receiving your birth data. We will meet on Wednesday and review your horoscope relative to your political ambitions and desires. May Lord Shiva bless you. Namaskar!

The elder sister of this native had an incurable blood disorder for which she underwent a bone marrow transplant in the Tata Memorial Hospital in Bombay.

The BK, Moon, is heavily afflicted in the 6th from Lagna receiving no benefic aspect. The bone marrow transplant was a failure. The disease became incurable during the terminal part of Tula Dasa (first half of 1989). BK is in 8th from Tula. Tula is also aspected by Sun, Mars and a combust Venus. The patient died in Kanya (afflicted by RKA and Saturn) - Makara.

by Mahadeva, is aspected by the planet. In Rasi, Mercury is with Ketu which cannot be overlooked as Ketu is often times said to give results akin to Mars.

Mercury is the Ascendant lord and the ruler of the core of Dennis' personality. Mercury is afflicted and gives a sick *buddhi* as *buddhikaraka* and a morbid psychological complex. Mercury also afflicts Karmasthana and gives the needed thrust to push the native into the commission of cruel acts.

Virgo rising has Jupiter in it, somewhat of an enigma in a killer's chart. But this, we will examine later.

The 10th house has Vargottama Moon in Gemini with Rahu. Mercury opposes both from a cuspal degree from Sagittarius and for all practical purposes can be taken to be more Scorpio-oriented than Sagittarius.

There is also Mars-Saturn conjunction in the 11th house which apparently does not seem to materially affect any vital factor in the chart. But if we take a look at the longitudes of the planets, the Moon in Gemini, ruled by a weak Mercury, shifts to between Rahu and Saturn coming under a circle of malevolent influences. Mercury in Moola is in a Kendra from the Moon and this mutual disposition of *buddhikaraka* and

manahkaraka is itself some kind of a demoniac Yoga going by the name of *Paisacha*.

Jupiter in Lagna should have shown up in some way but apparently did not, or our man would not have indulged in the spate of killings he was convicted of. Jupiter occupies Chitta. The Lagna is in Chitta. The all-pervasive power of Mars on Lagna is evident especially that Mercury has little strength, being where he is.

The killings took place in Mercury Dasa and the Dasa lord is weakly but dangerously placed in the chart. The period 1978 to 1983 is covered by the Bhuktis of Sun (in part), of the Moon, Mars and Rahu — all severely afflicted planets. The Sun is not too badly placed but occupies Scorpio, a sign of much evil significance if other afflictions are present as in this case.

Peter Sutcliffe, better known as the "Yorkshire Ripper" has Scorpio rising (Chart 5) with Ketu in it aspected by the Sun and Mercury-*cum*-Rahu. The Lagna is caught in the grip of the nodal axis with the Sun and Mercury (*buddhikaraka*) thrown in. The Sun is the 10th lord (*Karmasthanadhipati*) and his being eclipsed in the company of the *buddhikaraka* can carry but grim forebodings.

Mahadeva's dictum makes an appearance in this chart too in slightly different form. The Lagna is Scorpio ruled by Mars (and so the factor of the association of Mars becomes redundant). Mars in Pisces Navamsa is with Ketu and Ketu again is in Lagna in Scorpio in Rasi carrying with him a concentration of the martian influence.

This man was married, of unstable behaviour and working as a truck-driver. The Moon in the deeply emotional Cancer is flanked by Mars and Saturn showing a cauldron of intense emotions boiling within the man. Devoid of any sensitivity, such natives can be cold-blooded, ruthless and with a volatile temper. This man followed and waylaid 18 women, killing 13 between 1975 and 1980.

The 10th lord Sun is afflicted and Mercury equally ill-placed robs the native of any sense of

right and wrong, not only at the mental level but also on the operational plane.

Mercury Dasa was running when the "Ripper" indulged in the killings. It is again Moon, Mars and Rahu who rule the Bhuktis during the period when these misdeeds were perpetuated.

The common factor in all these charts is a severely afflicted 10th house showing the kind of Karma (deeds of commission) the natives are capable of. The afflictions to the Lagna or its lord and the Moon (upsurge of emotions) and the evil influences on Mercury (faculty of discrimination) have led to an inability to control passions or think clearly and consequent confusion driving them to acts of a disruptive nature. The Mars-Saturn influences give a frightening coldness and a heart devoid of feeling, all essentials to an act such as the taking away of human life in circumstances that do not warrant it.

Mahadeva's dictum is present in these charts of killers and in different disguised forms. But it cannot by itself produce a potential murderer. The Mars connection figures high in the charts of homicides but a weak Moon, an afflicted Mercury and an adversely placed 10th house must also be present to strengthen the martian evil in the chart. No single factor can exclusively create potential of an extreme kind — this way or that. It is the sum total of many factors that goes into the making of the complex mind of the killer. Somewhere, the Lagna, the 5th and the 9th lords too figure in the chart emphasising that right effort and at the right time can help in diffusing the killer potential and channelise it into positive channels and constructive activity.

Notable Horoscopes

By BANGALORE VENKATA RAMAN
(6th Edition)

Pre-eminently a research treatise, this book discusses the horoscopes of seventy-seven outstanding personalities of not only recent but also ancient history. The horoscopes of kings, saints, politicians, statesmen, scientists, authors, poets, industrialists, killers as also of royal figures are discussed in detail establishing the co-relation between the main events and traits of the native and astrological factors in the chart.

The book is aimed not only at the scholar but also the layman student of Astrology.

A preliminary knowledge of predictive Astrology and its principles is needed for appreciating this volume. It is an excellent guide to understand how the fundamental principles formulated by ancient Rishis have to be modified and adapted to modern and changing social, economic and political conditions to understand the astrological personality of each chart.

Dr. Raman dissects and analyses with wonderful insight and precision the factors that go to make one a sinner, saint, philosopher, king, king-maker, scientist, business-magnate, literatteur and even a maniac.

Each chart has been subjected to a thorough and scientific study by Dr. Raman. For the beginner this is a dependable text while for the research student it offers qualitative analysis of various planetary aspects and combinations, Dasas and Bhuktis and Gochara influences as leading to important events in life. Rajayogas, Daridra Yogas and others and their practical application are explained lucidly.

An excellent guide for mastering the technique of interpretation, this volume is bound to be of invaluable help to the students and practitioners of Astrology, both from the Orient and the Occident.

Some of the horoscopes discussed in these pages include those of Sri Krishna, Adi Sankara, Akbar, Alexander, Gautama Buddha, Jesus Christ, Prophet Mohamed, Augustus, Goethe, Aurangazeb, Gandhi, Ramakrishna Paramahamsa, Vivekananda, Tilak, B. Suryanarain Rao, Aurobindo Ghose, Ramana Maharshi, Sri Thyagaraja, Sri Vidyaranya, Rabindranath Tagore, Hitler, Mussolini, Abraham Lincoln, Subhas Bose, Jagadish Bose, Milton, Savarkar, Barnard Shaw, Godse, Stalin, Nehru, Eisenhower, C. R. Das, Ashutosh Mukherjee, Sree Chaitanya, Karl Marx, Farouk, Nero, Duke of Windsor etc.
